Congressional Record

PROCEEDINGS AND DEBATES OF THE 101st CONGRESS, FIRST SESSION

SENATE—*Wednesday, November 8, 1989*

(Legislative day of Monday, November 6, 1989)

The Senate met at 10:15 a.m., on the expiration of the recess, and was called to order by the Honorable WYCHE FOWLER, JR., a Senator from the State of Georgia.

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray:

Have not I commanded thee? Be strong and of a good courage; be not afraid, neither be thou dismayed: for the Lord thy God is with thee whithersoever thou goest.—Joshua 1:9.

Gracious God, our Father in Heaven, full of mercy and love, we were reminded at breakfast this morning by Senator THURMOND that Thou dost never leave us nor forsake us. We thank Thee for Your abiding and unceasing presence with us, whatever our circumstances, whatever our condition, in pleasure and in pain, in joy and in sorrow, in strength and in weakness, in triumph and in tragedy, You never leave us.

Forgive us for our indifference. Forgive us that we so seldom take You seriously. Forgive us for the loneliness and frustration we bring upon ourselves because we fail to trust You.

Mighty Lord, as You know the needs of every person who labors in the Senate, help us to go through this day, confident in Your faithfulness and Your love. In Jesus' name, whose love is unconditional, universal, and eternal. Amen.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore [Mr. BYRD].

The assistant legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, November 8, 1989.

To the Senate:

Under the provisions of rule I, section 3, of the Standing Rules of the Senate, I hereby appoint the Honorable WYCHE FOWLER, JR., a Senator from the State of Georgia, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. FOWLER thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. Under the standing order, the majority leader is recognized.

THE JOURNAL

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Journal of the proceedings be approved to date.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

SCHEDULE

Mr. MITCHELL. Mr. President, this morning following the time reserved for the two leaders there will be a period for morning business until 10:45 a.m., with Senators permitted to speak therein for up to 5 minutes each. At 10:45, the Senate will resume consideration of the minimum wage bill, H.R. 2710, with votes likely relative to that measure this morning and during the day.

RESERVATION OF LEADERSHIP TIME

Mr. MITCHELL. Mr. President, I reserve the remainder of my leader time and I reserve the entire leader time of the distinguished Republican leader.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order there will now be a period for morning business to extend until the hour of 10:45 a.m., with Senators permitted to speak therein for up to 5 minutes each.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. WIRTH. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

THE WHITE HOUSE EFFECT ON GLOBAL WARMING

Mr. WIRTH. Thank you, Mr. President.

Mr. President, yesterday a number of us, the majority leader, the distinguished Senator from Tennessee [Mr. GORE] and others, took the floor and spoke about the regrettable position taken by this administration at the ministerial level global warming meeting in The Netherlands.

For several weeks, we urged the White House to send EPA Administrator Reilly to The Netherlands with a strong policy to assert United States leadership on this important issue. We heard that there are those in the White House who said we only need to study this issue more and no action should be taken.

I can imagine that those individuals who do not want to take any action are feeling very successful this morning. As was reported this morning across the Nation, the United States has now successfully blocked a meaningful agreement that would have set us on a course to protect the global environment.

The United States has blocked action. The United States prevailed, a watered-down communique was issued, and the conference is over. It is a bit like the Senate passing a sense-of-the-Senate resolution; the rhetoric sounds very nice, but it does not mean much.

● This "bullet" symbol identifies statements or insertions which are not spoken by a member of the Senate on the floor.

On this issue, that fairly characterizes this so-called White House effect on the urgent problem of global warming. This was not a White House effect; this was a whitewash and nonaction.

I do not want to belabor this issue, Mr. President, but we should. This is the most important issue that mankind is going to face for the remainder of this century and well into the 21st century. It is not going to go away.

I was interested in reading the transcript of the President's press conference yesterday in which he was attempting to explain the U.S. position. In his response to a question about the global warming issue, I could not help but notice the irony of the President's statement.

The President remarked about the quality of the U.S. scientific community. He said, "I can tell you that U.S. science is the best in terms of global warming." I could not agree with the President more.

Our best scientists are telling us that it is not a question of whether the Earth will warm, but by how much and how fast. If the President wants to boast about the quality of our science, why does he not pay attention to our scientists?

Yesterday when I spoke, Mr. President, I asked, what is wrong with these people? Why is it that the White House has dug in its heels? Why is it that in the face of overwhelming evidence, they insist on doing nothing and now proudly have blocked an international effort to start to deal with the global warming issue?

I have been thinking since then, Mr. President, why is that? What has happened? Maybe this issue is new. Maybe the global warming issue is something that has come upon us so rapidly that they have not had a chance to adopt any policy.

It is not new, Mr. President. This issue has been around for more than a century. We fully understand the theory of the greenhouse effect. For well over 20 years, we have had good measurements of the increase of greenhouse gases. For the last decade, we have seen increases in the temperature of the globe. The evidence is not new. So we dismiss that.

Maybe there is a conflict of evidence in this. Maybe some scientists are saying some things and some are saying the other. But that is not the case either, Mr. President. The evidence is very clear that there is a very broad consensus in the scientific community. This is not a question of if the globe will get warmer, but how much, how fast. So we can dismiss a conflict-of-evidence argument.

Maybe there is an enormous economic cost, and this is what they are worried about, Mr. President. But the economics of this issue would play for us. We use twice as much energy in the United States per unit of capital as our competitors in Japan and Germany do.

Why not embark upon an aggressive program of energy conservation? Why not embark upon an aggressive program of alternative energy at a time when we are now 50-percent dependent upon imported oil? These kinds of measures which happen to be good for global warming are also good for our economy and good for our national security. So clearly the rationale for White House inaction should not be economic cost.

Maybe they are suggesting, Mr. President, the U.S. role in this is just too small. After all, we are only 6 percent of the world's population, and we should not worry; we are a very small percentage of what is going on in terms of human activity in the world.

But that 6 percent of that population is creating about 25 percent of the carbon dioxide and over 30 percent of the chlorofluorocarbons that are going into the atmosphere. Clearly that cannot be a reason.

Maybe it is a cynical reason that the White House has backed off, Mr. President. Maybe they are just waiting in some way for 1992. Maybe they are going to embark upon a major breakthrough program in early 1992, and then go out and try to fool the American electorate and say to the American electorate, "Look, we discovered the problem and now we are going to solve it."

I hope that kind of cynicism does not characterize this administration. It might characterize Mr. Atwater and Mr. Ailes, but I certainly do not think it characterizes the attitude of the President of the United States on the environment.

This is not new evidence, Mr. President; this is not a conflict of evidence; this is not an economic cost issue; it is not an area where the U.S. role is too small; I would not think there is this kind of political cynicism. So why are the people in the White House resisting so thoroughly?

The only conclusion I can come to, Mr. President, is simply ignorance. They do not know. So why do they not take it upon themselves to find out? Mrs. Thatcher has had a high-level briefing; Chancellor Kohl has had a high-level briefing; in 10 days. President Gorbachev is going to have a briefing at the highest level. Why does not this President learn something about this issue and call in experts at the highest level?

Let us get rid of this kind of foot-dragging, Mr. President. The responsibility of the United States to lead is overwhelming. It is time that we do so. Let us stop being proud of being obstructionist. Let us start being proud once again of a leadership role that we should confirm once more for this country.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the New York Times, Nov. 8, 1989]

UNITED STATES, JAPAN AND SOVIETS PREVENT ACCORD TO LIMIT CARBON DIOXIDE

(By Paul Montgomery)

NOORDWIJK AAN ZEE, THE NETHERLANDS, November 7.—Objections by the United States, Japan and the Soviet Union at an international conference here thwarted endorsement today of a specific timetable for curbs on emissions of carbon dioxide.

The dissidents among the 68 nations participating agreed, however, that stabilizing carbon dioxide emissions in industrialized countries would have to be enforced at some point. William K. Reilly, the head of the Environmental Protection Agency, who led the American delegation, said it was the first time the United States had embraced the principle.

Excess carbon dioxide, produced largely by burning coal, petroleum and natural gas, is responsible for at least half the atmospheric pollution that traps solar heat like a greenhouse and contributes to atmospheric warming.

ISSUE OF CLIMATE CHANGE

The conference, bringing together environment officials for two days of non-binding discussions, was called to consider the problem of climate change. Western European nations had hoped for a final declaration that would commit the participants to limiting carbon dioxide emissions to an agreed level by the year 2000. Most countries wanted to set the level at the carbon dioxide produced in the industrial world in 1988, and many wanted consideration of cuts up to 20 percent in the agreed level by 2005.

In Washington, President Bush was sharply criticized by members of Congress from both parties, including the Senate majority leader, George J. Mitchell, Democrat of Maine, and Senator John Heinz, Republican of Pennsylvania, for resisting the action on global warming that other countries wanted. The President said today in a news conference that the United States cannot be driven by "the extremes" of a policy that calls for a carbon dioxide stabilization or reduction timetable.

Mr. Reilly made clear yesterday that the Bush Administration's policy was to avoid specifics at least until the United Nations-sponsored Intergovernmental Panel on Climate Change makes its final report next November.

In the debate about carbon dioxide levels, Japan has generally sided with the United States in calling for further study before decisive action. The Soviet Union and other East European nations have opposed limits on the grounds that they do not have the money to spend on meeting them.

In the United States, the adoption of carbon dioxide limits would probably means laws requiring more fuel-efficient automobiles, use of fluorescent rather than incandescent light bulbs and extensive tree planting.

Most of the debate was over one paragraph stating the conference's view on curbing carbon dioxide emissions in industrialized countries. In the end the declaration stated that stabilization should be achieved at levels to be considered at the meeting next November.

Environmentalists attending as observers said they were "very disappointed" by the

declaration. "Less than six months ago in Paris, President Bush talked of the urgent need to reduce carbon dioxide emissions," said Brooks Yeager of the National Audubon Society. "Now the White House has sabotaged the first international effort to make good on the President's words. This is not the way to lead the world."

[From the Washington Post, Nov. 8, 1989]

NATIONS PASS RESOLUTION ON ENVIRONMENT—UNITED STATES, JAPAN ACCUSED OF BLOCKING PROGRESS

(By Glenn Frankel)

NOORDWIJK, THE NETHERLANDS, November 7.—Under pressure from the United States and Japan, an international conference on global warming today unanimously passed a compromise resolution that refrains from setting firm goals for reducing carbon dioxide emissions, the major cause of the so-called "greenhouse effect."

American environmental groups attending as observers accused the Bush administration of sabotaging the conference. "The president made a commitment to the American people to deal with global warming, and he hasn't followed it up here," said Rafe Pomerance of the World Resources Institute, a policy research center.

After a long night of back-room negotiations, conference leaders acceded to U.S. and Japanese demands that they drop a paragraph committing the industrialized nations to hold emissions to the present level and eventually cut them by 20 percent.

Instead, the final draft merely acknowledges "the need to stabilize" emissions and notes that "many industrialized nations" believe such a goal should be reached by the year 2000. It does not stipulate the level of emissions it wants stabilized, saying that setting this goal should be put off until a world climatological conference scheduled for November 1990.

"A large group of countries said yes to stabilization and some others have yet to make a decision," said Ed H. Nijpels, the Dutch environment minister, who named the United States, Japan and the Soviet Union as the three main dissenters. The Soviet Union supported the U.S. and Japanese position but was not active in the negotiations. Seventy-one countries attended the ministerial-level meeting, the first to deal solely with global warming.

Environmental groups said the compromise statement amounted to a step backward in international efforts to counter global warming, considered by many scientists as the most serious ecological issue facing Earth. Scientists believe that a build-up of carbon dioxide emissions is contributing to the current rise in the temperature of the planet's lower atmosphere. Some scientists fear the phenomenon could lead to the flooding of coastal areas and an expansion of deserts.

"The concept of stabilizing CO_2 emissions, without any commitment to the level at which stabilization will occur, must be regarded either as a failure of nerve or a cynical ploy," said Brooks Yeager of the National Audubon Society.

But William K. Reilly, administrator of the Environmental Protection Agency and leader of the American delegation here, insisted that the U.S. position did not contradict President Bush's public commitment to "lead the world" toward solving the problem.

"We did not come here prepared to make a commitment to stabilize emissions by the year 2000," said Reilly. "We regard this conference as a very important event but we don't regard it as the main event."

[In Washington, The White House released a statement saying the United States agreed with other industrialized nations at the conference that stabilization of carbon dioxide should be achieved as "soon as possible."]

Reilly told a press conference that the United States was not prepared to commit itself to deep cuts in emissions of carbon dioxide until it had developed further research on the scientific causes of global warming and the economic consequences of reducing emissions.

The nine-page declaration did contain several important advances, according to environmental activists here, including a commitment to 30 million acres of annual reforestation and a pledge that governments would work to adopt an international treaty on global warming by 1992. "There are some good building blocks here," said Pomerance.

The declaration also includes a commitment to explore methods of funding for Third World countries to help them lower emissions, but no specific pledge of money.

Some European ministers, who had pressed for the tougher draft resolution that the United States opposed, joined environmentalists in expressing disappointment.

Britain had originally supported the U.S. position but backed away this morning and endorsed the majority position that targets should be set.

[From the Washington Post, Nov. 8, 1989]

TRANSCRIPT OF PRESIDENT BUSH'S NEWS CONFERENCE

GLOBAL WARMING

You're probably ready for this one, but you campaigned as an environmentalist and said you were a strong environmentalist. Yet on the issue of global warming, it seems that the U.S. is being dragged kicking and screaming into trying to address this problem. How do you respond to that?

I respond to it by saying it's not true.

Why are you resisting the moves in this international conference now?

We're just standing off against extremes. We have a unanimous communique out of that global conference. We have an outstanding environmentalist in [EPA Administrator] Bill Reilly. We have an outstanding scientist in [presidential science adviser] Dr. [D. Allan] Bromley. They agree that our approach to all of this is right. And I think we cannot be—this policy of the environment cannot be driven by the extremes.

But I would like to take your question to challenge the United States Congress to go forward on the revisions to the Clean Air Act, on other initiatives that we have supported, instead of sitting back there and carping about it. And if they don't like our way, go ahead and try it and then add to it in later years. But they sit there and argue back and forth with each other, and nothing happens.

In this global conference, I can tell you United States' science is the best in terms of global warming. And we will be in the lead as we are now with our science on global warming. But you can't take a policy and drive it to the extreme and say to every country around the world, "You aren't going to grow at all." We've got to use our science to help solve this problem.

[From Time magazine, Nov. 6, 1989]

WHY BUSH SHOULD SWEAT

(By Strobe Talbott)

When George Bush proclaimed himself the environmentalist candidate in an outdoor campaign speech on Aug. 31, 1988, he had to mop his brow several times as he spoke. Last year was the hottest ever recorded, spurring a debate among scientists as to whether the mercury was registering proof of the "green-house effect." Carbon dioxide and other chemicals are spewed into the atmosphere by the burning of fossil fuels like coal and gasoline: the gases trap radiation that has come from the sun and that would otherwise escape into space. The result is global warming: over time, sea levels will rise, droughts and floods could become more extreme, and tropical storms may rage more destructively.

But Bush's message was reassuring: "Those who think we're powerless to do anything about the greenhouse effect are forgetting about the White House effect. As President, I intend to do something about it." He should be held to that promise not just by his own countrymen but by the whole world. The U.S. with 5% of the earth's population, produces nearly 25% of all the CO_2 from fossil fuels.

Reducing those emissions by any meaningful degree will require tough new federal standards for automobile fuel economy: government-sponsored inducements to make production of electricity by utilities—as well as consumption by homes and businesses—more efficient: and a major research-and-development program for alternative sources of energy. So far, the Bush Administration has not pushed for any of those measures. Nor has it proposed or endorsed any legislation mandating cuts in CO_2 emissions.

Energy and transportation policies control what comes out of a nation's smokestacks and exhaust pipes. Yet there has been little coordination among the Environmental Protection Agency and the U.S. Departments of Energy and Transportation.

In the '88 campaign and in some of his presidential statements earlier this year, Bush accepted the proposition that the time to act is now. But the Commerce and Interior departments have waged constant guerrilla warfare against any effort to make good on the President's prior commitments. Meanwhile, the President's chief of staff John Sununu has taken to questioning aspects of the greenhouse theory. There is room for debate over the exact magnitude of climate change that will result from CO_2 emissions, but no respectable scientist denies that if humanity keeps pouring gases into the atmosphere, the earth will heat up. The U.S. has spent several trillion dollars over the past 40 years buying insurance against Soviet nuclear attack. Global warming, by contrast, is not just a risk but a certainty. It would be a shame if quibbling and ambivalence on the part of some Bush aides were to play into the hands of those who are looking for an excuse to do nothing.

Next week environmental officials from around the world will meet in the Netherlands to discuss concerted steps on CO_2 emissions. The U.S. will be there, but probably without a policy. In February the U.S. will be host to an international conference on climate change in Washington. Bush is expected to address the conference. The temperature in the hall will probably be more comfortable than it was when he gave his "I am an environmentalist" speech in the hot summer of 1988. But unless he has

more to show on the greenhouse effect than rhetoric, the President should be mopping his brow anyway—at least in embarrassment, and perhaps in anxiety for the future of the planet.

[From the New York Times, Nov. 8, 1989]

GLOBAL LUKEWARMING

George Bush's campaign pledge to pay more attention to the environment was good news coming after eight years of Reagan indifference. His early appointments were generally sound, his proposals challenging, his words bullish. "Those who think we're powerless to do anything about the greenhouse effect," he trumpeted, "are forgetting about the White House effect."

Where has this ardor gone? In a pattern distressingly like the Administration's disarray over Soviet policy, infighting and conflicting signals now obscure the clarity of Mr. Bush's original commitment on at least two priority issues.

GLOBAL WARMING

Environmental questions are dauntingly complex, and solving them requires painful trade-offs between conservation and economic growth. The so-called greenhouse effect is no exception: experts disagree on just how serious it already is. But no respectable scientist denies that pouring gases like carbon dioxide into the atmosphere will eventually cause the earth to warm up, with consequences that are potentially catastrophic.

The U.S. produces 25 percent of the world's carbon dioxide emissions. To William Reilly, director of the Environmental Protection Agency, this imposes a special obligation on Washington to develop a timetable and strategy.

Mr. Reilly had hoped to carry at least the outline of a policy to an international conference on global warming that begins tomorrow in the Netherlands. He's going, but without a policy. Powerful voices in the Administration—including the Department of Energy and the White House chief of staff, John Sununu—insist on further study, even though 14 months have passed since Mr. Bush's ringing declaration of war on global warming.

CLEAN FUELS

A tough new clean-air bill is slowly winding its way through Congress, thanks in part to Mr. Bush's original bill and the efforts of clean-air advocates like California's Henry Waxman to strengthen it. But one of the bill's most important provisions has been weakened beyond recognition—and Mr. Bush is largely to blame. The provision would have required Detroit to produce one million cars designed to run on alternative fuels by 1997.

There's disagreement among experts on which alternative fuels would be cleanest or cheapest. But Mr. Bush's original proposal would at least have encouraged aggressive investment in new technology by reluctant auto makers and oil companies.

At a critical moment in the deliberations of Mr. Waxman's subcommittee, however, Mr. Sununu sent word that the White House would accept a weaker provision. Mr. Reilly sent the opposite message. The confusion was fatal: Mr. Bush's cherished alternative-fuels provision was gutted. By allowing two key aides to send conflicting signals, the President had sandbagged himself.

There are now fears of vacillation on a third environmental concern: acid rain. The Bush bill would attack acid rain by requiring utilities to halve their discharges of sulfur dioxide by the year 2000. Mr. Sununu said in a letter to Mr. Waxman that the White House still wants a tough plan. But there is no evidence of aggressive White House lobbying. That's because the White House's chief lobbyist—the man who would be the Environmental President—has forgotten that legislation, like horseshoes, requires follow-through.

Mr. BOSCHWITZ. Mr. President, I say to my friend from Colorado that while I do not agree with every element of his speech, nevertheless, I agree that we need to move forward quickly on global warming.

I agree, too, the President is not cynical about the issue; that he, indeed, wants to be an environmental President, and I think evidence of that is the clean air bill that he has sent us, the first in about a dozen years.

As the Senator from Colorado knows, I share his thoughts and feelings on global warming, and indeed spoke on the floor yesterday morning in the same vein as he has now.

GLOBAL ENVIRONMENTAL PROTECTION

Mr. DODD. Mr. President, I note with dismay the efforts of the Bush administration to block efforts to commit the world's industrialized nations to cutting back their carbon dioxide emissions so that global warming can be countered.

The United States should be taking a leadership role in the fight to protect our global environment through the development of energy, commercial, agricultural, and environmental policies which reduce the release of carbon dioxide and other trace gases into the atmosphere.

Instead, the President's continued inaction and ambivalence on the single most important environmental issue of the century sends a dangerous signal to the rest of the world that the United States no longer can be counted as leaders in the effort to establish an international dialog on global environment.

President Bush has proclaimed himself "an environmental President." During the campaign and again in May 1989, the President made a commitment to convene an international conference in Washington to identify the potential effects of global climate change. In January, his Secretary of State, James Baker, issued a challenge to the nations of the world to work on this issue. Furthermore, President Bush has said "* * * those who think we—the United States—can do nothing about the greenhouse effect are ignoring the White House effect."

Unfortunately, the President's actions do not match his rhetoric. At the meeting of 70 environmental ministers taking place currently in The Netherlands, the administration says that it is not ready to commit itself to specific carbon dioxide target levels and dates for reduction until it has done more research on the extent of the problem and the economic consequences of reducing emissions.

Mr. President, we don't need more research—we need action. Speaking to the Senate Energy Committee in June 1988, Dr. Jim Hansen of NASA's Goddard Institute for Space Studies and one of the world's leading authorities on climate, said that this decade has seen the 4 hottest years of the last century. The first 5 months of 1988 were the warmest on record.

Dr. Hansen and others are 99 percent certain that the trend in rising temperatures is not random, but part of the greenhouse effect—a gradual warming of the Earth's climate. We are no longer talking about theory—the greenhouse effect is upon us and global warming has begun.

Over the next several decades, scientists tell us, the temperature of the Earth as a whole might rise by 3° to 9°. This compares to a rise of only 3 percent in the last 10,000 years.

The implications of these dramatic climatic changes are devastating. Scientists believe the sea level may rise as much as 7 feet due to the thermal expansion of the oceans and the melting of the polar ice caps. Meteorological models suggest that the world's major food producing regions are likely to become dryer and dryer, while future farmlands shift northward. For developed and underdeveloped regions of the world alike, the impacts could be catastrophic for future generations.

Global warming is an environmental problem of such magnitude that it is unprecedented in the history of man. Combating the causes of global warming must be a top priority of diplomatic efforts as we head into the decade of the 1990's.

I call upon President Bush to live up to his rhetoric and commit the United States to a leadership role at the forefront of global environmental protection.

THE 1990 FARM BILL

Mr. BOSCHWITZ. Mr. President, this morning I want to talk about the 1990 farm bill. It is a debate that is going to begin in earnest fairly soon. In deciding the course we are to take in 1990, we should consider the impact of the 1985 farm bill and use that experience to craft our future policy.

To be sure, we had a somewhat different environment back in 1985 when we were considering that farm bill. The high inflation and interest rates of the late seventies and early eighties, combined with other factors—strong dollar, foreign competition, weaker international demand because of a recession—all those things dealt a very heavy blow to American agriculture.

Farm income was very low. Surplus stocks of grain were building, and our share of the international market was coming down. Those problem were our focus when we wrote the 1985 farm bill, and that is why that bill has three principal goals: First, to stabilize farm income; second, to regain the U.S. share of world markets; and third, to reduce burdensome surpluses of grain stocks.

Senator BILL BRADLEY and I asked the General Accounting Office [GAO] to study the 1985 bill to see if we had met those three goals. In a report issued earlier this year, the GAO stated that, indeed, these three goals had been largely attained. Farm income was on the rise, our share of international grain trade had increased, and grain stocks were no longer a price-depressing factor in the marketplace.

As we move to the 1990 farm bill, this Senator is coming from a view that the 1985 farm bill is working pretty well.

On the morning of July 5, I started a tour of Minnesota, going to 62 counties. I was on farms and held hearings in 58 counties, in towns in four counties. We talked about the 1985 farm bill, how it was doing, and what should happen in 1990. The vast majority of the farmers told me they wanted more flexibility.

I read with interest the statement of my colleague, Senator LUGAR, in the October 12 CONGRESSIONAL RECORD discussing a Purdue University poll of Indiana farmers. Their responses were that they also prefer a farm policy that closely parallels what I heard in those 62 counties. Both groups reported the need for farm programs to be less rigid, to better allow farmers to run their operation in response to market signals, not to run their farms in response to Government dictates.

I have been discussing the framework of the next farm bill with several of my colleagues. At this time we are in agreement in quite a broad number of programs and policies. When Congress reconvenes in January for the second session of this Congress, we will introduce a 1990 farm bill. Major provisions of that bill will include the following:

First. Farm acreage base: A farm acreage base [FAB] will be determined for each farm. It will consist of the sum of the bases for feed grains, wheat, cotton and rice. A base will be created for oilseeds—soybeans, sunflowers, canola, safflower—which will be included in the FAB. Only program crops and oilseeds will be allowed to be planted on the FAB. Program crops will not be allowed on acreage in excess of the FAB on a farm. However, there will be no restriction on the mix of program crops planted on the FAB. So if a farmer has 100 acres of wheat, 100 acres of corn, and 100 acres of beans this year, he could plant 300 acres of beans or 300 acres of corn. Within the farm acreage base you would have a great deal of flexibility.

Second. Base acreage and program yields: Both base acreage and the program crop yield level will be frozen at 1989 levels. The oilseed base will be the sum of highest planted acreage in any of the 5 years from 1985-89 for each oilseed crop grown by the farmer.

Third. Target prices and loan rates: Target prices would be frozen at current levels. We would also offer farmers an optional recourse loan, which we'd call a "harvest loan," in addition to the widely used nonrecourse commodity loan. The harvest loan would be offered at the basic loan rate and the nonrecourse loan would be at the Findley loan rate. For example, with a corn target price of $2.75, the basic loan rate would be $1.96 per bushel, and that would be the rate that farmers could obtain a harvest loan. At maturity of the loan, that total amount borrowed, plus interest would need to be repaid. With the corn target at $2.75, the Findley loan rate would be $1.57 per bushel. Farmers could opt for this lower rate and retain the option as they now do to either repay the loan plus interest at maturity, or to forfeit the crop under loan to the Government.

Fourth. Deficiency payments: Deficiency payments will be paid on historical program crop base used to create the FAB. They would be paid regardless of crops grown, provided total acreage planted to program crops does not exceed the FAB. The payment rate will be determined as it is now—the difference between the target price and market or loan price—whichever is less. We'll add a new option for farmers to lock in their payment similar to the way it is used in the 0/92 program. This is a way for farmers to predetermine their payment and further assist their planning efforts.

Fifth. Soybeans: We visualize the soybean loan rate at a level which provides an income safety net which is important to farmers. We'd also create an unlimited marketing loan to keep the United States competitive internationally. This would allow the United States to take advantage of growth opportunities in the world market.

Sixth. Paid land diversion: A multiple year—1 to 5—paid land diversion would be created, targeted to erodible or otherwise fragile land, and enrolled on a bid basis.

Seventh. Conservation reserve program: Eligibility would be expanded beyond highly erodible acres to include areas of strategic environmental concerns. The total acres in the paid land diversion and CRP could be as high as 50 million acres.

Eighth. Nonprogram crops: Nonprogram crops would be allowed to be planted on the FAB only if the farmer forfeits deficiency payment coverage on a composite acreage basis. This should remove the concern of nonprogram crop producers that program crop producers receiving deficiency payments on their FAB receive a subsidy to grow nonprogram crops.

Ninth. Environment: This proposal has a positive environmental bias. It does not discourage crop rotation, as certain portions of the current program do. A multiple year paid land diversion, and enhanced CRP can strengthen rural environmental quality. Conservation compliance would be continued.

Flexibility is the central theme of our proposal for the 1990 farm bill. We've seen how the current bill stops farmers from responding to makret signals by locking them into program crops and punishing them with loss of crop base if they don't plant all allowable acres to those same program crops. At the same time, we've seen the U.S. share of the world soybean market fall from 81 percent in 1970 to less than 37 percent in 1989. Critical to an expanding and prospering agriculture is the ability for farmers to compete for world market share.

Flexibility will allow our farmers to respond to the market signals, and enhance our ability to compete for that growing world market. Being competitive means having the ability to grow. Growth potential means a strong and prosperous agriculture. If agriculture is to grow and prosper into the next century, farmers must not be bound by inflexible farm policy, but must have the ability to adapt to new and growing markets.

It is to be expected that our debate on the farm bill will be a long and contentious one, as all farm bill debates have been in the past. But we firmly believe that the concept of flexibility—giving farmers a chance to respond to the marketplace—is an idea whose time has come.

The 1985 farm bill was a step in that direction—a step that most farmers welcomed and now appreciate. It will be up to us to keep farm policy moving in that direction. We want to give the American farmer a policy that is fair, that gives him the opportunity to compete on the world market, and that helps him continue to be the greatest producer of food and fiber in the world.

The ACTING PRESIDENT pro tempore. The Senator from North Carolina.

Mr. SANFORD. Mr. President, once again, last night we acted out the familiar pageant we have performed so dutifully and diligently for almost a decade. Unlike some plays, this one does not get better with experience. The title might well be "No Time For Truth." Once again, we went along with the White House preparations to

send us yet another dishonest budget. The theme and the script were the same. Pauline is tied to the tracks and the train, engine blowing clouds of smoke, is bearing down. We could have cut her loose in September, but that would have removed the suspense and would also have given us time to find who keeps tying her to the tracks.

Last night we took up the legislation to increase the debt limit once again. This time we were asked to increase the limit to $3.1 trillion. In all the years, in all the Presidencies, in all the history, and in all the wars we had accumulated a national debt of less than $1 trillion by the time Ronald Reagan took office. Now, as we complete work on the last budget prepared by President Reagan's office, we have a debt three times as large, over $3 trillion.

Did we stop, as we raised the debt limit, to ask why we have permitted ourselves to become a debtor nation for the first time in our history, and the biggest debtor in the world at that? Of course not. We did not have time. The train was bearing down. We had to cut and grab and run.

As always, debt increases are brought up at night on the last day possible. We were told we would put the Government in default if we did not raise the debt limit right then. I do not doubt the truth of this, but neither do I doubt that we could have considered this legislation 2 or 3 months ago if the White House had been willing for us to take a careful look at their borrow, borrow, spend, spend fiscal policy that has marked the Reagan years and pockmarked the future of America.

If we had examined and debated the reason for this frightening debt, we would have been able to talk about what we already know: The deficits have been increasing year by year in spite of assurances by President Reagan first and now by President Bush that they were decreasing deficits.

The deficits have been almost a quarter of a trillion dollars a year and constantly rising. Now the deficits will be more than a quarter of a trillion dollars a year, and, by 1993, we will owe $4 trillion, 80 percent of the present GNP. We now owe 60 percent of the GNP.

How did we get so deeply in debt? By hiding the truth, concealing the true size of the annual accumulation of debt, covering up the deficits by false and dishonest bookkeeping.

In the fiscal year budget, the one for which the President Bush says he has reduced the deficit to about $100 billion, the deficit is $270 billion, and that cannot be denied. It is pure deceit.

What can we do about our debt and deficits? I do not know the answer, but I do know what the first step must be. I do know what step we could have taken last night as a condition to raising the debt once again. We could have stripped away the deceit and the shoddy bookkeeping techniques and manipulation. We could have stopped the coverup. We could have required an honest budget. Until we do require an honest budget, Mr. President, we will continue a mad drive toward national bankruptcy, becoming a second-class economic power in the world.

I yield the floor.

Several Senators addressed the Chair.

The ACTING PRESIDENT pro tempore. The Senator from Alaska is recognized.

Mr. MURKOWSKI. I thank the Chair.

(The remarks of Mr. MURKOWSKI, pertaining to the submission of Senate Resolution 204 are located in today's RECORD under "Submission of Concurrent and Senate Resolutions.")

Mr. BREAUX addressed the Chair.

The ACTING PRESIDENT pro tempore. The Senator from Louisiana [Mr. BREAUX] is recognized.

Mr. BREAUX. Mr. President, parliamentary inquiry: Might I inquire how much time is left for morning business? Am I correct that it extends until 10:45 a.m., and that then the Senate is scheduled to resume consideration of the minimum wage legislation?

The ACTING PRESIDENT pro tempore. The Senator is correct.

Mr. BREAUX. Mr. President, I ask unanimous consent that at that time, since the managers on the bill are not yet here and ready to speak, that we may begin with permission to speak as if in morning business.

Mr. BOSCHWITZ. I object.

The ACTING PRESIDENT pro tempore. The Senator from Minnesota objects.

Mr. BREAUX. Mr. President, have we concluded morning business?

The ACTING PRESIDENT pro tempore. The Senator has 1 minute.

Mr. BREAUX. I need more than that.

I yield the floor.

Mr. BOSCHWITZ. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HUMPHREY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

Mr. CONRAD. Mr. President, is it the intention of the Senator to proceed when there are others who have already been here, and have been waiting——

The ACTING PRESIDENT pro tempore. The Chair thinks that the Senator from New Hampshire should state the reason he seeks recognition.

Mr. HUMPHREY. Will the Chair repreat that?

The ACTING PRESIDENT pro tempore. For what reason does the Senator from New Hampshire seek recognition?

Mr. HUMPHREY. I ask unanimous consent that further proceedings under the quorum call be rescinded, or has the Chair ruled on that?

The ACTING PRESIDENT pro tempore. Is there objection?

Mr. CONRAD. I register objection, so that we can have a chance to allow the Senator from New Hampshire to understand what is occurring here because he is kind of walking into the middle of a bit of a conflict.

The ACTING PRESIDENT pro tempore. Objection is heard.

The clerk will resume the call of the roll.

The assistant legislative clerk resumed the call of the roll.

Mr. BOSCHWITZ. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Is there objection? Hearing none, it is so ordered.

EXTENSION OF MORNING BUSINESS

Mr. BOSCHWITZ. Mr. President, I ask unanimous consent that morning business be extended for 15 minutes.

The ACTING PRESIDENT pro tempore. Hearing no objection, it is so ordered.

Mr. BREAUX addressed the Chair.

The ACTING PRESIDENT pro tempore. The Senator from Louisiana [Mr. BREAUX] is recognized.

Mr. BREAUX. I thank my colleague from Minnesota for working the situation out.

SECRET SETTLEMENT AGREEMENTS INVOLVING NUCLEAR UTILITIES

Mr. BREAUX. Mr. President, I take the floor this morning to say to my colleagues in the Senate that they need to be aware of what I can only term a coverup, a denial of facts that is now on the record and has been issued by the Nuclear Management and Resources Council, which is an organization of the nuclear power industries that is responsible for coordinating all of their efforts in lobbying before the Nuclear Regulatory Commission on behalf of all of the nuclear utilities in this country that operate nuclear power plants.

Mr. President, as chairman of the Subcommmittee on Nuclear Regulatory Matters of the Environment and Public Works Committee, we had hearings this year, along with our dis-

tinguished ranking member, ALAN SIMPSON, looking into the question of secret settlement agreements that nuclear utility companies and contractors were negotiating with various employees in which these employees were paid to settle their grievances against the utility companies, and in return the utility companies were requiring that these employees refrain or prohibit them from appearing before the Nuclear Regulatory Commission or any of the agencies to express their concerns about safety matters dealing with nuclear power companies in this country.

The hearings were very clear that these settlement agreements between the utilities and these employees were illegal, improper, contrary to public policy, and should be terminated immediately.

We investigated one particular settlement agreement which on its face was illegal and void and contrary to public policy. We asked the Nuclear Regulatory Commission to look and see if there were other such like agreements around the country. The Nuclear Regulatory Commission has now completed their investigation, and it found very clearly that there are at least 14 such secret settlement agreements between employees and nuclear utility companies and contractors in this country that are contrary to public policy and should be immediately terminated.

We requested that the Nuclear Regulatory Commission proceed with a public rule outlawing such secret settlement agreements. Lo and behold, the agency, the organization, the lobbying arm of the nuclear utilities themselves, sends a written statement to the Nuclear Regulatory Commission objecting to the NRC promulgating this law, outlawing these secret settlement agreements. Guess what they give as their basic reason for doing so? There is no need for such a rule in the NRC, because there has only been a single incident of violation of the principle that there should be no secret settlement agreements.

The Nuclear Management and Resource Council absolutely knows that they are not telling the truth, that they are misleading the public, and thereby perpetuating and participating in a coverage and a denial of the facts in this case. They know, they should know, and in fact they do know, that there are at least 14 of these secret settlement agreements that are illegal and void on their face. That is why a rule to be issued by the Nuclear Regulatory Commission is absolutely essential, because of not one, but as many as 14, and possibly more, secret settlement agreements that have been uncovered by the Nuclear Regulatory Commission, and utility companies know it, and certainly their lobbying arm that represents them also knows the facts of the matter.

So I found it absolutely astounding, alarming, that the agency that represents the utilities would participate in what can clearly be termed by no other phrase other than being a coverup of the facts, important facts, which go directly to the point of whether the Nuclear Regulatory Commission should in fact issue a rule outlawing secret settlement agreements by which employees are paid to, among other things, not appear before the Nuclear Regulatory Commission to express concerns about safety of nuclear power in this country.

I support nuclear power; the technology is good. The problems have been people problems, and apparently the people problems are not only in the utilities, but the people problems also are in the organizations that represent the utility companies before the agencies here in Washington.

I am deeply disturbed and alarmed. I hope that they will immediately rescind this document and admit that there are, in fact, many other secret settlement agreements and give cause to the need for a rule by the NRC, outlawing this type of practice.

Mr. President, I have a number of documents, including a statement, a letter from the general counsel of the Nuclear Regulatory Commission, saying that the settlement agreements are illegal. I have other documents, including a letter from Mr. Vic Stello, who is Executive Director of Operations for NRC, confirming that it is illegal, as well as material from the Secretary of Labor in which she ruled on this matter, saying that these settlement agreements were illegal, as well as a copy of the law which clearly says that these types of activities are illegal and cannot be tolerated.

Thank goodness some utilities recognize their responsibilities and have agreed to take a different course of action. Northeast Utilities is one of these organizations, and I also include a letter from Northeast Utilities to myself stating their practices.

Mr. President, I ask unanimous consent that this material be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

COMMITTEE ON ENVIRONMENT
AND PUBLIC WORKS,
Washington, DC, November 8, 1989.

Mr. JOE F. COLVIN,
Executive Vice President and Chief Executive Officer, Nuclear Management and Resources Council, Washington, DC.

DEAR MR. COLVIN: I am writing to you to express my alarm over the position taken by the Nuclear Management and Resources Council, Inc. (NUMARC) in response to the Nuclear Regulatory Commission's (NRC) request for comments on the proposed rule entitled "Preserving the Free Flow of Information to the Commission."

As you must be aware, the Subcommittee on Nuclear Regulation conducted an investigation into secret settlement agreements at the Comanche Peak nuclear power plant. These agreements restricted the free flow of information to the NRC. In my opinion, the Subcommittee's investigation and subsequent public hearing clearly demonstrated the need for the NRC to unambiguously declare illegal any settlement agreement which in any way restricts the communication of information to NRC.

The NRC's efforts in response to the Subcommittee's investigation revealed that utilities other than Texas Utilities have entered into illegal settlement agreements. On April 27, 1989, the NRC requested that all nuclear power plant licensees notify the NRC no later than July 31, 1989, of any employment or settlement agreements that contained a restrictive clause. Pursuant to this request, the NRC has obtained more than a dozen agreements with restrictive clauses. The NRC has not placed these additional agreements in the public record, at the request of the nuclear utilities involved, in order to respect the confidentiality of the parties to these settlement agreements.

Given this background, I find it incredible that the nuclear industry denies that a rule is necessary. I find it particularly disturbing that NUMARC has criticized the proposed rule on the grounds that it is based upon "a single case" and therefore is "by definition . . . ineffective and unjustified."

This criticism is particularly inappropriate in light of the fact that there are a significant number of additional restrictive agreements, and the industry knows it. It is disingenuous to comment upon the public record that the rulemaking does not have sufficient support in the record when industry members, themselves, have requested that the NRC not place such information upon the public record. Should the industry continue to maintain that the record in support of the rule is deficient, one cure will be to place the additional agreements upon the public record.

Another NUMARC comment that is of great concern is the recommendation that "the Commission should state affirmatively in any future action that limited restrictions are acceptable, so long as they do not restrict an individual's freedom in such a way as to preclude him or her from bringing matters pertinent to health and safety to the attention of the NRC."

This interpretation of section 210 of the Energy Reorganization Act—that it allows restrictions upon employee communications with the NRC, so long as they do not preclude those communications—has been specifically rejected by the Subcommittee on the grounds that it is contrary to a plain reading of the statute. The NRC, in CLI-89-06, withdrew its prior endorsement of the contrived interpretation of section 210 now advocated by NUMARC. Moreover, the Secretary of Labor, in *Polizzi* v. *Gibbs & Hill, Inc.*, ruled as follows:

"Paragraph 7 of the Settlement Agreement significantly *restricts* access by the Department of Labor, as well as other agencies, to information Complainant may be able to provide relevant to the administration and enforcement of the ERA and many other laws. Its effect, to a large degree, would be to 'dry up' channels of communication which are essential for government agencies to carry out their responsibilities. *NLRB* v. *Scrivener*, 405 U.S. 117, 122 (1972). *As such, I find it against public policy.*" *Id.*, at 5-6 (emphasis added).

I am astonished that the nuclear industry is now advocating to the NRC that it allow restrictions upon whistleblowers that the Department of Labor already has ruled are illegal, that this Subcommittee finds are illegal, and that the NRC staff says are illegal. To me, this is yet further proof that a strong NRC rule is needed.

I am distressed that NUMARC, representing the nuclear industry, does not understand the employee protection laws of this country. It is disturbing that NUMARC continues to resist the application of existing law. I intend to take whatever actions are necessary and appropriate to make the nuclear industry understand and conform to the requirements of the employee protection laws.

Sincerely,

JOHN B. BREAUX,
Chairman,
Subcommittee on Nuclear Regulation.

NUCLEAR MANAGEMENT
AND RESOURCES COUNCIL,
Washington, DC, September 19, 1989.

Attention: Docketing and Service Branch.

Re Proposed Rule—Preserving the Free Flow of Information to the Commission, 54 Fed. Reg. 30049 (July 18, 1989). Request for Comments.

Mr. SAMUEL J. CHILK,
Secretary, U.S. Nuclear Regulatory Commission, Washington, DC.

DEAR MR. CHILK: These comments are submitted on behalf of the Nuclear Management and Resources Council, Inc. ("NUMARC") in response to the request of the U.S. Nuclear Regulatory Commission ("NRC") for comments on the NRC's proposed rule entitled "Preserving the Free Flow of Information to the Commission" (54 Fed. Reg. 30049—July 18, 1989).

NUMARC is the organization of the nuclear power industry that is responsible for coordinating the combined efforts of all utilities licensed by the NRC to construct or operate nuclear power plants, and of other nuclear industry organizations, in all matters involving generic regulatory policy issues and on the regulatory aspects of generic operational and technical issues affecting the nuclear power industry. Every utility responsible for constructing or operating a commercial nuclear power plant in the United States is a member of NUMARC. In addition, NUMARC's members include major architect-engineering firms and all of the major nuclear steam supply system vendors.

The nuclear industry supports the concept of full, and timely, disclosure to the NRC of safety concerns. As described below, we believe present statutory and regulatory requirements appropriately provide for safety concerns that arise in any context to be brought to the attention of the licensee or the NRC so that they can be evaluated and resolved. This includes those that might have been associated with a complaint of discrimination against an employee who might have raised safety concerns. We do not believe that additional regulation is necessary or that the proposed rule is an effective way to satisfy the NRC's concerns. Moreover, the proposed rule as written is unreasonable and unworkable. However, if the NRC determines that it is necessary to develop a final rule, we have suggested ways in which the NRC's goals can be attained in a reasonable and workable manner. These recommendations are designed to effectuate the policy underlying the rulemaking, a policy which we support, without imposing unreasonable and unworkable burdens and procedures on persons subject to Commission authority.

CURRENT STATUTORY AND REGULATORY REQUIREMENTS

Section 210 of the Energy Reorganization Act of 1974, as amended, and the embodiment of those requirements by the NRC in 10 C.F.R. § 50.7, prohibits discrimination against any employee for bringing safety concerns to the NRC. Any employee of a Commission licensee, or a contractor or a subcontractor of a Commission license or license applicant, who believes he or she has been discriminated against for raising safety issues, has the right to file a complaint with the U.S. Department of Labor to seek redress for such discriminatory action.

A variety of other regulatory requirements encourage safety concerns to be brought to the attention of the NRC. For example, 10 C.F.R. Part 19 requires that Form NRC-3, "Notice to Employees," be posted in conspicuous locations to inform workers at nuclear facilities, whether employees of licensees or contractors, of their opportunities to confidentially inform the NRC of nuclear safety concerns. Part 19 also requires that workers be informed of their responsibility to report promptly to the licensee any condition which may lead to or cause a violation of Commission regulations or unnecessary exposure to radiation or radioactive materials.

Further, 10 C.F.R. Part 21, adopted by the NRC pursuant to the requirements of Section 206 of the Energy Reorganization Act, establishes additional requirements for directors or responsible officers of licensees or suppliers of safety-related components to nuclear facilities to report promptly to the NRC any matters that could create a substantial safety hazard. All licensees are required to develop procedures to implement these requirements and must post information about these requirements in a conspicuous location in any premises where nuclear safety-related activities are performed, including identifying the individual to whom reports of safety concerns may be made.

In addition, 10 C.F.R. 50.55(e) requires the holder of a construction permit for a nuclear power plant to promptly notify the Commission of specified significant deficiencies found in plant design and construction which, if uncorrected, could adversely affect the safety of plant operations at anytime throughout the expected lifetime of the plant.

Thus, there are already in effect comprehensive statutory and regulatory requirements that collectively provide many ways in which employees of licensees and contractors are informed of their ability to raise safety concerns and the protection they are afforded if they raise safety concerns.

CURRENT SITUATION

Under current practice, the U.S. Department of Labor informs the NRC of any complaints brought under Section 210, reviews all proposed settlement agreements of Section 210 proceedings, and informs the NRC of the resolution of those proceedings. Under 10 C.F.R § 50.7, the NRC has the regulatory authority to take enforcement action, which may include revocation of the facility's license and the imposition of civil penalties or other enforcement action.

Relating to the particular matter that is the fundamental focus of the proposed rule, the NRC Executive Director for Operations sent a letter dated April 27, 1989, to, among others, a senior executive of each commercial nuclear power plant licensee expressing concern that agreements entered into between licensees and their employees or former employees to settle Section 210 proceedings might include clauses which could, or could be interpreted to, restrict the ability of employees or former employees to provide information about potential safety issues to the NRC. Licensees were requested to report not later than July 31, 1989, if any restrictive clauses had been identified by licensees in current or previous Section 210 settlement agreements or in other agreements affecting compensation, terms, conditions and privileges of employment. If any such restrictive clauses were identified, licensees were to promptly inform the employee or former employee that he or she may raise any safety concern to the NRC without fear of retribution and that any such restriction in a settlement agreement should be disregarded. Responses by licensees indicating any such restrictive clauses that were identified were to be provided to the NRC by July 31, 1989. Without waiting for the responses, on July 18, 1989 the NRC issued its proposed rule on exactly the same subject. We believe it would have been appropriate for the NRC to have evaluated licensee responses to the April 27, 1989 letter to ascertain the nature and scope of any restrictive clauses identified and then to determine what, if any, additional regulation might be warranted to address the NRC's concerns.

THE PROPOSED RULE

The only basis cited by the NRC in support of the proposed rule is a single case involving a worker at a commercial nuclear power plant under construction. That worker alleged that he believed that a Section 210 settlement agreement that he had entered into, with the advice of counsel, had restricted his ability to bring safety concerns to the attention of the NRC, notwithstanding the fact that he had been given many opportunities to raise additional safety concerns, and failed to do so, prior to executing the settlement agreement. Even though there may have been other cases in which an employee alleged he or she had been prevented from bringing safety concerns to the NRC because of a restriction contained in a settlement agreement, the record supporting the proposed rule consists of the citation to that single case. If the rulemaking is premised, as it appears to be, on the basis of that single case, no reasonable basis exists for proceeding with a rulemaking; any rulemaking proceeding that is premised on but a single instance of a perceived problem is, by definition, an ineffective and unjustified use of the limited resources of both the NRC and the industry.

Assuming, however, that the NRC concludes that additional regulation is warranted, even though the basis for that conclusion is not disclosed in the notice of proposed rulemaking, the nature and scope of the proposed rule is unreasonable and unworkable:

(1) The proposed rule is not limited to contractors or subcontractors involved in nuclear safety related activities (i.e., those regulated by the NRC under the authority of the Atomic Energy Act to protect public health and safety). As drafted, the proposed rule would apply to all contractors and their subcontractors who provide any goods or services to a licensee. Such an unlimited requirement would affect thousands of companies, just for Part 50 licensees alone;

(2) The proposed rule is not limited to settlement agreements that involve issues related to the identification of nuclear safety concerns. The proposed rule would thus involve dispute settlements under collective bargaining agreements, worker's compensation cases, arbitrations, equal employment opportunity cases—in fact, the whole range of labor relation contracts, without limit;

(3) The proposed rule is not limited to agreements in which the licensee, or goods and services provided to a licensee, may be involved (e.g., the proposed rule would reach into the contractual relationship that a licensee's contractor might have with any of its non-nuclear suppliers or customers, even if that relationship had nothing to do with the licensee or the goods and services provided to the licensee). The proposed rule also would extend to all contracts entered into by non-nuclear divisions of a licensee or contractor;

(4) The proposed rule would require licensees to interpose themselves in any and all employee agreements that each and every contractor and subcontractor of any tier might make, the vast majority of which are not associated with licensed activities and thus could not involve any questions of nuclear safety;

(5) The proposed rule has the potential of abrogating proprietary information agreements entered into by various companies with their employees or with third parties. As presently drafted, the proposed rule could negate those proprietary agreements which require that certain procedures be undertaken by employees so as to maintain the confidentiality of information with which they have been entrusted;

(6) The proposed rule would even require a contractor who supplies goods and services to more than one licensee to obtain the approval of *each* licensee with which they do business to any settlement agreement that the contractor or its subcontractor might enter into; and

(7) The proposed rule could be interpreted, albeit improperly, as precluding any kind of settlement, including one involving an NRC licensing proceeding.

The Supplementary Information accompanying the proposed rule states that no substantial costs would be imposed by the proposed rule. This is simply not true, as even the NRC's own analysis demonstrates. In the NRC's notice to the Office of Management and Budget (OMB) under the provisions of the Paperwork Reduction Act, the NRC provided its estimate of the time required for licensees to establish procedures (1) to ensure that contractors and subcontractors are informed of the prohibition contained in the proposed rule against restrictive clauses in settlement agreements, (2) to require that licensees are notified of any complaints of discrimination brought by an employee of a contractor or a subcontractor, and (3) to review any settlement agreements related to any employee complaints. (The abstract provided in the FEDERAL REGISTER notice (54 Fed. Reg. 30962—July 25, 1989) regarding the submittal to OMB states that the rule is limited to complaints of discrimination associated with work performed for the licensee or license applicant, yet the proposed rule is not so limited—neither the notice to the Office of Management and Budget nor the proposed rule suggest any limitation on settlement agreements to those involving nuclear safety issues.)

The estimated time to develop the required procedures, which apparently does not include the time required to implement those procedures, was estimated by the NRC at 2.2 hours per NRC licensee; for Part 50 licensees, the annual burden was estimated to be 8 hours per licensee. No information was provided to explain the basis of this estimate, but one utility has determined that it has over 10,500 open nuclear-related procurement contracts in place, and that does not include any subcontractors of those contractors. Developing the procedures required by the NRC's proposed rule, as drafted, for an undertaking of that magnitude would clearly require the expenditure of significant resources. To implement the procedures, once developed, would require a massive expenditure of licensee resources.

Thus, the proposed rule would levy a significant burden on licensees, yet the NRC has concluded that no backfit analysis is required pursuant to 10 C.F.R. § 50.109 "because these amendments do not involve any provisions which would impose backfit as defined in 10 C.F.R. § 50.109(a)(1)." No justification is given for that conclusion. The proposed rule would clearly impose additional procedural requirements resulting solely from adding a new provision to the Commission's rules and that would be a backfit under § 50.109. The proposed rule does not suggest that a backfit analysis is not required under § 50.19(a)(4), as well it should not, because there is no evidence that would substantiate that conclusion. Therefore, in accordance with 10 C.F.R. § 50.109(a)(2), a systematic and documented analysis must be provided that demonstrates that the proposed rule will result in a substantial increase in the overall protection of the public health and safety to be derived from the backfit and that the direct and indirect costs of implementation are justified in view of that increased protection.

The proposed rule—unlimited as it is to nuclear safety related activities and the identification of nuclear safety concerns, and levying requirements on licensees to police their contractors and subcontractors, ostensibly all the way back to the suppliers of the raw materials used in any product purchased by the licensee—sets an impossible task to complete, and the substantial cost of attempting to comply far outweighs any supposed benefit to public health and safety.

RECOMMENDATIONS

Notwithstanding the serious flaws contained in the proposed rule, the industry does understand and appreciate the NRC's concern that clauses might be contained in Section 210 settlement agreements that could be interpreted by an employee or a former employee to restrict his or her ability to contact the NRC with additional safety concerns. Although we do not believe that a rule is necessary, we believe that the NRC's concern can be addressed in a rulemaking context that is reasonable. In addition to the following specific recommendations, the scope of the proposed rule as written is such that it could be interpreted as precluding any kind of settlement, including one involving NRC licensing proceedings. Accordingly, and consistent with both the language and legislative history of Section 210 of the Energy Reorganization Act, and the Separate Views of Commissioner Roberts (54 *Fed. Reg.* 30,050), the Commission should state affirmatively in any future action addressing this matter that limited restrictions are acceptable, so long as they do not restrict an individual's freedom in such a way as to preclude him or her from bringing matters pertinent to public health and safety to the attention of the NRC. As the Commission acknowledged in the *Federal Register* notice, settlements provide remedies to employees which obviate the need for litigation in appropriate circumstances.

First, the NRC should limit the scope of its proposed action to Section 210 settlement agreements. Section 210 complaints are founded on an allegation of a safety concern and resultant discrimination. To broaden the NRC's inquiry into "any agreement affecting the compensation, terms, conditions and privileges of employment," as the proposed rule would do, will dilute the need for attention to the area of major concern and may interpose the NRC inappropriately into areas where Congress has provided jurisdiction to other agencies (e.g., the National Labor Relations Board, the Equal Employment Opportunity Commission).

Second, 10 C.F.R. Part 21, in accordance with Section 206 of the Energy Reorganization Act, imposes obligations upon contractors involved in licensed activities to post certain documents in conspicuous locations and to establish procedures to ensure that the NRC is notified promptly of any licensed activities which could cause a significant safety hazard. Rather than establish an independent obligation on licensees to police contractors involved in licensed activities to accomplish the requirements of Section 210 of the Energy Reorganization Act, the NRC should deal directly with contractors under Section 210 as it currently does under Section 206. Establishing posting and notification requirements concerning the NRC's policy on restrictive clauses in Section 210 settlement agreements directly on contractors, similar to those imposed upon licensees and to those imposed upon contractors under 10 C.F.R. Part 21, would be the most direct and effective manner in which the NRC could achieve its stated goal.

Third, the NRC should review the current practice and, if necessary, revise the current Memorandum of Understanding with the U.S. Department of Labor to ensure that the NRC is notified promptly of any proceedings brought under Section 210 and of the disposition of each of those proceedings so that the NRC can conduct its own investigation regarding the potential impact on public health and safety in order to determine if enforcement action for a violation of NRC regulations can be pursued in a timely fashion. In addition to establishing the procedural interagency exchange of information, the MOU should provide that the U.S. Department of Labor would inform all parties to a Section 210 complaint, and the affected licensee(s) if they are not a party to that complaint, of the Department of Labor's conclusion that clauses in a settlement agreement that restrict a person's perceived ability to raise safety concerns are void as a matter of public policy. (See *In the Matter of Lorenzo Mario Polizzi*, U.S. Department of Labor Case No. 87-ERA-38). This would, of course, be the most direct way of ensuring that a complainant in a Section 210 proceeding, and the respondent, are directly informed that any settlement agreement that they might subsequently enter into should not contain a restrictive provision with respect to bringing safety concerns to the attention of the NRC. Litigation over jurisdictional authority is not an efficient use of regulatory resources.

Fourth, licensees and license applicants should notify current contractors involved

in nuclear-related activities of the NRC's concerns about this matter. With respect to future contracts, licensees could incorporate provisions in contracts associated with nuclear safety related activities to direct contractors to notify all contractor employees of their rights and opportunities to raise safety concerns without fear of retribution and to request that contractors notify their subcontractors in a similar fashion. We would strongly oppose any requirement that licensees renegotiate existing contracts or that contractors be required to renegotiate their existing contracts with subcontractors to add contractual provisions requiring licensee approval of settlement agreements negotiated under Section 210. This requirement is commercially unreasonable and in many contexts may be legally impossible (e.g., a collective bargaining agreement). To levy additional requirements by that means would be unduly burdensome and—in light of the other notice and enforcement means in place—would result in at most, an incremental benefit that would not offset the attendant costs.

Fifth, the Commission should establish procedures in connection with any rule of the type contemplated which assure that proprietary information relative to the alleged safety concern will remain confidential until such time as the material is either returned to the owner of the proprietary information or the owner is given an opportunity to establish that the information is entitled to proprietary protection under 10 C.F.R. Section 2.790.

Finally, the NRC should also consider revising Form NRC-3 to include an appropriate provision relating to Section 210 settlement agreements.

RESPONSE TO REQUEST FOR SPECIFIC COMMENTS

First, the Commission asked whether the rule should prohibit all restrictions on providing information to the Commission or whether limitations on individuals appearing before a Commission adjudicatory board should be permissible because other avenues for providing information to the Commission are available. We think that the two alternatives stated by the Commission are not the appropriate alternatives. We do not believe any rule should "prohibit all restrictions on providing information to the Commission." There is no basis in the record to demonstrate that any such rule is needed, and such a broad prohibition would affect many rights, including rights to proprietary information, rights of privacy, and other due process rights of licensees and contractors and their employees. Limitations on an individual appearing before a Commission adjudicatory board under certain circumstances is appropriate to maintain a viable adjudicatory process.

Second, the Commission asked for comments on whether the rule should impose an additional requirement that licensees and license applicants must ensure that all agreements affecting employment, including those of their contractors and subcontractors, contain a provision stating that the agreement in no way restricts the employee from providing safety information to the Commission. As described above, such a requirement would constitute an unreasonable, unnecessary and undue restriction by the Commission on contractual relationships, many of which are far removed from the nuclear safety concerns. Such a provision is not needed to ensure adequate protection of public health and safety of a "whistleblower's" freedom to bring safety concerns to the attention of the Commission, and its imposition would be arbitrary and capricious.

CONCLUSION

We believe that adoption of the above recommendations will achieve the NRC's aims without imposing an onerous burden on the industry that is not compensated for by an increase in public health and safety. We are prepared to work with the NRC to address its concerns and we would appreciate an opportunity to discuss this matter further with the Commission and NRC Staff at its earliest convenience."

Sincerely,

JOE F. COLVIN.

NUCLEAR REGULATORY COMMISSION,
Washington, DC, May 9, 1989.

Memorandum for: Chairman Zech, Commissioner Roberts, Commissioner Carr, Commissioner Rogers, Commissioner Curtiss.

From: William C. Parler, General Counsel.

Subject: Legality of section 210 settlement agreement (SRM COMLZ-89-20; COMJC-89-4).

It appears that I will be asked the following question: Whether a Section 210 settlement agreement wherein an individual protected by Section 210 "voluntarily (i.e., without any evidence of harassment, discrimination, or intimidation) gives up his right to initiate an adjudicatory proceeding or to testify in such proceeding in exchange for financial consideration" violates applicable laws.

My April 24, 1989 memorandum (which is attached and is incorporated herein by reference, without repetition) did not address any specific factual circumstances. Specific factual circumstances are needed before anyone can rationally evaluate whether or not applicable laws have been violated.

In two prolonged meetings with legal assistants (requested by one of them) subsequent to my April 24, 1989 Memorandum, the question now being raised which stresses the voluntary nature of the hypothetical restrictive agreement, never came up explicitly. Nevertheless, the language in my April 24, 1989, memorandum is unqualified: ". . . for purposes of the Nuclear Regulatory's Commission's licensing and regulatory responsibilities, any such provisions should be unenforceable and prohibited." The "any such provisions" are provisions in Section 210 settlement agreements which "impose restrictions upon the freedom of employees or former employees protected by Section 210 to testify or participate in licensing and regulatory proceedings under the Atomic Energy Act of 1954, as amended."

There should have been no doubt left in anyone's mind as to my legal position on this matter. I informed the assistants that the generic issue of what restrictions on communication channels might be consistent with Section 210(a) is not necessarily foreclosed at the outset as matter of law. There is possible room for interpretations of Section 210 in that regard based on policy considerations. Of course, any policy choice which would appear to restrict protected activities (e.g., making communications to a presiding licensing board) would have to have a rational basis which comports with the policy objectives of Section 210; if not, that in itself would raise legal questions. Although policy options on communication channels were not precluded outright as a matter of law, no rational basis for restraints precluding or restricting a protected whistleblower from communication on safety issues to a presiding licensing board occurred to me at the tme of the two meetings, nor subsequently.

The introduction of the "voluntarily" concept does not change my analysis and conclusions, at all, for the reasons which I provide hereafter.

Here is the essence of the matter:

I am talking only about Section 210 settlement agreements, although similar legal policy considerations may arise in a broader context in circumstances not covered by Section 210.

Section 210, as a matter of national policy provides special protection to employees or former employees who engage in the activities protected by Section 210(a).

The protected activities are broad in scope. They explicitly include commencing a proceeding under the Atomic Energy Act or testifying in one. Interestingly enough, the protected activities do not explicitly include simply bringing safety concerns to the NRC staff. Nevertheless, Section 210 and similar statutory provisions have been broadly interpreted by a majority of the federal courts. Doubtless, they would be read to protect whistleblowers who come directly to the staff or the Commission, whether or not a "proceeding" is involved.

Section 210 clearly provides for private remedies in response to a Section 210 complaint filed with the Department of Labor by an employee or former employee.

I have no legal problem with a Section 210 settlement agreement which provides for the settlement of the private matters (i.e. remedies for the alleged discharge or other discrimination because the employee engaged in Section 210 protected activity), alleged in the Section 210 complaint.

Underlying the private remedies which are provided for by Section 210, is its broader public policy purpose—to assure that nuclear safety whistleblowers have the freedom to engage in Section 210(a) protected activities without fear of discharge or discrimination, thereby providing some assurance that important safety information will not be withheld from the NRC because of fears of retaliation.

My legal problems with Section 210 settlement agreements is with restrictions in them which go further than the private remedies associated with the settlement of the complaint and impose future restrictions on Section 210(a) protected activity. The latter restrictions have implications for the broader statutory purpose of Section 210. I do not believe that these broader public policy objectives of Section 210 (freedom to engage in Section 210(a) protected activities) can be relinquished in a Section 210 Settlement Agreement. *Cf. EEOC* v. *Cosmair, Inc.*, 821 F.2d 1085, 1090 (5th Cir. 1987).

I really do not know how much clearer I can state my legal position. Again, my position concerns only Section 210 settlement agreements.

BACKGROUND

1. Section 210 of the Energy Reorganization Act of 1954, as amended, provides, in part, as follows:

II. Sec. 210(a) No employer, including a Commission licensee, an applicant for a Commission license, or a contractor or a subcontractor of a Commission licensee or applicant, may discharge any employee or otherwise discriminate against any employee with respect to his compensation, terms, conditions, or privileges of employment be-

cause the employee (or any person acting pursuant to a request of the employee)—

"(1) commenced, caused to be commenced, or is about to commence or cause to be commenced a proceeding under this Act or the Atomic Energy Act of 1954, as amended, or a proceeding for the administration or enforcement of any requirement imposed under this Act or the Atomic Energy Act of 1954, as amended;

(2) testified or is about to testify in any such proceeding or;

(3) assisted or participated or is about to assist or participate in any manner in such a proceeding or in any other action to carry out the purposes of this Act or the Atomic Energy Act of 1954, as amended. (emphasis supplied).

(b)(1) Any employee who believes that he has been discharged or otherwise discriminated against by any person in violation of subsection (a) may * * * file * * * a complaint with the Secretary of Labor * * *. Within ninety days of the receipt of such complaint the Secretary shall, unless the proceeding on the complaint is terminated by the Secretary on the basis of a settlement entered into by the Secretary and the person alleged to have committed such violation issue an order either providing the relief prescribed by subparagraph (b) or denying the complaint. * * * The Secretary may not enter into a settlement terminating a proceeding on a complaint without the participation and consent of the complainant."

* * * * *

(2) * * *

(B) If, in response to a complaint filed * * *, the Secretary determines that a violation of subsection (a) has occurred, the Secretary shall order the person who committed such violation to (i) take affirmative action to abate the violation, and (ii) reinstate the complainant to his former position together with the compensation, including back pay), terms, conditions, and privileges of his employment, and the Secretary may order such person to provide compensatory damages to the complainant.

2. In the statement of considerations publishing the final rule (e.g., 10 CFR § 50.7) implementing Section 210, the Commission said (47 F.R. 30452 at 30453, July 14, 1982): "The organization subject to the rule should understand that the Commission will not permit any interference with communications between the Commission's representatives and employees of such organization. In addition to redress being available to the individual employee, the Commission, may, upon learning of any adverse finding against an employer by the Department of Labor, take enforcement action against the employer because the employer engaged in illegal discrimination."

3. The Secretary of Labor has argued that the language and the legislative history of Section 210 require an expansive reading of protected activity to facilitate its remedial purposes. A narrow reading would frustrate its aims. Section 50.7 of the Commission's regulations echo the broad readings intended. See generally *Kansas Gas and Electric Company* v. *Brock*, 780 F.2d 1505, 1510-1512 (10th Cir. 1985).

THE QUESTION

With this background, I consider the question presented.

I would be very skeptical of any so-called "voluntary relinquishment," by an employee or former employee in a Section 210 settlement agreement of his rights to engage in certain kinds of future Section 210(a) protected activity for the following reasons:

A Section 210 complaint involves allegations of discharge or discrimination by an employer against the complainant.

Even without the prior history of allegations of discharge or discrimination, it is unlikely that an employer and employee would be anywhere close to being matched in bargaining power.

This power would be even more disparate if the complaint is by a former employee.

The employee would be relinquishing a right to engage in activities which are statutorily protected under Section 210(a).

Thus, I would at least start with the presumption that a future relinquishment of the right to engage in statutorily-protected activity by an employee or former employee in a Section 210 settlement agreement of a wrongful discharge or discrimination complaint against his employer or former employer is not truly voluntary.

Even assuming, however, that a credible case could be made that such relinquishment of the right to engage in the future in Section 210(a) protected activity is voluntary (a proposition with which I would have great difficulty), I would still have a legal problem.

It is my judgment that even though such a relinquishment is denominated as "voluntary" and all circumstances support that characterization, such relinquishment would be illegal. This would be so for reasons I have previously given and repeat for emphasis:

Such a relinquishment would be contrary to the public policy objectives of the freedom to engage in the Section 210(a) protected activities.

These public policy objectives cannot be compromised as a part of a Section 210 settlement agreement on the private remedies sought in a Section 210 complaint. The denigration of Section 210's public policy objectives is not legally permissible consideration for such a settlement.

There is no legitimate necessity of which I am aware to mix private remedial and public policy matters in what should be the remedial settlement of a private Section 210 claim.

In any event, the future relinquishment of a right to engage in future Section 210(a) protected activity in my judgment is contrary to the public interest. This is so because it may in fact give, or appear to give, monetary consideration the predominant role at the expense of the future freedom to engage in the statutorily-protected activity. At what price would something which otherwise would not be viewed by the employee or former employee as involuntary become voluntary? If money becomes a factor in the legal permissibility of contracting away the right to engage in protected Section 210(a) activity, we could have the 210 settlement equivalency of a bidding war. Quite aside from the provisions in the federal criminal law statutes which might be implicated, and Section 210 itself, this would create a situation which should neither be condoned or tolerated. It is antithetical to my concept of the public interest.

I would add that in my view an agreement to waive the right to initiate an action or testify before a licensing board is unacceptable even if it leaves intact the employee's right to contact the staff or the Commission directly. Initiating and testifying in NRC proceedings are explicitly identified as protected activities in Section 210, as I have already noted, and that section does not suggest that these activities may be infringed so long as other, unspecified activities remain unrestricted. It would be anomalous to read Section 210 as allowing licensees, applicants, or contractors to "buy out" of the NRC hearing process by contracting with employees who are potenial intervenors or witnesses. Therefore I read Section 210 as largely, if not entirely, prohibiting agreements not to initiate or testify in adjudicatory proceedings, even when there remains a right to go directly to the staff. I believe most courts would do the same.

CONCLUSION

In view of the foregoing, I conclude that for Section 210 settlement agreement purposes, an agreement by an employee or former employee to relinquish voluntarily his right to engage in future Section 210(a) protected activities is not legally permissible.

Even if a court would subsequently disagree with my conclusion, and I am confident that this should not happen, I strongly counsel on policy grounds that the Commission not venture into these troublesome areas. This counsel is based on the following observations:

Provisions in Section 210 settlement agreements which in any way restrict future communications about Section 210(a) protected activities with the NRC certainly give the appearance that money is being paid at least in part for something less than full cooperation with the NRC.

Therefore, any such provision in and of itself will require further careful scrutiny on a case-by-case basis to assure that there are no restrictions on future Section 210(a) protected activity.

The purpose of a Section 210 settlement agreement should be to provide an acceptable remedy to the employee or former employee for his Section 210 complaint alleging discharge or discrimination for engaging in Section 210(a) protected activity. The settlement terms for the private claim need not, and legally cannot, invoke as consideration the forsaking of the future right to engage in Section 210(a) protected activity.

Considering all of the foregoing, the preferred policy, in my judgment, is to make it as clear as we can in our regulations that any provisions in a Section 210 settlement agreement which restrict future 210(a) protected activity are prohibited and are unenforceable. Although the Commission is not legally precluded from amplifying as a matter of policy on the channel of communications for the Section 210(a) protected activities, I am not personally aware of any convincing rationale which would restrict the option of communications with a presiding licensing board.

NUCLEAR REGULATORY COMMISSION,
Washington, DC, April 24, 1989.

Memorandum for: Chairman Zech, Commissioner Roberts, Commissioner Carr, Commissioner Rogers, Commissioner Curtiss.

From: William C. Parler, General Counsel.

Subject: Settlement agreements under section 210 of the Energy Reorganization Act of 1974, as amended.

Section 210 of the Energy Reorganization Act of 1974, as amended, was added as a new section to that Act in 1978 (Public Law 95-601). Section 210 offers certain protection to employees of a Commission licensee, or of a contractor or a subcontractor of a Commission licensee or applicant. The protection afforded is to those who believe they have

been fired or discriminated against as a result of the fact that they have testified, given evidence, or brought suit under Section 210 of the Atomic Energy Act. The protection is by the employee's application to the Secretary of Labor for review of his case. The Secretary of labor can issue an order for the employee to be rehired, or otherwise compensated if the employee's case is justified.

A question has arisen regarding the permissible scope of the provisions of settlement agreements entered into under Section 210. Specifically, the question relates to whether such settlements may impose restrictions upon the freedom of employees or former employees protected by Section 210 to testify or participate in licensing and regulatory proceedings under the Atomic Energy Act of 1954, as amended. It has been strongly argued that such restrictions are void both as a matter of policy and as contrary to Section 210 itself.

I have personally reviewed this matter. I have concluded that a Section 210 settlement agreement which imposes such restrictions is both clearly contrary to the policy objectives of the Atomic Energy Act of 1954, as amended, and the overarching objective of Section 210 of the Energy Reorganization Act of 1974, as amended. Accordingly, for purposes of the Nuclear Regulatory Commission's licensing and regulatory responsibilities, any such provision should be unenforceable and prohibited. The bases for my conclusions are attached.

The agency should promptly publish needed clarifications in this area which are consistent with this position. Responsible staff should be directed promptly to inform the Department of Labor of the Agency's views on settlement agreements containing such provisions. Approximate arrangements should be made with the Department of Labor to assure that such provisions are not included in any future Section 210 settlement agreements. Staff should also attempt to identify the extent to which, if at all, prior Section 210 settlement agreements contain such provisions. if any are identified, appropriate steps should be taken to follow-up and remove any continuing uncertainty caused by their possible restrictions on communications about nuclear safety matters.

WILLIAM C. PARLER,
General Counsel.

LEGAL AND POLICY IMPLICATIONS OF CERTAIN PROVISIONS IN SETTLEMENT AGREEMENTS UNDER SECTION 210 OF THE ENERGY REORGANIZATION ACT OF 1974, AS AMENDED

BACKGROUND

Section 210 was added as a new section to the Energy Reorganization Act of 1974, as amended, by Section 10 of Public Law 95-601 in 1978.[1] (It is codified at 42 U.S.C. § 5851).

Section 210 of the Energy Reorganization Act offers protection to employees who believe they have been fired or discriminated against as a result of the fact that they have testified, given evidence, or brought suit under that Act or the Atomic Energy Act. (S. Rep. No. 848, 95th Cong. 2nd Sess. 29 (1978)).[2]

An employee who believes that he has been discriminated against in violation of Section 210 may apply to the Secretary of Labor for review of his case. The Secretary of Labor can issue an order for the employee to be rehired, or otherwise compensated if the employee's case is justified. Under this section, employees and union officials could help assure that employers do not violate requirements of the Atomic Energy Act. S. Rep. No. 848 at 29. *See Kansas City Gas and Electric Company v. Brock*, 780 F.2d 1505, 1512 (10th Cir. 1985).

Any worker who is called upon to testify or who gives information with respect to an alleged violation of the Atomic Energy Act or a related law by his employer or who files or institutes any proceeding to enforce such law against an employer is protected from discrimination because of such activity.

The section prohibits any firing or discrimination based on the employee's activities specified therein and provides an administrative procedure under which the employee or his representative could seek redress for any violation of its provisions.

The Secretary of Labor investigates such charges and issues findings and a decision which are subject to judicial review.

If the Secretary should find a violation, he would issue orders to abate it, including, where appropriate, the rehiring of the employee to his former position with back pay. Also, the person committing the violation could be assessed the costs incurred by the employee to obtain redress.

The Conference Committee report describes the purposes of Section 210 as follows: The Senate bill amended the Energy Reorganization Act of 1974 to provide protection to employees of Commission licensees, applicants, contractors, or subcontractors from discharges or discrimination for taking part or assisting in administrative or legal proceedings of the [Nuclear Regulatory] Commission. H. Rep. No. 1796, 95th Cong., 2nd Sess., 16-17 (1978).

DISCUSSION

From the foregoing, the following conclusions are apparent:

First, Section 210 is an employee protection statute and it vests jurisdiction over employee discrimination matters in the Secretary of Labor.

Second, the Nuclear Regulatory Commission is the body with the authority and responsibility on nuclear issues. It and the public it serves are the ultimate beneficiaries of Section 210. This is so because its overarching public policy purpose is to assure that employees are in a position, without having to jeopardize their own employment, to help assure that their employers do not violate the requirements of the Atomic Energy Act of 1954, as amended, and if they do, that such violations are disclosed.[3]

It is manifestly clear to me that any provision in a Section 210 settlement agreement which restricts the freedom of an employee or a former employee who is subject to its provisions, to freely and fully communicate with the Nuclear Regulatory Commission about nuclear safety matters is incompatible with the objectives of that section. Such provisions in a settlement agreement would turn the section on its head by using statutory provisions designed to encourage communications about nuclear safety matters into one which (in the circumstances of the particular settlement agreement containing such provisions) restricts, impedes, or frustrates full and candid disclosures to the Nuclear Regulatory Commission about nuclear safety matters. Accordingly, such provisions should be unenforceable and prohibited to the extent their effect is in direct conflict with the public policy objectives of Section 210 of the Energy Reorganization Act of 1974, as amended.

Having reached this legally-grounded conclusion solely in the context of the objectives of Section 210, there is no need for present purposes to inquire further in this memorandum as to whether the Atomic Energy Act of 1954, as amended, and regulations published thereunder, would be specifically incompatible with such provisions. It is sufficient to note that the Nuclear Regulatory Commission's licensing and regulatory processes depend on complete and forthright disclosures about all nuclear safety matters from its applicants, licensees, contractors, and subcontractors.[4]

Moving from legal to policy considerations, any agreement which restricts any person coming to the NRC with nuclear safety problems or, without prior NRC review and approval, any person's voluntary participation in NRC matters dealing with public health and safety, is certainly contrary to the policies underlying the Atomic Energy Act of 1954, as amended, and the Energy Reorganization Act of 1974, as amended. This is so because any agreement under which any person contracts to withhold safety-significant information or testimony from the Nuclear Regulatory Commission could itself be a threat to safety and therefore jeopardize the execution of the Agency's overall statutory duties. Accordingly, in my judgment, even in the absence of a direct conflict with any statute or regulation, such agreements would be void as contrary to public policy, and should be so treated by the Nuclear Regulatory Commission.

NUCLEAR REGULATORY COMMISSION,
Washington, DC, April 27, 1989.

NOTIFICATION OF THE NRC OF EMPLOYEES' POTENTIAL SAFETY ISSUES

DEAR ——: The purpose of this letter is to reemphasize to licensees their responsi-

---

[1] The provision originated in the Senate. (S. 2554; S. Rep. No. 95-848, 95th Cong. 2nd Sess., May 15, 1978). It was agreed to in Conference. (H. Conf. Rep. No. 95-1796, 95th Cong., 2nd Sess., October 14, 1978).

[2] According to the legislative history (S. Rep. No. 848, at 29), Section 210 is substantially identical to provisions in the Clean Air Act and the Federal Water Pollution Control Act. The legislative history of these Acts indicates that such provisions were patterned after the National Labor Management Act and a similar provision in Pub. L. 91-173 relating to the health and safety of the Nation's coal miners. *See, Kansas Gas and Electric Company v. Brock*, 780 F.2d 1505, 1511 (10th Cir. 1985).

[3] *See, Brown and Root, Inc. v. Donovan*, 747 F.2d 1029, 1034-35 (5th Cir. 1984). A memorandum of understanding exists between the Department of Labor and the Nuclear Regulatory Commission in view of their respective interests and responsibilities under Section 210. (See 47 Fed. Reg. 54585, December 3, 1982). The memorandum recognizes that the Department is to investigate and conduct hearings on employee complaints under Section 210 and can order a violator to abate the violation. The NRC does not have direct authority to provide the employee with a remedy. The Department is to notify NRC of any hearing on the Section 210 complaint. Each agrees to exchange information concerning any particular allegation. Among other things, this would enable technical advice to be given to the Department in the event technical considerations form part of a Section 210 complaint.

Neither Section 210 nor, apparently, the memorandum of understanding call for the NRC to review proposed agreements to settle Section 210 complaints. In view of NRC's licensing and regulatory responsibilities, which could be adversely affected by the terms of the agreement, this is a deficiency which should be corrected promptly.

[4] See 10 CFR §§ 50.7 and 50.9

bilities to assure that they, and their contractors and subcontractors permit their employees to contact, without restrictions, the NRC with concerns about potential safety issues. In particular, this letter notifies licensees that it is not acceptable to include in settlement agreements for discrimination matters arising under Section 210 of the Energy Reorganization Act of 1974, as amended, or in any labor agreements or other agreement affecting compensation terms, conditions and privileges of employment, any restrictions on employees or former employees providing information to any members of the NRC including the staff, inspectors, investigators, Administrative Law Judges, Boards, or the Commission.

Information Notice 84-08 (February 14, 1984) reminded licensees that the public health and safety requires that employees be free to raise safety issues to licensee management and to the NRC. Failure to permit employees to do so violates 10 CFR 30.7, 10 CFR 40.7, 10 CFR 50.7, 10, CFR 70.7 and 10 CFR 72.10 regarding "Employee Protection" and may subject licensees to significant enforcement action by the NRC.

In addition to NRC action, employees who have been discriminated against for raising safety issues have the right to file complaints with the Department of Labor pursuant to Section 210 of the Energy Reorganization Act of 1974, as amended, for the purpose of remedying the harm caused by the discrimination. Following the filing of a complaint, the Department of Labor performs an investigation. If either the employee or the employer is not satisfied with the outcome of the investigation a hearing can be held before an Administrative Law Judge with review by the Secretary of Labor.

In many cases the employee and the employer reach settlement of the issues raised in the DOL proceeding before completion of the formal process and a finding by the Secretary of labor. NRC supports settlements as they provide remedies to employees without the need for litigation. Settlement agreements in Section 210 proceedings are matters within the jurisdiction of the Department of Labor. Licensees and their contractors must not include clauses in these settlements which in any way restrict the ability of employees to provide information about potential safety issues to NRC. Examples of restrictive clauses include but are not limited to prohibiting or in any way limiting an employee, or an attorney for such employee, from coming to and providing safety information to an NRC staff member.

Licensees should examine their current and previous agreements to assure that restrictive clauses are not present. If restrictive clauses are found, licensees should promptly inform the employee or former employee that the restriction should be disregarded, that he or she may freely come to NRC at any time without fear of any form of retribution, and that such a restriction will not be enforced.

Please notify us no later than July 31, 1989 if any such restrictive clauses have been identified. Your response should be provided to your licensing contact in headquarters.

This request for information was approved by the Office of Management and Budget under clearance number 3150-0011 which expires December 31, 1989. Comments on burden and duplication may be directed to the Office of Management and Budget, Reports Management Room 3208, New Executive Office Building, Washington, D.C. 20503.

Questions concerning this letter should be directed to the Director of the Office of Enforcement.

Sincerely,

VICTOR STELLO, Jr.,
Executive Director for Operations.

[NRC Whistleblower Protection Statute]

ENERGY REORGANIZATION ACT OF 1974,
SECTION 210

"EMPLOYEE PROTECTION

"SEC. 210. (a) No employer, including a Commission licensee, an applicant for a Commission license, or a contractor or a subcontractor of a Commission licensee or applicant, may discharge any employee or otherwise discriminate against any employee with respect to his compensation, terms, conditions, or privileges of employment because the employee (or any person acting pursuant to a request of the employee)—

"(1) commenced, caused to be commenced, or is about to commence or cause to be commenced a proceeding under this Act or the Atomic Energy Act of 1954, as amended, or a proceeding for the administration or enforcement of any requirement imposed under this Act or the Atomic Energy Act of 1954, as amended;

"(2) testified or is about to testify in any such proceeding or;

"(3) assisted or participated or is about to assist or participate in any manner in such a proceeding or in any other manner in such a proceeding or in any other action to carry out the purposes of this Act or the Atomic Energy Act of 1954, as amended.

"(b)(1) Any employee who believes that he has been discharged or otherwise discriminated against by any person in violation of subsection (a) may, within thirty days after such violation occurs, file (or have any person file on his behalf) a complaint with the Secretary of Labor (hereinafter in this subsection referred to as the 'Secretary') alleging such discharge or discrimination. Upon receipt of such a complaint, the Secretary shall notify the person named in the complaint of the filing of the complaint and the Commission.

"(2)(A) Upon receipt of a complaint filed under paragraph (1), the Secretary shall conduct an investigation of the violation alleged in the complaint. Within thirty days of the receipt of such complaint, the Secretary shall complete such investigation and shall notify in writing the complainant (and any person acting in his behalf) and the person alleged to have committed such violation of the results of the investigation conducted pursuant to this subparagraph. Within ninety days of the receipt of such complaint the Secretary shall, unless the proceeding on the complaint is terminated by the Secretary on the basis of a settlement entered into by the Secretary and the person alleged to have committed such violation, issue an order either providing the relief prescribed by subparagraph (B) or denying the complaint. An order of the Secretary shall be made on the record after notice and opportunity for public hearing. The Secretary may not enter into a settlement terminating a proceeding on a complaint without the participation and consent of the complainant.

"(B) If, in response to a complaint filed under paragraph (1), the Secretary determines that a violation of subsection (a) has occurred, the Secretary shall order the person who committed such violation to (i) take affirmative action to abate the violation, and (ii) reinstate the complainant to his former position together with the compensation (including back pay), terms, conditions, and privileges of his employment, and the Secretary may order such person to provide compensatory damages to the complainant. If an order is issued under this paragraph, the Secretary, at the request of the complainant shall assess against the person against whom the order is issued a sum equal to the aggregate amount of all costs and expenses (including attorneys' and expert witness fees) reasonably incurred, as determined by the Secretary, by the complainant for, or in connection with, the bringing of the complaint upon which the order was issued.

"(c)(1) Any person adversely affected or aggrieved by an order issued under subsection (b) may obtain review of the order in the United States court of appeals for the circuit in which the violation, with respect to which the order was issued, allegedly occurred. The petition for review must be filed within sixty days from the issuance of the Secretary's order. Review shall conform to chapter 7 of title 5 of the United States Code. The commencement of proceedings under this subparagraph shall not, unless ordered by the court, operate as a stay of the Secretary's order.

"(2) An order of the Secretary with respect to which review could have been obtained under paragraph (1) shall not be subject to judicial review in any criminal or other civil proceeding.

"(d) Whenever a person has failed to comply with an order issued under subsection (b)(2), the Secretary may file a civil action in the United States district court for the district in which the violation was found to occur to enforce such order. In actions brought under this subsection, the district courts shall have jurisdiction to grant all appropriate relief including, but not limited to, injunctive relief, compensatory, and exemplary damages.

"(e)(1) Any person on whose behalf an order was issued under paragraph (2) of subsection (b) may commence a civil action against the person to whom such order was issued to require compliance with such order. The appropriate United States district court shall have jurisdiction, without regard to the amount in controversy or the citizenship of the parties, to enforce such order.

"(2) The court, in issuing any final order under this subsection, may award costs of litigation (including reasonable attorney and expert witness fees) to any party whenever the court determines such award is appropriate.

"(f) Any nondiscretionary duty imposed by this section shall be enforceable in a mandamus proceeding brought under section 1361 of title 28 of the United States Code.

"(g) Subsection (a) shall not apply with respect to any employee who, acting without direction from his or her employer (or the employer's agent), deliberately causes a violation of any requirement of this Act or of the Atomic Energy Act of 1954, as amended.

U.S. DEPARTMENT OF LABOR,
Washington, DC, August 6, 1989.

Hon. KENNETH M. CARR,
Chairman, Nuclear Regulatory Commission, Washington, DC.

DEAR MR. CARR: This is in response to former Chairman Zech's letter expressing concerns of the Nuclear Regulatory Commission (NRC) regarding the Department of Labor's review of settlement agreements in

whistleblower cases arising under the Energy Reorganization Act (ERA).

Your letter and the enclosed materials expressed objections to provisions of settlement agreements which impeded avenues of communication between employees of NRC licensees and NRC. I addressed this question in a recent ERA case, *Polizzi* v. *Gibbs & Hill, Inc.*, 87-ERA-38, in which I concluded that the effect of the settlement provision under review there "would be to 'dry up' channels of communication which are essential for Government agencies to carry out their responsibilities." I am enclosing a copy of my order.

I will be reviewing any further such settlement agreements on a case-by-case basis. I share NRC's concern that ERA be administered to assure the highest of health and safety standards and practices at nuclear facilities.

Sincerely,

ELIZABETH DOLE.
Secretary of Labor.

U.S. DEPARTMENT OF LABOR,
Washington, DC, July 18, 1989.

(Case No. 87-ERA-38)

IN THE MATTER OF LORENZO MARIO POLIZZI, COMPLAINANT, *v.* GIBBS & HILL, INC., RESPONDENT BEFORE THE SECRETARY OF LABOR

ORDER REJECTING IN PART AND APPROVING IN PART SETTLEMENT SUBMITTED BY THE PARTIES AND DISMISSING CASE

On July 13, 1988, the Administrative Law Judge (ALJ) in this case arising under the employee protection provision of the Energy Reorganization Act of 1974, as amended (ERA), 42 U.S.C. § 5851 (1982), issued a Recommended Decision and Order (R.D. and O.) dismissing this matter with prejudice on the grounds that the parties had resolved the issues between them. The parties had made a joint motion to the ALJ requesting the entry of an order of dismissal on the grounds that the parties and entered into a settlement agreement.

The record submitted to the Secretary with the ALJ's R.D. and O. did not include a copy of the settlement agreement. Accordingly, on October 3, 1988, the Secretary issued an Order to Submit Settlement Agreement ordering the parties to submit a copy of the settlement agreement for review by the Secretary. On November 3, 1988, the parties submitted a copy of the settlement agreement to the Secretary.

The ERA requires the Secretary to issue an order resolving the case "unless the proceeding on the complaint is terminated by the Secretary on the basis of a settlement entered into by the Secretary and the person alleged to have committed such violation . . . ." 42 U.S.C. § 5851(b)(2)(A). The Secretary has held a number of times in ERA cases that the case cannot be dismissed on the basis of a settlement "unless the Secretary finds that the settlement is fair, adequate and reasonable." *Fuchko and Yunker* v. *Georgia Power Co.*, Case Nos. 89-ERA-9, 10, Secretary's Order to Submit Settlement Agreement issued March 23, 1989, at 2, and cases cited therein. Furthermore, the Secretary held that "it is error for the ALJ to dismiss a case without reviewing the settlement and making a recommendation of whether the settlement is fair, adequate and reasonable" *Id.* at 1-2.

The Department of Labor does not simply provide a forum for private parties to litigate their private employment discrimination suits.[1] Protected whistleblowing under the ERA may expose not just private harms, but health and safety hazards to the public. The Secretary represents the public interest in keeping channels of information open by assuring that settlements adequately protect whistleblowers. *Cf., Virginia Electric and Power Co.*, 19 FERC ¶ 61,333 (Federal Energy Regulatory Commission 1982) ("[B]efore approving a settlement, regardless of whether it is contested or enjoys the unanimous support of the parties, the Commission is obliged to make an independent determination that the settlement is just and reasonable and in the public interest.")

The settlement agreement in this case has been carefully reviewed. With the exception of two provisions, I find it fair, adequate and reasonable.

Paragraph 7 of the Settlement Agreement provides:

"Polizzi agrees that he will not voluntarily cooperate with or testify on behalf of any entity or individual who has or may file charges of discrimination or wrongful employment practices against Gibbs & Hill or TUGCO, or their respective parents, affiliates, subsidiaries, successors or assigns, under the Energy Reorganization Act, the Atomic Energy Act of 1954 as amended, or any other federal or state law, rule, regulation or theory, nor will he voluntarily testify in or otherwise participate in any proceeding or investigation involving the Comanche Peak Steam Electric Station, before any state or federal court or administrative agency, including, but not limited to, licensing or safety proceedings or investigations before the Nuclear Regulatory Commission and/or regulatory or rate proceedings or investigations before the Public Utility Commission of the State of Texas, except as required by lawful subpoena; provided, however, that nothing in the foregoing paragraph shall in any manner be interpreted to prevent Polizzi from informing the Nuclear Regulatory Commission of any and all safety concerns he may have relating to the Comanche Peak Steam Electric Station."

This provision prohibits Complainant, among other things, from providing information to, or assisting or cooperating with, the Department of Labor in investigations of complaints against Respondent, the Texas Utilities Generating Company, or any related company under the ERA or any other environmental whistleblower protection statute. 29 C.F.R. § 24.1 (1988). Paragraph 7 also would prohibit Complainant from providing information or assisting or cooperating with the Department of Labor or any other federal or state agency in the investigation or prosecution of any charge of discrimination or wrongful employment practices, in violation of any federal or state law, rule, or regulation. This could include, for example, the Fair Labor Standards Act, the Occupational Safety and Health Act, Executive Order No. 11,246, Section 503 of the Rehabilitation Act of 1973, and Title VII of the Civil Rights Act of 1964. This provision also prohibits complainant from voluntarily testifying or otherwise participating in any proceeding or investigation involving the Comanche Peak Steam Electric Station, including Nuclear Regulatory Commission licensing or safety proceedings or investigations, and state regulatory or rate proceedings or investigations. This prohibition could include investigation or enforcement proceedings by the United States Environmental Protection Agency. The only exception to these restrictions would be where Complainant is under lawful subpoena.

On May 4, 1989, Complainant's counsel provided the Department's Office of Administrative Appeals a copy of a letter to him from Respondent's counsel dated May 3, 1989, by which Respondent "waives now and forever any rights it may have to enforce any restrictions that may be construed to be imposed upon [Complainant] under paragraph 7 of the settlement agreement . . . [Complainant] may freely go to the Nuclear Regulatory Commission at any time without fear of any form of retribution from [Respondent]." Although the first sentence of this letter appears to nullify paragraph 7 in its entirety, the second sentence could be interpreted as limiting Respondent's waiver to the restriction on Complainant's right to go to the NRC. For that reason, I have fully reviewed paragraph 7, as well as all other provisions of the settlement.

Paragraph 7 of the Settlement Agreement significantly restricts access by the Department of Labor, as well as other agencies, to information Complainant may be able to provide relevant to the administration and enforcement of the ERA and many other laws. Its effect, to a large degree, would be to "dry up" channels of communication which are essential for government agencies to carry out their responsibilities. *NLRB* v. *Scrivener*, 405 U.S. 117, 122 (1972). As such, I find it against public policy.[2]

In *EEOC* v. *Cosmair, Inc.*, 821 F.2d 1085 (5th Cir. 1987), the court held that waiver of the right to file a charge with EEOC was void as against public policy. The court distinguished between waiver of the right to file a charge and waiver of the right to recover personally on a cause of action. The court explained:

"Allowing the filing of charges to be obstructed by enforcing a waiver of the right to file a charge could impede EEOC enforcement of the civil rights laws. . . . A charge not only informs the EEOC of discrimination against the employee who files the charge . . . but also may identify other unlawful company actions. When the EEOC

---

[1] I note that in ordinary lawsuits brought by one private party against another private party, where the rights of other persons will not be affected, "settlement of the dispute is solely in the hands of the parties." *United States* v. *City of Miami*, 614 F.2d 1322, 1330 (5th Cir. 1980) *aff'd in part and reversed in part on rehearing en banc*, 664 F.2d 435 (1981). Thus, under Fed. R. Civ. P. 41(a)(1)(ii), a stipulation signed by all parties who have appeared in the court action is effective automatically, without judicial involvement. *Gardiner* v. *A.H. Robins Co, Inc.* 747 F.2d 1180, 1189 (8th Cir. 1984). The trial court judge must " 'stand[] indifferent,' " and not interfere with the parties' "unconditional right" to a dismissal by stipulation. *Id.* at 1189-1190 (citation omitted). *See also Janus Films, Inc.* v. *Miller* 801 F.2d 578, 582, 585 (2d Cir. 1986; *City of Miami*, 614 F.2d at 1332.

[2] A settlement is a contract, and its construction and enforcement are governed by principles of contract law. *United States* v. *ITT Continental Baking Co.*, 420 U.S. 223, 238 (1975); *Schwartz* v. *Florida Bd. of Regents*, 807 F.2d 901, 905 (11th Cir. 1987); *Orr* v. *Brown & Root, Inc.*, Case No. 85-ERA-6, Secretary's Decision and Order issued October 2, 1985, at 2. The doctrine that a promise or term of an agreement is unenforceable if against public policy encompasses more than illegality; it includes promises which are injurious to the public interest. *Shadis* v. *Beal*, 685 F.2d 824, 833, n.15 (3d Cir. 1982), *cert. denied* 459 U.S. 970 (1982). "Contracts contrary to public policy, that is those which tend to be injurious to the public or against the public good, are illegal and void, even though actual injury does not result therefrom." 17 C.J.S. *Contracts* § 211, p. 1013 (1963).

acts on this information, "albeit at the behest of and for the benefit of specific individuals, it also acts to vindicate the public interest in preventing employment discrimination." . . . We hold that an employer and an employee cannot agree to deny to EEOC the information it needs to advance the public interest."

821 F.2d at 1090 (citations omitted.) Following the Supreme Court's guidelines that "[a] promise is unenforceable if the interest in its enforcement is outweighed by a public policy harmed by enforcement of the agreement," *Town of Newton* v. *Rumery*, 480 U.S. 386, 392 (1987), the court in *EEOC* v. *Cosmair, Inc.*, held that a "waiver of a right to file a charge is void as against public policy." 821 F.2d at 1090. The restriction on access by government agencies to Complainant's information here is, if anything, greater than in *EEOC* v. *Cosmair Inc.*, and I find that it is unenforceable as against public policy.

In addition, the settlement appears to encompass the settlement of matters arising under various laws, only one of which is the ERA. As stated in *Poulos* v. *Ambassador Fuel Oil Co., Inc.*, Case No. 86-CAA-1, Secretary's Order, issued November 2, 1987, slip op. at 2:

"[The Secretary's] authority over settlement agreements is limited to such statutes as are within [the Secretary's] jurisdiction and is defined by the applicable statutes. *See Aurich* v. *Consolidated Edison Company of New York, Inc.*, Case No. CAA-2, Secretary's Order Approving Settlement, issued July 29, 1987, *Chase* v. *Buncombe County, N.C.*, Case No. 85-SWD-4, Secretary's Decision and Order on Remand, issued November 3, 1986."

I have, therefore, limited my review of the agreement to determining whether the terms thereof are a fair, adequate and reasonable settlement of Complianant's allegation that Respondent violated the ERA.

Although I have found that one provision of the Settlement Agreement, paragraph 7, is unenforceable as against public policy, the remainder of the agreement may be enforceable when "performance as to which the agreement is unenforceable is not an essential part of the agreed exchange." *EEOC* v. *Cosmair, Inc.*, 821 F.2d at 1091 (quoting the Restatement (Second) of Contracts, § 184(1) (1981).) *See also Nichols* v. *Anderson*, 837 F.2d 1372, 1375 (5th Cir. 1988) ("[I]f less than all of a contract violates public policy, the rest of the contract may be enforced unless the unenforceable term is an essential part of the contract.") Thus, in *McCall* v. *United States Postal Service*, 839 F.2d 664 (Fed. Cir. 1988), an employee had settled an action challenging his removal by agreeing that, upon reinstatement for a one year probationary period, he would not appeal any disciplinary action taken against him and also waived his right to file a charge with EEOC. The court held that "even if [the employee's] attempted waiver of his right to file EEOC charges is void, that would not affect the validity of other portions of the agreement." 839 F.2d 664, 666 at * * *.

Here, the provisions of paragraph 7 of the Settlement Agreement appear to be collateral to the central dispute which the agreement purported to settle, alleged retaliation by Respondent against Complainant for protected activities, in violation of the ERA. I have attached primary significance in reaching this conclusion to the fact that Respondent has expressly waived any right to enforce the restrictions in paragraph 7. In addition, most, if not all, of the restrictions placed on Complainant by paragraph 7 would apply in matters only remotely related, if at all, to their dispute under the ERA.

I also note that paragraph 2 of the agreement could be construed as a wavier by Complainant of any causes of action he may have which arise in the future. As the Secretary has held in prior cases, *see Johnson* v. *Transco Products, Inc.*, Case No. 85-ERA-7, Secretary's Order Approving Settlement issued August 8, 1985, such a provision must be interpreted as limited to the right to sue in the future on claims or causes of action arising out of facts or any set of facts occurring before the date of the agreement. *See also Alexander* v. *Gardner-Denver Co.*, 415 U.S. 36, 51-52 (1974); *Rogers* v. *General Electric Co.*, 781 F.2d 452, 454 (5th Cir. 1986).

With the exception of paragraph 7, and with the limitations discussed above, I find the terms of the agreement within the scope of my authority under the ERA to be fair, adequate and reasonable, and to that extent I approve it.

Accordingly, the complaint in this case is dismissed.

So ordered.

ELIZABETH DOLE.
Secretary of Labor.

Hon. JOHN B. BREAUX,
Chairman, Senate Subcommittee on Nuclear Regulation, Committee on Environment and Public Works, U.S. Senate, Washington, DC.

DEAR SENATOR BREAUX: I regret that circumstances did not permit us to meet on August 3. In your absence, however, I had the opportunity to discuss with Carolyn Jourdan the issues you and the Subcommittee on Nuclear Regulation have addressed in recent hearings, especially as they might apply to my company's proposed settlement agreement with John Delcore. Since meeting with Ms. Jourdan on August 3, I have personally reviewed the background of this matter and have decided on a course of action for Northeast Utilities that I'd like to tell you about in this letter.

As an initial matter, I must reemphasize that, in offering the proposed settlement agreement to Mr. Delcore, the Company was motivated solely by a good faith desire to resolve fully Mr. Delcore's claims of wrongful termination, retaliation and contractual interference, all of which we believe are entirely unfounded, and to prevent the relitigation of those claims in other forums. It was never our intent or our understanding that, by entering into the agreement, Mr. Delcore would in any way relinquish his right to report safety concerns to the NRC or that he would ever have to refrain from cooperating with the NRC or other governmental agencies in the investigation and resolution of issues concerning nuclear safety, workplace safety or public safety in general. As you recall, we included a provision in the proposed agreement that pointedly underscored Mr. Delcore's continued right to report safety concerns to the NRC.

We at Northeast Utilities have always recognized that our company's most fundamental interests demand the prompt identification, investigation and resolution of all safety concerns as a matter of the highest priority. We believe that this approach has contributed significantly to our record of safe nuclear operations, a record of which we are proud. In furtherance of the Company's unyielding safety ethic, our attorneys advised Mr. Delcore's counsel early on in the settlement negotiations that a prerequisite to settlement would be Mr. Delcore's full cooperation with our Company in the identification of safety issues of which Mr. Delcore became aware during his tenure as a contractor employee at our Millstone Nuclear Plant. (I have enclosed a copy of the letter to Mr. Delcore's attorney, in which that aspect of the settlement proposal was outlined.) Had any such issue been identified, Northeast Utilities, as a matter of Company policy, would have reviewed it and reported the matter to the NRC or other agencies consistent with regulatory requirements.

In retrospect, and with benefit of the helpful and enlightening discussion with Ms. Jourdan, I must acknowledge that certain langauge of the proposed agreement, especially when read out of context, might

lend itself to a more sweeping and restrictive interpretation than we intended. I continue to feel that the proposed agreement and our motives in proposing the agreement were legal and ethical in all respects. At the same time, I believe that the settlement language could have been and should have been more precise.

In commenting on the proposed agreement's legality, I should also point out that merely living within the letter of the law has never been our approach in making decisions at Northeast Utilities. Public policy considerations are an equally essential element of our deliberations concerning any issue. In that respect, I fully agree with both you and the Secretary of Labor that the need for open lines of communications and unfettered access to governmental agencies that are charged with the responsibility of securing the public safety is paramount. To be sure that this principle is fully reflected in any future settlement agreements relating to claims of wrongful termination or retaliation, we have instructed our outside counsel to include a provision in any such agreement that would clearly preserve the individual's right to bring any concerns, nuclear or other, to any state or federal governmental agency and to participate fully in any state or federal administrative, judicial or legislative proceeding or investigation. I have enclosed a copy of the draft language for such a provision. Although the language obviously may need to be modified somewhat to reflect the particular circumstances of any given situation, I assure you that the spirit and basic substance of the draft language will remain intact.

I am confident that such a provision will thoroughly safeguard the public interest, while preserving the Company's right to take reasonable measures toward protecting itself from repetitive legal actions and unwarranted denigration of both the Company and its employees in the public media.

We constantly seek ways to improve our activities under NRC licenses, and think that the changes we have made regarding proposed settlement agreements is indeed an improvement. I would be pleased to meet with you at your convenience to discuss this matter and Northeast Utilities' safety program in greater detail.

Very truly yours,

BILL ELLIS,
Chairman and Chief Executive Officer.

BISHOP, COOK, PURCELL & REYNOLDS,
Washington, DC, December 23, 1988.

[Confidential for Settlement Purposes only]

Re John DelCore v. W.J. Barney Corporation, Case No. H88-752 (AHN).

ROBERT A. SOLOMON, Esquire,
Pittman, Sheehan, Soloman & Swaine, 105 Court Street, Suite 400, New Haven, CT.

DEAR BOB: After careful consideration of the points that you have raised in our recent conversations and consultations with both my client and Jim Royster, counsel for W.J. Barney Co., I have been authorized to offer settlement of the above-captioned matter on the following terms:

1. As a precondition to the settlement, Mr. DelCore would meet with a representative of my client, and a representative of W.J. Barney if Barney wishes to be represented at the meeting, for the purpose of providing complete and detailed information regarding any safety problems or potential safety problems at the Millstone Nuclear Power Station of which he has any knowledge. We will want him at that time to provide any documents in his possession or control that in any way relate to or shed light in the information provided in the meeting. In addition, we would require that Mr. DelCore sign a statement to the effect that he has provided all information regarding real or potential safety problems about when he has any knowledge.

2. Mr. DelCore would move in federal district court pursuant to Fed. R. Civ. P. 41(a)(2) for dismissal with prejudice of his pending action. Barney and CL&P would notify the court that they have no objection to the entry of an order of dismissal with prejudice.

3. Mr. DelCore would execute a broad waiver and release of any claims that he has or might have against W.J. Barney, against Connecticut Light & Power and all related entities, or against any employees, agents, representatives, etc. of either Barney or CL&P.

4. Mr. DelCore would agree that neither the settlement agreement nor any communications made in the context of settlement negotiations would constitute an admission or be admissable in evidence to prove any violation of any legal obligation of the defendants, related entities, or any of their employees, agents, representatives, etc.

5. Mr. DelCore would be paid $9,000.00 in a lump sum upon satisfaction of all settlement conditions.

6. Mr. DelCore and your firm would agree to keep the fact and terms of the settlement and any communications relating to the negotiation of the settlement agreement strictly confidential. Any breach of the confidentiality provision would create in the co-defendants the right to recover one half of the amount paid to Mr. DelCore in settlement, of actual damages plus reasonable attorney's fees, whichever amount were higher. To help maintain the confidentiality of the agreement and to keep litigation costs of all parties down in the event of a dispute over compliance, the parties would be limited solely to private, binding arbitration as a remedy in the event of an alleged breach of any provision of the settlement agreement.

We believe that this offer represents a very reasonable basis from Mr. DelCore's perspective on which to compromise his claims. While we understand that he would prefer what would effectively be a full recovery settlement, I have had great difficulty seeing, on the facts as we know them, that Mr. DelCore's claims present a very serious threat as a legal matter. Consequently, I have been unable to recommend settlement to my client on the basis that I see substantial risk of Mr. DelCore prevailing if the case is litigated.

It is important that you and your client understand that the interest in settling this case is solely a product of a desire to avoid if reasonably possible the expense and inconvenience of litigation. While that interest is strong enough to move my client to make what must be viewed as a generous nuisance-value offer, it is not seen as sufficient to justify offering an amount that at least equals, and probably exceeds, the amount that Mr. DelCore could recover if he were much more successful on his claims than we believe he can be.

Please give me a call if you would like to discuss any aspect of this offer. If your client is agreeable to the terms that we have proposed, I would undertake to have a settlement agreement and related documents drafted and available for signature when you return from your vacation in early January.

Sincerely,

RICHARD K. WALKER.

PROPOSED SETTLEMENT AGREEMENT LANGUAGE

[For inclusion in settlement agreements relating to claims of wrongful termination, retaliation, etc.]

The purpose of this agreement is to fully resolve and prohibit the assertion, re-assertion, litigation or re-litigation of any and all claims and actions that have been or could have asserted, initiated or commenced through the date of this agreement by _____ against _____ for the recovery of back or future wages, other employment benefits, compensatory damages, punitive damages, or legal or equitable relief of any kind or nature, under any statute, regulation or common law theory, in any way relating to or arising out of _____'s employment with _____ at _____ or the termination of that employment.

Nothing in this agreement shall be construed to prohibit _____ from reporting any suspected instance of illegal activity of any nature, any nuclear safety concern, any workplace safety concern or any public safety concern to the United States Nuclear Regulatory Commission, the United States Department of Labor or any other federal or state governmental agency, and shall not be construed to prohibit _____ from participating in any way in any state or federal administrative, judicial or legislative proceeding or investigation with respect to any claims and matters not resolved and terminated by the preceding paragraphs.

The ACTING PRESIDENT pro tempore. The Senator from North Dakota is recognized.

Mr. CONRAD. I thank the Chair.

(The remarks of Mr. CONRAD pertaining to the introduction of S. 1850 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

The ACTING PRESIDENT pro tempore. The Senator from Florida [Mr. MACK] is recognized.

CUBAN POLITICAL PRISONERS

Mr. MACK. Mr. President, yesterday I spoke in this Chamber about the plight of Alfredo Mustelier, a Cuban political prisoner who is on a thirst strike.

Alfredo Mustelier is dying. Today is the 10th day he has refused to take any water and the 13th day he has refused all food. We are told by former prisoners with experience in thirst strikes that most people cannot survive for more than 12 or 13 days.

Alfredo has suffered for 20 years in Cuban prisons. Now he is vowing to continue his thirst strike until he dies or is freed.

We have just received word by telegram from his wife in Havana that Alfredo is in critical condition.

Yesterday I met with a group of former Cuban prisoners. They had suffered from 16 to 26 years in Castro's jails—a number of them in the same prison in which Alfredo Muste-

lier is being held. They said that Castro's jailers could let Alfredo lose consciousness and then try to keep him alive by feeding him intravenously. Or Castro, whom we can assume is personally handling this matter, is simply going to let him die.

Mr. President, we cannot let this man die in silence. Does no one care about this man's sacrifice? Where is the Secretary General of the United Nations, who pledged to monitor human rights in Cuba? Where are the television networks? Is it not news when a man is sacrificing his life to be free?

I would like to particularly emphasize the responsibility of the U.N. Secretary General in this case. Last year, the U.N. Human Rights Commission sent a team to Cuba to investigate human rights there. They came back with a 300-page report detailing human rights abuses.

The United Nations team received 137 complaints of torture, and other serious human rights abuses, and countless instances of missing people, murders, lack of freedom of religion, lack of freedom of expression or thought, lack of all fundamental liberties.

In March of this year the U.N. Human Rights Commission, in the wake of reports that the Cuban Government had arrested and beaten numerous people who had testified before the commission, again passed a resolution on Cuba. This resolution committed the Secretary General to personally continue to monitor human rights in Cuba and to intercede if necessary on humanitarian grounds.

Now is the time, Mr. President. Now is the time for the Secretary General to publicly call for the release of these brave and long-suffering Cuban prisoners.

Yesterday I read from Alfredo's letter announcing his hunger strike. I read it again today "I am well aware that I place my life and limb in exchange for my freedom," Alfredo wrote. "All I have left is freedom or death, but I will live or die trusting men and Divine Justice, as well as human solidarity."

We must stand in solidarity with Alfredo Mustelier, and his fellow plantados Ernesto Diaz Rodriguez and Mario Chanes. All three have vowed to go on sequential hunger strikes until they die or are free.

I would like to thank Senator CLAIBORNE PELL, the distinguished chairman of the Senate Foreign Relations Committee for joining me in sending telegrams to Fidel Castro and to the Secretary General of the United Nations urging the immediate release of these three political prisoners.

Thirty-two Members of the Senate—16 Democrats and 16 Republicans—and 5 Members of the House joined in sending these telegrams.

Mr. President, the lives of these men are in our hands. We must not fail them.

Mr. President, I ask unanimous consent to print in the RECORD the text of the telegrams, the final list of signers, and an article from Insight magazine called "Lasting Misery of Castro's Prisons."

There being no objection, the material was ordered to be printed in the RECORD, as follows:

TEXT OF TELEGRAMS URGING THE RELEASE OF CUBAN POLITICAL PRISONERS, NOVEMBER 7, 1989

TELEGRAM TO FIDEL CASTRO

We urge you to immediately release three "plantados" who have served over 20 years in Cuban prisons. Alfredo Mustelier is now on a hunger strike which could take his life. Ernesto Diaz Rodriguez and Mario Chanes de Armas vow to continue the hunger strike. Their continued imprisonment is in violation of Cuban law, which limits prison terms to 20 years.

TELEGRAM TO UNITED NATIONS SECRETARY GENERAL PEREZ DE CUELLAR

We urge you, pursuant to Resolution 1989/113 of the U.N. Human Rights Commission committing you to continue to monitor human rights in Cuba, to request that the Cuban Government immediately release three Cuban political prisoners: Alfredo Mustelier, Ernesto Diaz Rodriguez and Mario Chanes de Armas. All three vow to enter hunger strikes until they die or are released. We urge you to personally intercede with Fidel Castro to request their immediate release. We appreciate your concern and efforts to promote human rights in Cuba and around the world.

U.S. SENATORS

Connie Mack, Robert Dole, John McCain, Steve Symms, Rudy Boschwitz, John Chafee, Charles Grassley, Pete Wilson, James McClure, Dan Coats, Slade Gorton, Ted Stevens, Mitch McConnell, James Jeffords, Larry Pressler, William Armstrong, Claiborne Pell, Bob Graham, Tom Harkin, John Kerry, Jeff Bingaman, Quentin Burdick, Dennis DeConcini, Patrick Leahy, Joseph Lieberman, Spark Matsunaga, Paul Simon, John Glenn, Daniel Inouye, Brock Adams, Bill Bradley, Howell Heflin.

U.S. REPRESENTATIVES

Dan Burton, Robert Lagomarsino, Michael Bilirakis, Porter Goss, Bill Nelson.

LASTING MISERY OF CASTRO'S PRISONS

(Summary: Despite recent signs of reform in human rights, the hundreds of political prisoners locked away in the notorious keeps maintained by Fidel Castro endure conditions that conjure the cruelty of the camps of Hitler and Stalin. Ironically, Castro's own confinement in the early 1950s was comfortable by comparison.)

During Mikhail Gorbachev's first visit to Cuba in April, Elizardo Sanchez Santa Cruz was optimistic. A former professor of economics at Havana University, Sanchez, 45, had been working for human rights since the late 1970's and said he now felt there were signs of some improvement. He expressed hope that Gorbachev's reform policies, which Fidel Castro has resisted, would rub off on the Cuban leader.

Imprisoned in 1980 for six years for his "ideas against the government," Sanchez was speaking late one night in his conference-room-style garage in Havana. Castro, he said, "has freed about 100,000 political prisoners, and he is showing a greater tolerance with our contacts with the media. * * * Last year, for example, I was put in jail for eight months for giving an interview just like this one. The journalists were deported the same night.

After his initial release in May 1987, Sanchez formed the Cuban Commission for Human Rights and National Reconciliation. The organization of two other human rights groups followed: the Party for Human Rights in Cuba (now headed by Hiram Abi Cobas) and the Marti Committee for the Rights of Man (led by Hubert Jerez Marino).

A few hours after the interview, Dr. Samuel Martinez Lara, then secretary-general of the Party for Human Rights in Cuba, was arrested along with a number of other activists. Martinez Lara was the chief architect of plans announced a day earlier for a demonstration in front of the Soviet Embassy to show support for Gorbachev's reforms.

On the morning of the arrest, at a news conference in his garage, hastily arranged by word of mouth, a shaken Sanchez called the detentions "a flagrant violation of human rights [that] clearly illustrate what the situation is here."

Worse was to come for the human rights' leader. After the drug trafficking scandal that rocked the government in July, Sanchez, Abi Cobas and Jerez met with foreign journalists and said the trial of four high-ranking military officers violated the officers' right to due process. The defendants, including war hero Maj. Gen. Arnaldo Ochoa Sanchez, were charged with drug trafficking and executed July 13. The three human rights' leaders said they feared an increase in abuses.

At 5 a.m. Aug. 6, some 20 state security agents arrived at Sanchez's home and confiscated documents and office equipment that belonged to the commission, along with a photograph of Sanchez and Sen. Edward M. Kennedy. Within a few hours, Sanchez, Abi Cobas and Jerez were arrested on charges of propagating false information. Both Sanchez and Jerez were thrown into the Combinado del Este prison just outside Havana to await trial, tentatively scheduled for Oct. 18. Abi Cobas, being held at a military hospital in the capital, has a heart condition and is reportedly seriously ill.

Prosecutors say they are seeking a four-year sentence for Sanchez and three years each for Abi Cobas and Jerez. Martinez Lara, meanwhile, is serving a nine-month sentence in Aguica prison, about 125 miles from Havana, where his asthmatic condition is reportedly aggravated by the humidity.

Sanchez and his colleagues are among an estimated 500 political prisoners in Cuban jails. Human rights groups say their fate depends on international pressure on Castro, which has slackened after an investigation by the U.N. Human Rights Commission last year. Mary Jane Camejo, a specialist on Cuba for Americas Watch, a New York-based human rights organization, says abuses have increased since the commission's visit because "Castro feels he's off the hook." She says the arrests of the three leaders were a "terrible blow" to the human rights movement in Cuba but adds: "There will always be people continuing to work for human rights even under the worst possible conditions. Repression in Cuba is nothing new."

But repression has taken on a different form in the three decades of Castro's rule. When the revolutionary leader himself was imprisoned after his raid on the Moncada Barracks July 26, 1953, he received and read such diverse books as Thackeray's "Vanity Fair," Hugo's "Les Miserables" and four volumes of the "Complete Works of Sigmund Freud." Though in solitary confinement, he was fed, had mail privileges and enjoyed conjugal visits. Toward the end of his imprisonment, he wrote: "We don't have to get up until we want to * * *. We have plenty of water, electric light, food and clean clothes—all free * * *. We don't even pay rent."

Conditions have changed since he seized power in January 1959. Thousands of citizens were charged with "counterrevolutionary activities" or arrested on no charge at all and tried by revoluntionary tribunals, often with no right to defense. Many have been convicted of crimes against "the security of the state" and sentenced to as many as 90 years in prison. Hundreds have been tortured and executed by firing squads.

When Carlos Franqui, then editor of the communist daily Revolucion, questioned Castro about the need for such brutal tactics, Castro told him that such methods "annihilate the enemy."

Castro has since enacted some prison reforms (limiting terms to 30 years instead of 90) and freed many political prisoners. But human rights groups maintain that Cuba is still one of the world's worst violators. Americas Watch says it believes Cuba has had more political prisoners per capita for longer periods than any other country. The group says only South Africa, Indonesia and possibly China come close.

Castro's stock response has been to invoke the regime's commitment to deliver free health care, education and subsidized food and housing for its population as the proper definition of "human rights." But in a recent although rare visit, investigators, including the team sent for the first time by the United Nations, noted continuing abuses.

While prison conditions reportedly have improved for some, they still remain extremely harsh for those political prisoners known as *plantados* (those who stand firm), who refuse to participate in political rehabilitation programs. Mercedes Para, 37, who was part of a clandestine communications network between political prisoners and the outside world and now lives in Miami, compares Cuba's prisons to concentration camps. "Castro's prisons," she says, "are no different from the concentration camps of Hitler or Stalin. There is no other way to describe them." Former prisoners who now live in Miami have their own harrowing tales to tell.

Eleno Oviedo, 52, who was released in January after 26 years, many in solitary confinement, describes the facts of his prison life in a calm and detached manner. One prison, he says, had only two bathrooms for 300 inmates. Food—which was scarce—was used as a "political tool," distributed on the whim of the guards. Some prisoners got a little bit more; others were denied food altogether. Senseless beatings were not uncommon. "I was beaten for the amusement of the prison guards," he says. "If you didn't eat fast enough or if you didn't bathe fast enough, you would be beaten. No reason was needed."

The stories of prison life do not vary much from one former inmate to the next. Eugenio Zaldivar, now working with the U.S. Catholic Conference in Miami as a resettlement officer for former political prisoners, says, "The food was bad and there wasn't much of it. We would get sugar with warm water and old bread for breakfast, [wheat gruel] with fish oil for lunch and a rotten cup of rice with cold, oily fish for dinner. The fish sometimes would be substituted by a boiled egg or canned Russian meat which we called bear meat. It was so disgusting, you couldn't keep it down.

"Water would come once a day for one hour from the communal shower. In some cells we had as many as 36 prisoners pushing to get at the water with little tin cans that were supposed to last them for the entire day to do with it what they wanted—brush teeth, shave or drink."

Zaldivar, 44, was released in 1979 after 13 years in prison. The first part of his sentence was spent in a cell 6 feet by 5 feet without toilet or light, where he was to recuperate from a gunshot wound in the leg, acquired in a scuffle during his arrest. He had to get the guards' attention when he needed to use a toilet and often would be taunted and ignored.

Zaldivar also spent three months in Combinado del Este's infamous Rectangel of Death—99 cells used for solitary confinement. Temperatures in the prison cells are extreme: ovenlike in the summer months and cold in the winter. "There was no window, and a bulb burned 24 hours a day, so you never knew if it was night or day," he says. "The cell was a simple 4-by-6-foot concrete slab with no bed, a hole for a toilet, and it was infested with mosquitoes."

To keep his sanity, says Zaldivar, "I built boats. I built them over and over again in my mind. You had to think concretely of something, or you would just lose it."

Armando Valladares, chief U.S. delegate to the U.N. Commission on Human Rights, who spent 22 years as a political prisoner, contrasts Castro's experience under the dictatorship of Fulgencio Batista with the present treatment of political opponents. "Castro killed," Valladares says, "he assaulted military barracks, he has blood on his hands. These people didn't kill anybody."

Released from Cuba in 1982, Valladares, 53, carries with him reminders of his years in prison: His hands were left scarred by hungry rats, and bones broken during beatings have not healed quite right.

Castro was not so mistreated, says Valladares. He "enjoyed all the benefits of human rights despite a most repressive dictatorship."

CONCLUSION OF MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Morning business is closed.

EXTENSION OF MORNING BUSINESS

Mr. LOTT. Mr. President, I ask unanimous consent that the morning business period be extended for 10 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

The Senator from Mississippi is recognized.

Mr. LOTT. I thank the Chair.

(The remarks of Mr. LOTT pertaining to the introduction of S. 1851 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

OVERALL BENEFITS OF THE U.S. SUGAR PROGRAM

Mr. DASCHLE. Mr. President, it is said with more and more frequency that the U.S. sugar program is designed to benefit a small group of large-scale sugar beet and cane farmers. Undoubtedly these growers benefit from the program, but the aim of the program is considerably broader: It provides protection against heavily subsidized foreign sugar exports, and this benefits the U.S. corn industry in addition to the domestic sugar industry.

I have long supported efforts to find new and alternative markets for our basic agricultural products, and believe that the growth of the corn sweetner industry is one of the finest success stories in this field. At a time of increasingly low commodity prices, the demand created by the sweetener industry has raised corn prices to all corn farmers by about 25 cents per bushel.

This boost in corn prices has had a major effect on individual producers and those parts of the agricultural community heavily dependent on corn. For example, a 400 acre corn farmer in South Dakota with a 85 bushel yield has seen gross income increase $8,500 because of sweetener demand. For my State as a whole this represents an increase in farm income of approximately $60 million annually. For some of the larger corn-producing States the impact is even larger.

Without the sugar program offering protection, both U.S. sugar and corn producers and processors would be undermined by the dumping of subsidized sugar on the world market. Any reduction that occurs in domestic beet and cane acreage will put greater pressure on the other crop programs, depressing prices and increasing government costs. One study has shown that U.S. corn producers and the Treasury would have lost $11.5 billion from 1982 to 1985 in the absence of the U.S. sugar program.

Changing the U.S. sugar program will only ever make sense if there is universal agreement for international reform of sugar policies around the world. Until that time, the U.S. sugar program will continue to be critically important to the 1.3 million corn producers across this country, in addition to beet and cane producers, and deserves Congress' support.

THE DEBT LIMIT

Mr. SYMMS. Mr. President, I rise before you today as I have done on many previous occasions to oppose the

increase in the debt ceiling. It has become somewhat of a regular exercise for the Congress to raise the debt ceiling so that the Government can fulfill its financial obligations.

This new money for the national debt is not being borrowed to pay for debts already incurred, but to pay for what the Government thinks it wants to commit to spending over the next fiscal year. The new proposed debt limit is over $3 trillion, up from the current $2.8 trillion. Surely this continual upward trend in deficit spending cannot go on if we are to achieve our goal of a balanced Federal budget.

I am a strong supporter of Senator COATS' proposal for a legislative line item veto. If we can't adopt some form of budgetary reform that gives the President the power to manage the Federal Government—and to use his mandate from the American people to balance the budget with no new taxes—we should all just go home and let the automatic sequester take over.

I have said here before, and I will say it again, I would rather see a continuation of the automatic sequester than to accept some wishy-washing compromise that ends up increasing total spending, and increasing taxes. This Senator is not persuaded that some kind of compromise, such as is being discussed to resolve the current budget stalemate, would be worth voting for.

I have said on previous occasions that debt is the driving force in our economy. This remains true today. This year, total public and private U.S. debt will stand at its highest level in history. The economic impact of that debt and the future debt obligations of this country will determine the future of our economic system.

In the United States, the sum of all debt held by the public and by Federal agencies is referred to as the gross Federal debt. Twelve years ago, such debt totaled $706.4 billion—today it is $3 trillion.

The Depression and World War II, saw the first big upsurge in the modern trend of deficit spending for its own sake. But under the Republican Congress in the late 1940's, and briefly under President Eisenhower in the 1950's, there was a repayment on the national debt. When public debt is repaid, there is a release of capital from a sterile use—the capitalization of future taxation—to a productive use, as bondholders can reinvest the proceeds of their Treasury security redemptions in private sector bonds. The bonds issued by private companies go to finance productive capital formation, since those companies have to earn a real economic yield in order to issue bonds of investment grade.

In the 1960's, America's engagement in Vietnam caused a further surge in the debt spiral. By the mid-1970's, the national debt figure had reached the $500 billion mark. It took over 40 years to build up a debt of $500 billion, and less than 7 years to triple that figure.

The only solution to the ever-increasing debt spiral is to reduce current expenditures and the future debt obligations of this economy. The private sector has been in the process of reducing their demand for credit over the past several years. However, governments at every level have increased their demand for credit because they have failed in their responsibility to reduce their spending.

This process has had a deflationary impact on the economy, but that deflationary trend will be reversed if our capital markets become so short that the Government cannot use those markets to finance the periodic rollover of the debt. At that point our debt would have to be repaid by a direct inflation of our currency—just as the Federal Government did during the Civil War.

Long-term capital markets are the key to a sustained and robust economic system. Those markets can only be restored by a real and continued effort to pay off our debts and keep our currency sound. Without that commitment to a sound fiscal policy, we will simply condemn our children and their children to follow the example of every other nation throughout history by paying off our debts with a debased currency.

Mr. President, I can tell you from my experiences in meeting with the people in my State and around the country that the American people wish we could go on a cash basis with the Federal budget. I know there are sophisticated arguments that what we really need is a capital budget, so that these increases in the national debt could be classified as "investment financing"; and I know that the current crazy system of Federal Government accounting is some kind of compromise between that and pure cash accounting. But the reason why so many of my friends ask me to put the Federal Government on a cash basis is because that is the most strict form of accounting anyone can have.

This Government must learn to be prudent with our spending, live within our means and work out of what we have. I for one would be happy to see the President take command of the financial problems of this country and act as any Chief Executive Officer would do to get his books in order. What is needed is to determine and establish priorities for the Federal Government and run this country on a cash basis.

Of course I believe it is Congress' prerogative to hold the power of the purse, under our Constitution; but I believe the "power of the purse" is a negative power—one that means the Congress should act to restrain taxes and to restrain spending by an Executive that might try to be too aggressive. That is the original sense of the concept in Magna Carta and in the English Parliament. Unfortunately, today, my colleagues use the concept of "the power of the purse" affirmatively, to compel excessive spending the executive branch would actually like to curtail.

I believe it is time for us to make a commitment to reducing the debt that we have been building up in this country. We need the balanced budget constitutional amendment; we need the enhanced rescission authority that Vice President DAN QUAYLE championed when he was a Member of the Senate; and we need, most of all, to come to our senses in Congress and carry out the will of the people to eliminate the deficit.

ARCHBISHOP IAKOVOS' 30 YEARS OF LEADERSHIP

Mr. PELL. Mr. President, it is with particular pleasure that I bring to the attention of my colleagues today a man who for three decades has provided distinguished spiritual leadership to more than 2 million members of the Greek Orthodox Church in North and South America and to all religious people, His Eminence Archbishop Iakovos.

In the years since he became archbishop in 1959, His Eminence has been a leading figure in the worldwide movement toward the unity of all christian denominations. One of his first acts as archbishop was to call upon Pope John XXIII, the first time a Greek orthodox bishop had visited a Pope in over 350 years. He has sought to heal rifts among the Eastern Orthodox churches and his pressed the cause of ecumenism. He was founder of the Standing Conference of Canonical Orthodox Bishops, a joint Orthodox body, and has been active in the National and World Councils of Churches.

Archbishop Iakovos has long been an advocate of human rights. He fought racial segregation and marched beside the Reverend Martin Luther King, Jr., in Selma. He is the recipient of our Nation's highest civilian award, the Presidential Medal of Freedom, awarded by President Carter in 1980.

This year Archbishop Iakovos is celebrating his 30th anniversary as leader of the Greek Orthodox Church. I wish to join in that celebration of a man who has provided the world a model of wisdom, dignity, humility, and strength. I look forward to many more years of his spiritual guidance and moral leadership.

Mr. DOLE. Mr. President, do I have any leader time remaining?

The PRESIDING OFFICER. The Senator has 9½ minutes of leader time remaining.

THREE STRIKES ON FOREIGN OPERATIONS APPROPRIATIONS

Mr. DOLE. Mr. President, within the next day or two, the foreign operations appropriations conference will wind up. I hope all of its work will not have been in vain.

Right now, there are three strikes against the bill—three problems which could lead to a Presidential veto:

The Mikulski provision on funding of the UNFPA—the U.N.'s population office.

The so-called leveraging provision—the Obey amendment, to make it illegal for administration officials to encourage foreign governments to undertake actions prohibited under U.S. law.

And the elimination of $50 million in replenishment money for the World Bank.

I wonder whether the proponents of those provisions really believe they are important enough to scuttle the entire bill?

The fact is, there are probably enough votes in the House to kill the Mikulski proposal. One way or another—by the action of the House, or a Presidential veto—it will not be enacted during this session of Congress.

The leveraging provision ought to be one where reasonable people can come up with an acceptable understanding of what action should be allowed to the executive branch. I would be happy to work with Senator MOYNIHAN—who was the originator of the leveraging concept—and other interested Senators, to see if we can work this out.

As a letter I recently received from the President's National Security Adviser, General Scowcroft makes clear, the leveraging provision would have the effect of wiping out some of the activities the Executive now routinely carries out—with strong support in the Congress. I ask unanimous consent to have printed in the RECORD the text of General Scowcroft's letter.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

THE WHITE HOUSE,
Washington, DC, November 7, 1989.

Hon. ROBERT DOLE,
Minority Leader, U.S. Senate, Washington, DC.

DEAR SENATOR DOLE: I am writing to express my deep concern about section 111 of H.R. 1487, the State Authorization bill. This provision, which would subject diplomacy to detailed and unreasonable regulation, in my view threatens to lead to seriously detrimental, though clearly unintended, consequences for the conduct of our Nation's foreign affairs. A few examples may serve to illustrate my concerns.

As you know, section 620(f) of the Foreign Assistance Act prohibits assistance to Communist countries. Under the regulated diplomacy provision, re-enactment of this prohibition would subject our diplomats to criminal prosecution for encouraging other governments or private parties to provide assistance for economic development in Poland or Hungary. Just this year, we undertook exactly such encouragement with wide congressional support. I am sure that none of us would want such activities to be illegal if similar opportunities arise again.

Last year, the government was confronted with a law that prohibited assistance to Panama, and which therefore raised extremely serious questions about its ability to aid those elements loyal to Delvalle in their struggle against the unlawful Noriega regime. Had the regulated diplomacy provision been in effect, the government might also have been prohibited from soliciting outside assistance for those elements as well. As we saw last year, the circumstances that provoke a ban on assistance can sometimes change much more quickly than the law.

Various statutory provisions prohibit government assistance to countries that are in arrears of U.S. loans, that have expropriated the property of our nationals, and the like. Under the regulated diplomacy provision, the enactment of such prohibitions might lead to criminal prosecutions of our officials for soliciting other governments (or international relief organizations) to provide humanitarian assistance when the people of such countries are afflicted by famine, natural disasters, or armed conflicts. It seems to me that our government's effort to advance humanitarian goals should not be hindered by the threat of criminal prosecutions.

Additional examples are attached as an appendix, but I find these particularly striking.

I know that ways can be found to narrow the regulated diplomacy provision to avoid unintended consequences that are identified in advance. I am afraid, however, that this will simply result in ever more intricate regulatory regimes, drawing the lawyers more deeply into day-to-day diplomacy, and leading to timidity and disarray in the conduct of our foreign affairs. The problem that so concerns me, in short, is not with draftsmanship but with the enterprise itself.

The need to assure obedience to the law is as important to me and to the President as to anyone, and I hope we can work together to find a means other than a regulated diplomacy statute to affirm our commitment to this principle.

Sincerely,

BRENT SCOWCROFT.

APPENDIX

1. Poland and Hungary: Section 620(f) of the Foreign Assistance Act prohibits assistance to Communist countries. Under the Moynihan proposal, US officials would therefore be subject to criminal sanctions if they solicit other governments (or private parties) to provide assistance to encourage economic development in Poland or Hungary. We would have to distance ourselves completely from efforts to promote development in those countries, or any other Eastern Bloc country whose situation might develop along similar lines. This, of course, is contrary to the course of action which the President has undertaken this year with widespread approval in Congress.

2. Countries involved in armed conflict: Various provisions of US law prohibit assistance to listed countries, to countries which appear on the anti-terrorist list, or the like. Under the Moynihan proposal, US officials would be subject to criminal penalties if they solicit other governments to provide assistance to any of the listed countries. This may be strongly contrary to US interests in cases where one of these countries becomes the victim of armed force by another country. (As in the case of Iran and Iraq, both might be subject to such prohibitions.) In such a case, it may be essential to encourage third parties to assist the beleaguered country to prevent total victory by its opponent and a possible adverse shift in the regional balance of power.

3. Countries whose populations are in severe distress: Similarly, various provisions of US law prohibit assistance to countries which are in arrears on US loans, or which have expropriated property of US nationals, or the like. Under the Moynihan proposal, US officials might be subject to criminal penalties if they solicit third parties (such as other governments or international relief organizations) to provide assistance to such a country whose population is threatened by famine, natural disasters, or the effects of armed conflicts. This is certainly the case if the assistance solicited could not be provided directly by the US Government (such as most forms of basic development or balance of payments assistance); and the Moynihan proposal can be read to apply even to forms of assistance which the US can give pursuant to specific statutory exceptions (such as disaster relief).

4. Countries needing assistance from third parties to fulfill obligations to the US: By the same token, the Moynihan proposal might subject US officials to criminal penalties for encouraging third countries to provide assistance to a country subject to the Brooke or Hickenlooper Amendments, if one of the purposes of that assistance would be to enable the recipient country to fulfill its obligations toward the US Government or US nationals. (Section 620(g) of the Foreign Assistance Act specifically prohibits the use of US assistance to provide compensation for expropriated property.) This would be directly contrary to the purpose of the statutory provisions themselves, let alone the interests of the United States. It might, for example, prevent us from working out useful means of enabling a close friend to extricate itself from difficult financial circumstances without defaulting on its obligations to us.

5. Countries whose populations are under internal oppression: On occasion, the US may find it essential to encourage assistance for elements which are fighting against dictatorial regimes. Prohibitions in US law may, however, apply to assistance to elements within a country as well as to its government. In such a case, the Moynihan proposal might subject US officials to criminal penalties if they solicited other governments or groups to provide such assistance. For example:

Panama: As of a year ago, US law prohibited assistance to Panama, which raised serious doubts about our ability to provide assistance to elements loyal to Delvalle in their struggle against the unlawful Noriega regime. Had the Moynihan proposal then been in effect, we might also have been prohibited from soliciting outside assistance for those elements as well.

Afghanistan and Cambodia: The same sort of difficulty might arise in cases like Afghanistan and Cambodia, where general statutory prohibitions on assistance exist, but where Congress presumably was concerned about the actions of the regimes in power rather than groups opposing them.

6. Assistance to countries for law enforcement purposes: Section 660 of the Foreign Assistance Act generally prohibits US assistance to foreign law enforcement authorities.

The Moynihan Amendment might be read to subject US officials to criminal penalties if they solicit foreign countries to use their own resources, or to provide assistance to another country, for law enforcement purposes. For example:

Anti-terrorism: The US has a strong interest in encouraging other governments to use their own resources for efforts against terrorism, or to assist other governments in such efforts. To the extent that these efforts are carried out by law enforcement forces, the Moynihan proposal might make it impossible for us to do so. [It might be argued that the exception in Section 573 of the Foreign Assistance Act for anti-terrorism assistance mitigates this problem, but even that Section precludes numerous forms of assistance which foreign authorities might find important.]

Anti-narcotics: Likewise, the US has a strong interest in encouraging assistance from other sources for the suppression of narcotics trafficking, even in cases where US anti-narcotics assistance is not possible. [Again, it might be argued that the exception in Section 481 of the Foreign Assistance Act for anti-narcotics assistance mitigates this problem, but even that authority has numerous limitations, such as prohibition on procurement of weapons or ammunition—which foreign law enforcement authorities would certainly find essential, and a requirement that the local country provide at least 25% of the cost of anti-narcotics control programs.]

Protection of US personnel: The US obviously has a strong interest in encouraging local authorities to devote adequate resources to enabling their police to protect US diplomats, military personnel and other nationals who may be present in that country. The Moynihan proposal, however, might be read to preclude us from encouraging them to do so because of the prohibition in Section 660.

7. Assistance to countries in special situations where required by US interests: Special circumstances may require that we encourage other governments to provide assistance to a country that may be under a statutory prohibition. For example, action by a government under a statutory prohibition may be essential to deal with important narcotics traffickers or to forestall a serious terrorist incident. In such cases, the President should have the flexibility, where he deems it essential for US national interests, to encourage a third country to provide the assistance necessary to bring about the desired result. The Moynihan proposal would subject the President to criminal penalties if he did so.

8. Assistance affecting countries under statutory prohibitions: The Moynihan proposal would preclude all US assistance which has the direct effect of furthering activities similar to those for which US assistance is prohibited. As a result, it could hamper programs for a number of important recipients because of the possible effect on other countries that are subject to statutory prohibitions. For example:

Neighboring countries: The annual foreign assistance appropriations acts typically include a prohibition (for example, Section 550 of the 1989 Act) on all assistance to a series of countries, including Angola and Cambodia. Significant economic aid to a country bordering any of these could well have a direct stimulating effect on economic activity in the named country, and accordingly could be seen as violating the Moynihan proposal. Thus the Moynihan proposal might be read to preclude at least some forms of US assistance to Thailand or Zaire.

Large aid recipients: Certain of our largest aid recipients are from time to time accused of involvement in activities for which the US could not provide assistance. Because of the volume and importance of our aid to these countries, the Moynihan proposal could cause serious doubts about the lawfulness of various US assistance programs which might be seen as facilitating those activities.

Mr. DOLE. I should add, for clarity, that the Scowcroft letter specifically refers to the State Department authorization bill version of the leveraging language. But the administration regards the version in foreign operations as equally unacceptable—a fact that has been reaffirmed to me by the administration today, and I might add by the highest voice in the administration. The President of the United States made this very clear at a leadership meeting this morning at the White House.

Finally, the decision on striking the World Bank money—which most thought was not in jeopardy—takes a swipe at the World Bank just when we are counting on it to take a lead role in Poland and any number of other countries around the world. I believe the decision to strike this funding is unwise; at the very least, it is untimely and worthy of further consideration.

Mr. President, I think everyone would prefer a freestanding foreign operations appropriations bill.

I assume the Senate managers—Senators LEAHY and KASTEN—would.

I suspect the President pro tempore, the chairman of the Appropriations Committee, would, too—especially in this, his first year as committee chairman.

And I know the President would, too.

That is the way we ought to run the appropriations process—the way all of us say we are determined to run it.

The fact is, the only way we will end up with a freestanding bill is if these veto bait provisions are reversed.

Right now, the bill has three strikes against it. The conferees can still make changes—there is still plenty of time—and I trust they will, because I can assure my colleagues that if I read correctly the President's message to us this morning, he feels strongly about these provisions. He feels it is another interference by Congress on the executive, not a Republican executive, but the executive branch, and he would like some way to resolve these differences with the Congress before any final action is taken.

Mr. President, I reserve the remainder of my time.

ELLIOT RICHARDSON: CONFLICT OF INTEREST?

Mr. HELMS. Mr. President, the appointment of Mr. Elliot Richardson as special assistant to the President for the Philippine multilateral aid initiative [MAI] has raised serious conflict of interest issues. He is currently chairman of the Hitachi Foundation and the Association for International Investment, a lobbying group of foreign investors, primarily Japanese, in the United States.

It is vital that he should sever ties with these and all other foreign interests which have similar investments in the Philippines. After all, the American interest is not identical with Japanese interests in the Philippines.

Moreover, Mr. President, Mr. Richardson was the registered lobbyist in 1986 for the MPLA, the Communist government of Angola. One of the prime functions of the multilateral aid initiative is to improve the Philippine economy so that the Communist New People's army cannot have popular dissatisfaction as a recruiting tool. I do not believe that a former lobbyist for the Communist government of Angola is the appropriate person to lead our efforts under the multilateral aid initiative.

TERRY ANDERSON

Mr. MOYNIHAN. Mr. President, I rise to inform my colleagues that today marks the 1,698th day that Terry Anderson has been held captive in Beirut.

On this matter, a petition which invokes international law and calls for the release of Terry Anderson and other hostages was recently presented to the United Nations.

I ask unanimous consent that a press release announcing and describing the petition be printed in the RECORD.

There being no objection, the release was ordered to be printed in the RECORD, as follows:

PRESS RELEASE

On behalf of Terry Anderson and over a dozen other foreigners held hostage in Lebanon a petition was presented to the U.N. Secretary General, and Members of U.N. General Assembly and its Commission on Human Rights in New York and Geneva on November 2, 1989, 12 noon. The petition seeks a U.N. writ of world habeas corpus and calls upon the United Nations to provide the plaintiffs declaratory relief. Petitioners pray for "release from their various places of captivity; safe passage from their captivity to their homelands; cessation of torture and arbitrary executions and threats thereof."

The petition claims the existence of "a consistent pattern of gross violations of human rights regarding the taking of hostages in Lebanon and parts of the Middle East." It identifies Syria and Iran as the two countries having "considerable influence" over the groups which have participated in hostage taking.

The petition invokes the U.N. Charter, the Universal Declaration of Human Rights, the International Covenant on Civil and Political Rights, the Convention Against Tor-

ture, and the International Convention Against the Taking of Hostages to claim that the United Nations has jurisdiction to hear the petition and that the petitioners are proper parties to invoke such jurisdiction "in requesting a writ of world habeas corpus on their own behalf in order to be released from their illegal captivity." The petition claims that since Syria and Iran are parties to the U.N. Charter and the International Covenant on Civil and Political Rights, they are obligated to comply with the terms of these instruments and with accepted norms of international law.

The petition argues that Syria and Iran have "willfully and maliciously violated their international obligations under international law by promoting and assisting in the abduction of petitioners, and in their continued refusal to unconditionally release petitioners and guarantee their safe passage to their homelands." As an alternate, the U.N. Secretary General "may convene the Security Council to order the establishment of a commission which may either issue a writ of World Habeas Corpus or report back to the Security Council, which may then act by issuing a writ through a Security Council resoultion or provide for other remedial and declaratory action." Also, the U.N. Security Council and the General Assembly may "be called upon not to recognize the credentials of [Iran's and Syria's] delegates."

The petition calls upon, the United Nations to "take constructive notice of the control that [Iran and Syria] have exercised over the groups such as Hizbollah, as well as the influence respondents have had on specific events, such as the taking, release and treatment of hostages. The United Nations is obligated to look behind formal legal structures when human rights and international security are threatened by acts taken by groups that have been constituted informally to carry out national foreign policy goals." It prays that proper sanctions be taken against Iran and Syria for "any refusal to comply with any of the orders or decisions that the tribunal or any organ makes in relation to this matter."

The petition was submitted by Luis Kutner, Attorney, Nobel nominee, a human rights advocate in Chicago and Chairman, Commission for International Due Process of Law.

THE BETRAYAL OF LEBANON

Mr. HELMS. Mr. President, many times during the past 4 years, I have spoken about the Syrian occupation of Lebanon and the failure of the Department of State's policy in the region. We today confront a particularly grave and explosive situation done to the betrayal of Lebanese interests at the recent Taif Conference and to the election on November 5 of the new President at a Syrian-sponsored session of a dissolved Parliament.

In the past few days, more than 200,000 Lebanese have poured into the streets demanding the independence of Lebanon from Syrian tyranny.

The conference at the Saudi Arabian resort town of Taif resulted in a document which contained provisions allowing the Syrian occupation of Lebanon to continue for at least another 2 years. After allowing for Syrian occupation forces to remain where they are today for a period of 2 full years, these clauses merely call for a Syrian redeployment of its occupation forces inside Lebanon to positions in the Bekka and elsewhere inside Lebanon. The Taif document is a capitulation of Lebanese sovereignty to a foreign power.

In short, the Taif agreement legitimizes the Syrian occupation of Lebanon. The fact that these provisions of the document were agreed to by Lebanese Parliamentarians who had participated in the conference has caused a major political crisis in Lebanon.

Prime Minister Michel Aoun denounced these clauses of the agreement as a direct violation of Lebanese sovereignty. Prime Minister Aoun also declared that the Lebanese Parliamentarians who met at Taif were not authorized, instructed, or empowered to treat on matters touching the fundamental sovereignty of Lebanon.

Under the 1943 Constitution, the Parliament consists of a single House of 99 seats. Because there have been no Parliamentary elections for 17 years due to Syrian sabotage of the democratic process, there are only 73 surviving deputies. A quorum of 49 is required for a two-thirds majority under the Constitution.

Upon receiving intelligence that Lebanese Parliamentarians were converging in northern Lebanon to elect a new President and to ratify the Taif agreement, Prime Minister Aoun dissolved by decree the Parliament at 5 a.m. Lebanon time.

Although Prime Minister Aoun did not object to the Taif Conference, he dissolved the Parliament because the Parliamentarians had exceded their constitutional powers by agreeing to provisions in the conference document which allowed continued Syrian military occupation of Lebanon for at least 2 more years. The Parliamentarians had, therefore, acted to abandon Lebanon's sovereignty to Syria.

In addition, Prime Minister Aoun and his legal advisors hold the view that the Constitution does not allow the consideration of any matter but the election of a President at a special session convened for the purpose of electing a President. Consideration of the Taif document would therefore be out of order at such a session.

Legal authorities I have consulted are of the opinion that Prime Minister Aoun was acting within his consitutional authority.

The parliamentarians did assemble later in the day at the Qlaiaat Airbase in the north of Lebanon along the Syrian border. Under Syrian duress, they ratified the Taif agreement and they selected Mr. Rene Moawad as the New President of Lebanon. Prime Minister Aoun's position is that the results of the meeting of the dissolved Parliament are not constitutionally valid.

Mr. President, the situation with respect to the legitimate governance of Lebanon urgently needs to be clearly understood.

Prime Minister Michel Aoun was designated by Presidential decree to be the acting Prime Minister with full Presidential powers at the close of President Gemayel's term on September 22, 1988. This Presidential decree was in full compliance with provisions in the 1943 Constitution providing for emergency situations in which a Presidential term expired without the election of a successor President having taken place.

The reason that President Gemayel had to resort to emergency provisions in the 1943 Constitution was for the simple reason that Syria had blocked proper elections for a new Lebanese President and was attempting to impose its own puppet Presidential candidate. The State Department fully supported the Syrian plan to control Lebanon through a puppet regime.

Mr. President, when Prime Minister Aoun was duly declared to be the acting Prime Minister in full conformity with the 1943 Constitution, Syria then arranged to create a puppet government led by Salim el-Hoss. This Syrian puppet government was endorsed by the Department of State which took the public position that there were two governments.

The Department of State, rather than recognizing and endorsing the legitimate constitutionally formed government of Prime Minister Aoun denied that it was the legitimate government and granted legitimate status to the Syrian puppet government under the pretext that it was for the Lebanese to sort out. The Department of State knew full well that the Syrian puppet government had no standing under the 1943 Constitution.

The Department of State was opposed to Prime Minister Aoun because he stands for Lebanese sovereignty in the face of Syrian occupation. He wants the Syrians out of Lebanon and out of Lebanese politics. The State Department, on the other hand, for over 15 years has allied itself with the Soviet Union's ally Syria. This policy was created by Henry Kissinger as part of a process toward a United States-Soviet condominium over the Middle East. For the Department of State, Prime Minister Aoun's crime is that he stands for a free and sovereign Lebanon.

Mr. President, it is my understanding that the State Department engineered the Taif agreement from behind the scenes. Put another way, the State Department imposed the Taif agreement on Lebanon under the guise of an Arab supported and sponsored initiative. In addition, the State Department and the Soviet Union im-

posed Rene Moawad on Lebanon through the Soviet's puppet Syria.

Mr. President, I pray that the Lebanese can find their way out of the current crisis. I support, and the American people support, the Lebanese people—both Christian and Moslem—in their struggle for freedom and independence. I am confident that Prime Minister Aoun has the support of the broad mass of Lebanese who yearn for honest constitutional government. I pray that Prime Minister Aoun can persevere in his valiant struggle to save the Lebanese nation from Syrian-Soviet tyranny.

NATIONAL ALZHEIMER'S DISEASE MONTH

Mr. PRESSLER. Mr. President, November is "National Alzheimer's Disease Month." During this month, public attention is focused on a disease that affects more than 4 million Americans. Alzheimer's disease is a tragedy. It disables productive men and women, rendering them incapable of human action, such as thinking, remembering, loving, caring, receiving, working, and giving.

The number of people affected by Alzheimer's continues to increase each year. Why? Alzheimer's is primarily a disease of the aged. Alzheimer's could have the effect of a demographic time bomb. For those age 80 and older, 20 to 25 percent have Alzheimer's. One out of every three American families is now thought to have an Alzheimer's victim in its midst.

The tragedy of Alzheimer's disease is that it materially, financially, socially and emotionally costs families, relatives and others who provide care to the victims. Caregivers not only sacrifice wages and salaries but face burnout when they become physically and mentally depleted.

Mr. President, I call on our colleagues to join in promoting a major Alzheimer's research initiative similar to the one that conquered polio in the 1950's. Research is on the edge of a breakthrough in discovering the causes of Alzheimer's. What is needed are more dedicated researchers and funding to support their efforts. Caregiver relief and education are critical needs. Caregivers need the relief that is available through respite care services and support groups. Volunteer organizations need more willing hands to reach out through education and service.

During the month of November, Mr. President, I invite all Americans to take a few minutes to become more familiar with Alzheimer's disease, or spend some time with someone who is a victim or a caregiver. Every State has an organized chapter of the Alzheimer's Disease Association. The staff of such an organization would be pleased to provide information and welcome participation in their efforts to support those who care for someone with Alzheimer's.

Earlier this year, the National Alzheimer's Disease and Related Disorders Association sent a letter and a copy of its national program to every Member of Congress. I commend the board of directors, the staff of the Alzheimer's Association and its 200 chapters, as well as members of the 1,500 Alzheimer's support groups and more than 30,000 volunteers for their tireless efforts and initiative in establishing this national program. This policy can assist efforts to find a cure for and alleviate the tremendous burden of Alzheimer's disease.

I thank all those who made special efforts to ensure the passage of Senate Joint Resolution 16, "November as National Alzheimer's Disease Month." The time and dedication of many Members of Congress helped to obtain a sufficient number of cosponsors. In addition to the Alzheimer's Association and the staff of its chapters, I recognize the work of the American Health Assistance Foundation [AHAF]. I thank all my colleagues who supported Senate Joint Resolution 16 and continue to work on behalf of Alzheimer's victims and their families.

WHOOPING CRANES

Mr. KASTEN. Mr. President, Baraboo, WI, is today kicking off a major conservation initiative—the creation of a brandnew population of captive breeding whooping cranes.

Whooping cranes have come to symbolize man's benevolent intervention to promote the recovery of endangered species. They are a symbol of hope.

This is America's second flock of whooping cranes—and by creating it, we are improving the odds for the recovery of the species. With two flocks, there is less chance that a disease or other catastrophic event will wipe out the captive breeding program.

In their new Wisconsin home, the International Crane Foundation headquarters in Baraboo, these eight birds will open a new era in the history of the species. They are going to one of the best facilities in the world.

Since the early 1940's, when only 16 whooping cranes were left in the wild, the species has been struggling back. Now, there are almost 200 birds in the wild or captive flocks.

I want to commend the National Fish and Wildlife Foundation for helping catalyze this event, the National Wildlife Federation, and the Marine Corps for carrying this precious cargo on a routine training mission. And most especially, I want to congratulate the International Crane Foundation for taking on this new challenge.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER (Mr. ROBB). The period for morning business is now closed.

EXTENSION OF MORNING BUSINESS

The PRESIDING OFFICER. The Senate will now resume consideration of H.R. 2710, which the clerk will report.

Mr. METZENBAUM. Mr. President, I ask unanimous consent that the Senate resume morning business until the hour of 11:45.

The PRESIDING OFFICER. Is there objection? Without objection, morning business is extended until 11:45.

Who seeks recognition?

Mr. METZENBAUM. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum has been suggested. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DIXON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DIXON. Mr. President, I ask unanimous consent to proceed as in morning business, and I further ask unanimous consent that the hour for morning business be extended until 12 noon.

The PRESIDING OFFICER. Does the Senator voice an objection?

Mr. HUMPHREY. Inquiry first. Is not morning business now ordered until 11:45?

The PRESIDING OFFICER. The Senator is correct. Under a previous order, the period for morning business currently closes at 11:45.

Mr. DIXON. I have asked unanimous consent to extend it, may I say to my friend, until noon.

Mr. HUMPHREY. Reserving the right to object, I have no objection to the request. Frankly, I think the majority leader and the Republican leader might. They are preparing to come to the floor momentarily.

Mr. DIXON. I withdraw the last part of my request, Mr. President, and will be satisfied to proceed as in morning business until the designated hour.

The PRESIDING OFFICER. The Senator is recognized for 5 minutes.

THE 175TH ANNIVERSARY OF BELLEVILLE, IL

Mr. DIXON. Mr. President, I would like to take this opportunity to salute my dear friend, Mayor Richard Brauer, and the city of Belleville, on the occasion of my hometown's 175th anniversary. As a proud native of

Belleville, I am happy to say that in its 175 years my hometown has prospered as one of the premier cities in Illinois.

Please allow me to take a moment to muse a bit about my hometown. Belleville, a French name, means "beautiful town." It is, indeed, a beautiful city that has played a prominent role in the history of Illinois. Mr. President, Belleville nurtured three Illinois Governors before the Civil War—Ninian Edwards, John Reynolds, and William H. Bissell. The first free circulating library in Illinois was established in this fine city, as was the second kindergarten in the Nation.

One of our country's oldest, continuous-service Air Force installations is located in this community—Scott Air Force Base—christened on July 17, 1917, as Scott Field. This base was named after the first enlisted man to die in an aircraft accident. Cpl. Frank S. Scott was flying as a passenger in a Wright type B biplane when he was killed in the Army's fourth fatal crash.

Scott Air Force Base is one of Illinois' strongest industries and major employers—pumping more than $1 billion a year into the local economy. It has grown from just a square mile to 3,000 acres, provides jobs for 7,000 military and 4,000 civilian employees, and is headquarters to the Air Rescue Coordination Center, the Military Airlift Command, the Air Force Communications Command, the Aerospace Rescue and Recovery Service, the Air Weather Service, the Defense Commercial Communications Office, and the U.S. Transportation Command.

Another of Belleville's attractions is the Shrine of Our Lady of the Snows. Built in 1958 by the Oblate Fathers, the shrine is a place of great beauty, and is a meaningful source of spiritual support and guidance.

Mr. President, I am proud to say, I was bred, born, and raised in Belleville, and I can say first hand there are no friendlier folks than those in my hometown. My wife, Jody, and I raised our family in Belleville. My three children and I are products of its fine public schools. In fact, my two daughters, Stephanie and Liz, my son, Jeff, and I all graduated from Belleville Township High School.

Growing up in Belleville, I remember the days when all the children in my neighborhood enjoyed playing in the parks and vacant lots. There was a particular open field that ran along Forest Avenue, known as "West Pasture." I lived at 616 Forest Avenue, and "West Pasture" was a big attraction for us youngsters in those days. It had a large creek in it which was usually empty. However, during heavy rain periods in the spring, the creek would fill up until it was almost to the top of the bank, and all the neighborhood kids would swim in it. Mr. President, as you can see, Belleville, IL, is a town rich with history, traditions, and many fond memories for me.

So, I tip my hat to Mayor Brauer, my fellow Bellevillians, and to all of our families on this grand occasion. All of us look forward with keen anticipation to the next 175 years of eventful and meaningful life in Belleville.

Mr. President, in view of the fact that no one else is asking for additional time right now, I will simply conclude by saying that last year an important group of people in my town, who formed the Belleville Historical Society, asked me to contribute a piece on my recollections of my life in Belleville to be reproduced in a book put out by the Belleville Historical Society.

It is too lengthy for me to read in the allotted time remaining, which I know will disappoint my friends from New Hampshire and Texas who would like to hear all about my childhood in Belleville, IL.

Mr. GRAMM. Will the distinguished Senator yield.

Mr. DIXON. I will reluctantly yield, yes.

Mr. GRAMM. Mr. President, I heard the comments of our distinguished colleague from Illinois talking about his hometown and about the three Governors prior to the Civil War who came from Belleville. I did not know any of those obviously, ancient though I am, but I have known the distinguished Senator from Illinois. He is a credit to his State and to his hometown and to the country. I do not know of anybody in the Senate who is more effective in getting the bottom line job done they set out to do as is the Senator from Illinois. I figured since the Senator was talking about his hometown, this would be a good opportunity for me to come out here and say that.

Mr. DIXON. I thank my dear friend from Texas, who I greatly admire. I am going to ask unanimous consent to put this article I wrote about my hometown and my recollection of the 62 years in the RECORD. I would hope that everybody will read about Belleville.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

Alan J. Dixon, of Belleville, was first elected U.S. Senator from Illinois November 4, 1980, capping a 30-year public career that has included service in all three branches of government. Senator Dixon has never lost an election. He was re-elected Senator in 1986, wth his winning margin of 980,133 votes constituting the greatest margin in any off-year Senate election in Illinois history.

His string of 29 victories date from 1949 when, while attending law school, he was elected police magistrate in Belleville. In 1951, he began the first of six terms in the Illinois House of Representatives.

In 1963, he moved to the state Senate for the first of two 4-year terms. Senator Dixon was elected State Treasurer in 1970. In 1976 he was elected Illinois Secretary of State. He was re-elected to this office in 1978 by a record plurality, and, in so doing, became the first candidate of either political party ever to carry all 102 counties in an election.

Alan Dixon attended Belleville Township High School West, the University of Illinois and Washington University Law School. He served in the United States Navy, 1945-46.

He is married to the former Joan Fox. They have three children—Stephanie, Jeffrey, and Elizabeth—and seven grandchildren.

It is a particular pleasure for me to be asked to contribute a few words for inclusion with other reminiscences by Belleville residents.

In terms of years, my life has spanned roughly a third of the history of Belleville. From the day of my birth on July 7, 1927, to the present, Belleville has been my home. I have been privileged to serve its people in the Illinois General Assembly in Springfield, in the offices of Illinois State Treasurer and Illinois Secretary of State, and now as United States Senator.

As I began to gather my recollections for this essay, it occurred to me again that Belleville was a wonderful place to grow up.

I hope my friends and neighbors in Belleville will indulge me this brief reminiscence—not because I am a historical figure (or even old, for that matter), but because it is always useful for us to remember where we came from, and where we've been.

I came from the east end of Belleville. I lived the first few years of my life at 1034 Forest Avenue, and then through high school at 616 Forest Avenue.

The east end was a great place for youngsters, with parks and vacant lots to play ball in, to roam in, to be a boy in.

In those days, there was an open field in the 500 and 600 blocks of Forest Avenue, which, for some peculiar reason, was known as "West Pasture," even though it was in east Belleville.

We would swim there when the creek had enough water, and we would sled down the pasture's hills in winter, both of which I found to be at least as much fun as going to my classes at the old Douglas school at Douglas and East Main.

Oliver Muser was the principal. He was a great educator and a wonderful man. I remember being a boy in the 6th grade, and Mr. Muser predicting that somebody named Adolf Hitler would plunge the world into war.

By the time I became a senior at Belleville High, that war was still raging. I recall going to the home of John Karsh to take extra courses in summer so I could graduate early and join the service.

Belleville was always a working town. Its people worked hard for what they had. When I was growing up, some folks didn't have much, but they still enjoyed life.

All the kids worked, too. At various times, I worked for my dad's delivery service and later for the Rock Meat Market on East Main. There I made hamburger from a recipe, as I recall, which called for about one-third hearts, one-third fat, and one-third beef. It was cheap, but it was what the average worker could afford in those days.

While in high school, I sold shoes at Lerner's, earning four dollars for a Saturday and a commission on shoe polish and ribbons. I worked at J.C. Penney's for Clarence Manring and as a "card boy" at the Elks Club, bringing the men their drinks. At Christmas time, Mel Price got me a job at the post office delivering holiday mail.

Well, times have changed since then, of course. You aren't a kid forever. I haven't picked peaches in the summer at Waterloo in a while, haven't packed tomatoes for the Brooks Company, haven't trucked freight on weekends for the Terminal Railroad.

Since I weighed only 125 or 130 pounds, it was quite a trick to acquire an understanding of the fulcrum principle, so even I could truck refrigerators and other large household appliances into the railroad cars. The pay was quite good, though, for those days, when we worked Saturdays and Sundays.

I remember all of us as pre-teens and then as teenagers would go to what was then called Turner Park—it's now the Belleville Playgrounds—to swim. I'd walk from my house at 616 Forest Avenue, and we'd wind along somehow on the railroad tracks that came out there at Lebanon Avenue. We kids would buy season tickets that would allow you to go swimming for the whole summer. I think it cost only $4 or $5 for the summer. We'd go swimming every day, walking over there with just our swimming trunks rolled in a towel.

After swimming all day and then showering prior to the walk home, we would spend the nickel our mothers had given us for a frozen Powerhouse candy bar. I'm sure it really wasn't that big, but it seems in my memory that that candy bar must have been a foot long, because the Powerhouse would last for the whole trip as we walked along the railroad track back to our homes.

That was a formative time, though. I remember the day they let us out of school to go hear Wendell Willkie talk from the back end of a train at the Lebanon Avenue overpass. He was so good I took off my Roosevelt button for a few days, until my dad converted me again.

When we finished grade school in those days, we all went to junior high school, which was on South Illinois Street—in the second or third block—right across the street from the Belleville News-Democrat. Junior high school had classes called highest, second highest, third highest, second lowest and lowest. At least it's my recollection there were five different types of classes. Every class had its ball team, and you played one another, of course. We were sort of trained to go into high school with the idea of taking pre-college courses. While I was a small boy and even as a boy growing up in high school, the kinds of advantages we pretty much take for granted nowadays were not readily available to me and my friends in the Belleville of those days.

Belleville is, by history and tradition, a very Germanic city. My mother was a Tebbenhoff, and her mother before her was a Washhausen. All of my family on my mother's side, as a matter of fact, was Germanic in origin.

My grandparents Tebbenhoffs lived at 502 Wabash Avenue, which was only a block and a half walk through the alley. I would go there for a visit every evening. In those days, they didn't have electricity, central heating, or indoor plumbing. They had gas lights. They burned wood in the "coal stove." They had an outside facility at the back of the lot.

I remember quite vividly in those days there were a great many outdoor activities that were community activities. The men built a bunch of horseshoe pits in West Pasture, and pitching horseshoes was, for a time, a great sport in Belleville. I recall my grandfather threw the horseshoes very high, and would just kind of let them float down or drop onto the peg. My father, on the other hand, was a pretty good ballplayer, and he would throw a low horseshoe and zing it at the post. When my father made a ringer, it would just zip through the air and then ring and ring and ring around the post. At least that's how I remember it.

Mine was a boyhood of feather beds and coal stoves at my grandparents' house, and white radish sandwiches that my grandmother would spread thick with country butter pulled up in a bucket from out of the well in back. It was also a boyhood of running down to Meyers tavern on Mascoutah Avenue to bring back beer for the men, and listening to Art Reinbolt from the hardware store play the banjo and sing with my father.

That kind of childhood is special. It makes a person secure and not afraid to try things out in adult life. How else could a 21-year old kid still in law school have the nerve to run for police magistrate on a "reform" ticket with H. V. Calhoun at the top?

How else would a 23-year old kid working for the state's attorney's office decide to run for the state legislature against an experienced, highly-favored legislator such as Jack Wellinghoff?

I don't want it to sound as if my life story might have been written by a combination of Booth Tarkington and Horatio Alger, but I do not think I am idealizing Belleville as I recall growing up there.

We all live in the present and, happily enough, the present still centers for me on Belleville and Saint Clair County and my family, as it has for 62 years.

Some things in Belleville and Saint Clair County have changed for the better in those 62 years, and some haven't. It does us all good, I think, to try to figure out which things fall into which category.

That is the way we must go about improving the quality of life in Belleville for the greatest number of people—if it's possible to improve on icicle radish sandwiches on homemade bread spread thick with country butter.

Mr. DIXON. As long as I have a minute or two before the time runs out, Mr. President, I will just brag a little further on Belleville. I remind the President and my colleagues that when I ran for the U.S. Senate in 1980, both candidates in my State of 11½ million people came from Belleville. The Republican candidate was Lt. Gov. Dave O'Neal. Dave now has an important post in this administration, I have supported him and he is my friend. The Democratic candidate that year was the then-Secretary of State, ALAN DIXON.

In Belleville we have the great tennis champion Jimmy Connors. Jimmy Connors is a Bellevillian, Mr. President. Bob Golby, the great Masters champion in golf is from Belleville. Jay Haas, the great touring pro, is from Belleville; Frank Connor is from Belleville.

So Belleville has good water that produces these extraordinary athletes. The President has played golf with me. He knows that did not rub off on me. I must not have consumed any of that water.

But I am proud of Belleville. I am proud of the things Belleville has produced over the years and I thank the President for indulging me by letting me put the history of Belleville in the RECORD.

In conclusion, Mr. President, Belleville is a great town. I have spent 62 years there and someday when six of my friends carry me out in the box they will bury me, Mr. President, in Belleville, IL.

The PRESIDING OFFICER. Does any Senator seek recognition?

Mr. KENNEDY. Mr. President, what is the business before the Senate?

The PRESIDING OFFICER. The Senate has about 1 more minute of morning business.

Mr. KENNEDY. I ask unanimous consent to yield back the time.

The PRESIDING OFFICER. Without objection, it is so ordered.

CONCLUSION OF MORNING BUSINESS

The PRESIDING OFFICER. The period for morning business has closed.

MINIMUM WAGE

The PRESIDING OFFICER. The clerk will report the pending business, which is H.R. 2710.

The legislative clerk read as follows:

A bill (H.R. 2710) to amend the Fair Labor Standards Act of 1938 to increase the minimum wage, and for other purposes.

The Senate resumed consideration of the bill.

Mr. KENNEDY. Mr. President, this is our 13th day of debating the minimum wage legislation. We were able to debate it on Monday, Monday afternoon, yesterday morning, and we are looking forward to having amendments. Hopefully, we will be able to conclude this in a timely way during the early part of today. I am quite prepared to move ahead and consider these amendments. I know there are several amendments which are to be considered. I had hoped that we would be able to move forward on those.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum has been suggested. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HUMPHREY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HUMPHREY. Mr. President, in due course I intend to offer an amendment. I shall not offer it now out of deference to the wishes of the leadership, but it is my intent to offer it as an amendment to the minimum wage bill now pending. It is an amendment that deals with the pay raise mechanism. It is not a pay raise amendment

as such. It does not propose a pay raise, rather deals with the various statutes which in turn bear on the matter of pay raise. It is the pay raise mechanism, if you will.

Mr. President, in recent days and weeks the proposal for a pay raise, a rather vague proposal, at this point has begun to surface. Frankly, I think it is timely. I think such a proposal is timely. I think, indeed, a pay raise is in order and under certain conditions, which for my part I shall lay out, I would be prepared to support a pay raise.

The conditions being, namely: The Senate and the House respectively secure such a pay raise or vote for such a pay raise by a recorded rollcall vote, that we not resort to any backdoor mechanism as was the case earlier this year, that we not resort to burying a pay raise proposal in, let us say, a conference report or any other large measure such that the pay raise element is almost indistinguishable of the body of whatever is inserted;

In other words, that we have before the Senate and the House respectively the one issue, and the one issue only, and that is a pay raise of some amount to be ascertained by a rollcall vote in each body. Under those issues for whatever it is worth this Senator would be prepared to support a pay raise, indeed to speak in its favor for this reason: The situation regarding honoraria is growing ever more troublesome.

It is true of course that the practice of accepting honoraria is fully within the law. No one suggests otherwise. It is fully within the rules of both the Senate and the House. Yet, at the same time, this practice at the very least presents a very bad appearance. I have been here 11 years and I have never seen a quid pro quo; that is to say, I have never seen a Member of either House pull his punches or indeed vote for something on the basis of having received an honoraria for some organization which has an interest in the vote. I have never seen that. But the potential for that kind of scandal is there, and at the very least even if that is not happening the practice presents a bad appearance.

So in due course I intend to offer the amendment to this legislation.

I ask unanimous consent, Mr. President, that following the rescinding of a quorum call which I shall propose in a moment that the Senator from New Hampshire have the right to the floor.

Mr. KENNEDY. Reserving the right to object, under the same conditions as was mentioned earlier. Am I correct?

No objection.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

Mr. HUMPHREY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The absence of a quorum has been suggested. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. HUMPHREY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Under the previous order, the Senator from New Hampshire is recognized.

Mr. HUMPHREY. Mr. President, having had a fruitful discussion with the Republican leader and the majority leader, I have agreed for the moment not to offer the amendment. I reserve the right to offer it sometime during the debate on the Social Security bill.

In the meantime, the Senate is going to examine a proposal that is in draft form now that relates to, specifically, a pay raise, which whose basis would be to offset honoraria dollar for dollar, and which will apparently come to the floor of the House and the Senate sometime within the next several days. I will examine that with the possibility of forbearing offering my amendment to the minimum wage bill, and instead, offering it to this proposal, which we would expect to come before the Senate within a few days.

I have been assured by the leadership that they would support my amendment, somewhat modified, if offered to this ethics pay raise package, and we expect that the leaders will speak for themselves on that point subsequently, sometime during the debate on the minimum wage bill.

Having said all of that, I will yield the floor, still intent on offering the amendment, possibly, but reserving that right.

I yield the floor now so that other Senators can offer amendments.

The PRESIDING OFFICER. Does any Senator seek recognition?

Mr. SYMMS. Mr. President, I would like to speak on the bill.

The PRESIDING OFFICER. The Chair recognizes the Senator from Idaho [Mr. SYMMS].

Mr. SYMMS. I thank the Presiding Officer.

Mr. President, as the debate over the minimum wage increase drags on, I continue to hear the proponents of this legislation making claims that, in my opinion, are false—I am sure, in their opinion, they are not false—about what this legislation really will do for America. The fact is that this legislation will not help the people it is supposed to help, those people at the bottom rung of the economic ladder, those people that are underprivileged, underskilled, and undereducated and, in some cases, undermotivated. These people need the opportunity to make that first step into that entry level job, to learn the dignity of work and the opportunity that can come before them if they can have a life of gainful employment.

My colleagues continue to implore the Senate to pass this bill based simply on the fact that it has been 8 years since the minimum wage has increased. I do not remember what the local fast food restaurants were paying at entry level jobs 8 years ago, but I notice now that there are signs in this region of the country upwards to $6 an hour for entry level jobs in the fast food restaurants. I understand that in some parts of the country it has even been higher than that—way above anything that we are talking about with respect to this legislation.

Moreover, our colleagues further claim that the lowest paid workers in America have not received economic justice during the past 8 years. I just think, Mr. President, that these kinds of claims—though I respect the sincerity of my colleagues—point to a very strong misunderstanding of the cornerstone of the American economy, the free market system. This economy is founded on a basic principle to be guided and governed, economically speaking, by choices and the wisdom of each individual through his or her participation in an open economy; in other words, free people through free institutions in a voluntary marketplace to make the decisions.

It has worked out, and it has been the most humanitarian experiment in the history of mankind, the American system. It has been followed and patterned in many other parts of the world, and it has been more humanitarian there.

I note, in the countries where we have the government setting the price level, behind the Iron Curtain, that they are absolutely flooding the gates to leave those countries. They are clamoring to come here and get these jobs and get this opportunity.

I have come to the floor before with statistics and studies, as many of my colleagues have, and I continue to maintain that a minimum wage, and all the arguments that accompany such a proposal, are flawed at the fundamental level. Even from across the aisle we have heard testimony that an increase in the minimum wage will bring about a decrease in jobs, no improvement in the position of those who are the poorest, and increased costs for certain products and services. What all this means is quite simple: Minimum wages, like other governmental intervention in the marketplace, disrupt America's economic well-being and end up harming those most in need of assistance.

Much of the debate, Mr. President, until now, has centered around the Nation's lowest paid workers. As I previously stated, there is no question that a minimum wage will directly

affect these individuals negatively; that is, it will shut the door of opportunity to entry level jobs for those at the very bottom of the economic ladder.

I suggest, Mr. President, that many other facets of our economy will be weakened by this anti-capitalistic action. Consider the impact this legislation will have on America's small business. Most individuals, at some time in their lives, work for small businesses for minimum wages, where they obtain their first job experience and advance on to a higher paying job as their skills improve. If minimum wages were to be increased, the hiring capabilities of small businesses would either be curtailed or costs shoved off to the consumer.

Mr. President, there is no question that the proposal which has come from the House of Representatives will burden the economic backbone of America. Jack Clark, a small business owner in Pullman, WA, which is just across the border from my State, wrote to me, saying, "The Government should quit trying to kill the small business goose that is laying the golden egg by regulating it into an endangered species."

The budget deficit is yet another area that would be marred by an increase in the minimum wage. One can cite various figures. Beryl Sprinkel, the former Chairman of the Council of Economic Advisers, says that the direct impact on the budget deficit would be about $2 billion. It seems to me the American people have sent this message to Capitol Hill and that message unequivocally calls for Congress to reduce the Federal deficit and not increase taxes.

The majority party has passionately tried to mislead on this, and in my view, they have tried to mislead America into believing that a minimum wage would have a minimum effect on unemployment and the economy. If as $2 billion increase in the Federal deficit, a loss of between 80,000 to 2 million jobs, and an increase of $13 billion more in higher costs for products that minimum wage workers help produce falls below the criteria set for minimum effect, I suppose they are right. However, I think that most thinking Americans know better, know that this is just a political sham being thrown out there so some people can claim that somehow there has been a major victory here.

This legislative is another job-thwarting, unproductive, inhumane band-aid on a cut that really requires stitches. America is not in need of proposals such as this; rather, we need maximum work and production which will only come about through a healthy economy that is not overshadowed by a fierce gale of hot air and regulations out of Washington.

What we need to do is develop our resources to harvest some of the old overmature trees that sit on Government-owned land in the Pacific Northwest that stopped growing and are falling and dying, burning, a la Yellowstone Park last summer. What we need to do is to develop those resources, restore some credible conservation techniques in some of the lands that we have, and push forward to give people a better opportunity for a better job, better skilled training. Those things all cost money. Let these young people who are underskilled and undereducated and in some cases have had no opportunity to work in the workplace, let them have that first entry level job at whatever they can get from the employer and work their way up the economic ladder where they can be productive members of our society and have the opportunity that we want all Americans to have.

Mr. President, the entire debate surrounding minimum wage sidesteps the fundamental American free market system. As we once again embark on an undoubtedly lengthy discussion of this topic, I can't help but comment that the father of history was absolutely correct in his observation, "The more things change, the more they stay the same."

The advocates of this legislation continue to send us this legislative nightmare that would once again overextend the arm of the Federal Government into areas that it does not belong. It is downright pathetic that some are unable to accept the fact that economic success of the past 8 years is reason enough to believe that there is no necessity for the Federal Government to intervene in this area.

Mr. President, I will just say in closing, I have a couple of articles I wish to read from. I hope my colleagues will once again vote in favor of an economically strong America and vote against this bill.

Mr. President, I ask unanimous consent that an article by Walter Williams from George Mason University be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER (Mr. KERREY). Without objection, it is so ordered.

(See exhibit 1.)

Mr. SYMMS. Mr. Williams says in the Washington Times:

The first undertaking by any new administration is the attempt to appease enemies by sacrificing friends. Nine times out of 10, they fail to appease enemies and wind up losing friends.

The second order of business is to compromise principles, if they had any in the first place, to the pressures of pragmatism and political expediency.

The only recent exception to these general rules of political behavior was the first Reagan administration.

The Bush administration knows that increases in the minimum wage cause unemployment, yet they initiated a Republican version of an increase. Their reasoning is that the Democrats were going to push for an increase, so why not beat them to the punch with a "benign" version? That way the Bush people can curry favor with some enemies and possibly eliminate at least one confrontation with Congress. Moreover, taking a principled stance against the minimum wage law wouldn't bring in that many votes.

Then he goes on and talks about other attempts to compromise and where it may lead. He is affiliated with George Mason University. I urge my colleagues to read the entire text of his remarks.

Another message that I think is worthy of mention here is the White House veto message by President Bush.

I will quote a few sentences from it, and I ask unanimous consent that it be printed in the RECORD immediately following the article by Walter Williams.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 2.)

Mr. SYMMS. I am quoting from the President.

To the House of Representatives:

I am returning herewith without my approval H.R. 2, the "Fair Labor Standards Amendments of 1989."

This bill would increase the minimum wage by an excessive amount and thus stifle the creation of new job opportunities. It would damage the employment prospects of our young people and least advantaged citizens. It would accelerate inflation. It would not help those in poverty. And thus it would fail to properly reflect the thought behind this measure: to help our lowest paid workers.

Mr. President, Senators will note on their desks that there is a letter from the American Farm Bureau. I think it will be addressed later today. I just call attention of Senators and at the appropriate place I will put that letter to me from John C. Datt in the RECORD.

I ask unanimous consent now that preceding the amendment dealing with that subject that this letter be a part of the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXHIBIT 1

RISING ABOVE PRINCIPLE

(By Walter Williams)

The first undertaking by any new administration is the attempt to appease enemies by sacrificing friends. Nine times out of 10, they fail to appease enemies and wind up losing friends.

The second order of business is to compromise principles, if they had any in the first place, to the pressures of pragmatism and political expediency.

The only recent exception to these general rules of political behavior was the first Reagan administration.

The Bush administration knows that increases in the minimum wage cause unemployment, yet they initiated a Republican version of an increase. Their reasoning is

that the Democrats were going to push for an increase, so why not beat them to the punch with a "benign" version? That way the Bush people can curry favor with some enemies and possibly eliminate at least one confrontation with Congress. Moreover, taking a principled stance against the minimum wage law wouldn't bring in that many votes.

Any economist worth his salt recognizes that there are trade-offs in the political, as well as the economic, arena, but nonetheless you'd like people to sacrifice principles only for the highest of prices.

Some compromises in principles can be deadly. The Bush administration's Department of Transportation is going ahead with a mandate calling for higher gasoline mileage for autos (27.5 miles per gallon). The fight for higher mileage is being led by the environmentalists' lobby and Mr. Bush wants to be known as the environmental president and thereby also avoid trouble with the fanatics.

We all like the benefit of cleaner air, but what's the cost?

Forcing Detroit to produce cars that get more mileage also forces automakers to turn out lighter, less crashworthy cars. According to studies done at Brookings Institution and Harvard University, mandating 27.5 mpg will result in 20,000 excess highway fatalities over the next decade. According to the Washington-based Competitive Enterprise Institute, which has brought suit, the DOT has deliberately concealed and falsified the safety hazard of more-fuel-efficient cars.

Then there's U.S. Civil Rights Commission Chairman William B. Allen, who's against busing, quotas and preferences, and equal treatment by race. Mr. Allen recently became involved in the case of a 14-year-old Indian girl who was legally adopted and raised by a white couple. The Apache Tribal Council felt that white people shouldn't be adopting Indian babies and a Texas court agreed, ordering the girl turned over to tribal officials.

Mr. Allen went to the Indian reservation to talk to the girl, who informed him that the tribal council had not sought her opinion. According to The Wall Street Journal, Mr. Allen said the attitude of the civil rights establishment in this matter is that "Lalita must be sacrificed for the glory of her tribe."

Here we have it: The centuries' old story where individual rights and feelings are to be cruelly suppressed whenever they conflict with the elitists' view of the good society.

The Wall Street Journal reports that the Bush people would like Bill Allen to resign. Possibly so they might attempt a Civil Rights Commission chairman more in tune with the thinking of the administration's enemies.

I've always said that the art of politics is to rise above principle and do the "right" thing. That observation says a whole lot more about the character of the American people than that of the politicians.

(Walter Williams, an economics professor at George Mason University, is a nationally syndicated columnist.)

EXHIBIT 2

BUSH SENDS CONGRESS VETO OF MINIMUM-WAGE BILL

(On June 13, President Bush vetoed a measure (HR 2) that would have increased the minimum wage from its current $3.35 an hour to $4.25 over the next three years and provided for a 60-day "training wage"—equal to 85 percent of the minimum—for workers who have not worked a total of 60 days. The president had requested an increase in the wage to no more than $4.25 an hour and a training wage that would allow employers to pay newly hired workers a lower wage—80 percent of the minimum—during their first six months on the job, regardless of previous work experience.

(The president vetoed the measure aboard Air Force One at 2:38 p.m.—less than an hour after the Senate sent the legislation to the White House. Following is the White House memorandum of disapproval:)

To the House of Representatives:

I am returning herewith without my approval HR 2, the "Fair Labor Standards Amendments of 1989."

This bill would increase the minimum wage by an excessive amount and thus stifle the creation of new job opportunities. It would damage the employment prospects of our young people and least advantaged citizens. It would accelerate inflation. It would not help those in poverty. And thus it would fail to properly reflect the thought behind this measure: to help our lowest paid workers.

HR 2 would increase the minimum wage to $4.25 an hour and would provide a training wage only for 60 days and only for a temporary period. Economists universally agree that such an increase in the minimum wage will result in the loss of job opportunities. This is because, as the minimum wage rises, employers in today's highly competitive marketplace must respond. Some close their doors. Some automate. Others reduce their work force or cut the services they provide to their customers.

That is why I made it clear that I could accept an increase only if it were a modest one, and only if it were accompanied by a meaningful training wage for new employees of a firm, to help offset the job loss. As I have said many times, I could sign into law an increase in the hourly minimum wage to $4.25, phased in over 3 years, which preserves job opportunities through a 60-month training wage for all new hires. The bill the Congress has sent to me fails to meet these standards.

The increase in the minimum wage I said I could accept amounts to 27 percent—totaling 90 cents an hour in three equal amount increments of 30 cents. The increase in HR 2 exceeds that amount by a full one-third. In the interest of preserving job opportunity, I cannot approve this legislation.

I wish to be clear about this. My difference with the Congress is not just about 30 cents an hour. It is about hundreds of thousands of jobs that would be preserved by my administration's approach, as opposed to those that would be sacrificed under the excessive increase included in this legislation.

The "training wage" included in HR 2 is ineffective. Its 60-day limitation is too short and unrealistically restrictive. The principal justification for a training wage is preservation of opportunity—for jobs and for training. This can be accomplished only through a permanent trainee differential. HR 2 provides only temporary training wage authority that would expire in 3 years. This means that within 4 years the minimum wage for trainees would rise to the regular minimum wage. That defeats the job-saving purpose of the training wage. This provision of HR 2 would do little to save jobs. I cannot support it.

Minimum-wage jobs are, for the most part, entry-level jobs—those jobs that give our workers the valuable work experience and basic training they will need for advancement to future opportunities. When those jobs are lost, the losers are the young and disadvantaged, grasping for the first rung on the ladder of economic opportunity.

I am also deeply concerned that an excessive increase in the minimum wage will increase inflation, which has rightly been called the cruelest tax. Inflation is hardest on those living on fixed incomes, many of whom are poor and elderly. As the minimum wage increases, employers' costs rise, and they must charge the consumer more for goods and services just to break even.

The federal budget deficit also would increase. The jobs lost due to a large minimum-wage increase would have generated tax revenues for the federal government. Certain government programs are tied directly to the minimum wage; other government expenditures are indexed to inflation. As the minimum wage and inflation increase, those expenditures will increase, and so will the budget deficit.

HR 2 provides for a Minimum Wage Review Board, which threatens to compound the bill's inflationary effect. The board would be permanent; it would be required to make annual recommendations to the Congress for increasing the minimum wage in light of increases in wages and prices since any previous minimum-wage adjustment. This has been termed, accurately, a "back-door" indexing provision. It is unacceptable.

Contrary to what proponents of HR 2 have been saying, increasing the minimum wage is not an effective way to help the poor. The poverty population and the minimum-wage earners are, by and large, different people. Most minimum-wage earners are young, they are single, they live in households with other workers, and most importantly, they are not poor.

We must never forget that a healthy and growing private economy is essential to remedying proverty. We are now in the 78 month of an unprecedented economic expansion. Over the last few months, the unemployment rate has been lower than at any time since 1974. Since the beginning of this economic expansion at the end of 1982, our economy has created nearly 20 million new jobs. Since 1981, the number of workers earning no more than the federal minimum wage has been cut in half—from 7.8 million to 3.9 million last year. Now is not the time to turn back or halt the progress we have made.

In the contemporary American market, wages rise—not because of mandated increases, but because of market forces and the changing nature of America's work place, which demand higher skills and offer better pay to the workers who possess them. An excessive increase in the minimum wage would reduce any chance for hundreds of thousands of less-skilled workers to get entry-level employment and experience the on-the-job training and advancement opportunities that go with it.

Most, though not all, of those denied the opportunity would be young people. I remain, as I have said before, haunted by the fact that by the thousands, young Americans in inner cities believe they have no stake in our system, no future, no hope. Believing they have nothing to lose, they act as if they have nothing to gain. We cannot let this continue. Work can give them something to gain—and we cannot sit by, destroying opportunity with well-intentioned but misguided policies—jinxing an-

other generation—and live easily within ourselves.

It is regrettable that this debate must end with a veto; once the majority in the Congress determined to reject my offer of compromise on minimum-wage legislation, however, it also became inevitable.

In the discussions of this issue, my objectives have been and remain twofold: first, to preserve job opportunities for entry-level workers seeking to get their feet on the ladder of economic opportunity; and second, to increase the take-home pay of the heads of low-income households. My proposal was designed to accomplish those twin objectives.

If the Congress remains unwilling to support this job-saving approach. I am prepared to examine with the Congress, within the confines of our fiscal limitations, changes in the Earned Income Tax Credit, which could better help the heads of low-income households.

I renew my invitation to the Congress to work with the administration, in a cooperative and bipartisan way, on what I believe is the compelling work-force challenge. We need to improve American education so Americans of all ages can prepare for the more demanding jobs that this economy is creating. Growth offers opportunity for those prepared to seize it. For those not now prepared and lacking the basic skills of language and literacy, computation skills and the like, we need to provide or refine our training programs.

I have proposed a package of educational reforms to enhance our federal approach reforms to enhance our federal approach to elementary and secondary education. We can offer a better quality of education to our children than we do and a wider degree of educational choice to them and their parents.

My administration has also proposed a package of reforms in vocational education that can improve this system, so vital to training and retraining our nation's work force. We should move quickly to improve the quality of vocational education, to simplify it, to expand choice, to make the system more accountable and, importantly, to integrate it better with other job-training efforts.

We will be proposing significant improvements in the Job Training Partnership Act. These will include a package of youth initiatives to increase the targeting of critical training resources on those in need of help. These initiatives will also offer improvements in the quality of training made available to "at-risk" youth and incorporate higher standards for achievement and competency after training.

* * * * *

The Congress this year has the opportunity to move these legislative proposals in a concerted way. We need to refine our basic-skills training, literacy, and remedial education, not just job training, to prepare youth for a lifetime of productive work, not just a job. Let us approach these separate statutes and programs not separately but as parts of a whole, as components of an integrated federal policy on real work place needs.

As I said in my inaugural address, I wish to proceed together with both parties in both houses of Congress. For those of us whose legislative priorities include the real needs of America's work force, there can be no more important items on that agenda than education and skills preparation.

During this year, and this Congress, even with limited budget resources—we can make a difference. Let us get started.

GEORGE BUSH.

THE WHITE HOUSE, *June 13, 1989.*

AMENDMENT NO. 1087

Mr. SYMMS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The amendment will be stated.

The assistant legislative clerk read as follows:

The Senator from Idaho [Mr. SYMMS] proposes an amendment numbered 1087.

Mr. SYMMS. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

Mr. HATCH. Mr. President, I send an amendment to the desk——

Mr. KENNEDY. Mr. President, we have not heard the clerk.

The PRESIDING OFFICER. Is there objection to the clerk reading?

Mr. KENNEDY. I object.

The PRESIDING OFFICER. Objection is heard. The clerk will read the amendment.

The assistant legislative clerk continued with the reading of the amendment.

Mr. KENNEDY. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

Mr. HATCH addressed the Chair.

Mr. SYMMS. I object.

The PRESIDING OFFICER. Objection is heard.

The clerk will read.

The assistant legislative clerk continued with the reading of the amendment.

Mr. HATCH. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER: Without objection, it is so ordered.

The amendment is as follows:

At the end of the bill, add the following new section:

SEC. . RELATING TO LEGISLATION AFFECTING SMALL BUSINESS.

The Senate finds that American small business firms account for 38 percent of the Nation's economic output;

That more than 50 percent of the Nation's total private sector work force is employed by small business;

That small businesses account for 51.5 percent of total United States business revenues;

That the Nation's very smallest companies constitute some 88 percent of the total number of business enterprises in the United States;

That between the years 1981 and 1986 small business created some 90 percent of the net new jobs in America;

That in 1988, small business continued to lead in job generation, with employment increases of 4.9 percent versus employment increases in large companies of 3.3 percent;

That small businesses are more likely than larger companies to hire workers who have been unemployed or out of the labor force for long periods of time:

That women who have left their jobs for personal or family reasons and have been out of the work force for 5 or more years are more likely to be hired upon reentry to the work force by smaller businesses;

That the small business work force has a larger proportion of new labor force entrants, and small businesses are more likely to hire from groups having above-average turnover rates and a weak attachment to the labor market;

That employees of small business enterprises are more likely than workers in larger firms to accumulate general skills and training, which make them more attractive to other employers, while the specific training and skills provided in larger firms tend to inhibit transferability to other firms;

That the hiring practices of small businesses help the economy achieve a lower rate of unemployment that would be possible in the absence of such small firms;

That small businesses have limited administrative capabilities and are more likely to be heavily burdened than large firms by regulatory changes that increase paperwork and compliance costs:

That Congress has failed to address systematically the economic impact on small business of the requirements imposed by the Federal Govenrment;

That Congress must recognize that regardless of the merit of the new legislation, Federal requirements are often prohibitively costly to small business;

That Congress has failed to consider the cumulative economic impact of new legislative proposals and existing Federal requirements;

That Congress should consider providing small businesses assistance and tax credits to offset the cost of new requirements imposed by the Federal Government;

That Congress must recognize it cannot continue to impose new costs on small businesses without jeopardizing the vitality of small enterprises and the Nation's economic flexibility and growth; and

That Congress already has significantly increased the business costs of small business this year due to legislation that has been enacted into law:

For the balance of the 101st Congress, the Congress shall not increase the business costs for any small business that is engaged in an industry affecting commerce, and that has (1) 50 or fewer employees, or (2) gross annual receipts of $1,000,000 or less, by enacting legislation that requires additional paperwork, capital expenditures, compliance costs, or taxes.

AMENDMENT NO. 1088 TO AMENDMENT NO. 1087

(Purpose: To provide consideration for the costs imposed on small business)

Mr. HATCH. Mr. President, I call up my amendment.

The PRESIDING OFFICER. The clerk will report the amendment.

The assistant legislative clerk read as follows:

The Senator from Utah [Mr. HATCH] proposes an amendment numbered 1088 to an amendment numbered 1087.

Mr. HATCH. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In the pending amendment, strike all after the first word and insert the following:

—. RELATING TO LEGISLATION AFFECTING SMALL BUSINESS.

The Senate finds that American small business firms account for 38 percent of the Nation's economic output;

That more than 50 percent of the Nation's total private sector work force is employed by small business;

That small businesses account for 51.5 percent of total United States business revenues;

That the Nation's very smallest companies constitute some 88 percent of the total number of business enterprises in the United States;

That between the years 1981 and 1986 small business created some 90 percent of the net new jobs in America;

That in 1988, small business continued to lead in job generation, with employment increases of 4.9 percent versus employment increases in large companies of 3.3 percent;

That small businesses are more likely than larger companies to hire workers who have been unemployed or out of the labor force for long periods of time;

That women who have left their jobs for personal or family reasons and have been out of the work force for 5 or more years are more likely to be hired upon reentry to the work force by smaller businesses;

That the small business work force has a larger proportion of new labor force entrants, and small businesses are more likely to hire from groups having above-average turnover rates and a weak attachment to the labor market;

That employees of small business enterprises are more likely than workers in larger firms to accumulate general skills and training, which make them more attractive to other employers, while the specific training and skills provided in larger firms tend to inhibit transferability to other firms;

That the hiring practices of small businesses help the economy achieve a lower rate of unemployment that would be possible in the absence of such small firms;

That small businesses have limited administrative capabilities and are more likely to be heavily burdened than large firms by regulatory changes that increase paperwork and compliance costs;

That Congress has failed to systematically address the economic impact on small business of the requirements imposed by the Federal Government;

That Congress must recognize that regardless of the merit of the new legislation, Federal requirements are often prohibitively costly to small business;

That Congress has failed to consider the cumulative economic impact of new legislative proposals and existing Federal requirements;

That Congress should consider providing small businesses assistance and tax credits to offset the cost of new requirements imposed by the Federal Government;

That Congress must recognize it cannot continue to impose new costs on small businesses without jeopardizing the vitality of small enterprises and the Nation's economic flexibility and growth; and

That Congress already has significantly increased the business costs of small business this year due to legislation that has been enacted into law:

For the balance of the 101st Congress, the Congress shall not increase the business costs for any small business that is engaged in an industry affecting interstate commerce, and that has (1) 50 or fewer employees, or (2) gross annual receipts of $1,000,000 or less, by enacting legislation that requires additional paperwork, capital expenditures, compliance costs, or taxes.

Mr. HATCH. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HATCH. Mr. President, I ask unanimous consent that the order of the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

TIME LIMITATION AGREEMENT

Mr. HATCH. Mr. President, I understand the distinguished Senator from North Carolina would like to address the Senate for a number of minutes. Before he does I ask unanimous consent that we have a time agreement on my amendment of a half hour equally divided.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HATCH. Mr. President, I ask for the yeas and nays on my amendment.

The PRESIDING OFFICER. Is there a sufficient second?

There is a sufficient second.

The yeas and nays were ordered.

Mr. HATCH. I yield the floor.

Mr. KENNEDY. Mr. President, as I understand, we will not start the time on the amendment of the Senator from Utah until the conclusion of the remarks of the Senator from North Carolina.

The PRESIDING OFFICER. The Senator is correct.

Mr. HATCH. Mr. President, if I could add, I would like the time not to start until he completes his remarks and I begin mine and so ask unanimous consent.

The PRESIDING OFFICER. Without objection, it is so ordered.

The Senator from North Carolina.

Mr. HELMS. Mr. President, I thank the Chair and I thank the distinguished managers of the bill.

Let me make myself clear at the outset. I am going to vote against this minimum wage bill for a very simple reason. An increase in the minimum wage will hurt primarily the working poor and black teenagers of America. In North Carolina we have a distinguished economist, L.H. Zincone. He is at East Carolina University and he correctly concludes, and I quote him: "Minimum wage increases always hurt the very people the politicians say it is going to help." Even the New York Times acknowledged that a higher minimum wage will probably price many working poor people out of their jobs.

Mr. President, I guess it is fair to say that economists are known for their inability to agree on anything, but in this case, 90 percent of the economists nationwide agree that a minimum wage increase causes more unemployment among young and unskilled workers.

A report by the Carter-appointed Minimum Wage Study Commission found that for every 10 percent increase in the minimum wage, there is a 1 to 3 percent job loss among teenagers. This bill before the Senate requires a 27-percent increase. So as many as 8 percent of all teenage jobs could be lost as a result of this legislation.

Economists McKenzie and Simon of Clemson University found that over 60 percent of the loss in jobs would be among teenage workers.

The Council of Economic Advisers concur that the loss of jobs will be concentated among the young and the less skilled and the nonwhite workers, the very people we want to help. Professor Walter Williams of Temple University concluded that the loss of jobs caused by the increase in minimum wage will be felt most by nonwhites.

There is general agreement, except among the politicians, that this is not the thing to do. So what do the politicians do? They go ahead and do it anyway.

Even the Department of Labor projects that an increase in the minimum wage of $4.25 will cause the loss of 227,000 jobs, even with the so-called training wage. The bottom line is that increasing the minimum wage will inevitably cause jobs to be lost among young people and nonwhite workers.

Mr. President, there was a rather telling exchange in the House Labor Committee during discussions of the minimum wage bill. Chairman HAWKINS offered an amendment to include Congress under the minimum wage laws. Congressman FORD replied that these laws should not apply to Congress because the employees work such long hours. Then he made a logical statement. He said:

I do not know where the devil to get the money to pay the higher minimum wage and overtime. There is no pot into which we can reach to meet the overtime requirement.

Well, if that is true of this august Congress, how about those small businesses out there across America, thousands upon thousands of them?

Mr. President, small businesses do not have any magic pot either. They do not have million-dollar funds lying around to pay higher minimum wages.

Employers will probably deal with this increase in labor cost by: One, passing the cost on to the consumers in the form of higher prices; or, two, firing employees or reducing benefits. Neither of these is a very pleasant option.

In 1977, small businesses were asked how they dealt with the prior increase in the minimum wage. The survey revealed 47 percent fired employees and 81 percent put a freeze on the hiring. Obviously, many companies did both.

So, Mr. President, as I said earlier, most economists agree that an increase in the minimum wage will hurt, do harm to, young people and nonwhites, in the majority.

Let us take a look at a few numbers. From 1955 to 1983, the minimum wage increased from $1 an hour to $3.35 an hour. During that same time frame, the unemployment rate of nonwhite teenagers increased from 15 percent to 44.8 percent. And as the numbers show, unemployment among nonwhite teenagers increased sharply after the increases in the minimum wages of 1974 and 1979, 1980, and 1981.

Mr. President, there is an even more compelling case when you look at the unemployment level of black teenagers. From 1974 to 1976, the minimum wage was increased from $1.60 an hour to $2.30 an hour. During that same period, black teenage unemployment increased from 31.5 percent to 39.5 percent.

This chart shows what I am talking about.

Then from 1978 to 1982, the minimum wage was increased from $2.30 to $3.35. What happens? During that same period, teenage unemployment increased again from 41.1 percent to an all time high of 48 percent. That means that 48 out of every 100 black teenagers were unemployed.

Mr. President, now look at what happened from 1982 to 1988, when there was no increase in the minimum wage. Surprise, surprise. The unemployment rate among black teenagers dropped from 48 percent down to 32.4 percent.

These facts and numbers, Mr. President, confirm what economists have been saying for years, and what employers and unemployed workers have been saying; if Congress increases the minimum wage, there will be a loss of jobs especially among young blacks, Hispanics, and others. These are not just cold statistics. These are people that we are talking about, young people who need the jobs the most.

Mr. President, I have discussed this issue at length with a distinguished gentleman with whom I work. He probably knows as much about the problems of the black citizens of this country, particularly the black teenagers, as anybody certainly in this Chamber. He has helped me assemble these statistics. We have checked and doublechecked them. I can assure you that they are accurate.

Mr. President, some say, well, the training wage will save all these jobs for teenagers because businesses are allowed to pay teenagers 85 percent of the minimum wage. But the Department of Labor itself acknowledges that even with a 6-month training wage, 227,000 jobs will be lost.

The last time I looked, 85 percent of zero was still zero. If a teenager loses a job or cannot get a job, the training wage of 85 percent does not help very much.

Mr. President, I note the increases in the minimum wage will take effect on April 1, 1990, and April 1, 1991.

April 1 is April Fool's Day.

As my associate, Dr. James H. Meredith, said, "This is a cruel April Fool's joke on black teenagers."

He said sure, we will increase wages, but the black teenagers are going to find out that they do not have any wage at all because they cannot get jobs. This will happen because many small businesses will not be able to afford to pay the higher wages for unskilled workers—so they will do what they always do—they will cut back on the jobs. Once again, the politicians will have gotten the headlines. But in short, the politicians will hurt the very people, again, that they profess to be trying to help.

Mr. President, I yield the floor. I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. HATCH. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

AMENDMENT NO. 1088

Mr. HATCH. Mr. President, in just a little while, the Senate will be voting on the leadership's compromise legislation to increase the minimum wage by 27 percent by 1991. I happen to believe those who will be hurt the most by the increase of the minimum wage are those unskilled and inexperienced people in our society whose entry level job opportunities are going to simply disappear. They are the same people who can least afford price increases at the gas station or the supermarket. This is the great irony. These are the citizens this measure purports to help. That is, the underlying measure, the increase in the minimum wage.

There is another group of Americans who will also suffer as a result of this legislation, and they are the hundreds of thousands of small business people. I myself will argue the natural reaction to the automatic increase and the cost of labor will be for small businesses in particular to hire fewer skilled workers and raise prices.

It is important to remember, however, that some small businesses do not have these options. They will bear the brunt of this significant mandatory increase in wages. For these businesses, the minimum wage bill is tantamount to a tax increase and some will not be able to absorb it.

Let us also understand the importance of small business to American workers. America's job generating machine happens to be small business. Small business has been responsible for between 70 and 90 percent of the newly created jobs during the expansion. American small business has created more jobs over the past 5 years than the total number of jobs created in Japan and the Western European countries combined. In total, more than 50 percent of the Nation's private sector work force are employed by small business.

Additionally, small businesses are more likely than larger companies to hire workers who have been unemployed or out of the workplace for long periods of time. Small businesses are also more likely to hire older workers, women, teenagers or low-skilled entry level workers. All of these are groups which are characterized by above average turnover and a weak attachment to the labor force.

Small business, in addition to creating the most jobs, also serves as the Nation's training ground. Employees of smaller firms seem to accumulate general skills that make them more attractive to other employers and permit these employees to progress up the ladder of success. In contrast, large employers tend to provide very narrow skills that do not transfer to other firms.

Mr. President, it is time that we started to consider the impact that the legislation we pass has on small business. While the intent of legislation may be to address the pressing national issues, we can no longer afford to ignore the fact that our efforts to solve one problem may impose a myriad of new regulations and compliance costs on small business. The ancillary effects of "doing good" can be harmful.

Before we go patting ourselves on the back for acting on our own good intentions, we better start considering who pays for those good intentions. We better consider the long-range ramifications for small business. For example, many of us supported passage of Americans With Disabilities Act. I managed the bill on our side and voted for the bill because it provides equal opportunity, employment, and access to public accommodations for the disabled. That is an objective of great importance to me as well as everyone else in this Chamber.

But, we cannot kid ourselves by thinking that the legislation is not going to involve major costs for small business owners. Today we are going to pass a bill that will raise the minimum wage 27 percent in 2 years. Moreover, Congress is still considering other measures that would impose tremendous costs on small business, and clearly the cumulative impact of these initiatives will strangle small business.

This amendment will impose some discipline on Congress. The amendment says that for the balance of the 101st Congress, the Congress shall not increase the business costs for any

29-059 O-90-2 (Pt. 20)

small business enterprise with 50 or fewer employees, or gross annual receipts of $1 million or less, by requiring additional paperwork, capital expenditures, compliance costs, or taxes.

This amendment is not intended to tie the hands of Congress. Rather, it is intended to reflect simple economic reality. The amendment simply expresses the view that enough is enough and that, at least for now, we have imposed enough additional burden on small business. With the passage of this legislation today, we will impose additional burdens on top of those.

The amendment affirms our commitment to small business as a major segment of our economy, a segment making contributions from which all Americans benefit. I want to emphasize that voting for this amendment will not preclude any Senator from voting for the compromise on the minimum wage. This amendment is drafted to take effect after the minimum wage legislation is enacted. What this amendment says is that combined compliance costs of the legislation we have passed to date is all we will impose on small business for the balance of this Congress. Such assurances are reasonable for us to give. Such assurances for small business men and women all over America are necessary for them to plan, to invest, to create jobs, and to grow.

Mr. President, before I conclude, let me read from part of a letter from the National Federation of Businesses in which they raise concerns about this bill.

H.R. 2710 is a bad bill. It does not take into account the realities of small business. Opposition to this disastrous legislation will be considered a key small business vote.

I think that is important for all of us to understand that my amendment will help to alleviate many of these fears. I hope it will. But I have a better motive than that. The real motive is to make sure that for the rest of this Congress we recognize the costs we impose on small business. Unbelievable additional costs have already been imposed or small businesses. Most of these costs are certainly well intended, but good intentions do not help small businesses with compliance costs.

Certainly, this minimum wage compromise is well intended. There are obviously two sides to it. But, I believe that people are starting to think twice about what we have to say about the minimum wage. I think the word is out there, and that word is that we are contributing to inflation without much benefit to the working poor. It would be a lot better to attack this problem directly than to do it through a minimum wage increase.

The distinguished Senator from Massachusetts and other supporters are certainly sincere in their arguments. I am not going to denigrate those arguments today. I just want to make sure we have something in this RECORD that notes the costs and says this is enough, let us not do any more to hurt small businesses.

With that I yield the floor and reserve the remainder of my time.

Mr. KENNEDY. Mr. President, for the information of the membership, as was pointed out earlier in the discussion, we have a half-hour time limit equally divided.

First of all, I know how my good friend from Utah has agonized about his own decision on the increase in the minimum wage since he voted for the President's $4.25 on two different occasions previously. This amount is only $4.25. The impact in terms of our economy is 9 months' difference between the $4.25 in this amendment and the $4.25 of the President's. So I know he is closely caught on whether he would support this particular measure or not.

Second, Mr. President, we have really bent over in our committee to try to consider the impact of the increase of the minimum wage on small business. That is why, when we initially considered the $4.65 minimum wage, we increased the threshold exemption for small business from $362,000 to $500,000. That was a 38-percent increase in the threshold for small business when we had a 38-percent increase in the minimum wage—a balance between the increase in the minimum wage and the threshold.

Then we considered on the floor a $4.55 minimum wage, which was a 36-percent increase, but we maintained the 38-percent increase in the threshold for small business. Now we have only a 27-percent increase in the minimum wage, and we did not lower the threshold. We maintained it at the same level.

Even though we have reduced the increase in the minimum wage, we have maintained the threshold; we have been responsive, we believe, to the concerns of the small business community.

Mr. President, the language which we just received this morning quite frankly, with all due respect, is vague and imprecise. It talks about additional paperwork, capital expenditures, compliance costs.

Were we to enact President Bush's Clean Air Act, there would be compliance costs associatied with that. There would also be increased paperwork. Does this mean that we cannot even consider or support the President's own proposal?

Next January we are changing section 127, that relates to employers paying for the education of employees, currently considered to be income for the employees. We are changing that back to the expense of employers. That will result in a change in the paperwork, and yet it is going to benefit businesses across the country.

If the Senate of the United States, the House, and the President actually adopt the capital gains suggestion of the President, there is going to be additional paperwork under the definition in this amendment. What exactly is the additional paperwork?

Mr. President, I believe the amendment is imprecise and that we have been fair to small business.

How much time have I used, Mr. President?

The PRESIDING OFFICER. The Senator has 10 minutes 45 seconds remaining.

Mr. KENNEDY. I yield myself 3 more minutes.

Mr. President, I hope Members would examine the excellent article in the Wall Street Journal today, "Effects of Minimum Wage Increase Seen as Manageable." I will put the whole document in the RECORD. I will read three paragraphs.

The expected 27 percent jump in the Federal minimum wage won't harm small business as much as the last boost in 1981, small business owners and consultants say.

The Small Business Administration estimates that the number of exempted businesses could rise by 400,000 to 2.3 million.

Those 400,000 businesses would actually not be covered. That is what the Small Business Administration has actually suggested. And then it concludes:

In Dallas, where the jobless rate exceeds the national average of 5.3 percent, cleaning-service operator Jane Slayter says she is willing to pay more to get better workers. "You don't get good quality at cheaper rates," she says.

Mr. President, I ask unanimous consent that the article be printed in the RECORD.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Wall Street Journal, Nov. 8, 1989]

EFFECTS OF MINIMUM WAGE INCREASE SEEN AS MANAGEABLE

(By Barbara Marsh)

The expected 27% jump in the federal minimum wage won't harm small business as much as the last boost in 1981, small-business owners and consultants say.

For one thing, the proposed rules exempt thousands of companies that don't even know it. For another, the number of workers being paid the minimum wage has shrunk by half since 1981, to an estimated 3.9 million, the government says. Nonetheless, many small businesses fear the effects of a minimum wage increase.

Last week, the Bush administration and congressional leaders reached agreement on the wage issue, boosting the pay floor in stages from $3.35 an hour to $4.25 an hour by April 1991. The first 45-cent-an-hour rise would occur next April 3.

A sub-minimum wage, to be paid for up to six months to workers under 20 years old, is also part of the package. But it will do little to assist small concerns that are already

paying much more to attract teenagers in tight labor markets, say experts.

A 40-hour-a-week employee earning the new minimum wage would make $8,500 a year, which is $2,483 above the current poverty level for an individual but $3,591 below the level for a family of four.

INCREASES ACROSS THE BOARD

The minimum wage increase is expected to push up low-end wages in general and serve as a touchstone for salary negotiations for higher paid workers.

The increase probably will hinder small businesses more than large ones because they typically run on tighter margins. To cope, they may trim work forces, cut hiring, shave benefits, or modernize. They may boost prices when possible. And aspiring entrepreneurs may think twice about starting companies.

Nancy Thatcher, owner of a Mister Donut franchise in Denver, says the higher wage may prompt her to sack one of her seven employees. She now works the graveyard shift herself with a baker and a doughnut finisher. But she figures she may have to fire the finisher and take on his work as well.

Many businesses are bracing for a profit squeeze. Gary Barnes, who owns a janitorial service in Clemson, SC, says it will take several years before he can increase his prices enough to cover the wage boost. In the meantime, he expects the 25% pretax margin on his best accounts to dip as much as 10 percentage points.

Richard McKenzie, a professor of economics and finance at the University of Mississippi, says that because increasing numbers of small companies are competing with lower-wage foreign rivals, it will be tougher than ever for them to pass on higher costs by raising prices.

Not every business will be hit by the new minimum. Currently, certain retail and service businesses with sales of less than $362,500 a year and gas stations generating less than $250,000 don't have to comply. The House bill would raise those ceilings, exempting such businesses with sales of less than $500,000. Laundry, dry cleaning, fabric care, and construction businesses would qualify for the exemption, too.

The Small Business Administration estimates that the number of exempted businesses could rise by 400,000 to 2.3 million.

MODERNIZATION

Harley Shaiken, a workplace expert at the University of California, says the wage rise will prompt many small businesses to spend money on better technology and methods. "Most small businesses aren't going to like it," he says, "though they'll be better off in the long run."

William Stone, owner of Louisville Plate Glass Co., intends to double the size of his plant within two years. But with the wage increase coming, he now says he will cut his anticipated hiring by as many as 10 workers. Instead, he will invest in automated fabricating, cutting, and handling equipment.

He says he also will expect his new employees to perform better than before. He now pays 15 cents an hour above the current minimum for new workers being trained—and says he gives marginal performers several months to shape up. Once he's paying the new minimum, he says, he will fire trainees who haven't caught on after several weeks. He says that he rarely hires teen-agers, so the training wage rule wouldn't help him.

In tight labor markets, business owners think ripple effects of the wage increase will affect labor costs across the board. In New York, for instance, labor shortages have bid up starting pay for teen-agers working at fast-food outlets to $5 or $6 an hour. Michael O'Neal, owner of the Ginger Man and other Manhattan restaurants, says he pays a dishwasher $9.25 an hour, plus benefits.

Mr. O'Neal expects the federal boost to prompt both his union workers and higher-paid managers to demand pay increases, too. He will have to comply to keep them, he says. Furthermore, his options for coping with the higher costs are limited. For example, he says he can't make his waiters handle more customers because service would suffer.

Economists say the new increase shouldn't sting nearly as much as the 1977-81 rise in stages to $3.35 an hour from $2.30. Even with the pending boost, labor costs haven't kept pace with inflation, notes Mr. McKenzie of the University of Mississippi. To keep up, the minimum would have to jump another 46 cents an hour to $4.81, according to the U.S. Department of Labor.

What's more, the effect of the minimum-wage increase will be indirect for the many companies already paying above the minimum wage. In fact, many entrepreneurs are trying to get out of the minimum wage area entirely.

In Dallas, where the jobless rate exceeds the national average of 5.3%, cleaning-service operator Jane Slayter says she is willing to pay more to get better workers. "You don't get good quality at cheaper rates," she says.

MINIMUM WAGE

	Amount		Amount
Oct. 24, 1938	$.25	May 1, 1974	$2.00
Oct. 24, 1939	.30	Jan. 1, 1975	2.10
Oct. 24, 1945	.40	Jan. 1, 1976	2.30
Jan. 25, 1950	.75	Jan. 1, 1978	2.65
Mar. 1, 1956	1.00	Jan. 1, 1979	2.90
Sept. 3, 1961	1.15	Jan. 1, 1980	3.10
Sept. 3, 1963	1.25	Jan. 1, 1981	3.35
Feb. 1, 1967	1.40	April 1990 [1]	3.80
Feb. 1, 1968	1.60	April 1991 [1]	4.25

[1] Rise approved by House.
Source: U.S. Department of Labor.

Mr. KENNEDY. The sum and thrust of this, Mr. President, is that the impact on the smaller businesses is minor and certainly manageable.

I hope while we are considering the burden on the smaller businesses we would be considering what this means to men and women on the lowest level of the economic ladder who are working men and women wanting to provide for their familes seeking assurance that they are going to be able to live with some degree of respect and dignity.

They have some interest in this as well. For 8 long years their interests have been ignored.

Mr. President, I reserve the balance of my time.

Mr. HATCH. Mr. President, I do not want to delay things any longer, but I do want to point out what my amendment would do for small business. Let me read the conclusion, which is really the guts of the amendment. There is much language in here stating important economic facts about small business. But what the law says is this:

For the balance of the 101st Congress, the Congress shall not increase the business costs for any small business that is engaged in an industry affecting interstate commerce, and that has (1) 50 or fewer employees, or (2) gross annual receipts of $1,000,000 or less, by enacting legislation that requires additional paperwork, capital expenditures, compliance costs, or taxes.

That is all it says. I think it is a good amendment. I think it is something everybody should be for.

Having said that, let me just say I want to compliment the distinguished Senator from Massachusetts. I want to compliment him because he has won this debate on minimum wage. He has won because he convinced the President to come his way.

The $4.25 rate is one that would have been agreed on last time the Senate considered this issue, but only with a true training wage. This is where the Senator from Massachusetts has really won, on the training wage, because most small business people who looked at the training wage, negotiated between the White House and the distinguished Senator from Massachusetts, have concluded that you might has well not have it because it is unworkable. The potential of regulation, the potential of Government intrusion, interference and difficulty, is just too great in this training wage.

As a matter of fact, if you do not meet all of the requirements that have been negotiated on this, a $10,000 fine or imprisonment for not more than 6 months, or both, is at stake for a small business owner. And, injunctive proceedings can also be instituted.

If you look at this training wage, it is applicable only if the employee is under the age of 20 years. Additionally, the employee must not have been previously employed at such wage for a total of 90 days. Additionally, the employee must not be a migrant or seasonal agricultural worker. Additionally, no other individual can have been laid off from the position or a substantially equivalent position. Additionally, no regular employee can have been terminated, or have had hours, wages or benefits reduced for the purpose of hiring a training wage employee Additionally, not more than one-fourth of the total hours of employment of all employees may be paid at the training wage in any month. Additionally, a written notice must be provided to the trainee before employment begins, stating the requirements of the law and the penalties for violation of the law.

That is only part of it. But, only if all these conditions are met may the training wage be used.

With all these conditions, this training wage is so complex, and so difficult to implement that I do not believe there is a small business in the country that is going to try to use it. And,

with the potential penalties that exists, the disincentive to use it is well built-in to this provision.

So, I want to compliment my friend. He has won this battle. He has in effect negotiated a 27-percent increase, implemented over 2 years. Reluctantly, I voted with the President, last time, and I would support the President today if it was a $4.25 rate, implemented over a 3-year period with a meaningful training wage.

The President said he wanted a real training wage. That was the whole purpose of his veto. This is hardly going to be a real training wage. That is precisely the real reason why I cannot support it.

Moreover, I think it is wrong to make the argument that this is really going to help the working poor. It is not. It is going to exclude a lot of them from the workplace.

What we ought to do is, someday in the future, just bite that bullet and get the working poor out of poverty not by artificially increasing wages, and calling it a minimum wage increase, but, by doing it through an earned income tax credit, or some other method similar thereto.

We can go on and on. We debated these issues before. But I want to say that there is no reason for me to find any fault at all with my colleague from Massachusetts. He is carrying the day. He has won this battle. He will win today. I am certainly not going to stand in his way.

But this amendment on small business is a reasonable amendment. It is tied specifically to the very, very small businesses in our country. It means something. It will be some solace to those small business people out there, and it will continually remind us as we continue to pile on costs—that we should recognize what we are doing. And, we will recognize the financial impacts on small business because of this amendment.

With that, I am prepared to vote. I think we said everything that needs to be said.

I reserve the remainder of my time.

Mr. KENNEDY. Mr. President, how much time remains?

The PRESIDING OFFICER (Mr. WIRTH). The Senator from Massachusetts has remaining 8 minutes and 35 seconds.

Mr. KENNEDY. I yield 5 minutes to the Senator from Arkansas.

Mr. BUMPERS. I thank the Senator from Massachusetts. I will give part of the time back.

Mr. President, I most reluctantly oppose this amendment for a number of reasons, not the least of which is I think it really is ill-conceived and poorly crafted.

I know the hearts of the sponsors are in the right place, and certainly the distinguished Senator from Utah will recall that I supported him when we were debating the Americans with Disabilities Act, trying to provide tax credit for small business that would be forced to comply with the ADA bill.

I am now a cosponsor of an additional bill that would accomplish the same thing the Senator's amendment would accomplish.

There are all kinds of provisions in the law now, and those might be amended or changed or new laws might be adopted that would benefit small business, and if it costs them a lot of money or some money just to take advantage of those exemptions, technically under this amendment we could not pass such a bill that would give them that benefit.

Take capital gains. You might have to hire a CPA which would increase your cost in order to take advantage of the capital gains. That would be an increased business cost. Under this, it would be prohibited.

I am just afraid that if this thing became law—think of all the laws we might pass during the remainder of this Congress. We are talking about today through December 31, 1990.

The Senator from Massachusetts has mentioned the Clean Air Act. I do not know what other bills might come through. But I yield to nobody in my concern for small business in this country, and their plight in trying to keep up with Government regulations. I am trying to do something right now about the hazardous communication standard which I think is deadly for small subcontractors especially.

But a carte blanche provision like this could just wind up in endless litigation. The bureaucrats would go berserk, and small business would probably be forced to litigate every single exemption they sought under this provision.

I would say to the managers, as chairman of the Small Business Committee, I would be delighted to hold a hearing—I do not think we have time in this session—but I would be delighted to commit to hold a hearing on something akin to this, so we can all sit down and thoughtfully draft and craft in a mature way something that would actually help small business. In the effort to help small business in this amendment, we might be doing them in. The results might be perverse, indeed.

On its face it looks like you are doing something for small business, but the truth of the matter is you might be doing irreparable damage to small business, so I must, as I say, reluctantly oppose this amendment. I suggest to the sponsors—I do not guess they would be interested in pulling it down—but if they are interested in entertaining such an idea, I would be happy to hold a hearing and try to get something crafted that would actually do what the intent is here.

I yield the floor, Mr. President.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. Who yields time?

Mr. HATCH. I yield the remainder of my time to the distinguished minority leader.

Mr. DOLE. Mr. President, I thank the distinguished ranking member. I have read the amendment carefully. I thought it was going to be a sense-of-the-Senate amendment. I see the word "shall," and I share some of the concerns expressed by the Senator from Arkansas.

We had a White House meeting this morning, and the President asked about minimum wage and the progress it was making. I said that we hope to have it passed as nearly as noon or 1 o'clock. I agree with a lot of the statements. This is more of a speech than an amendment. I do not quarrel with many of the statements made therein, except giving tax credits to offset costs of new requirements imposed by the Federal Government, to me might be safe for health and things of that kind.

Government has the obligation to subsidize anyone, including business, large or small, or agriculture or whatever it is. Of course, tax credits are another way of saying subsidies. Is it outright subsidy. It might be some way to increase deductions or expenses of that kind. But tax credits are the same as an appropriation, just out of the back door instead of the front door.

But, more troubling, as I find it, is the fact that if this amendment is adopted, it is going to go back to conference. The President made an agreement. The Secretary of Labor made an agreement. The President won. He held at $4.25. It would seem to me that Republicans ought to be proclaiming victory and not trying to clutter up the bill at the last minute with any amendments.

But for the balance, it says the Congress "shall." I hope they do not increase the cost of any business, large or small, because of any regulation. But this is not a sense-of-the-Senate amendment.

It seems to me that notwithstanding the motives of the Senator from Utah, which are always pure, that it would be better not to have this amendment on this bill. So I reluctantly indicate, not that one vote will make any difference, that I do not believe it belongs on this bill. I think we have had negotiated settlement. It was in good faith. It involved the highest levels of White House, including the chief of staff, Mr. Sununu, and others, who negotiated for and on behalf of the President. They had said they had a bill they wanted. They got it; now they ought to keep it. It ought to be adopted without change. I would hope that this amendment would be rejected.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. BUMPERS. Parliamentary inquiry. How much time does the Senator from Massachusetts have remaining?

The PRESIDING OFFICER. The Senator has 4 minutes and 20 seconds.

Mr. KENNEDY addressed the Chair.

Mr. BUMPERS. Will the Senator yield for 30 seconds?

Mr. KENNEDY. Yes.

Mr. BUMPERS. Mr. President, I know the Senator from Utah has been in the forefront of trying to help small business. He and I share the same concerns on this. I would hope, especially in light of the remarks of the distinguished minority leader, that the authors of this amendment would consider laying the amendment aside or withdrawing the amendment and not force a vote on it. As the minority leader said, an agreement was made; we ought to stick with it. It was not to my liking and was not to the liking of the Senator from Massachusetts, but it was an agreement, and it ought to be honored.

This amendment can only fuzz up the works. It can only assist in torpedoing it. I do not think that is the intent of the authors to torpedo an agreement reached in good faith, which is not before this Senate. So I implore them—if they want hearings on something similar to this, I will be glad to hold those hearings shortly after the second session convenes. We will discuss it at length. But I implore them to withdraw this amendment and let us get our heads together and see if there is something we can do. I do not think this amendment will pass. If it did, it would be an empty victory, because it could not possibly survive conference. The agreement was made in good faith.

Mr. HATCH. Mr. President, I yield myself 30 seconds.

The PRESIDING OFFICER. The Senator from Utah is recognized.

Mr. HATCH. I really admire my colleague from Arkansas, but I do not think I should withdraw this amendment. Personally, I do not think it makes one hill of beans worth of difference as to the agreement. It does not interfere with the agreement between the President and the Democratic leaders, including the distinguished Senator from Massachusetts. I think it is something that ought to be voted upon. I think the amendment speaks for itself. Let us vote on it, and if I lose, I lose; if I win, I win. I do not think it will cause any disruption or problem with the agreement.

The PRESIDING OFFICER. The Senator from Massachusetts has remaining 2 minutes 45 seconds.

Mr. KENNEDY. Mr. President, the majority leader wanted to be able to make brief comments. I would like to suggest the absence of a quorum, the time not to be charged to either side, and I understand the majority leader will make a brief comment, and we will move to a rollcall vote.

The PRESIDING OFFICER. Is there objection?

The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. MITCHELL. Mr. President, I ask unanimous consent that when the Senate considers the catastrophic health legislation referred to in last night's consent agreement, that immediately upon the completion or yielding back of time, the Senate proceed to vote on the amendment and, immediately thereafter, proceed to third reading and final passage of the bill and that all the preceding actions be accomplished without any intervening action or debate.

I am advised by staff that this has the approval of the Republican leader.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. DOLE. Mr. President, I understand all the amendments to the minimum wage bill are probably coming from the Republican side. It is our hope we can dispose of this bill early afternoon. I will encourage my colleagues, if there are any amendments, to come forward. I know my colleague, the Senator from Texas [Mr. GRAMM] has an amendment. That is the only one I am aware of. Senator HATCH's amendment is pending and there will be a motion to table by the majority leader.

It will be our hope after disposition of these two amendments we can go to final passage of this legislation. If there are amendments, I know both leaders and the managers on each side would appreciate having that information. Otherwise I assume the majority leader will make a request here momentarily, a unanimous-consent request. If there is any objection to that request, then that Member should be on the floor.

Mr. MITCHELL. I thank the distinguished Republican leader. That is my intention, to attempt to establish a procedure by which we can handle whatever amendments do remain and set a time for the remaining votes so Senators can plan their schedules accordingly, and attempt to stack the votes in a way that the votes will occur within a short timeframe.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

UNANIMOUS-CONSENT AGREEMENT

Mr. MITCHELL. Mr. President, I ask unanimous consent that the vote on the tabling motion I am about to make on the underlying Symms amendment occur no earlier than 4 p.m. today; that the pending amendments be set aside so that, following my motion to table, Senator GRAMM of Texas be recognized to offer his amendment, and that time on the Gramm amendment be divided as follows: 30 minutes under the control of Senator GRAMM, 10 minutes under the control of Senator HELMS, 10 minutes under the control of Senator SYMMS, 30 minutes under the control of Senator KENNEDY; that upon the completion of the debate on Senator GRAMM's amendment Senator COCHRAN be recognized, if he wishes to be recognized, to offer amendment No. 1083 on which there shall be 10 minutes of debate in the usual form; and that no other amendments or motion to the bill be in order except for Senator HUMPHREY's amendment relative to a pay raise mechanism on which there shall be no time limitation.

I further ask unanimous consent that the votes in relation to these amendments occur in the order in which they are offered following the disposition of the Symms amendment.

I further ask unanimous consent that immediately upon the disposition of these amendments the Senate proceed to third reading and final passage of the bill without any intervening action or motion or debate.

The PRESIDING OFFICER. Is there objection? Hearing no objection, it is so ordered.

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The Republican leader.

Mr. DOLE. I have no objection, Mr. President. I think this will accommodate, and Senator HUMPHREY has reservation there. We think we can work that out in colloquy. But beyond that, we have one Member that is necessarily absent and others would be kind to him if they, as in some cases, accept a voice vote. It certainly would be appreciated. And, second, I am advised that the House-passed catastrophic illness

bill has now been received by the Senate. Hopefully very soon we might do what we need to do on that and appoint conferees this afternoon.

Mr. MITCHELL. Mr. President, responding to both points, with respect to the number of votes, I will make every effort to minimize the number of votes to accommodate the Senator who must necessarily be absent, and will discuss that with the managers in the course of the upcoming debate.

It is my intention to proceed to the catastrophic matter and hopefully we can get that done this afternoon at an appropriate time.

I thank the distinguished Republican leader and all of my colleagues for their cooperation in enabling us to put together this ageement.

Mr. President, as I indicated at the outset of my request for unanimous consent, I am about to make a tabling motion with respect to the underlying Symms amendment. I would like to address that subject just briefly.

AMENDMENT NO. 1087

The distinguished Republican leader has already spoken in opposition to the amendment, and I associate myself with his remarks in oppostion to the amendment.

I remaind all of my colleagues that, in behalf of the President and the administration, the Secretary of Labor has just yesterday written to me, to the manager, and to others urging enactment of the bill without amendment.

I would like to read from the relevant portion of the Secretary's statement in behalf of the President and the administration. I quote:

The administration supported enactment of H.R. 2710 which passed the House last Wednesday, November 1. Accordingly, I ask for your support of this same bill now before the Senate with no amendments attached.

So I hope those who wish to support the President on this matter will do so by joinging in tabling the pending amendment.

There are substantive reasons for doing so as well. As the distinguished chairman of the committee and manager of the bill has pointed out, adoption of this amendment would effectively negate the clean air bill.

A Senator who votes for this amendment is making it very clear that that Senator opposes the President's clean air bill cannot be implemented, cannot meet the test which this amendment purports to create. The same is true with a host of other legislative matters.

So I hope Senators who have made clear their desire for strong clean air legislation and have supported the President in that regard will join in moving to table this amendment.

Accordingly, Mr. President, I move to table the amendment. I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. GRAMM addressed the Chair.

The PRESIDING OFFICER. The Senator from Texas is recognized under the previous order.

AMENDMENT NO. 1089

(Purpose: To strike the exclusion from the training wage for employers of migrant and seasonal agricultural workers)

Mr. GRAMM. Mr. President, I send an amendment to the desk on behalf of Mr. SYMMS, Mr. HELMS, Mr. THURMOND, and Mr. HEFLIN and myself, and ask for the its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The legislative clerk read as follows:

The Senator from Texas [Mr. GRAMM], for himself, Mr. SYMMS, Mr. HELMS, Mr. THURMOND, and Mr. HEFLIN, proposes an amendment numbered 1089.

Mr. GRAMM. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

On page 13 of the bill strike lines 1 through 10.

Mr. GRAMM. Mr. President, the amendment I have sent forward is very simple. I want to try to define it very precisely because I would guess that during this debate there will be an effort to relate it to a bunch of the other labor laws which, while interesting, are largely irrelevant to this particular amendment.

I know this train is moving. I understand an agreement has been made between the Secretary of Labor, and the majority leader and minority leader on behalf of the bill.

But, Mr. President, I have offered this amendment because a mistake has been made in this bill. It is not a mistake that I believe was intended. It is a mistake that will produce inequity and discrimination.

I believe this amendment should be adopted. I think if it is adopted the House will accept it, and the bill will become law with this amendment part of it.

Let me explain where the mistake came from. First of all, a big point is made out of the fact that 75 percent of all agricultural employers, that is farmers and ranchers, are exempt from the Fair Labor Standards Act. They are exempt because they do not hire at least 500 man-days per calendar quarter, which is roughly seven full-time people.

So the argument has been made that, since 75 percent of the farmers and ranchers are exempt, this is not a relevant issue for agriculture, and is irrelevant as far as farmers and ranchers are concerned, and, might I say, as far as the people who work on farms and ranches are concerned.

Mr. President, the problem with that is while only 25 percent of the farmers and ranchers are covered by the Fair Labor Standards Act and, therefore, are affected by this bill, they employ 56 percent of the entire work force that is employed in agriculture.

So we are not talking about some minute amount here. We are talking about 56 percent of the labor force. What is wrong with the bill? What is the mistake in the bill?

The mistake in the bill is that seasonal and migrant workers in every other area of the American economy, except agriculture, have a training wage for seasonal and migratory workers that are between the ages of 16 and 19.

Now, I am sure somebody will stand up and say that agriculture is about the only seasonal and migrant area. I submit, Mr. President, that is not true. You have the fishing, crabbing, and lobstering industries, hotels, motels, you have resorts, amusement parks, the timber industry and the construction industry which all employ seasonal and migrant workers.

So the plain truth is that you have a lot of seasonal and migrant workers that are going to be eligible in the fishing industry for a training wage, that are going to be eligible in the construction industry for a training wage, that are going to be eligible in working in summer camps. If that is not seasonal, I do not know what it is.

Young people working in summer camps are going to be eligible for a training wage, but young people working in agriculture are not going to be eligible for a training wage because this bill discriminates against seasonal and migrant workers who work in agriculture.

Mr. President, some might say, well, what difference does this make? I mean, this is a relatively small number of people. Let me remind my colleagues that 87 percent of all hired farm workers work less than 180 days per year. So we are talking about a huge number of people who work on our farms and on our ranches.

Finally, Mr. President, maybe somebody will get up and say, well, when you are talking about stoop labor, unskilled work, you are talking about farms and ranches.

Mr. President, let me say that anybody who talks about agriculture as if somehow it is less skill-oriented than manufacturing or tourism, simply has not been on a farm, except perhaps on some rural resort that they run.

The plain truth is, of all major segments of the American economy, if you lump manufacturing into one category and mining into another and services into another and agriculture

into another, agriculture is more mechanized and more capitalized than any of the other major segments of the economy. Anybody who thinks that we are hiring people on farms and ranches in America to go out and use a hoe has not been on a farm or ranch, other than a dude ranch, in this country in a very long tme.

Let me also remind my colleagues that farm tools are dangerous. You are talking about tremendous capital equipment and people that run farm machinery, that work on farms and ranches, are just as in need of training as anybody else.

Finally, let me remind my colleagues that we are not talking about a loophole here that is going to allow farmers and ranchers to cheat on the intent of this law. We are talking about a precisely defined group of people.

I hope people will listen to these numbers. We are talking about only people that are between the ages of 16 and 19. I ask my colleagues, is it not feasible that people that are 16 years old, that are going to be working on a farm or ranch, are in need of some training? Why should they not be eligible for a training wage in agriculture when they are eligible for a training wage in other seasonal and migratory activities?

Mr. President, I know the objective of the denial of this training wage, but, first of all, it is in part an effort to benefit a greedy special-interest group that cares not one twit about the people of this country that are between 16 and 19 years of age, who would like to get that first foot off of the lower rung of the economic ladder. If that rung is sawed off, and that means they never get up to the top, that is one less person with which to compete.

Mr. President, I do not think most working Americans look at it this way. How can we justify having a training wage for people that are working in hotels, motels, and resorts on a seasonal basis, and not allow a training wage in agriculture?

I submit, Mr. President, that there is absolutely no justification whatsoever for that position.

Finally, I am sure one of the arguments you will hear is that these employers will cheat; they will not keep records.

Well, Mr. President, that argument may sound good, but it does not make any sense. First of all, people who are going to cheat, or not keep records, are not going to pay the minimum wage. If they are going to violate one law, they will violate another law, and they will not be affected by this amendment.

I am talking about the people that comply with the law. They will be affected. If you look at U.S. labor and employment laws and you look on page 387 of the Migrant and Seasonal Agricultural Worker Act, you find that what is required by law of the employer in this area is that they keep records for each farm worker, that they provide these records to the employee, showing the amount of time the employee works and the number of hours he works. Also, under the very bill we are debating, all that a young person has to do to qualify for ther full wage is simply declare that in fact they have worked 180 days in their life at the training wage. They do not have to be able to prove it. All they have to do is make the declaration.

So, Mr. President, the argument that because they are seasonal and migrant workers, that employers might cheat, is not an argument. If they are going to cheat, they will not pay the minimum wage anyway. Who I am protecting are the people that are complying with the law. The laws says exactly what you should do. If they do that, then the employer cannot cheat.

Finally, the bill that we are debating now says that a declaration by the employee that he or she has gone through a training period of 180 days entitles that employee, if that employee works, to the full minimum wage. So I submit to my colleagues that the following points cannot be denied.

No. 1, there is only one occupational category where people are employed seasonally or on a migratory basis that is excluded from the training wage, and that is agriculture. There is no logic for this exclusion. Agriculture is not the only seasonal industry in America. There are a lot of seasonal industries. Agriculture is more capital-intensive than any of the other major sectors of our economy. So the argument that they do not need training to work on a farm can only be made by somebody who has not been on a farm in 20 years or who has only been on dude ranches.

Finally, regarding the idea that employers are going to cheat unless you do not have a training wage, Mr. President, if employers are going to cheat, they are going to cheat. That is not an argument relevant to this debate at all.

I understand that deals are made and that agreements are worked out, but this amendment is reasonable. It eliminates clear discrimination against America's farmers and ranchers.

Let me conclude by reading from a letter from the American Farm Bureau federation:

> Given these restrictions, Farm Bureau is mystified why farm employers are prohibited from paying the training wage. Farmers should be treated no differently than other employers of temporary and seasonal workers.
>
> We are gravely concerned about this unfair and discriminatory attack on the Nation's farmers.

Mr. President, there is only one thing in this paragraph that I disagree with. This is not just an attack on the farmers. It is an attack on young people 16 to 19 years old who would like to learn how to run a combine, who would like to learn how to run a tractor, so that they can then get a job, save their money, someday own their own farm, and, like our own great apple farmer from Idaho, be elected to the Senate. That is who we are discriminating against here. Let us put this bottom rung back on the ladder and treat seasonal workers in agriculture just like we treat the seasonal workers everyplace else.

I urge my colleagues to adopt this amendment.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. Mr. President, the basic theme of my good friend from Texas is that, seasonal and migrant workers are treated differently in agriculture than otherwise they might be treated in other seasonal industries, and asks why agricultural workers should be different from industrial workers.

Mr. President, there is a very basic and fundamental reason for that. Since the passage of the Minimum Wage Act, we have treated agricultural workers differently than industrial workers. There are 1,800,000 farmers or farmworkers. One million of them are not covered by the minimum wage whatsoever. They can pay them anything, zero cents, 30 cents, 50 cents, 75 cents an hour. They are not even covered, completely different from the other recipients of the minimum wage. Even concerning those covered by the minimum wage, there is no requirement that employers pay overtime. Agriculture and agricultural workers are treated differently, and have been for 50 years.

We did not basically change that degree of coverage. The administration insisted on a training wage. We did not want or choose that training wage. The administration then insisted on how it should be crafted in different areas. This language represents the administration position, and it seems to be a reasonable position.

It simply excludes from the training wage limited areas of migrant and seasonal workers.

I accept the knowledge the Senator from Texas has about farms and ranches. Of course, the minimum wage does not apply to anyone who works on the ranch; it particularly excludes them. Maybe he can speak about farmers, but when he talks about lobstermen up in our part of the country, he will have to come up to meet with some of them. Basically, we know what we are talking about, concerning seasonal and migrant workers. It is basically stoop labor, picking the crops

and going from Florida to New Jersey, and sometimes up as North as Massachusetts. We know what this is all about. It is all about individuals who are probably the most exploited group in the labor force. We have tried to address those exploitations over the period of years. We passed legislation in the mid-1980's to try to provide protection for these people. I suggest anybody who did not see the excellent show Ted Koppel did talking about exploitation on July 17, 1989, "ABC New Nightline" aired the program "American Migrant Workers Continuing the Harvest of Shame," examining the most exploited group of individuals in our society. We know who they are. It is the group that follows the crops—the migrants. What we have crafted in this legislation puts the burden of proof on the worker to demonstrate that they have actually worked the 90 days. Otherwise they will get the training wage indefinitely. Here we have migrant workers, seasonal workers, who may work 1 week for one employer, another week moving up the group of States. It was recognized by the Department of Labor, and I think rightfully so, that to put that kind of burden on the migrant workers is going to provide increased possibilities for exploitation and harassment. Some say, if you are going to have cheaters as employers, they are going to cheat at this, too. What they recognize in the Department of Labor is that applying the burden requirements on migrants, is virtually, unenforceable, and subject to abuse.

The Senator from Texas says they ought to enforce it. They ought to get better management down on the farm. That is all well, fine and good in a perfect world. But we are talking about the harshly realistic conditions that exist today.

So, Mr. President, agricultural workers have been treated differently right from the very beginning. We understand that. If the good Senator from Texas wants to take a position that all areas be treated equally, I would like to hear that we are then going to have overtime for those workers. Is he prepared to subscribe to overtime for farm workers? That would put them under the same kind of requirements we have with others. Does he want to do that? Does he want to see the kind of coverage we have for other areas outside of agriculture?

I do not hear him saying we want to make the requirements uniform and equitable. We can include these workers under the other provisions of the act so they will get overtime. The other side does not hear that. It is only with this very narrow area of individuals who, as I have mentioned, have been the subject of exploitation, Mr. President, and I would just hope that for those reasons and others that the amendment would be defeated.

I reserve the remainder of my time.

The PRESIDING OFFICER. The Senator from Texas.

Mr. GRAMM. Mr. President, let me first point out that agriculture is not the only area of our economy that is partially exempt from the Fair Labor Standards Act. Fishing, seafarers, small newspapers, switchboard operators, amusement parks. We have a lot of areas of the economy that are partially exempt. But none of those areas are singled out here as saying they do not need or deserve the training wage.

So, I think that argument just will not hold water.

Mr. President, let me get down to the bottom line here. Our dear colleague from Massachusetts talks about stoop labor. Mr. President, I would like every American to have an opportunity to learn a skill. I do not know how you pass a law and create skills. In the world, people acquire skills sometimes by going to college, sometimes they acquire skills in high school, but more often than not out in the real world people acquire skills by doing jobs. On-the-job training is the most effective training program in the history of mankind.

I ask my colleagues, you know you can debate the exemptions in the Fair Labor Standards Act all you want to. If our colleague wants to debate those issues, I am willing to debate them. That is not what is at stake in this debate.

What is at stake in this debate is, should we have a training wage in agriculture for seasonal and migrant workers when we have a training wage in every other area of the economy for seasonal and migrant workers?

What is the training wage for? And I know there are people here who are not for a training wage. I remind my colleagues that we are adopting a training wage so that we do not cut the bottom rung off the economic ladder. If minimum wage laws really work, we would ask for $1 million an hour minimum wage and we could all be rich. But the minimum wage laws do not work because of this quirk we all learned in the third grade, and that is that anything times zero is zero; $1 million an hour times zero hours equals zero.

If a training wage makes sense for people to work in a hotel or a summer camp or resort, why does it not make sense for people to work on a farm or a ranch? It does make sense.

There is no logic to this exemption. A training wage is no more an exploitation of people working on a farm than it is of people who are working in a factory. In fact, a training wage serves the same purpose, and that is to give people an opportunity to get on the playing field and use their God-given talents.

Mr. President, I am not for this amendment for what it does for the farmers and ranchers. Most people who are farming and ranching have already received fairly moderate degrees of success.

I am for this amendment for what it does for young people 16 to 19 years old who would like an opportunity to be part of the American dream and when the farmers and ranchers are told you cannot hire a 16-year-old child at less than than $4.25 an hour, we know what is going to happen. When they have to pay that kind of wage to teach that child how to run the tractor or the combine or to teach him basic skills of animal husbandry, what is going to happen is that young man or that young woman is not going to get the job.

And they are not going to learn how to run that machinery or learn the talents needed to engage in that business and America is going to be denied a lot of farmers and ranchers and national leaders and perhaps a President or two that we could desperately use.

So again, Mr. President, I go back to the fact that these arguments are not relevant. Agriculture is not the only area with some limited exemption. Clearly, a lot of farm labor is affected. I urge my colleagues not to be caught up in the rhetoric of stoop labor and exploitation, but to simply ask yourselves: Do we want to let a 16-year-old qualify for training in agriculture just as they qualify for training in industry?

Mr. KENNEDY. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. Twenty-four minutes and sixteen seconds.

Mr. KENNEDY. I yield myself 3 minutes and then I will yield to the Senator from Florida.

Mr. President, I will put in the RECORD the various coverages for the minimum wage. I think any reading of this particular table could indicate, just as we said, that agriculture is treated uniquely. Industrial workers, for example. There are 19,726,000 and 17 million are covered. Some are not covered because of the small business exemption which applies to these other categories. But the fact is agriculture has traditionally been treated very, very differently.

I ask unanimous consent that the table be printed in the RECORD.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

TABLE 1.—ESTIMATED NUMBER OF EMPLOYED WAGE AND SALARY WORKERS IN THE CIVILIAN LABOR FORCE CLASSIFIED BY THE STATUS UNDER THE MINIMUM WAGE PROVISIONS OF THE FAIR LABOR STANDARDS ACT, BY INDUSTRY, UNITED STATES, SEPTEMBER 1988

[In thousands]

Industry division	Number of employed wage and salary workers in the civilian labor force				Number of supervisory employees subject to the minimum wage provisions of the FLSA			
	Total	Activities generally exempt under section 13(a)(1) of FLSA [1]		Nonsupervisory employees excluding outside sales workers	Total	Subject prior to the 1966 amendments [2]	Subject as a result of the 1966 and later amendments [2]	Number of nonsupervisory employees not subject to the minimum wage provisions of FLSA
		Executive, administrative and professional personnel	Outside salesworkers					
All industries	110,986	20,793	2,865	87,328	79,150	50,372	28,778	11,043
Private sector	93,186	13,691	2,865	76,630	68,452	50,372	18,080	11,043
Agriculture [3]	1,724	89	.....	1,635	628	.....	628	1,007
Mining	740	94	.....	646	642	642	.....	4

Mr. KENNEDY. Second, Mr. President, with regard to the American Farm Bureau Federation, it just is wrong in so much of its recommendations. For example, "Under H.R. 2710, all employers except farmers are permitted to hire young first-time entrants." That is a wrong statement. That is a wrong statement. It only excludes the migrant and seasonal workers from the training wage as we have represented before. Not all farmers. It is a misleading and incorrect statement.

In the third paragraph: "Given these restrictions, the Farm Bureau is mystified why farm employers are prohibited from paying the training wage." Again, this is incorrect. Except for migrant and seasonal workers they can pay less than the training wage. The quote is completely disingenuous. Farm employers are not basically covered. By and large they can pay less. So they are mystified why farm employers are prohibited from paying the training wage. In most circumstances, they can pay just about what they want to, what the market will bear, with the sole exemption for seasonal and migrant workers.

"All we say is farmers should be treated no differently than other employers of temporary and seasonal workers." Fine. The Senator from Texas is not saying advocating the application of this whole legislation right across the board to agriculture, and that they would then all be treated the same. All be treated the same—concerning overtime and other provisions. No, he is not saying that. He is just saying the migrant and seasonal workers should be included in the training wage. Of course he would not represent across-the-board application of the same standards because he recognizes agriculture is different. We have understood it and have treated it that way for 50 years.

So, Mr. President, for those reasons, I hope that the amendment would be rejected.

I yield 5 minutes to the Senator from Florida.

The PRESIDING OFFICER. The Senator from Florida is recognized for 5 minutes.

Mr. GRAHAM. Mr. President, I am pleased today to express my support for this legislation to adjust the minimum wage. It is long overdue. I was disappointed when the President vetoed the original minimum wage bill that passed the Congress. I am pleased that he is now supporting the reestablishment of the American principle, that Americans can and should, through his or her work, be able to live a life of dignity with a decent income. This has been a basic premise of the minimum wage law since the time that the Senator who served in the same seat that I now serve, Senator Claude Pepper, introduced that proposal in 1937.

Mr. President, I would like to talk particularly about the training wage which was included in H.R. 2710. This is an issue which has been of particular concern to me going back to the original debates on this matter.

I believe in the concept of a training wage because it not only provides the opportunity for a young person to acquire lifetime skills and lifetime cultural habits that will assist in assuring their long-term economic independence, but it also gives encouragement to an employer to take a chance on the young and inexperienced, to reach out and provide a job that might not otherwise have been available.

Mr. President, for the last 15 or so years, I have taken a number of different jobs, mainly for 1 day at a time, to experience the many different occupations of the people of Florida. I have now done that on more than 300 occasions. I have had some experience with that first day on the job. I can state from that experience that, on that first day on the job, you need to be able to give the employer some sense of optimism that the employer will be able to earn a productive return from labor. I know from that and other personal experiences that the inducement which the training wage will provide will be a significant one. It will allow an effective entry point to provide the foundation for future economic potential for many of our young people.

This provision that we are now debating has been supported by the President, the leaders in his administration, and by the leadership in the Congress.

Concern is being expressed today about the provision which would exempt from the training wage migrant or seasonal agricultural workers. In my opinion, that exemption is appropriate.

First, I would like to point out that the bill does not exempt agriculture workers who otherwise met the standards of this law from their eligibility for a training wage. Many of the people described by the Senator from Texas would be excluded from the definition of a seasonal or a migrant worker. A migrant worker has to be one who works away from his normal home. A seasonal worker is one who works for a prescribed period of time on a temporary basis.

If in agriculture, as in any other covered area, a person is employed as a permanent employee where the expectation is that this employment will be an ongoing one, where the very skills that are going to be provided through the training program will have a sustained application, then the training wage would be applicable to them as it would to anyone else.

I believe that this exception is appropriate because oftentimes the nature of the work which is being performed is not applicable to the kind of training which this bill contemplates as a necessary component of eligibility for the training wage.

I want to underscore one important thing. There should be no demeaning of the value of agriculture work or the commitment made by the vast majority of agriculture employers to treat their employees in a fair manner. In my State, there has been a sustained effort to assure that the working conditions of agriculture labor has been at a standard which meets the expectations of other areas of American employment.

I am pleased with the commitment which our agriculture employers have made in terms of increasing both direct compensation and the working conditions of Florida agriculture workers.

I believe that, when an agricultural employer employs a young person with the expectation that this will be ongoing employment, and where the employer determines it would be appropriate to provide the training this legislation requires, then that employer should be allowed to pay the training wage.

I do not believe this would be applicable for the character of employment which is generally associated with migrant or seasonal labor. Therefore, Mr. President, I support the training wage provision in this legislation. It is fair and balanced. I ask my colleagues to support it and to support the minimum wage bill before us today.

The PRESIDING OFFICER. The Senator from Idaho.

Mr. SYMMS. Mr. President, for those Senators who have not had the opportunity to look at this yet, this amendment will strike the provision in the bill which specifically prohibits farmers and ranchers who employ seasonal and migrant workers from using the training wage.

Mr. President, it is my understanding this provision has never been debated in the full House or the Senate, it has not been included in bills originally reported early in the 101st Congress, and was not offered as an amendment in either the full committee or subcommittee markups.

The training wage provision contains a cap on total employment which may be paid to any worker, by all employers, of 180 days. Once a worker has earned pay at a training wage rate level for 180 days, he may never again be paid at a training wage level.

I guess the question is, and our distinguished colleague from Texas has made the case very well, Why should agricultural workers and employers be singled out and prohibited from using this important training tool for the young, inexperienced farm workers? Why single out agriculture?

Migrant and seasonal workers, usually harvest and planting employees, make up a significant portion of the agricultural work force in many of the major crops in the country: In the fruits and vegetables, cotton, cane and beet sugar production, livestock activities and other similar employment situations. This prohibition applies to migrant workers, but more importantly, it also applies to the kid next door. It applies to the neighborhood young person who might want to work for the neighboring farmer during the summer.

If you tell that farmer that he must pay the 16-, the 17-, the 18-year-old neighbor's child the minimum wage, even though this young person, this teenager, has never worked on a farm before, the farmer may decide to hire someone with the experience, because it is just based on economics.

I think the Senator from Texas touched on it but I think it goes over a lot of nonfarm American's heads. In many ways, modern agriculture is the single most sophisticated of the industries in the United States. It requires more management. It requires a manager for every 40 acres, in the highly sophisticated regions, for example in the distinguished Presiding Officer's State in the Yakima Valley and Wenatchee Valley; very, very sophisticated areas of farming.

In areas of my State where a wide range of crops requiring specialized training are grown, including seed crops, hops, and all kinds of fruit and vegetable crops, we require a highly specialized kind of farming. It requires a great deal of skill—art, in many cases—to handle these jobs. A great deal of capital for each worker is tied up in the process. Farmers simply need to have highly skilled workers to employ that capital so they can get some kind of a return on investment.

There is another factor, Mr. President. Farmwork, as I said, is not as simple as it may seem to some of those who are not from the farm. OSHA statistics reveal it is the single most hazardous occupation in America. Farm machinery is complicated and it is expensive. Harvest activities are physically demanding. It is only fair to the farmer and to the teenager that he or she be adequately trained before being employed regularly in these settings.

I believe it is unfair, Mr. President, to the children, and discriminatory against the farmers, to eliminate the possibility of employment in a training program. Why should farmers be treated any differently than the other employers with respect to the training wage? And why should Congress turn thumbs down on this economic incentive to give work experience in agriculture to inexperienced teenagers?

I do not know how this provision got in the bill, but apparently it was offered without explanation as a portion of the initial House substitute offered on the floor, to H.R. 2, in March. Excluding agricultural employees from the training wage rate has never been justified or even adequately explained by the majority.

The American Farm Bureau Federation advises me they have communicated to the White House their strong dismay that this provision was included in this package. This amendment to strike the agricultural training wage prohibition is a top priority for the Farm Bureau in 1989.

I urge my colleagues to join with the Senator from Texas and others to eliminate this unfair discriminatory provision from H.R. 2710.

Mr. President, I ask unanimous consent the letter to me from Mr. John Datt, the executive director of the Farm Bureau be printed in the RECORD at this point.

There being no objection, the letter was ordered to be printed in the RECORD, as follows:

AMERICAN FARM
BUREAU FEDERATION,
Washington, DC, November 7, 1989.

Hon. STEVE SYMMS,
U.S. Senate,
Washington, DC.

DEAR SENATOR SYMMS: Farm Bureau is pleased that you intend to offer an amendment to strike the provision in H.R. 2710, the minimum wage increase bill, which prohibits employers of migrant and seasonal agricultural workers from using the training wage.

Under H.R. 2710, all employers except farmers are permitted to hire young, first-time entrants into the workforce and pay them 85 percent of the federal minimum wage, in order to help counter the disemployment effects of the increase in the fed-

eral minimum wage to $4.25/hour. Strong protections are built into the package so that the training wage is not abused: the wage rate may be paid only to 16- to 19-year old workers, employers must offer an organized training program, no more than three months may be paid at a training wage rate by any one employer and no worker may earn the training wage for more than 180 days—over his or her working lifetime.

Given these restrictions, Farm Bureau is mystified why farm employers are prohibited from paying the training wage. Farmers should be treated no differently than other employers of temporary and seasonal workers. We are gravely concerned about this unfair and discriminatory attack on the nation's farmers.

U.S. Department of Agriculture statistics show that 46 percent of all farmworkers are under the age of 25; and that 44 percent of all hired farmworkers attend school, keep house or perform other non-farmwork as a major activity. Further, 87 percent of all hired farmworkers work less than 180 days per year. Prohibiting agricultural employers from using the training wage will discriminate against these agricultural workers.

Farm Bureau urges all Senators to support your amendment striking Sec. 6 (g)(1)(A)(i) from H.R. 2710, and commends you for your support on this issue.

Sincerely,

JOHN C. DATT,
Executive Director, Washington Office.

Mr. SYMMS. Mr. President, I reserve the remainder of my time and I yield the floor.

The PRESIDING OFFICER. The Senator from Texas.

Mr. GRAMM. Mr. President, how much time do I have left?

The PRESIDING OFFICER. The Senator has 11 minutes and 46 seconds.

Mr. GRAMM. Mr. President, I know a lot of people are waiting on the floor, in many cases to simply replow the same ground. I want to give my answers to the remarks made by the distinguished Senator from Massachusetts. The, after he has had his opportunity to respond, if he is ready to yield back his time, I would be ready to yield back mine to let the Senator from Ohio and the Senator from Illinois have an opportunity to get on with their business.

Mr. President, the facts here are simple. I think we are seeing a lot of confusion created in the debate. But the facts are very simple. There are a lot of areas of the American economy that are treated differently with different exemptions and rules, under the Fair Labor Standards Act. That is a fact, We are not debating that act here today. But it is a fact, whether we are talking about small newspapers or whether we are talking about agriculture or whether we are talking about amusement parks. And I am not proposing that we amend that. That is not the subject of this debate. It is interesting but it is irrelevant.

Mr. President, also, continually, those who oppose this amendment want to say that it is covered in some other area. For example, a reference was made to the 13-week exemption. But, Mr. President, the 13-week exemption in no way addresses this problem because to get the 13-week exemption, No. 1, you have to commute daily from your permanent place of work; you have to be paid on a piece rate basis which almost never exists in agriculture.

In some areas you use piece rates. But today, piece rates virtually never exist. In fact, the third requirement is that you be engaged in hand-harvesting of some crop.

So, Mr. President, that is not an exemption that is relevant here. The Senator from Massachusetts and I have some dispute about what the numbers are. The facts I have suggest that 56 percent of the people who work in agriculture are not exempt under the seven full-time worker exemption. That is a big percentage.

The Senator from Massachusetts says, in seasonal and migratory work, you are talking about these people who are following crops around the country.

I guess my answer is twofold. Do they not need training? But, second, Mr. President, let me remind my colleagues that 87 percent of all the people who work on American's farms ranches work 180 days or less. Eighty-seven percent of all people that are hired as farm or ranch workers work 180 days or less.

So we have a huge group of people that fall into this category who do seasonal work because, in fact, very little of agriculture in America is not seasonal. The bottom line, Mr. President—and I will be through with the argument—is that every other seasonal and migratory occupation in America is given a training wage except agriculture. Every other single seasonal occupation except agriculture is given a training wage.

Mr. President, I do not think that makes sense. I do not think most people thought it was intentional. Let me tell you why it is important. There are a lot of children 16 to 19 years of age who are going to be affected by this, and if we do not fix this inequity, there are going to be a lot of those people who are not going to get a job at $4.25 an hour. They are not going to get the training. We are talking about allowing them a training wage for a period of time to acquire enough skill to produce $4.25 an hour.

I urge my colleagues not to shut the door on these young people because we may not be able to open it again for them. I do not understand why people who work seasonally in agriculture should not have a training wage, whereas people who work seasonally in resorts do. That makes absolutely no sense to me. You can quote all the irrelevant statistics you want to quote but it in no way papers over the fundamental error in this bill.

So I urge my colleagues to adopt this amendment and to oppose what I believe will be a motion to table.

Mr. President, I ask unanimous consent to add Mr. COATS, Mr. NICKLES, Mr. WALLOP, and Mr. MCCLURE as cosponsors.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. GRAMM. I reserve the remainder of my time.

The PRESIDING OFFICER. Who yields time?

Mr. KENNEDY. I will be glad to yield 10 minutes to the Senator from Ohio.

The PRESIDING OFFICER. The Senator from Ohio is recognized for 10 minutes.

Mr. METZENBAUM. Mr. President, I rise with an ambivalent thought in mind; ambivalent because I do not think this is a great minimum wage bill. In fact, I think this bill may be something less than that. I thought the minimum wage bill that we sent to the President and that he vetoed was not much of a minimum wage bill; $3.85 the first year, $4.25 the second year, $4.55 the third year and a 60-day subminimum training wage. I did not think that was great in today's world. People cannot live, cannot exist on that kind of money, and the President saw fit to veto it. I thought he was wrong, terribly wrong; terribly wrong to be asking us to reduce the capital gains tax and at the same time vetoing a minimum wage bill with such paltry standards. But he vetoed it.

Then there was a hiatus when nothing really happened and, finally, an agreement was reached between the White House, the Congress and some representatives of labor. The compromise agreed to provide for a rate of $3.80, not $3.85—the agreement shaved off a nickel from the previous bill; $4.25 the second year; no specified amount the third year and a subminimum training wage of up to 180 days, not 60 days.

My ambivalence arises from the fact that I am tempted to offer a second-degree amendment to make this into a better bill, not a worse bill as is being proposed by the Senator from Texas. What bothers me about this is that I am not going to offer a second-degree amendment, and I am not going to oppose the bill. I am not going to offer a first-degree amendment after the amendment of the Senator from Texas is disposed of because I feel a sense of obligation to those who negotiated the deal.

Maybe they did not get all that I wanted. Maybe it should have been something more or less. But the fact is they worked out an arrangement.

The Secretary of Labor writes us: "Accordingly, I ask for your support of this same bill now before the Senate with no amendments attached." That

is the Secretary of Labor speaking for the President of the United States of the party from which the Senator from Texas comes. But I respect that, and I do not intend to offer any amendment.

Then the chairman of the Labor Committee in the House, the respected GUS HAWKINS, wrote a letter and said:

As such, these provisions should remain intact. We should not accept and I will oppose any modifications to these or any other provisions of the bill.

There is no secret about the fact that given his own inclinations, the chairman of the Labor Committee of the House would be anxious to get more, eliminate the subminimum wage, the training wage, but he accepts the fact that a deal was made and lives with it.

What bothers me is that members of the President's party are here in force—Senators GRAMM, MCCLURE, WALLOP, SYMMS, and I do not know who else—all saying let us amend the President's proposal. If we on this side of the aisle, came here on the floor and said let us break the agreement, let us try to go beyond it, we would be criticized. I say I think it is inappropriate. I think the Senator from Texas ought to withdraw his amendment, forgetting the merits of it, just as I am forgetting the merits and overlooking the fact that this is not much of a bill, but it is the bill that has been agreed upon.

Talking to the amendment itself, I do not know how much more you want to do to these poor people who work on farms. You have all the exceptions you can possibly think of in the current laws. That has already been referred to. But, no, we did not get the farm workers a subminimum wage. The fact is, as has already been spoken to, most of them are exempt under the Fair Labor Standards Act. This is just another mean-spirited attempt to deny poor workers a raise.

I do not believe in a subminimum training wage, and I do not think it will work, but it makes absolutely no sense as applies to seasonal farmworkers. Employers are not interested in training these workers. There is no training. Who are you kidding? By definition, they are hired for a very short period of time to pick the crops with no training or commitment to training. The latest statistics indicate that 37 percent of all farmworkers work less than 25 days per year on the farm and more than two-thirds work less than 150 days per year.

Under this amendment, teenage farmworkers could work season after season and never reach the minimum wage. It is absurd to argue that the Department of Labor will force employers to comply with training requirements. Come on, who are you kidding? No way will that occur. ABC News and their "Nightline" program recently had a program called "American Migrant Workers: Continuing the Harvest of Shame." In that program they pointed out that the Department of Labor has only 42 staffers to enforce migrant protection laws in the United States. That is not even one inspector per State.

Moreover, there has been lax enforcement even when violations are uncovered. Let me give an example. Minimum wage violations were discovered on a farm in a southern State against an employer who had previously been convicted and served time for peonage, that is tantamount to slavery, holding farmworkers in slavery. As documented on that ABC News Nightline program, according to an internal department memo, the Department of Labor did not even enforce the minimum wage law in that case.

Given the bleak enforcement picture, extending the training wage to farmworkers will mean imposing a permanent subminimum wage for their toil. These workers deserve better than that. They deserve to be treated fairly. They should receive the full 90-cent increase.

Finally, the amendment adds insult to injury. The majority of farmworkers currently are exempt, as I previously stated, from minimum wage and overtime protections. They do back-breaking work for hours in the fields, but they are not eligible for overtime pay.

To further weaken wage protections for the farmworkers who do have the benefit of the minimum wage law is grossly unfair. Supporters of this amendment argue we should treat these farmworkers like all other poor workers. Parity is not a one-way street. If the subminimum wage is to apply to farm workers, then they should receive the complete protection of the act which they do not receive now.

Let us be a little fair. If we want to apply the subminimum to farmworkers, then we should also apply the minimum wage and overtime protection to the over 1 million farmworkers who are currently exempt. If we are not prepared to do that, then we should not be hypocrites. Farmworkers deserve the full 90-cent increase without further restrictions.

I want to return to what I said originally. A deal was made at the White House, and many of us were less than enthused about it, but the deal was made. And for members of the President's party to be here on the floor now offering amendments to break that deal means it opens a Pandora's box.

If we adopt this amendment, then I would urge GUS HAWKINS, when the bill comes over to the Labor Committee of the House to change it. If they are going to make one change to weaken the protections of the bill, then we ought to make changes in the other direction. I think once you cut a deal, you ought to live with the deal. I call upon the White House to prevail upon Members on that side to withdraw the amendment and not to support it.

Mr. GRAMM. Mr. President, how much time do I have remaining?

The PRESIDING OFFICER. The Senator from Texas has 6 minutes, 50 seconds.

Mr. GRAMM. Mr. President, a fellow who held this seat before I did named Lyndon Johnson said, "I hate a deal I am not a part of."

I will not repeat that quote on my own behalf, but I am not here to represent the distinguished Secretary of Labor, though I admire her. I am not here in the Senate to represent the President of the United States, even though he is my friend and I nominated him for President of the United States at the national convention. I am here to represent the people of Texas. I offer this amendment on behalf of young people in my State who will be denied an opportunity to ever use their God-given talents because of a flaw in this bill.

I am not going to try, Mr. President, to convince our dear colleague from Ohio. Our dear colleague from Ohio is one of those people who does not believe in perestroika. Our dear colleague from Ohio really believes that we can pass laws that just completely override the laws of economics and that the only thing we need for every American to make $10 an hour or $20 an hour or $50 an hour or $100 an hour is simply a law passed by this Congress and miraculously it would happen and we would all be rich. They used to believe that in the Soviet Union and Eastern Europe and in other planned economies and it failed, but the word of that failure has not permeated the thick walls of the U.S. Capitol yet. Perhaps someday it will.

Mr. President, this amendment is an amendment for the people, 16 to 19, who in all probability have relatively little skill or they would not be seeking these jobs in the first place. They are people who are in danger of having the bottom rung of the economic ladder cut off before they can take the first step. Why we should not have a training wage for seasonal employees in agriculture when we have a training wage for seasonal employees in every other area of the economy clearly is unjustifiable, unreasonable, and to say agriculture is different because we treat it in other areas differently simply does not hold water. People will be denied an opportunity to acquire skills because we do not have this training wage.

Now, as the distinguished Senator from Ohio views the training wage as a compromise, I view it as a compro-

mise coming in the other direction. I am deeply concerned that hundreds of thousands of people will never get a job because we raised the minimum wage. The compromise that makes it possible I think to try to minimize that impact is the training wage. I offered the amendment because I want the training wage to apply to agriculture.

Mr. President, as soon as the Senator from Massachusetts has his final say, I will be ready to yield back the remainder of my time.

Mr. KENNEDY. Mr. President, these are the statistics and figures provided by the Department of Labor, that there are 1,700,000 workers in agriculture, and of the 1,700,000, only 628,000 are actually covered. The rest are exempt. No other industry in the country is treated that way, for sound reasons which we have debated earlier today.

So the fact remains that the 16-, 17-, 18-, 19-year-old person that the Senator from Texas is worried about can be hired at the training wage today if it is not seasonal or migrant work, they can be given their first job at less than that. If the farmer wants to give them training programs, they can. Give that young person a chance. We all agree with that. We are supporting that provision.

The only area that is given the full minimum wage protection is the migrant and seasonal workers. Their income is annually about $6,000–$7,000. Now, what the Senator from Texas wants to do, after we have excluded the great number of agricultural workers, is to exclude these others as well because they are being treated differently. We say if you want to treat all of agriculture the same as we treat other industries, fine. But he says no, he does not want that. He does not want the requirements in there for overtime. No way. He does not want the other kinds of protections for those workers. No way. And he is complaining about equity and about jsutice when you are talking about individuals who are really at the lowest level of the employment roster.

Quite frankly, that farmer, who sees the young; that 17-, 18-, 19-year-old, seasonal, migrant worker, and wants to pay him that training wage, can go ahead if he wants to hire him permanently. But not if he is just saying that for the seasonal worker. We know what we are talking about, Mr. President; we have had agricultural and migrant worker legislation here that has been before our committee.

I yield to the Senator in his knowledge about agriculture, but I will not yield about knowing who these people are, what their challenges are, what their needs are. We know basically what we are talking about, those individuals throughout the Southwest who follow the crops north into California, Oregon, and Washington, the ones who follow the crops through Florida, Georgia, South and North Carolina, New Jersey, and even New England. We know the challenges they are facing, By and large, they are individuals who are working because they want to work and provide for their families. I respect that. We know of horrible instances of exploitation. But make no mistake where I am coming from. I have respect for those individuals, but I do think those 17-, 18-, 19-year-old individuals who are prepared to go from Florida all the way through New England for 1, 2, 3 weeks to provide for their families and avoid being on welfare should be entitled to this minimum wage. That is the issue. I think the membership has had the opportunity to hear it.

I welcome very much the statements that have been made by Senator GRAHAM of Florida, a major agricultural State, who has been very much involved in the early debates in developing the training wage concept. I was opposed to the training wage. I think you have a subminimum now, quite frankly, even with this. But nonetheless, we have adopted the concept of the training wage in this limited area. He has been the individual we have looked to in developing the training wage proposals and working with the administration. For the reasons he has suggested, as well as the Senator from Ohio and others, I hope this amendment is rejected.

Mr. President, how much time do I have?

The PRESIDING OFFICER. The Senator from Massachusetts has 54 seconds; the Senator from Texas has 3 minutes 33 seconds.

Mr. KENNEDY. I ask unanimous consent to suggest the absence of a quorum, the time not to be charged to either side.

The PRESIDING OFFICER. Without objection, it is so ordered. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. KENNEDY. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. HELMS. Mr. President, I support the amendment offered by my friend, Senator GRAMM, which would strike the exclusion of agricultural workers from the training wage program. I find it discriminatory to single out the farmers and ranchers of this country, and to not allow them to employ workers like every other small employer in America.

We have all heard the arguments against raising the minimum wage, but I think it holds especially true on the farm. Our agricultural community is in a constant fight with foreign producers—producers who may only pay pennies a day for their farm work. By forcing our farmers to pay minimum wages without allowing for a training wage, we will slowly see an increase in all farm wages. And we all know who will end up paying for these increases—the consumers. Prices of agricultural products will increase to consumers, and U.S. commodities will suffer another blow and make them less competitive with foreign commodities.

Mr. President, another fact which should be considered in this debate is that OSHA statistics tell us farm work is the single most hazardous occupation in the United States. This alone should tell us that training is essential on the farm. The machinery involved in farming is complicated and dangerous, and the work is physically demanding. It would be unwise and unfair to both the farmer and the employee to place someone in such a work environment who is not properly trained.

Mr. President, North Carolina agriculture and the Nation's agriculture depend greatly on migrant and seasonal workers. And included in these seasonal workers are the "kids next door" who are hired in the summers when they are not in school. Since the training wage does not apply to farmworkers, the kid next door will compete with experienced seasonal workers. This will virtually eliminate the hiring of the neighbor's kids. If the Government tells a farmer he must pay a minimum wage, a farmer will most likely hire someone with experience rather than train a young person. While urban youths can work at a McDonald's or other service related jobs, rural youths usually work on the farm. For many rural youths, seasonal farmwork is the only summer job available. These rural youths—many between 16 and 20 years old—will essentially be discriminated against in obtaining summer jobs—jobs which give them money for college.

Currently, small farmers are exempt from the Fair Labor Standards Act if they hire less than 500 man-days of labor during a quarter of the calendar year. However, harvest time can use up 500 man-days very quickly and these farms will not have the opportunity to offer the kid down the street a training wage job. I am very concerned that a young person looking for summer work—to earn money to continue his education—will ask a neighbor if he can work on his small farm, but the Government will step in and say, "you are different than other employers and cannot give the training wage simply because you are a farmer." It is not fair to the farmer and it is not fair to rural youths.

Mr. President, my farmers are very concerned about this issue and confused as to why they are singled out

among the Nation's small employers, and I share their thoughts on this matter. I hope my colleagues will join me in eliminating this unfair, discriminatory provision from H.R. 2710.

Mr. KENNEDY. Mr. President, I yield back the remainder of my time.

Mr. GRAMM. Mr. President, I yield back the remainder of my time.

Mr. KENNEDY. Mr. President, I am informed by staff that the Senator from North Carolina is authorizing us to yield back his time as well.

The PRESIDING OFFICER. Without objection, it is so ordered. all time is yielded back.

Mr. KENNEDY. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. KERRY). Without objection, it is so ordered.

THE CATASTROPHIC HEALTH INSURANCE PROGRAM

Mr. MITCHELL. Mr. President, pursuant to the order entered yesterday and following discussions with the Republican leader, I now call up H.R. 3607, a bill relating to the catastrophic health insurance program, just received from the House.

The PRESIDING OFFICER. The clerk will report the bill.

The legislative clerk read as follows:

A bill (H.R. 3607) To repeal medicare provisions in the Medicare Catastrophic Coverage Act of 1988.

AMENDMENT NO. 1090

(Purpose: To provide for reform of the Medicare Catastrophic Coverage Act of 1988)

Mr. MITCHELL. Mr. President, on behalf of Senator BENTSEN, I send an amendment to the desk that is the text of S. 1726, as passed by the Senate, with certain technical amendments.

I now yield back any remaining time on the amendment and the bill under my control.

Mr. PACKWOOD. Mr. President, I yield back the time under our control.

The PRESIDING OFFICER. All time is yielded back. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from Maine [Mr. MITCHELL], for Mr. BENTSEN (for himself, Mr. PACKWOOD, Mr. MCCAIN, and Mr. DOLE), proposes an amendment numbered 1090.

Mr. MITCHELL. Mr. President, I ask unanimnous consent that further reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The text of the amendment is printed in today's RECORD under "Amendments Submitted."

The PRESIDING OFFICER. The question is on agreeing to the amendment of the Senator from Texas.

The amendment (No. 1090) was agreed to.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the amendment was agreed to.

Mr. PACKWOOD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. If there be no further amendment to be proposed, the question is on agreeing to the committee amendment in the nature of a substitute.

The committee amendment was agreed to.

The PRESIDING OFFICER. The question is on the engrossment of the committee amendment and third reading of the bill. The amendment was ordered to be engrossed, and the bill to be read a third time.

The bill was read a third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, Shall the bill pass?

So the bill (H.R. 3607), as amended, was passed.

Mr. MITCHELL. Mr. President, I move to reconsider the vote by which the bill as amended, was passed.

Mr. PACKWOOD. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. MITCHELL. Mr. President, I move that the Senate insist on its amendment; request a conference with the House; and that the Chair be authorized to appoint conferees on the part of the Senate.

The motion was agreed to; and the Presiding Officer appointed Mr. BENTSEN, Mr. MATSUNAGA, Mr. MOYNIHAN, Mr. BAUCUS, Mr. MITCHELL, Mr. RIEGLE, Mr. ROCKEFELLER, Mr. BRADLEY, Mr. PACKWOOD, Mr. DOLE, Mr. ROTH, Mr. DANFORTH, Mr. CHAFEE, Mr. HEINZ, and Mr. DURENBERGER conferees on the part of the Senate.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. DOLE. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

MINIMUM WAGE

The Senate continued with the consideration of the bill.

AMENDMENT NO. 1089

Mr. DOLE. Mr. President, I would like to say a few words about the amendment offered by my distinguished colleague from Texas [Mr. GRAMM].

I can think of no legitimate reason why our farmers should be singled out when it comes to the training wage. There is no reason why every employer in this country—except farmers—will be allowed to pay the training wage. And there is simply no credible evidence that our farmers will somehow use the training wage as a tool to abuse our Nation's agricultural employees.

In fact, the training wage contained in the minimum wage compromise package has built-in protections. It has been crafted in a way that will limit opportunities for abuse. The training wage applies only to teenagers. It can be paid only for a 3-month period. And the training wage sunsets in 1993.

So there is no potential for abuse here—a training wage will not—and cannot—be used to keep our agricultural workers "down on the farm"—so to speak.

Mr. President, a training wage will give our young people the opportunity to learn the basic skills that are so necessary to become productive members of our Nation's work force. This is true for our service industries. It is true for our manufacturing industries. And it is true for the teenager who works on the farm.

So I commend President Bush for insisting that a training wage be included in this compromise package.

But the President has also urged the passage of the compromise package without amendments. At a White House meeting earlier this morning, the President's Chief of Staff, Governor Sununu, specifically requested my help in ensuring that no amendments are added to the package.

I intend to comply with this request. And regretfully, I will have to support a motion to table the Gramm amendment—despite the amendment's underlying merits.

Mr. President, I suggest the absence of a quorum.

Mr. DOMENICI. Mr. President, I wonder if the distinguished minority leader will not have the quorum call and let the Senator from New Mexico speak for 2 minutes.

Mr. DOLE. Yes.

The PRESIDING OFFICER. The Senator from New Mexico is recognized.

Mr. DOMENICI. I thank the distinguished minority leader.

Mr. President, I join the Republican leader in support of this measure and urge that we pass it expeditiously and send it to the President for his signature.

Obviously the Senator from New Mexico is not on the committee of jurisdiction, so I was not part of putting

together the first training wage package, or the original minimum wage bill that was vetoed by the President, and which was sustained in the U.S. House of Representatives. But after that event it did come to the attention of the Senator from New Mexico that the White House, and those who were proponents of the minimum wage earlier in the year, were interested in resolving this issue and that the resolution was beginning to focus on the issue of raising the minimum wage to $4.25, which was consistent with what the President had been advocating.

At that point in time I was asked by a Senator from the Democratic side and a Senator from the Republican side to get involved to see if we could resolve the issue because the basic underlying premise of what should the minimum wage be was clearly resolved. While I did not have an intimate role in fashioning the youth training wage, that is in this bill, I support it. I think it is a fair compromise and, frankly, it does focus attention of the training wage on that part of the American population which is most in need of the training wage in order to get into mainstream America, hold a job and get ahead in private sector employment in this Nation.

So I believe we have a fair compromise here. The President is to be commended for it and those who worked on it are to be lauded for getting it done in a manner that is consistent with our President's ideas and ideals, and having included some youth training wage component in it, that everyone sees as workable.

Some of us who were interested in the training wage were concerned about previous efforts because some Americans could remain on it forever since there was no cumulative limit to the time one could be on the training wage. I see the chairman here, and I think we started talking about that issue early on. A 6-month training wage that could be renewed at each new job could go on almost indefinitely. We have solved that problem here, and while it might be slightly difficult to manage this for some employees in the United States, I think it is a fair compromise. I join the minority leader in urging that we pass it without any amendments. It will be signed quickly and we will have a new minimum wage law that is a credit to everyone.

This bill would raise the minimum wage from its current level of $3.35 an hour to $3.80 on April 1, 1990, and to $4.25 an hour on April 1, 1991.

I support increasing the minumum wage as this bill would.

It has been 8 years since the minimum was last raised, and this compromise will enable us to give our poorest paid workers a needed boost, and take an important step toward helping move low-paid workers out of poverty.

This new wage law could help upwards of 100,000 workers in my State, involving maybe 10–15 percent of New Mexico's work force.

The very important part of this compromise I mentioned are provisions providing for a training wage for teenagers. Those aged 16–19 could be paid 85 percent of the minimum for their first 3 months in the workforce.

Teenage workers could also get an additional 3 months on the training wage for necessary, job-specific training.

Let me point out, however, that workers could not be kept at the minimum forever—6 months total is the most that anyone can be kept at the training wage.

It is very important to include these training wage provisions.

The training wage will keep job opportunities open for our most vulnerable workers—the young and unskilled workers just trying to enter the workforce.

This is very important in my home State where nearly half of our lower wage earners are 21 years old or younger.

I have worked hard in recent months to help bring about a compromise on this legislation, and I am glad I was able to contribute in some way to bringing this together.

But, Madam President, let me point out that while this bill will take an important step to help the working poor in this country, it is limited and we must keep in mind the broader picture of how we can help the working poor.

We should not overlook our Nation's best way to help the working people of America—a strong and growing economy that keeps opening job opportunities, and gives all our workers the chance to improve their skills, their work experience, and their earnings.

As we look at all the other mandates this Congress is considering placing on employers—from mandated health and parental leave benefits to the regulatory hassles of section 89—we must keep in mind the cumulative effect these will have on American business' ability to respond to economic demands and continue the growth.

I yield the floor.

The PRESIDING OFFICER. The Senator from Massachusetts.

Mr. KENNEDY. Mr. President, I appreciate the support of the Senator from New Mexico but most of all, I think working men and women across this country should appreciate his indispensable efforts in bringing us to the point now where the Senate will pass this increase in the minimum wage.

At the time that we announced the accord with the White House, I mentioned the work of the Senator from New Mexico, Senator DOMENICI, who worked with those of us who had supported a higher minimum wage and preferred to have no training wage at all.

Over a long period of many weeks, Senator DOMENICI counseled with us, worked very closely with the White House and was an indispensable figure in moving this process forward. I stated that at the opening of this debate on minimum wage a few days ago. I stated that at the time we made the announcement and joined with the majority leader, I welcome the opportunity to state it again in the final moments of this debate and discussion. I very much appreciate the Senator's efforts and the efforts of others, and I am very hopeful we will move very shortly to final passage.

I again thank the majority leader for his perseverance in ensuring that we were going to see this issue through a favorable conclusion. We have talked at other times about what this minimum wage bill did do and what it did not do. That discussion is already passed. But quite frankly we would not be here at this time facing the real prospect of an improvement in the wages for some 10 million working men and women and their children who will be affected by this legislation, in terms of an improvement in their quality of life. I think it is an issue which has been around for a long time but it is always a difficult area for one reason or another to make progress.

We had an improved attitude by this President on this issue and we have had very strong continuing and persevering leadership by the majority leader. I am grateful to him and to our committee members who worked very closely with us to bring us to the point where we will be able to see this much needed increase.

The PRESIDING OFFICER. The Senator from Maine, the majority leader.

Mr. MITCHELL. Mr. President, for the information of Senators, I am about to propound a unanimous-consent request that the vote scheduled for 4 o'clock commence at approximately 3:50. So the first in a series of votes will begin momentarily and Senators should be aware of that and staff and offices who are watching should contact their Senators to alert them to that fact, as we are attempting to accommodate the schedule of as many Senators as possible.

Mr. President, I commend Senator KENNEDY, the chairman of the committee, for the leadership he has demonstrated in this area and his persistence and perseverance to bring us to this point. He has worked long and hard and all working persons in our Nation, those who work at the minimum wage, owe him a great debt of gratitude.

I think he also has been the first to acknowledge this is the product of the

efforts of many other people to bring us to this stage not least of which is the Senator from New Mexico, Senator DOMENICI, who at a critical stage in this process stepped in and took the initiative and brought about the compromise that is before us today and I hope will be enacted by an overwhelming margin.

Finally, Mr. President, I think we all owe a debt of gratitude to the President of the United States who was willing to stand up and support a minimum wage increase, thereby reversing the policy of the prior administration which had consistently opposed such an increase.

It is true that we disagreed and still do disagree with the President over the amount by which the increase should be and the time in which the increase should occur.

Both sides have compromised now. The President has accepted an increase in a shorter time period than he wished and a training wage different from that which he proposed. On our side, we have accepted an increase that is to a lesser amount than we would have preferred, and we have accepted some training wage, although we would have preferred none. So it is in every respect a true compromise.

I commend all of those who, although we are all disappointed in some aspect of it, are prepared to reach this agreement to go forward.

Mr. THURMOND. Mr. President, I am pleased to cosponsor this amendment with the Senator of Texas. It will put farmers who hire seasonal and migrant workers on an equal basis with other industries.

Farmers are concerned that they have been singled out by not being allowed to pay a training wage to migrant and seasonal agriculture workers. Other businesses are allowed to pay employees who have not accumulated 3 months employment and are under 20 years of age this training wage. This is unfair treatment to the agricultural sector. Further, it can also cause hardships on young people seeking first-time employment in the agriculture industry.

In South Carolina migrant and seasonal workers are used in the planting and harvesting of labor intensive crops. Anyone who has ever worked on a farm, as I have done, knows that you cannot just show up for a job on a farm and know what you are doing.

Furthermore, agriculture equipment is very expensive. It is not uncommon for a tractor and disc harrow to cost more than $100,000. With agricultural equipment being this expensive, farmers need to be able to properly train these individuals at a training wage before putting them on this equipment.

The agricultural sector has suffered many hardships over the last several years. Farmers have suffered through droughts, floods, earthquakes, hurricanes, and general difficult economic times. By not allowing this industry to pay a training wage the farmers will suffer another financial hardship.

Mr. President, I urge my colleagues to treat farmers fair in this issue and urge passage of this amendment.

Mr. President, I move to table the Gramm amendment, and I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. MITCHELL. Mr. President, I ask that the previous unanimous-consent request be modified only as to the time of the first vote and that the first vote occur immediately.

The PRESIDING OFFICER. Is there objection? Hearing none, it is so ordered.

VOTE ON MOTION TO TABLE AMENDMENT NO. 1087

The PRESIDING OFFICER. The underlying amendment, the Symms amendment, is now the pending business before the Senate. The question is on agreeing to the motion of the Senate from Maine [Mr. MITCHELL] to table the amendment of the Senator from Idaho [Mr. SYMMS]. The yeas and nays have been ordered and the clerk will call the roll.

The legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Montana [Mr. BAUCUS] and the Senator from Hawaii [Mr. MATSUNAGA], are necessarily absent.

The PRESIDING OFFICER (Ms. MIKULSKI). Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 64, nays 34, as follows:

[Rollcall Vote No. 290 Leg.]

YEAS—64

Adams	Ford	Metzenbaum
Bentsen	Fowler	Mikulski
Biden	Glenn	Mitchell
Bingaman	Gore	Moynihan
Boren	Graham	Nunn
Bradley	Harkin	Packwood
Breaux	Hatfield	Pell

Pressler	Symms	Wilson
Simpson	Thurmond	
Specter	Wallop	

NOT VOTING—2

Baucus Matsunaga

So, the motion to lay on the table amendment No. 1087 was agreed to.

The PRESIDING OFFICER. Under the previous order, we will now move to the motion to table the Gramm amendment No. 1089. The question is on agreeing to the motion.

Mr. FORD. Madam President, I make a point of order that the Senate is not in order.

The PRESIDING OFFICER. The Senator from Kentucky makes a point of order that is correct. The Senate is not in order. Will Senators either take their seats or withhold their conversations?

The clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Montana [Mr. BAUCUS] and the Senator from Hawaii [Mr. MATSUNAGA] are necessarily absent.

The PRESIDING OFFICER. Are there any other Senators in the Chamber desiring to vote?

The result was announced—yeas 63, nays 35, as follows:

[Rollcall Vote No. 291 Leg.]

YEAS—63

Adams	Durenberger	Lugar
Biden	Exon	Metzenbaum
Bingaman	Ford	Mikulski
Bradley	Fowler	Mitchell

NOT VOTING—2

Baucus Matsunaga

So the motion to lay on the table amendment No. 1089 was agreed to.

Mr. KENNEDY. Madam President, I move to reconsider the vote by which the motion to table was agreed to.

Mr. PELL. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. If there are no further amendments to be offered, the bill will be read the third time.

The bill was read the third time.

Mr. DOLE. Madam President, I would like to bring to the attention of my colleagues and the floor managers of H.R. 2710 the ramifications that a minimum wage increase will have on the Medicaid Program. Almost one-half of Medicaid dollars are spent on long-term care, mostly for the elderly, and an increase in the minimum wage will affect all health care providers.

Nursing homes, in particular, employ a large number of minimum wage workers, most of whom are nurse aides who provide direct, hands-on care to nursing home patients. These salaries are the largest component of Medicaid reimbursement—in fact, labor costs account for about 72 percent of all nursing home costs. Should the Congress agree to any mandated increase in the minimum wage, a corresponding modification in Medicaid rates should be considered by the States to account for those increased labor costs.

Mr. MITCHELL. As a member and former chairman of the Senate Finance Committee on Health, I share the Senator's concern about the impact on the nursing home industry. Rates for reimbursement for nursing home care are set by the States and the Federal Government. Each individual State determines its own Medicaid payment policies, with limited supervision from the Department of Health and Human Services and its Health Care Financing Administration [HCFA]. Any increase in the Federal minimum wage may affect the nursing home industry in different ways, depending on the State involved. Therefore, it is important that the added costs of the minimum wage increase be taken into account by States when determining an appropriate Medicaid reimbursement rate for nursing homes.

Mr. HATCH. I believe that increasing the minimum wage will impact many Federal health programs, including Medicare and Medicaid. In fact, the Senate Labor and Human Resources Committee recognized in its committee report on S. 4, the previous minimum wage measure, that a minimum wage increase will have an impact on Medicaid costs and rates paid to long-term care providers. The committee report clarifies that under title XIX, States are required to provide assurances to the Secretary of Health and Human Services that their rates are reasonable and adequate. Section 1902(a)(13) of the Social Security Act requires that States take into account the costs that nursing homes must incur to provide care and services in conformity with all applicable State and Federal laws. Although the Fair Labor Standards Act is not referred to specifically in that provision, the committee wishes to emphasize that the wage levels required by the Fair Labor Standards Act are among the provisions of Federal law which must be taken into account by the States in setting their Medicaid rates.

Mr. DOLE. The nursing home industry is on record as supporting an increase in the minimum wage, but they have requested that we recognize the special cost burden imposed by any such increase in this industry, where reimbursable costs are extensively regulated. Major nursing home reform was passed by Congress in 1987 as a part of the Omnibus Budget Reconciliation Act [OBRA], Public Law 100-203. This act required significant changes in staffing and training requirements, quality of care, patient services, and enforcement of new nursing home standards, at an estimated cost of $1.73 billion over 5 years. Because Congress was concerned about the ability of the nursing home industry to absorb costs of this magnitude, special language was included to ensure that the Medicaid reimbursement system adequately accommodated the OBRA 1987 costs increases.

Mr. MITCHELL. The special language adopted in OBRA served to emphasize continuing congressional concern with adequate nursing home reimbursement. As my colleague from Utah notes, the payment standard that States must provide for an appropriate adjustment in Medicaid nursing home rates to take into account the new costs that will result from this legislation is already contained in section 1902(a)(13). These cost increases are costs which will be incurred by facilities in the provision of care and services to Medicaid beneficiaries. Therefore, it is important that any increase in the minimum wage be taken into account by States when determining an appropriate Medicaid reimbursement rate.

Mr. DODD. Madam President, after months of deliberation, the Congress and the administration have finally reached an agreement on a minimum wage increase. While I support the compromise, I am disappointed that the increase will only go to $4.25 an hour by April 1991.

While the administration and Congress have acted relatively speedily, it is important to remember that the last increase in the minimum wage was 9 long years ago. During this time, the Congress has regularly supported increases in Social Security payments, and cost-of-living increases for veterans and Federal employees.

In the meantime, hardworking Americans have struggled to stretch their unchanging minimum wage dollars to afford basic necessities—housing, food and clothing. As the years have passed without an increase, the number of homeless families with young children has increased and the number of families with at least one full-time working parent living in poverty has increased. These circumstances are not coincidental.

The American dream is to have job opportunities and to be self-sufficient. However, by keeping the wage at $3.35 an hour for 9 years, we have prevented millions of Americans from reaching this dream. Today, that wage is worth only $2.40 in 1981 dollars. We want Americans to work, yet the current minimum wage does not even get a person with one or more dependents to the poverty line. Thus, in 1987, close to 5 million Americans who worked full-time lived in poverty. This is an unacceptable situation.

While I am pleased that we are finally raising the minimum wage, we must remember that this change is not even enough to keep pace with the inflation of the past 9 years. That would require a wage of $4.65 an hour immediately. Madam President, each and every American working full-time deserves a livable wage. For this reason, I will support the compromise, but I want hardworking citizens to know that they deserve more and they deserve a commitment from us that we will never again wait so long to increase the minimum wage.

With respect to the training wage, I am pleased that it will apply only to 16- to 19-year-olds and will be limited to 3 months, unless the employer can guarantee the Secretary of Labor that actual training is taking place for 6 months. I can understand that training is needed for youths entering the work force for the first time. It is also important that teenagers are not priced out of the job market due to a long needed wage increase. Therefore, I believe that such a narrow exception is an acceptable compromise.

Madam President, despite my frustration that it has taken so long for us to give hardworking Americans an increase in the minimum wage, I would like to congratulate my colleague Senator KENNEDY for his determination and perseverence on this matter. Senator KENNEDY deserves much of the credit for bringing the administration to the table and breaking the deadlock. Without his efforts, it unquestionably would have taken us even longer to reach this point.

I urge my colleagues to support the wage increase for all of our constituents.

Mr. JEFFORDS. Madam President, the bill before us represents a good compromise. I am just sorry that the route we took to get here was more meander than beeline.

The adjustments in the wage rate are long overdue. Without question, they will help the millions of mini-

mum wage workers. At the same time, I think they are sufficiently modest so as to not cause substantial disruptions in our economy, including job losses.

The training wage provisions are likewise reasonable. I have long thought that a hybrid training wage—with formal training following an initial tryout period—made the most practical and political sense. With the training wage in place, I hope the next few years will give us an opportunity to validate or debunk our varying views on this issue.

This bill makes additional changes which I think are positive. Section 3 will update and hopefully simplify the enterprise coverage test for most small businesses. Section 7 will provide employers with a modest incentive to provide their employees with remedial education in basic skills.

I think we have a reasonable agreement to move forward to finally apply the principles of the Fair Labor Standards Act to Senate employees.

But despite the positive features of this bill, it is deficient in one major respect.

According to its critics, this bill fails on several counts. The wage rate does not keep pace with inflation or poverty levels, for example. While this is true, it may be expecting too much of the minimum wage and the economy to harbor such expectations.

As I have argued in the past on this issue, the minimum wage is a poorly targeted mechanism for attacking poverty. While many of the poor earn the minimum wage, a minority of minimum wage earners are poor.

By contrast, the earned income tax credit, or EITC, is exactly targeted to the people who need the most help. Over a year ago, Representative PETRI and I and others suggested that we set the minimum wage at $4.25 in 1991 with a family adjusted EITC. At the time, I think some people may have dismissed this as Republican mischief. It was not, and perhaps now it is worth a second look.

I know there are costs to reforming the EITC, and those costs cannot be ignored. But I think we must address those costs and move forward. While there may not be an opportunity in this session, I certainly think it should be a high priority for the coming year.

Madam President, I urge adoption of H.R. 2710.

Madam President, during its consideration of amendments to the Fair Labor Standards Act this past spring, the Senate adopted a provision, contained in section 108 of the Senate amendment to H.R. 2, that would start in motion the process of applying the protections of the Fair Labor Standards Act to employees of the Senate.

Out of deference to the Senate, the House in its adoption of H.R. 2710 did not include this provision. So as to expedite the business of the Senate, I will not offer the text of section 108 again.

I will not do so because I understand that the agreement embodied in section 108 remains in force, that is, that the Rules Committee will act within 180 days of an increase in the minimum wage to report to the Senate a measure to effect this extension.

I would ask of the distinguished chairman of the Rules Committee, who was instrumental in crafting this provision this past spring, if this is indeed his understanding as well?

Mr. FORD. I assure the junior Senator from Vermont, as I did when H.R. 2 was being considered by the Senate, that the Committee on Rules and Administration would consider this issue within 180 days after the bill becomes effective.

As I did previously, let me state that there will be a serious precedent if we establish executive branch enforcement of legislative branch agencies.

While I support the principles embodied in the Fair Labor Standards Act, I also support the principle of separation of powers. Thus, if the legislative branch is to adopt fair labor standards for its employers, it should also adopt its own enforcement mechanism.

With those comments, I assure my colleague from Vermont that I will place this issue on the Committee Calendar for consideration within the 180 days. I am reluctant to promise that the committee will report because the members of this committee are rather strong-willed. The ranking member and I can urge them, but can't vote for them.

As the first step, I suggest that my colleague submit his recommendation in the form of a Senate resolution. That resolution will then be referred to the Committee on Rules and Administration for consideration.

Mr. JEFFORDS. I thank the distinguished Senator for his comments but hope he has been overly modest in assessing his powers of persuasion. I agree that we must establish a separate enforcement mechanism and would be happy to introduce my recommendation in the form of a Senate resolution for the consideration of the Rules Committee.

A SENSIBLE MINIMUM WAGE COMPROMISE

Mr. COATS. Madam President, for some time I have supported a sensible, compassionate increase in the minimum wage. To me, that means raising the minimum wage to a level consistent with helping those working Americans and their families whose sole source of income is the minimum wage, while at the same time providing a meaningful boost for those unskilled, youthful, minority, and entry-level workers in the form of a training wage to offset any negative economic impact of a minimum wage increase.

That was my criterion at the time the Senator first considered raising the minimum wage earlier this year. At that time I stated that I believed an increase in the minimum wage was justified to help the working poor and their families who are dependent on entry-level jobs. The minimum wage was last raised in January 1981, and since then has lost about 20 percent of its value due to inflation. Today a person who works full time at the minimum wage of $3.35 earns roughly $7,000 a year—hardly enough to keep a family of three above the poverty line in Indiana. So for those 3.9 million Americans in the work force of 116 million who earn the minimum wage—especially those estimated 326,000 households relying on the minimum wage as their sole source of income and living in poverty—an increase will come as welcome news.

That is why I am pleased to support the compromise that has been reached between the administration and the congressional leadership on raising the minimum wage. The bipartisan substitute which passed the House and is now before the Senate would increase the minimum wage from its present level of $3.35 an hour to $4.25 an hour over a 2½-year period in two increments of 45 cents each—it would rise to $3.80 on April 1, 1990, and finally to $4.25 an hour effective April 1, 1991. This is the same level that the President had originally committed himself to support and which the Democratic-led House and Senate had rejected earlier.

Most significantly, the compromise package would institute a youth training wage—the very issue that the Democrats had so strongly objected to in the President's proposal. This training wage, equal to 85 percent of the minimum wage, would apply to teenage workers during their first 3 months of employment. Then if after 90 days the employee still requires additional training for a specific job the employer can continue to pay him or her the training wage for an additional 3 months, provided the employee participates in an on-the-job training program approved by the Labor Department. The employer must institute a training plan for that job pursuant to Department of Labor criteria, post notice of the jobs covered by the plan and so notify DOL, and provide the employee with a copy of the plan.

I am pleased that the compromise retains the amendment which I offered in committee raising the tip credit to 50 percent by April 1, 1991, as well as an increase in the small business exemption from $362,000 to $500,000. The top credit adjustment will provide assistance to the 600,000 small businesses and their over 8 million employees who constitute the food service industry, America's larg-

est retail employer. Also the package does not include the Minimum Wage Review Board provided in the original House-passed bill, which was a political device for providing automatic inflationary pay raises without congressional approval.

I am gratified that, after many months of partisan bickering, the Congress has been able to settle on a reasonable wage package endorsed by the administration which will provide relief for those working heads of households with children who are dependent on the minimum wage, while avoiding the inflationary and disemployment side effects that would have resulted from the $4.55 an hour minimum wage originally sought by the Democrats.

The White House has remained constant and firm in its position on the minimum wage. President Bush originally promised to raise the minimum wage to $4.25 an hour provided it was coupled with a meaningful training wage for all newly hired workers. He vetoed the higher minimum wage increase passed by the Congress as inflationary, as he had promised, and the Congress wisely sustained that veto. The President has delivered on his commitment to the American worker.

One of the concerns I expressed earlier during consideration of the Democratic proposal was that an excessive boost in the minimum wage could lead to a loss of thousands of jobs and job opportunities for many Americans, especially teenage, minority, and unskilled workers—the truly disadvantaged members of our society that an increase is supposed to help. I believe that this compromise satisfies my concerns, principally due to the youth training wage.

The youth training wage will offer a meaningful incentive for employers and workers alike. This 85-percent subminimum wage will mitigate the effects of a minimum wage increase. It will enable young and inexperienced workers to find work and receive valuable planned on-the-job training and good work experience for at least 3 months and, if necessary, up to 6 months. Employers are understandably reluctant to hire individuals lacking in training or experience, especially when wages rise rapidly. New hires can be justified only if they are more productive. With this training wage, employers will be more receptive to giving young, inexperienced workers a chance. In other words, it provides an incentive to employers to offer entry-level employment to those most in need—the unskilled, teenage, and minority workers.

This training wage is a Godsend, in my opinion. It offers disadvantaged youths hope that they can find a job and stay off welfare and off the streets. Through gainful employment, work experience, and job training, they will learn the demands of the workplace and the skills required by employers, acquire good working habits, and earn needed income for self-support, school expenses, and other family needs. They can soon gain pride in themselves and their work. They become useful, productive, better skilled, contributing, and more marketable members of society. In time, they will prepare themselves for the changing, challenging jobs of tomorrow's workplace.

For employers, this training wage will give them an opportunity to train new workers for their jobs and evaluate their performance. At the end of 3 or possibly 6 months, employers will have better trained young workers who are more committed to their jobs and their employers and do not need extensive retraining.

Our society and our economy will gain from the training wage, in the long run. America is rapidly facing a shortage of qualified workers, and the jobs of the future will have to be filled increasingly by youths, women, and minorities, many of whom are untrained and unskilled. By providing a meaningful training wage and a first job opportunity for teenagers today, we are taking an important step toward ending the skills gap and worker shortage facing us.

Moreover, teenage unemployment has been unacceptably high; among black youths, it is even worse. In Indiana last year teenage joblessness averaged almost 19 percent. The training wage will not give these young people the education and qualifications they need for permanent employment, but it will save thousands of entry-level jobs and part-time positions for young workers. According to Labor Department estimates, this training wage may save close to 170,000 jobs overall.

As I have stated before, if we are really serious about helping the working poor, we should consider enacting the earned income tax credit adjusted to family size. We must also do more to improve education and vocational training so that we can eliminate the skills gap that keeps many low-income workers poor. At the same time we must keep our economy strong and vibrant. A healthy, expanding economy will provide the employment opportunities that young, minority, and disadvantaged Americans need most of all. That is the surest way out of poverty. Now that the minimum wage issue is settled, let's get on to the more important business of keeping the American economy strong.

Mr. KERRY. Madam President, I am pleased to support this compromise which will institute a long-overdue increase in the Federal minimum wage.

I also want to congratulate and applaud the senior Senator from Massachusetts and chairman of the Labor and Human Resources Committee, Senator KENNEDY, for his tireless crusade to raise the minimum wage. Once again, Senator KENNEDY has demonstrated that he is today, as he has been for decades, the leading and most effective advocate for economic justice in this Nation. Despite the odds, Senator KENNEDY never let up, never took the pressure off this administration to take an action that was so clearly just and fair.

I am sorry that it has taken this administration so long to realize how vitally important this increase is to the millions who earn the minimum wage and who depend on that wage for food, clothing, and shelter.

Madam President, the Federal minimum wage has not increased since 1981; it has not increased at all while consumer prices have increased 40 percent. If the minimum wage had been increased to maintain its 1981 value, it would now be $4.68 an hour, not the $3.35 an hour it is today.

So I am pleased that Members of Congress and the administration have seen fit to set-aside their differences and act to increase the minimum wage to $4.25 an hour effective in 1991. We can take comfort in the fact that today we are setting policy that will make a significant and welcome difference in the lives of those at the lowest end of the wage scale. In an age where million-dollar salaries are increasingly common and the most successful entertainers and financiers can make over $100 million a year, it behooves us to consider the situation of those who depend on $3.35 an hour to support a family. Such a situation is unacceptable, Madam President, because it is fundamentally un-American that someone should work hard and still be impoverished.

It is also unacceptable that the Federal Government has taken nearly a decade to accomplish this action which is so vitally important to so many. While Members of Congress have hemmed and hawed over the merits of a minimum wage increase, and while this and the previous administration have consistently opposed such an increase, millions of Americans who earn this wage have, in real terms, become poorer.

Most workers and retirees, including Social Security recipients, enjoy an annual adjustment of their earnings and benefits through annual cost-of-living-adjustments [COLA's]. But minimum wage earners, those workers at the lowest end of the wage scale, have not had their earnings adjusted 1 penny for inflation since 1981. In fact, inflation has given them a real wage cut of about 40 percent. This is completely unacceptable.

A full-time worker earning the Federal minimum wage today stands to earn $6,968 in a year, just about $1,000

above the poverty level for a single wage earner and over $5,000 below the poverty level for a family of four. Between 1959, when statistics on poverty were first collected, and 1981, the minimum wage was a living wage. That is to say, that, in those years, a full-time worker earning the minimum wage earned, on average, just over the poverty threshold for a three-person household.

Given the rhetoric that has clouded this issue, it is important to remind ourselves who it is among us who are earning wages at or below the Federal minimum. In 1986, nearly two-thirds of those workers were women, and over 70 percent were over 20 years of age. Currently, 10 million female heads of households earn the minimum wage. How can we expect these women to feed, shelter, and educate themselves and their children on $3.35 an hour? It is my sincere hope that today's action will give these hard-working mothers, and their families, better lives and hope for the future.

The growing gap between the rich and the poor, and the shocking increase in the number of those who hold jobs and yet cannot afford housing, represents a national crisis. An increase in the Federal minimum wage alone is certainly not going to eradicate this crisis but it is an important step in the right direction and one that has been unconscionably delayed for much too long.

Madam President, the eighties are a decade in which multimillionaires can throw million-dollar parties and ex-Presidents can earn $1 million a speech. Well the eighties are about over and it's time to focus much more on those in America that have been left behind.

Madam President, I would like to take a moment to comment on another issue. I regret that what had been section 10 of this bill before us was deleted on the floor of the House. Section 10 was a provision added in the Senate by Senators DURENBERGER, KENNEDY, and myself. This provision simply provided that highly paid computer specialists be considered by the Department of Labor as "professionals" for purposes of considering their coverage under the overtime provisions of the Fair Labor Standards Act.

Madam President, this provision hurt no one. It increased the employment opportunities for sophisticated computer specialists. And, it made the flexible use of such personnel by U.S. business more feasible. Frankly, I saw it as a small step to improve the flexibility of U.S. businesses while improving employment prospects.

Unfortunately, 11th hour confusion and questions about this amendment resulted in its being stripped from the House bill. And, the need to move this legislation directly to the President for his signature prevents us from adding this provision and sending it to conference, even though I believe any misunderstandings have now been cleared up.

Therefore, I can only repeat the remarks made by the senior Senator from Massachusetts yesterday. I urge the Secretary of Labor to immediately review and modify the current treatment of computer specialists under the FLSA to bring them into the 20th century and into consistency with what is clearly the view of the Congress. I also agree with Senator KENNEDY that, should the Department of Labor not act expeditiously, we should attach this provision to the first appropriate legislative vehicle for this purpose.

MINIMUM WAGE INCREASE COMPROMISE LEGISLATION

Mr. MITCHELL. Madam President, I urge the Senate's adoption of this legislation containing the compromise on the Federal minimum wage increase, negotiated with the White House.

This legislation is long overdue. Legislation to increase the minimum wage was blocked in 1988, and then vetoed by the President earlier this year.

Today's legislation represents a compromise between the President and the majority in Congress who have supported an increase in the Federal minimum wage. But it also represents a victory—for the working men and women of America at the bottom of the economic scale.

The compromise provides for an increase of the Federal minimum wage to $4.25 over 2 years, effective April 1, 1990 and 1991. That is an acceleration of the increase over 3 years earlier proposed by the President. However, the increase is less than the $4.55 level earlier passed by Congress.

The compromise also provides for a 90-day training wage for teenagers. That is substantially less than the unlimited 6-month training wage proposed by the President. Because it is limited to teenagers, it is also narrower than the 60-day training wage passed by Congress.

The compromise training wage is for teenagers only. It does not apply to the 65 percent of all minimum wage workers who are age 20 or older.

The compromise training wage is for 90 days. There is also the opportunity to apply the training wage for an additional 90 days, if a subsequent employer provides a formal training program certified by the Department of Labor. This is an important safeguard.

The training wage provision also will expire after 3 years. It is experimental in nature. The compromise rejects any unreasonable, prolonged, or indefinite subminimum wage structure.

Increasing the minimum wage is a top priority for this Congress. The compromise does not increase the wage as high as some might have hoped, but it is an improvement. It is a step forward that will clearly benefit those Americans who struggle on the margin of our national prosperity.

The last increase in the Federal minimum wage occurred in 1981—8 years ago, according to a schedule of increases enacted in 1977. Twelve years have passed since that legislation.

Whatever economic recovery has been achieved since 1981, the American people have expected that sacrifices made in the national interest must be fairly shared. And after sacrifice, when economic gains are achieved, they too must be fairly shared.

Since 1981, the Nation's average hourly wage has risen 35.9 percent—and the cost of living has increased 39.8 percent. In contrast, the current minimum wage of $3.35 an hour represents the lowest percentage of average hourly earnings since 1949—equal to only 34.4 percent of the national average.

The purchasing power of the Federal minimum wage is at its lowest level since 1955. An increase is urgently needed. The compromise legislation does not increase the minimum wage as much as many of us had hoped—but it does provide an increase that will benefit millions of Americans.

In the State of Maine, the State minimum wage already is higher than the Federal minimum wage. Yet Maine minimum wage earners still have experienced a 17-percent decline in purchasing power since 1981. Since 1986, Maine has debated not whether to increase the minimum wage, but whether the State could do so unilaterally—and thereby risk being put at a competitive disadvantage to other States in attracting new business and investment.

In 1988, Gov. John McKernan of Maine wrote the Maine congressional delegation and asked for an increase in the Federal minimum wage. "The current national rate of $3.35, which was established in 1981, has clearly not kept pace with inflation and general cost of living increases," the Governor wrote. "Thus, it is extremely difficult for an individual to take care of his or her family while earning minimum wage."

In Maine, as well as the rest of the Nation, sentiment is strong that the Federal minimum wage needs to be increased. In 1988, a Gallup Poll revealed that 76 percent of the American people favored increasing the Federal minimum wage to $5.05—well beyond the level that either the administration or Congress has proposed.

Opponents of the compromise legislation raise arguments of potential job loss and inflation. The same arguments have been raised in opposition to every increase in the Federal minimum wage that has been proposed

since 1949. They already have been rejected by a majority in Congress, in passing the earlier legislation vetoed by the President.

But even after vetoing earlier legislation, the President himself has rejected arguments in opposition—and supports the compromise. The President supports increasing the minimum wage. He has compromised with a clear majority in Congress, and together, on a bipartisan basis, we are seeking now to pass legislation that will benefit those Americans who are most vulnerable; who toil at the margin of our national prosperity.

The legislation is reasonable.

It is moderate.

It is urgently needed.

I urge its adoption.

Mr. DURENBERGER. Madam President I rise today to voice my overall support for the minimum wage bill. We rarely pass out a bill that I think is flawless, and unfortunately, while this bill is an improvement over current law, it is definitely flawed.

After 8 years with no change in the minimum wage, I believe that it is clearly time for Congress to raise that wage for the millions of working poor in America. Every person who works hard deserves a livable wage. Today we take a step forward in returning the national minimum wage to a level that is livable. I continue to support higher minimum wage levels and hope that, in the future, Congress will be more responsive in adjusting the wage to meet the evolving needs of our lowest paid workers.

I have deep concerns with the concept of the "training wage" for workers under 20. I have opposed the subminimum wage since I first came to the Senate. The subminimum wage is a flawed concept, and will hurt many students who are trying to save money for college and those launching a young marriage. Why should a 19-year-old get paid only 85 percent of a 20-year-old's salary for doing the same job? The U.S. Government should not be in the business of promoting age discrimination.

In the future, we must look beyond direct compensation of minimum wage workers and look at the total compensation package for these employees. Health insurance rates are rising at a rate that is quickly making health insurance a luxury that low-waged workers simply cannot afford. We need to consider ways to encourage employers to broaden their package of benefits to low-wage employees.

Today we take a step in the right direction toward bettering the living conditions of America's low-wage workers. I commend the leadership's work in breaking the longstanding impasse on this issue. I hope that we can continue to cooperate on other issues so we may quickly dispose of budget reconciliation and the debt limit. The time has come to stop playing politics with these crucial issues, and start making responsible public policy.

Mr. HUMPHREY. Madam President, if the leaders are prepared we can now have a colloquy that we postponed so that other Members could make a commitment in Philadelphia.

Madam President, earlier in the day I announced my intention to offer an amendment to the minimum wage bill which amendment would require that pay raises for Members of Congress be secured only by rollcall vote in each body.

Madam President, this is the selfsame amendment which was adopted by the Senate back in February by a vote of 95 to 5. Unfortunately at that time the House chose not to act on it and the proposal never became law.

The purpose of the amendment is, as I have said, very simply to require a rollcall vote in each House on the measure to raise the salary of Members of Congress.

Madam President, having discussed the matter with the majority leader and the Republican leader, I am inclined that I need to amend this. Since things changes since I wrote this. I chose not to offer the amendment based on certain assurance on part of the leadership.

The leadership have expressed commitment to supporting that amendment when offered to the pay raise ethics bill which is expected from the House in the near future and furthermore on their commitment to secure a rollcall vote on that amendment when I offer it to that bill.

Madam President, I have agreed to modify the amendment to make a distinction between pay raises and COLA adjustments. Thus, the modified amendment would not apply to annual cost-of-living adjustments, consistent with those provided to other Government employees.

Regarding the pay raise bill expected shortly from the House, I have been assured by the leadership that the leaders in both Houses on both sides anticipate that the House bill will not contain any provisions extraneous to matters of the COLA's, honoraria, gifts, travel expenses, financial disclosure, and things of that narrow nature.

It is, further, their expectation that the House bill will be approved or disapproved by a rollcall vote in the House and that the Senate version if it is different; the Senate version in any event will be approved or be disapproved by rollcall vote in the Senate.

I will ask at this point if I have accurately stated the assurances and the understanding.

The PRESIDING OFFICER. The distinguished majority leader.

Mr. MITCHELL. Madam President, in our earlier discussion I stated to the distinguished Senator from New Hampshire and I repeat now that I support the view that any congressional pay raise over and above the governmentwide cost-of-living adjustment that is annually provided to all Government employees be permitted to take effect only if there has been an affirmative rollcall vote in both Houses of Congress.

If it is merely a cost-of-living adjustment I do not support that requirement. If however it increases compensation in any amount over and above that, I will.

The PRESIDING OFFICER. Would the majority leader withhold? There are too many conversations going on. It is difficult to hear the leader as he discusses the rollcall vote on pay raises. If Senators will cooperate, I think all are quite keenly interested in this as are all people.

Mr. MITCHELL. Indeed, Madam President, I stated to the Senator from New Hampshire that my position goes beyond that which he has requested. I believe that not only should such an increase in compensation over and above a cost-of-living adjustment require affirmative rollcall vote in both Houses but I also believe that any such increase approved in that manner should not take effect until after an election intervenes and the commencement of a new Congress. He did not request that.

The amendment to which he refers includes that provision and others, and I expressed to him then and express no view now with respect to the provisions of the amendment other than the subject which I have just described.

I want to make clear to the distinguished Senator from New Hampshire that I support that provision, will support that provision, if and when he proposes it on the legislation that is on its way if such legislation comes over from the House.

If I could make one final minor clarification, in describing the legislation in the anticipated House bill, the Senator said it would not contain any provisions extraneous for matters of COLA's, honoraria, gifts, travel expenses, and financial disclosures, and things of that narrow natrure, is I believe the phrase he used. As I indicated to the Senator, it is my expectation that such legislation in the House and in the Senate will also include an ethics provision governing employment of Members of Congress and staff after leaving office similar to that now applicable to the executive branch.

If the Senator from New Hampshire will just ask for the yeas and nays he will accomplish the same so we will not have to do both; we will have one vote if necessary. So I understand, I think, what the Senator from New

Hampshire requests and I have discussed it with him. I have no problem.

Mr. HUMPHREY. I wish to make it clear that I want to at least reserve the right to seek a rollcall vote, to emphasize to the conferees who report to the Senate that provision which I will seek to enact. It is my understanding from our earlier discussion with the leadership, providing I forbear offering the amendment to the cost-of-living bill and instead offer it to the pay raise bill, they will have their support for a separate rollcall vote on their amendment. That was my understanding.

Mr. DOLE. I have no problem with that. If in fact there is a pay raise, which I do not think there will be in the Senate version, a cost-of-living adjustment, one way to achieve the Senator's purpose is just to have a rollcall. So I think that may not be there so you will offer the amendment which I will support.

Mr. HUMPHREY. Madam President, I thank the leaders for their cooperation and very much look forward to working with them on this occasion which will presume evidently to repeal the automatic pay raise provisions which are now before the House and thus requiring in the case of pay raises as opposed to cost-of-living allowances, providing an affirmative rollcall vote in each Chamber.

I thank the leaders and I yield the floor.

Mr. MITCHELL. I thank the Senator from New Hampshire.

Mr. KENNEDY. Madam President, I welcome the Senate's action. The 9-year logjam on the minimum wage is finally broken. The working poor are about to receive an increase, although it is not as much as they deserve.

In all honesty, this is a back-door, back-of-the-hand increase. The compromise we are enacting is a modest victory for the working poor, but it owes more to the ideological embarrassment of those seeking tax relief for capital gains than it does to any real commitment to the minimum wage. But those of us who believe in the minimum wage take our victories where and when we can—and we will continue to do so.

Because of our action, the minimum wage will go up to $3.80 an hour on April 1, 1990, and to $4.25 an hour on April 1, 1991. That is all the increase this legislation offers—and it is not enough.

The minimum wage should go up again on April 1, 1992—and I intend to do my best to see that a significant additional increase is enacted as we head into that Presidential election year.

The War on Poverty may be out of fashion in Congress and the White House. But we cannot ignore the widening gap between rich and poor in our neighborhoods, or the gathering storm clouds it poses for our society.

As yesterday's election returns make clear, the rest of the country understands the problem and is moving to address it. And I am proud to be a member of a party that wants to address it and intends to address it.

Neither Congress nor the White House can continue to stick its head in the sand. That cannot be our only response to the worsening problem of poverty in America. If that is all we do, we will reap the whirlwind of our ignorance, our affluence, and our injustice.

The minimum wage was one of the first—and is still one of the best—anti-poverty programs we have. It is easy to understand the politics of the opposition to the minimum wage in the past decade. Poor workers do not have political action committees, but their employers do.

But it is harder to understand the logic behind the partisan opposition. I would have thought we could all agree, Democrats and Republicans alike, that the fundamental principle of the minimum wage is sound—those who work for a living should not have to live in poverty.

Congress needs to do more, not less, to make work more attractive than welfare. The minimum wage is one of the few practical means we have to achieve that goal. So long as America is serious about reducing poverty, we must continue our effort to make the minimum wage a living wage.

Mr. KENNEDY. Madam President, I ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

The PRESIDING OFFICER. The bill is before the Senate and open to amendment. If there be no amendment to be offered, the question is on the third reading and passage of the bill.

The bill was ordered to a third reading and was read the third time.

The PRESIDING OFFICER. The bill having been read the third time, the question is, shall the bill pass? On this question, the yeas and nays have been ordered, and the clerk will call the roll.

Mr. CRANSTON. I announce that the Senator from Montana [Mr. BAUCUS] and the Senator from Hawaii [Mr. MATSUNAGA] are necessarily absent.

Mr. SIMPSON. I announce that the Senator from Wyoming [Mr. WALLOP] is necessarily absent.

I further announce that, if present and voting, the Senator from Wyoming [Mr. WALLOP] would vote "no."

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 89, nays 8, as follows:

[Rollcall Vote No. 292 Leg.]

YEAS—89

Adams	Ford	McConnell
Bentsen	Fowler	Metzenbaum
Biden	Glenn	Mikulski
Bingaman	Gore	Mitchell
Bond	Gorton	Moynihan

Hatch	Mack	

NOT VOTING—3

Baucus	Matsunaga	Wallop

So the bill (H.R. 2710) was passed.

Mr. KENNEDY. Madam President, I move to reconsider the vote.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

The PRESIDING OFFICER. The Senator from Massachusetts.

CORRECTING TECHNICAL ERRORS

Mr. KENNEDY. Madam President, I have a concurrent resolution to correct errors made in H.R. 2710, which I send to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will state the concurrent resolution by title.

The assistant legislative clerk read as follows:

A concurrent resolution (S. Con. Res. 80) to correct technical errors in the enrollment of the bill H.R. 2710.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the concurrent resolution?

There being no objection, the Senate proceeded to consider the concurrent resolution.

The PRESIDING OFFICER. The question is on agreeing to the concurrent resolution.

The concurrent resolution (S. Con. Res. 80) was agreed to, as follows:

S. CON. RES. 80

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill (H.R. 2710) to amend

the Fair Labor Standards Act of 1938 to increase the minimum wage, and for other purposes, the Clerk of the House of Representatives shall make the following corrections:

(1) Amend section 6(g)(1)(A)(ii) to read as follows:

"(ii) has not attained the age of 20 years; and".

(2) In section 6(g)(1)(B)(i) insert before the period "at such wage".

(3) In section 6(g)(1)(B)(ii) strike out "if a certificate is issued under subsection (h) by the Secretary for the employment of such employee" and insert in lieu thereof "if the employer meets the requirements of subsection (h)".

(4) Amend subsection (h) to read as follows:

"(h) EMPLOYER REQUIREMENTS.—An employer who wants to employ employees at the wage authorized by subsection (a) for the period authorized by subsection (g)(1)(B)(ii) shall—

"(1) notify the Secretary annually of the positions at which such employees are to be employed at such wage.

"(2) provide on-the-job training to such employees which meets general criteria of the Secretary issued by regulation after consultation with the Committee on Labor and Human Resources of the Senate and the Committee on Education and Labor of the House of Representatives and other interested persons,

"(3) keep on file a copy of the training program which the employer will provide such employees,

"(4) provide a copy of the training program to the employees,

"(5) post in a conspicuous place in places of employment a notice of the types of jobs for which the employer is providing on-the-job training, and

"(6) send to the Secretary on an annual basis a copy of such notice.

The Secretary shall make available to the public upon request notices provided to the Secretary by employers in accordance with paragraph (6).".

(5) In sections 8(a)(1) and 8(b), strike out "section 2(a)" and insert in lieu thereof "section 2".

(6) In section 2 strike out "December 31, 1989" and insert in lieu thereof "March 31, 1990".

Mr. KENNEDY. Madam President, I move to reconsider the vote.

Mr. DOLE. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

(Later the following occurred:)

Mr. SPECTER. Madam President, I have cleared this with both the Democratic and Republican sides.

Madam President, on rollcall vote No. 291, I am recorded in the affirmative. I ask unanimous consent that I may change my vote to "nay." It will not affect the outcome of the vote in any way.

The PRESIDING OFFICER. Is there objection? The Chair hears none, and it is so ordered.

(The foregoing tally has been changed to reflect the above order.)

The PRESIDING OFFICER. Who seeks recognition?

DEPARTMENTS OF COMMERCE, JUSTICE, AND STATE, THE JUDICIARY, AND RELATED AGENCIES APPROPRIATIONS—CONFERENCE REPORT

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the conference report on H.R. 2991, the Commerce, State, Justice appropriations conference report.

The PRESIDING OFFICER (Mr. CONRAD). The report will be stated.

The legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the amendments of the House to the amendments of the Senate numbered 53, 171, and 191 to the bill (H.R. 2991) entitled "An act making appropriations for the Departments of Commerce, Justice, and State, the Judiciary, and related agencies for the fiscal year ending September 30, 1990, and for other purposes," having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by a majority of the conferees.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the House proceedings of the RECORD of November 7, 1989.)

Mr. MITCHELL. Mr. President, I have discussed this with the distinguished Republican leader and with the chairman of the committee, the manager of the bill. It is not my intention or that of either of them to seek a rollcall vote on final passage of this legislation. This is a matter which we have had before us and which the Senate enacted unanimously just recently. Therefore, if any Senator wishes a rollcall vote—and I am not encouraging one—they should communicate that view immediately to the Republican leader or myself.

In the event no such request is received—and I hope none is—then there will be no further rollcall votes this evening. We will complete action on this measure and then we will proceed to the legislative appropriations bill tomorrow morning when we come in.

So, Mr. President, I hope no one will make that request. We will make an announcement shortly either that we do or that we do not, and I hope that it is the latter.

Mr. President, I yield the floor. I know the manager is here and prepared to deal with this legislation.

Mr. WILSON. Will the majority leader yield for a question?

Mr. MITCHELL. Certainly.

Mr. WILSON. In the scheduling, I did not hear the time that he is anticipating to move to the legislative branch appropriations.

Mr. MITCHELL. As the Senator from California knows, it was my intention to proceed to the bill at 10:30 tomorrow morning, but he advises me that he has a conflict. To accommodate him, I was going to later ask that we proceed to the bill at 10:45 to give him an opportunity to attend an earlier hearing and be present when we go to the bill. I hope that is acceptable to the Senator from California. I would like to accommodate his schedule if I can.

Mr. WILSON. I will be grateful for any generosity that the distinguished majority leader will be able to show me. The problem is one that I think you will be able to appreciate, through no one's fault obviously. Through the unhappy coincidence of events, I am required tomorrow to be at a hearing on a judicial nomination that has been some 2 years pending. It will be a matter that will not be pro forma and it will take a long time. And there is yet another event that briefly requires me to be off the floor for about 10 minutes. Is there a possibility that it could be later?

It is, again, no one's fault. I have been waiting more or less patiently to take up the matter of the legislative branch appropriations for some time. I am just eager to be able to do justice to two matters that I think are of importance. So if it is in any way possible to do it later, I would be grateful.

Mr. MITCHELL. I would like very much to accommodate the Senator. I made the original change in an effort to do so.

Of course, the problem he describes is, as he knows, common to Senators almost every day in which we each have three or four events at the same time and must choose which one is or is not of the highest priority. I would like very much to help the Senator. We have, of course, the business of the Senate and we are trying to complete legislation in time to adjourn sine die by Thanksgiving.

Let me discuss this with the distinguished Republican leader and the Senator from California and I will make every effort to accommodate the Senator. But it is, of course, the Senator who has chosen to offer the amendment. I want to accommodate him, but we have 99 other Senators that we are trying to accommodate as well.

Mr. WILSON. I understand the difficulty. The matter is a very complex situation. I would be grateful for the effort that the majority leader has said he is willing to make. I will be happy to talk with him and the Republican leader. I thank the Senator.

Mr. MITCHELL. Since the matter has been discussed at some length previously, at least in similar form, if we can delay it so as not to delay the ultimate disposition of the matter, would

the Senator be disposed to agree to a time limitation on the deliberation of the amendment so we can dispose of it and, therefore, starting late would not result in any time lost?

Mr. WILSON. I would.

Mr. MITCHELL. The manager of that bill is not present and I would want to discuss that with him. If the Senator would be willing to do that, then I think perhaps we could work it out and that he could be accommodated and there would be no delay in the disposition of the matter.

I thank the Senator and I will be pleased to do everything possible to accommodate him.

Mr. WILSON. I thank the majority leader.

Mr. HOLLINGS. Mr. President, what is the pending business?

The PRESIDING OFFICER. The conference report on State, Justice, and Commerce.

Mr. HOLLINGS. I thank the Chair.

Mr. President, as the Senate will recall, the original conference report on this bill was before the Senate on October 31 and November 1. During the Senate's consideration, the Senate amended three of the amendments of the House to the amendments of the Senate. Thus, a further conference was required.

Amendment No. 53: The House agreed to the amendment that I offered on behalf of Senator BIDEN and myself to provide that the minimum allocation to the States of State and local drug grant funds would be 0.25 percent or $500,000, whichever is greater to look out for the small States of the distinguished Chair and this humble speaker.

Amendment No. 171: The House agreed to the amendment of Senator HELMS that repeals section 725 of the International Security and Development Act of 1981 which imposed economic sanctions on Argentina. This section has not had any impact on military sales to Argentina since President Reagan determined on December 10, 1983, that the human rights situation in Argentina had improved, rendering, of course, section 725 inoperable.

The third amendment, Mr. President, No. 191, was an amendment that was amended by our distinguished chairman of the Foreign Relations Committee, the Senator from Rhode Island, who struck from the original conference agreement the part that if the State-USIA authorization bill was not enacted by the end of this month, then the amounts and terms and conditions of the appropriation bill would kick in and be controlling for the fiscal year 1990.

We had proposed that action due to the unique provisions of section 15 of the State Department's Basic Authorities Act as well as section 701 of the U.S. Information and Educational Exchange Act of 1948, that both stipulate that appropriations are not available unless first authorized.

Well, we tried to accommodate the needs of our colleagues on the Foreign Relations Committee, and we adhered absolutely to their Senate-enacted foreign relations authorization bill, save and excepting one instance which was an exception requested by the distinguished chairman of the Senate Foreign Relations Committee. However, since the distinguished Senator from Rhode Island prevailed in his motion to amend. Yesterday, at the further conference, we did only what was left to be done, and that is put State and USIA on a continuing resolution basis.

The conference on the authorization bill was concluded, I understand, on yesterday. We are going to watch its progress and watch it go to the White House. I understand there are two reports about it being noncontroversial. It is not controversial to this particular Senator. I would vote for that conference report from what I have heard. However, we did not get a copy of it and I'll reserve final judgement when I have a chance to read it fully.

But mind you me, we must move on the 1990 decennial census. We are behind schedule right now and there are 350,000 temporary people to be hired before we commence the census beginning in April of next year. We must move on the desperate circumstances of prison facilities, and their is some $400 million additional in the bill for that. All year long we have been hearing about the need for increased SBA guaranteed general business loans, and this bill increases these loans from $2.6 million to $3.2 million.

So we met with, not only the subcommittee on the House side, but the full chairman, Representative WHITTEN, as well as Representative NEAL SMITH. We did the only thing we could do. It is obvious, now. It was unanimously approved over on the House side yesterday.

We are preparing, I take it now, on a voice vote, to approve this particular conference report. In so doing I am going to follow that authorization bill because it has cut back important matters in the Department of State, important matters of the USIA. We will be discussing that with the distinguished chairman on the House side, the gentleman from Iowa, who momentarily is in Iowa due to a death in his family. We will meet with him as soon as we can, but probably not until the beginning of next week. We will follow that authorization bill and take the best course we possibly can, then, to update both State and USIA appropriations with the 1990 conference report, if we can possibly conform it, as we enacted it in both bodies.

My thanks for the leadership of the distinguished Senator from New Hampshire and to the staffs on both sides. We have been working long and hard. It is now into November and I appreciate the cooperation of all the Members here. I think we have really a fine appropriations bill with these three additional amendements as agreed to by our House colleagues.

I yield to the Senator from New Hampshire.

The PRESIDING OFFICER. The Senator from New Hampshire.

Mr. RUDMAN. Mr. President, this conference report addresses the three remaining amendments in disagreement on the appropriations act for the Departments of Commerce, Justice, and State, the judiciary, and related agencies. First, the House conferees receded to the Senate amendment which provides for a minimum funding level for each State under the State and local drug grant program of the Department of Justice. Second, the House has accepted the Senate amendment which repeals economic sanctions previously imposed against Argentina.

Finally, the conference agreement provides for funding for the State Department and the U.S. Information Agency at a continuing appropriations level. If an authorization of approriations is enacted into law later this session, it is our intention to attempt to waive or repeal this provision in order to restore funding to the levels proposed in the first conference report.

It is my understanding that the authorizing committees have reached an agreement on an authorization of appropriations for the State Department and the USIA. A conference report has not been filed, so I have not had the opportunity to review this legislation. In addition, I do not know whether it is acceptable to the White House. However, we need to release funds for other agencies and programs under the jurisdiction of the subcommittee, especially for the Justice Department and the Federal Judiciary. Every day we fail to act means our law enforcement officials are further handicapped in the war on drugs. They should not be held hostage due to the inability of the authorizing committees to complete their work in a timely fashion.

Mr. President, I thank my chairman for his leadership in bringing our conference to a successful conclusion. I regret we have unfinished business regarding the State Department and the USIA, but that is certainly not his fault or the fault of the Appropriations Committee.

The distinguished chairman, the Senator from South Carolina, has set out precisely the circumstances why we are here and what we have done. I want to make very clear a situation that results here because it ought to be in the RECORD.

We have done exactly what the Foreign Relations Committee has asked

us to do. The State Department and the U.S. Information Agency, as opposed to all other agencies and Cabinet-level departments within our bill, are at continuing appropriations levels until such time as the law is fully complied with; that is, an authorization bill is passed by both bodies, sent to the President and signed by the President.

Mr. President, I make the observation there is some discussion that there are things within that authorization bill which may in fact be unsatisfactory to the President, and which well may result in a veto. I do not know whether that is true or not.

If that should happen, and I am not predicting it will, but it may—if that should happen, I will point out to my friends in the Foreign Relations Committee, they will have what I would call a Pyrrhic victory. Because, you see, if that happens, Mr. President, and we are now into, let us say, December or January, then the Foreign Relations Committee is going to have to come back to the chairman of this committee, and ranking Member of this committee, and ask us now to put the waiver in, which of course we had in originally, and would not be here again today if it were not for that action on the floor.

So I hope there is a foreign relations authorization bill. I hope it is signed by the President. But if it is not, the State Department and U.S. Information Agency will continue on at fiscal 1989 rates, which are considerably below, both in amount and in substance, what we did in this bill, which is what the Foreign Relations Committee asked us to do in this bill.

I think the committee of jurisdiction was playing some high-risk politics when they took the action they took. I hope that we are able to get the State Department on its true appropriation within a few weeks. If we do not, it will not be the fault of the Senator from South Carolina, or the Senator from New Hampshire, or the Appropriations Committee.

I thank the Chair and I yield the floor.

The PRESIDING OFFICER. The Senator from Alaska.

Mr. STEVENS. Mr. President, when the Federal Government withdrew abruptly from its longstanding Pribilof Island Program, is provided two trust funds, one for each island, to ameliorate the hardships that would be created for the two islands communities. Both communities have made great strides toward becoming the self-sustaining economies contemplated by Congress. Despite their efforts, a gap remains before the fishing industry fully utilizes the boat harbors that are near completion and generates the employment and income stream necessary to sustain the villages.

In recognition of the great strides made by the communities and critical needs remaining, Congress approved in fiscal year 1989 a 2-year supplement for the St. Paul Island trust, the second installment of which is included the fiscal year 1990 appropriations bill. The fiscal year 1990 bill also includes a supplement for $1.1 million to the St. George Island trust.

In both cases the committee reviewed documentation provided by the villages and has approved funding to them for the upcoming year. The money is to be used for such purposes as acquisition of fuel, maintenance of utilities, operations of the municipalities and related functions.

It is my hope that both harbor projects will be completed this year, so the islands can develop a new economy, not based on sealing, but based on their strategic location in the middle of one of the world's richest and most productive fisheries. I wish them the best in that endeavor and thank Senators HOLLINGS and RUDMAN for their support during this transition period.

Mr. INOUYE. Mr. President, although the matter I wish to address is unrelated to the pending amendments to the conference report of fiscal year 1990 Commerce, Justice, State appropriations bill (H.R. 2991), my remarks are within the jurisdiction of the Department of Commerce that has been funded under the conference agreement.

I am dismayed by NOAA's continued failure to comply with an blatant disregard of the House and Senate directives, specifically in securing the release of appropriated funds for the following initiatives: The sub-Arctic fisheries research—APPRISE, the Hawaii stock management plan, the Mahi Mahi technology research, and the Asian aquaculture exchanges. At my request, the committee included report language (Senate Rept. 101-144, page 27), directing NOAA to expedite the obligation of funds for these initiatives. Under committee procedures, report language, and as reflected on page 10 of the Senate report, the directive on page 27 was not contradicted in the House report nor specifically denied in the conference report, and is considered as having been approved by both Houses of Congress.

Further, on September 20, 1989, Congressman DANIEL AKAKA, and I sent a letter to NOAA Under Secretary John Knauss requesting a status report on NOAA's review of the proposals submitted by the Oceanic Institute in Hawaii, the primary sponsor for these projects, by October 15. Unfortuantely, NOAA has failed to meet our requested deadline. We have yet to hear fron NOAA. Due to the reoccurring problems that Congressman AKAKA and I have encountered with NOAA, the purpose of my remarks is to establish further legislative history on these programs with the intent that continuity will remain when administering the fiscal year 1990 funding for these projects.

The House conference report 101-299, pages 13 through 17, includes funding for these initiatives at fiscal year 1989 levels. It is Congress' intent that the fiscal year 1990 funding continue the projects as previously funded in fiscal year 1988 and fiscal year 1989. Consequently, there should be no question that NOAA should treat these as continuing grant activities for the Ocean Institute.

Mr. HOLLINGS. Mr. President, our colleague from New Hampshire has raised a question which is appropriate. That is this section 15, an archaic kind of section.

I heard my distinguished chairman of the Senate Foreign Relations Committee make the statement, and it appears in written record, that "I think we all believe it should be repealed."

There is a statement further—I read it but I never heard it—saying differently, that he did not want it repealed.

I can tell my colleagues here and now, if I have anything to do with it—I do not know that I will—but if I have anything to do with the further appropriations for the Department of State and the U.S. Information Agency, it will never appear on this floor unless and until we have that repeal so we can put these particular entities of Government in step with all the other bureaus, all the other departments and agencies of the U.S. Government.

"Equal justice under law?" No, that is over the Supreme Court. Maybe we ought to get it inscribed in this Chamber, too. We can get a little Latin, may a little more, and maybe we can make a motion to change the rules to get that one. But I want to give State and USIA equal justice under law. I do not like discrimination, coming from South Carolina. I just want the Committee on Foreign Relations to be on notice of that at this particular time.

With that said, I appreciate the cooperation of all the colleagues and leadership on both sides, particularly the Senator from New Hampshire.

I urge the adoption of the conference report.

The PRESIDING OFFICER. The question is on agreeing to the conference report.

The conference report was agreed to.

Mr. HOLLINGS. Mr. President, I move to reconsider the vote by which the conference report was agreed to.

Mr. RUDMAN. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. HOLLINGS. I thank the distinguished Chair and yield the floor.

The PRESIDING OFFICER. The Senator from Nebraska.

Mr. KERREY. Mr. President, I ask unanimous consent to be able to proceed as if in morning business for a period of 10 minutes.

The PRESIDING OFFICER. Is there objection? Without objection, it is so ordered.

PRESIDENT BUSH AND THE EXTENSION OF THE DEBT CEILING

Mr. KERREY. Mr. President, there are many surprises for a freshman Senator. Yesterday morning I did not expect as a consequence of what I consider to be an honor, at 10 in the morning, to be named the acting President pro tempore of the Senate, to get the dubious distinction, at 12:30 this morning, of signing a $3.1 trillion check that we authorized with the resolution here on this floor.

I must tell my colleagues, I have no idea what President Bush thought when he signed it, because he signed after I did. But it frightened me, to be signing a check of $3.1 trillion. I confess to my colleagues that, in my short and happy lifetime, I have borrowed a fair amount of money. But never in my life have I borrowed anything approaching $3.1 trillion.

We have authorized Secretary Brady to borrow an additional $250 billion, which is difficult enough for me to get my arms around, in order to pay the bills in this next year.

I was troubled by the signing of this resolution. Not sufficiently troubled that I was unable to get to sleep, but I was surprised this morning and disturbed this morning when I read in the paper the account of President Bush's press conference yesterday wherein he said he would have accomplished a lot more this year except Congress has been holding him back. Then he went on specifically to blame Congress for the deficit, blaming Democrats and Republicans in Congress for the deficit.

I must say, Mr. President, I do not disagree with the President on the point that Congress does spend the money. The Constitution clearly gives us that authority. We, as Representatives, listen to the people. They make requests of us and we, as a consequence of those requests, make decisions to make expenditures in a variety of ways.

I am also, Mr. President, not unmindful, even as the lowest-ranking member of the Senate Appropriations Committee, of our capacity still in Congress, even in the face of tough budget times, to generate a considerable amount of hometown expenditures.

I have jokingly said recently that, even after only 10 months, I have been made a honorary member of the Nebraska Pork Producers as a consequence of my service on the Appropriations Committee.

However, Mr. President, we are also spending in accordance with the President's requests. His capacity both to listen to people and to request Presidential pork, is substantially greater than any of the congressional Representatives.

If he decides we are going to spend money and sends a directive down to Congress that we will spend money, rest assured there is a very good chance we will at least spend the amount of money the President requests.

I believe President Bush has squandered an enormous opportunity to attack the budget deficit this year. I believe he was poorly advised. I believe significant deficit reduction, beyond the requirements of Gramm-Rudman-Hollings, was possible this year and it is still possible for next.

Dramatic action like this, Mr. President, will enable the Federal Reserve to actually lower interest rates in America, continuing our recovery at even higher growth levels than we currently have. It will be the first step of a multifaceted effort to reduce America's cost of capital. It would also give our trade representative negotiators a valuable argument as they work to try to open markets abroad.

In short, substantial deficit reduction is the most important effort our leaders can make to ensure the economic security of the United States of America. Unfortunately, the President of the United States has simply not made it a priority. From the opening bell, his State of the Union message, the word has gone forth: Let us go along to get along and get by 1 more year.

The President's action this year on the budget deficit has been weak and ineffective. Beginning with a willingness to ignore the true size of the deficit and a desire to make everybody happy, he has not asked us to spend less; he has encouraged us to spend more.

Here is my view of the President's accomplishments this year on the deficit: First, last fall he began with a flexible freeze which was endorsed by the Republicans on the National Economic Commission, but by the time of the President's State of the Union, that phrase had disappeared from public use and has not been heard from since.

Second, in his State of the Union address, he gave Congress the unmistakable impression that an easy time lay ahead of us for deficit reduction. We could take half the new $70 billion that the economy is going to generate to reduce the deficit, and we would still have almost, gleefully he said, $35 billion to spend on new stuff.

Third, his own budget recommendations in January bypass his first real opportunity to do something serious about deficits.

Fourth, in April the President agreed to a budget which postponed almost every difficult decision. It was widely reported at the time that he hoped to get into 1991's budget before making the tough choices that we all know need to be made.

Fifth, and perhaps most important, the President set a bad example with his own budget gimmicks. We will save $1 billion by moving farm deficiency payments into 1989. We will save $2.4 billion by pushing back the payroll for the Department of Defense a few days. We will move the Postal Service and S&L bailout off budget and save another few billion dollars.

Mr. President, the President of the United States leads by example. This President has become the small business equivalent to the boss, removing a few dollars from the cash register for personal use and thus encouraging employees to do the same thing by example.

Sixth, the President has accepted the go-slow approach on the Strategic Arms Reduction Treaty. We almost do not have the money at home to build either the rail garrison MX or the Midgetman, but the President resolves the conflict by deciding to build both of the systems.

Ten months after he mentioned the deficit, finally brings it up again, just as we are about to increase the debt ceiling from $2.87 trilion to $3.1 trillion. Then he urges the American people: "Call Congress," he says. "Help me with this debt reduction bill," which is, I might say, of relatively minor significance.

Ten days ago, the President was so concerned about reducing the rate of taxation on the gain of short-term capital sales that he was willing to have his Treasury Secretary sell itself $15 billion in Treasury bonds to tide the Government over a few days, thus costing the American people for this little gimmick about $2 million a day and the additional cost of Federal financing.

In the past 10 months, the message to Congress and the message to the American people has not been one of an urgent need to reduce the need to borrow from our future. Instead, it has been almost a steady stream of new items that the President wants to buy: $160 billion the President wants for the savings and loans; $400 billion to go to Mars; $2 billion for a war on crime; $7 billion for the war on drugs; and a whole bushel basket full of new education programs.

Each time the President encouraged the American people to call their Congress to ask for more spending, and then he expresses shock when Congress wants to spend more. This is the President who cannot say no. He has

encouraged us to behave badly. He has been blind to the borrowing and spending this Nation committed itself to under President Reagan.

The President's actions speak for themselves. Cutting the budget is simply not a priority. It ranks behind increasing defense expenditures. Even though the changing nature of our relationship with the Soviet Union and Eastern Europe should dictate changes in our national security policy and our defense spending projections, it ranks behind his "read my lips" pledge not to increase taxes. It ranks behind his desire to open up a new tax loophole through the capital gains cut that would benefit the wealthiest Americans.

So it should not be a surprise to Members of Congress or to the people of the United States of America that the President has done so little to make a real impact on the deficit. I still believe, Mr. President, that a substantial reduction of the deficit will enable America to stimulate real growth in our economy without a resurgence of inflation.

I believe, as well, it would enable America to build a meaningful and comprehensive trade policy, and I believe it will enable us to put together a domestic agenda that is consistent with the President's own stated objectives.

It will enable us to improve our schools. It will enable us to clean up our environment. It will enable us to develop a national health care plan. It will enable us to reach out compassionately and unselfishly to help America's poor, and it will enable us to rebuild our infrastructure.

It will also, Mr. President, enable the United States of America to fulfill its responsibilities in the world community. It is still not too late. The President should discard the constraints of the timid budget agreement that he accepted last year, and he should look at the real numbers of the debt ceiling resolution that he signed early this morning.

Most important, he should ask the leaders of Congress to join him in making certain that it does not happen again this year.

I yield the floor.

The PRESIDING OFFICER. The Senator from California is recognized.

Mr. WILSON. I thank the Chair.

(The remarks of Mr. WILSON pertaining to the introduction of S. 1857 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

MORNING BUSINESS

Mr. PRYOR Mr. President, I ask unanimous consent that there now be a period for morning business with Senators permitted to speak therein.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDER OF PROCEDURE

Mr. PRYOR. Mr. President, I noted the appearance of my very good friend and distinguished Senator from Kansas [Mrs. KASSEBAUM] who I believe was on the floor before me. I will be happy to yield should she like to make her remarks now.

Mrs. KASSEBAUM. Mr. President, I certainly appreciate the kind consideration of the Senator from Arkansas. I am happy to wait my turn and want to speak in morning business when it is appropriate.

Mr. PRYOR. Mr. President, I thank the distinguished Senator from Kansas.

THE AIRBORNE SELF-PROJECTION JAMMER

Mr. PRYOR. Mr. President, shortly, I will ask unanimous consent to place in the RECORD what I think is a very excellent story from yesterday's Washington Post. This story is entitled "Electronic Warfare Project Seriously Flawed," and it was written by staff reporter Molly North. The article cites a very troubled program that I have been looking into for some time. It is called the airborne self-projection jammer, or the ASPJ. Despite failed test after failed test, unanimous Senate action to slow the program, investigations by the inspector general in the General Accounting Office regarding the decision to produce the ASPJ, the Pentagon recently awarded almost one-half billion dollars to begin immediate ASPJ production.

Mr. President, the Post article contains even more damning information on the ASPJ than had come to the floor debate earlier on this program. For example, during debate earlier this fall, I cited a conservative ASPJ program cost estimate of $4.8 billion. The Washington Post, however, says the ASPJ will cost $9 billion—$4 billion more than I had previously stated. I also said that each individual ASPJ would cost roughly $2 million a copy. The Post says that number is more like $3.5 million per copy. And, finally, the Post indicates that the ASPJ program is now expected to be $1 billion over budget and is still a long way from working properly.

Nine billion dollars for this program, Mr. President. Nine billion dollars could fund the entire Federal drug war this year. For $9 billion we could fund all of the National Institutes of Health and the Head Start Program. With $9 billion, the Education Department could fund the entire Student Aid Program, the Vocational and Adult Education Program, and the Education for the Handicapped Program.

In the Pentagon we could use $9 billion to buy 9 new attack submarines or 500 F-16 fighters or over 3,200 M-1 Abrams tanks.

My point, Mr. President, is that this country has many high spending priorities, domestic and military. We ought to keep that in mind before we commit to making $9-billion radar jammers that do not yet work.

The Post article also states that at Navy test facilities in California, the ASPJ had problems detecting and jamming some enemy radars that have already been around for two decades. "Moreover," the story says, "the ASPJ cannot meet many of the threats projected * * * for the coming decade."

This was backed up by a memo by then Defense acquisition chief, Michael P.W. Stone, who said, "Despite a program that now goes back almost 13 years, system progress has been extremely slow and many enemy threats cannot be satisfactorily handled."

Mr. President, the Secretary of Defense has spoken out on the need to enforce so-called exit criteria. This is a new term meaning weapons that do not meet minimum standards have no business going into production.

Not unlike the DIVAD antiaircraft gun, the ASPJ has not passed tests, it has not met the Secretary's exit criteria, and yet, today it is going straight into production.

When will fielding effective weapons take precedent over political expedience? When will our military decisionmakers demonstrate the courage of their stated convictions? How can we end this mentality of building now and testing later?

Mr. President, I am disappointed in the Pentagon's leadership and expressed my concern in a letter with Senator GRASSLEY to the Secretary of Defense a month ago.

We asked why $419 million had been awarded in October to produce the ASPJ despite evidence that it was a bad decision and that it had failed its tests.

Mr. President, to date we have not received a response to that letter. I hope this is because our good Defense Secretary is reconsidering the program.

One last comment, Mr. President. The Post article made one slip when it said I am opposed to the ASPJ. In fact, I am 100 percent behind developing a radar jammer that protects our fighter pilots in high-technology combat. Clearly this is needed. I hope we all agree to this.

However, I am 100 percent opposed to spending tight budget dollars to build and field weapons that do not work, and have not passed the tests.

The ASPJ has not proven itself and should not be produced until it does.

Mr. President, I ask unanimous consent that a copy of the Washington

Post article and the letter to the Defense Secretary be placed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the Washington Post, Nov. 7, 1989]

ELECTRONIC WARFARE PROJECTS SERIOUSLY FLAWED

(By Molly Moore)

The U.S. military, after spending billions of dollars on a new generation of sophisticated electronic equipment to protect its fighter and bomber pilots on the battlefields of the 1990s, is approaching the decade with systems that are years behind schedule, hundreds of millions of dollars over budget and unable even to meet threats of years past, according to Defense Department and congressional documents.

New electronic defensive systems designed to be carried aboard virtually every major warplane, from the Navy's F-14 Tomcat fighter and Advanced Tactical Aircraft to the Air Force's strategic B-2 "stealth" and B-1B bombers, have serious technological flaws that threaten the military's ability to rely on them as planned in combat, records show.

The Pentagon has built many of its combat tactics around these high-technology black boxes, which are designed to confuse or block enemy radars and trick deadly antiaircraft missiles, giving pilots and expensive planes a vastly greater chance of survival in today's combat zones, where the most dangerous enemy is likely to be an invisible electronic beam or pulse.

One of the most costly and controversial of those programs is a joint Navy-Air Force electronic jamming system scheduled to be installed in more than 2,000 new fighters and attack planes. But, after 13 years of development, the latest flight tests showed the system, costing an estimated $9 billion, was "marginally operationally effective and marginally operationally suitable," according to a secret, recently declassified Navy report.

This system, called the Airborne Self-Protection Jammer (ASPJ), was lauded by the world's top electronic experts in the 1988-89 edition of "Jane's Avionics" as possibly "the most significant U.S. electronic warfare system in the current decade."

Now, the Defense Department, under pressure from Congress, says it will kill the program next year unless the services made major strides in correcting its deficiencies. The electronic jammer program is at least four years behind schedule and may cost at least $1 billion more than originally estimated, according to one Pentagon report. Possible irregularities are also under investigation by the Defense Department inspector general and the General Accounting Office, the congressional watchdog agency, according to congressional officials.

In attempting to correct problems with the ASPJ and other such complex systems, the military has discovered an equally troubling problem: Some of its critical test methods and equipment are flawed and cannot accurately measure the capabilities of the electronic systems they are testing.

"Frankly, we don't do a good job of evaluating jammer performance," said Navy Capt. Matt Small, manager of the ASPJ program, who said he believes the problems can be corrected. The deputy program manager, Air Force Lt. Col. Mike O'Neill, said that in some cases the military was testing the ASPJ using procedures designed to test threats that are now almost 20 years old rather than current threats. "They never updated the test procedure or architecture," O'Neill said.

Electronic warfare experts blame many of the problems of the systems and the test programs on a military that "took on too much too soon" in a field of "new and unproven technologies," according to an outside study commissioned by the Air Force three years ago. Small and other military officials say the problems also stem from the sometimes sketchy intelligence information about Soviet air defenses on which development of the countermeasure systems is based.

"The whole process is very complex," said retired Navy rear admiral Julian Lake, who headed the naval agency that began developing the ASPJ system and is now president of the Association of Old Crows, an organization that monitors electronic warfare issues. "You're not dropping bombs, you're playing with electrons."

Many electronic countermeasure systems currently in use on military aircraft work satisfactorily against known existing threats, military officials say. But experts note that the new systems under development will be critical to survival on future battlefields where electronic threats are expected to become increasingly dangerous.

Because electronic warfare systems are among the most secret programs in the military it is difficult to determine exactly how much the Pentagon spends on them. But according to experts and numerous military documents, many major electronic warfare systems now under development have encountered significant—and costly—technical problems. Among them:

The intercontinental B-1B bomber's electronic countermeasure system, cited by President Ronald Reagan as one of the plane's strongest selling points, will never have the full capabilities planned. Because of the shortcomings, the Air Force has had to change some of its war plans for the bomber and may have to spend an extra $1 billion to correct the problems, according to congressional reports.

Development of the avionics system for the B-2 bomber is at least two years behind schedule and the system may not be fully developed by the time the aircraft is expected to be deployed into the bomber force in the mid-1990s, according to sources.

The newest generation of avionics equipment being developed for the stealthy aircraft of the future—the Air Force Advanced Tactical Fighter and Navy A-12 Advanced Tactical Aircraft—is also behind schedule and encountering development problems that may mean the sophisticated equipment won't be ready to be installed in the planes on time, according to a recent report in the trade journal Defense Electronics.

The ASPJ program, if it works properly, is expected to double the chances of survival for pilots and planes on future battlefields. The Navy and Air Force have predicted that with the system, 44 percent of all planes would survive a 30-day conflict. With current systems, experts predict all aircraft may be lost within the first 20 days of battle under some conditions.

"The ASPJ is a critically important program affecting the capability of virtually all tactical Air Force aircraft," the commander of the Tactical Air Command wrote in a 1986 memorandum. "Until it is fielded, we face sending air crews and aircraft into combat without self-protection jamming."

But with the system now at least four years behind schedule, tests at the Navy's secret Echo test range at China Lake Naval Weapon Center in California have revealed the system has problems detecting, identifying or jamming some enemy radars that have been in existence for the past two decades. Moreover, it cannot meet many of the threats intelligence officials project for the coming decade when it is to be installed on new models of the F-18, F-16 and F-14 fighters, the A-6E attack plane and the AV-8B Harrier, according to military and congressional reports.

The jammers, which will cost up to $3.5 million per plane, are supposed to identify a barrage of oncoming radars, determine which ones are most threatening to the aircraft and then transmit electronic signals to deceive or interfere with ("jam") the radars of the hostile air defense weapons.

"Despite a program that now goes back almost 13 years, system progress has been extremely slow and many enemy threats cannot be satisfactorily handled," Michael P.W. Stone, then the Defense Department's acquisition chief, wrote in a July 29 memo after reviewing the most recent test results. Stone added, "The contrary argument is that ASPJ nevertheless does more than any other system that we have in the inventory or that we have under development."

The poor test results have ignited a vitriolic internal Pentagon debate, pitting military program chiefs against civilian Defense Department budget officials. The Navy and Air Force are trying to salvage a system they consider essential and that already has cost them at least $1 billion. But budget officials say they are wary of pumping even more money into a program so troubled it may never perform as promised.

Despite the problems with the testing models, the Pentagon recently awarded $419 million in contracts to Westinghouse Corp. and ITT Avionics Division, which have developed the system, to build the first 100 production models to be installed in aircraft. That action outraged some members of Congress who have tried to restrict production of the system in the fiscal 1990 appropriations bill pending in Congress.

"I believe that we have discovered another Pentagon embarrassment—a potential waste of billions of dollars," said Sen. David Pryor (D-Ark.), who has become one of the most outspoken opponents of the system. He added that the ASPJ "would also give a false sense of security to those pilots who fly the planes."

ASPJ program manager Small said he believes many of the problems will be corrected with the new production models that he said will be superior to the test models being used. He cautioned, however, that "We don't run risk-free programs."

U.S. SENATE,
COMMITTEE ON GOVERNMENTAL AFFAIRS,
Washington, DC, October 12, 1989.

Hon. RICHARD B. CHENEY,
Secretary of Defense,
The Pentagon, Washington, DC

DEAR SECRETARY CHENEY: Last Friday, contrary to the Senate's action regarding the FY90 Defense Appropriations bill, the Navy awarded two contracts totalling $420 million to begin production of the $4.8 billion Airborne Self Protection Jammer (ASPJ). Signing these contracts before the Senate-House appropriations conference had begun seems to be an attempt by the Navy to end run the appropriations process.

These awards occurred despite exit criteria not being met, failed operational tests, Senate report language directing that pro-

duction not begin until further tests are passed, unanimous action by the full Senate fencing FY 90 ASPJ production funds, and a request by the DoD Inspector General that contract awards be delayed until a "quick reaction" audit of the decision to begin ASPJ production could be completed.

We believe that awarding the contracts was an impolitic action that demonstrated bad procurement policy and could weaken relations with the committees of jurisdiction and the Congress. We urge you to review these awards and to take appropriate actions to slow action on the ASPJ and give Congress and your Inspector General time to act on this issue.

Sincerely,

CHARLES GRASSLEY.
DAVID PRYOR.

Mr. PRYOR. Mr. President, I thank the Chair. I yield the floor.

Mrs. KASSEBAUM addressed the Chair.

The PRESIDING OFFICER. The Senator from Kansas.

(The remarks of Mrs. KASSEBAUM pertaining to the introduction of S. 1858 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

MONTANA'S CENTENNIAL CELEBRATION

Mr. BURNS. Mr. President, it was 100 years ago today that Montana was signed into statehood, and we want to recognize that at this time. Yesterday we accepted some items from the Archives, and there was quite a nice ceremony here in the Capitol. At 12:40, 100 years ago today the President signed us into statehood. We say congratulations to the home State on this day. There will be quite a gathering in Helena tonight, and I am sorry we will be missing some of that.

Mr. President, if you will allow me, I will read the official proclamation by the President for Montana Centennial Day, 1989:

On November 8, 1889, Montana was admitted to the Union as the 41st State. In the Century that has followed, the people of Montana have built upon their frontier heritage and made substantial contributions to our Nation's economic and social well-being.

During their famous expedition early in the 19th century, Captains Meriwether Lewis and William Clark introduced this "Big Sky Country" to the world. By wagon train and later by railroad, a rush of homesteaders seized the opportunity to cultivate this new land and enjoy its abundant natural resources. Our Nation's fourth largest State is now home to a number of important industries—such as farming, ranching mining, and tourism—that utilize its spectacular wealth of forests, prairies, wildlife, minerals, and natural beauty. Montanans are a proud, hardworking, and community-minded people who have added strength and color to the character of America.

In recognition of these contributions, the Congress, by Senate Joint Resolution 19, has designated November 8, 1989, as "Montana Centennial Day" and has authorized and requested the President to issue a proclamation in observance of this day.

Now, therefore, I, George Bush, President of the United States of America, do hereby proclaim November 8, 1989, as Montana Centennial Day.

In witness whereof, I have hereunto set my hand this eighth day of November, in the year of our Lord nineteen hundred and eighty-nine, and of the Independence of the United States of America the two hundred and fourteenth.

And, of course, it is signed by the President of the United States and we appreciate that very much.

So I will just say, happy birthday Montana.

Mr. President, I yield the floor.

REPEAL OF SECTION 89

Mr. BURNS. Mr. President, I want to make a comment about yesterday's activities, as we were successful, and I am pleased that Congress finally repealed section 89 of the IRS Code. From the very first day when I entered the U.S. Senate, I have continually sought to repeal section 89. I am very pleased to have a part in relieving some of the burden that is placed on small business owners, not only in Montana, but across this Nation.

We are a Nation of small business people, and this was one of those things that is probably well-intended, but nonetheless, the administrative rules got this completely out of hand, and it had become quite a burden. Everyone now accepts that section 89 was a regulatory nightmare which only burdened small business with excessive paperwork. In fact, we had testimonials from people across the country that say they were paying a lot of fees for consultants just to see if they complied with the law.

Businesses incurred high costs in the tests of their plans, and many companies decided they were going to forgo that cost and drop their retirement and health plans altogether. And for a small company, where they have just a limited amount of employees, that would only add to the problem that we already face in this Nation: A lot of people do not have health insurance.

So to me the latter was the No. 1 reason to support the repeal of section 89 because of that.

With all the news about the number of uninsured workers and the rising cost of health insurance, it is clear that 89 was a step in the wrong direction. Although I believe, like many Members of this body, that the repeal should have taken place long ago, I must commend the Senate for finally taking the right course of action.

Mr. President, it is a great victory on the part of small business across the country and I am proud we played some minor role in that and that the Senate have finally seen fit to rectify that.

THE RURAL TOURISM FOUNDATION CONCEPT

Mr. BURNS. Mr. President, I have some comments here regarding a bill that Senator ROCKEFELLER and I spent a little time together crafting on rural tourism.

Mr. President, on Wednesday, October 25, 1989, Senator ROCKEFELLER and I, along with all of the members of the Senate Commerce, Science, and Transportation Committee, introduced S. 1791, the Tourism Policy and Export Promotion Act of 1989. The purpose of that legislation is to help the United States become more competitive in the international tourism market.

One of the key provisions of the bill is section 8, which calls for the creation of a Rural Tourism Foundation. The introductory statement I made Wednesday gave a less than complete picture of what we have in mind for such a foundation, that is the Rural Tourism Foundation. Therefore, I would like to take this opportunity to make a few further remarks about the idea which to my estimation is an idea whose time has come.

A nonprofit Rural Tourism Foundation would be formed for the sole purpose of making sure that rural America gets its fair slice of the travel and tourism pie. Of course, attracting foreign visitors to rural areas would be an important part of that picture.

S. 1791 does not spell out just how the Rural Tourism Foundation would work, it provides only the skeletal framework required to create and fund a tax-exempt organization that can help USTTA promote rural tourism. Over the next few weeks, Senator Rockefeller and I will be working with USTTA and the Commerce Committee's Travel and Tourism Industry Advisory Council to get their ideas. In the meantime, let me tell you something about where we're coming from and where we think we're headed.

As I said on Wednesday, one of the first things on the agenda of a Rural Tourism Foundation would be to put together a rural tourism trade development plan with specific objectives and deadlines for accomplishing those objectives.

We know that one of the most important of those objectives would be incorporating our national scenic and recreational destinations into the USTTA's regional marketing activities. A closely related objective would be to ensure that comprehensive foreign language materials on our national scenic and recreational areas—including brochures, maps, guidebooks, and interpretive materials—are available to our foreign visitors.

Another objective might be the development of educational programs aimed at improving visitor services provided by businesses in rural communities and concessionaires near na-

tional scenic and recreational areas as they prepare for increasing numbers of foreign visitors.

Why are we focusing so much attention on national scenic and recreational areas? It is a natural. Let me explain. As we started working on legislation to boost tourism in rural areas, we came across a USTTA study that said that the majority of foreign visitors want to visit an area of natural scenic beauty when they travel to the United States. However, they only know about the most popular national parks in the United States such as the Grand Canyon, Yosemite, Yellowstone, and the like. What those potential foreign visitors do not know about are the hundreds of other national parks and forests, and other Federal recreational lands all over the United States.

Most of those Federal parks are located in rural areas. Only one of the Bureau of Land Management's 460 recreational areas is located within a half hour's drive of a major city. Only 10 of the 156 National Forests is located that close to an urban area. Of the National Park Service's 355 parks, parkways, recreation areas, historical parks and sites, monuments, and seashores, only 61 are located in or near metropolitan areas. All but about 10 percent of the Corps of Engineer's 4,300 recreation areas located on 472 manmade lakes across the country are in rural America.

We asked the National Park Service, the National Forest Service, the Bureau of Land Management, and the Corps of Engineers to tell us what they did to see that foreign visitors knew about and could enjoy national scenic and recreational areas throughout the country. They told us our government just doesn't have the resources to make information available to foreign visitors in their own languages. Furthermore, while each of those organizations has maps and materials showing its own parks, no single map of the country shows all U.S. scenic and recreational lands.

The situation we have discovered is that people overseas cannot get information they need to discover the full range of our country's national beauty. They cannot find out which popular national parks and forests are apt to be so crowded that they won't be able to get in, nor where they might go instead. In addition, foreign tourists who come to our national parks and recreation areas cannot get information in their own languages so they can get the most out of their visit. Nor do they receive important information about safety and conservation concerns.

We think we can and should do better and that the Rural Tourism Foundation can help. We have talked about our ideas with concessionaires located near national parks, forests and recreational areas; public-spirited representatives of major corporations; county and local government officials; small business owners in rural areas; and other individual citizens who simply have an interest in getting people to see more of our great country. They know more can be done, and they are excited about this idea.

Mr. President, I urge my colleagues to join us in making S. 1791 our idea of Rural Tourism Foundation a reality. There is a lot of work to be done. I think it is worthwhile.

Out of the enormous amount of money that is spent every year in tourism around the world, we are only attracting about 10 percent of the world tourism dollar to the United States. I just think it is a tremendous tool and can help us out here in this country. It is a great export. It is clean and it is good for business all the way around.

Mr. BURNS. I think that is all I have for the day.

Mr. President, I yield the floor.

The PRESIDING OFFICER (Mr. ROBB). The Chair notes the absence of a quorum.

The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. SIMPSON. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

GLOBAL WARMING

Mr. SIMPSON. Mr. President, my remarks will be brief and then we will conclude the day's activity.

I just wanted to state that yesterday and today several Members of the body seemed to have a high old time of it roundly criticizing the administration for a lack of Presidential leadership on the global warming issue because the United States has declined to hastily and in an ill-considered way endorse a ceiling on CO_2 emissions by the year 2000.

I think it is unfortunate to hear that stream of accusations coming from largely those on the other side of the aisle as if this were some partisan activity. Completely overlooked were the actions the administration has already undertaken to address the global warming phenomenon. And we have done more than any other nation in the world.

In the first 10 months of this administration, the United States has taken several actions unilaterally—they did not have to do it; nobody pressured them—under this President, which, in addition to being remarkably meritorious on their own right, will reduce CO_2 emissions and address the global warming problem.

We have the administration's proposed Clean Air Act which is languishing. And we are ready. There were 25 of us on both sides of the aisle who sponsored that. It is laboring along. We always say, "well, I guess we are close on acid rain, so if we could resolve that, we are just an ace away from doing that." But, meanwhile, why do we not just resolve that then and move on? But we do not.

We have that presented to the Congress by the President of the United States. Tht is a pretty remarkable piece of legislation, reducing pollution from coal-fired powerplants and placing a permanent cap—and I have to swallow hard on that, myself. I think that can hurt the West, growth in the West. There are things in it I do not like, but it is a powerful incentive for conservation. That alone would reduce CO_2 emissions by several percent a year.

No other nation has adopted that kind of ambitious clean air strategy, including Canada. And they whacked on us pretty hard, our fine neighbor to the north. And I cannot tell you how much I enjoy their leaders and their Ambassador. But they do not have a law as good and as tough as ours.

Then we have the President's bill which allows total flexibility to choose all the means of achieving reductions which also helps reduce CO_2 emissions. Plants which use current scrubber technology are required to use additional energy, thereby adding approximately 3 percent to greenhouse gas production per plant.

The President's alternative fuels program, I have not heard anybody give him a little credit there. It is a good one and it got hung up yesterday on a total partisan vote of 7 to 6. I have never seen that in my 11 years on the Environment and Public Works Committee.

If that is going to be the lay of the land, why, we are in a deep hole. We will be here a long time next year. We cannot bring it up this year. It was a total partisan vote twice yesterday in subcommittee on the administration versus some ephemeral thing which is being concocted by the staff of the Environment and Public Works Committee. And they are quite a crew. You cannot tell the Democrats from the Republicans, but they are still quite a crew. They just keep cranking it out down there, and that is why we never get anything passed here.

So, hopefully, we will get something passed here which will somehow pass the test of the Environment and Public Works Committee staff. I hope that can be done. But if that is the way it is going to be, it is going to be a long haul.

I am ready to try to work with Senator MAX BAUCUS of Montana. He has a tough job. He is a national Senator, but he is a Senator from Montana, and they are watching him like a hawk. They want to be sure that he remem-

bers that he is a Senator from Montana when we get to these tough question issues. I would hate to be in his position, but that is the way it is. We do not get to play the cards we get dealt in this place.

This is the President's alternative fuels program that would substantially reduce CO_2 emissions yearly, especially if automobiles were to run on natural gas, CNG, or natural gas-based ethanol or methanol.

The administration's actions to increase required corporate average fuel efficiency—CAFE—standards to 27.5 miles per gallon will cut CO_2 emissions from automobiles.

The administration has not only called for a worldwide phaseout of CFC's by the year 2000, but the administration's February 9 budget included a unilateral fee on CFC emissions, which will sharply reduce U.S. production and emissions of CFC's. The CFC fee has been adopted by both the House and the Senate in their respective reconciliation bills. Scientists believe that CFC's are responsible for 20 percent of the greenhouse problem.

The administration has sharply increased funding for global climate change research. They did that. The fiscal year 1990 budget contains almost a half a billion dollars for that effort, and they expect to increase it in their fiscal year 1991 budget. No other nation is spending nearly this much on research.

The administration is now developing a national energy strategy, to be released in April. We have never done that. We always foundered on that because the Northeast does not like what the Southwest is doing and the West does not like what the East is doing and the low sulfur does not like what the high sulfur is doing. But one of the clear goals in developing the strategy is to increase energy conservation.

Some of my colleagues are calling for CO_2 emissions reduction, either as a part of the Clean Air Act or separately. So I just want to leave with my colleagues the caution against hasty and rash calls for further CO_2 reductions in the year 2000 when the industrialized countries of the world will not be able to know whether they can get there or not, with modeling which is erroneous, modeling based on emotion, modeling based on modeling, which is bad enough, and synergistic analyses and white papers and all the stuff that goes with that. And now scientists tell us that they do not even know if the greenhouse effect is really an issue or is warming the Earth. I do not know.

I think it is a serious problem. So does George Bush, our fine President. You just cannot ignore the uncertainties of the magnitude and timing and the regional variations of global warming. And who is? Nobody is ignoring that. We have a science adviser to the President.

While the United States pursues the courses of action I mentioned—with the help of my colleagues, we will get clean air enacted—the Intergovernmental Panel on Climate Change will provide a solid foundation for international action.

It is much more than talk that President George Bush has been involved in.

It is a little bit hysterical, I think, to hear some of the commentary. The only greenhouse effect here, I think, is that they have heated up the Chamber a little with the talk, but have not done a thing to getting the issue honestly addressed. We have a lot to do, all of us. Let us try to deal in facts instead of emotion. Emotion will always triumph over reason, but reason will always persist eventually.

So I just wanted to put that in as chapter 2, knowing that chapter 3 will follow, and then we will go to chapter 4 the next day.

I thank the Chair for his courtesy.

Now, I await our leader.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. BRYAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

CASON NOMINATION

Mr. KASTEN. Mr. President, it is always unpleasant to have to reject a Presidential nominee—especially when the President is our distinguished friend and Republican leader, George Bush.

It is just such an unpleasant task that brings me to the floor today. A good man—Jim Cason—has been nominated for the wrong job, and I therefore intend to oppose his nomination. Indeed, I would much prefer that the President withdraw this nomination and send us a more appropriate one. I have asked the President to do just that. If, however, the Senate does vote on the nomination of Jim Cason to be Assistant Secretary of Agriculture, I will vote against him.

The position of Assistant Secretary of Agriculture requires a record of proven commitment to land conservation. During his tenure at the Department of the Interior, Mr. Cason failed to establish such a record. In responding to a series of questions I asked him about the 1990 farm bill, he concentrated on the cost of conservation programs without even mentioning the fact that they are cost effective over the long term.

America's wetlands and other threatened lands are far too valuable to be entrusted to a custodian whose commitment to protecting them is, at best, questionable.

In response to queries from my office about why he wanted this particular job—as opposed to others for which I would be more than delighted to support him—Mr. Cason could not identify any unique mission or skills he could bring to the position.

Let me stress that Mr. Cason is a good man, and the kind of public servant our Government really needs. I hope an appropriate position can be found for him. But I cannot support this particular nomination. I hope we can get to work on approving a genuinely proconservation nominee for Assistant Secretary of Agriculture.

MESSAGES FROM THE PRESIDENT

Messages from the President of the United States were communicated to the Senate by Mr. Kalbaugh, one of his secretaries.

EXECUTIVE MESSAGES REFERRED

As in executive session the Presiding Officer laid before the Senate messages from the President of the United States submitting sundry nominations and a treaty which were referred to the appropriate committees.

(The nominations and treaty received today are printed at the end of the Senate proceedings.)

MESSAGES FROM THE HOUSE RECEIVED DURING RECESS

Under the authority of the order of the Senate of January 3, 1989, the Secretary of the Senate, on November 8, 1989, during the recess of the Senate, received a message from the House of Representatives announcing that the House agrees to the amendment of the Senate to the joint resolution (H.J. Res. 280) increasing the statutory limit on the public debt.

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

The message also announced that the Speaker has signed the following enrolled bills and joint resolutions:

H.R. 3287. An act to waive the period of congressional review for certain District of Columbia acts authorizing the issuance of District of Columbia revenue bonds;

H.R. 3318. An act to redesignate the Federal building in Houston, Texas, known as the Concorde Tower, as the "George Thomas 'Mickey' Leland Federal Building";

H.R. Res. 280. Joint resolution increasing the statutory limit on the public debt; and

H.J. Res. 425. Joint resolution designating November 12 through 18, 1989, as "Community Foundation Week."

Under the authority of the order of the Senate of January 3, 1989, House Joint Resolution 280 was subsequently signed on November 9, 1989, during the recess of the Senate, by the Acting President pro tempore (Mr. KERREY).

MESSAGES FROM THE HOUSE

At 2:19 p.m., a message from the House of Representatives, delivered by Mr. Hays, one of its reading clerks, announced that the House agrees to the amendments of the Senate to the bill (H.R. 1231) to direct the President to establish an emergency board to investigate and report respecting the dispute between Eastern Airlines and its collective bargaining units.

The message also announced that the House has passed the following bill, in which it requests the concurrence of the Senate:

H.R. 3067. An act to repeal Medicare provisions in the Medicare Catastrophic Coverage Act of 1988.

ENROLLED BILLS AND JOINT RESOLUTIONS SIGNED

Under the authority of the order of the Senate of January 3, 1989, the following enrolled joint resolution, previously signed by the Speaker of the House, was signed on November 9, 1989, during the recess of the Senate, by the Acting President pro tempore [Mr. KERREY].

The ACTING PRESIDENT pro tempore [Mr. FOWLER] reported that he had signed the following enrolled bills and joint resolution, previously signed by the Speaker of the House:

H.R. 3287. An act to waive the period of congressional review for certain District of Columbia acts authorizing the issuance of District of Columbia revenue bonds;

H.R. 3318. An act to redesignate the Federal building in Houston, Texas, known as the Concorde Tower, as the "George Thomas 'Mickey' Leland Federal Building"; and

H.J. Res. 425. Joint resolution designating November 12, through 18, 1989, as "Community Foundation Week."

PETITIONS AND MEMORIALS

The following petitions and memorials were laid before the Senate and were referred or ordered to lie on the table as indicated:

POM-373. A resolution adopted by the City Council of Lakewood, OH, supporting amendments to the Clean Air Act providing for a general reduction in sulphur dioxide emissions by placing a permanent cap on emissions from individual generating units; to the Committee on Environment and Public Works.

POM-374. A resolution adopted by the City Council of Lakewood, OH, supporting the proposed Americans With Disabilities Act; to the Committee on Labor and Human Resources.

REPORTS OF COMMITTEES

The following reports of committees were submitted:

By Mr. KENNEDY, from the Committee on Labor and Human Resources, without amendment:

S. 1391. A bill to amend the Public Health Service Act to establish a Foundation for Biomedical Research, and for other purposes (Rept. No. 101-193).

EXECUTIVE REPORTS OF COMMITTEES

The following executive reports of committees were submitted:

By Mr. JOHNSTON, from the Committee on Energy and Natural Resources:

Melva G. Wray, of Connecticut, to be Director of the Office of Minority Economic Impact;

William H. Young, of New Jersey, to be an Assistant Secretary of Energy (Nuclear Energy); and

Martin Lewis Allday, of Texas, to be a member of the Federal Energy Regulatory Commission for a term expiring October 20, 1993.

(The above nominations from the Committee on Energy and Natural Resources were reported with the recommendation that they be confirmed, subject to the nominees' commitment to respond to requests to appear and testify before any duly constituted committee of the Senate.)

INTRODUCTION OF BILLS AND JOINT RESOLUTIONS

The following bills and joint resolutions were introduced, read the first and second time by unanimous consent, and referred as indicated:

By Mr. SHELBY:

S. 1849. A bill to amend the Securities Exchange Act of 1934 to provide a private right of action for violations of the margin requirements under section 7 of the act; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. CONRAD (for himself, Mr. KOHL, Mr. ROBB, Mr. DASCHLE, Mr. WIRTH, and Mr. BOSCHWITZ):

S. 1850. A bill to require sequestration for a fiscal year if the actual deficit for the preceding fiscal year exceeds the target by more than $10,000,000,000; to the Committee on the Budget and the Committee on Governmental Affairs, jointly, pursuant to the order of August 4, 1977, with instructions that if one committee reports, the other committee have 30 days of continuous session to report or be discharged.

By Mr. LOTT:

S. 1851. A bill to supplement the impeachment remedy for removing Federal judges for misbehavior; to the Committee on the Judiciary.

By Mr. SARBANES (for himself and Ms. MIKULSKI):

S. 1852. A bill to amend the Chesapeake and Ohio Canal Development Act to make certain changes relating to the Chesapeake and Ohio Canal National Historical Park Commission; to the Committee on Energy and Natural Resources.

By Mr. CHAFEE (for himself, Mr. MITCHELL, Mr. BURDICK, Mr. MOYNIHAN, Mr. D'AMATO, Mr. BAUCUS, Mr. LIEBERMAN, Mr. DURENBERGER, Mr. WARNER, and Mr. JEFFORDS):

S. 1853. A bill to award a Congressional Gold Medal to Laurence Spelman Rockefeller; to the Committee on Banking, Housing, and Urban Affairs.

By Mr. METZENBAUM (for himself and Mr. BYRD):

S. 1854. A bill establishing the Aviation Policy Board for the purpose of setting airfares and routes, and requiring the Secretary of transportation to take certain actions to improve service and promote safety in airline travel; to the Committee on Commerce, Science, and Transportation.

By Mr. STEVENS:

S. 1855. A bill to authorize a certificate of documentation for the vessel *Camelot*; to the Committee on Commerce, Science, and Transportation.

S. 1856. A bill to authorize a certificate of documentation for the vessel *Sinbad*; to the Committee on Commerce, Science, and Transportation.

By Mr. WILSON:

S. 1857. A bill to establish an Upper Sacramento River fishery resources restoration program; to the Committee on Commerce, Science, and Transportation.

By Mrs. KASSEBAUM (for herself, Mr. DOLE, Mr. DANFORTH, and Mr. BOND):

S. 1858. A bill to amend the Federal Aviation Act of 1958 relating to bankruptcy transportation plans; to the Committee on Commerce, Science, and Transportation.

By Mr. WARNER (for himself, Mr. ROBB, Mr. JOHNSTON, and Mr. MCCLURE):

S. 1859. A bill to restructure repayment terms and conditions for loans by the Secretary of the Interior to the Wolf Trap Foundation for the Performing Arts for the reconstruction of the Filene Center in Wolf Trap Farm Park in Fairfax County, VA, and for other purposes; to the Committee on Energy and Natural Resources.

SUBMISSION OF CONCURRENT AND SENATE RESOLUTIONS

The following concurrent resolutions and Senate resolutions were read, and referred (or acted upon), as indicated:

By Mr. MURKOWSKI:

S. Res. 204. Resolution to express the Senate's concern over bid rigging activities at United States military bases in Japan, and to encourage the Departments of Defense, State, and Justice to continue their efforts to end these pursuits; to the Committee on Foreign Relations.

By Mr. BUMPERS (for himself and Mr. CHAFEE):

S. Res. 205. Resolution to establish a student tree planting program; considered and agreed to.

By Mr. KENNEDY:

S. Con. Res. 80. Concurrent resolution to correct technical errors in the enrollment of the bill H.R. 2710; considered and agreed to.

STATEMENTS ON INTRODUCED BILLS AND JOINT RESOLUTIONS

By Mr. SHELBY:

S. 1849. A bill to amend the Securities Exchange Act of 1934 to provide for a private right of action for violations of the margin requirements under section 7 of the act; to the Com-

mittee on Banking, Housing, and Urban Affairs.

PRIVATE RIGHT OF ACTION LEGISLATION

● Mr. SHELBY. Mr. President, I have always subscribed to the philosophy that our capital markets should be allowed to react freely, generally unhindered. The capital markets will, given time, make the adjustments necessary to reflect changing economic circumstances and should be permitted to do so without government interference save for the existence of a basic regulatory structure to ensure fundamental soundness and integrity. I have never perceived corporate acquisitions, hostile or otherwise, as evil per se. However, I have become increasingly concerned about our domestic corporate debt levels and the prevailing attitude that it is better to owe than to own.

I believe that the most serious problem that confronts our economy today is debt—debt owed by our Government, debt owed by our businesses, and debt owed by our citizens. The levels are staggering. The national debt will soon be over $3 trillion; the household debt is over $3 trillion; and the business debt is over $4 trillion. Soon interest on the Federal debt will become the single largest component of the Federal budget, diverting money to pay for past expenditures and preventing the use of these resources on problems facing us today. Similarly, too much corporate debt means too much cash flow is diverted into debt service from research and development and from other new capital investment. Further, too much corporate debt is driving up the cost of capital thereby impeding sound long term corporate planning.

Unfortunately, the key to a corporate takeover is frequently debt. The bidder secures loans from a bank in order to purchase the shares of the target company. To repay these loans, the newly acquired company issues new debt and usually sells off assets to generate cash. Similarly, in defending against a bidder, a corporation may itself issue new debt using the proceeds to purchase its own stock in order to fend off potential acquirers.

While a takeover is often part of a legitimate business plan of a corporation to enter a new business or to acquire a going concern and thereby increase the corporation's ability to efficiently provide products and services, there is no doubt that there exist abuses associated with hostile takeovers. Some of these abuses have recently manifested themselves in the form of default in the payment of high yield bonds. Obviously too much subordinate debt is present, and more pundits except to see more such defaults occur in the future.

Certain corporate situations should be defined and addresed to insure that the vast amount of corporate debt our businesses are accumulating is being accumulated in an environment that minimizes the potential for takeover abuse. Many of today's corporate takeover transactions may be saddling American corporations with a dangerous level of debt which will restrict their ability to modernize and weather economic downturns.

I have previously attempted to partially address the problem of growing corporate debt by leveling the incentives for issuing debt versus issuing equity. During June of this year, I introduced a bill providing a deduction to companies for dividends paid to its shareholders to correspond with the deduction already permitted to companies for the interest it paid on corporate debt. During September of this year, I introduced another bill, the Investor Equality Act, which I hope will serve as another positive step toward what I believe is a series of legislative remedies necessary to curtail our increasing corporate debt and the dangers attendant thereto.

Today I am introducing legislation to clarify a confusing state of affairs which is presently occurring in the securities law area, particularly with respect to corporate takeovers. Section 7 of the Securities Exchange Act of 1934, among other things, authorizes the Board of Governors of the Federal Reserve System to prescribe rules and regulations with respect to the amount of credit that may be initially extended and subsequently maintained on any security. Legislation for this authority was enacted for the purpose of preventing the excessive use of credit for the purchase or carrying of securities—certainly a noble goal in today's present corporate debt ridden environment.

The FED has promulgated a complex array of margin regulations pursuant to this grant of authority, many of which apply in the corporate tender offer area. The FED's margin regulations generally prohibit more than 50 percent of the cost of acquiring stock in a tender offer from being secured, directly or indirectly, by the stock of the acquired company. Many of the hostile corporate takeovers launched in the last few years have been so highly leveraged that the existence of margin regulation violations would appear likely.

With these myraid margin regulations in place, one would assume that while complex questions of interpretation will arise periodically, the regulations would be enforced. Increadibly enough at least with respect to hostile corporate tender offers, that may not be the case. The Securities and Exchange Commission is the agency charged by statute with enforcing the FED's margin requirements. However, the SEC has recently shown no inclination to initiate an enforcement action against potential margin regulation violatators in the corporate tender offer area. Hopefully, under the new leadership of Richard Breeden, the SEC will become more assertive in investigating potential margin violators and vigorously pursuing those individuals and entities responsible for the violations in the most appropriate legal manner.

In the absence of action by the SEC, the next logical place to turn for enforcement would be the courts. Sadly, while in the past there was a split of authority on the issue, the most recent court pronouncements on the subject overwhelmingly conclude that no standing exists for a private cause of action. Thus, without becoming mired in the legal jargon, even if the financing for a corporate acquisition is substantially suspect and potentially violates the margin requirements, the court holds that no one can bring a private right of action to challenge the acquisition because there exists no standing to bring such an action.

One does not have to be a Wall Street wizard to suspect that much of the takeover activity over the past few years has been transacted with margin lending violations. However, no one appears to be interested in policing the requirements. The FED claims it is required by law to look to the SEC for enforcement; the SEC is apparently dropping the ball; and the courts state that no one else has the standing to become involved. The solution would be to pass legislation that provides for a private right of action for violations of the margin requirements. This is the simple purpose of the legislation that I am introducing today.

My bill would amend the Securities Exchange Act of 1934 by adding a provision which would permit an issuer of securities to bring a suit for damages against a purchaser of 5 percent or more of any class of such securities if the purchase of the securities violates the margin lending requirements. Further, the bill would be essentially retroactive for 3 years to allow the courts the opportunity to scrutinize many of the recent takeovers to ensure that margin lending violators do not remain unpunished.

Without legislative action, margin violators will continue to roam across our capital markets with total disregard for the financial safeguards designed for, among other purposes, the protection of the small equity investor and small bondholder. I urge my colleagues to join me in supporting the measure and look forward to examining in more detail the private right of action issue during the Banking Committee's takeover hearings.

I ask unanimous consent that the bill be printed in full in the RECORD following the completion of my statement.

29-059 O-90-3 (Pt. 20)

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1849

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That (a) section 7 of the Securities Exchange Act of 1934 (15 U.S.C. 78g) is amended by adding at the end the following:

"(h) The issuer of securities purchased or carried in violation of this section or the rules or regulations thereunder in connection with the financing of a tender offer for, a request or invitation for tenders of, or other acquisition of, 5 percent or more of any class of equity securities of such issuer, or any shareholder of such issuer, may bring suit in any court of competent jurisdiction to recover actual damages sustained by that person, and the cost of the suit, including reasonable attorney's fees, and to seek such equitable relief as the court deems proper to carry out the purposes of this section and the rules and regulations thereunder. Such relief may include an order enjoining any person violating any provision of this section and the rules and regulations thereunder from voting securities, an order to compel divestiture of securities, or an order enjoining the making of any tender offer for such period of time as the court may order. The provisions of subsection (b) of section 18 of this title shall apply to any such action seeking monetary damages. No action shall be maintained to enforce any liability created under this subsection unless brought within 3 years after such cause of action accrued.".

(b) The amendment made by subsection (a) shall take effect on the date of enactment of this Act and shall apply to any tender offer, request, or invitation for tenders that commenced, or other acquisition of securities that was made, on or after the beginning of the 3-year period preceding such date of enactment.●

By Mr. CONRAD (for himself, Mr. KOHL, Mr. ROBB, Mr. DASCHLE, Mr. WIRTH, and Mr. BOSCHWITZ):

S. 1850. A bill to require sequestration for a fiscal year of the actual deficit for the preceding fiscal year exceeds the target by more than $10 billion; pursuant to the order of August 4, 1977, referred jointly to the Committee on the Budget and the Committee on Governmental Affairs.

REQUIRING SEQUESTRATION TO COVER DEFICIT SPENDING IN EXCESSS OF $10 BILLION

Mr. CONRAD. Mr. President, after the events of last evening to extend the debt limit, perhaps this morning is a good time to discuss additional methods for deficit reductions.

That is my purpose this morning as I rise to introduce a bill on behalf of myself, Senators KOHL, ROBB, DASCHLE, WIRTH, and BOSCHWITZ.

The need for action is clear. Over the last decade we have engaged in a policy of debt, deficit, and decline. The evidence is overwhelming. We've tripled the national debt. We have multiplied the trade deficit fourfold. We have gone from being the largest creditor nation in the world to being the largest debtor nation. Our national savings rate has declined and continues to be lower than our economic competitors. This is not a policy that can be sustained.

It is clear that we must do something to get the Nation headed in the correct fiscal direction. We've been operating under the Gramm-Rudman law for several years and with each year, we learn more ways around it. I am a cosponsor of several process reform proposals. None of them will solve our problem; the President and Congress will have to make the decisions to reduce the deficit. However, I believe that if we can reduce the number of loopholes in the budget process and focus on the real problem, we will be closer to a solution.

I rise today to introduce a proposal to help us gain that focus.

THE LOOK BACK PROPOSAL

This bill would amend Gramm-Rudman to close one of the loopholes that Congress and the administration have taken full advantage of recently—increasing funding in the current fiscal year because it doesn't "cost" anything. We have done it through payroll shifts; we did it with the savings and loan bailout; we'll do it at the next opportunity unless there is a tangible consequence for our action.

The Gramm-Rudman law as it is structured, keeps Congress and the administration focused on the upcoming fiscal year. We attempt to meet one target at a time. We'll do almost anything to satisfy that one target—at the expense of making lasting policy choices. We continue to create new accounting gimmicks. Once OMB decides that we've satisfied the requirement and we'll meet the deficit target for the next fiscal year Congress then proceeds to shift costs into that fiscal year because it doesn't count against Gramm-Rudman. We've already met the target. Well, no matter how we try to fool ourselves, it does count.

This bill would reduce the incentive to shift funding into the current year by providing a real consequence for that action: If legislation is enacted during the fiscal year that increased the deficit—and did not provide an offset—that action runs the risk of causing sequestration.

For example, this August, OMB determined that the deficit for fiscal year 1990 would be $126 billion. The way we operate now, once Congress passes the legislation necessary to get back to the target, the work of meeting Gramm-Rudman is completed for the year. This year, for example, the budget reconciliation bill will bring us back to the necessary range to meet Gramm-Rudman requirements. Under this bill, however, if future legislative action pushed the deficit over the target—by more than the $10 billion cushion—again, a sequestration would be required to bring the deficit back down to the cushion level.

This bill would not add another sequestration date—all the changes tie into our current process timetable. It wouldn't extend the time we have for budget deliberation. If we actually made lasting policy choices—as painful as they would be—we may actually reduce the time necessary to formulate budget policy.

Also, under this bill Congress would be required to use CBO economic and technical assumptions throughout the process. I believe that will go a long way to bring some honesty to our work.

I have consulted with the Congressional Budget Office in drafting this bill and have incorporated its suggestions. On CBO advice, for example, all action would be scored according to the same forecast throughout the year. All changes to the budget for fiscal year 1991 would be scored—for Gramm-Rudman purposes—on the forecast that OMB used in August when it determined that the deficit level for fiscal year 1990. Congress would be working under the same set of rules the entire time. There would be no shifting ground to deter us—or to hide behind.

I offer this proposal as a constructive modification on the budget process, not as a panacea. Former CBO Director Rudy Penner once said, "The process isn't the problem. The problem is the problem." If we can tighten the process to force Congress to look at the problem rather than evade it, I believe we'll be closer to a solution. I urge my Senate colleagues to take a serious look at the proposal.

Mr. President, I ask unanimous consent that the text of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1850

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SEQUESTRATION TO COVER DEFICIT SPENDING IN A PRECEDING FISCAL YEAR IN EXCESS OF $10,000,000,000.

(a) DETERMINATION OF DEFICIT SPENDING.—Section 251(a)(1) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901(a)(1)) is amended—

(1) by redesignating subparagraphs (C) and (D) as subparagraphs (E) and (F), respectively; and

(2) by inserting immediately after subparagraph (B) the following new subparagraphs:

"(C) estimate the budget levels of total revenues and outlays that may be anticipated for the preceding fiscal year as of August 15 of the preceding fiscal year, such estimates to be based on the same economic and technical assumptions on which the estimates for that fiscal year pursuant to subparagraph (A) were made the previous year,

"(D) determine whether the projected deficit for the preceding fiscal year will exceed the maximum deficit amount for the preceding fiscal year and whether such deficit

excess will be greater than $10,000,000,000 (zero in the case of fiscal year 1993), such determination to be based on the same economic and technical assumptions on which the determination for that fiscal year pursuant to subparagraph (B) was made the previous year,".

(b) REPORTS.—Section 251(a)(2) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901(a)(2)) is amended—

(1) in subparagraph (A) by striking "1993), estimating" and inserting "1993), identifying the amount of any deficit excess for the preceding fiscal year, stating whether such excess is greater than $10,000,000,000 (zero in the case of fiscal year 1993), estimating";

(2) by redesignating subparagraph (C) as subparagraph (D);

(3) by inserting the following new subparagraph after subparagraph (B):

"(C) The budget of the United States submitted by the President pursuant to section 1105, United States Code, and the supplemental budget submitted pursuant to section 1106, United States Code, shall include a determination whether the projected deficit for the fiscal year preceding the fiscal year for which the budget and supplemental budget are submitted will exceed the maximum deficit amount for the preceding fiscal year (such determination to be made using the same technical and economic assumptions that the Director of OMB used in making the initial determination of the deficit excess for that fiscal year in the report made pursuant to subparagraph (B)) and whether such deficit excess will be greater than $10,000,000,000 (zero in the case of fiscal year 1993).''; and

(4) by adding the following new clauses at the end of subparagraph (D) (as redesignated by paragraph (2));

"(v) The Director of CBO, in making the determination of the deficit excess of a fiscal year in the revised report made pursuant to section (c)(1), shall use the same technical and economic assumptions that were used in making the initial determination of the deficit excess for that fiscal year in the report made pursuant to subparagraph (A).

"(vi) The Director of OMB, in making the determination of deficit excess of a fiscal year in the revised report made pursuant to section (c)(2), shall use the same technical and economic assumptions that were used in making the initial determination of the deficit excess for that fiscal year in the report made pursuant to subparagraph (B).".

(c) DETERMINATION OF REDUCTIONS.—Section 251(a)(3)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985 (2 U.S.C. 901(a)(3)(A)) is amended—

(1) in subclause (II) by striking "or" at the end thereof;

(2) in subclause (III) by—

(A) striking "1991, 1992, or 1993,"; and

(B) striking the period and inserting "; or" at the end thereof; and

(3) by adding the following new subclause at the end thereof:

"(IV) for fiscal year 1991, 1992, or 1993—

"(aa) zero if the deficit excess for such fiscal year and the preceding fiscal year is equal to or less than the amount of the margin for each such fiscal year, respectively, specified in paragraph (10) of section 257; or

"(bb)(aaa) if the deficit excess for such fiscal year is greater than the amount of the margin for such fiscal year specified in paragraph (10) of section 257, the amount of the deficit excess for such fiscal year; and

"(bbb) if the deficit excess for the preceding fiscal year is greater than the amount of the margin for the preceding fiscal year specified in paragraph (10) of section 257, the amount of the deficit excess for the preceding fiscal year minus the amount of the margin for the preceding fiscal year.".

(d) USE OF CBO ECONOMIC ASSUMPTIONS.—Section 301(g) of the Congressional Budget Act of 1974 (2 U.S.C. 632(g)) is amended to read as follows:

"(g) ECONOMIC ASSUMPTIONS.—

"(1) Determinations under titles III and IV for any fiscal year shall be based upon the economic and technical assumptions of the Congressional Budget Office.

"(2) It shall not be in order in the Senate or the House of Representatives to consider any concurrent resolution on the budget for a fiscal year, or any amendment thereto, or any conference report thereon, that sets forth amounts and levels that are not determined in accordance with paragraph (1). A point of order under this paragraph may be waived or suspended in the Senate or the House of Representatives only by the affirmative vote of three-fifths of the Members of the Senate or the House of Representatives duly chosen and sworn.

"(3) The joint explanatory statement accompanying a conference report on a concurrent resolution on the budget shall clearly set forth the economic assumptions upon which such joint statement and conference report are based.".

By Mr. LOTT:

S. 1851. A bill to supplement the impeachment remedy for removing Federal judges for misbehavior; to the Committee on the Judiciary.

JUDICIAL INTEGRITY AND INDEPENDENCE ACT

Mr. LOTT. Mr. President, I rise today to introduce legislation that would provide an alternative to impeachment for removing Federal judges from office.

The Judicial Integrity and Independence Act of 1989 would authorize the appointment of a special three-judge court, which would have the power to remove a member of the Federal Judiciary for misbehavior. Under this measure, a Federal judge would have to step down from the bench if the Attorney General of the United States alleged and was able to prove before a three-judge court that the judge had violated the constitutional standard of good behavior by committing a felony.

Article II, section 4 of the Constitution states that: "The President, Vice President and all civil Officers of the United States, shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, or other high Crimes and Misdemeanors." Federal judges are included among civil officers.

Article I, section 3, grants the Senate the sole power to convict and remove such officials from office, by a two-thirds vote.

However, Federal judges also are subject to article III, section 1, which provides that judges shall hold their office during good behavior. But the article does not set forth procedures under which judges who violate the condition of their tenure can be removed.

Under the Judicial Integrity and Independence Act of 1989, the Chief Justice of the United States, upon petition of the Attorney General, would be required within 30 days of receipt of such a petition, to appoint three Federal judges to try charges of misbehavior.

The Federal Rules of Civil Procedure would apply but special procedural safeguards utilized in criminal prosecutions—proof beyond a reasonable doubt, right to confront all adverse testimony, the exclusionary rule, the right to silence—would not since the removal panel would not have any power to dispense additional punishment. A unanimous verdict would be required for removal, and the decision would be final.

This proposal is similar to a measure approved by the House of Representatives in 1941. At the time, both the Department of Justice and the American Bar Association propounded the view that impeachment is not the only means authorized by the Constitution for the removal of a judge who has failed to comply with the constitutional requirement of good behavior.

And in 1970, the Department of Justice again endorsed this view. In testimony before the Senate Judiciary Committee, the assistant attorney general in charge of the Office of Legal Counsel stated that "impeachment is not the only constitutionally permissible method for the removal of judges."

He also said that "there is nothing on the face of article II, section 4, "to indicate that it was designed to constitute the exclusive method for the removal of judges." Today, that former Justice Department official serves as Chief Justice of the Supreme Court of the United States.

Now that the Hastings and Nixon cases are behind us, I believe it is an appropriate time to examine the impeachment process as it applies to Federal Judges to see whether it can be improved.

I, for one, have serious concerns about the process. And many of my colleagues have expressed similar misgivings. For example, why does it take so long to initiate proceedings against Federal Judges who misbehave? And why is it taking the Congress so much longer than it did during earlier impeachments in our Nation's history to complete action on these cases once a decision is made to move ahead?

In the 200 years following the adoption of our Constitution, only seven Federal judges have been convicted by the U.S. Senate and removed from office. Until the 1986 conviction of Judge Harry T. Claiborne of Nevada, there had not been an impeachment trial in 50 years.

But in the space of 2 weeks, the Senate has just voted to convict and remove two Federal judges—Alcee L. Hastings of Florida and Walter L. Nixon, Jr., of Mississippi.

Each of these cases involved charges that had been considered earlier by a jury in a criminal trial. In the Claiborne and Nixon cases, the judges were convicted and served time in prison, during which they continued to draw their salary, currently $89,500, for more than 2 years.

Something is wrong with the process when Federal judges are convicted of a felony in a criminal trail, sent to prison, and continue to receive their salary, even though they are not doing anything to earn it.

The trial of Judge Hastings resulted in his acquittal in 1983. But something is wrong with the process and unfair to the accused when 8 years passes between the time of the alleged offenses and impeachment by the House and trail by the Senate.

It took Congress a record 31 months from the date the Judicial Conference recommended that impeachment proceedings against Judge Hastings be initiated in the House of Representatives until the Senate rendered its verdict. The Hastings case was before the Senate longer than any impeachment trial in history, lasting 14½ months.

In 1935, recognizing the burdens that impeachment trials were imposing on the institution, the Senate adopted rule 11, which provides that the Senate shall appoint a committee to receive evidence and take testimony before an impeachment trail, if the Senate so orders. The Senate actually utilized select committees three times prior to 1935. But the first time it was used following adoption of rule 11 was in 1986 for the Claiborne case. It also was used in the recent Hastings and Nixon cases.

As our Nation has expanded, our legal system has grown in complexity. The Federal judiciary also has grown in numbers, and unfortunately, we may well be faced with more impeachments in the future. Recent experience bears this out.

For example, a criminal indictment against a Federal judge is now pending in California and, while I do not prejudge this matter in any way, these criminal proceedings could eventually lead to the initiation of impeachment proceedings in the House of Representatives.

The existing process of impeachment is cumbersome, time-consuming and unproductive for the Senate, for Senators, and for the Nation's business. In fact, impeachment might be compared to using a machinegun against an army of ants when an insect spray might do. And it is ill-suited today for the purpose of removing Federal judges whose conduct is open to question.

Most Members of Congress are busy with their numerous legislative and political responsibilities, and are unable to take the time required to focus on, listen to, and analyze the voluminous testimony in determining whether the constitutional standard of "high crimes and misdemeanors" for conviction on impeachment charges has been reached.

When the framers of our Constitution assembled in Philadelphia 202 years ago, the U.S. Senate was comprised of 26 Senators—one-fourth the size of today's Senate—just three fewer Members than our largest committee, the Appropriations Committee. Today, the Senate is an unwieldy body to have to sit as a court and jury in impeachment trials.

To be sure, the Senate contains the finest group of men and women anywhere, including a number of distinguished jurists. Many of us are attorneys by training. When I first was elected to Congress, I served on the House Judiciary Committee, and participated in the impeachment proceedings involving former President Richard Nixon.

But all of us are here because we are legislators first and foremost, not jurists. We were not elected to be legal experts in the administration of justice. And I do not believe that, except in situations involving the highest public officials, the U.S. Senate should be required to lay aside its legislative duties and don the robes of a judicial tribunal. Rather, it seems to me that the responsibility for determining whether Federal judges have misbehaved can be handled best by the judicial branch itself.

The bill I am introducing today is based upon additional procedures that most States have for removal of State judges. The States have created special commissions, whose members are appointed by the Governor, the State judiciary or the State bar, to investigate complaints against judges. After concluding an investigation, the commission can make recommendations directly to the State supreme court, which has the authority to discipline, suspend or remove a judge.

In my own State of Mississippi, for example, a State judge can be impeached, but we also have an alternate procedure that operates as follows. Upon the recommendation of a Commission on Judicial Performance, the State supreme court may remove, suspend, fine, publicly censure or reprimand a judge for various kinds of misconduct, including conviction of a felony in a court outside the State.

Most States have such a procedure. Isn't it about time the Federal Government also had a faster way than impeachment to remove Federal judges who misbehave?

The Judicial Integrity and Independence Act of 1989 is a modest proposal that would be used sparingly, since its provisions would be triggered only by allegations that a Federal judge had committed a felony. And it would not limit the ability of the Congress to initiate impeachment proceedings if it wished to do so.

Nor would it threaten the independence of the judiciary because neither the legislative nor the executive branch could compel the removal of a judge for alleged misconduct, other than through an impeachment proceeding. Only the judiciary would possess that authority.

There are two ways to remove officials of the Executive Branch. Either the President can seek their resignation or they can be impeached. And there are also two ways to remove Federal judges—through impeachment and through the procedures that would be triggered under this legislation. And we could do so without violating the Constitution since we would just be giving meaning to one of its sections, which is something Congress does all the time.

In 1936, following the conviction of Judge Halsted Ritter, Senator William McAdoo of California stated that "the nature of the process is such that * * * it seriously interrupts for long periods the necessary transaction of important legislative business, places an almost intolerable burden or hearings and weighing testimony upon Senators already charged heavily with other responsibilities * * *."

In 1941, Representative Hatton Sumners of Texas, who as chairman of the House Judiciary Committee participated in two judicial impeachments, warned his colleagues that "public opinion and public necessity cannot much longer tolerate this sort of ponderous, unfair, inadequate, farcical procedure—unfair to the judge on trial, to the Senate, to the people, and dangerous to the independence of the judiciary."

More recently, following the impeachment trial of Judge Harry Claiborne, our esteemed colleague, Senator HOWELL HEFLIN of Alabama, called for an alternative to impeachment, charging that the current procedure for impeaching Federal judges is "unworkable," "cumbersome and out of date." And our distinguished Republican leader, Senator BOB DOLE, also called for consideration of alternative remedies, describing the impeachment process as "time-consuming, expensive and elaborate."

The framers of the Constitution set forth a series of rules to govern the separation of the executive, legislative, and judicial branches. Among them was the intent that members of the Federal judiciary be free of all outside influences. Federal judges are the only civil officers who can hold their positions for life, provided they behave

themselves. Their salary cannot be reduced. And they are beholden to no one.

All that is required of them when they take their oath is that they assume office with the understanding that they will conduct themselves in accord with good behavior. If they misbehave, they violate their contract and may be compelled to give up their life tenure.

This legislation is premised upon the foundation that judges are to hold office only during good behavior. And the question is whether a judge has forfeited his right to continue in office is one that a court is fully qualified to determine if granted the authority to do so. This legislation will provide that needed authority.

It was a good idea in 1941, good enough to be approved by the House of Representatives. And it is an idea worth considering today. I ask my colleagues to support the Judicial Integrity and Independence Act of 1989 and invite them to join me in cosponsoring this measure.

I ask unanimous consent that a copy of the legislation, along with supporting materials, be printed in the RECORD. These include an article by Bruce Fein and William Bradford Reynolds, which was published in the October 30 issue of the Legal Times, and a copy of the testimony of William H. Rehnquist in 1970 before the Senate Judiciary Committee.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

S. 1851

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Judicial Integrity and Independence Act of 1989".

SEC. 2. PETITION.

The Attorney General is authorized, in his discretion, to petition the Chief Justice of the United States to appoint 3 judges within the Federal judiciary to determine whether a Federal judge (other than the Chief Justice of the United States or an Associate Justice of the Supreme Court of the United States) has engaged in conduct constituting a felony under the laws of the United States, and should be removed from office for lack of good behavior. The Chief Justice shall make the requested appointments within 30 days after receipt of the petition.

SEC. 3. CIVIL ACTION.

After appointment of the 3-judge court under section 2, the Attorney General, within 30 days after receiving notification of such appointment from the Chief Justice, may file a civil action to remove the accused judge before the 3-judge court in conformity with the Federal Rules of Civil Procedure, consistent with this Act.

SEC. 4. REMOVAL.

A Federal judge is removable under this Act only by the unanimous vote of the 3-judge court that he has engaged in conduct constituting a felony under the laws of the United States and should be removed from office for lack of good behavior. The decision of the 3-judge court shall be final and unreviewable in any other judicial forum.

SEC. 5. PROCEEDING ABATE.

Any civil removal action filed under section 3 shall be permanently ended if, at any time during its pendency, the House of Representatives votes an article of impeachment against the accused judge.

SEC. 6. NOT APPLICABLE TO JUSTICES OF THE UNITED STATES SUPREME COURT.

The civil removal powers of this Act are not applicable to Justices of the United States Supreme Court.

[From the Legal Times, Oct. 30, 1989]

JUDGES ON TRIAL: IMPROVING IMPEACHMENT

(By Bruce Fein and William Bradford Reynolds)

The recent trilogy of impeachment proceedings initiated against federal judges—Harry Claiborne, Walter Nixon Jr., and Alcee Hastings—spotlights the need to consider an alternative method for removing jurists for misbehavior. Most members of Congress are too busy to absorb all the impeachment testimony and deliberate meticulously on refined legal questions raised in determining whether misconduct rises to the level of a "high crime and misdemeanor," the constitutional standard for conviction on impeachment charges.

The heavy responsibility of deciding the grave question of removing a federal judge deserves a more informed deliberative process. This would not be difficult to structure: A new statute could empower a panel of three federal judges, on a unanimous vote, to remove one of their own for misbehavior. The removal would be made at the behest of the U.S. attorney general, if he alleges and proves facts constituting a federal felony on a special civil removal trial.

Article II, § 4 of the Constitution states that all "civil Officers of the United States shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, or other high Crimes and Misdemeanor." Article I, § 3 grants the Senate the sole power to try all such impeachment, and to convict—that is, remove from office—by a two-thirds vote.

There is no question that the impeachment provisions apply to federal judges. But federal judges are also subject to Article III, § 4, which stipulates that judges shall serve only during "good Behaviour." This is a stricter standard of conduct than the impeachment standard—and provides the basis for the legislation we advocate here.

The good-behavior standard is rooted in ancient British law; it was enforceable in England through judicial proceedings seeking to forfeit a judicial office by a writ of scire facias, subsequently replaced by the writ of quo warranto.

In the 200 years since the adoption of the Constitution, only 12 judges have been impeached; only six, convicted and ousted. Some 60 judges have been investigated by the House for high crimes and misdemeanors, eight have been censured, but not impeached, and the rest have either resigned during the House investigation or left office in anticipation of possible impeachment inquiries.

"DOCTRINAIRE REVERENCE"

Limited judicial misconduct and a doctrinaire reverence for judicial independence have discouraged Congress for two centuries from legislating removal procedures for misbehaving federal judges. This prolonged inaction has persisted despite Congress' acknowledgment that impeachment, as the sole method of removal, is sorely lacking.

For example, as early as 1936, after the impeachment conviction of Judge Halsted Ritter, Sen. William McAdoo complained: "[T]he nature of the process . . . seriously disrupts for long periods the necessary transaction of important legislative business, places an almost intolerable burden of hearing and weighing testimony upon Senators already charged heavily with other responsibities, and for this reason alone is always resorted to with extreme reluctance, even in cases of flagrant misconduct." The "practical certainty," as McAdoo put it, that misconduct will rarely lead to impeachment "is a standing invitation for judges to abuse their authority with inpunity and without fear of removal."

Of course, today, a half-century later, members of Congress are even more preoccupied with legislative and constituent duties. Moreover, the number of federal judgeships has mushroomed to 761, which creates at least the possibility of some increase in the incidence of judicial misbehavior.

Plainly, impeachment trials suffer from shortcomings in the quest for truth. After the conviction of Judge Ritter, Rep. John Robinson lamented: "[I]t is humanly impossible to have all the Senators present all the time for a period of 10 days, 2 weeks or more, sitting as a jury." Rep. Chauncey Reed agreed that Senators "cannot and will not divest themselves of the time they must necessarily devote to their lawmaking activities and concentrate, analyze and digest the intricate testimony."

These unsettling remarks are even more pertinent to the contemporary impeachment proceedings against Claiborne (1986). Hastings (convicted on Oct. 20) and Nixon (in progress). Pursuant to Senate Rule XI, a select 12-member Senate committee was entrusted with the task of hearing testimony on behalf of the full Senate in each of these cases. Even with this streamlined procedure. Sen. Howell Hellin (D-Ala.) declared after the Claiborne case that "the Senate is no longer structurally able to conduct a long and complicated impeachment trial." He added: "[I]t is unrealistic to expect 100 Senators to act as both judge and jury during such a trial." Historically, the average impeachment trial has lasted about 16 days: the longest extended to six weeks.

Our proposed statute better addresses contemporary realities. Under our proposal, the chief justice of the United States would be empowered to appoint three federal judges to try charges of misbehavior initiated by the attorney general. Only allegations of conduct amounting to a federal felony (whether or not previously presented to a grant jury or trial jury) could trigger a removal proceeding. That strict criminal standard would reduce the likelihood of partisan accusations that might more easily be contrived by the executive branch under the broader and more nebulous standard of "misbehavior."

The attorney general would prosecute the case according to the Federal Rules of Civil Procedure. Special procedural safe-guards pertinent in criminal prosecutions—proof beyond a reasonable doubt, right to confront all adverse testimony, the exclusionary rule, the right to silence—would be inapplicable because removal proceedings inflict no punishment. (Convicted Judge Hastings, for instance, announced plans to resume law practice and has entered the race for governor of Florida.) A unanimous verdict by the

three presiding judges would be required to remove, and their decision would be unreviewable.

The recommended statutory removal procedures are unthreatening to judicial indepence. Neither the legislative nor executive branch could compel removal of a judge for alleged misconduct; that authority would be lodged solely within the federal judiciary itself. Nor will conoclastic judges need fear the ire of their brethren, for two reasons: Initiation of charges would be in the hands of the attorney general, and the felony standard would sharly circumscribe the discretion of both the prosecutor and the presiding judges in a removal proceeding.

Our idea is not entirely novel: The House passed a similar bill on Oct. 22, 1941, by a vote of 124 to 122, but it died in the Senate.

That Congress has left unexercised for 200 years its power to enact removal legislation is no argument against its constitutionality. There is no statute of limitations on the assertion of wisdom or legislative authority.

(Bruce Fein is a lawyer in private practice in Great Falls, Va., specializing in constitutional and telecommunications law. William Bradford Reynolds, a lawyer in private practice in Washington, D.C., is also a fellow at the National Legal Center in the Public Interest and a scholar at the Free Congress Foundation. "In All Candor" appears every other week in Legal Times.)

STATEMENT OF ASSISTANT ATTORNEY GENERAL WILLIAM H. REHNQUIST, OFFICE OF LEGAL COUNSEL, ON S. 1506, THE JUDICIAL REFORM ACT BEFORE SUBCOMMITTEE ON IMPROVEMENTS IN JUDICIAL MACHINERY OF THE COMMITTEE ON THE JUDICIARY, U.S. SENATE, 91ST CONGRESS, APRIL 9, 1970

Mr. Chairman: I welcome this opportunity to appear before this Subcommittee as the representative of the Department of Justice to testify on S. 1506, the proposed Judicial Reform Act.

S. 1506 covers many different areas, many of which are the direct concern of the legislative and judicial branches, rather than the executive. I therefore propose to limit my testimony to the constitutionality of the provisions of the bill relating to the removal of judges by methods other than impeachment, and to the involuntary retirement of judges for disability.

My conclusions on those two points are, in brief: First, impeachment is not the only constitutionally permissible method for the removal of judges; hence, judicial procedures for removal of the type provided for in S. 1506 are permissible. Second, a forceful argument can be made that a compulsory retirement system complies with the requirements of the Constitutional provision for tenure during good behavior, if it provides, as does S. 1506, for the continuation of the judge's salary and for an enforceable right to perform such judicial functions as the retired judge is willing and able to perform.

The Constitutional problems here involved obviously are far too complex to be handled adequately by way of testimony, which must necessarily be brief and cannot adequately document the historical and legal background. The Committee's own memorandum on the subject deals thoroughly with the English common law background of the problem, and with the arguments flowing from the Constitutional language itself. I shall advert only briefly to these, and concentrate on several historical precedents from the early history of our own nation.

I.

I shall first deal with the question whether impeachment is the only method authorized by the Constitution for the removal of a judge who has failed to comply with the Constitutional requirement of good behavior.

The various materials printed in the Appendix to your Hearings indicate that the Subcommittee is fully cognizant of the historical background of the good behavior clause. I therefore need give only such brief outline of the historical background as is absolutely required for a logical exposition of the Constitutional problems presented by Titles I and II of S. 1506.

Tenure of an office during good behavior has its roots in the England of the Middle Ages. It constitutes a grant of an office for life terminable upon breach of the condition that the incumbent behave himself well. The condition was breached by malfeasance in office or failure to perform the duties of the office. The question whether the condition was breached and the office forfeited was traditionally determined in judicial proceedings in the nature of the scire facias.

Originally tenure during good behavior was conferred on what we would now call administrative officers and on some judges of the lower courts. Thus, since the end of the XVth century, the Barons of the Exchequer who were primarily financial officers held office during good behavior.

The judges of the Courts of the King's Bench and Common Pleas, who are the closest to our federal judiciary, however, were granted commissions at the King's pleasure until the middle of the XVIIth century. From 1641 until 1669 the judges of all three Royal Courts were appointed to hold office during good behavior. From 1669 on, Charles II again began to appoint judges to hold office during the King's pleasure. The interference of the late Stuarts with the administration of justice was notorious. One of the principal reforms of the Glorious Revolution of 1688-1689 was the reinstitution of the judicial good behavior tenure, first as a matter of grace, and, as the result of the Act of Settlement of 1701, as a matter of law, beginning with the accession of the House of Hanover in 1714.

Article III, section 1 of the Constitution provides that the judges of the federal courts shall hold office during good behavior. The Article, however, does not specify the procedure for the removal of a judge who violates that condition of his tenure. Article II, section 4 of the Constitution, of course, provides that—"The President, Vice President and all civil Officers of the United States, shall be removed from Office on Impeachment for, and Conviction of, Treason, Bribery, or other High Crimes and Misdemeanors."

There is nothing on the face of that section to indicate that it was designed to constitute the exclusive method for the removal of judges. It certainly is not the exclusive method for the removal of nonjudicial civil officers, other than the President and Vice President, who have been found guilty of treason, bribery, and other high crimes and misdemeanors. Moreover, the terms "treason," "bribery," "and other high crimes and misdemeanors" are narrower than the malfeasance in office and failure to perform the duties of the office, which may be grounds for forfeiture of office held during good behavior.

Nevertheless the question whether impeachment is the only method envisaged by the Constitution for the removal of judges has been debated ever since the Federal Convention completed its draft of the Constitution. The basis for the controversy is presumably Alexander Hamilton's statement in The Federalist No. 79 that impeachment was the only provision for removal "which we find in our own Constitution in respect to our own judges." Alexander Hamilton is, of course, rightly respected as an interpreter of the Constitution. It appears, however, that in the particular area of power to remove federal officers Hamilton has not been infallible. Thus, in The Federalist No. 77, he expressed the view that officers appointed by and with the advice and consent of the Senate could be removed only with the consent of that body. The Great Debate of 1789 proved that he was wrong on this score and that such officers could be removed by the President alone. And, as a letter written by James Madison in 1829 indicates, Hamilton changed his view of the Constitution on this point.

During the first formative years following adoption of the Constitution there occurred at least three incidents which indicated that Hamilton's views as to the exclusive nature of impeachment were not shared by his contemporaries. The First Congress not only rendered the decision of 1789 with respect to the removal of Presidential appointees. It also provided in section 21 of the Act of April 30, 1790, that a judge convicted of accepting a bribe "shall forever be disqualified to hold any office of honour, trust or profit under the United States." This statute thus has the effect of removing a judge upon a criminal conviction and without impeachment proceedings. It was passed by a Congress many members of which had attended the Constitutional Convention, as had President Washington who approved it. Alexander Hamilton, then serving as Secretary of the Treasury, apparently raised no objection to the bill.

The second pertinent incident occurred in 1796. A petition presented to Congress by inhabitants of the Northwest Territory lodged serious charges against a territorial judge, who held office during good behavior. The House of Representatives asked Attorney General Lee for his advice on the proper method of proceeding against the judge. The Attorney General responded that the charges were so serious that if the judge were convicted, "a removal may and ought to be a part of punishment." He continued that since judges held office during good behavior, they could not be removed until lawfully convicted of some official misconduct. Such conviction could be obtained in three ways: upon information, upon indictment, or upon impeachment before the Senate. He considered impeachment to be generally the best suited, but not the exclusive, method of trying judges. Here, he felt that impeachment was not advisable since the witnesses resided about 1500 miles from the seat of Government, and therefore recommended that the trial be held before the Supreme Court of the Territory upon either information or indictment. The House Committee in charge of the matter submitted a report concurring in that recommendation.

The third pertinent incident relates to President Adams' Circuit Court Act of 1801 and its repeal under the Jefferson Administration in 1802. The Judiciary Act of 1789 established circuit courts, but did not provide for circuit judges. Instead, the circuit courts were held by panels composed of Su-

preme Court Justices and district judges. President Adams' Circuit Court Act of 1801 provided for the appointment of specific circuit judges. However, in view of the unpopularity of that statute with President Jefferson's Republican Party, the 1801 Act was repealed in 1802 with the intended effect that the circuit judges' commissions terminated when their judicial offices were abolished.

During the debates, the Federalists argued that judges could be removed from their judicial positions only by way of impeachment and that no other method was constitutionally permissible. On that occasion Senator Stone carefully analyzed the pertinent provisions of the Constitution and concluded to the satisfaction of the Senate that under the Constitutional plan impeachment was not the only method for terminating judicial tenure held during good behavior. As a result of the repeal, the commissions of the circuit judges appointed under the 1801 Act were terminated when the 1802 repeal legislation went into effect, and the circuit courts were again comprised of Supreme Court Justices and district judges until the Circuit Courts of Appeals were established in 1891.

During the first thirteen years under the Constitution there were thus three instances in which the impeachment provisions of the Constitution were not considered to be the exclusive method for ending a judicial tenure. Admittedly during the following 158 years, Congress took no new action in this field. * * *

I therefore conclude that in our Constitutional plan impeachment was not intended to constitute the exclusive method for the removal of judges who violate the good behavior requirement.

I have mentioned before that historically the forfeiture of an office held during good behavior was determined in judicial proceedings. Nothing indicates that the Constitution intended to change this rule of law. The argument has been made that the forfeiture of an office held during good behavior by way of scire facias was an obscure common-law procedure of which the Founding Fathers were unaware. A perusal of the papers of John Adams, however, indicates that American lawyers of the second half of the XVIIIth century were well informed of the intricacies of common-law procedure. Indeed, Blackstone states that the writ of scire facias was the remedy to revoke a royal patent where the patentee had committed an act that constituted a forfeiture of the grant.

Attorney General Lee's opinion indicates that he was fully aware of this legal background. He regarded impeachment as a "most solemn" trial before the Senate, but essentially a judicial proceeding.

The Department of Justice therefore agrees with the theory underlying Title I of S. 1506, viz., that under the Constitution impeachment is not the exclusive method for the removal of judges, and that judicial proceedings may be utilized to determine whether a judge has violated the requirement of good behavior. We do have minor doubts as to several aspects of the plan, but these are matters which arise out of the mechanics of this particular plan, rather than out of the idea itself.

Proposed 28 U.S.C. 378(d) (p. 5, line 5-8) would provide that if the Commission on Judicial Disabilities and Tenure should recommend to the Judicial Conference the removal of a judge, the Commission should in effect suspend that judge. It might be fairly questioned whether a basically investigatory body, even if composed of judges, can be given power to suspend an Article III judge prior to his removal. I realize, of course, that the Administration's Court Reorganization bill for the District provides both suspension and removal by a Commission, rather than by a court. However, that bill also expressly states the Article I origin of the local court, thus placing the judges in an entirely different status than federal judges.

The second question relates to the issue of whether the Supreme Court can review a determination of the Judicial Conference certifying a judge for removal. I do not believe it is possible to state categorically whether or not the Court has the power to do so, especially since some facets of this question are now before the Supreme Court in the Chandler case. I believe, however, that I should mention the existence of this Constitutional problem. *Marbury* v. *Madison* pointed out that the Supreme Court can exercise its jurisdiction only, originally, in those cases enumerated in the Constitution, or, on appeal, from the decision of inferior courts. The review of determinations of the Judicial Conference is not included in the Constitutional grant of original jurisdiction, and the Judicial Conference, as it is now constituted, is not a court.

As I indicated previously, the Chandler case involves the analogous issue whether the Supreme Court can review rulings of a Judicial Council of the Circuit. An amicus curiae brief submitted by the United States in that case argues for the jurisdiction of the Supreme Court based on the fact that the Council was acting as a court. That position, however, is based at least in part on the fact that the Judicial Council of the Circuit is actually the Court of Appeals sitting en banc. That line of reasoning does not extend to the Judicial Conference.

These potential difficulties and some others resulting from the somewhat involved procedure envisaged by the bill could be obviated by a slight modification. Provision could be made for an investigation by a commission composed of judges, for actual decision on the removal by the Judicial Conference, or a committee thereof, designated for that purpose as a court of the United States, and finally for review by the Supreme Court. Consideration might be also given to an alternative plan which would provide (1) for the investigation and presentation of charges by a single officer, who could be appointed for a given case, perhaps by the Director of the Administrative Office of the United States Courts; (2) for trial before a standing panel of federal judges, which the statute would constitute as a court of the United States; and (3) for review by the Supreme Court on writ of certiorari.

Precedents for such a special court of the United States staffed with judges of other federal courts are the former Commerce Court and the Emergency Court of Appeals. Moreover, it was established in *Glidden Co.* v. *Zdanok*, 370 U.S. 530 (1962), that the tenure requirements of Article III, section 1 of the Constitution are met if a court of the United States is staffed with judges serving during good behavior; it is not required that their appointment to the particular court be for service during good behavior.

These, however, are matters of detail and do not go to the fundamental plan of Title I of S. 1506. With that, the Department of Justice has no quarrel.

II.

I shall now discuss the provisions of S. 1506 dealing with the involuntary retirement of judges for disability.

Existing law deals with two aspects of judicial disability. A disabled judge may retire voluntarily. In that event he becomes a senior judge and can perform judicial duties only by designation and assignment. If a disabled judge does not retire voluntarily, the proper dispatch of business may suffer and require the appointment of an additional judge. In that event, 28 U.S.C. 372(b) now authorizes the Judicial Council of the Circuit to certify these facts to the President, who thereupon may appoint an additional judge. 28 U.S.C. 372(b) suffers from two infirmities: first, the Judicial Councils have been relucant to certify the disability of their colleagues, and second, the disabled judge does not become a senior judge; hence, he retains the power to perform judicial duties without special designation and assignment. There are obvious dangers in having a mentally incapacitated judge signing orders ex parte.

S. 1506 would provide in effect that a disabled judge could be involuntarily given the status of a senior judge. In that event he would retain the salary of his office and would have an enforceable right to be assigned to such judicial duties as he is willing and able to perform.

These provisions of the bill manifestly touch on an extremely delicate area. We believe, however, that they reconcile in a constitutionally permissible manner the divergent interests of the public in an efficient and at the same time independent judiciary and those of the judiciary in protection against unwarranted interference with its activities as well as against the vicissitudes of illness and old age.

For a number of reasons which I shall discuss briefly, the problem of disabled judges holding office during good behavior assumed serious proportions only at the time of the Constitutional Convention. Hence, there is no historical experience and no precedent which could indicate to us whether the procedures set forth in compulsory retirement provisions conform with the general Constitutional plan.

I have mentioned earlier that tenure during good behavior was by no means rare in England and that it goes back to the Middle Ages. Hence, it could be assumed that there would be a large body of law and experience dealing with the problem of superannuated officeholders under that tenure. Astonishingly enough, this is not the case. This is probably due to the deputy system pursuant to which officers other than judges of courts of record could appoint deputies for the performance of their official duties. Hence, if the officeholder became incapacitated he could appoint a deputy, and if the latter became disabled another one could be substituted for him.

I have also mentioned before that non-attendance of an office held during good behavior resulted in its forfeiture. This, however, was the case only if the non-attendance was the result of voluntary negligence, or willful. Hence, there are a few cases suggesting that nonperformance of the duties of an office due to illness did not result in its forfeiture, and that old age was an honor and not a reason for the removal of an officer. Another interesting case in this area may be found in Coke's reports where Queen Elizabeth authorized a Sergeant at Arms in Chancery to absent himself from

his office on the basis of what appears to have been a doctor's certificate.

These cases, of course, merely hold that disability was no ground for the removal of a person holding office during good behavior. They have no bearing on the practical problems arising from the disability of such officers, especially of those who could not appoint deputies. Again for historical reasons this problem arose only slowly and came to the fore only at the time of the Constitutional Convention.

While the judges of the Courts of King's Bench and Common Pleas held good behavior commissions during the middle of the XVII century and again since 1689, those commissions expired upon the death of the authority which had issued them. This rule was abrogated only in 1763. Until then a new King upon his accession always had the option of not renewing the commissions of incapacitated judges.

Dr. Johnson was aware of the potential impact of the 1763 statute on the superannuation of the Bench. He felt that it was a mistake because: "A judge may become forward from age. A judge may grow unfit for his office in many ways. It was desirable that there should be a possibility of being delivered from him by a new King."

A survey of the biographies of judges who served from 1689 until 1789 tends to indicate that the problem of judicial disability became serious only about 1770, at a time when the colonies began to loosen their ties with Great Britain. The most serious case which occurred at the time of the Constitutional Convention, was that of Lord Mansfield. As a result of illness he did not sit on the bench for the two years which preceded his retirement in 1788. About ten years later Parliament considered the problem sufficiently serious to provide for a permanent judicial pension system.

This limited British experience with the problem of the incapacitation of judges serving during good behavior is the background against which we must gauge Alexander Hamilton's statement in The Federalist No. 79. There he explains why the Constitution fails to provide for the removal of judges on the ground of disability. It will be noted that Mr. Hamilton speaks of the removal, not the retirement of judges. Hamilton lists three grounds for this omission: First, the evaluation of a person's mental facilities is so vague a science that it would easily be abused to undermine the independence of the judiciary. Second, persons rarely "outline the season of their intellectual vigor." Third, the young republic was not likely to pay any pensions, and it would be inhumane to remove judges from their position on account of the infirmities of old age on the basis of an imaginary danger of a superannuated bench.

Hamilton's reasoning, of course, is in full agreement with the then prevailing law, that non-performance of an office due to illness or old age was no ground for removal. It is interesting, however, to note that he felt that insanity was a ground for removal and the first judge to be impeached, Judge Pickering, probably was insane.

Circumstances and attitudes have changed since Hamilton's times. We would no longer impeach a judge for insanity. Moreover, psychiatric and medical development have made the diagnosis of mental disabilities more certain. At the same time they have increased the instances in which persons outlive the season of their intelligence vigor. The proposed legislation would not seek to remove the judge and expose him to an uncertain financial fate. It would rather continue the payment of his emoluments and permit him to perform such judicial duties as he is willing and able to perform.

In our view this solution is within the framework of the good behavior clause. It preserves the judicial independence which the good behavior clause guarantees. At the same time it serves the humanitarian common law principles underlying Hamilton's argument that the infirmities of old age shall not result in the forfeiture of an office.

By Mr. SARBANES (for himself and Ms. MIKULSKI):

S. 1852. A bill to amend the Chesapeake and Ohio Canal Development Act to make certain changes relating to the Chesapeake and Ohio Canal National Historical Park Commission; to the Committee on Energy and Natural Resources.

EXTENDING THE LIFE OF THE CHESAPEAKE AND OHIO CANAL NATIONAL HISTORICAL PARK COMMISSION

● Mr. SARBANES. Mr. President, I am introducing in the Senate today a bill which extends the life of the Chesapeake and Ohio Canal National Historical Park Commission for 10 years. The current authority for the Commission expires in January of 1991, and this bill, identical to one introduced in the House of Representatives last month by Representative BEVERLY BYRON of Maryland's Sixth District, would extend that authority for another 10 years. Joining me in introducing this legislation is my colleague from Maryland, Senator BARBARA MIKULSKI.

Mr. President, the C&O Canal National Historical Park is one of the most unique in this Nation and one of the most heavily visited. It begins in this great city, the Nation's Capital and extends for 184 miles to its original terminus in Cumberland, MD. As you can imagine, the development of plans for the preservation and use of this park is a major undertaking. It is no easy task to protect and preserve a park which averages 100 yards in width but is 184 miles long.

The work of the Commission is not finished. The Commission is composed of representatives of the State of Maryland, the Commonwealth of Virginia, the State of West Virginia, the District of Columbia, the counties in Maryland through which the park runs, and members at large. The passage of this bill will permit the Commission to complete the rational process begun so many years ago to ensure that this unique part of America's natural and historical heritage is properly preserved.

I would encourage those who are interested in the C&O Canal to join in sponsoring this legislation, and it is my hope that it can be enacted in this Congress.●

By Mr. CHAFEE (for himself, Mr. MITCHELL, Mr. BURDICK, Mr. MOYNIHAN, Mr. D'AMATO, Mr. BAUCUS, Mr. LIEBERMAN, Mr. DURENBERGER, Mr. WARNER, and Mr. JEFFORDS):

S. 1853. A bill to award a congressional gold medal to Laurance Spelman Rockefeller; to the Committee on Banking, Housing, and Urban Affairs.

AWARDING A CONGRESSIONAL GOLD MEDAL

● Mr. CHAFEE. Mr. President, today the distinguished majority leader, Senator MITCHELL, and I are introducing legislation to award a gold medal to Laurance Spelman Rockefeller in recognition of the tremendous efforts he has made on behalf of natural resource conservation in this country.

When one thinks of America's majestic wide-open spaces, outdoor recreation, and historic preservation, one cannot help but to think of Laurance Rockefeller. His lifelong dedication and involvement in shaping public policy on behalf of the environment has left us a legacy of programs and projects that will benefit all Americans for generations to come.

Although Laurance's contributions are too numerous to cite here, I would like to touch on several key Federal, State, and local efforts in which he has been or remains actively involved.

Serving four U.S. Presidents, Laurance acted as chairman of the White House Conference on Natural Beauty, the National Park Foundation, the Public Land Law Review Commission, and numerous Presidential advisory groups.

One of his greatest achievements is the Land and Water Conservation Fund, which he developed as Chairman of President Eisenhower's Outdoor Recreation Resources Review Commission in the early 1960's. This program, now in its 25th year, has made available to the States and Federal agencies $6 billion for the acquisition of parks, wildlife refuges, recreational facilities and other worthwhile outdoor projects. At a time when greater and greater pressure is being put on open space by development, the Land and Water Conservation Fund has proved to be the Federal Government's primary program to set aside parklands and scenic areas for the enjoyment of the general public.

Anyone who has enjoyed the magnificent beauty of the Virgin Islands National Park on St. John's Island, has much to thank the Rockefeller family for. Building on the efforts of his father, John D. Rockefeller, Laurance helped to expand that park by donating 5,000 acres to it, thus assuring its tropical forests and lush wildlife habitat will be preserved forever. Laurance was also deeply involved in the establishment of the Grand Tetons National Park through the Jackson Hole Preserve, Inc.

In his home State of New York, Laurance has played a pivotal role in the creation and enhancement of parklands. He served as a member of the New York State Council of Parks for 30 years and, as its chairman, expanded and modernized the State park system through an innovative bond program which has been replicated by other States. As member and a president of the Palisades Park Commission for over 40 years, he worked to expand its park system. He also helped create the Adirondack Park Agency, the Hudson River Valley Commission and the Nation's first comprehensive State environmental and conservation agency.

At the local level of government, he boosted the environmental quality of life in New York City through his efforts on behalf of the New York Zoological Society and its Bronx Zoo, the New York Aquarium, Central Park, and other city parks.

Mr. President, I know of no other citizen who has a record of achievement and selfless commitment to the environment which is equal to that of Laurance Rockefeller's. This legislation would authorize the President to present, on behalf of the Congress, to Laurance Spelman Rockefeller a gold medal in recognition of his seminal role in fostering a new era of natural resource conservation and historic preservation in the United States. I ask my colleagues to join with me to enact this legislation as a tribute to a man who has given so much to his country.●

By Mr. METZENBAUM (for himself and Mr. BYRD):

S. 1854. A bill establishing the Aviation Policy Board for the purpose of setting air fares and routes, and requiring the Secretary of Transportation to take certain actions to improve service and promote safety in airline travel; to the Committee on Commerce, Science, and Transportation.

AIRLINE REREGULATION ACT

Mr. METZENBAUM. Mr. President, today I am introducing legislation, cosponsored by Senator BYRD, to reregulate the domestic airline industry with respect to fares, routes, service, and safety. The time has come to face the fact that deregulation has not lived up to our expectations and that Congress must take action.

I say with all candor that I am not certain that reregulation is the right solution. But I am sure that deregulation was the wrong solution. I believe it is important to put the idea of reregulation on the table so it can be discussed as one alternative for dealing with the current scandalous state of airline competition. I expect that not everyone will like the idea. But it is a proposal that should be debated.

When Congress passed legislation in 1978 to sunset the Civil Aeronautics Board, we did so on the premise that airlines are not natural monopolies. We believed the airlines when they said that it was Government regulation that was holding back expansion and keeping fares above competitive levels. Congress bought that bill of goods. So we all got on board and deregulated the airline industry.

At first, the promises of deregulation came true. New airlines sprung up; fares went down and more people than ever were flying. Some might call the period right after deregulation—the time of People Express and New York Air and Laker Airlines—the time of the friendly skies. Competition was vigorous and consumers benefited from lower fares

But then the Reagan administration betrayed the whole notion of deregulation. The Reagan administration interpreted deregulation to mean no regulation. During the 1980's the Department of Transportation had authority to oversee airline mergers—and it approved every single merger that was proposed. DOT even approved two mergers that the Department of Justice Antitrust Division opposed—the mergers of TWA/Ozark and Northwest-Republic. As a result, eight airlines now control 90 percent of the air travel in this country.

We are only beginning to see what the future holds if Congress does not act. Discount fares—when available—come with more restrictions and higher penalties. Direct flights are no longer available to many cities. Delays and cancellations are often the rule, not the exception. And while air travel is generally safe, the rash of air disasters since deregulation has underscored that all is not well in this area either.

The bill we are introducing today would establish a new independent airline policy board to regulate rates and routes of domestic carriers. In addition, the bill contains specific requirements to improve the quality and safety of air service. It would, for example, require DOT to establish a 24-hour hotline for air passengers to call for information and to help in resolving disputes with the airlines. The bill would also prevent airlines from canceling flights for purely economic reasons without giving passengers prior notice. And in the area of safety, the bill would, among other things, require airlines to provide infant safety seats, and require DOT to address the problem of aging aircraft.

Complete reregulation may not be the answer. But it's time we owned up to the fact that airline deregulation was a mistake. While this legislation is far reaching, particularly with respect to reregulating air fares and air routes, I believe that the flight of American air passengers leaves us little choice. Unless Congress steps in, airlines will continue to pilot the industry toward disaster.

I ask unanimous consent that a copy of the bill be printed in the RECORD.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1854

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

TITLE I—AVIATION POLICY BOARD

SEC. 101. SHORT TITLE.

This Act may be cited as the "Airline Reregulation Act of 1989".

SEC. 102. AVIATION POLICY BOARD; ESTABLISHMENT.

There is established in the executive branch of the Federal Government as an independent agency the Aviation Policy Board (hereinafter referred to as the "Board").

SEC. 103. COMPOSITION OF BOARD.

(a) The Board shall be composed of 5 members appointed by the President, by and with the advice and consent of the Senate, for terms of 6 years. Any person appointed to fill a vacancy occurring prior to the expiration of the term for which his or her predecessor was appointed shall be appointed only for the remainder of such term. Upon the expiration of his or her term of office, a member shall continue to serve until his or her successor is appointed and shall have qualified.

(b) The members of the Board may be removed by the President for inefficiency, neglect of duty, or malfeasance in office. No more than three of the members shall be appointed from the same political party. The President shall designate annually one of the members of the Board to serve as chairperson and one of the members to serve as vice chairperson, who shall act as chairperson in the absence or incapacity of the chairperson.

(c) The members of the Board shall be appointed with due regard to their fitness for the efficient dispatch of the powers and duties vested in and imposed upon the Board by this title. Each member of the Board shall be a citizen of the United States and no member of the Board shall have any pecuniary interest in or own any stock in or bonds of any civil aeronautics enterprise. No member of the Board shall engage in any other business, vocation, or employment.

(d) Three of the members shall constitute a quorum of the Board. The principal office of the Board shall be in the District of Columbia where its general sessions shall be held, but whenever the convenience of the public or of the parties may be promoted, or delay or expense may be prevented, the Board may hold hearings or other proceedings at any other place. The Board shall have an official seal which shall be judicially noticed and which shall be preserved in the custody of the secretary of the Board.

SEC. 104. OFFICERS AND EMPLOYEES.

(a) The Board is authorized, without regard to the civil-service and classification laws, to appoint and prescribe the duties and fix the compensation of a secretary of the Board, and to fix the compensation of a secretary and an administrative assistant for each member, and subject to the civil-service and classification laws, to select, employ, appoint, and fix the compensation of such officers, employees, attorneys, and agents as shall be necessary to carry out the

provisions of this title, and to define their authority and duties.

(b) The Board may, from time to time, without regard to the provisions of the civil-service laws, engage for temporary service such duly qualified consulting engineers or agencies, or other qualified persons as are necessary in the exercise and performance of the powers and duties of each, and fix the compensation of such engineers, agencies, or persons without regard to chapter 51 and subchapter III of chapter 53 of title 5, and the expenses of such employment shall be paid out of sums appropriated for the expenses of the Board.

(c) The Board is authorized to use, with their consent, the available services, equipment, personnel, and facilities of other agencies and instrumentalities of the Federal Government, on a reimbursable basis when appropriate, and on a similar basis to cooperate with such other agencies and instrumentalities in the establishment and use of services, equipment, and facilities of the Board.

SEC. 105. AUTHORIZATION OF EXPENDITURES AND TRAVEL.

The Board is empowered to make such expenditures at the seat of government and elsewhere as may be necessary for the exercise and performance of the powers and duties vested in and imposed upon the Board by law, and as from time to time may be appropriated for by Congress, including expenditures for (1) rent and personal services at the seat of government and elsewhere; (2) travel expenses; (3) office furniture, equipment and supplies, law books, newspapers, periodicals, and books of reference (including the exchange thereof); (4) printing and binding; (5) membership in and cooperation with such organizations as are related to, or are part of, the civil-aeronautics industry or the art of aeronautics in the United States or in any foreign country; (6) making investigations and conducting studies in matters pertaining to aeronautics; and (7) acquisition (including exchange), operation, and maintenance of passenger-carrying automobiles and aircraft, and such other property as is necessary in the exercise and performance of the powers and duties of the Board: *Provided*, That no aircraft or motor vehicle purchased under the provisions of this section, shall be used otherwise than for official business.

SEC. 106. GENERAL POWERS AND DUTIES OF BOARD.

(a) The Board is empowered to perform such acts, to conduct such investigations, to issue and amend such orders, and to make and amend such general or special rules, regulations, and procedure, pursuant to and consistent with the provisions of this title, as it shall deem necessary to carry out the provisions of, and to exercise and perform its powers and duties under, this title.

(b) The Board is empowered to confer with or to hold joint hearings with any State aeronautical agency, or other State agency, in connection with any matter arising under this title within its jurisdiction, and to avail itself of the cooperation, services, records, and facilities of such State agencies as fully as may be practicable in the administration and enforcement of this title.

SEC. 107. FUNCTIONS.

In order to protect the public interest, it shall be the function of the Board to regulate the air fares and air routes of United States air carriers.

SEC. 108. AUTHORIZATIONS.

There are authorized to be appropriated such sums as may be necessary to carry out the provisions of this Act.

SEC. 109. EFFECTIVE DATE.

The foregoing provisions of this title shall take effect upon the expiration of the 180-day period following the date of the enactment of this Act.

TITLE II—CONSUMER RIGHTS

SEC. 201. IMPROVING AIR SERVICE.

(a) Within 90 days following the date of the enactment of this Act, the Secretary of Transportation, by regulation, shall require each United States air carrier to disclose on each ticket jacket a statement that the individual receiving such jacket can obtain the on-time performance record of the flight or flights on which a passenger has secured a reservation by calling the air carrier's reservation number or the travel agent of such individual.

(b) The Secretary, within 90 days following the date of the enactment of this Act, shall establish a 24-hour toll-free consumer hotline to provide consumer information on air carrier performance records, information as to the rights of consumers and responsibilities of air carriers, and assistance in resolving disputes between consumers and air carriers. Information with respect to the availability of such hotline and its purposes, together with the telephone number of such hotline, shall be printed on each ticket jacket, and shall be prominently displayed in appropriate locations at airports.

(c)(1) Within 90 days following the date of the enactment of this Act, the Secretary, by regulation, shall prohibit any air carrier from cancelling, on the basis of any economic reason, any flight unless such carrier—

(A) made a reasonable effort to notify each passenger of such cancellation at least 24 hours prior to the scheduled departure time for such flight; and

(B) makes available to each such passenger similar services within a reasonable time as determined by the Secretary.

(2) For purposes of this subsection, the term "economic reason" does not refer to the cancellation of a flight in order to use the equipment assigned to that flight to replace other equipment, or the timely departure of which has been prevented due to mechanical failure or other factors related to safety.

(d)(1) Within 90 days following the date of the enactment of this Act, the Secretary, by regulation, shall prohibit any United States air carrier from advertising a fare for any flight at a particular price, unless the air carrier offers at least one-third of the seats for such flight at such advertised price, or makes a general disclosure in the advertisement that fewer than one-third of the seats for such flight at such advertised price are available on a particular day, time of day, or destination.

(2) Such regulation shall require any advertisement referred to in paragraph (1) to disclose all restrictions with respect to advanced purchases of tickets, refundability of money, minimum stay requirements, and all other restrictions and conditions with respect thereto.

TITLE III—AIR SAFETY

SEC. 301. SAFETY.

Within 90 days following the date of the enactment of this Act, the Secretary of Transportation, by regulation, shall—

(1) prohibit United States air carriers from pairing inexperienced captains and co-pilots;

(2) require United States air carriers to improve training of cockpit and cabin crew personnel;

(3) require United States air carriers to provide infant safety seats on all aircraft; and

(4) take all necessary steps to better identify and remedy aging aircraft problems, including, but not limited to, improving certification requirements, maintenance programs, and data gathering and analysis systems.

Mr. BYRD. Mr. President, I am pleased to be an original cosponsor of S. 1854, the Airline Reregulation Act of 1989. I commend the distinguished Senator from Ohio [Mr. METZENBAUM] for initiating this legislation. It is my hope that this bill will start us on the road toward correcting the many serious shortcomings which have arisen in our domestic airline service since that industry was deregulated beginning in the late 1970's.

Just over a decade ago, I voted for the Airline Deregulation Act of 1978. As many of my constituents, as well as many of my colleagues, know, if I had the opportunity to recast my vote on that bill, I would now vote against deregulation. The bill being introduced by Senator METZENBAUM today provides me, in essence, with just such an opportunity.

In 1978, I accepted the arguments of those who assured us that deregulation would bring with it a myriad of benefits for air travelers. We were told that ending Government regulation of fares and routes would reduce barriers to entry, thereby giving rise to new, healthy competition. This increased competition would, in turn, lead to lower fares, increased accessibility, and better service. In addition, we were assured safeguards were to be built in to protect smaller communities which might otherwise suffer in a freely competitive market.

Since deregulation has taken effect, however, we have witnessed increased concentration, not increased competition in the domestic airline industry. In 1978, the top six domestic air carriers accounted for 71 percent of all industry traffic. By 1987, less than a decade later, the leading six carriers had increased their share of total revenue passenger miles to 79 percent.

The trend toward greater concentration is even more pronounced when measured in terms of operations at hub airports. In 1987, US Air carried 82 percent of all passengers flying through Pittsburgh, while TWA accounted for 83 percent of all traffic at St. Louis-Lambert. In the 10 years between 1977 and 1987, Continental Airlines' share of traffic at Houston's Intercontinental Airport soared from 20 percent to 82 percent.

As to the multitude of other benefits deregulation was supposed to have bestowed upon the traveling public, while some airfares have declined,

such reductions have been highly uneven. At the same time, many of our Nation's cities have suffered substantial reductions in air service, and, in some cases, have lost service altogether. This has been a particular problem within my home State of West Virginia, where, for example, there have been significant reductions in both direct and connecting service to points within and outside the State.

In addition, the quality of service for those to whom it is still available appears not to have improved since deregulation took effect, but seems to have, in many cases, deteriorated markedly. A 1988 Consumer Reports survey found that nearly half of all respondents said the quality of air service has declined under deregulation. Finally, concerns about air safety have risen in recent years to probably their highest level since the early days of commercial aviation.

Why has airline deregulation failed to deliver so many of the benefits promised when we debated this issue in 1978? Although I now support reregulation, I do not necessarily believe that deregulation had to have failed as it has.

When I voted for deregulation in 1978, I did not vote to exempt the airline industry from our Nation's antitrust laws. Nor did I vote to abdicate the Government's responsibility to protect consumer rights and ensure air safety. Yet, looking back now, I regret that these things that I did not vote for have, in fact, occurred.

In the airline industry, as in any industry, for a free and competitive market to function efficiently, consumers must be afforded access to accurate information which they can then use to make rational choices. If consumers are confronted by complicated price structures, less than forthright advertising, a lack of information about the quality of service, the advantages of a competitive market can be lost. I believe, as a result, the Government has a responsibility to protect consumer rights. We must ensure that consumers have access to accurate and trustworthy information on which to base their air travel decisions. Title II of this legislation moves us in that direction.

I also believe that while we might wish to allow airlines the freedom to make their own decisions as to what routes they will fly and what fares they will charge, we would never want to extend deregulation so far as to abdicate our responsibility to ensure air safety. The Government has a critical role to play in regulating air safety, irrespective of whether or not it chooses to regulate fares and routes.

The discipline of a free and competitive market forces market participants, it they wish to remain competitive, to provide an optimal level of goods or services at minimum cost. The freedom of the marketplace allows participants to do this in ways they find most effective. When dealing with the airline industry, however, the Government cannot simply allow airlines the freedom to cut corners on safety in response to the cost-minimizing demands of the marketplace.

While no airline would remain competitive over the long run if it were to develop a reputation as being unsafe, there have been reports of cost-conscience airlines attempting to control costs by reducing the share of operating expenses devoted to aircraft maintenance, employing less-experienced and lower-wage cockpit and cabin crews, and keeping older aircraft in service longer. Title III of this legislation addresses these issues and moves toward the goal of ensuring safety in our skies.

Title I of the bill provides for the creation of an Aviation Policy Board, and charges the Board with responsibility for regulating air fares and air routes. While I might believe that regulation of fares and routes may not be necessary in a truly competitive market, as long as adequate assistance is provided to smaller communities, I do not believe the airline industry is truly competitive. The lack of any real antitrust enforcement in the airline industry in recent years has undermined the original promises of deregulation.

Given the lack of antitrust enforcement, how can we now go back and best respond to the problems and shortcomings present in the airline industry? One solution would be to attempt to undo the damage done by the regulatory neglect of the last few years. Such a solution, however, would be extremely difficult. Forced divestiture would take years and would be highly complicated. The practicality of such a solution is extremely questionable.

Another solution is to reregulate air fares and routes. That is the direction in which this legislation moves, and it is the only solution I believe possible at present. That is why I am supporting my colleague from Ohio, Senator METZENBAUM, in his effort and why I am pleased to be a cosponsor of S. 1854. I commend my friend for the excellent work he has done in putting together this bill, and I hope the Senate will take up this legislation in a timely manner.

By Mr. STEVENS:

S. 1855. A bill to authorize a certificate of documentation for the vessel *Camelot;* to the Committee on Commerce, Science, and Transportation.

DOCUMENTATION OF VESSEL "CAMELOT"

● Mr. STEVENS. Mr. President, this legislation would allow the Coast Guard to issue a valid certificate of documentation for the 34-foot vessel *Camelot,* official number 923202, which is currently owned by Dennis J. Rogers of Sitka, AK.

The *Camelot* was built by Tollycraft Yachts Corp. at Kelso, WA, in 1971. The vessel was operated out of Washington State by various owners from 1971 to 1975, at which time it was moved by new owners to Wrangell, AK. The *Camelot* had a succession of owners in Wrangell until 1987, when it was purchased by Mr. Rogers.

Mr. Rogers had obtained pleasure boat documentation from the Coast Guard, number 923202, for the *Camelot,* but he would now like to use the vessel for a charter fishing operation. To do this he needs a valid certificate of documentation, which Mr. Rogers is unable to obtain because he is unable to document the nationality of all of the vessel's previous owners. U.S. law requires that a vessel be U.S.-built, and continuously U.S.-owned and U.S.-documented, before a certificate may be issued.

Mr. Rogers has had a marine documentation service investigate the vessel's history, and they were able to locate and document all but one of the previous owners. The service has established the name of the missing owner, but they have not been able to locate him to document U.S. ownership.

This legislation is needed in order to allow Mr. Rogers to obtain a valid certificate of documentation so that he can use the *Camelot* for charter fishing.●

By Mr. STEVENS:

S. 1856. A bill to authorize a certificate of documentation for the vessel *Sinbad;* to the Committee on Commerce, Science, and Transportation.

DOCUMENTATION OF VESSEL "SINBAD"

● Mr. STEVENS. Mr. President, this legislation would allow the Coast Guard to issue a valid certificate of documentation for the 38-foot fiberglass fishing boat *Sinbad,* formerly the *Sangria,* hull No. 15846, which is currently owned by Richard Lott of Nikiski, AK.

The vessel was built by Owens, a subsidiary of the Brunswick Corp. in Baltimore, MD, in 1965. The boat has had numerous owners since that time, and has been used for a number of years in the commercial salmon and halibut fisheries around Cook Inlet, AK. The *Sinbad* engaged in commercial fishing under Alaska State registration No. AK 3650.

When Mr. Lott filed a change of ownership request with the Coast Guard, it was determined that the *Sinbad* could not be issued a valid certificate of documentation for lack of a builder's certificate which proves that the vessel was constructed in the United States. Mr. Lott has tried to obtain such a certificate, but the effort has proved impossible because

Owens has been out of business for 16 years. Company records are not available, and attempts to locate persons associated with Owens have been unsuccessful.

This legislation is needed in order to allow Mr. Lott to obtain a valid certificate of documentation so that he can continue to use the *Sinbad* for commercial fishing.●

By Mr. WILSON:

S. 1857. A bill to establish a Upper Sacramento River fishery resources restoration program; to the Committee on Commerce, Science, and Transportation.

UPPER SACRAMENTO RIVER FISHERY RESOURCES RESTORATION ACT

Mr. WILSON. Mr. President, I rise today to introduce a bill which will restore the upper Sacramento River from environmental degradation that has resulted from a generation or more of neglect.

I commend my colleague, Congressman Bosco, who has introduced this same legislation in the House of Representatives. Let me say that it has been a pleasure working with him on this, as on past efforts, to try to restore the fisheries of northern California.

Mr. President, the Sacramento River system, which is the specific focus of this legislation, provides over 70 percent of all of the salmon caught off the California coast. These fisheries generate an estimated $100 million in annual economic benefits in an area that substantially gains from this activity and one that is suffering a decline in some of its other economic efforts.

The Sacramento is the major spawning ground of the California salmon fishery, and yet today the fall chinook salmon runs have declined by 50 percent, and the winter run by 99 percent from their 1950's levels. The winter salmon has been listed as a threatened species under the Endangered Species Act. In addition, steelhead trout have also declined more than 90 percent from their 1950's levels.

In 1986, State Senator Jim Nielsen introduced a bill in the California legislature, later signed into law by Governor Deukmejian, which authorized a comprehensive analysis of the severe decline in the salmon populations in the Upper Sacramento River system.

Senator Nielsen's bill created an advisory council made up of local State and Federal resource representatives, as well as commercial and recreational interests.

Mr. President, a wag once said that Californians fight far fiercer fights among themselves and that those fights are caused more by water than by whiskey. These fights among water users have gone on for generations. The pioneering approach of Senator Nielsen in the formation of the council has led to an almost unprecedented agreement between fishing interests, both commercial and sport fishing, agricultural and other competing water users. It is notable that the environmental and water development communities came to agreement on a comprehensive action plan to restore the Sacramento River.

Forty years have gone by since the beginning of efforts at flood control, at diversion of water from the river for both municipal consumption and for agricultural irrigation. The result has been that we have suffered a decline in the gravels that are a necessary part of the spawning ground. We have adversely affected temperature for spawning. There is a need to provide for more certain fish ladders around those dams to allow the returning salmon to reach their spawning grounds. The construction of the dams has resulted in the diminution of the natural flow and, with it, the sediments. The gravels that are required, fish streams that have been placed at points of diversion, have proved insufficient to catch those smaller fish that have in many instances wound up in the irrigation system, never finding their way to sea.

So, in short, those Senator Nielsen put together in the broad membership of this advisory council decided the time had come not to assess blame but, instead, to devise an action plan designed to restore the river to the status that it enjoyed before these necessary manmade activities had resulted, without intention, in serious environmental degradation.

In January of this year, the council submitted its report, which detailed both problems as well as a comprehensive list of action steps which proposed improvements to offset the environmental degradation of that resource.

Mr. President, there will be a task force chartered by this legislation as broad in its membership as that which created the action plan. There will be specific steps taken.

First, develop an effective fish passage at the Red Bluff Diversion Dam and the Anderson-Cottonwood Irrigation District Dam;

Second, increase the quantity and quality of spawning and rearing gravels between Keswick Dam and Red Bluff Diversion Dam;

Third, rehabilitate, update and expand the 40-year-old and greatly debilitated Coleman National Fish Hatchery;

Fourth, minimize downstream migrant salmonoid mortality that results from improperly screened and unscreened diversions;

Fifth, modernization of fish hatcheries to increase fish populations;

Sixth, construct a temperature control device at the Shasta Dam;

Seventh, decrease turbidity in the River; and

Eighth, improve fish screening at the Glenn-Colusa Irrigation District diversion headworks.

Mr. President, let me just say that the 2 years that it took the broad membership of this advisory council to devise this specific action plan has resulted in a very good plan, one that gives every promise of actually restoring to the river the quality that it achieved in nature before, 40 years ago, man began tampering with it.

I again salute the bill's author, Congressman DOUG BOSCO, whose leadership has sought to cast this bill in bipartisan terms. He has been joined in that effort by Congressman FAZIO and Congressman HERGER. And, indeed, what we are looking forward to is a return of the river to its former state, a return of that fish hatchery. The funding that will be required to achieve this will be one-quarter provided by the State of California; the remaining 75 percent will be equally divided between the Federal Government and those who are the beneficiaries of the existing uses of the Sacramento River.

I think this can provide a model, Mr. President, for the restoration of fisheries, the restoration of rivers. It is easily worth the investment that the different parties will be making in it. The Sacramento River is a historic treasure. Its currents run deep and rich. They run through the history of our State. They have provided water for power and fisheries, for employment, for recreation, for the natural beauty that is a part of the great heritage of the West and specifically of the great Golden State.

Our natural bounty is something that we must safeguard as still new populations migrate to expand California, already a nation-state. And this effort is one that deserves not only support in our State, but, I submit, support as a model for the others who have found themselves impacted necessarily by the onrush of civilization. It is possible for man to devise ways to repair the damage that he has unintentionally done and still retain the benefits of manmade acitivities in structures. We are engaged not in preservation but in restoration.

So I ask my colleagues for their support in restoring one of the great national treasures of the North American river system, the great Sacramento, as it rushes to empty into the San Francisco Bay. We may all then have the satisfaction of meeting an environmental challenge as great as the heritage that we derive from it.

By Mrs. KASSEBAUM (for herself, Mr. DOLE, Mr. DANFORTH, and Mr. BOND):

S. 1858. A bill to amend the Federal Aviation Act of 1958 relating to bankruptcy transportation plans; to the

Committee on Commerce, Science, and Transportation.

AIRLINE BANKRUPTCY PASSENGER PROTECTION ACT

Mrs. KASSEBAUM. Mr. President, I rise today on behalf of passengers, ticket holders, and employees of Braniff Airlines. Yesterday evening Braniff announced it was immediately suspending operations. The announcement left passengers stranded, ticket holders holding hundreds if not thousands of dollars in worthless tickets, and employees scrambling to determine how they are going to pay next month's mortgage. The collective impact of this announcement is beyond disturbing. It reflects a fundamental flaw regarding the integrity of both corporate and regulatory accountability and public transportation.

I believe it should be Braniff Airlines and its parent BIA-COR Holdings Inc., and not its passengers, ticket holders, and employees that should shoulder responsibility for the failure of Braniff. Braniff represents precisely the type of corporate irresponsibility and short-term mentality which is becoming increasingly fashionable on Wall Street.

We should be disturbed by reports in Forbes magazine regarding excessive salaries, quarter million dollar bonuses, sweetheart consulting contracts, and leasing agreements with the company's management and principal shareholders. We should be concerned about reports of junk-bond financing by an investment banking firm in which little of the offering found its way into Braniff's working capital. We should be concerned about reports of a billion dollar expansion program when the company had a deteriorating balance sheet. We should be concerned about public announcements that the company would be profitable in the face of mounting evidence that the company was about to go into bankruptcy. I think these reports should be fully investigated to determine the presence of any wrong doing or inside dealing by the company's management and investment bankers.

As disturbing as this all is, the most upsetting aspect of this fiasco is its impact on the innocent parties. Under our public transportation system, passengers should not be left stranded in distant airports. Consumers who purchased tickets from licensed carriers should not be left holding worthless paper when the licensed carrier decides to throw in the towel. Until the moment Braniff halted operations, it continued selling tickets to innocent consumers who did not think that a licensed carrier could simply take their money and then unilaterally suspend its flights. Until recently, Braniff's management publicly stated they would enjoy a profitable year. Thousands of now jobless employees relied on those statements in planning their financial future.

We can all sympathize with the father who arrived at the Kansas City Airport yesterday with his four little children on their way to visit their grandmother in California and Disney World only to find that their flight had been canceled. We can sympathize with all the ticket holders who purchased tickets months in advance of the Thanskgiving holiday and now find their Braniff tickets worthless and flights to their destination either unavailable or at substantially increased prices.

The purchase of airlines tickets is a significant consumer expense. The airlines, through their early-purchase programs, encourage consumers to purchase the tickets far in advance. Consumers are willing to make these purchases with the understanding that licensed carriers are obligated to fulfill their responsibilities under the license. It is this delayed cash flow that has attracted so much turmoil and interest by Wall Street in airline stocks. As more and more airlines become highly leveraged through hostile raids, corporate restructuring, special dividends, and other Wall Street shenanigans, the problem is likely to increase.

To address this problem, I believe that some sort of insurance fund should be established by the airline industry to ensure that ticketed passengers will not lose their money. This concept is not unique. The benefits of such a fund were discussed in a recent editorial by Stan Rose in the Johnson County Sun. In my home State of Kansas, the insurance industry has a private fund which reimburses policyholders of bankrupt insurance companies up to a statutory limit. The fund is financed by a portion of each insurance policy sold in the State and does not use State revenues. Given the turmoil of the airline industry, such a fund would ensure the integrity of the licensed carrier to stand behind their obligations to provide public transportation or at least hold harmless those consumers who rely on this representation. Likewise, I think the airline industry should be required to devise a reasonable plan to prevent the stranding of passengers.

Airlines are a vital part of our national transportation system. The integrity of the airlines is directly related to the integrity and reliability of our public transportation. Airlines are licensed to carry travelers. This license should carry with it the responsibility that the airline is financially capable of fulfilling this function. To the extent legislation is necessary to maintain integrity and financial responsibility in our public carrier, I believe it should be pursued.

Accordingly, Senators DOLE, DANFORTH, BOND, and myself are introducing today the Airline Bankruptcy Passenger Protection Act of 1989, which has been introduced in the House by Representative SHERWOOD BOEHLERT of New York. Under this legislation, the airline industry would be required to develop a plan which protects airline ticket holders in the event the airline declares bankruptcy after the purchase date. if a satisfactory plan is not submitted by a specified deadline, the bill requires the Secretary of Transportation to issue regulations requiring all covered air carriers to provide air transportation for such ticket holders. This legislation will help restore the public confidence necessary to maintain the integrity and reliability of such a vital component of our public transportation system.

By Mr. WARNER (for himself, Mr. ROBB, Mr. JOHNSTON, and Mr. MCCLURE):

S. 1859. A bill to restructure repayment terms and conditions for loans made by the Secretary of the Interior to the Wolf Trap Foundation for the Performing Arts for the reconstruction of the Filene Center in Wolf Trap Farm Park in Fairfax County, VA, and for other purposes; to the Committee on Energy and Natural Resources.

REPAYMENT OF CERTAIN LOANS BY THE WOLF TRAP FOUNDATION

● Mr. WARNER. Mr. President, today I am introducing legislation designed to assist a national treasure located in the Commonwealth of Virginia—Wolf Trap Farm Park. Unfortunately, through a series of misfortunes, Wolf Trap now finds itself unable to repay debts owed to the United States. The legislation I introduce today would address Wolf Trap's problems.

Mr. President, I would like to recount for Members of the Senate the history of Wolf Trap Farm Park's creation and the source of its financial difficulties. In 1966, Mrs. Catherine Filene Shouse donated approximately 100 acres of her northern Virginia farmland and provided $1.7 million to the U.S. Government for the construction of an original outdoor amphitheater and related structures. These gifts, accepted by the 89th Congress—Public Law 89-671—created America's only national park dedicated to the performing arts, Wolf Trap Farm Park.

Under the terms of a cooperative agreement, the Wolf Trap Foundation—a private 501(C)(3) Foundation—provided the programming, fundraising, marketing, and related education programs for 10 successful years in partnership with the National Park Service. The Foundation's educational programs have expanded nationally, reaching substantial numbers of preschool children through the arts.

In April 1982, the Filene Center, Wolf Trap's outdoor amphitheater, burned to the ground. The exact cause

was never determined. At the time, like all Government buildings, the Center was self-insured by the U.S. Government.

Mindful of the lengthy process normally associated with the rebuilding of a Government facility, the Foundation worked closely with the administration and Congress to reach an agreement, which was codified in Public Law 97-310, to share equally in the reconstruction effort. At the time, the cost of reconstructing the facility was estimated to be $18 million.

During the reconstruction effort, representatives from the National Park Service and the Foundation approved necessary change orders for structural enhancements, safety and fire protection that escalated the original estimated cost to $26.4 million. Moneys raised by the Foundation, totaling almost $7.4 million, which were to be used to retire the debt, were channeled into the reconstruction effort.

In January 1985, near the end of the reconstruction, a main girder fractured. To repair the fractured girder, the Foundation raised an additional $4 million in advances from contractors, an insurance carrier, and additional borrowing from the National Park Service, as well as $0.7 million contributed by the Foundation. The Foundation instituted litigation against the contractor, subsequently receiving a partial settlement on advanced moneys.

Reconstruction and repair of the Filene Center has spanned approximately 5 years. During that time the Foundation has consumed significant time, energy and resources to assist in providing construction and repair administration for a government facility.

The Filene Center has reopened and is once again providing high quality programs and a truly unique "park" experience for hundreds of thousands of visitors.

Mr. President, at this point three facts are clear:

For a variety of reasons, rebuilding the facility cost more than the original estimates;

The Wolf Trap Foundation raised almost $7.5 million of private funds which have been used to rebuild the facility; and

The U.S. Government and the American people have a first-class and truly unique facility for the performing arts.

Mr. President, the legislation I am introducing today acknowledges the significant contribution that the Wolf Trap Foundation has made to the public and acknowledges the unforeseen difficulties it has encountered by restructuring the debt obligation to the U.S. Government in a manner that contributes to its education programs which serve the public interest throughout the Nation.

Mr. President, this legislation waives repayment obligations for one-half of ~~the total amount owed by the~~ Foundation in principal and interest as of the date of enactment of this act and stops the running of interest upon the date of enactment of this act. In addition, the legislation provides that the remaining obligations shall be repaid in 10 years with cash, property or credits—including credits for the continuing educational programs for the Wolf Trap Opera Company, Wolf Trap Institutes for Early Learning Through the Arts, and the programs and activities of the Education Division.

Mr. President, I ask unanimous consent that the bill be printed in the RECORD at this point.

There being no objection, the bill was ordered to be printed in the RECORD, as follows:

S. 1859

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That, notwithstanding the provisions of subsection (b) of Public Law 99-310, as amended (16 U.S.C. 284c) the terms and conditions of any unpaid obligations of the Wolf Trap Foundation for the Performing Arts (hereinafter referred to as the "Foundation") resulting from loans made by the Secretary of the Interior (hereinafter referred to as the "Secretary") to the Foundation to complete reconstruction of the Filene Center of the Wolf Trap Farm Park in Fairfax County, Virginia are hereby restructured as follows:

(a) The Secretary shall waive repayment obligations for one-half of the total amount owed by the Foundation in principal and interest as of the date of enactment of this Act.

(b) The Secretary shall not assess interest on any remaining unpaid obligations owed by the Foundation after the date of enactment of this Act.

(c) Any remaining unpaid obligations shall be repaid in full by the Foundation with 10 years after the date of enactment of this Act with cash, property, or credits. Such credits are to be jointly determined by the Foundation and the Secretary, and may be derived and created by the Foundation in its continuing educational programs for the Wolf Trap Opera Company, Wolf Trap Institute for Early Learning through the Arts, and the programs and activities of the Education Division.●

ADDITIONAL COSPONSORS

S. 421

At the request of Mr. FORD, the name of the Senator from Vermont [Mr. JEFFORDS] was added as a cosponsor of S. 421, a bill to amend the Petroleum Marketing Practices Act.

S. 511

At the request of Mr. INOUYE, the names of the Senator from Maine [Mr. COHEN] and the Senator from Connecticut [Mr. DODD] were added as cosponsors of S. 511, a bill to recognize the organization known as the National Academies of Practice.

S. 619

At the request of Mr. SARBANES, the ~~names of the Senator from~~ Arkansas [Mr. BUMPERS] and the Senator from Michigan [Mr. LEVIN] were added as cosponsors of S. 619, a bill to authorize the Alpha Phi Alpha Fraternity to establish a memorial to Martin Luther King, Jr., in the District of Columbia.

S. 1393

At the request of Mr. REID, the name of the Senator from Montana [Mr. BURNS] was added as a cosponsor of S. 1393, a bill to direct the Secretary of Defense to give priority to the Federal Bureau of Prisons in transferring any surplus real property or facility that is being closed or realigned.

S. 1560

At the request of Mr. BURNS, the name of the Senator from South Dakota [Mr. PRESSLER] was added as a cosponsor of S. 1560, a bill to suspend the enforcement of certain regulations relating to underground storage tanks, and for other purposes.

S. 1591

At the request of Mr. MOYNIHAN, the name of the Senator from Vermont [Mr. JEFFORDS] was added as a cosponsor of S. 1591, a bill to amend title XVIII of the Social Security Act to provide coverage of clinical workers, psychiatric nurses, and marriage and family therapists when provided onsite at a community mental health center or offsite as part of a treatment plan.

S. 1653

At the request of Mr. BAUCUS, the names of the Senator from Wisconsin [Mr. KOHL], the Senator from Massachusetts [Mr. KERRY], the Senator from North Dakota [Mr. CONRAD], and the Senator from Nebraska [Mr. KERREY] were added as cosponsors of S. 1653, a bill to preserve the solvency of the railroad retirement system.

S. 1783

At the request of Mr. MCCAIN, the names of the Senator from South Dakota [Mr. DASCHLE] and the Senator from Alaska [Mr. MURKOWSKI] were added as cosponsors of S. 1783, a bill to regulate Indian child protection and prevent child abuse on Indian reservations.

SENATE JOINT RESOLUTION 205

At the request of Mr. BIDEN, the names of the Senator from Washington [Mr. ADAMS], the Senator from North Dakota [Mr. BURDICK], the Senator from Oklahoma [Mr. BOREN], and the Senator from Indiana [Mr. COATS] were added as cosponsors of Senate Joint Resolution 205, a joint resolution designating December 3 through 9, 1989, as "National Cities Fight Back Against Drugs Week."

SENATE JOINT RESOLUTION 218

At the request of Mr. INOUYE, the names of the Senator from New York [Mr. D'AMATO], the Senator from Wy-

oming [Mr. SIMPSON], and the Senator from Maine [Mr. MITCHELL] were added as cosponsors of Senate Joint Resolution 218, a joint resolution to designate the week of December 3, 1989 through December 9, 1989, as "National American Indian Heritage Week."

SENATE JOINT RESOLUTION 224

At the request of Mr. BYRD, the names of the Senator from West Virginia [Mr. ROCKEFELLER], the Senator from North Dakota [Mr. BURDICK], the Senator from North Dakota [Mr. CONRAD], the Senator from New York [Mr. D'AMATO], the Senator from Ohio [Mr. GLENN], the Senator from Hawaii [Mr. MATSUNAGA], and the Senator from Illinois [Mr. SIMON] were added as cosponsors of Senate Joint Resolution 224, a joint resolution to designate the month of May 1990 as "National Trauma Awareness Month."

SENATE CONCURRENT RESOLUTION 80—CORRECTING TECHNICAL ERRORS IN THE ENROLLMENT OF H.R. 2710

Mr. KENNEDY submitted the following concurrent resolution; which was considered and agreed to:

S. CON. RES. 80

Resolved by the Senate (the House of Representatives concurring), That, in the enrollment of the bill (H.R. 2710) to amend the Fair Labor Standards Act of 1938 to increase the minimum wage, and for other purposes, the Clerk of the House of Representatives shall make the following corrections:

(1) Amend section 6(g)(1)(A)(ii) to read as follows:

(ii) has not attained the age of 20 years; and

(2) In section 6(g)(1)(B)(i) insert before the period "at such wage".

(3) In section 6(g)(1)(B)(ii) strike out "if a certificate is issued under subsection (h) by the Secretary for the employment of such employee" and insert in lieu thereof "if the employer meets the requirements of subsection (h)".

(4) Amend subsection (h) to read as follows:

(h) EMPLOYER REQUIREMENTS.—An employer who wants to employ employees at the wage authorized by subsection (a) for the period authorized by subsection (g)(1)(B)(ii) shall—

(1) notify the Secretary annually of the positions at which such employees are to be employed at such wage.

(2) provide on-the-job training to such employees which meets general criteria of the Secretary issued by regulation after consultation with the Committee on Labor and Human Resources of the Senate and the Committee on Education and Labor of the House of Representatives and other interested persons,

(3) keep on file a copy of the training program which the employer will provide such employees.

(4) provide a copy of the training program to the employees,

(5) post in a conspicuous place in places of employment a notice of the types of jobs for which the employer is providing on-the-job training, and

(6) send to the Secretary on an annual basis a copy of such notice.

The Secretary shall make available to the public upon request notices provided to the Secretary by employers in accordance with paragraph (6).

(5) In sections 8(a)(1) and 8(b), strike out "section 2(a)" and insert in lieu thereof "section 2".

(6) In section 2 strike out "December 31, 1989" and insert in lieu thereof "March 31, 1990".

SENATE RESOLUTION 204—RELATIVE TO CERTAIN BID RIGGING ACTIVITY

Mr. MURKOWSKI submitted the following resolution; which was referred to the Committee on Foreign Relations:

S. RES. 204

Whereas in 1984, one hundred forty Japanese construction firms formed an association known as the "U.S. Military Construction Safety Technical Research Association" which engaged in widespread bid rigging activity on contracts funded by the United States Government at the United States naval facility in Yokosuka, Japan from 1984 through 1987.

Whereas in December 1988, these 140 Japanese construction companies received warnings from the Japan Fair Trade Commission for bid rigging activities at the United States naval facility in Yokosuka, Japan.

Whereas seventy of these construction firms were fined by the Japan Fair Trade Commission for serious bid rigging activities at the United States naval facility in Yokosuka, Japan.

Whereas the U.S. Department of Defense has thus far proposed for debarment only eight companies, twenty corporate officials and four subsidiary firms involved in bid rigging activities at the United States naval facility in Yokosuka, Japan.

Whereas the aforementioned bid rigging activities have seriously undermined the procurement process at the United States naval facility in Yokosuka, Japan.

Whereas bid rigging at the United States naval facility in Yokosuka, Japan, from 1984 through 1987, contributed to increased construction costs at the facility, and hindered efforts to insure the efficient use of funds appropriated for military construction associated with United States security commitments in the Pacific.

Whereas the United States Department of Justice has formally requested full compensation from the one hundred forty firms involved in bid rigging activities at the United States naval facility in Yokosuka, Japan.

Whereas new allegations of bid rigging activities at other United States military facilities in Japan have been presented to the Department of Defense.

Whereas many of the Japanese firms alleged to be involved in bid rigging activities at the United States military bases in Japan are also engaged in business activities in the United States: Therefore, be it

Resolved, That it is the sense of the Senate:

That the United States Department of Defense and the United States Department of Justice be commended for their efforts to eliminate bid rigging activities at United States military facilities in Japan;

That the U.S. Department of Defense should conduct a full investigation of all bid rigging allegations at United States military facilities in Japan and seek debarment of all suppliers found to be involved in bid rigging activities at United States military facilities in Japan;

That the United States Department of Justice and the United States Department of State should work with the Japanese Government to insure that the United States Government receives full compensation for overpayments for construction services and goods at Yokosuka Naval base in Japan that occurred as a result of anticompetitive bidding practices that have been formally documented by the Government of Japan.

That the United States Department of Justice should investigate the United States activities of Japanese firms engaged in bid rigging at United States military facilities in Japan to determine whether or not these firms are also engaging in anticompetitive activities in the United States.

Mr. MURKOWSKI. Mr. President, today I am submitting a resolution to express the Senate's concern over bid rigging activities at U.S. military bases in Japan, and to encourage the Departments of Defense, State and Justice to continue their efforts to end these practices. Yesterday, the United States concluded the second rounds of talks with Japan regarding structural impediments to trade. By all accounts the results were disappointing. Tomorrow, the U.S. negotiators will begin bilateral consultations on construction. Mr. President, in light of these events, it is appropriate at this time to focus our attention on this matter.

Mr. President, earlier this month the Senate adopted a resolution similar to the one I am submitting today as an amendment to the State, Justice, Commerce appropriations bill. Unfortunately, this amendment was removed in conference. It is my understanding that the provision was removed at the request of members of other committees in the House that felt the amendment infringed on their jurisdiction. Mr. President, it is unfortunate that the conferees did not stand firm in retaining this language. It sends the wrong signal to our friends in Japan regarding our commitment to addressing anticollusive business practices in general, and bid rigging at United States bases in Japan in particular.

Mr. President, eliminating price fixing practices in Japan is one of six major barriers the United States has identified in the United States-Japan structural impediments talks. We have found concrete examples of this type of activity in sectors such as construction, where bid rigging is taking place even at United States military bases in Japan, and in Japan's banking industry where allegations have been made that the major banks, with the support of the Ministry of Finance, are engaging in collusive activities to set deposit and interest rates.

Since the Senate adopted my resolution expressing concern over evidence that 140 Japanese construction firms

had been engaged in bid rigging activities at Yokosuka Naval base in Japan, I have heard from other United States firms who have stated that they have evidence that bid rigging is occurring at other United States bases in Japan. Recently, I received information from a major United States firm bringing to my attention the existence of a "price fixing" group that has been operating for several years at the United States Air Force base at Yokota, Japan. The Japanese company alleged to be the head of the price fixing group, NECOM, is a subsidiary of NEC. Mr. President, NEC, has been contacted by the U.S. Department of Justice for bid rigging activities at Yokosuka. NEC was also mentioned in an article which appeared in the Thursday, November 2 edition of the Washington Post indicating that Japanese firms were submitting one yen bids for public works projects in Japan.

Mr. President, the information I have received regarding contracting practices at Yokota Air Base has revealed a situation very similar to the situation at Yokosuka Naval Base where almost every contract let over a 4-year period was rigged. It is my understanding that U.S. Air Force investigators have estimated that bid rigging at Yokota, on telecommunications contracts alone, has cost the U.S. Government over $100 million over the last 10 years.

Several United States companies and the United States Chamber of Commerce in Okinawa have expressed concern that at Yokota, and at other United States bases, Japanese contractors have very significant influence over the contracting offices. This makes it difficult for United States firms to get a fair shake at contracts at the United States bases. For example, all bidding conferences at Yokota are conducted in Japanese, creating the need for United States firms to hire Japanese interpreters in order to obtain the information needed to do business with the United States Government. Think about that—a United States base where information regarding procurement opportunities is solely aimed at foreign suppliers. In addition, contracts are bid in yen meaning that the United States has to carry the risk of dollar devaluation. In many cases, the international balance-of-payments plans and United States Government specs have been waived by the base procurement officers to the benefit of Japanese manufacturers. I am aware of one instance where a U.S. product was specifically identified in the United States Government's procurement spec. However, when the United States manufacturer of the product attempted to submit a bid for a job, much to their surprise they found that the spec requirements had been waived by the procurement office. What is of greatest concern to me is that some of these United States firms have said that they have been approached by their Japanese competitors and asked to join in the price fixing cartel so prices can be restored to pre-United States participation levels.

As I did when I first heard of bid rigging allegations at Yokosuka Naval Base, I have again contacted the Secretary of Defense to request that he look into the bid rigging allegations at Yokota. I have also proposed that the Department of Defense hold procurement seminars for United States firms interested in doing business with the United States Government at our military facilities overseas. In addition, I have asked the Secretary of the Air Force to provide me with information regarding the actions the Air Force has taken to investigate allegations of bid rigging at Yokota and other Air Force bases in Japan. I have also asked the Secretary to inform me of what actions, if any, the Air Force is taking to debar firms found to be involved in price fixing activities.

Mr. President, I am submitting this resolution because the Senate needs to send a clear signal that we are committed to ending bid rigging at our bases in Japan, and that we will take action against firms that are engaging in such activities. We must indicate to the Japanese construction firms that have been engaging in these activities that we support the United States Justice department's efforts to recover overpayments made by the United States Government as a result of bid rigging. Lastly, we must demonstrate our desire to see greater cooperation from our friends in Japan to end anti-competitive pricing practices across the board. I hope my colleagues will join me in supporting this resolution.

SENATE RESOLUTION 205—TO ESTABLISH A STUDENT TREE PLANTING PROGRAM

Mr. BUMPERS (for himself and Mr. CHAFEE) submitted the following resolution; which was considered and agreed to:

S. RES. 205

Resolved, That it is the sense of the Senate that the United States Forest Service should establish a program that utilizes elementary and high school student volunteers to perform tree planting and reforestation projects.

AMENDMENTS SUBMITTED

MINIMUM WAGE LEGISLATION

SYMMS AMENDMENT NO. 1087

Mr. SYMMS proposed an amendment to the bill (H.R. 2710) to amend the Fair Labor Standards Act of 1938 to increase the minimum wage, and for other purposes, as follows:

At the end of the bill, add the following new section:

"SEC. . RELATING TO LEGISLATION AFFECTING SMALL BUSINESS.

The Senate finds that American small business firms account for 38 percent of the Nation's economic output;

That more than 50 percent of the Nation's total private sector work force is employed by small business;

That small businesses account for 51.5 percent of total United States business revenues;

That the Nation's very smallest companies constitute some 88 percent of the total number of business enterprises in the United States;

That between the years 1981 and 1986 small business created some 90 percent of the net new jobs in America;

That in 1988, small business continued to lead in job generation, with employment increases of 4.9 percent versus employment increases in large companies of 3.3 percent;

That small businesses are more likely than larger companies to hire workers who have been unemployed or out of the labor force for long periods of time:

That women who have left their jobs for personal or family reasons and have been out of the work force for five or more years are more likely to be hired upon reentry to the work force by smaller businesses;

That the small business work force has a larger proportion of new labor force entrants, and small businesses are more likely to hire from groups having above-average turnover rates and a weak attachment to the labor market;

That employees of small business enterprises are more likely than workers in larger firms to accumulate general skills and training, which make them more attractive to other employers, while the specific training and skills provided in larger firms tend to inhibit transferability to other firms;

That the hiring practices of small businesses help the economy achieve a lower rate of unemployment that would be possible in the absence of such small firms;

That small businesses have limited administrative capabilities and are more likely to be heavily burdened than large firms by regulatory changes that increase paperwork and compliance costs:

That Congress has failed to address systematically the economic impact on small business of the requirements imposed by the Federal Government;

That Congress must recognize that regardless of the merit of the new legislation, Federal requirements are often prohibitively costly to small business;

That Congress has failed to consider the cumulative economic impact of new legislative proposals and existing Federal requirements;

That Congress should consider providing small businesses assistance and tax credits to offset the cost of new requirements imposed by the Federal Government;

That Congress must recognize it cannot continue to impose new costs on small businesses without jeopardizing the vitality of small enterprises and the Nation's economic flexibility and growth; and

That Congress already has significantly increased the business costs of small business this year due to legislation that has been enacted into law:

For the balance of the 101st Congress, the Congress shall not increase the business costs for any small business that is engaged in an industry affecting commerce, and that has (1) 50 or fewer employees, or (2) gross annual receipts of $1,000,000 or less, by enacting legislation that requires additional paperwork, capital expenditures, compliance costs, or taxes.

HATCH (AND OTHERS) AMENDMENT NO. 1088

Mr. HATCH (for himself, Mr. MCCAIN, and Mr. MCCONNELL) proposed an amendment to amendment No. 1087 proposed by Mr. SYMMS to the bill H.R. 2710, supra, as follows:

In the pending amendment, strike all after the first word and insert the following:

—. RELATING TO LEGISLATION AFFECTING SMALL BUSINESS.

The Senate finds that American small business firms account for 38 percent of the Nation's economic output:

That more than 50 percent of the Nation's total private sector work force is employed by small business;

That small business account for 51.5 percent of total United States business revenues;

That the Nation's very smallest companies constitute some 88 percent of the total number of business enterprises in the United States;

That between the years 1981 and 1986 small business created some 90 percent of the net new jobs in America;

That in 1988, small business continued to lead in job generation, with employment increases of 4.9 percent versus employment increases in large companies of 3.3 percent:

That small businesses are more likely than larger companies to hire workers who have been unemployed or out of the labor force for long periods of time:

That women who have left their jobs for personal or family reasons and have been out of the work force for five or more years are more likely to be hired upon reentry to the work force by smaller businesses;

That the small business work force has a larger proportion of new labor force entrants, and small businesses are more likely to hire from groups having above-average turnover rates and a weak attachment to the labor market;

That employees of small business enterprises are more likely than workers in larger firms to accumulate general skills and training, which make them more attractive to other employers, while the specific training and skills provided in larger firms tend to inhibit transferability to other firms;

That the hiring practices of small businesses help the economy achieve a lower rate of unemployment that would be possible in the absence of such small firms;

That small businesses have limited administrative capabilities and are more likely to be heavily burdened than large firms by regulatory changes that increase paperwork and compliance costs:

That Congress has failed to systematically address the economic impact on small business of the requirements imposed by the Federal Government;

That Congress must recognize that regardless of the merit of the new legislation, Federal requirements are often prohibitively costly to small business;

That Congress has failed to consider the cumulative economic impact of new legislative proposals and existing Federal requirements;

That Congress should consider providing small businesses assistance and tax credits to offset the cost of new requirements imposed by the Federal Government;

That Congress must recognize it cannot continue to impose new costs on small businesses without jeopardizing the vitality of small enterprises and the Nation's economic flexibility and growth; and

That Congress already has significantly increased the business costs of small business this year due to legislation that has been enacted into law:

For the balance of the 101st Congress, the Congress shall not increase the business costs for any small business that is engaged in an industry affecting interstate commerce, and that has (1) 50 or fewer employees, or (2) gross annual receipts of $1,000,000 or less, by enacting legislation that requires additional paperwork, capital expenditures, compliance costs, or taxes.

GRAMM (AND OTHERS) AMENDMENT NO. 1089

Mr. GRAMM (for himself, Mr. THURMOND, Mr. SYMMS, Mr. HELMS, Mr. HEFLIN, Mr. COATS, Mr. NICKLES, Mr. WALLOP, and Mr. MCCLURE) proposed an amendment to the bill H.R. 2710, supra, as follows:

On page 13 of the bill strike lines 1 through 10.

CATASTROPHIC HEALTH COVERAGE

BENTSEN (AND OTHERS) AMENDMENT NO. 1090

Mr. MITCHELL (for Mr. BENTSEN, for himself, Mr. PACKWOOD, Mr. MCCAIN, and Mr. DOLE) proposed an amendment to the bill (H.R. 3607) to repeal Medicare provisions in the Medicare Catastrophic Coverage Act of 1988, as follows:

Strike out all after the enacting clause and insert in lieu thereof the following:

SECTION 1. SHORT TITLE.

This title may be cited as the "Medicare Catastrophic Coverage Reform Amendments of 1989".

TITLE I—PROVISIONS RELATING TO PART A OF MEDICARE PROGRAM AND SUPPLEMENTAL MEDICARE PREMIUM

SEC. 101. REVISION OF EXTENDED CARE SERVICES BENEFITS.

(a) 100 DAYS DURING EACH SPELL OF SNF CARE.—Section 1812 of the Social Security Act (42 U.S.C. 1395d) is amended—

(1) by amending paragraph (2) of subsection (a) to read as follows:

"(2)(A) post-hospital extended care services for up to 100 days during any spell of snf care, and (B) to the extent provided in subsection (f), extended care services that are not post-hospital extended care services;";

(2) by amending paragraph (1) of subsection (b) to read as follows:

"(1) post-hospital extended care services furnished to the individual during a spell of snf care after such services have been furnished to the individual for 100 days during such spell, or";

(3) in subsection (e), by inserting "post-hospital" before "extended care"; and

(4) by adding at the end the following new subsection:

"(f)(1) The Secretary shall provide for coverage, under clause (B) of subsection (a)(2) of this section, of extended care services which are not post-hospital extended care services at such time and for so long as the Secretary determines, under such terms and conditions (described in paragraph (2)) as the Secretary finds appropriate, that the inclusion of such services will not result in any increase in the total of payments made under this title and will not alter the acute care nature of the benefit described in subsection (a)(2).

"(2) The Secretary may provide—

"(A) for such limitations on the scope and extent of such services described in subsection (a)(2)(B), and on the categories of individuals who may be eligible to receive such services, and

"(B) notwithstanding sections 1814, 1861(v), and 1886 for such restrictions and alternatives on the amount and methods of payment for services described in such subsection,

as may be necessary to carry out paragraph (1).".

(b) COINSURANCE.—Paragraph (3) of section 1813(a) of such Act (42 U.S.C. 1395e(a)) is amended to read as follows:

"(3) The amount payable for post-hospital extended care services furnished an individual during any spell of snf care shall be reduced by a coinsurance amount equal to one-eighth of the inpatient hospital deductible for each day (before the 101st day) on which the individual is furnished such services after such services have been furnished to the individual for 20 days during such spell.".

(c) CONFORMING AMENDMENTS AND RESTORATION OF LAW.—

(1) SPELL OF SNF CARE DEFINED.—Section 1861 of such Act (42 U.S.C. 1395x) is amended by inserting before subsection (b) the following new subsection:

"Spell of SNF Care

"(a) The term 'spell of snf care' with respect to any individual means a period of consecutive days—

"(1) beginning with the first day (not included in a previous spell of snf care) (A) on which such individual is furnished extended care services, and (B) which occurs in a month for which the individual is entitled to benefits under part A, and

"(2) ending with the close of the first period of 60 consecutive days thereafter on each of which the individual is not an inpatient of a skilled nursing facility.".

(2) CONFORMING AMENDMENTS.—(A) Except as provided in subparagraph (B)—

(i) the amendments made by subsection (d) of section 104 of the Medicare Catastrophic Coverage Act of 1988 are repealed, and

(ii) the provisions of the Social Security Act amended by such subsection shall be restored and revived as if such amendments had not been made.

(B) Subparagraph (A) shall not apply to the amendments made by paragraphs (2)(C), (2)(D), (3), (4)(A), (4)(B)(iii), (4)(B)(iv), and (7) of section 104(d) of the Medicare Catastrophic Coverage Act of 1988.

(3) ADDITIONAL CONFORMING AMENDMENT.—Title XVIII of the Social Security Act is amended by striking "spell of illness" and "spells of illness" each place either appears

and inserting "spell of snf care" and "spells of snf care", respectively.

(d) EFFECTIVE DATE AND TRANSITION.—

(1) EFFECTIVE DATE.—Except as provided in this subsection, the amendments made by this section shall apply to extended care services furnished in a spell of snf care (as defined in paragraph (4)) beginning on or after December 1, 1989.

(2) TRANSITION FOR INDIVIDUALS IN CURRENT SPELL OF SNF CARE.—In the case of an individual who is in a current spell of snf care—

(A) the number of days of coverage of extended care services (furnished during such spell and on or after December 1, 1989) to which the individual is entitled under part A of title XVIII of the Social Security Act shall not exceed 150 less the number of days for which benefits for extended care services were payable under such part for the individual in 1989 before December 1, and

(B) in applying section 1813(a)(3) of such Act (as in effect before the enactment of this Act), extended care services furnished during such spell during 1990 shall be considered to have been furnished in 1989.

In this paragraph, the term "current spell of snf care" means a spell of snf care which began before December 1, 1989, which includes such date, and for which benefits for extended care services under part A of title XVIII of the Social Security Act were payable before such date.

(3) LIMITATION ON OVERLAPPING BENEFITS.—

(A) In no case shall paragraph (1) result in an individual being entitled to benefits for extended care services under part A of title XVIII of the Social Security Act for more than 150 days during 1989.

(B) If an individual, but for subparagraph (A), would be entitled to benefits for extended care services under such part for more than 150 days in 1989, in determining the number of days of benefits for such services in 1990 during a spell of snf care and the days on which coinsurance applies under section 1813(a)(1) of the Social Security Act, those days in 1989 in the spell of snf care on which benefits would have been provided but for subparagraph (A) shall not be counted.

(4) SPELL OF SNF CARE DEFINED.—In this subsection, the term "spell of snf care" has the meaning given such term in section 1861(a) of the Social Security Act, as amended by subsection (c)(1) of this section. Days before December 1, 1989, are included in the determination of spells of snf care.

(e) STUDY.—The Comptroller General shall study the reasons for the unexpected increase in cost estimates of the extended care services benefit under title XVIII of the Social Security Act. Not later than February 1, 1990, the Comptroller General shall submit a report to Congress describing the results of the study.

SEC. 102. REPEAL OF SUPPLEMENTAL MEDICARE PREMIUM AND FEDERAL HOSPITAL INSURANCE CATASTROPHIC COVERAGE RESERVE FUND.

(a) IN GENERAL.—Sections 111 and 112 of the Medicare Catastrophic Coverage Act of 1988 are repealed and the provisions of the Internal Revenue Code of 1986 and the Social Security Act amended by such sections shall be restored and revived as if such sections had not been enacted.

(b) DISPOSAL OF FUNDS IN FEDERAL HOSPITAL INSURANCE CATASTROPHIC COVERAGE RESERVE FUND.—Any balance in the Federal Hospital Insurance Catastrophic Coverage Reserve Fund as of the date of the enactment of this Act shall be transferred into the Federal Hospital Insurance Trust Fund and any amounts payable due to overpayments into such Trust Fund shall be payable from the Federal Hospital Insurance Trust Fund.

(c) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in this subsection, the provisions of this section shall take effect on the date of the enactment of this Act.

(2) REPEAL OF SUPPLEMENTAL MEDICARE PREMIUM.—The repeal of section 111 of the Medicare Catastrophic Coverage Act of 1988 shall apply to taxable years beginning after December 31, 1988.

TITLE II—PROVISIONS RELATING TO PART B OF THE MEDICARE PROGRAM

SEC. 201. REPEAL OF LIMITATION ON MEDICARE PART B COST-SHARING.

Subsections (a)(4), (b), and (c) of section 201 of the Medicare Catastrophic Coverage Act of 1988 are repealed and the provisions of the Social Security Act amended by such subsections shall be restored and revived as if such subsections had not been enacted.

SEC. 202. LIMITATION ON COVERED OUTPATIENT DRUGS AND DELAY IN DRUG-RELATED BENEFITS.

(a) LIMITATION OF DRUG BENEFITS TO IMMUNOSUPPRESSANTS AND HOME IV DRUGS.—Section 1861(t) of the Social Security Act (42 U.S.C. 1395x(t)) is amended—

(1) in paragraph (3)(B), by striking "in 1990" and inserting "in years after 1990", and

(2) in paragraph (4)(B), by striking "1990" and inserting "1991".

(b) DELAY IN DRUG-RELATED BENEFITS.—

(1) COVERED OUTPATIENT DRUGS.—Section 202(m)(1) of the Medicare Catastrophic Coverage Act of 1988 is amended by striking "1990" and inserting "1991".

(2) HOME INTRAVENOUS DRUG THERAPY SERVICES.—Section 203(g) of the Medicare Catastrophic Coverage Act of 1988 is amended by striking "1990" and inserting "1991".

(c) CONFORMING AND MISCELLANEOUS AMENDMENTS TO PAYMENT PROVISIONS.—

(1) CATASTROPHIC DRUG DEDUCTIBLE AMOUNT.—Section 1834(c)(1)(C) of the Social Security Act, as added by section 202(b)(4) of the Medicare Catastrophic Coverage Act of 1988, is amended—

(A) by amending clause (i) to read as follows:

"(i) IN GENERAL.—The catastrophic drug deductible specified in this subparagraph for—

"(I) 1991 is $550, and

"(II) any succeeding year, is the catastrophic drug deductible for the previous year increased by the percentage increase in the MEI (as defined in section 1842(i)(3)) applicable to physicians' services furnished in that succeeding year."; and

(B) in clause (iii), by striking "1992" and inserting "1991".

(2) COINSURANCE PERCENT.—Section 1834(c)(2) of such Act is amended—

(A) in subparagraph (B), by striking "100 percent" and all that follows and inserting "80 percent", and

(B) by striking subparagraphs (C) and (D).

(3) MISCELLANEOUS DELAYS.—Section 1834(c) of such Act is further amended—

(A) in paragraph (3)(A), by striking "1992" and inserting "1993", and

(B) in paragraphs (3)(C)(i) and (3)(C)(ii)(I), by striking "1990" and inserting "1991".

(4) ADMINISTRATIVE DISPENSING ALLOWANCE.—Clause (i) of section 1834(c)(4)(A) of such Act is amended to read as follows:

"(i) in 1991, the administrative allowance under this paragraph is $4.50; or".

(5) REPEAL OF SPECIAL TREATMENT OF PREPAID ORGANIZATIONS AND PHYSICIAN GUIDE.—Section 1834(c) of such Act is further amended by striking paragraphs (6) and (7).

(6) CHANGE IN REPORTING REQUIREMENTS.—Section 1834(c)(8) of such Act is amended—

(A) in subparagraph (B), by striking "in May and November of 1989 and 1990 and in May of each succeeding year" and inserting "in May of each year (beginning with 1990)", and

(B) by striking subparagraphs (C) through (F).

(7) DELETION OF EXTRANEOUS DEFINITION.—Section 1834(c)(9) of such Act is further amended by striking subparagraph (D).

(d) DELETION OF PROVISIONS RELATING TO PARTICIPATING PHARMACIES, SPECIAL ADMINISTRATIVE PROVISIONS, AND MODIFICATION OF HMO/CMP CONTRACTS.—Subsections (c), (e), and (f) of section 202 of the Medicare Catastrophic Coverage Act of 1988 is repealed and the provisions of the Social Security Act amended by such subsections shall be restored and revived as if such subsections had not been enacted.

(e) REPEAL OF REQUIREMENT FOR REESTIMATION OF COSTS, ADDITIONAL STUDIES, AND DEVELOPMENT OF STANDARD CLAIMS FORM.—Paragraph (2) of subsection (i), subsection (k), and subsection (l) of section 202 of the Medicare Catastrophic Coverage Act of 1988 are repealed.

(f) REPEAL OF PRESCRIPTION DRUG PAYMENT REVIEW COMMISSION.—

(1) IN GENERAL.—Section 1847 of the Social Security Act (42 U.S.C. 1395w-3), as added by section 202(j) of the Medicare Catastrophic Coverage Act of 1988, is repealed.

(2) TRANSITION.—The amendment made by subparagraph (A) shall take effect on the date of the enactment of this Act, but the Prescription Drug Payment Review Commission is authorized to continue its activities for 30 days after such date to conclude its business.

(g) CONFORMING DELAYS TO PROVISIONS RELATING TO HOME INTRAVENOUS DRUG THERAPY SERVICES.—

(1) Section 1834(d)(2) of the Social Security Act, as added by section 203(c)(1)(F) of the Medicare Catastrophic Coverage Act of 1988, is amended by striking "1990" and inserting "1991".

(2) Section 203(c)(2) of the Medicare Catastrophic Coverage Act of 1988 is amended by striking "1991" and inserting "1992".

(3) Section 1835(a)(2)(G) of the Social Security Act, as inserted by section 203(d)(1)(C) of the Medicare Catastrophic Coverage Act of 1988, is amended by striking "1993" and inserting "1994".

(4) Section 1154(a)(16) of the Social Security Act, as added by section 203(d)(2) of the Medicare Catastrophic Coverage Act of 1988, is amended by striking "1993" and inserting "1994".

(h) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act.

SEC. 203. DELAY IN COVERAGE OF SCREENING MAMMOGRAPHY.

(a) IN GENERAL.—Section 204(e) of the Medicare Catastrophic Coverage Act of 1988 is amended by striking "1990" and inserting "1991".

(b) CONFORMING AMENDMENTS.—Section 1834(e) of the Social Security Act (42 U.S.C. 1395m(e)), as added by section 204(b)(2) of the Medicare Catastrophic Coverage Act of 1988, is amended—

(1) in paragraph (2)(B)(ii), by striking "1992" and inserting "1993",

(2) in paragraph (4)(A)(i), by striking "1990" and inserting "1991",

(3) in paragraph (4)(B), by striking "1991" and inserting "1992", and

(4) in paragraph (5), by striking "1990" and "1991" each place each appears and inserting "1991" and "1992", respectively.

SEC. 204. DELAY IN COVERAGE OF IN-HOME CARE.

(a) IN GENERAL.—Section 205(f) of the Medicare Catastrophic Coverage Act of 1988 is amended by striking "1990" and inserting "1991".

(b) CONFORMING AMENDMENTS.—Section 1861(ll) of the Social Security Act (42 U.S.C. 1395x(ll)), as added by section 205(b) of the Medicare Catastrophic Coverage Act of 1988, is amended—

(1) by amending subparagraph (A) of paragraph (4) to read as follows:

"(A) has incurred out-of-pocket part B cost sharing (as defined in paragraph (5)(A)) in an amount equal to part B catastrophic limit (as determined under paragraph (5)(B)) for the year, or"; and

(2) by adding at the end the following new paragraph:

"(5) For purposes of this subsection:

"(A) The term 'out-of-pocket part B cost sharing' means, with respect to an individual covered under part B, the amounts of expenses that the individual incurs that are attributable to—

"(i) the deductions established under section 1833(b), and

"(ii) the difference between the payment amount provided under part B and the payment amount that would be provided under part B if '100 percent' and '0 percent' were substituted for '80 percent' and '20 percent', respectively, each place either appears in sections 1833(a), 1833(i)(2), 1834(e)(1)(C), 1835(b)(2), 1866(a)(2)(A), 1881(b)(2), and 1881(b)(3).

"(B)(i) The part B catastrophic limit for 1991 is $1,780. The part B catastrophic limit for any succeeding year shall be such an amount (rounded to the nearest multiple of $1) as the Secretary estimates, for that succeeding year, will reflect a level of out-of-pocket part B expenses that only 5.5 percent of the average number of individuals enrolled under part B (other than individuals enrolled with an eligible organization under section 1876 or an organization described in section 1833(a)(1)(A)) will equal or exceed in that succeeding year.

"(ii) Not later than September 1 of each year (beginning with 1991), the Secretary shall promulgate the part B catastrophic limit under this subparagraph for the succeeding year.".

(c) REPORT ON ALTERNATIVE ELIGIBILITY STANDARDS.—The Secretary of Health and Human Services shall submit to the Congress by June 1, 1990, a report describing alternatives to the standards for determining the eligibility of individuals for in-home care services contained in section 1861(ll) of the Social Security Act (as amended by subsection (b)).

SEC. 205. CHANGES IN PART B MONTHLY PREMIUM FINANCING.

(a) CONSOLIDATION OF CATASTROPHIC MONTHLY PREMIUM.—

(1) IN GENERAL.—Section 1839(g)(1) of the Social Security Act (42 U.S.C. 1395r(g)(1)) is amended—

(A) in subparagraph (A)—

(i) by striking "paragraphs (4) and (5)" and inserting "paragraphs (3) and (4)",

(ii) by striking "the sum of the catastrophic coverage monthly premium and the prescription drug monthly premium" and inserting "the catastrophic coverage ~~monthly premium~~",

(iii) by striking "paragraphs (2) and (3)" and inserting "paragraph (2)",

(iv) in the column in the table relating to the catastrophic coverage monthly premium, by striking "$5.46", "$6.75", and "$7.18" and inserting "$7.40", "$9.20", and "$10.20", respectively, and

(v) by striking the column in the table relating to the prescription drug monthly premium; and

(B) by striking subparagraphs (B) through (D) and inserting the following:

"(B) The Secretary shall determine during September of 1990, 1991, and 1992, the monthly actuarial rate for months in the succeeding year which, if substituted for the catastrophic coverage monthly premium specified in subparagraph (A) for such months, would assure (taking into account potential contingencies) a positive balance in the Medicare Catastrophic Coverage Account at the end of the succeeding year.

"(C) If the monthly actuarial rate determined under subparagraph (B) for months in a year is less than the catastrophic coverage monthly premium otherwise specified in the table in subparagraph (A), such monthly actuarial rate shall be substituted for the catastrophic coverage monthly premium under subparagraph (A) for months in the year.".

(2) MONTHLY PREMIUM AFTER 1993.—Paragraph (2) of section 1839(g) of such Act is amended to read as follows:

"(2)(A) The Secretary shall determine during September of each year (beginning with 1993) the monthly actuarial rate for months in the succeeding year which, if substituted for the catastrophic coverage monthly premium specified in subparagraph (A) for such months, would assure a balance in the Medicare Catastrophic Coverage Account at the end of the succeeding year equal to 20 percent of the estimated total debits to the Account during the year.

"(B) In the case of months in a year after 1993, the catastrophic coverage monthly premium is the monthly actuarial rate determined under subparagraph (A) for months in the year.".

(3) ELIMINATION OF SEPARATE PRESCRIPTION DRUG MONTHLY PREMIUM.—Section 1839(g) of such Act is further amended by striking paragraph (3).

(4) TREATMENT OF RESIDENTS OF PUERTO RICO AND TERRITORIES.—Section 1839(g)(4) of such Act is amended to read as follows:

"(3)(A) In the case of an individual who is a resident of Puerto Rico or who is a resident of another U.S. commonwealth or territory during a month, instead of the premium increase provided under paragraph (1), subject to subsection (b), the monthly premium for each individual enrolled under this part (otherwise determined without regard to this subsection) shall be increased—

"(i) for months in 1989 by $1.30 for residents of Puerto Rico and $2.10 for residents of another U.S. commonwealth or territory,

"(ii) for months in 1990 by $1.40 for residents of Puerto Rico and $2.30 for residents of another U.S. commonwealth or territory, and

"(iii) for months in a succeeding year by a fraction (determined under subparagraph (B)) of the premium increase determined under paragraph (1) for residents of Puerto Rico and for residents of the other U.S. commonwealths and territories, respectively.

"(B) The Secretary shall from time to time establish, separately for Puerto Rico and for the other U.S. commonwealths and territories, a fraction that reflects the relative per capita outlays which are accounted for under the Medicare Catastrophic Coverage Account for residents in such respective areas compared to such per capita outlays for individuals who are resident in the 50 States and the District of Columbia.".

(5) PART B ONLY INDIVIDUALS.—Section 1839(g)(5) of such Act is amended to read as follows:

"(4)(A) In the case of a part B only individual during a month, instead of any premium increase otherwise provided under paragraph (1), subject to subsection (b), the monthly premium for each individual enrolled under this part (otherwise determined without regard to this subsection) shall be increased for months (beginning with January 1991) by a fraction (determined under subparagraph (B)) of the premium increase determined under paragraph (1).

"(B) The Secretary shall from time to time establish a fraction that reflects the relative per capita outlays which are accounted for under the Medicare Catastrophic Coverage Account for part B only individuals compared to such per capita outlays for individuals entitled to benefits under both part A and this part.".

(6) CONFORMING AMENDMENTS.—Section 1839 of such Act is further amended—

(A) in subsection (b), by striking "(g)(6)" and inserting "(g)(5)",

(B) in subsection (g)(6), by striking "(6)(A)" and inserting "(5)" and by striking subparagraph (B),

(C) in subsection (g)(7), by striking "(7)(A) The Secretary and the Secretary of the Treasury" and inserting "(5)(A) The Secretary", and

(D) in subsection (g)(8)—

(i) by striking subparagraphs (A), (B), and (C), and

(ii) by redesignating subparagraphs (D), (E), and (F) as subparagraphs (A), (B), and (C), respectively.

(b) PAYMENT OF PART OF PREMIUM TO COVER PART A OUTLAYS.—Section 1841(a) of the Social Security Act (42 U.S.C. 1395t(a)), as amended through the operation of subsection (c), is amended by adding at the end the following: "There is appropriated from the Trust Fund to the Federal Hospital Insurance Trust Fund, from such amounts in the Trust Fund as are attributable to premium increases imposed under section 1839(g) for months after December 1989, amounts equal to the amount by which (1) the amount of outlays made, from the Federal Hospital Insurance Trust Fund, that are attributable to the amendments made by the Medicare Catastrophic Coverage Act of 1988 (as amended), exceeds (2) amounts transferred under section 205(e) of the Medicare Catastrophic Coverage Reform Amendments of 1989. The amounts appropriated by the preceding sentence shall be transferred from time to time (not less frequently than monthly), such amounts to be based on estimates by the Secretary of premiums and outlays described in such sentence, and proper adjustments shall be made in amounts subsequently transferred to the extent prior estimates were in excess of or were less than appropriate amounts.".

(c) REPEAL OF FEDERAL CATASTROPHIC DRUG INSURANCE TRUST FUND.—Section 212 (other than paragraphs (3) and (4) of subsection (c)) of the Medicare Catastrophic Coverage Act of 1988 is repealed and the provisions of

the Social Security Act amended by such section (other than such paragraphs) shall be restored and revived as if such amendments had not been made.

(d) AMENDMENTS TO MEDICARE CATASTROPHIC COVERAGE ACCOUNT.—Section 1841B of the Social Security Act (42 U.S.C. 1395t-2) is amended—

(1) in subsection (a), by striking ", and section 59B of the Internal Revenue Code of 1986," and by striking "and for purposes of section 59B of the Internal Revenue Code of 1986";

(2) by amending paragraph (1) of subsection (b) to read as follows:

"(1) The Account shall be—

"(A) credited for receipts of the Federal Supplementary Medical Insurance Trust Fund attributable to premiums under section 1839(g), and

"(B) debited for outlays under this title that are attributable to the amendments made by the Medicare Catastrophic Coverage Act of 1988 (as amended) and to the provisions of section 101(d)(2) of the Medicare Catastrophic Coverage Reform Amendments of 1989.";

(3) in subsection (b)(3), by striking "and the Secretary of the Treasury";

(4) in subsection (b)(4), by striking ", receipts that are also" and all that follows through "Reserve Fund"; and

(5) in subsection (c)(2), by striking "and under section 59B of the Internal Revenue Code of 1986".

(e) 1-TIME TRANSFER OF NET ADDITIONAL PREMIUMS IN 1989.—There shall be transferred, as of January 1, 1990, from the Federal Supplementary Medical Insurance Trust Fund to the Federal Hospital Insurance Trust Fund an amount equal to—

(1) the amount of the premiums collected pursuant to section 1839(g) of the Social Security Act for months in 1989, minus

(2) the amount of administrative expenses incurred under part B of title XVIII of such Act relating to implementation of the amendments made by the Medicare Catastrophic Coverage Act of 1988, plus

(3) the amount of interest accrued to the Federal Supplementary Medical Insurance Trust Fund attributable to balance described in paragraphs (1) and (2).

(f) CONFORMING AMENDMENTS.—

(1) Section 1844(a) of the Social Security Act (42 U.S.C. 1395w(a)) is amended by striking "or section 59B of the Internal Revenue Code of 1986".

(2) Section 1876(a)(5) of such Act (42 U.S.C. 1395ff(a)(5)) is amended by striking ", the Federal Supplementary Medical Insurance Trust Fund, and the Federal Catastrophic Drug Insurance Trust Fund" and inserting "and the Federal Supplementary Medical Insurance Trust Fund".

(g) EFFECTIVE DATE.—The amendments made by this section shall take effect on the date of the enactment of this Act.

SEC. 206. CONTINUATION OF RISK-SHARING CONTRACTS WITH HEALTH MAINTENANCE ORGANIZATIONS.

Notwithstanding any other provision of this title, the amendments made by this title shall not apply to risk-sharing contracts, for contract year 1990—

(1) with eligible organizations under section 1876 of the Social Security Act, or

(2) with health maintenance organizations under section 1876(i)(2)(A) of such Act (as in effect before February 1, 1985), under section 402(a) of the Social Security Amendments of 1967, or under section 222(a) of the Social Security Amendments of 1972.".

SEC. 207. CLARIFICATION OF TRANSITION FOR PPS-EXEMPT HOSPITALS.

Effective as if included in the Medicare Catastrophic Coverage Act of 1988, section 104(c)(2) of such Act is amended by striking the period at the end and inserting the following: ", without regard to whether any of such beneficiaries exhausted medicare inpatient hospital benefits before January 1, 1989.".

TITLE III—MISCELLANEOUS

SEC. 301. TRANSITION IN MEDIGAP REGULATIONS.

(a) IN GENERAL.—Section 1882 of the Social Security Act (42 U.S.C. 1395ss), as amended by section 221(d) of the Medicare Catastrophic Coverage Act of 1988, is amended—

(1) in the third sentence of subsection (a) and in subsection (b)(1), by striking "subsection (k)(3)" and inserting "subsections (k)(3), (m), and (n)";

(2) in subsection (k)—

(A) in paragraph (1)(A), by inserting "except as provided in subsection (m)," before "subsection (g)(2)(A)", and

(B) in paragraph (3), by striking "subsection (l)" and inserting "subsections (l), (m), and (n)"; and

(3) by adding at the end the following new subsections:

"(m)(1)(A) If, within the 90-day period beginning on the date of the enactment of this subsection, the National Association of Insurance Commissioners (in this subsection and subsection (n) referred to as the 'Association') revises the amended NAIC Model Regulation (referred to in subsection (k)(1)(A) and adopted on September 20, 1988) to reflect the changes in law made by the Medicare Catastrophic Coverage Reform Amendments of 1989, subsection (g)(2)(A) shall be applied in a State, effective on and after the date specified in subparagraph (B), as if the reference to the Model Regulation adopted on June 6, 1979, were a reference to the amended NAIC Model Regulation (referred to in subsection (k)(1)(A)) as revised by the Association in accordance with this paragraph (in this subsection and subsection (n) referred to as the 'revised NAIC Model Regulation').

"(B) The date specified in this subparagraph for a State is the earlier of the date the State adopts standards equal to or more stringent than the revised NAIC Model Regulation or 1 year after the date the Association first adopts such revised Regulation.

"(2)(A) If the Association does not revise the amended NAIC Model Regulation, within the 90-day period specified in paragraph (1)(A), the Secretary shall promulgate, not later than 60 days after the end of such period, revised Federal model standards (in this subsection and subsection (n) referred to as 'revised Federal model standards') for medicare supplemental policies to reflect the changes in law made by the Medicare Catastrophic Coverage Reform Amendments of 1989, subsection (g)(2)(A) shall be applied in a State, effective on and after the date specified in subparagraph (B), as if the reference to the Model Regulation adopted on June 6, 1979, were a reference to the revised Federal model standards.

"(B) The date specified in this subparagraph for a State is the earlier of the date the State adopts standards equal to or more stringent than the revised Federal model standards or 1 year after the date the Secretary first promulgates such standards.

"(3) Notwithstanding any other provision of this section (except as provided in subsection (n))—

"(A) no medicare supplemental policy may be certified by the Secretary pursuant to subsection (a),

"(B) no certification made pursuant to subsection (a) shall remain in effect, and

"(C) no State regulatory program shall be found to meet (or to continue to meet) the requirements of subsection (b)(1)(A),

unless such policy meets (or such program provides for the application of standards equal to or more stringent than) the standards set forth in the revised NAIC Model Regulation or the revised Federal model standards (as the case may be) by the date specified in paragraph (1)(B) or (2)(B) (as the case may be).

"(n)(1) Until the date specified in paragraph (4), in the case of a qualifying medicare supplemental policy described in paragraph (3) issued in a State—

"(A) before the transition deadline, the policy is deemed to remain in compliance with the standards described in subsection (b)(1)(A) only if the insurer issuing the policy complies with the transition provision described in paragraph (2), or

"(B) on or after the transition deadline, the policy is deemed to be in compliance with the standards described in subsection (b)(1)(A) only if the insurer issuing the policy complies with the revised NAIC Model Regulation or the revised Federal model standards (as the case may be) before the date of the sale of the policy.

In this paragraph, the term 'transition deadline' means 1 year after the date the Association adopts the revised NAIC Model Regulation or 1 year after the date the Secretary promulgates revised Federal model standards (as the case may be).

"(2) The transition provision described in this paragraph is—

"(A) such transition provision as the Association provides, by not later than December 15, 1989, so as to provide for an appropriate transition (i) to restore benefit provisions which are no longer duplicative as a result of the changes in benefits under this title made by the Medicare Catastrophic Coverage Reform Amendments of 1989 and (ii) to eliminate the requirement of payment for the first 8 days of coinsurance for extended care services, or

"(B) if the Association does not provide for a transition provision by the date described in subparagraph (A), such transition provision as the Secretary shall provide, by January 1, 1990, so as to provide for an appropriate transition described in subparagraph (A).

"(3) In paragraph (1), the term 'qualifying medicare supplemental policy' means a medicare supplemental policy which has been issued in compliance with this section as in effect on the date before the date of the enactment of this subsection.

"(4)(A) The date specified in this paragraph for a policy issued in a State is—

"(i) the first date a State adopts, after the date of the enactment of this subsection, standards equal to or more stringent than the revised NAIC Model Regulation (or revised Federal model standards), as the case may be, or

"(ii) the date specified in subparagraph (B),

whichever is earlier.

"(B) In the case of a State which the Secretary identifies, in consultation with the Association, as—

"(i) requiring State legislation (other than legislation appropriating funds) in order for medicare supplemental policies to meet

standards described in subparagraph (A)(i), but

"(ii) having a legislature which is not scheduled to meet in 1990 in a legislative session in which such legislation may be considered,

the date specified in this subparagraph is the first day of the first calendar quarter beginning after the close of the first legislative session of the State legislature that begins on or after January 1, 1990. For purposes of the previous sentence, in the case of a State that has a 2-year legislative session, each year of such session shall be deemed to be a separate regular session of the State legislature.

"(5) In the case of a medicare supplemental policy in effect on January 1, 1990, the policy shall not be deemed to meet the standards in subsection (c) unless each individual who is entitled to benefits under this title and is a policyholder or certificate holder under such policy on such date is sent a notice in an appropriate form by not later than January 31, 1990, that explains—

"(A) the changes in benefits under this title effected by the Medicare Catastrophic Coverage Reform Amendments of 1989, and

"(B) how these changes may affect the benefits contained in such policy and the premium for the policy.

"(6)(A) Except as provided in subparagraph (B), in the case of an individual who had in effect, as of December 31, 1988, a medicare supplemental policy with an insurer (as a policyholder or, in the case of a group policy, as a certificate holder) and the individual terminated coverage under such policy before the date of the enactment of this subsection, no medicare supplemental policy of the insurer shall be deemed to meet the standards in subsection (c) unless the insurer—

"(i) provides written notice, no earlier than December 15, 1989, and no later than January 30, 1990, to the policyholder or certificate holder (at the most recent available address) of the offer described in clause (ii), and

"(ii) offers the individual, during a period of at least 60 days beginning not later than February 1, 1990, reinstitution of coverage (with coverage effective as of January 1, 1990), under the terms which (I) do not provide for any waiting period with respect to treatment of pre-existing conditions, (II) provides for coverage which is substantially equivalent to coverage in effect before the date of such termination, and (III) provides for classification of premiums on which terms are at least as favorable to the policyholder or certificate holder as the premium classification terms that would have applied to the policyholder or certificate holder had the coverage never terminated.

"(B) An insurer is not required to make the offer under subparagraph (A)(ii) in the case of an individual who is a policyholder or certificate holder in another medicare supplemental policy as of the date of the enactment of this subsection, if (as of January 1, 1990) the policy under which the individual was provided coverage provides for no waiting period with respect to treatment of a pre-existing condition.".

(b) SENSE OF CONGRESS.—It is the sense of Congress that States should respond, at the earliest practicable date after the date of enactment of this Act, to requests by insurers for review and approval of riders and premium adjustments for medicare supplemental policies in order to comply with the amendments made by subsection (a) and that all such premium adjustments be effective January 1, 1990.

SEC. 302. NOTICE OF CHANGES.

The Secretary of Health and Human Services shall provide, in the notice of medicare benefits provided under section 1804 of the Social Security Act of 1990, for a description of the changes in benefits under title XVIII of such Act made by the amendments made by this title.

SEC. 303. MISCELLANEOUS AMENDMENTS AND TECHNICAL CORRECTIONS.

(a) CORRECTIONS RELATING TO CATASTROPHIC DRUG BENEFIT.—

(1) DEFINITION OF COVERED OUTPATIENT DRUGS.—Section 1861(t)(3)(A) of the Social Security Act, as added by section 202(a)(2)(C) of the Medicare Catastrophic Coverage Act of 1988 (in this section referred to as "MCCA"), is amended—

(A) by redesignating clauses (iv) through (xiii) as clauses (vi), (vii), (viii), (ix), (x), (xii), (xiii), (xiv), (xvi), and (xviii), respectively;

(B) by inserting after clause (iii) the following:

"(iv) Diagnostic services under subsections (s)(2)(C) and (s)(3).

"(v) X-ray, radium, and radioactive isotope therapy under subsection (s)(4).";

(C) by inserting after clause (x), as so redesignated, the following:

"(xi) Parenteral nutrition nutrients under subsection (s)(8).";

(D) by inserting after clause (xvi), as so redesignated, the following:

"(xv) Partial hospitalization services (as defined in subsection (ff)).''; and

(E) by inserting after clause (xvi), as so redesignated, the following:

"(xvii) Qualified psychologist services (as defined in subsection (ii)).".

(2) COVERED HOME IV DRUGS.—Section 1861(t)(4)(A) of such Act (42 U.S.C 1395x(t)(4)(A)) is amended by striking "dispensed" and inserting "furnished by a qualified home intravenous drug therapy provider".

(3) REFERENCES TO CATASTROPHIC DRUG DEDUCTIBLE AMOUNT.—Section 1834(c) of the Social Security Act, as added by section 202(b)(4) of MCCA, is amended—

(A) in paragraph (2)(A), by striking "under paragraph (1)(A) and except as provided in subparagraph (C)" and inserting "under paragraph (1)", and

(B) in paragraph (8)(E), by striking "paragraph (1)(A)" each place it appears and inserting "paragraph (1)".

(b) SCREENING MAMMOGRAPHY.—

(1) APPLICATION OF PARTICIPATING PHYSICIAN DIFFERENTIAL.—Section 1834(e)(4) of the Social Security Act, as added by section 204(b)(2) of MCCA, is amended by adding at the end the following new subparagraph:

"(D) APPLICATION OF PARTICIPATING PHYSICIAN DIFFERENTIAL.—In applying the limit under subparagraph (A) with respect to a nonparticipating physician, the limit applied shall be the applicable percent (as defined in the second sentence of section 1842(b)(4)(A)(iv)) of the limit otherwise established in that subparagraph.".

(2) FREQUENCY OF SCREENING.—Section 1834(e)(2)(A) of the Social Security Act, as added by section 204(b)(2) of MCCA, is amended—

(A) in clause (iii)(I), by striking "the 11 months of a previous screening mammography" and inserting "11 months following the month in which a previous screening mammography was performed",

(B) in clause (iii)(II), by striking "the 23 months of a previous screening mammography" and inserting "23 months following the month in which a previous screening mammography was performed",

(C) in clause (iv), by striking "11 months of a previous screening mammography" and inserting "11 months following the month in which a previous screening mammography was performed", and

(D) in clause (v), by striking "23 months of a previous screening mammography" and inserting "23 months following the month in which a previous screening mammography was performed".

(c) ROUNDING OF PART B PREMIUM.—Section 1839 of the Social Security Act, as amended by section 211(c)(1)(E) of MCCA, is amended—

(1) in the first sentence of subsection (b), by striking "subsections (f) and (g)(5)" and inserting "subsection (f)",

(2) in subsection (b), by inserting after the first sentence the following new sentence: "If the resulting monthly premium is not a multiple of 10 cents, such premium shall be rounded to the nearest multiple of 10 cents.", and

(3) in subsection (c), by striking "the foregoing provisions of this section" and inserting "subsection (a)(3) or (e)".

(d) MISCELLANEOUS.—

(1) Clause (iii) of section 1814(a)(7)(A) of the Social Security Act, as added by section 104(d)(2)(C)(iii) of MCCA, is amended by moving its alignment 2 ems to the left so its alignment is the same as that of clause (ii) of such section.

(2) Section 1842(p)(3)(B) of the Social Security Act, as added by section 202(g) of MCCA, is amended by striking "section 1842(j)(2)(A)" and inserting "subsection (j)(2)(A)".

(3) Section 221(g)(3) of MCCA is amended by striking "subsection (f)" and inserting "subsection (e)".

(4) Section 1842(h)(5)(B)(iv) of the Social Security Act, as added by section 223(b)(4) of MCCA, is amended by striking "paragraph (2)(A)" and inserting "paragraph (2)".

(e) MISCELLANEOUS CORRECTIONS RELATING TO THE OMNIBUS BUDGET RECONCILIATION ACT OF 1987.—

(1) Effective as if included in the enactment of the Omnibus Budget Reconciliation Act of 1987, section 1834(b)(4)(A) of the Social Security Act, as added by section 4049(a)(2) of the Omnibus Budget Reconciliation Act of 1987, is amended by striking "insurance and deductibles under section 1835(a)(1)(I)" and inserting "coinsurance and deductibles under sections 1833(a)(1)(J)".

(2) Section 1842(j)(1)(C)(vii) of the Social Security Act, as added by section 4085(i)(7)(C) of the Omnibus Budget Reconciliation Act of 1987, is amended by striking "accordingly" and inserting "according".

(3) Section 1886(g)(3)(A)(iv) of the Social Security Act, as added by section 4006(a)(2) of the Omnibus Budget Reconciliation Act of 1987, is amended by striking "may) be" and inserting "may be)".

(f) OTHER CORRECTIONS.—

(1) Section 1866(a)(1)(F)(i)(III) of the Social Security Act is amended by striking "fiscal year))" and inserting "fiscal year)".

(2) Section 1875(c)(7) of the Social Security Act, as added by section 9316(a) of the Omnibus Budget Reconciliation Act of 1986, is amended by striking "date of the enactment of this Act" and inserting "date of the enactment of this section".

(3) Section 1842(j)(2)(B) of the Social Security Act, as amended by section 8(c)(2)(A)

of the Medicare and Medicaid Fraud and Abuse Patient Protection Act of 1987, is amended by striking "paragraphs" and inserting "subsections".

TITLE IV—MISCELLANEOUS SOCIAL SECURITY PROVISIONS

SEC. 401. EXCLUSION FROM WAGES AND COMPENSATION OF REFUNDS REQUIRED FROM EMPLOYERS TO COMPENSATE FOR DUPLICATION OF MEDICARE BENEFITS BY HEALTHCARE BENEFITS PROVIDED BY THE EMPLOYERS.

(a) OLD-AGE SURVIVORS, AND DISABILITY, AND HOSPITAL INSURANCE PROGRAMS.—For purposes of title II of the Social Security Act and chapter 21 of the Internal Revenue Code of 1986, the term "wages" shall not include the amount of any refund required under section 421 of the Medicare Catastrophic Coverage Act of 1988.

(b) RAILROAD RETIREMENT PROGRAM.—For purposes of chapter 22 of the Internal Revenue Code of 1986, the term "compensation" shall not include the amount of any refund required under section 421 of the Medicare Catastrophic Coverage Act of 1988.

(c) FEDERAL UNEMPLOYMENT PROGRAMS.—

(1) FEDERAL UNEMPLOYMENT TAX.—For purposes of chapter 23 of the Internal Revenue Code of 1986, the term "wages" shall not include the amount of any refund required under section 421 of the Medicare Catastrophic Coverage Act of 1988.

(2) RAILROAD UNEMPLOYMENT CONTRIBUTIONS.—For purposes of the Railroad Unemployment Insurance Act, the term "compensation" shall not include the amount of any refund required under section 421 of the Medicare Catastrophic Coverage Act of 1988.

(3) RAILROAD UNEMPLOYMENT REPAYMENT TAX.—For purposes of chapter 23A of the Internal Revenue Code of 1986, the term "rail wages: shall not include the amount of any refund required under section 421 of the Medicare Catastrophic Coverage Act of 1988.

(d) EFFECTIVE DATE.—This section shall apply with respect to refunds provided on or after January 1, 1989.

NOTICES OF HEARINGS

COMMITTEE ON AGRICULTURE, NUTRITION, AND FORESTRY

Mr. LEAHY. Mr. President, I wish to announce that the Committee on Agriculture, Nutrition, and Forestry will hold a hearing on pending nominations, on Wednesday, November 15, at 10 a.m., in SR-332.

COMMITTEE ON VETERANS' AFFAIRS

Mr. CRANSTON. Mr. President, I announce, for the information of Senators, that the Committee on Veterans' Affairs, which I am privileged to chair, is scheduled to hold a hearing Wednesday, November 15, 1989, in SR-418 at 9:30 a.m. to consider Department of Veterans Affairs health care for rural veterans.

AUTHORITY FOR COMMITTEES TO MEET

COMMITTEE ON ARMED SERVICES

Mr. BRYAN. Mr. President, I ask unanimous consent that the Committee on Armed Services be authorized to meet on Wednesday, November 8, 1989, at 9:30 a.m. to review the impact of a sequester on the Department of Defense in fiscal year 1990 and fiscal year 1991.

The PRESIDING OFFICER. Without objection, it is so ordered

SUBCOMMITTEE ON CONSUMERS

Mr. BRYAN. Mr. President, I ask unanimous consent that the Consumer Subcommittee, of the Committee on Commerce, Science, and Transportation, be authorized to meet during the session of the Senate on November 8, 1989 at 9 a.m. to hold a hearing on S. 891, the Consumer Products Safe Testing Act.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUCOMMITTEE ON AVIATION

Mr. BRYAN. Mr. President, I ask unanimous consent that the Aviation Subcommittee, of the Committee on Commerce, Science, and Transportation, be authorized to meet during the session of the Senate on November 8, 1989 at 9:30 a.m. to hold a hearing on S. 1741, the Airline Competition Enhancement Act of 1989.

The PRESIDING OFFICER. Without objection, it is so ordered.

SUBCOMMITTEE ON CONVENTIONAL FORCES

Mr. BRYAN. Mr. President, I ask unanimous consent that the Subcommittee on Conventional Forces and Alliance Defense of the Committee on Armed Services be authorized to meet with members of the Italian Defense Committee—Chamber of Deputies—in executive session on Wednesday, November 8, 1989, at 4:30 p.m., in SR-232A.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. BRYAN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, November 8, at 2:30 p.m. to hold hearings on Cresencio Arcos to be Ambassador to Honduras and Richard Melton to be Ambassador to Brazil.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON FOREIGN RELATIONS

Mr. BRYAN. Mr. President, I ask unanimous consent that the Committee on Foreign Relations be authorized to meet during the session of the Senate on Wednesday, November 8, at 9:30 a.m. to hold a hearing on Ronald Sorini, for the rank of Ambassador during his tenure of service as the U.S. Negotiator on Textile Matters.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON THE JUDICIARY

Mr. BRYAN. Mr. President, I ask unanimous consent that the Committee on the Judiciary be authorized to meet during the session of the Senate on November 8, 1989, 10 a.m., to hold a hearing on habeas corpus.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENERGY AND NATURAL RESOURCES

Mr. BRYAN. Mr. President, I ask unanimous consent that the Full Committee of the Committee on Energy and Natural Resources be authorized to meet during the session on the Senate on November 8, 1989, 9:30 a.m., for a business meeting pending calendar business.

The PRESIDING OFFICER. Without objection, it is so ordered.

COMMITTEE ON ENVIRONMENT AND PUBLIC WORKS

Mr. BRYAN. Mr. President, I ask unanimous consent that the full Committee on Environment and Public Works be authorized to meet during the session of the Senate on Wednesday, November 8, beginning at 9:30 a.m., to hear Don R. Clay, nominated by the President to be Assistant Administrator, Office of Solid Waste and Emergency Response, EPA; and James M. Strock, nominated by the President to be Assistant Administrator for Enforcement and Compliance Monitoring, EPA.

The PRESIDING OFFICER. Without objection, it is so ordered.

ADDITIONAL STATEMENTS

FAREWELL TO THE CHIEF

● Mr. HATFIELD. Mr. President, many of my colleagues have had the privilege to know Daniel J. Boorstin, the Librarian of Congress emeritus and one of this city's most thoughtful observers. At a recent conference held at the Herbert Hoover Library, Dr. Boorstin suggested some very useful ideas about how this country could tap the knowledge and experience of our former Presidents. I rise today to bring his comments to the attention of my colleagues.

In a collection of essays I commissioned several years ago to commemorate the 50th anniversary of President Herbert Hoover's inauguration, University of Kansas historian Donald McCoy remarked that "former holders of high political position constitute an aristocracy, a kind of American house of lords * * * that has considerable impact on society."

It makes sense that Dr. McCoy's comments—as well as Dr. Boorstin's comments—came in connection with President Hoover. In the decades after he left the Oval Office, President Hoover became a national trust of sorts. From singlehandedly convincing President Harry Truman to mobilize the U.S. Army for relief work in the aftermath of World War II to vastly enhancing the efficiency of the Federal Government through the Hoover Commission, President Hoover did

indeed have a considerable impact on society.

Rarely have we had so many living former Presidents. Unfortunately, however, we have not created any structure to encourage and channel their vision and experience.

In his recent speech at the Herbert Hoover Library, Dr. Boorstin suggested that we created such a structure—not only for former Presidents but also for other retired senior office holders. I commend his comments to my colleagues, and hope very much that we can all work together in the near future to further develop his suggestions and put them into practice:

SAVING A NATIONAL RESOURCE

(By Daniel J. Boorstin)

Our American strength, we have often been told, has been our youth. Ours is, or until recently was, a young nation. "The youth of America," Oscar Wilde observed nearly a century ago, "is their oldest tradition. It has been going on now for three hundred years." It was the young in spirit, we say, who had the strength and the will and the flexibility to leave an Old World, to risk an Atlantic or Pacific passage for the uncertain promises of a still-uncharted America. The framers of the Constitution provided that a person thirty-five years of age was old enough to be President, a Senator needed to be only thirty, a member of the House of Representatives only twenty-five, and the Twenty-Sixth Amendment to the Constitution lowered the voting age to 18. We have been ingenious, too, in devising institutions—like our Land Grant Colleges and the G.I. Bill—to make the best use of our youth-resource.

But as our nation has matured—some would say only aged—as the need for immigrant courage is less general, and as life-expectancy has increased, our population has been aging. And we have not shown the same enthusiasm and delight for old age. Our ingenuity in meeting the needs and opportunities and demands of youth has not been matched by any similar ingenuity in devising institutions to employ our older population. The late Senator Claude Pepper did a great service by focusing concern on the needs of the elderly. Though we have provided Golden Eagle Passes for senior citizens to the National Parks, we have run into gross political problems trying to provide health insurance especially for our aging citizens. The most conspicuous American institution directed to senior citizens is the so-called Leisure City, a place not of creation but of recreation and vegetation. Our concern for the special needs of our ailing, idle, and disoriented aging has been admirable. But we need to refocus our attention on how to employ the special talents and resources of our most experienced citizens.

Today we are gathered to explore the role of former Presidents in American public life. We now have four living former Presidents, all happily functioning and in good health. This, I think is a near record. In 1861 living former Presidents Van Buren, Tyler, Fillmore, Pierce, and Buchanan, came to five. The number of living former Presidents is likely to increase, with the decline of smoking and the increasing longevity of the American population, and especially since the Twenty-Second Amendment to the Constituton which prevents a President from serving more than two terms.

The television spotlight on the sitting President has somehow deepened the penumbra into which a former President falls when he is no longer in the White House. Television has given a new meaning to the old proverb, "Out of Sight, Out of Mind." Our failure to create a role in public life for former Presidents is partly a reflection of our American preoccupation with Youth, another symptom of our chronic ineptness in providing productive roles for older citizens. We are concerned with the "role," the active part that former Presidents can play in our public life.

One of the most distinctive and uncelebrated features of our American Presidency has helped create the problem of the Castaway President. The fixed four-year term makes a President's tenure different from that of a Prime Minister in a Parliamentary system who can be turned out of office on short notice by a Parliamentary majority or similarly brought back for a short period. Our fixed term has allowed our Presidents to stay in office even when they have outlived their popularity with the electorate and even though they have no majority in either House of Congress, and so has given a prudent stability to the office. Especially since the Twenty-Second Amendment makes every President a lame duck in his second term, the constitutionally fixed term seems also to have defined a terminus to a President's active role in public life. A President, like other former holders of high office, is in danger of becoming what in Washington is called "a former person."

While almost everyone agrees that we are not making full use of the knowledge, wisdom, and experience of former Presidents, there have been few practical suggestions of what should be done. The one repeatedly suggested (for example, by President Truman)—that former Presidents be given a non-voting role in the House of Representatives and/or the Senate—has not invited wide approval nor a serious initiative by the Congress. I do not join in the complaints of the ample financial and security provisions for former Presidents. But the generous provision that Congress and the American people have made suggests a widespread belief that former Presidents should not cease to play a role in our public life.

For your thought and discussion this morning I would like to offer a suggestion—perhaps only the skeleton of a suggestion. Perhaps we have an opportunity today to begin to find a way to fill a lacuna in our institutions. Perhaps at the time that we offer a new role for our former Presidents we can find a way to bring more prominently into the public forum Americans of wisdom and experience in all fields.

Our American need was dramatized for me when I was living in England and following Parliamentary debates as reported in the London Times. I was not the only one to notice the superiority of the debates in the House of Lords over those in the House of Commons. The House of Lords, the unelected but elite second chamber of the British legislature, as you know, has little legislative power, despite its antiquity and prestige. But it has changed its character in recent years. Its hereditary membership has been overshadowed by the persons (many of them non-political) appointed for their recognized distinction and leadership in all areas of British life. The House has come to include economists like Barbara Ward, historians like Hugh Thomas and Asa Briggs, scientists like chemist Frederick Dainton. These people have earned their right to public respect and their right to be heard on public issues by their signal achievement in their own special field. Yet in the past they have had only the forum of their professional specialty—except for random interviews in the press, radio, and television incited less by public need than by the desire of the media to fill space or time. Now that the character of the British second chamber has been changing, these people have a forum, where they can join in publicized debate on major public issues and where they can raise issues that they think have been neglected.

An additional qualification for membership in this group, important for us to note, is that membership is a kind of certificate of withdrawal from the pursuit of elective office. Which has made it an appropriate place, too, for former Prime Ministers, who are among the body's most valuable members.

It occurred to me to ask myself, and then to ask others, whether somehow we could devise an American institution, within our democratic tradition and our constitutional frame, to give us the benefits of a similar national forum. Obviously, heredity and aristocracy have no place in our country. But we too can benefit from a wider forum on national issues for our most experienced leaders in labor, business, science, literature, education, and the arts—for our citizens who have never been politicians, or have ceased to be politicians. Without authorization from anybody I have discussed this possibility in the last few years with a number of our leading citizens. I have found nearly unanimous agreement that there is something missing from our public life in this age of television.

What I offer this morning, then, is perhaps nothing more than the skeleton of an idea to stir our thinking—toward creating a new national institution. National network television, with the auxiliaries in the cables, and the facilities of VHS, has provided unprecedented facilities for bringing together on the screen and in livingrooms speakers who remain in widely separated places, and for allowing their words and ideas to reach unprecedented numbers. Now our nation can witness the exchanges of opinion and share the wisdom and experience of our best qualified leaders, not merely on political issues. Present uses of television as a forum are either for formal occasions, like the inauguration of a President or a campaign debate, with countless casual television interviews and encounters. May not the time have come to use this unprecedented technology for an unprecedented forum of leading experienced Americans? May not the time have come to give some rhythm and regulatory to such a forum, where citizens can follow the points of view of different leading Americans continously and through time?

Our meeting here to discuss and define a role for former Presidents is providential. For our living former Presidents could provide a core of a new national council of experience. A House of Experience and at this time they could solve an initial question—who will name the first members of the council? Perhaps each living former President could be asked to name three persons to join the group, which would bring the number to sixteen, for the present. As another self-defining categories, former Chief Justices of the Supreme Court could be added. Perhaps, too, former Speakers of the House of Representatives. Later, the group

as a whole could be responsible for filling vacancies or adding members.

How often, where, and how should this national council of experience meet? There are many possibilities, and the proper rhythm and frequency of meetings will appear only when the group has begun to meet. To accomplish the purpose, to provide a continuing forum and continuing public interest the meetings should be regular and not too infrequent. Perhaps the group could gather at least once a year either in Washington or at one of the Presidential libraries. Other meetings could bring together some of the members as a kind of Committee in their persons, and the whole group could quarterly exchange ideas and discuss through a televised forum from their separate places.

Who should set the agenda? Who could be better qualified to help us focus on enduring national issues than our former Presidents with their experience and their feeling for the nation's unfinished business.

What sorts of topics should be on the agenda? The member would decide, but it would seem that the spotlight should be on long-term problems such as education, the relation of the United States to other countries and the world the role and status of the family in American life and the environment, rather than current questions of policy. The success of this national council would be tested by its ability to focus then experience and wisdom of leaders who are not seeking votes, on matters of long-term national concern. And their ability to awaken interest in questions not in the headline.

How could such a group be created? There are many possibilities. One would be an Act of Congress chartering the council as a nonprofit institution similar to the Act chartering the American Historical Association. The national council should have no legal authority and no legislative role. It would be chartered to meet, discuss, and explore in public view the nation's long-term concerns.

All these specifics are only suggestions. Many other possibilities will occur to you. I am persuaded that we have the unprecedented opportunity created by our technology, and an unprecedented core resource in our former Presidents. With your imagination and knowledge, with their wisdom and experience, and with the help of others we may be able to begin go fill a need in our public life.●

INCREASE IN CEILING ON PUBLIC DEBT

● Mr. KERRY. Mr. President, last night the Senate, by voice vote, passed House Joint Resolution 280 to increase the ceiling on the public debt. While it is necessary to increase the borrowing authority of the Federal Government to avoid default, I personally oppose the increase. The current environment makes it impossible for me to support the increased ceiling.

In 1986, when I first came to the U.S. Senate, the debt held by the public was about $1.3 trillion. That debt is now well over $2 trillion. This legislation increases the limit on all Federal debt over $3 trillion. These increases mean one thing—that interest on the national debt has increased from $52 billion in fiscal year 1980 to over three times that in fiscal year 1989. This astronomical increase means billions of dollars that could be invested in the Nation's future and spent productively—on education, on the environment, on highways and bridges, on further deficit reduction—are instead squandered on interest payments.

This is, unfortunately, the legacy of the Reagan Presidency. The legacy of the Bush Presidency should be a solution. Instead, this year has been marked by a complete failure of leadership on deficit reduction.

Last spring, the new administration negotiated an agreement with the congressional leadership to reduce the Federal budget deficit and meet the Gramm-Rudman-Hollings target for fiscal year 1990. Unfortunately, a great opportunity was squandered by the White House. The negotiations resulted in an agreement characterized by sleights of hand and blue smoke and mirrors. I voted against the budget resolution, and, now, I must oppose this legislation. Until the administration takes responsibility and takes the Nation's fiscal problems seriously, I will continue to oppose phony deficit reduction seriously, I will continue to oppose phony deficit reduction and the increases in the debt limit to allow it.

For most of this year, it has been clear that last year's campaign promises were more important to the President than serious deficit reduction. The President, for a time, was willing to hold every major piece of legislation hostage to his capital gains proposal.

And now we see that the White House is willing to let major tax provisions expire unnecessarily so that they will have a vehicle for legislation cutting the capital gains rate next year. As a result of this dangerous strategy, the research and development tax credit that helps firms develop new products, the credit for low-income housing that is the major housing program in the United States, the targeted jobs tax credit that encourages employment of the hard to employ, the authorization for small issue bonds and mortgage revenue bonds, and the authorization for the deduction for employer provided educational assistance will all expire at the end of the year. These are important incentives for important purposes. They directly affect Americans in their jobs, at school and at home. They are critical elements of our public policy. Mr. President, they should not be caught up in the capital gains issue.

The logjam on capital gains has been broken temporarily, but the result of this impasse is that we did not begin a serious round of budget negotiations this summer or fall and we have made little or no progress on many of the real issues facing this Nation and our economy.

Certainly, much of the deficit dilemma may be laid at the feet of the budget process. I was an original cosponsor of Gramm-Rudman-Hollings, and I believe that the act forced the Congress and the President to reduce the deficit—it fell from $221 billion in fiscal year 1986 to $150 billion in fiscal year 1987. The act slowed the growth of Federal spending.

There are major flaws in the existing law. Most importantly, the focus on the next year's deficit target, instead of deficit reduction over several years, has resulted in shifted pay days and other gimmicks. Instead of debating spending priorities and Federal policies, Congress and the White House devise new ways to slide by the next year's deficit target. Instead of being honest about the costs involved in the savings and loan bailout, we move the costs off-budget.

But the problem is not just the process. The problem that Gramm-Rudman-Hollings was designed to solve remains. Gramm-Rudman-Hollings was intended to force the administration and the Congress to take action to reduce the deficit because there was a lack of political will. Without a crisis, like the 1987 stock market crash, there are no compelling reasons for the administration or the Congress to come to the table. We must, Congress and the administration, find the will and renew our efforts to reduce the Federal budget deficit.

Gramm-Rudman-Hollings can be amended and amended and the problem still won't go away until there is resolve to address the fundamental issues. We need leadership from the White House and a commitment to govern. It is necessary to increase the debt limit for the Federal Government to function; I cannot support doing so until I see a real commitment to govern by the White House.

This legislation before us tonight also repeals section 89. I support this action because I believe that section 89, while intended to prevent discrimination in employee benefits, imposes an intolerable and unjustified burden of compliance upon employers. I share the concerns of those who own and operate small and midsize businesses about the administrative burden that section 89 places on firms. It is also my hope that by repealing section 89 tonight, we will see the development of a fair and workable method of encouraging the equitable distribution of health benefits among workers at all income levels.●

MANUFACTURING AMERICA'S TRADE POLICY

● Mr. HEINZ. Mr. President, I would like to call Senators' attention to recent remarks of former Ambassador and Deputy Special Trade Representa-

tive Alan Wolff to the Fortune 200 Public Relations Seminar concerning the international competitive challenge facing us in the 1990's and the inevitable role the Government must play in meeting this challenge.

It is time for the United States to do some critical thinking on behalf of a more aggressive trade policy. Ambassador Wolff states:

The "trade problem" which the United States is faced with is a challenge of national importance, rather than being of only concern to individual firms, for two reasons.

The first is our enormous and intractable twin trade and budget deficits, and the second is the increasingly adverse effect our trade policies are having on the American economy. It is past time for the Government to pursue and establish objective goals and an aggressive strategy at the national level.

Ambassador Wolff advocates an appropriate governmental role as one which provides "the rich primordial broth in which entrepreneurial endeavors can spark economic and technical progress." Domestically, proper Government policies must raise the rate of savings, lower the cost of capital and raise the educational level in the work force. But also an important part of assuring a healthy domestic economy is the development and pursuant of a trade policy which prevents competitors' activities—particularly those operating with the benefit of foreign government created advantage—from harming critical American industries. These actions must at the same time seek to reinforce principles of open markets and free competition. Ambassador Wolff suggests six areas for exploration and action which we, as Senators, need to focus on:

First. Increase the capacity of the Federal Government, working with the private sector, to answer important questions about the competitiveness of U.S. industry.

Second. Expand funding for R&D consortia. This could include such areas as advanced manufacturing, new materials, and advanced electronics, as well as the creation of a civilian DARPA.

Third. Invest in the infrastructure of the 21st century, for example, in a new infrastructure based on a national computer networking system.

Fourth. Ensure reciprocity in access for foreign research and development of technical information.

Fifth. Change the mission of the national labs to place greater emphasis on applied research and development.

Sixth. Be prepared to respond to aggressive sectoral policies of foreign countries with strong policies of our own. These may include tax credits, preferential Government procurement, and loan guarantees.

Whether or not Alan is on the right track with respect to each of these details, I certainly think he is pointing us in the right direction. We should use our public policies more wisely and effectively to promote a healthier domestic economy better able to compete in today's international environment. Government has an obligation to face the challenge of industrial competitiveness and to pursue policies that are in our interest, not that of our competitors.

Mr. President, I ask that the text of Ambassador Wolff's remarks be printed at this point in the CONGRESSIONAL RECORD.

The remarks follow:

"THE CASE FOR MANUFACTURING: AMERICA'S TRADE POLICY"

(Remarks of Alan Wm. Wolff)

THE TRADE PROBLEMS

It is time to do some hard thinking about America's place in the world economy.

Colby Chandler has reviewed how to make American firms more competitive. We need a better educated workforce, companies paying more attention to manufacturing, more patient and lower cost capital, and a government that works on the side of industry, rather than either impairing its international competitive position or just sitting on the sidelines.

Rudi Dornbusch addressed many of the macroeconomic policies that are preconditions for achieving a healthier world economic system.

My job is to take you from the factory floor and the quiet groves of academy into the trenches with the Americans who every day have to shine their shoes, pack up their technical manuals, and get out there and sell. Despite the fact that these American men and women sold $320 billion in foreign markets in 1988, their lot is not an easy one. You read some of their stories in those wonderfully written feature stories on the front page of the Wall Street Journal, (although for some reason their problems never make it back to the cloistered editorial desk).

Let me tell you some of what they are up against:

Over the years, heavy electrical generating equipment could not be sold in the European Common Market unless you were a member of the European suppliers group. American firms were not members of the club. Our industry is smaller today as a result of lack of access to this large part of the world market.

American producers of soda ash can't get above a residual share of the Japanese market in Japan, due to the organization of that market. We have the best and cheapest product.

Motorola has the most amazing, advanced cellular phone in the world, but the Japanese Government has relegated the use of Motorola's equipment to rural areas while the Japanese industry tries to develop a competing model.

American drug companies' products are denied patent protection in much of the developing world where inferior imitations limit their market. The U.S. International Trade Commission has estimated that foreign theft of American intellectual property cost American firms as much as $61 billion last year, almost half of last year's trade deficit.

American semiconductor (computer chip) makers have 70% of the U.S. market for automative uses, but only 1% in Japan. Their competitive product is available but not welcome there.

In the first half of this decade alone, the European community spent over $40 billon subsidizing their steel industry, more than we spent from 1980 to 1988 on our space flight programs. In other words, the Europeans have spent more money landing steel in the Great Lakes area than we have spent on landing men and women on the moon.

Europeans have forced Japanese makers of computer printers to remove American chips from their products and substitute European ones.

A vice-minister of MITI told U.S. government officials that American supercomputer manufacturers were wasting their time trying to sell to the Japanese government and public universities. In a not unrelated development, Control Data is no longer making the attempt to sell, it is getting out of the business.

American car companies such as Chrysler can't get their popular jeeps into the Japanese distribution system at all when vast numbers of American car dealers carry several lines of imports.

When you read about trade frictions among nations, or the level of hostility in Congress or the demand for an aggressive trade policy, it stems from countless stories like these. The U.S. government puts out a book of these foreign barriers each year called the National Trade Estimates. It just scratches the surface of what is out there. So when you read that the Japanese would rather build their own satellites or jet fighters or supercomputers, rather than buying superior American products, and they then complain that the $55 billion surplus that they run with us each year is due to the fact that America has nothing competitive to offer, you might get a little hot under the collar too.

Let me pull back from this tour of the front lines for a moment and move to an overview of the battle, and where this particular fight fits into the scheme of our national interests.

The "trade problem" which the United States is faced with is a challenge of national importance, rather than being of only concern to individual firms, for two reasons:

First, there is the large and intractable trade deficit, which could actually increase in the years to come unless the United States acts decisively. The second is the adverse effect that economic and trade policies at home and abroad are having on the composition of the American economy.

We must do more than wring our hands over America's accumulation of foreign debt and the erosion of its industrial and technological leadership, we must act now to reverse these trends.

It is time for the United States government to set national goals. No organization, whether government or business, can function effectively if it does not have objectives, and a strategy by which it seeks to accomplish those objectives. If any of your companies were managed the way that the United States government runs its trade and economic policies, they'd be filing for Chapter 11 in short order.

Goal One: Turn the U.S. trade deficit into a trade surplus.

The United States has run trade deficits of $100 billion or more for the last 5 years—with no end in sight. Our trade deficit with Japan is $55 billion, despite a more than 40 percent depreciation of the dollar against the yen since 1985. As a result of these large trade deficits, we've been transformed from

the world's largest creditor to the world's largest debtor.

We now owe the rest of the world $500 billion more than they owe us, a figure that will grow to $1 trillion by the early 1990s. Now, it would be possible to retire that debt by selling all of the companies represented in this room to foreign investors, but I continue to hope that we can come up with a better solution.

Achieving a trade surplus is not only necessary, it is achievable. Martin Feldstein believes that the U.S. could run a trade surplus by the early 1990s, and points out that the "United States must eventually have a trade surplus in order to finance at least part of the net interest and dividends that Americans will owe to investors abroad."

The trade deficit is economically harmful for a number of reasons. The 1987 merchandise trade deficit cost the United States an estimated 5.1 million job opportunities in export and import related industries, industries which pay higher than average wages.

Unless we find a way to address the trade deficit, our future standard of living will be decreased, as a sizable fraction of our GNP is diverted to cover the interest payments on our foreign debt. Moreover, America's dependence on foreign capital is a source on instability in the world economy. Fears of a dollar decline drove up long-term interest rates in the spring of 1987 and helped precipitate "Black Monday" in October of 1987.

Of course, balance can either be achieved through a sharp reduction in trade, which would probably plunge the world economy into a deep recession, or through growth in our export and import-competing sectors. The real challenge is to eliminate the U.S. trade deficit while maintaining strong economic growth.

Goal Two: Promote America's industrial and technological leadership.

Industrial and technological leadership is the foundation for a rising standard of living and our status as an economic and military power.

Our manufacturing sector has been hit hard. The overall manufactures trade balance worsened dramatically—from a $15.4 billion surplus in 1981 to a $146.8 billion deficit in 1988. As of January 1989, manufacturing employment was still down nearly 1.7 million from its 1979 peak.

America is in danger of losing its technological edge. The United States high-technology trade surplus fell from $31 billion in 1981 to $6 billion in 1988. From 1970 to 1987, US companies' share of the domestic market declined from 90 percent to 10 percent for color TVs, 90 percent to 1 percent for phonographs, and 100 percent to 35 percent for machining centers. VCRs, facsimile machines, liquid crystal displays, and optical and compact disc players are simply not produced by U.S. firms.

The U.S. is also falling behind in key technologies and products of the future: X-ray lithography, superconductivity, biotechnology, manufacturing automation and HDTV.

Military strength ultimately depends on economic strength: Losing our industrial and technological strength will affect our economic and national security. As Robert Costello, the Under Secretary of Defense for Acquisitions put it, "You can't fight a war with pizza parlors." The erosion of our industrial base threatens our national defense, and the loss of our technological edge makes us dependent on foreign sources for militarily critical components. Pentagon stategists, for example, recently discovered that a German plant 30 miles west of the Czechoslovakian border makes all of the high-purity silicon the U.S. buys for chips used in thousands of missle guidance systems. If the United States lost access to that plant, missile production would be crippled for months. Providing for our national security in an international economy poses new challenges and dilemmas for our defense and economic policy makers.

A TRADE AND COMPETITIVENESS AGENDA FOR ACHIEVING THESE GOALS

Eliminating the trade deficit by 1993 and restoring our technological and industrial leadership will require a comprehensive national strategy. Progress must be made simultaneously on three fronts: (a) appropriate macroeconomic policies here and abroad; (b) an effective trade policy; and (c) key investments in our economic future.

Rudi Dornbusch has already discussed the macro agenda: the need to reduce the budget deficit, increase private savings, coordinate the macroeconomic and exchange rate policies of the Group of 7, and solve the Third World debt crisis. And Colby Chandler has spoken eloquently of the need to increase investment in people, technology and plant and equipment. Macroeconomic policy and investment strategies are both tremendously important, but so is trade policy because it will be a key factor in determining the shape of the American economy. My assignment is to address what America's trade policy should be.

Suggestions for Crafting America's trade policy

The first Reagan Administration took the view of the economist who said "don't bring me facts if they have no theoretical basis". Since that period, we have now witnessed a major shift in exchange rates. We have also seen a remarkable increase in American industrial competitiveness, brought about in part by the harsh discipline of the overvalued dollar. But we have not witnessed an improvement in the trade balance of corresponding magnitude. There will still be work to be done even if Japanese and German domestic growth is further stimulated and third world growth is rekindled. Obviously there are further barriers to trade which will not be cured by macroeconomic measures alone.

Let me start by setting forth some principles, and then demonstrate how they would be applied in practice.

1. Make trade a national priority: No trade policy will be successful unless it is identified by the President as a national priority. In the immediate post-war era, the United States was often willing to allow diplomatic and political considerations to overshadow economic and commercial interests. Now that our closest political allies are our fiercest economic competitors, the old hierarchy between "high" and "low" politics is no longer appropriate. America's trade interests matter.

2. Adopt a results-oriented strategy with goals and timetables: America must devise a strategy for turning its trade deficit into a trade surplus by 1993. To accomplish this, the United States should develop benchmarks and milestones to help evaluate its progress towards that goal. Establishing benchmarks for the elimination of global economic imbalances is essential for measuring our progress. The goal is to attain expanding levels of trade, not less trade.

Eliminating America's trade deficits cannot be achieved without Japan, West Germany and the East Asian NICs reducing their persistent trade surpluses as well. As a corollary to America's annual trade deficit reduction targets, the United States should seek similar commitments from these major trading partners on surplus reduction targets. The agreements should focus on each country's global—not bilateral trade surpluses.

The lion's share of the surplus countries' adjustment will be achieved through macroeconomic measures such as fiscal and monetary policies. However, structural reforms and the elimination of trade barriers will also be necessary if macroeconomic policies are to be fully effective.

Likewise, in specific cases benchmarks for levels of sectoral import penetration may also be necessary if suppliers that are competitive worldwide are unable to enter certain national markets. As in the case of overall trade surplus reduction targets, the objective would not be managed trade, but the elimination of trade distorting practices. The goal should be to have imports from all sources rise to a level consistent with the underlying competitive conditions in the market in question.

3. Enforce the Trade Act: Top priority should be given to ensuring that foreign governments honor the commitments they make to stop unfair trade practices. Duties should be imposed on foreign goods that are dumped or subsidized.

The United States government has a remarkably poor record when it comes to responding effectively to foreign unfair trade practices. We lost our color television industry in the 1970s due to an unopposed wave of Japanese dumping. We lost one-third of our lumber market to Canadian subsidies before we reacted four years late. We've lost one-fourth of our steel-making capacity since the late 1970s, in part because our antidumping and antisubsidy laws were inadequate. We lost 90% of our capability to make key memory chips for computers because we were too slow to halt dumping. We can't afford to wait until the patient requires hospitalization before we take action.

We should also take strong action when foreign governments tolerate piracy of intellectual property or anti-competitive practices. When countries engage in a consistent pattern of unfair trade practices, particularly those with large trade surpluses, the United States should adopt a "wholesale" rather than "retail" approach by putting all known unfair practices on the table. To use the Trade Act as an effective tool for eliminating the trade deficit by 1993, we must target those trade barriers which are the biggest roadblock to America's exports.

4. Obtain equitable sharing of the burdens of world trade: The United States regularly takes a disproportionate share of world manufactured imports. In 1987, the U.S. absorbed 59 percent of LDC manufactured goods exports, versus 29 percent for Europe and 10 percent for Japan. Last year Hyundai exported over 300,000 cars to the United States, 21,000 to the European Community, and 150 to Japan. So if the United States is protectionist, we're certainly not very good at it.

A key objective of U.S. policy must be to obtain more equitable burden sharing.

5. Promote adjustment of industries injured by imports: The 1988 Trade Act improves the nation's import relief laws. When a domestic industry is injured or threatened by imports, firms and workers must be given time to adjust. The government should encourage them to use that time constructively: to retool, retrain, and regain international competitiveness.

6. Promote exports: The U.S. government should meet the foreign competition in export promotion efforts. Our trading partners have larger export credit agencies and "tie" more of their aid to commercial objectives. The United States directs 2.3 percent of its bilateral foreign aid to capital goods; Japan may devote as much as 65 percent of its aid to capital project assistance. Until tied aid and export credits can be controlled by international agreements, the United States must make sure that American firms are not forced to compete against foreign treasuries.

7. Advance the Uruguay Round: Despite rumors that the GATT is dead, the new round of multilateral negotiations can be an effective tool to open foreign markets and advance the national economic interest. The GATT rules should be extended to services and intellectual property. But other areas must be addressed as well, such as foreign industrial targeting and foreign government toleration of anti-competitive practices. The GATT should also conduct systematic reviews of the trade policies and practices of its members, with an eye toward improving the effectiveness of international trade rules.

8. Avoid damage to the industrial and technology base: The United States can no longer be indifferent about the composition of its economy. The loss of a strategic sector of the economy, especially when due to foreign industrial targeting or unfair trade practices, must be a matter of serious government concern. The loss of key sectors of the economy can have dramatic ripple effects. The loss of much of America's consumer electronics industry, substantially due to foreign unfair trade practices, for example, has hampered the growth of the U.S. semiconductor industry. It also eliminated the stream of profits and technologies that would provided the basis for participation in the next generation of consumer products, such as HDTV.

9. Coordinate defense, technology and trade policies: In some instances, our defense, technology and trade policies may be working at cross-purposes. Co-production agreements like the FSX can erode our competitive advantage in commercial aerospace. Offset agreements can also undermine the U.S. industrial base by requiring American firms to purchase foreign goods. In 1986, for example, the British government purchased the Boeing AWACS, but reportedly Boeing and its major U.S. subcontractors had to agree to purchase British goods and services worth 130 percent of the aircraft purchase price.

10. Improve our analytical base: U.S. trade policy requires a more sophisticated understanding of how modern economies grow and develop. Eighteenth century textbooks no longer have all of the answers, and many of our competitors do not live by them. We live in a world where nations adopt conscious strategies to create comparative advantage through subsidies, trade protection, government-sponsored R&D, and new institutional arrangements. And yet we continue to cling to the belief that comparative advantage is determined by resource endowments, and know very little about how foreign industrial targeting affects the trajectory and the evolution of our own economy.

There is an inadequate appreciation of the interconnectedness of the economy. The American Electronics Association and the Semiconductor Industry Association have aptly called the electronics industry a "food chain." If we lose our competitiveness in parts of strategic sectors, upstream and downstream industries will suffer as well. This insight will be useful to policy makers if they begin to understand which linkages are strategically important.

The Japan problem

You may have noticed that Japan's name has cropped up often in this discussion. This is not surprising since the largest and least tractable portion of our trade deficit is with that country. Import penetration in almost all of Japan's industrial sectors is extremely low compared to other nations, and formal trade barriers do not appear to be the cause for this low import performance. Leading economists have developed strong statistical evidence which indicate that Japan's imports are substantially below what would be expected of an industral nation with Japan's economic attributes.

This week the Cabinet is debating whether Japan should be named a "priority country" under the Super 301 provision of the 1988 Trade Act. This would require negotiation, initiation of trade cases, and possible retaliation against Japan for designated "priority practices".

I have dealt with Japanese trade issues within the U.S. government and on behalf of American industries for two decades and there is no more difficult challenge to U.S. trade policy. There is a growing understanding of the nature of the problem. Fortunately, Jim Fallows, Karel von Wolferen, Peter Drucker, and Clyde Prestowitz have recently published useful analyses of the problem.

The Japan problem should be analyzed at several levels. One of the underlying causes of the world trading system's imbalances is that Japan is a substantial underconsumer of the world's manufactured goods. This is not due to some mysterious cultural phenomenon. Japan's extraordinarily high rate of savings is stimulated by the need to provide for retirement, the scarcity of mortgage finance, and the prohibitive cost of land, all of which are influenced by government policies.

Secondly, a notoriously restrictive distribution system prevents the Japanese consumer from enjoying the benefits of the high yen. As a result, Japan has to contend with "gray imports"—export goods purchased on the world market and reimported into Japan at prices below which the manufacturer wishes to sell on the Japanese market. Last year, for example, an enterprising Japanese company re-imported cordless phones from the United States because they were selling for $80 in New York and $640 in Japan. The Japanese call this "confusion in the market"; we call it competition.

Third, there is inadequate enforcement of the Japanese antitrust laws. This plagues foreign trade interests at all levels. It means that trading companies restrict imports because of relationships with domestic producers or tacit agreement with the Japanese government. Japan rarely employs formal import restrictions yet still manages to have very low levels of "sensitive" imports. Distribution systems are closed or highly restricted in apparent violation of Japanese law. For example—a vice president of one major Japanese trading company said that the fundamental principle of his company was to import goods only after having accepted orders from Japanese firms, so as not to "oppress domestic industrialists." I have a hard time picturing an American importer calling up domestic manufacturers to see if they're being "oppressed" by their imports. Long-term supplier/producer relationships strangle imports of industrial intermediates such as semiconductors.

Most industrialized nations import the same kind of manufactured goods that they export. Japan does not. It concentrates its exports in rather narrow ranges of products while protecting its home market. Peter Drucker calls this practice "adversarial trade" because of the devastating impact that it has on Japan's competitors.

Japan needs to assume more of the responsibilities that accompany its status as a major economic power. It must be more open to manufactured goods imports, particularly those of developing countries. The Japanese say that they are making strides, and so they are. But their rate of progress is just too slow.

Japan should also be allowed to assume a greater role as a major lender in the international financial institutions. This has been somewhat perversely resisted by the United States. Japan has a greater role to play in Third World development and this can best be accomplished through multilateral institutions.

What is to be done? The current trade imbalance is intolerable, and while the direction of change is correct, the progress is impossibly slow. Establishing sectoral targets will be necessary in some cases in trade agreements with Japan. There is likely to be more unilateral action by the United States, to use Trade Representative Carla Hill's term, the use of a "crow bar", when a handshake fails to resolve a market access issue. If Japan chooses to challenge these American responses in the GATT, the United States may have to call for an international examination of whether Japan's role in the trading system is inconsistent Japan's GATT obligations.

Regrettably, it is likely that there will be more conflict between Japan and her trading partners, not less. What is clear is that both Japan and the United States must assign a high priority to working together to avoid unnecessary conflicts. After all, all that is being asked of Japan is that it allow her people to enjoy a rising standard of living, by allowing the goods of the rest of the world greater access to the Japanese market.

Your role

In closing, I would urge all of you to become more active in contributing to the formulation of America's trade policy. Obviously, the bottom line of the companies you work for are directly effected by trade issues such as exchange rate policy, Europe 1992, intellectual property protection, or access to foreign markets. And obviously, the expertise and real-world experience that the business community brings to the table is invaluable.

But more importantly, whether or not we rise to the challenges posed by international trade, international competition will shape our nation's future. All of us want our nation to continue to be an economic and military power second to none. All of us want our children to be at least as well off as we are. And in a democracy, where the decisions that are made are only as good as the men and women who make them, all of us have an obligation to participate.●

WILLIAM PROXMIRE OF WISCONSIN

● Mr. KOHL. Mr. President, my predecessor in the Senate was William

Proxmire. As my colleagues know, it was never wise to pick a fight with Bill Proxmire—but I am going to risk doing that today.

I recently received a copy of a paper on Senator Proxmire's career in the Senate written by Prof. Philip Grant, Jr., of Pace University in New York which was presented at the Annual Institute of Wisconsin Studies Conference held in La Crosse last month. I suspect that Senator Proxmire would be flattered by the paper. I also suspect that he would be upset by Professor Grant's request that the text of the paper be printed in the RECORD—even though Professor Grant tried to anticipate Senator Proxmire's concern by suggesting that "in order to save space and expense, the footnotes may be deleted."

Despite the fact that Bill Proxmire might be upset, I think that my colleagues and the American people would profit from the opportunity to review this paper. Accordingly, I ask that the text of Professor Grant's paper, "The Congressional Career of William Proxmire of Wisconsin" appear in the RECORD—without the footnotes.

The text follows:

THE CONGRESSIONAL CAREER OF WILLIAM PROXMIRE OF WISCONSIN

(By Phillip A. Grant, Jr.)

On August 27, 1957 Democrat William Proxmire of Madison was elected to the United States Senate. Proxmire on that date defeated his Republican opponent, former Governor Walter J. Kohler, by a margin of 435,985-312,931. Proxmire was chosen by the citizens of Wisconsin to fill the unexpired terms of late Republican Senator Joseph R. McCarthy, who had died on May 2.

Proxmire, forty-one years of age and an alumnus of Yale University, was destined to spend six terms in the Senate. His tenure on Capitol Hill was to parallel the administrations of seven Presidents. A Democrat from a state with a longstanding Republican heritage, Proxmire served longer in the Senate than any of his numerous predecessors from Wisconsin. Fiercely independent in his attitudes toward various issues, Proxmire became one of the most energetic and innovative members of Congress of the past half century.

During his first year in the Senate Proxmire was firmly identified with the liberal Democratic bloc in Congress and was conspicuously at odds with the domestic policies of Republican President Dwight D. Eisenhower. Proxmire strongly supported the Civil Rights Bill of 1957, the conferring of statehood on Alaska, the National Defense Education Bill, and measures to alleviate the increased unemployment produced by the economic recession of 1958. He also established himself as an outspoken critic of the farm programs of Secretary of Agriculture Ezra Taft Benson.

In November 1958 Proxmire was elected to a full term in the Senate, outpolling his Republican challenger by 172,042 votes (57.1%) and carrying fifty of Wisconsin's seventy-one counties. Proxmire in January 1959, joined by new Democratic senators from Wisconsin's sister states of Michigan and Minnesota, was to experience the satisfaction of becoming a member of the most heavily Democratic Congress since the early years of the New Deal.

Throughout the final two years of the Eisenhower presidency Proxmire was steadfast in his opposition to the economic and social priorities of the Republican Chief Executive. He voted to override all six of Eisenhower's vetoes and against the confirmation of Lewis L. Strauss, the President's nominee for Secretary of Commerce. Concurring with the solidly Democratic majority in the Senate, Proxmire favored federal aid-to-education, an increase in the prevailing minimum wage, medical care for senior citizens, and reform of federal election procedures. By every standard Proxmire was one of Congress' most fervently liberal Democrats.

In addition to disagreeing with Eisenhower, Proxmire emerged as an advocate of eliminating the filibuster rule and a vocal critic of Senate Democratic Leader Lyndon B. Johnson. Proxmire charged that the filibuster tactic constituted a blatant violation of majority rule and that Johnson had callously ignored the views of his Democratic colleagues. Proxmire's sharp criticism of Johnson attracted massive news coverage.

In January 1961 Democrat John F. Kennedy was inaugurated as President of the United States and Mike Mansfield was chosen to replace Johnson as Democratic Leader in the Senate. Proxmire liked and respected both Kennedy and Mansfield and welcomed the opportunity to work closely with these new spokesmen of the Democratic Party. As a member of the Committee on Banking and Currency, Proxmire was prominently involved in the deliberations surrounding the Housing and Area Redevelopment (Depressed Areas) Bills of 1961 and the Mass Transportation Bill of 1963. He also voted for the Trade Expansion Bill, the Wilderness Protection Bill, the Youth Conservation Bill, and a proposed constitutional amendment to outlaw the poll tax.

Proxmire in August 1963 was appointed to the powerful Committee on Appropriations. Later in the same year he and his fellow Americans were shocked and saddened by the tragic assassination of President Kennedy. Kennedy was succeeded by Vice-President Lyndon B. Johnson. Notwithstanding his well-publicized past differences with Johnson, Proxmire pledged to cooperate with the new Chief Executive.

Re-elected to the Senate by a plurality of 111,897 in November 1964, Proxmire continued to be a legislative activist throughout the eventful years of the Johnson presidency. As a senior Democrat on the Banking and Currency Committee, he favored the authorizing of new federal housing programs of rent supplements and demonstration cities. Among the various other measures commanding his support were the Office of Economic Opportunity (Anti-Poverty) Bill, the Voting Rights Bill, the Immigration Reform Bill, the Highway Beautification Bill, the Open Housing Bill, the repeal of the "Right-to-Work" provision (Section 14-B) of the Taft-Hartley Act, the establishment of a Cabinet-level Department of Housing and Urban Development (HUD), and the confirmation of Thurgood Marshall as the first Black Justice of the Supreme Court.

Proxmire in 1967 began his second decade in the Senate. In that year he became the ranking Democrat on the Banking and Currency Committee and Chairman of its Subcommittee on Financial Institutions. He also assumed the chairmanship of the Joint Economic Committee. Deriving advantage from his seniority and his key position on the Banking and Currency panel, Proxmire was to author his first piece of major legislation, the Truth-in-Lending Bill. The bill, introduced in January 1967 and signed into law by President Johnson in May 1968, was the most significant consumer law approved by Congress since the Federal Trade Commission Act of 1914.

In January 1969 Proxmire was to begin a long period as a determined adversary of Republican President Richard M. Nixon. Unalterably opposed to nearly all of Nixon's policies, Proxmire urged the Democratic Congress to assert itself vigorously in its dealings with the G.O.P. Chief Executive. Proxmire's leverage as a Nixon critic was considerably strengthened when he won reelection in 1970, crushing his Repubican challenger by 567,143 votes (71.3%) and carrying every county in Wisconsin.

Proxmire repeatedly complained about the inferior quality of Nixon's appointees. Voting negatively on the confirmations of the President's Supreme Court nominees, Clement L. Haynsworth and G. Harold Carswell, he also was recorded against two Cabinet nominees, Walter J. Hinkel as Secretary of the Interior and Earl L. Butz as Secretary of Agriculture. Proxmire, alleging a longstanding and well-documented pattern of unethical behavior, personally led the fight against the appointment of William J. Casey as Chairman of the Securities and Exchange Commission (SEC).

Reflecting his profound disenchantment with the thrust of the Nixon Administration, Proximre voted to override eight of Nixon's nine vetoes. Moreover, he urged tirelessly and persuasively against three of the President's favorite projects, the Supersonic Transport (SST), the Antiballistic Missile (ABM), and the Trident Submarine. Convinced that the Vietnam War was a colossal mistake, Proxmire avidly supported a substantial number and wide variety of measures to terminate or restrict American military involvement in Southeast Asia. In the domestic area Proxmire sternly opposed the Lockheed Aircraft Corporation loan and the oil depleting allowance and committed himself to the proposed Equal Rights Amendment (ERA) to the Constitution and home rule for the District of Columbia.

Nixon, who resigned in disgrace in August 1974 because of the infamous Watergate scandal, was succeeded by Vice-President Gerald R. Ford. While Ford was somewhat less confrontational than Nixon, he clashed with the Democratic Congress on numerous occasions. During his two and one-half years in the White House Ford vetoed many bills. Of the twenty such measures which the Senate attempted to override, Proxmire voted against the President thirteen times.

In addition to challenging nearly two-thirds of Ford's vetoes, Proxmire opposed the President on the extension of military aid to Turkey, the development of the B-1 Bomber, and the confirmations of Secretary of the Interior Stanley K. Hathaway, Secretary of Housing and Urban Development Carla A. Hills, and C.I.A. Director George Bush. Furthermore, Proxmire favored oil company divestitures, strict standards to eliminate automobile emissions, the establishment of a consumer protection agency, a federal plan for no-fault automobile insurance, the Energy Policy and Conservation Bill, and the Common-Site Picketing Bill.

Beginning in 1975, Proxmire assumed the chairmanship of both the Committee on Banking, Housing, and Urban Affairs and the Appropriations Subcommittee for the

Department of Housing and Urban Development. In these capacities he became acknowledged as the Senate's foremost authority on the problems plaguing urban America. Most of Proxmire's energies were concentrated on guiding the New York City Financial Default Bill through the Senate, a task which required unusual skill and remarkable patience.

In November 1976 Proxmire was re-elected by 875,068 votes (72.8%). Again carrying every county in Wisconsin, Proxmire polled the highest number of votes ever recorded in the state's history. Altogether he received 356,738 votes more than Jimmy Carter, the victorious democratic presidential candidate.

While generally sympathetic to the Carter Administration, Proxmire voted independently on several issues. Proxmire opposed the production of the Neutron Bomb, the deregulation of natural gas, the Chrysler Corporation Loan guarantee, and military draft registration. He supported the adoption of the revised code of congressional ethics, the public financing of House and Senate elections, the reform of existing labor laws, mine safety legislation, hospital cost containment, a moratorium on the construction of nuclear plants, a measure to strengthen the authority of the federal government to combat racial discrimination in housing, and a constitutional amendment to provide congressional representation for Washington, D.C.

In 1980 Republican Ronald Reagan was elected as the new President, and the Democratic Party lost control of the Senate for only the third time since 1932. For the first six years of Reagan's presidency Proxmire was a member of a numerical minority in the Senate, during which period he was the ranking Democrat on the Appropriations Committee. When the Democrats scored sweeping victories in the congressional elections of 1986, once again assumed the chairmanships of the Banking, Housing, and Urban Affairs Committee and the Department of Housing and Urban Development Appropriations Subcommittee.

Throughout the Reagan years Proxmire repeatedly complained about the inferior quality of the President's appointees. He indicated his keen displeasure with Reagan's judgment by opposing the confirmations of Attorneys-General William French Smith and Edwin Meese, Secretaries of the Interior James G. Watt, William P. Clark, and Donald P. Hodel, Secretaries of the Energy James B. Edwards and John S. Herrington, Secretary of Commerce Malcolm Baldridge, Secretary of Education Terrel H. Bell, and Robert H. Bork as an Associate Justice of the United States Supreme Court.

Proxmire also to override President Reagan's vetoes of such major pieces of legislation as the 1983 Supplemental Appropriations Bill, the National Institutes of Health Research Bill, the South African Sanctions Bill, the Omnibus Highway Bill, the Clean Water Bill, and the Civil Rights Restoration (Grove City) Bill. Consistent with his previous voting record, he favored the Nuclear Freeze Resolution and the Plant Closing Bill and opposed the M-X Missile, the granting of military aid to the Nicaraguan contras, the sale of Airborne Warning and Control System (AWACS) to Saudi Arabia, and the eight annual bills to appropriate funds for the Pentagon. Proxmire sharply disagreed with Reagan's approaches to Central America, civil rights, the environment, and defense spending, and, as in the Eisenhower, Nixon, and Ford Administrations, he apparently enjoyed the role of a dissenter during the Reagan years.

In 1987 and 1988 Proxmire, having resumed the chairmanship of the Banking, Housing, and Urban Affairs Committee, devoted the bulk of his efforts to promoting the interests of savings depositors and remedying the abuses of insider trading. In 1987 he authored a bill to mandate uniform disclosures of interest rates on savings accounts and in the following year he sponsored legislation to correct fraudulent practices in the securities markets. While the two measure dramatized the serious problems plaguing savings institutions and the stock exchanges, Proxmire was disappointed when Congress adjourned before taking final action on either bill.

Proxmire in November 1982 won a sixth term in the Senate, vanquishing his G.O.P. challenger by 455,956 votes (65.1%) and losing only four counties in Wisconsin. His 1982 victory marked the fourth time he had been elected after the citizens of Wisconsin had favored a Republican in the preceding presidential contest.

On August 27, 1987 Proxmire announced his decision not to seek re-election to a seventh term in the Senate. Expressing gratitude for having had the opportunity to serve the people of Wisconsin for over three decades, Proxmire explained that, if elected to another term, he would be seventy-nine years of age at the time of its expiration. Accordingly, Proxmire believed that it was appropriate that he retire at the end of his current term in January 1989.

At the time of his retirement Proxmire was outranked in continuous seniority by only two of his ninety-nine colleagues in the Senate. Among his fifty-three fellow Democrats, Proxmire had the distinction of being the senior committee chairman. In terms of political accomplishments Proxmire had not only been elected to the Senate six times, but also had accumulated more popular votes than any political figure in the one hundred and forty-one years of Wisconsin statehood.

During his tenure in the Senate Proxmire had compiled a virtually perfect attendance record. He had earned a reputation as an uncompromising advocate of consumer rights and a fervent environmentalist. While a liberal Democrat in his political orientation, Proxmire had harshly criticized excessive spending on programs which he favored in principle. Proxmire was especially vociferous in his opposition to military expenditures in general and costly weapons systems in particular. He took great delight in announcing his monthly "Golden Fleece" awards, each of which was designed to expose frivolous, if not outrageous, spending projects. Unlike many members of Congress, Proxmire was vigilant in his concern for the American taxpayer. William Proxmire was a highly intelligent and unusually conscientious member of the United States Senate who served the citizens of Wisconsin and the Nation in a consistently dedicated manner.●

THE SESQUICENTENNIAL OF THE TOWN OF CHEEKTOWAGA

● Mr. MOYNIHAN. Mr. President, today I would like to congratulate the town of Cheektowaga on the occasion of its sesquicentennial. Located in western New York, Cheektowaga has distinguished itself as a thriving, vibrant community contributing greatly to the growth of the entire region.

Cheektowaga has always enjoyed the active efforts of the Patriotic Commission, seniors groups, youth organizations, veterans associations, and many other social and cultural organizations. In addition, the development of Stiglmeier Park, the construction of the Galleria Mall, and the recent, designation of Cheektowaga as the Nation's first "Model Community" by the Freedoms Foundation at Valley Forge, have Cheektowagans justifiably proud of their towns past, and optimistic and excited about their future.

Mr. President, I ask that the following history of the town of Cheektowaga appear as part of the RECORD.

The history follows:

SHORT HISTORY OF THE TOWN OF CHEEKTOWAGA IN CELEBRATION OF ITS 150TH BIRTHDAY 1989

Cheektowaga's history could be said to have begun millions of years ago, when rocks over the land began to sink and water settled developing the salt and gypsum beds of Western New York. During this time the limestone deposits also settled, which underlay the town. These geological developments would contribute to the growth and importance of the Town of Cheektowaga in the centuries ahead.

Cheektowaga would be covered by a mile thick glacier, during the Ice Age. It would once again be covered with water and the sediment probably produced the relatively thin layer of fine, sandy, loam soil which would first attract the Indian settlements and later the white farmers.

It was not until 1700, that Seneca villages of any permanence were set up in Erie County. The Indian word for Cheektowaga came into existence through the conquest of the Senecas over the Eries. "Ji-ik-do-waygah" comes from the Erie into the Seneca language with the translation "Land of the Crabapple."

Picture the Town of Cheektowaga as the Indians saw it, covered with the beautiful native hawthorne trees, which still now adorn our landscape and has become the reminder of Cheektowaga's heritage.

In the early 1700s, the Senecas established a village on the north side of Cayuga Creek, naming it "Ga-sko-sa-da"; meaning Falls Village. The name refers to the two falls that are in Cayuga Creek in the central part of Cheektowaga. The waterways running through Cheektowaga, would also play a role in her development.

In 1793, a group of Dutch businessmen bought Western New York. They called themselves the Holland Land Company and hired Joseph Ellicott to survey their purchase. It would take them four years to survey this land. The first road to be laid out and made useable was the Batavia Road, which led from the little village of New Amsterdam near the mouth of the Buffalo River in a near straight line to Batavia and on east. Batavia Road cut through the present portion of central Cheektowaga.

In 1809, Appollos Hitchcock purchased land from the Holland Land Company, building a log cabin on the creek flats west of present Borden Road. Cheektowaga now had its first permanent white resident. Appollos would build a distillery, and present Dick Road-Cayuga Road would be called Whiskey Road because of the distillery.

During these early years, sawmills sprang up along Ellicott and Cayuga Creeks. Along Broadway, a fulling mill, a bone mill, a cheese factory, many blacksmith shops and steam sawmills would be developed.

By the middle 1830's the Hitchcocks, Elys, Vaughns and Bennets would complain bitterly to the Amherst Town Board about the road and fence conditions. On March 22, 1839, through the efforts of Alexander Hitchcock, the son of Appollos, the New York State Legislature, separated the southern part of Amherst, and Cheektowaga was created. The first Town Meeting was held on April 16, 1839, at the tavern of Elnathan Bennet, on Walden Avenue, and Alexander Hitchcock was chosen as the Town's first Supervisor.

Cheektowaga in the ensuing years would become a major agricultural community in Erie County. With huge hemlock forests to furnish bark, many tanneries sprung up. Gristmills and sawmills were on nearly every creek. There were at least three small limestone quarries on the north bank of the Cayuga Creek between Union and Rowley Roads.

The 1880's and 1890's saw the railroad age come to Cheektowaga. The villages of Depew and Sloan, which were both established in 1892, were named for influential railroad builders. An 1893 map shows six railroad stations located in central Cheektowaga. By the turn of the century, two of the world's largest coal trestles were in the Broadway-Union Road area. These were not abandoned until after World War I.

In the 1920's the Buffalo Airport was constructed within the boundaries of the Town of Cheektowaga. The airport would effect the development of various industrial businesses in the town, beginning with Curtiss Wright, followed by Westinghouse. Also, Calspan and Bell Aerospace would develop due to the location of the Airport.

Following World War II, the emergence of Cheektowaga as a suburban town, was concluded. The population of Cheektowaga in 1920 was 11,923, by 1950, the town had increased its population to 45,373. The population of Cheektowaga in 1989, is approximately 110,000.

Cheektowaga had become known as the "Transportation Hub of Western New York," during the period of about fifteen years, through 1950's and early 1960's. The railroads, the development of the New York State Thruway and the connecting major state highways and the expanded air facilities of the Buffalo International Airport have brought prosperity to the town. One of the largest shopping malls in the world, the Walden Gallaria, opened in 1988, has been located at the center of the Town's transportation system.

One hundred and fifty years since the enactment of legislation creating the Town of Cheektowaga, one sees a town offering the benefits of a commercial and industrial area as well as the delights of beautiful suburban living.

The George Urban Cheektowaga Town Park which had been constructed from the old race track area, and it has become a complex which offers our residents swimming, ice skating and a large, beautiful amphitheater for various concerts and theatrical productions.

The development of Stiglmeier Park on Losson Road has brought to Cheektowaga an exceptional recreational area, which also allows us to return to a time 150 years ago. When one walks through the trails of the park and enters the Reinstein Woods one returns to the days of the Indians and early settlers.

Cheektowaga also offers to its residents a highly developed library system, four major school districts, a hospital, St. Joseph's, and many cultural activities.

Today, more than ever, the "Land of the Crabapple" is a good place to live and do business. It's no wonder that the residents look forward with confidence to the future and back on their history with pride. A proud Indian name, the beauty of the countryside, the tremendous potential tapped . . . all these contribute to a fine heritage.●

A TRIBUTE TO POLLY BACA

● Mr. WIRTH. Mr. President, I would like to use this occasion to acknowledge a fine public servant in my State, the Honorable Polly Baca. Polly was recently appointed as the new executive director of the Colorado Institute for Hispanic Education and Economic Development—the "Hispanic Institute." Her achievements as a journalist, former elected official—as a member of the Colorado House and Senate—and community activist are well known in my State, and she is highly regarded as a champion of women's rights, minority advancement, and justice in the workplace.

Many of my colleagues in the Senate will no doubt recognize Polly for her national leadership as vice chair of the National Democratic Party for the last 8 years, and as cochair of the 1980 and 1984 National Democratic Conventions. She is also an original inductee of the National Hispanic Hall of Fame.

Polly is a long-time friend of mine. She and I both came to Washington, DC during the Johnson administration—and although our paths have often taken us in different directions since then—I have always kept an admiring eye on Polly because she has great energy, spirit, and compassion. These are virtues any leader would envy.

I want to honor Polly today, however, not because she is a personal friend, but rather because her new assignment as the executive director of the Hispanic Institute in Colorado is a very important one. At a time when many Hispanic youngsters are dropping out of school, missing opportunities for educational and economic growth, it is good to know that leaders like Polly Baca are working for social change. She is an outstanding role model for any young American women—and I am very proud to bring the Senate's attention to her record of leadership.

Robert F. Kennedy once said, "history will judge you * * * on the extent you have used your gifts to lighten and enrich the lives of others." Polly, who worked in Robert Kennedy's 1968 Presidential campaign, has taken these words to heart—and in so doing, many of her fellow Coloradans have taken her into their hearts.●

MONTANA'S CENTENNIAL: OUR CULTURAL LEGACY

● Mr. BAUCUS. Mr. President, today is Montana's 100th birthday. At 10:40 a.m., bells rang across the Big Sky commemorating the exact time Governor Toole received word that Montana had been formally admitted as the 41st State of the Union.

I spoke last Friday about how Montana achieved its "place in the galaxy of States (and won) a star on the flag."

Today, Mr. President, I would like to look at Montana from a different perspective—its cultural legacy.

Former Ambassador and Senate Majority Leader Mike Mansfield once said that "to me Montana is a symphony—a symphony of color, painted by 1,000 different plants and shrubs which set the hills ablaze—each with its own kind of winter fire."

I couldn't agree more.

Montana has this effect on people. Mansfield knew that Montanans were tied to the land in a special way and couldn't help expressing it. He, like so many other Montanans, knew his surroundings were special, riveting, mesmerizing. Charlie Russell painted it. Norman Maclean wrote it.

In Montana's early days, isolation from populated cities threw many unlikely personalities together as men and women toiled for the fruits of their labor. Yet, inasmuch as they tried to shape the land, the land got into their blood and shaped them.

It is this relationship between people and the land—and the need to express it—that has made Montana's cultural heritage so rich. Montana may be young compared to the rest of the world, but our cultural heritage warrants recognition.

THE EARLY DAYS

Explorers Merriwether Lewis and William Clark were among the first to write about Montana. Commissioned by President Jefferson to explore the newly acquired Louisiana Territory, Lewis and Clark's journals marked the beginning of Montana's descriptive literature.

It was many years after Montana became a State that professional writers began to emerge. In the meantime, Montanans sought to satisfy their hunger for the arts in other ways. As gold—and later copper—drew miners and fortune seekers, towns began to grow, and with it, the demand for entertainment.

The booming mining town of Butte was known as the "richest hill on Earth," as three copper barons fought to become king of the mountain.

According to some stories, on one front of the "Copper wars," the mighty three flexed political and fi-

nancial muscle to get the latest eastern show to Montana first, before traveling to California. In fact, for a period of time, Butte and San Francisco competed with each other for New York shows.

Located halfway between Minneapolis and Seattle, Butte, Virginia City, and Helena were popular stops for touring operas, theatre, and musicians.

CHARLIE RUSSELL

Contrary to popular belief, our cultural heritage did not begin and end in such fine establishments as the Rockin' R Bar, the M&M, or the Mint Saloon in Great Falls where Charlie Russell traded his paintings for drinks.

Russell has since been called the "finest of all artists of the American Old West." He was a man committed to preserving our heritage on canvas and in bronze.

He came to Montana in 1880 at the age of 16 and took a job as a sheepherder. Later, he tried his hand as a cowboy for the Kaufman and Stadler Cattle Co. near Great Falls. By 1889, with encouragement from his wife, Nancy Cooper, he had traded his spurs to focus more fully on his first love—painting.

In the winter of 1886-87, he painted the work that gained him widespread popularity. A devastating blizzard that began on January 28 didn't end until February 3. Temperatures dropped to 63 below zero.

When asked by the foreman how to tell his Helena bosses about the herd's condition, Charlie sketched a starving steer with ribs showing and coyotes howling in the background. He scrawled "Waiting for a Chinook" across the postcard, and later inscribed it as "The Last of the Five Thousand."

Montanans are proud of Charlie—not because he's internationally acclaimed, but because he painted, sculpted, and wrote about Montana's Indian and cowboy cultures with near photographic precision, and with the sensitivity of a poet.

In fact, Montana placed a bronze statute of Charlie Russell in Statuary Hall just a few walls away from the Senate Chamber. We're one of two States to give an artist this honor. We most recently paid tribute to Charlie by using one of his self portraits on our official centennial postage stamp.

FILM: LOY AND COOPER

Another of Montana's progeny holds a special place in America's heart. Born in Helena in 1905, Myrna Loy is Montana's "first lady of film." As a child, she performed regularly at the Marlow Theater in Helena.

Montanans recently dedicated the Myrna Loy Center in Helena in her honor.

Myrna grew up in the same neighborhood as Gary Cooper. However, they didn't know each other well at the time. Gary was a bit older. He lived his early years running from classmates who beat him up because he wore "sissy English-style clothing."

AUTHORS

Montanans love a good story. Some old timers will spin a yarn for hours if you let them. And the plots recounted on back porches or by the campfire always seem to be just tall enough to touch the ground and be swallowed whole by the unwary listener.

Yet contrary to what the legacy of James Fenimore Cooper would have us believe, Montana is not a bunch of good cowboys and bad Indians. Life in the West is not the romanticized life of dimestore westerns.

While Russell painted the true spirit of the American West, Montana writers like Dorothy Johnson, Joseph Kinsey Howard, and K. Ross Toole concerned themselves with accurately depicting our past.

And other familiar names dot our literary landscape. Pulitzer prize winner A.B. Guthrie's main theme is the encroachment of civilization onto the wilderness. Montana's license plate logo is taken from Guthrie's best-seller, "The Big Sky."

Pulitzer prize nominee Norman Maclean, who grew up in Missoula, published "A River Runs Through It"—one of my favorite books.

In Richard Hugo's poetry, we see characters submitted to forces beyond their control who rise above their circumstances because of the wisdom they gained.

National Book Award nominee Ivan Doig grew up in White Sulphur Springs and has written several popular works, including "This House of Sky."

Other well-known authors have had their fair share of experiences in Montana, too. For example, Ernest Hemingway was a bouncer for a while at a brothel in Billings.

Butte impressed mystery writer Dashiell Hammatt so much that he set his first novel there.

Indeed, we have a long string of writers and poets who have helped carve Montana's literary tradition.

SUPPORT FOR THE ARTS

Montanans are not a bunch of hicks. Montanans are real people with a real affection for the arts.

That's why Montana has been lauded as the "literary capital of the country."

That's why Montana has the highest rate of art centers per capita in the Nation.

That's why Montana's visual artists are awarded more fellowships per capita than anywhere else in the Nation.

That's why Kalispell is rated as one of America's 25 most attractive places of retirement.

That's why KUFM public radio in Missoula has the strongest base support of NPR listeners per capita in the Nation.

That's why the largest children's theater in the United States is in Missoula, MT.

That's why 47 movies have been made in Montana since 1920—including one called "Cattle Queen of Montana," starring Barbara Stanwyck and Ronald Reagan.

That's why Montana has three and a half times the national average of symphonies per capita. Our orchestras find homes in cities like Billings, with a population of 80,000 and among the 1,200 residents of Scobey.

To be sure, Montanans will never be surprised to find wide-brimmed Stetson hats perched on more than a dozen heads at a Billings Symphony.

SPORTS

Aside from Montana's rich tradition in the fine arts, we also thrive on the art of sport.

Some may argue that Montana's tradition of sport is dominated by its blue ribbon trout fishing and big game hunting.

Montana boasts an average of 1,500 trout per mile in its crystalline rivers and the largest migratory elk herd in the entire world.

While not busy hunting or fishing, Montanans display their athletic prowess in competitive sports. Our tradition of sport is also filled with colorful characters and stories.

In Montana's first years, boxing was king. Exhibition bouts featured world champions against the toughest railworkers, loggers, or ranch hands in town.

As the reputation of our State's fighters grew, world champions like Jack Dempsey scheduled bouts in Montana.

Dempsey knocked out Tommy Gibbons on July 4, 1923, in the booming railroad town of Shelby. The local businessmen had scraped up enough money to build an arena to seat 40,000 people. Only 7,200 fans had paid to see the event before cowboys tore the gates down with their lariats. The rest of the spectators got in free.

The big fight resulted in Shelby's financial ruin. A disgruntled Jack Dempsey left town with only a few gate receipts. But at least he gained a friend—Charlie Russell—whom he met while training in Great Falls.

A heavyweight championship bout pitted the mighty Jack Johnson against Stanley Ketchel, a much smaller fighter from Butte. Johnson won the fight by knockout. But Ketchel sent Johnson to the canvas in the first round. Johnson rose in anger and landed a devastating jab to Ketchel's mouth. Johnson walked away with his opponent's front teeth buried in his glove.

Boxing in Montana is a proud sport from its old legends to its future

champions. Montana is home to former World Cruiserweight Champion Marvin Camel of Ronan. Camel was the first champ of this weight class when it was created a decade ago.

Montana's future boxing dreams are vested in the iron fists of people like Todd Foster. This young Great Falls fighter earned a silver medal in the Pan American Games. He represented the United States in the 1988 Olympics in Seoul. Now a professional fighter, Foster is undefeated through seven bouts.

Montana has sent other sons and daughters to the Olympics. And we're building high technology facilities to help our youth become world class athletes. For instance, Butte is home to America's only high altitude speed skating rink. We no longer have to send our skaters overseas to train.

America's national pastime, baseball, is as popular in Montana as it is in Fenway Park or Yankee Stadium. Many of the stars of major league baseball started their professional careers in Montana's Pioneer League for rookies.

Teams like the Billings Mustangs, Great Falls Dodgers, Butte Copper Kings, and Helena Brewers have been home to some of the biggest names—like George Brett, George Foster, and even one pitcher from the 1989 World Series, Mike LaCoss of the San Francisco Giants.

The only pitcher ever to hit a grand slam home run in a World Series was Billings' own Dave McNally. He performed this feat against the Cincinnati Reds in 1970. The next year, McNally and three Baltimore Orioles teammates were the last pitching staff to win over 20 games in a season.

In fact, one player McNally inspired is now a starting left-handed pitcher for the Orioles: Jeff Ballard. A legend in the Billings little league, he won 18 games for the Orioles this year. Ballard became the ace of Baltimore's pitching staff after starring as an All-American at Stanford University.

Montanans are also proud of homegrown basketball talent like Larry Krystkowiak. This 6-foot-9 power forward for the NBA's Milwaukee Bucks dominated the Big Sky Conference for 4 years.

Montana football players have also proven themselves in national competition. The Montana State Bobcats terrorized opponents on their way to a division I-AA National Championship in 1984.

Montana has its share of rodeo champions and characters. In the early 1920's, Turk Greenough, from Red Lodge, used his range work experience in the arena to collect championship buckles at the Cheyenne Frontier Days Rodeo and the Calgary Stampede.

Greenough also doubled as a stuntman for movie stars Tex Ritter, Roy Rogers, Gene Autry, and Randolph Scott.

Rodeo Hall of Famer Bill Linderman of Bridger was a five-time World Champion All Around Cowboy. He is an inspiration to Montana's new rodeo stars: Chuck Simonsen, Clint Branger, and rodeo's only woman bull rider, Johnny Joncowski.

The best in the country come from Montana. Montana State University in Bozeman is home to the College National Finals Rodeo every year. And the MSU Bobcats almost always win.

And our State's sons and daughters excel outside the athletic arena.

CBS sportscaster, Brent Musburger, grew up in Billings and still comes back to his ranch near Big Timber. Also from Billings is NBC correspondent Don Oliver who frequently returns to Montana on assignment.

And who could forget newscaster, Chet Huntley? He became "the other half of the Huntley-Brinkley news team" and later helped found Montana's famous Big Sky Resort.

CONCLUSION

Today, the imprint of Montana's legacy has spread through all facets of America's culture. The Archie Bray Foundation in Helena has produced ceramists as prominent as Peter Voulkos and Rudy and Lela Audio, who now are displaying their work at the Renwick Gallery here in Washington.

Missoula's own Judith Blegan is a nationally acclaimed opera star with the New York Metropolitan Opera.

Carroll O'Connor, who is best known as Archie Bunker in "All in the Family," started his career in the University of Montana Drama Department.

And many other familiar faces have sought Montana's solitude and wide open space to escape for a while from the every day bustle of life.

Tom Selleck has a place near Hamilton. Charles Kuralt seeks refuge along the Big Hole River when he's not "on the road." The Von Trapp family discovered the grandeur of southwestern Montana near Sheridan. And Michael Keaton, Ted Turner, and Peter Fonda have made Paradise Valley another home.

Montana is an artist's mecca. It is that rushing stream of thought and inspiration which has fueled and regenerated some of the best and brightest artists in America. There is something about Montana which draws out the poetic "Aha's!" that only creative imaginations can articulate for the American soul.

No one who has spent any time in Montana leaves uninspired. I believe John Steinbeck best described the Montana call to art: "It seems to me that Montana is a great splash of grandeur. The scale is huge but not overpowering. The land is rich with grass and color, and the mountains are the kind I would create if mountains were ever put on my agenda * * * Montana has a spell on me * * * of all the States it is my favorite and my love." ●

NATIONAL TRAUMA AWARENESS MONTH

● Mr. D'AMATO. Mr. President, I rise today to cosponsor legislation designating May 1990 as "National Trauma Awareness Month." I commend my colleague from West Virginia for leading this effort to focus public attention on the seriousness of the traumatic injury problem in the United States.

According to the National Center for Health Statistics, injury is the leading cause of premature death in the United States, taking the lives of more than 140,000 Americans annually. Among the major causes of injury are motor vehicle accidents, falls, fires, household accidents, and violent crimes. All told, injuries result in more potential years of life lost before age 65 than cancer and heart disease combined.

We can stem this growing problem through effective prevention and education. I believe the designation of May 1990 as "National Trauma Awareness Month" will lend vital support to organizations such as the American Trauma Society in their efforts to educate our citizens about trauma, its prevention, and its treatment.

I urge my colleagues to join me in supporting this important resolution, and I urge its immediate passage.●

CELEBRATING THE SELECTION OF JIM HAUTMAN AS WINNER OF THE 1989 FEDERAL DUCK STAMP CONTEST

● Mr. DURENBERGER. Mr. President, yesterday lightning struck twice in the last 3 years with the selection of Jim Hautman's painting of a pair of black-bellied whistling ducks in flight at sunrise won the 1989 Federal duck stamp competition. The 25-year-old artist is from Plymouth, MN. I say lightning struck twice because 3 years ago another Minnesotan, Dan Smith from Minnesota won the competition.

In the 41 years of competition, 14 Minnesotans have won. That is more than any other State. Jim's acrylic painting was one of 603 entries this year. Of those entries, 40 came from Minnesota, second only to California's 47 entries. I believe this success indicates how important we Minnesotans consider both the environment and wildlife art.

All hunters 16 years of age are required to purchase the Federal duck stamp in order to hunt waterfowl. Money from the sale of the duck stamps is deposited in the Migratory Bird Conservation Fund and used to add vital waterfowl habitat to the Na-

tional Wildlife Refuge System. Since the program's inception in 1934 nearly 4 million acres of wetlands have been acquired.

At 25, Jim Hautman is one of the youngest artists to win the duck stamp contest. And he did so on his fifth try. Although Jim has been painting since childhood, his professional career began nearly 7 years ago. He comes from an artistic family, and as the youngest of seven children Jim gets a lot of help from his mother, sister, and brother who also paint professionally. He came in third in the 1987 duck stamp contest.

The winning painting is of two black-bellied whistling ducks in flight at sunrise. Whistling ducks have long legs and an erect posture that give them a heron-like appearance. They are a nocturnal perching bird, preferring the tropical lagoons and shallow marshes of coastal Texas, Louisiana, and Mexico. They are not native nor ever migrate as far North as Minnesota. This made Jim's task more difficult, because he had to use mounted specimens as models for his painting. This is the same technique John James Audobon used.

As a native Minnesotan, Jim Hautman is an avid outdoorsman. When questioned what he plans to do now that he has won the Nation's premier wildlife painting contest, he said he "plans to speak out on behalf of wetlands preservation."

Mr. President, I have met Jim Hautman, and am struck by his maturity, artistic ability, and environmental sensitivity. He is a credit to his family and upbringing and an example of Minnesota's finest values and assets: its people.●

UNANIMOUS-CONSENT AGREEMENT—LEGISLATIVE APPROPRIATIONS CONFERENCE REPORT

Mr. BRYAN. Mr. President, I ask unanimous consent that when the Senate resumes consideration of the legislative appropriations conference report, that the Senate concur in all the House amendments, en bloc, except for amendment No. 6.

I further ask unanimous consent that the only amendment in order to the remaining House amendment be an amendment by Senator WILSON on the subject of mass mail; that there be 1 hour on the Wilson amendment equally divided in the usual form; that immediately upon the disposition of the Wilson amendment, the Senate proceed to vote on the motion to concur in the House amendment, as amended, if amended, to the Senate amendment No. 6.

I further ask unanimous consent that no motions be in order, except for motions to reconsider and table; and that no points of order under rule XVI lie against the Wilson amendment.

The PRESIDING OFFICER. Without objection, it is so ordered.

EXECUTIVE CALENDAR

EXECUTIVE SESSION

Mr. BRYAN. Mr. President, I ask unanimous consent that the Senate proceed to executive session to consider the following nomination: Calendar No. 470, S. Jay Plager, to be U.S. circuit judge for the Federal Circuit.

I further ask unanimous consent that the nominee be confirmed; that any statements appear in the RECORD as if read; that the motion to reconsider be laid upon the table; that the President be immediately notified of the Senate's action; and that the Senate return to legislative session.

The PRESIDING OFFICER. Without objection, it is so ordered.

The nomination considered and confirmed is as follows:

THE JUDICIARY

S. Jay Plager, of Indiana, to be U.S. circuit judge for the Federal Circuit.

LEGISLATIVE SESSION

The PRESIDING OFFICER. Under the previous order, the Senate will return to legislative session.

REMOVAL OF INJUNCTION OF SECRECY—TREATY DOCUMENT NO. 101-6

Mr. BRYAN. Mr. President, as in executive session, I ask unanimous consent that the injunction of secrecy be removed from the Council of Europe and Organization for Economic Cooperation and Development Convention on Mutual Administrative Assistance in Tax Matters, Treaty Document No. 101-6, transmitted to the Senate today by the President.

I also ask that the treaty be considered as having been read the first time; that it be referred, with accompanying papers, to the Committee on Foreign Relations and ordered to be printed; and that the President's message be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The message of the President is as follows:

To the Senate of the United States:

I transmit herewith for Senate advice and consent to ratification a Convention on Mutual Administrative Assistance in Tax Matters, among the member States of the Council of Europe and the Organization for Economic Co-operation and Development (OECD), done at Strasbourg, January 25, 1989. I also transmit the report of the Department of State on the convention.

Under the convention, Parties will exchange information for the assessment, recovery, and enforcement of tax(es) and tax claims, and to assist in the prosecution of a taxpayer. The United States will exchange information on taxes on income or profits, capital gains, or net wealth imposed by the Federal Government and, in keeping with the U.S. Model Treaty, will not exchange information on State or local taxes.

The taxpayer protections available under the convention are at least as extensive as under the U.S. Model Treaty. Information provided by the United States to another party may not be released to a third party without U.S. consent.

The convention also provides for assistance in the recovery of taxes and for assistance in service of documents. The United States has chosen to reserve on these provisions, in accordance with the option available to all Signatories.

I recommend the Senate give early and favorable consideration to the convention and give its advice and consent to ratification.

GEORGE BUSH.

THE WHITE HOUSE, *November 8, 1989.*

ESTABLISHING A STUDENT TREE-PLANTING PROGRAM

Mr. BRYAN. Mr. President, I ask unanimous consent that the Senate proceed to the immediate consideration of S. Res. 205, submitted earlier today by Senator BUMPERS, urging the establishment of a student tree-planting program.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

A resolution (S. Res. 205) to establish a student tree-planting program.

The PRESIDING OFFICER. Is there objection to the immediate consideration of the resolution?

There being no objection, the Senate proceeded to consider the resolution.

Mr. BUMPERS. Mr. President, on Arbor Day of this year I spoke to a group of sixth grade students from Little Rock, AR, about the problem of global warming and the importance of our forests in moderating the "greenhouse effect." I recited the statisitcs we have heard many times in the past year—that the decade of the 1980's contained the 5 hottest years of the century, and that global temperatures are now the highest since we have been keeping records. I mentioned that increased carbon dioxide in the atmosphere is believed to cause about half of this warming and that a significant source of carbon dioxide emissions, about 20 percent, is the clearing and burning of tropical forests for agriculture. And I emphasized the im-

29-059 O-90-4 (Pt. 20)

portance of planting trees, because forests are able to capture and store large amounts of carbon from the atmosphere, thereby mitigating the buildup of atmospheric CO_2 and possibly delaying the advent of global warming.

But, Mr. President, these young students—11- and 12-year-olds mostly—were way ahead of me. They had completed an extensive enviornmental education program on forestry, designed and implemented by the sixth grade teachers and the develoment director of their school, Pulaski Academy, with the cooperation of the Arkansas State Forestry Commission and the U.S. Forest Service. After 2 weeks of classroom work discussing a range of forestry issues including proper tree planting and harvesting methods, native tree species, pros and cons of clearcutting, the forest products industry, and the National Forest Service, these 50 students had spent a day planting approximately 7,000 trees on 11 acres of national forest land.

Located on Lake Winona near Little Rock, the lands had been clear cut in 1987. The students called their project site "The Bear Woods," because it would be a forest growing from barren land. When they arrived at the site many were daunted by the task ahead. But as they day progressed their sense of accomplishment grew and they moved on enthusiastically to successfully complete the plantings. In addition to the pine seedlings, each child was given a dogwood tree which he or she could plant anywhere on the site. On Arbor Day, a plaque was erected in the middle of the Bear Woods so that the students could locate the site on future visits—perhaps with their own children some day.

The students, teachers, and parent volunteers were assisted in the planting project by representatives from the Winona Ranger Station of the Ouachita National Forest, who had provided the short leaf pine tree seedlings and had selected the reforestation site for erosion protection. Clay Sherrod, Betty Raper, Jean McGill, and Carol Simons of Pulaski Academy, Mike Weber and Norman Alley of the Ouachita National Forest, and John Shannon of the Arkansas Forestry Commission deserve recognition for implementing this project.

The Bear Woods reforestation project was a true environmental learning laboratory for the sixth graders. Moreover, it will continue to be a teaching tool as the schoolchildren will monitor "their" forest in the future. The students did real work, providing valuable assistance to the Forest Service in replanting clear cut areas. By protecting and enhancing the natural resources in the Ouachita National Forest near their homes, the students were also making their own contribution to the environmental well-being of the planet.

The resolution I am submitting today states that it is the sense of the Congress that the Forest Service should develop a national tree planting program which would accomplish needed reforestation work with student volunteers. I would hope that the program could be modeled on the project I have just described—combining an educational outreach program on forestry and environmental issues with the tree-planting projects. Such a program would not have to be limited to reforestation projects on national forest lands, but could be expanded to additional lands in cooperation with other Federal agencies, State forestry agencies, the forest industry, and private groups.

Mr. President, I urge the Senate to adopt this resolution as soon as possible. I thank the Chair, I yield the floor.

The PRESIDING OFFICER. The question is on agreeing to the resolution.

The resolution (S. Res. 205) was agreed to, as follows:

S. RES. 205

Resolved, That it is the sense of the Senate that the United States Forest Service should establish a program that utilizes elementary and high school student volunteers to perform tree planting and reforestation projects.

Mr. BRYAN. Mr. President, I move to reconsider the vote by which the resolution was agreed to.

Mr. SIMPSON. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

NOMINATION REFERRED TO THE COMMITTEE ON GOVERNMENTAL AFFAIRS

Mr. BRYAN. Mr. President, as in executive session, I ask unanimous consent that the nomination of David Williams, to be inspector general of the Nuclear Regulatory Commission, be referred to the Committee on Governmental Affairs for not to exceed 20 days.

The PRESIDING OFFICER. Without objection, it is so ordered.

ORDERS FOR TOMORROW

RECESS UNTIL 10:30 A.M. AND MORNING BUSINESS

Mr. BRYAN. Mr. President, I ask unanimous consent that when the Senate completes its business today, it stand in recess until the hour of 10:30 a.m., Thursday, November 9; and that following the time for the two leaders, there be a period for morning business until 11 a.m., with Senators permitted to speak therein for up to 5 minutes.

The PRESIDING OFFICER. Without objection, it is so ordered.

SCHEDULE

Mr. BRYAN. Mr. President, at 11 a.m. the Senate will resume consideration of the conference report to accompany H.R. 3014, the legislative branch appropriations bill. Pending at that time will be an amendment to be offered by Senator WILSON.

Mr. President, to briefly lay out a schedule for tomorrow for the information of Senators, the Senate will resume consideration of H.R. 3014, the legislative appropriations conference report. Rollcall votes are likely on issues with respect to this conference report by shortly before 12 o'clock noon.

RECESS UNTIL 10:30 A.M. TOMORROW

Mr. BRYAN. Mr. President, if the distinguished acting Republican leader has no further business and if no Senator is seeking recognition, I now ask unanimous consent that the Senate stand in recess under the previous order until 10:30 a.m., Thursday, November 9.

Mr. SIMPSON. Mr. President, I have no further business to be conducted. I thank the acting majority leader. I wish the occupant well in the dental surgery that he confronts tomorrow.

Mr. BRYAN. I thank the distinguished acting Republican leader.

There being no objection, the Senate, at 6:39 p.m. recessed until Thursday, November 9, 1989, at 10:30 a.m.

NOMINATIONS

Executive nominations received by the Senate November 8, 1989:

DEPARTMENT OF STATE

CYNTHIA SHEPARD PERRY, OF TEXAS, TO BE AMBASSADOR EXTRAORDINARY AND PLENIPOTENTIARY OF THE UNITED STATES OF AMERICA TO THE REPUBLIC OF BURUNDI.

ROBERT GREGORY JOSEPH, OF VIRGINIA, FOR THE RANK OF AMBASSADOR DURING HIS TENURE OF SERVICE AS UNITED STATES COMMISSIONER ON THE U.S.-U.S.S.R. STANDING CONSULTATIVE COMMISSION.

DEPARTMENT OF JUSTICE

SCOTT ALAN SEWELL, OF MARYLAND, TO BE U.S. MARSHAL FOR THE DISRICT OF MARYLAND FOR THE TERM OF 4 YEARS, VICE JOHN W. SPURRIER, TERM EXPIRED.

DEPARTMENT OF COMMERCE

DOUGLAS B. COMER, OF VIRGINIA, TO BE DEPUTY COMMISSIONER OF PATENTS AND TRADEMARKS, VICE DONALD W. PETERSON, RESIGNED.

SECURITIES AND EXCHANGE COMMISSION

MARY L. SCHAPIRO, OF THE DISTRICT OF COLUMBIA, TO BE A MEMBER OF THE SECURITIES AND EXCHANGE COMMISSION FOR THE TERM OF 5 YEARS EXPIRING JUNE 5, 1994. (REAPPOINTMENT.)

CONFIRMATION

Executive nomination confirmed by the Senate November 8, 1989:

THE JUDICIARY

S. JAY PLAGER, OF INDIANA, TO BE U.S. CIRCUIT JUDGE FOR THE FEDERAL CIRCUIT.

HOUSE OF REPRESENTATIVES—*Wednesday, November 8, 1989*

The House met at 11 a.m.

The Chaplain, Rev. James David Ford, D.D., offered the following prayer:

Open our eyes, O God, to see Your presence in all the areas of life, not only in holy places of worship, but in our ordinary and daily activities. As your spirit transcends all and lives in each situation or circumstance, so we may be open to see that spirit wherever we are. This is our prayer. Amen.

THE JOURNAL

The SPEAKER. The Chair has examined the Journal of the last day's proceedings and announces to the House his approval thereof.

Pursuant to clause 1, rule I, the Journal stands approved.

PLEDGE OF ALLEGIANCE

The SPEAKER. Will the gentlewoman from Nebraska [Mrs. SMITH] please come forward and lead the House in the Pledge of Allegiance.

Mrs. SMITH of Nebraska led the Pledge of Allegiance as follows:

I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one nation under God, indivisible, with liberty and justice for all.

MESSAGE FROM THE SENATE

A message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate insists upon its amendment to the bill (H.R. 2742) "An Act to extend and amend the Library Services and Construction Act, and for other purposes", disagreed to by the House and agrees to the conference asked by the House on the disagreeing votes of the two Houses thereon, and appoints Mr. KENNEDY, Mr. PELL, Mr. SIMON, Mr. HATCH, and Mrs. KASSEBAUM, to be the conferees on the part of the Senate.

RESIGNATION AS MEMBER OF COMMITTEE ON PUBLIC WORKS AND TRANSPORTATION

The SPEAKER laid before the House the following resignation as a member of the Committee on Public Works and Transportation:

WASHINGTON, DC,
November 6, 1989.

Hon. THOMAS FOLEY,
Speaker, House of Representatives, The Capitol, Washington, DC.

DEAR MR. SPEAKER: I respectfully request that you accept my resignation from the House Committee on Public Works and Transportation effective immediately.

Sincerely,

GLEN BROWDER,
Member of Congress.

The SPEAKER. Without objection, the resignation is accepted.

There was no objection.

RESIGNATION AS MEMBER OF COMMITTEE ON PUBLIC WORKS AND TRANSPORTATION

The SPEAKER laid before the House the following resignation as a member of the Committee on Public Works and Transportation:

WASHINGTON, DC,
November 3, 1989.

Hon. THOMAS S. FOLEY,
Speaker, The Capitol, Washington, DC.

DEAR MR. SPEAKER: I hereby tender my resignation as a member of the Public Works and Transportation Committee in order to accept the nomination of the Steering and Policy Committee to the Energy and Commerce Committee.

With warmest personal regards, I remain

ED TOWNS,
Member of Congress.

The SPEAKER. Without objection, the resignation is accepted.

There was no objection.

ANNOUNCEMENT BY THE SPEAKER

The SPEAKER. The Chair desires to announce that pursuant to clause 4 of rule I, the Speaker signed the following enrolled joint resolution on Tuesday, November 7, 1989:

H.J. Res. 280. Joint resolution increasing the statutory limit on the public debt.

ELECTION OF MEMBERS TO CERTAIN STANDING COMMITTEES

Mr. HOYER. Mr. Speaker, I offer a privileged resolution (H. Res. 284) designating membership on certain standing committees of the House, for its immediate consideration.

The Clerk read the resolution, as follows:

H. RES. 284

Resolved, That the following Members be, and are hereby, elected to the following standing committees of the House of Representatives:

Committee on Armed Services, Glen Browder, of Alabama, and Gene Taylor, of Mississippi.

Committee on the District of Columbia, Jim McDermott, of Washington.

Committee on Energy and Commerce, Edolphus Towns, of New York.

Committee on the Judiciary, Mel Levine, of California, to rank before George E. Sangmeister, of Illinois.

Committee on Merchant Marine and Fisheries, Gene Taylor, of Mississippi.

Committee on Public Works and Transportation, George E. Sangmeister, of Illinois.

Committee on Veterans' Affairs, Pete Geren, of Texas.

SEC. 2. Charles A. Hayes, of Illinois, elected to the Committee on Post Office and Civil Service pursuant to H. Res. 265, shall rank before Morris K. Udall, of Arizona, thereon, and Gary Condit, of California, elected to the Committee on Agriculture pursuant to H. Res. 265, shall rank before Roy Dyson, of Maryland, thereon.

The resolution was agreed to.

A motion to reconsider was laid on the table.

A PROUD DAY FOR DEMOCRATS

(Mr. SISISKY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SISISKY. Mr. Speaker, if it seems like I'm smiling it's because I am. You see, something incredible happened in Virginia yesterday. You might even say something historic. Doug Wilder was elected Governor of the Commonwealth of Virginia. In fact, Democrats swept the top three statewide offices—the third time that's happened in 8 years. And the reason is simple—good government.

CHUCK ROBB, now U.S. Senator ROBB, and current Governor Baliles have demonstrated faith in government, not contempt. Yet, they too have demonstrated moderation, not excess. This tradition will continue under Governor Wilder.

Now to those of us in Virginia who have known and worked with Doug for many years, his election doesn't come as a complete surprise because we've seen him beat the odds many times before. Yet, as significant as this election is for him personally, the results for Democrats in general are even more significant.

From Seattle to New York to Richmond, Democrats have proved once again that we are in touch with the voters. We may not be perfect, but more often than not we do the right thing—and that's something Demo-

crats have every reason to be proud of this morning.

END THE INCREASING DEBT

(Mr. DANNEMEYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DANNEMEYER. Mr. Speaker, last night on the eve of default, the House approved an extension of the debt limit where we broke the $3 trillion level.

Those Members who have served here for a few years are aware how the leadership of the institution functions. They wait until the eve of the expiration of the existing limit on the debt and then bring it forward with the statement: "If we don't approve this extension we will be in default, and we cannot tolerate that."

I am serving notice to the House that a letter will be prepared, hopefully that it will contain the signatures of 218 Members of the House, that as a condition of any—I am saying any extension of the debt limit of the United States Government—we must first, the Congress might first, pass the constitutional amendment on a balanced budget to the States of the Union by a two-thirds vote, otherwise we will shut down the Government of the United States.

This madness has to stop somewhere. We cannot continue this spiral of every-increasing increases in our national debt.

CONGRATULATIONS TO DEMOCRATS

(Mr. ANTHONY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ANTHONY. Mr. Speaker, I rise today to congratulate Mr. Craig Washington and Mr. Anthony Hall of Texas, two Democrats who are running off to become a new Member of Congress, vacated by our dearly departed Mickey Leland.

Mr. Speaker, that makes 6 out of 8 special elections that Democrats have won. It is a net gain of 1 to our ranks. But more importantly, I come from the South, the State of Arkansas, and it is a net gain of 1 in the South, I am very proud of that.

□ 1110

Yesterday proved that it was just more of the same, a win in New York, a win in New Jersey, a win in Virginia, wins all across the country for the Democrats.

I say to my colleagues on the right, it is important. We took back control in New Jersey. Reapportionment is important for 1992. Democrats are on a march. We have better candidates, we have better messages, and the voters are responding.

ALLOW VIETNAMESE BOAT PEOPLE TO MOVE TOWARD THE WEST

(Mr. DREIER of California asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. DREIER of California. Mr. Speaker, I should start out by extending congratulations to my Democratic colleagues for all of these victories. But next year is another election year, and we certainly look forward to offering you a great challenge.

I want to say as we sit here and watch 300 people an hour fleeing the repression in East Germany, there is another very serious problem which we all have to address, and that is looked at in a resolution which I have just introduced, House Concurrent Resolution 223. It is designed to recognize the fact that there are some 35,000 Vietnamese boat people who have fled totalitarian repression in Vietnam, seeking the same kind of opportunity which these people who have fled East Germany are seeking.

Unfortunately, we have gotten to a point where the British Government has indicated that they are going to forcibly repatriate these freedom seekers. They are trying to kick them out of Hong Kong and back to Vietnamese tyranny which is even worse, if that's possible, than Eastern bloc tyranny.

My resolution calls on the British Government to wait for several months so that we can work diligently to try to resolve this important crisis.

I hope very much my colleagues will join in cosponsoring House Concurrent Resolution 223.

A PROUD DAY FOR ALL AMERICANS

(Mr. GRAY asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. GRAY. Mr. Speaker, yesterday the thundering sound heard throughout America was the inexorable march of history. Once again our Nation's voters have rejected negative campaign messages and have chosen candidates offering a clear vision of progress, hope, and simply decency.

Perhaps most significantly the voters served notice that they will never again tolerate campaigns laced with innuendo, fear, and outright character assault.

There is something else that happened yesterday in America. There was a major change. Voters said loudly and clearly that they will look beyond race in making a decision as to who they will choose to represent them.

This was a two-step process. The first change was in 1965 with the Voting Rights Act that provided the structural basis so that yesterday the voters could in fact go and select outstanding candidates like David Dinkins, like Doug Wilder, like Norm Rice. That is a proud day for all Americans, and I do not care what race you come from or what region or whether you are Democrat, Republican, Conservative, Moderate, or Liberal.

THE 20TH ANNIVERSARY COMMEMORATION OF THE 1969 WHITE HOUSE CONFERENCE ON FOOD, NUTRITION, AND HEALTH

(Mrs. SMITH of Nebraska asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. SMITH of Nebraska. Mr. Speaker, I am so pleased to join my colleagues from both the House and Senate as a member of the sponsoring committee for the 20th anniversary of the 1969 White House Conference on Food, Nutrition, and Health. As the first—and only—White House conference on this issue, it is the original benchmark of Federal policy in nutrition and health.

Federal food and nutrition efforts have been criticized by some for providing too little, and by others for giving away too much, yet one star has emerged to overshadow all public and private relief efforts—American agriculture. In 1910, the typical American farmer produced enough to feed seven people. Today, the average farmer produces enough to feed 92 people.

And agriculture is not only providing more food, it is also providing less expensive food. Farmers and ranchers provide American consumers with the highest quality, most diverse, least costly, and safest food supply in the world. In 1954, consumers in the United States spent 22 percent of their income on food, but today, we spend only 11.6 percent for food while our Chinese counterparts spend more than 50 percent.

But there is increasing emphasis not only on the abundance of food necessary to feed our growing population, but also on meeting our nutritional needs.

Farmers have been helping consumers meet this goal long before nutrition became a national issue. While making significant gains in productivity, agricultural producers have helped lengthen the life expectancy of the total U.S. population to 74.5 years in 1982, from 47.3 years in 1900, by increasing the quality and safety of raw agricultural products.

As we have watched our farmers and ranchers make the most important contributions to our food and nutri-

tion efforts, Federal expenditures for food and nutrition programs have risen more than 2,000 percent since the White House conference in 1969.

In 1969, the Federal Government spent just over $1 billion on food stamps, food distribution programs, and child nutrition. In fiscal year 1990, the Federal Government is expected to spend more than $22 billion in our efforts to assist the less fortunate in this country.

I want everyone to be aware that during these times of reduced Federal spending for agricultural price and income support payments, the budget has seen solid constant growth in nutrition assistance programs.

In 1988, the Food and Nutrition Service [FNS] was funded at $20 billion. And in 1989 the program grew by an additional $1 billion to $21 billion. For 1990, the growth continues with another $1 billion increase for the FNS, raising its budget above $22 billion.

Appropriations for 1990 will also place great emphasis on nutrition assistance programs across the United States. The committee has agreed to provide an increase of $196 million for the Women, Infants, and Children [WIC] Program, bringing the total funding level to slightly more than $2.1 billion for a program that did not even exist until 1974 when it started with a meager $10 million.

Also, the Food Stamp Program has been funded at almost $16 billion for fiscal year 1990, up from $13 billion in 1989, and dramatically higher than the $250 million provided in 1969.

Since 1979, the average monthly benefits received by food stamp recipients has risen almost 14 percent in constant dollars from $44 to $50, and total participation increased during the same period from less than 16 million people to more than 19 million people.

And finally, funding for child nutrition, including school lunches and the Child Care Food Program, has risen from $584 million in 1969, to more than $5 billion in 1988—assisting more than 24 million children per day.

However, we must continue to be aware that food and nutrition problems continue to exist in this Nation. In spite of exploding growth in Federal efforts, poverty and nutrition-related problems continue to effect our Nation—even in rural America.

According to research supported by the Aspen Institute and Ford Foundation, rural America—while serving as our Nation's and the world's breadbasket—is hampered by nutrient deficiencies that are closely linked to high rates of nutrition-related health problems.

However, we know very little about the nutrition problems and their causes in our rural areas. America's urban poor have been the subjects of numerous studies examining their nutrition-related health status, yet few studies have evaluated the conditions among the rural poor.

Difficult access to grocery stores, compounded by the lack of federally subsidized transportation for rural populations, and limited supplies of nutritionally important foods, all magnify nutritional deficiencies in rural areas.

There are, however, efforts underway in Nebraska to provide food and nutrition assistance to people in rural areas without Federal dollars. In 1986, the Interchurch Ministries of Nebraska organized the Nebraska Pantry Network to structure the efforts of companies, volunteers, and professionals as they help Nebraska's rural poor.

In 1988, the number of rural households using food stamps decreased 6 percent from 1987, to 17,648. At the same time, the Nebraska Pantry Network provided food to 106,577 rural people, up 12 percent from 1987. The Nebraska Pantry Network and other privately operated volunteer organizations have been able to compliment and expand the food assistance provided to rural Nebraskans.

If we are to effectively reduce the ongoing food and nutrition deficiencies in this Nation, we must pay closer attention to our rural communities with targeted research initiatives. Furthermore, we must continue to make Federal policy more effective and encourage additional private relief efforts. I am hopeful that such efforts and policy will remember to account for rural as well as urban America.

THE EMPEROR HAS NO COATTAILS

(Mr. HOYER asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. HOYER. Mr. Speaker, ladies and gentlemen of the House, yesterday the President reflected on his election 1 year ago. In that election he took 56 percent of the vote in New Jersey; in that election he took 80 percent of the vote in Virginia.

Let us now reflect upon an election 24 hours ago. It was a historic election. Our colleague, JIM FLORIO, took 62 percent of the vote in New Jersey. He will replace a Republican predecessor.

Doug Wilder becomes the first black in America in history to be elected Governor of a State. Don Beyer, the Lieutenant Governor, pulled a stunning upset in the election.

Mr. Speaker, yesterday the people voted for change. The people voted for opportunity. The people voted for Democrats.

Mr. Speaker, the President of the United States has shown in polls he is very popular. The President of the United States went to New York. The President of the United States went to Virginia. The President of the United States went to New Jersey. And yesterday, Mr. Speaker, we found that the emperor has no coattails.

HAPPY BIRTHDAY MONTANA

(Mr. MARLENEE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MARLENEE. Mr. Speaker, happy birthday Montana, land of the shining mountains, Big Sky Country, you're just as beautiful as the day I met you 54 years ago.

What a dowery you have promised to those who make a commitment to stand by your side: gold, silver, timber, wheat, livestock, tourism, oil, and coal.

The warmth of your personality is generated by the openness of your people, people who are always ready to extend a helping hand to neighbors and strangers alike. People who are creative. People who are industrious. People who are tolerant.

Montana, you are 100 years old.

On behalf of the people of our State, I pledge our fidelity, our commitment, and our love.

□ 1120

HAPPY BIRTHDAY, MONTANA

(Mr. WILLIAMS asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. WILLIAMS. Mr. Speaker, exactly 100 years ago this hour a light mist was falling on the Nation's Capital City, just as it is this morning. Benjamin Harrison, then President, set aside his pen after having signed the proclamation to make Montana a State. Within minutes the telegraph wires sped the long-awaited announcement to the West, 2,200 miles where a crisp and cool late Montana day was just beginning.

Mr. Speaker, I join with my colleague, the gentleman from Montana [Mr. MARLENEE], and our more than 800,000 fellow Montanans in wishing Montana a very happy birthday.

A DIFFERENT TIME IN AMERICAN POLITICS

(Mr. TORRICELLI asked and was given permission to address the House for 1 minute, and to revise and extend his remarks.)

Mr. TORRICELLI. Mr. Speaker, I rise to congratulate our colleague JIM FLORIO who yesterday in an impressive fashion was elected the new Governor of the State of New Jersey. But I also note his victory was not in isolation. Indeed, it was part of a national pattern that I believe marks the start of the politics of the 1990's a different

time, when people are getting serious about our country and its problems once again; when President Bush will not be permitted again to stand on our beaches and talk about environmental protection, and then return to Washington and complicate our efforts; no more declaring educational Presidencies, and then returning to the White House and reducing funding for our students and our schools.

It is a different time, a new decade. Americans understand that our quality of life and our place in the world is being challenged. They are serious. They are prepared to be challenged.

That is the message from yesterday's election. It best be understood in this Congress and across the Nation. It is a good time, a serious time in America again, to get about the work of our Nation.

DO NOT EXPOSE SOCIAL SECURITY RESERVES TO CONGRESS' SPENDING FRENZY

(Mr. PORTER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PORTER. Mr. Speaker, taking Social Security off-budget is a crucial first step in protecting the benefits of future retirees, but it only goes halfway, leaving the reserves vulnerable to the whims of Congress.

If history is any guide, even an off-budget Social Security reserve will be used to justify new programs without new taxes. In the mid-sixties, with Social Security off-budget, Congress created disability, SSI, and Medicare without raising taxes. This caused the need for Social Security tax increases in 1977 and 1983 to the current high level.

We must insure that the reserves we take off-budget are truly protected from Congress' penchant for spending. The best way of doing this is to move to a vested, funded Social Security system gradually over the next 50 years.

Under such a program, the portion of the Social Security revenues not used to pay current benefits would be rebated annually into Individual Social Security Retirement Accounts [ISSRA's] setup for each worker, effectively taking the reserves out of Congress' reach.

Mr. Speaker, taking Social Security off-budget strikes a blow for honest budgeting, but we also need to insure that the reserves will be actually there for future retirees. There's only one way to do that. Create a vested, fully funded Social Security system.

OUR UNFINISHED BUSINESS MUST BE ADDRESSED BEFORE WE GO HOME

(Mr. COUGHLIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. COUGHLIN. Mr. Speaker, yesterday President Bush called to the Nation's attention the unfinished agenda of business before this Congress, and, my colleagues, we simply cannot pack up our bags and go home leaving the people's business undone. Legislation to supplement the President's drug strategy has not been acted on by this House nor differences resolved by the other body. The President's crime package is still languishing in committee and has not been acted on by this House. Clean air legislation, which we are so close to doing something about, has still to be brought before the Congress and be acted on. The President's education initiative; we talk about education, but it is time we do something about it. Let us act on that, too, and ethics legislation, which we all talk about, we still have to act upon.

My colleagues, the American people would think that we are serving our country ill if we indeed pack up our bags and go home leaving this agenda unaddressed.

A RADICAL RIGHTWING VIEW IS STOPPING CONGRESS FROM DOING ITS JOB

(Mrs. BOXER asked and was given permission to address the House and to revise and extend her remarks.)

Mrs. BOXER. Mr. Speaker, yesterday was a great day for Democrats and a great day for America. First, it is a tribute to our candidates first and foremost, and it is also a tribute to the politics of inclusion which appeals to the best of us.

However, Mr. Speaker, it is also a tribute to the powerful prochoice message that is sweeping the Nation, and the message is: Trust Americans to make their own private decisions.

Mr. Speaker, yesterday the President lambasted the Congress. He said that we were not doing our jobs and passing our bills.

However I say, "Mr. President, we passed our bills, we passed the Labor-HHS bill, we passed the D.C. bill, and what do you do? You veto it. You veto it because you don't trust the women of America and the people of America to make their own private decisions, and you don't respect the new majority in this Congress."

So, Mr. Speaker, what I would say to the President is, "As you analyze these election returns, look at what the people are saying in Virginia. Seventy-seven percent said choice was an issue. A very large percentage said it was an issue in New Jersey. It was an issue in New York. And come to us and respect our view, and don't hold up the work of this Congress because of a radical rightwing view which is stopping us from doing our job."

GIFT RESTRICTIONS

(Mr. SMITH of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SMITH of Texas. Mr. Speaker, the President's "Governmentwide Ethics Act of 1989" seeks to provide the same commonsense standards across all three branches of the Government.

The House bipartisan task force on ethics has thoroughly reviewed the rules on gifts and has made its recommendations to the leadership.

Public focus has been on the substance of the rules. But every bit as important is the question of who the rules will apply to. Currently, the President and Vice President can receive gifts up to a set dollar amount but it is illegal for appointed executive branch officials to accept any gift.

Equal application of executive branch standards suggests that gift restriction rules apply to elected officials in both branches and that receiving gifts be illegal in both branches for appointed officials and employees.

NORTHROP SHOULD SEE, FEEL, HEAR, AND DETECT JAIL TIME

(Mr. TRAFICANT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. TRAFICANT. Mr. Speaker, in 1980 the Northrop Corp. boasted that they would build a super aircraft, the Stealth bomber. "This aircraft," they said, "can't be seen, traced, heard, or detected by radar."

Mr. Speaker, if my colleagues ask me, the only thing that cannot be seen, heard, traced, or detected is the financial ledgers of the Northrop Corp.

In the lawsuit filed against Northrop its own employees charge that Northrop cheated American taxpayers out of $20 billion, the most massive fraud in American history.

Now General Eisenhower warned, and he warned Congress, that someday we would have a military-industrial complex that would swallow us up. I think we see it, my colleagues.

What I have to say is that the Northrop big shots should be able to see, feel, hear, and detect jail, jailtime.

CORRECTING AN INEQUITY CONCERNING PENSION PAYMENTS OF MILITARY AND CIVILIAN PERSONNEL

(Mr. DICKINSON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DICKINSON. Mr. Speaker, today the gentleman from New York [Mr. SOLOMON] and I are introducing a bill identical to the one that passed the U.S. Senate on November 2, which would correct an inequity in the law concerning the pension payments of military and civilian personnel. Our bill would ensure that all Federal retirees are treated alike under section 2071(b) of the U.S. Code.

The need for clarification was recently brought to light when the Navy suspended Lt. Col. Oliver North's retired pay in July, and then revoked his military pension on a GAO intepretation of a vague and ambiguous statute. Although the Judge Advocate General of the Navy stated that a retired naval officer convicted of an offense under the forfeiture portion of 18 U.S.C. 2071(b) does not lose his retired pay as a consequence thereof, the GAO ruled otherwise. The Judge Advocate pointed out that the forfeiture provisions are not intended to be punitive, and that if an officer in the Marine Corps Reserves or a retired civilian official had been convicted of the exact same offense, neither would have to forfeit his or her retirement pay.

Lieutenant Colonel North has freely given two decades of his life for love of country to serve this Nation under very difficult circumstances. He did it, and it is time we in this country gave him our thanks. The very least we can do is make sure he receives the same compensation afforded each of our veterans.

The American people respect and highly value men with dedication to service like Lt. Col. Oliver North, and at the very least, we owe him his pension.

The Government bureaucrats, with their pensions safe, have probably never heard the sound of gunshots fired in anger. Lieutenant Colonel North has demonstrated his willingness to give his life for his country, but he certainly shouldn't be asked to give up the security of his own family over charges that may not have been his doing.

The inequity in the law concerning the pension payments of military and civilian personnel is blatant, since a retired Member of Congress, the Cabinet, an executive branch employee, Federal judge, or even a retired reservist, would not lose his or her pension if convicted of violating the statute in question. It should also be noted that a retired officer would not lose his pay for offenses such as rape or murder. These inequities should be corrected.

It is especially interesting to look back at the drug bill passed by the Congress last year, which has since become law. It contains provisions allowing convicted drug dealers, even those convicted of repeated offenses, to continue to receive "any retirement, welfare, Social Security, health, disability, veterans benefits, public housing, or other similar benefit."

Colonel North is a bona fide war hero and has earned every dime of his pension for service in the U.S. Marine Corps. Regardless of one's opinion of Colonel North's actions with the National Security Council, the Federal Government has no right to revoke his well-deserved pension.

Equity dictates that we change this precise and particular title and section, 2071 of 18 United States Code so that it applies equally to everyone, including military retirees. I invite my colleagues to join in this effort and urge expedient consideration of this legislation.

WHY I VOTED AGAINST AN INCREASE IN THE DEBT CEILING

(Mr. DORGAN of North Dakota asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DORGAN of North Dakota. Mr. Speaker, I voted against the increase in the debt ceiling yesterday, and I wanted to explain why because we did not have much of a debate on that last evening.

Mr. Speaker, I am no longer willing to pay for the consequences of a fiscal policy that I think is crazy.

President Reagan, one of the most conservative Presidents in this century, submitted eight budgets to Congress, and he asked for $1.1 trillion in deficits. We now have a $3 trillion in debt. The deficit this year alone is $210 billion.

Mr. Speaker, this country is literally choking on deficits, and it is impeding and injuring our economic strength.

The Republicans, they say we ought to spend less. The Democrats say we need more revenue. Both are right, and neither will allow the other to win.

The President, he is off saying, "Read my lips."

Mr. Speaker, there is no leadership here at all, and I refuse to vote for this kind of irresponsibility.

□ 1130

THE PERIL OF SINGLE ISSUE POLITICS

(Mr. LEACH of Iowa asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. LEACH of Iowa. Mr. Speaker, in yesterday's elections, my party's two gubernatorial candidates appear to have been defeated. In New Jersey, Republicans also lost control of the State assembly.

While the reasons for defeat are varied, paramount among them is the fact that the Republican Party and its candidates were perceived as holding rigid, narrow views on one of the most difficult and divisive issues of our time—abortion.

Yesterday's political debacle marks the end of a decade in which the party, on matters involving reproductive freedom-of-choice and family planning, has too often ignored rank-and-file Republicans and millions of other sensible Americans who hold widely differing views on this intensely personal issue.

What the Republican Party needs today is a broadened test, not social litmus tests, a new spirit of tolerance, a respect for people with differing perspectives, a genuine openness to principled people on both sides of the debate.

Otherwise, the message of yesterday's election will become increasingly clear: in the wake of Webster, the Republican Party's efforts to achieve a governing majority are at grave risk.

A political party that pins its hopes on single issue politics and ignores the mainstream center does so at its own peril.

THE DEMOCRATIC VICTORY IN VIRGINIA

(Mr. OLIN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OLIN. Mr. Speaker, for the third time in this decade, the voters of Virginia have elected all the Democratic candidates to lead Virginia.

There was a record turnout. Doug Wilder, Don Beyer, and Mary Sue Terry are going to carry on in the mainstream tradition of Jerry Baliles and CHUCK ROBB.

People around the country have been watching this Virginia election, and they are saying that we have made history.

It is true, we have made history—we have elected the Nation's first black Governor.

Doug Wilder was not chosen because of his color—he was chosen because of his ability.

Virginians have endorsed the last 8 years of Democratic leadership.

We can count on Doug Wilder to keep the Commonwealth on a steady course.

Congratulations, Doug, Don, and Mary Sue. It was a tough campaign, but you have triumphed.

Virginia and the Nation will be the better for it.

TRIBUTE TO THE LATE HONORABLE LARKIN SMITH

(Mr. MACHTLEY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MACHTLEY. Mr. Speaker, I rise today in tribute to our late colleague, Larkin Smith. Larkin was tireless in his efforts to combat the problem of drugs in America and he recognized the difficulty in getting through the congressional maze of committees and subcommittees which deal with this issue currently in our Congress.

Larkin Smith was a sheriff before he became a Congressman. Every day he came into this town he spoke on the issue of drugs in America.

In Rhode Island I have had an advisory committee work with me to understand the problem of drugs, and I am convinced after meeting with these people that we must have a comprehensive solution which has one voice.

Recognizing this, I would urge my colleagues to support the resolution of the gentleman from New York [Mr. PAXON], House Resolution 216, which would amend the rules of the House to establish a Committee on Narcotics Abuse and Control. This committee would have exclusive jurisdiction over all Federal drug laws, replacing the congressional maze which currently exists today.

Mr. Speaker, I encourage my colleagues in Congress to address the drug problem with one voice, to avoid turf disputes and to support this resolution.

THE 1990 CENSUS: WHAT IS AHEAD?

(Mr. SAWYER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SAWYER. Mr. Speaker, in less than 5 months, our Nation will conduct its 21st census of population and housing.

Congressman TOM RIDGE as ranking minority and I as chairman of the Census Subcommittee, want to be sure that all of you are fully informed about census preparations and operations. In the coming months, we will provide you with detailed information on census activities and suggest ways in which you can promote full census participation through newsletters, town meetings, and partnership with local officials and community leaders.

We will keep you informed about the hiring process and employment opportunities, activities that require participation from local governments, special census procedures for hard-to-count groups—such as the homeless—and what your constituents can expect during the actual census.

This week, we requested your administrative assistants to tell us who in your office will be responsible for census-related issues, so we can provide supplemental materials on a regular basis to help you respond to constituent inquiries.

The only way to ensure an accurate census is to get involved. We looked forward to working with you to make the bicentennial census successful in your district.

GET THE WAR ON DRUGS MOVING

(Mr. PAXON asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PAXON. Mr. Speaker, for the past 8 weeks I have held over a dozen town meetings in my congressional district focusing specifically on the issue of illegal narcotics. Over 5,000 of my constituents have participated in these meetings. Their message to me and to this Congress has been clear and resounding. That message is, let us get this Nation's war on drugs moving.

The President has done his part. He has submitted to us his strategy for the war on drugs. Unfortunately, this Congress has not done its part. We have not taken action to approve the legislation necessary to advance the President's war on drugs.

Before we adjourn for the year, before this Congress returns home, pats itself on the back for a job well done, we have a responsibility and an obligation to the American people to approve this legislation to advance the war on drugs.

DEMOCRATS HAVE FACED THE TEST AND DONE WELL IN THE ELECTIONS

(Mr. ECKART asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. ECKART. Mr. Speaker, from sea to sea, coast to coast, Democrats have faced the test and they have done well. In New York, New Jersey, Virginia, California, Texas, Indiana, Mississippi, and Alabama, Democrats are running and winning.

The Republicans used to own the fort. They are losing races that they used to win. I think we need to take a good hard look why.

The simple fact of the matter is that the Republicans find themselves wedded to out-of-date right-wing extreme positions.

The Democrats ran candidates that appealed to the solid middle class values, concerns that are important to them.

The party of the right that wanted to get Government off your back is now trying to get Government into your bedroom.

The party of the right that talks about fiscal responsibility cannot field candidates who want to step up and meet the tests of governing effectively at the local level.

When you go 8 for 10, as the Democrats have done, that would get you into the Hall of Fame if you were playing baseball or the hockey league or the National Basketball Association. But let us face facts. In 1980, Reagan-Bush came in like a lion, and in 1989 Bush-Quayle are going out like a lamb.

THE REPUBLICAN DRUG TASK FORCE

(Mr. SHAW asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SHAW. Mr. Speaker, many of my colleagues joined me here in the Capitol on the evening of September 5, to hear President George Bush map out his strategy for winning the war on drugs. Recognizing that this war is being waged on more than one front, our Commander in Chief explained to us the importance of "Looking beyond our borders where the cocaine and crack is grown and processed."

President Bush lauded the Government of Colombia, besieged by cocaine terrorist attacks, for "fighting back, fighting to break the international drug rings." And, finally, he reminded us that "we have a responsibility not to leave our brave friends in Colombia to fight alone." Our colleagues in the Senate are often characterized as the slow, deliberative body in this Congress, but in this case, they listened to our President and passed his drug bill quickly.

Is this House going to continue to sit idly by, holding up assistance to Colombia and the other Andean drug-producing nations?

Will we allow the President's drug bill to become a partisan, political issue, while Colombian political leaders become targets for cocaine cartel killers?

Where is our opportunity to debate and vote on the President's drug bill, Mr. Speaker?

While we procrastinate, the good people of Colombia are dying.

IN HONOR OF HIS EMINENCE ARCHBISHOP IAKOVOS ON THE 30TH ANNIVERSARY OF HIS ENTHRONEMENT

(Mr. OWENS of Utah asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. OWENS of Utah. Mr. Speaker, April 1, 1989 marked the 30th anniversary of the enthronement of his Eminence Archbishop Iakovos as archbish-

op of the Greek orthodox archdiocese of North and South America.

Over the past 30 years, his eminence has worked within the church and the Greek-American community to promote greater unity and strength. His endeavors have markedly enhanced the vitality and cohesion of the church and the Greek-American community at large.

He is an extraordinary man of great spiritual power and influence, all of which he strenuously and effectively employs in furthering his ministry and blessing his flock.

He also blesses and enriches the lives of his friends, among whom I am honored to count myself. Two days ago, I called upon him in New York to wish him well in his recovery from major surgery and I am pleased to report that he is almost fully recovered, and totally immersed in his spiritual endeavors. He is a loving, remarkable man and I, like all who know him, hold him in highest esteem and deepest affection and respect.

Archbishop Iakovos will be honored next week in Chicago for his three decades of untiring service at a banquet hosted by the United Hellenic American Congress. I am very pleased that a few of his many accomplishments will be recognized and proud to call this extraordinary man's history to the attention of the House.

□ 1140

LET US PROTECT JOBS FOR THOSE WHO SERVE THEIR COUNTRY

(Mr. McCRERY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McCRERY. Mr. Speaker, today is the last day Congress can act on the plan to give the Secretary of Defense increased transfer authority to provide greater flexibility in dealing with a possible Gramm-Rudman sequestration. If approved by the Congress, this plan would give the Secretary $6 billion of transfer authority, or double the current level of $3 billion.

I have been advised that the majority leadership does not intend to bring the matter up because they are trying to hold the administration's feet to the fire on reconciliation.

Members of this House should know, that the planned transfer authority increase would allow the Secretary to protect the personnel accounts from a maximum cut of $3.4 billion. A cut of this magnitude could mean a loss of 230,000 jobs; 170,000 military active duty personnel and 60,000 civilians could be laid off.

Tomorrow we will vote to approve a defense bill that is characterized more by concern for jobs than concern for national security. It is ironic that the majority leadership, which turned the defense bill into a jobs bill, is so hostile to the idea of protecting the jobs of those who are in the service of their country.

TRIBUTE TO JIM BALUKEVICH

(Mr. POSHARD asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. POSHARD. Mr. Speaker, I rise to congratulate a good friend of ours on a very noteworthy achievement.

Jim Balukevich, who works here in the Longworth Office Building, will be inducted into the New Jersey Boxing Hall of Fame this Friday. Jimmy is no stranger to boxing. He's the founder of the Washington, DC, Boxing Hall of Fame.

He is also a three-time Senior Olympic Middleweight Boxing Champion, he won a Bronze Medal in the 1938 Hawaiian boxing tournament, and is working constantly on efforts to improve boxing safety.

If you have ever had one of Jimmy's left jabs whizz by your chin you know what I am talking about when I say he has been a great champion. If you have not, he will be happy to demonstrate his famous left jab, right cross, left uppercut combination to you anytime you look him up in the Longworth Building.

It is a unanimous decision. Jim Balukevich is a gentleman and a scholar, a great friend of the boxing people of this country. And we congratulate him on his Hall of Fame success.

CONGRATULATIONS TO NORM RICE, NEW MAYOR OF SEATTLE

(Mr. CHANDLER asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. CHANDLER. Mr. Speaker, I rise today to congratulate Norm Rice, elected yesterday as the new mayor of Seattle. Norm is the first black mayor of Seattle. I do not think though that his color had anything to do with his election. He was elected on the basis of his talent and appeal.

Norm and I are good friends. We worked together 20 years ago at KOMO-TV in Seattle. Norm is a liberal Democrat. He defeated a moderate Republican.

But friendship transcends party and philosophy, and we also have a great tradition in Washington State, and that is that on the day after election we put all of that behind us, and we begin to pull together and work in behalf of our State and our cities.

So to you, Norm, my sincerest congratulations. I look forward to meeting with you very soon to see how we can work together.

SUPPORT URGED FOR FAMILY PLANNING PROGRAMS

(Mr. BATES asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BATES. Mr. Speaker, yesterday, the World Bank reaffirmed its commitment to global population control by pledging to almost triple its spending on population, health, and nutrition programs. I commend this decision to bring family planning options to women in developing countries that will enable them to improve the quality of their lives and the lives of their children.

If the world's population continues to grow at its present rate of 90 million people per year, the most serious problems facing humanity, including poverty, hunger, and destruction of the environment, will magnify; 500 million women need and want to control their fertility, but do not have access to family planning.

In light of these facts, in light of the human suffering caused by uncontrollable population growth, and in light of the fact that we possess the resources to help women control their fertility, it seems to me that we have an obligation to help.

Every woman has the right to utilize the options she has to control the number of children she will bear before pregnancy makes abortion her only option. I support family planning programs and urge my colleagues to do the same.

HALTING DRUG ABUSE IS NO. 1 PRIORITY

(Mr. STEARNS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. STEARNS. Mr. Speaker, on September 5 President Bush submitted the first national drug control strategy to this Congress, on time as required by law.

Now, 2 months later, Congress still has failed to pass the legislation needed to implement this strategy.

President Bush has done his job; now this Congress has to do ours.

Without this drug package, critical initiatives like our plan to provide law enforcement assistance to South American countries and to beef up education and prevention programs cannot go forward.

The American people have made it very clear that halting drug abuse is their No. 1 priority.

Mr. Speaker, we must act quickly and fulfill our legislative responsibilities to the American people before we go home for the year.

VIRGINIANS LEAD AMERICA, AGAIN

(Mr. PICKETT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PICKETT. Mr. Speaker, a lot has been said recently by many in the Democratic Party about a perceived lack of direction in our party's policies and lack of appeal to the electorate.

They need not look any further than Virginia for an answer to their concerns, where yesterday we led the Nation again with the historic election of the entire Democratic slate of Doug Wilder as Governor, Don Beyer as Lieutenant Governor, and Mary Sue Terry as attorney general.

This election is obviously an endorsement of the policies of Governors Jerry Baliles and Chuck Robb, two very successful Democratic Governors.

In Virginia, where Democrats have now won three straight statewide elections, our formula for victory is simple:

Our leaders give Virginians a State government that is fiscally sound and sensibly managed, yet compassionate toward our people. They have worked steadily to improve our schools and our roads. They have been second to no one in their willingness to enact and enforce stiff laws to put drug dealers and other criminals behind bars. And Virginia's Democratic leadership has made sure that economic growth and opportunity have been in the forefront. We would do well to copy this formula at the national level.

Mr. Speaker, two centuries ago, a great Virginian named Thomas Jefferson spoke of a natural leadership among men defined not by class or religion, but by simple virtue and talent.

How proud Jefferson would be of his home State this morning.

PROPOSED AMENDMENT TO OIL POLLUTION ACT OF 1989

(Mr. BARTON of Texas asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BARTON of Texas. Mr. Speaker, I rise today to bring my colleagues attention to an amendment I plan to offer to H.R. 3394, the Oil Pollution Act of 1989. My amendment would exempt onshore domestic oil that is not transported by water from having to contribute to the oilspill liability trust fund.

As currently structured in the bill, this fund is financed by taxing all oil, domestic and foreign, whether it be transported by ship or not. Thousands of small independent producers who will never contribute to the problem of water borne oilspills are being unjustly taxed. My amendment would simply exempt these onshore producers from paying into this fund.

My amendment may be ruled nongermane. If so, the issue will be decided in the budget reconciliation conference. By raising the issue now to the full House Members who have small domestic oil producers in their districts should be able to encourage the reconciliation conference to adopt my amendment.

With U.S. oil production at an all time low, it is vital to our energy security that we do everything we can to encourage domestic oil production. And by promoting the maximum production of onshore oil, we reduce our reliance on tankered oil, and thus lessen the risk of an oilspill.

Let us place the burden where it belongs: on oil that is transported on waterways. Please join with me in supporting this amendment.

A LOUD AND CLEAR STATEMENT FOR DEMOCRATIC PRINCIPLES

(Mr. McMILLEN of Maryland asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. McMILLEN of Maryland. Mr. Speaker, yesterday rhetoric met reality. It was a momentous day for Democrats across the country. We won numerous gubernatorial races and other special elections, countless local offices including the mayor's race in Annapolis, MD, in my district.

This makes six of eight special elections we have recently won. Congratulations are in order for Ron Brown and the gentleman from Arkansas [Mr. ANTHONY] for a job well done.

Ironically, the President still talks about a kinder and gentler nation, but the voters cannot be deceived. They know that Democrats are the party that delivers a kinder and gentler America. Yesterday was a loud and clear statement for Democratic principles.

WAKE UP AND START FIGHTING THE DRUG WAR

(Mr. HANCOCK asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HANCOCK. Mr. Speaker, I rise to bring attention to a major part of the President's drug strategy.

President Bush unveiled his plan to attack the traffickers at the source in South America and Congress has not acted on his proposal. We need to wake up and start fighting this war now.

The President's strategy was unveiled September 5 and as of today, November 8, 63 days later we have not seen any steps taken to fight this war. I am from The Show-Me State of Missouri and so far Congress hasn't shown me much in the war on drugs.

Mr. Speaker, the Foreign Affairs Committee is scheduled to consider legislation to authorize the Andean initiative. I urge that this legislation be taken up at the earliest possible time and in the cleanest possible form.

□ 1150

DRUG-FREE CAMPUSES

(Mr. DOUGLAS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. DOUGLAS. Mr. Speaker, as the prior speaker just indicated, it has now been over 60 days since the President's drug package was sent up here to the House. One of the things that I hope we will do, if we are true to our word, is to pass the Drug-Free Campus Act as part of that package before we adjourn for this year.

Yesterday 22 Members introduced the bill. It would require college campuses to make sure that they have a very clear and explicit policy for their students, that they tell the students where rehabilitation and counseling is available on campus, and that they also tell the students they will be expelled or suspended if they do not comply with the drug-free campus provisions.

If the colleges do not want to get with the program, the answer is very simple: no Federal money.

This is part of the President's program. It is endorsed by Bill Bennett, and there should be no conscientious objectors in the war on drugs. I hope that the Speaker will make sure that we vote on this provision of the President's drug package before we adjourn for the Thanksgiving recess.

OUT OF THE MOUTH OF BABES

(Mr. BOEHLERT asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. BOEHLERT. Mr. Speaker, I have in my hand a letter from a group of 20 third grade students from the Middleburg Elementary School, in Middleburg, NY. They have written to me because they're worried about their future. They wrote:

DEAR CONGRESSMAN BOEHLERT: Our class read about acid rain and did some experiments about it. We learned that it can harm plants and animals, it damages metal, and it costs lots of money to fix the damage caused by it. We want the acid rain problem to stop.

These third graders are calling on us to do something about acid rain. Just yesterday, President George Bush held a press conference to encourage Congress to move on this issue. I rise to say the time is now, we have the vehicle. Mr. Speaker, I call on you, to use your influence and move the Presi-

dent's Clean Air Act Amendments out of committee and on to the floor for passage.

For the first time in over a decade, with the help of a bipartisan majority, we have a bill. The President's legislation calls for a sweeping attack on the chemicals that cause acid rain, with a substantial reduction in these pollutants by the year 2000. Just think, in the year 2000 these students will be 20 and 21 years old, ready to begin families and careers of their own. This bill provides a chance for those leaders of tomorrow to someday visit lakes and forests, once dead from acid rain poisoning, and realize that because of our actions, the water and trees are alive again.

Let us stop the jockeying that surrounds this legislation. We owe it to these third graders, and all the children of this Nation to pass this law. We're not gambling with the prospects of the Republican or Democratic Party, but with the future and quality of life for all the young people who must live with our mistakes we make today. The Clean Air Act Amendments of 1989 may be the single most important legacy we leave future generations, we must not miss this opportunity. When the 101st Congress becomes a page in history, our forests, lakes, and streams will live on to provide a living example of how successful we were.

THE SELLING OF AMERICA IS NO JOKE

(Mrs. BENTLEY asked and was given permission to address the House for 1 minute and to revise and extend her remarks.)

Mrs. BENTLEY. Mr. Speaker, comedians are lining up to get in their U.S. trade jokes. We have heard that "Donald Trump wants to buy the United States—but the Japanese aren't selling."

Our cartoonists have joined in: Here—Japanese businessmen sitting around a conference table singing, "This land is your land, this land is my land, from California, to the New York islands!"

We've all seen the cartoon of the American panhandler approaching a Japanese businessman and asking, "Hey mister, can you spare a yen?"

Funny isn't it? Why? Because it strikes a chord. Humorists and their audiences know there is more than an element of truth in these lines.

Everyone knows the facts. The United States has gushed billions in defense dollars on our allies faster than the Valdez gushed oil over the Alaskan coastline. Our allies repay us by scooping up our dollars and coming back into the United States to buy our assets.

Our allies recognize the humor—the Brits smirk when they soak up United States wineries; the French chuckle when they take over American computer companies; and the Japanese laugh all the way to our banks—when they buy them.

But this is not a laughing matter.

Selling the birthright of our children should be no joke.

REPUBLICAN TASK FORCE ON DRUGS

Mr. OXLEY. Mr. Speaker, 64 days ago, President Bush and Drug Czar Bill Bennett presented America's first national drug strategy. The President said: "This is the first time in the history of our country that we truly have a comprehensive strategy. We need this program fully implemented right away, so tonight I'm asking the Congress to help us move it forward immediately."

The linchpin of the President's strategy is the Andean initiative—aid to Colombia, Peru, and Bolivia. This aid was promised to the Colombian Government following the assassination of Presidential candidate Senator Galan. What ensued was a full-scale Government crackdown against the powerful cocaine cartels—and our financial and technical assistance is critical to their efforts.

We Americans have as much at stake in the success of this crackdown as the people of Colombia. The Andean initiative has been passed by the Senate as part of S. 1735. This bill is pending here in the House while Colombian people—judges, officials, and oridnary citizens fall each day. Mr. Speaker, I urge you to bring the President's drug bill to the floor for a vote before the next Colombian, or American citizen, falls at the hand of drug traffickers.

FREE AND FAIR TRADE BENEFITS EVERYONE

Mr. DONALD E. "BUZ" LUKENS. Mr. Speaker, recent trade talks with the Japanese are attempting to lift some of the barriers that unfairly keep out American goods have reached an impasse. According to news accounts, the Japanese have refused to even admit that they have structural obstacles which keep American goods out of their country or force these goods to be sold at exorbitantly high prices.

This situation has to stop. An American steak costs from $20 to $40 in Japan. I heard of one American spending $80 for a single steak. Rice costs 10 times in Japan what it would cost if we Americans were allowed to ship our rice to Japan. Other agricultural goods are so expensive that they are considered extremely high priced luxuries.

Japanese barriers to American agricultural goods are a particularly effective impediment to the good relations our two countries have shared for almost 40 years. I would like to urge our allies across the Pacific to open their markets to export goods and services. Free and fair trade benefits everyone.

THANKS TO AMERICAN SPORTSMEN FOR CONTINUED SOUND CONSERVATION PRACTICES

(Mr. SCHULZE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SCHULZE. Mr. Speaker, I take this opportunity to thank the sportsmen of America for their contribution in meeting the challenges facing the Nation's fish and wildlife resources into the 21st century.

According to the Department of the Interior, State fish and wildlife programs will receive $233 million this year through the Pittman-Robertson and Dingell-Johnson acts. This money is used for land acquisition, habitat improvement, research, and education.

Since Teddy Roosevelt, the hunter has been America's true conservationist. He understands the need to protect and preserve habitat and species. Without fish, game, and waterfowl, the sportsman could not enjoy the thrill of those brisk fall mornings when ducks and geese are flying overhead, or the first glimpse of a big buck rambling through the brush. He would no longer be able to teach and share with his sons and daughters the true meaning of being a conservationist and a sportsman.

So once again, thank you American sportsmen for your continued support of good sound conservation practices.

PRESIDENT'S NATIONAL DRUG STRATEGY LEGISLATION

Mr. GOSS. Mr. Speaker, this Nation is at war—and the Members of this body cannot be guilty of sitting on the sidelines.

Two months ago President Bush outlined a comprehensive plan of attack as the national drug control strategy. Since then, the situation in the Andean nations has become critical. Each day has brought more bombings, more killings, more threats, and more fear.

During those 2 months the social fabric in Colombia has begun to tear apart to the point where polls are showing that the Colombian people are exhausted—so exhausted that there is now talk of a negotiated peace with the Colombian drug lords.

Are we ready to say that?

Round one of this deadly fight goes to the drug lords?

The arena for round two is right here—in the U.S. Congress. After more than 2 months of debate and negotia-

tion, we are moving toward antinarcotics legislation that addresses the President's Andean initiative.

Frankly—the bill that will soon come to the floor of this House provides almost everything the President requested. We have been sparring among ourselves for too long—and we have wasted a great deal of time.

Mr. Speaker, every day that passes without action on this important piece of legislation results in more deaths and greater entrenchment for the drug traffickers. The people of Colombia, Peru, and Bolivia are waging the fight of their lives on the streets and in the jungles—it's time we gave them our support. We cannot afford to lose the final round.

THE PRESIDENT'S ANTIDRUG STRATEGY

Mr. CRAIG. Mr. Speaker, 2 months ago, after President Bush announced his national antidrug strategy for this Nation, Congress has yet today to act and finish any single part of that strategy.

□ 1200

After months of congressional jawboning about the need for antidrug strategy, committee chairmen in this House are still sitting on their hands. Frankly, that has to stop. I think the American people are beginning to wonder where is the drug policy we promised them? What has Congress done about it? Is there anyone awake who is really paying attention to a national disaster?

Mr. Speaker, the President and Bill Bennett are trying to put a drug policy in place. They need our help. They cannot do it without Members. The American people are demanding it. I for one believe it is time to put up.

Congress must take the drug package out of the committees onto the floor of this House and act this session. It is time we do it before we recess for Christmas.

Mr. Speaker, if we are going to lead on the war on drugs, we cannot sit back and continue to watch the losses. It is time that we gather some statesmanship and some leadership and help our President on this issue.

IMPORTANCE OF 1990 CENSUS

(Mr. GILMAN asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GILMAN. Mr. Speaker, as the ranking minority member of the House Committee on Post Office and Civil Service, I take this opportunity to salute the efforts of the chairman and vice chairman of the Subcommittee on Census and Population, Mr. SAWYER and Mr. RIDGE, for initiating an extensive campaign to inform our colleagues in the Congress with regard to the importance and progress of the 1990 census.

The decennial census is an unparalleled source of information, providing us with the most comprehensive picture of who and what we are, where we are headed and from where we have come.

The result of the census is the basis for the reapportionment of the House of Representatives, as well as the redistricting of State and municipal legislatures. Moreover, census figures are used to determine the distribution of millions of dollars of Federal funds.

Once every 10 years, we ask Americans to stand up and be counted. As Members of Congress, let us all strive to inform the American people of the critical, momentous undertaking of the 1990 decennial census.

VIRGINIA ELECTION RESULTS

(Mr. PARRIS asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PARRIS. Mr. Speaker, I take the floor of the House this morning, as many of my colleagues from Virginia, to discuss the elections in Virginia yesterday.

It was a mixed bag. Some we lost, some we won. For those who won, I congratulate. I wish good fortune in cooperation with the future. Those who lost, I am sorry.

However, those Members who, particularly in this Chamber, have engaged in political campaigns of the past, understand that it is an exercise that takes total commitment, very hard work. It is physically and emotionally demanding. It is not a simple task.

The one thing that all the winners and all the losers can share is the belief, and I think the sincere and honest conviction that they did their very best. For their involvement with the political process in this magnificent Nation, I congratulate them all.

REPUBLICAN TASK FORCE ON DRUGS

(Mr. GINGRICH asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. GINGRICH. Mr. Speaker, in Colombia alone, over 200 judges and 7 supreme court justices have been gunned down by cocaine traffickers.

On Saturday, another alleged Colombian cocaine trafficker was extradited to Florida. A total of six Colombians have been extradited to the United States since that Government began an antidrug crackdown in August.

The biggest Colombian newspaper released unconfirmed reports on Sunday that the Medellin cartel had planned to kidnap one of Colombian President Barco's daughters and leading presidential candidate Hernando Dussan in an effort to forestall more extraditions.

I ask you, Mr. Speaker, how much more evidence do we need to see? It is clear that the Colombian Government's resolve has disrupted and threatened the $5 billion a year cocaine trade. Yet, the aid promised to Colombia and her Andean neighbors by President Bush's long-awaited national drug strategy is no where in sight.

How much longer do we have to wait for a vote on the President's drug bill, Mr. Speaker?

ACT TOUGH NOW ON DRUGS

(Mr. WALKER asked permission to address the House for 1 minute.)

Mr. WALKER. Mr. Speaker, when this Congress passed the omnibus drug bill last year, we made certain demands on the new administration, the Bush administration. We said that they had to appoint a drug czar. The Bush administration immediately found one of the most distinguished men in America to take that job. We then said that that drug czar has to spend several months looking at the problem and coming up with a drug strategy. Bill Bennett did that, and submitted that strategy in September, meeting our deadline.

It then fell to the U.S. Congress to take up that strategy and put it into place before the next deadline we set for Bill Bennett; namely, February 1 for the second part of the strategy.

Have we done our part? No. We have not implemented the drug strategy. The President's violent drug package, a part of that sits in committee, not having been acted on, with no indication of action in the next couple of months. We need to get to work. We need to do our part. This Congress cannot demand the administration take steps to eliminate the drug war and then sit on our hands and do nothing. It is time for Members to act tough on drugs.

MEDICARE CATASTROPHIC COVERAGE REPEAL ACT OF 1989

Mr. ROSTENKOWSKI. Mr. Speaker, I move to suspend the rules and pass the bill (H.R. 3607) to repeal Medicare provisions in the Medicare Catastrophic Coverage Act of 1988.

The Clerk read as follows:

H.R. 3607

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE.

This Act may be cited as the "Medicare Catastrophic Coverage Repeal Act of 1989".

TITLE I—PROVISIONS RELATING TO PART A OF MEDICARE PROGRAM AND SUPPLEMENTAL MEDICARE PREMIUM

SEC. 101. REPEAL OF EXPANSION OF MEDICARE PART A BENEFITS.

(a) IN GENERAL.—

(1) GENERAL RULE.—Except as provided in paragraph (2), of sections 101, 102, and 104(d) (other than paragraph (7)) of the Medicare Catastrophic Coverage Act of 1988 (Public Law 100-360) (in this Act referred to as "MCCA") are repealed, and the provisions of law amended or repealed by such sections are restored or revised as if such section had not been enacted.

(2) EXCEPTION FOR BLOOD DEDUCTION.—The repeal of section 102(1) of MCCA (relating to deductibles and coinsurance under part A) shall not apply, but only insofar as such section amended paragraph (2) of section 1813(a) of the Social Security Act (relating to a deduction for blood).

(b) TRANSITION PROVISIONS FOR MEDICARE BENEFICIARIES.—

(1) INPATIENT HOSPITAL SERVICES AND POST-HOSPITAL EXTENDED CARE SERVICES.—In applying sections 1812 and 1813 of the Social Security Act, as restored by subsection (a)(1), with respect to inpatient hospital services and extended care services provided on or after January 1, 1990—

(A) no day before January 1, 1990, shall be counted in determining the beginning (or period) of a spell of illness;

(B) with respect to the limitation on such services provided in a spell of illness, days of such services before January 1, 1990, shall not be counted, except that days of inpatient hospital services before January 1, 1989, which were applied with respect to an individual after receiving 90 days of services in a spell of illness (commonly known as "lifetime reserve days") shall be counted;

(C) the limitation of coverage of extended care services to post-hospital extended care services shall not apply to an individual receiving such services from a skilled nursing facility during a continuous period beginning before (and including) January 1, 1990, until the end of the period of 30-consecutive days in which the individual is not provided inpatient hospital services or extended care services; and

(D) the inpatient hospital deductible under section 1813(a)(1) of such Act shall not apply—

(i) in the case of an individual who is receiving inpatient hospital services during a continuous period beginning before (and including) January 1, 1990, with respect to the spell of illness beginning on such date, if such a deductible was imposed on the individual for a period of hospitalization during 1989;

(ii) for a spell of illness beginning during January 1990, if such a deductible was imposed on the individual for a period of hospitalization that began in December 1989; and

(iii) in the case of a spell of illness of an individual that began before January 1, 1990.

(2) HOSPICE CARE.—The restoration of section 1812(a)(4) of the Social Security Act, effected by subsection (a)(1), shall not apply to hospice care provided during the subsequent period (described in such section as in effect on December 31, 1989) with respect to which an election has been made for January 1, 1990.

(3) TERMINATION OF HOLD HARMLESS PROVISIONS.—Section 104(b) of MCCA is amended by striking "or 1990" each place it appears.

(c) TERMINATION OF TRANSITIONAL ADJUSTMENTS IN PAYMENTS FOR INPATIENT HOSPITAL SERVICES.—

(1) PPS HOSPITALS.—Section 104(c)(1) of MCCA is amended by inserting "and before January 1, 1990," after "October 1, 1988,".

(2) PPS-EXEMPT HOSPITALS.—Section 104(c)(2) of MCCA is amended—

(A) by inserting "and before January 1, 1990," after "January 1, 1989,"; and

(B) by striking the period at the end and inserting the following: ", without regard to whether any of such beneficiaries exhausted medicare inpatient hospital insurance benefits before January 1, 1989.".

(d) EFFECTIVE DATE.—The provisions of this section shall take effect January 1, 1990, except that the amendments made by subsection (c) shall be effective as if included in the enactment of MCCA.

SEC. 102. REPEAL OF SUPPLEMENTAL MEDICARE PREMIUM AND FEDERAL HOSPITAL INSURANCE CATASTROPHIC COVERAGE RESERVE FUND.

(a) IN GENERAL.—Sections 111 and 112 of MCCA are repealed and the provisions of law amended by such sections are restored or revised as if such sections had not been enacted.

(b) DELAY IN STUDY DEADLINE.—Section 113(c) of MCCA is amended by striking "November 30, 1988" and inserting "May 31, 1990".

(c) DISPOSAL OF FUNDS IN FEDERAL HOSPITAL INSURANCE CATASTROPHIC COVERAGE RESERVE FUND.—Any balance in the Federal Hospital Insurance Catastrophic Coverage Reserve Fund (created under section 1817A(a) of the Social Security Act, as inserted by section 112(a) of MCCA) as of January 1, 1990, shall be transferred into the Federal Hospital Insurance Trust Fund and any amounts payble due to overpayments into such Trust Fund shall be payable from the Federal Hospital Insurance Trust Fund.

(d) EFFECTIVE DATES.—

(1) IN GENERAL.—Except as provided in this subsection, the provisions of this section shall take effect January 1, 1990.

(2) REPEAL OF SUPPLEMENTAL MEDICARE PREMIUM.—The repeal of section 111 of MCCA shall apply to taxable years beginning after December 31, 1988.

TITLE II—PROVISIONS RELATING TO PART B OF THE MEDICARE PROGRAM

SEC. 201. REPEAL OF EXPANSION OF MEDICARE PART B BENEFITS.

(a) IN GENERAL.—

(1) GENERAL RULE.—Except as provided in paragraph (2), sections 201 through 208 of MCCA are repealed and the provisions of law amended or repealed by such sections are restored or revived as if such sections had not been enacted.

(2) EXCEPTION.—Paragraph (1) shall not apply to subsections (g) and (m)(4) of section 202 of MCCA.

(b) CONFORMING AMENDMENTS.—Section 1905(p) of the Social Security Act (42 U.S.C. 1396d(p)) is amended—

(1) in paragraph (3)(C)—

(A) by striking "Subject to paragraph (4), deductibles" and inserting "Deductibles", and

(B) by striking "1813, section 1833(b)" and all that follows and inserting "1813 and section 1833(b)."; and

(2) by striking paragraph (4) and redesignating paragraph (5) as paragraph (4).

(c) EFFECTIVE DATE.—The provisions of this section shall take effect January 1, 1990.

SEC. 202. REPEAL OF CHANGES IN MEDICARE PART B MONTHLY PREMIUM AND FINANCING.

(a) IN GENERAL.—Sections 211 through 213 (other than section 211(b)) of MCCA are repealed and the provisions of law amended or repealed by such sections are restored or revised as if such sections had not been enacted.

(b) 1-TIME TRANSFER OF NET ADDITIONAL PREMIUMS.—There shall be transferred, as of January 1, 1990, from the Federal Supplementary Medical Insurance Trust Fund to the Federal Hospital Insurance Trust Fund an amount equal to—

(1) the amount of the premiums collected pursuant to section 1839(g) of the Social Security Act, minus

(2) the amount of administrative expenses incurred under part B of title XVIII of such Act relating to implementation of MCCA, plus

(3) the amount of interest accrued to the Federal Supplementary Medical Insurance Trust Fund attributable to balance described in paragraphs (1) and (2).

(c) EFFECTIVE DATE.—The provisions of subsection (a) shall take effect January 1, 1990, and the repeal of section 211 of MCCA shall apply to premiums for months beginning after December 31, 1989.

SEC. 203. AMENDMENT OF CERTAIN MISCELLANEOUS PROVISION.

(a) REVISION OF MEDIGAP REGULATIONS.—

(1) IN GENERAL.—Section 1882 of the Social Security Act (42 U.S.C. 1395ss), as amended by section 221(d) of MCCA, is amended—

(A) in the third sentence of subsection (a) and in subsection (b)(1), by striking "subsection (k)(3)" and inserting "subsections (k)(3), (k)(4), (m), and (n)";

(B) in subsection (k)—

(i) in paragraph (1)(A), by inserting "except as provided in subsection (m)," before "subsection (g)(2)(A)", and

(ii) in paragraph (3), by striking "subsection (1)" and inserting "subsections (l), (m), and (n)"; and

(C) by adding at the end the following new subsections:

"(m)(l)(A) If, within the 90-day period beginning on the date of the enactment of this subsection, the National Association of Insurance Commissioners (in this subsection and subsection (n) referred to as the 'Association') amends the amended NAIC Model Regulation (referred to in subsection (k)(1)(A) and adopted on September 30, 1988) to reflect the changes in law made by the Medicare Catastrophic Coverage Repeal Act of 1989, subsection (g)(2)(A) shall be applied in a State, effective on and after the date specified in subparagraph (B), as if the reference to the Model Regulation adopted on June 6, 1979, were a reference to the amended NAIC Model Regulation (referred to in subsection (k)(1)(A)) as amended by the Association in accordance with this paragraph (in his subsection and subsection (n) referred to as the 'revised NAIC Model Regulation').

"(B) The date specified in this subparagraph for a State is the earlier of the date the State adopts standards equal to or more stringent than the revised NAIC Model Regulation or 1 year after the date the Association first adopts such revised Regulation.

"(2)(A) If the Association does not amend the amended NAIC Model Regulation, within the 90-day period specified in paragraph (1)(A), the Secretary shall promulgate, not later than 60 days after the end of such period, revised Federal model standards (in this subsection and subsection (n)

referred to as 'revised Federal model standards') for medical supplemental policies to reflect the changes in law made by the Medicare Catastrophic Coverage Repeal Act of 1989, and subsection (g)(2)(A) shall be applied in a State, effective on and after the date specified in subparagraph (B), as if the reference to the Model Regulation adopted on June 6, 1979, were a reference to the revised Federal model standards.

"(B) The date specified in this subparagraph for a State is the earlier of the date the State adopts standards equal to or more stringent than the revised Federal model standards or 1 year after the date the Secretary first promulgates such standards.

"(3) Nothwithstanding any other provision of this section (except as provided in subsection (n))—

"(A) no medicare supplemental policy may be certified by the Secretary pursuant to subsection (a),

"(B) no certification made pursuant to subsection (a) shall remain in effect, and

"(C) no State regulatory program shall be found to meet (or to continue to meet) the requirements of subsection (b)(1)(A),

unless such policy meets (or such program provides for the application of standards equal to or more stringent than) the standards set forth in the revised NAIC Model Regulation or the revised Federal model standards (as the case may be) by the date specified in paragraph (1)(B) or (2)(B) (as the case may be).

"(n)(1) Until the date specified in paragraph (4), in the case of a qualifying medicare supplemental policy described in paragaph (3) issued in a State—

"(A) before July 1, 1990, the policy is deemed to remain in compliance with the standards described in subsection (b)(1)(A) if the insurer issuing the policy complies with the transition provision described in paragraph (2), or

"(B) on or after July 1, 1990, the policy is deemed to be in compliance with the standards described in subsection (b)(1)(A) if the insurer issuing the policy complies with the revised NAIC Model Regulation or the revised Federal model standards (as the case may be) before the date of the sale of the policy.

"(2) The transition provision described in this paragraph is—

"(A) such transition provision as the Association provides, by not later than December 15, 1989, so as to provide for an appropriate transition to reflect the changes in benefits under this title made by the Medicare Catastrophic Coverage Repeal Act of 1989, or

"(B) if the Association does not provide for a transition provision by the date described in subparagraph (A), such transition provision as the Secretary shall provide, by January 1, 1990, so as to provide for an appropriate transition described in subparagraph (A).

"(3) In paragraph (1), the term 'qualifying medicare supplemental policy' means a medicare supplemental policy which has been issued in compliance with this section as in effect on the date before the date of the enactment of this subsection.

"(4)(A) The date specified in this paragraph for a policy issued in a State is—

"(i) the first date a State adopts, after the date of the enactment of this subsection, standards equal to or more stringent than the revised NAIC Model Regulation (or revised Federal model standards), as the case may be, or

"(ii) the date specified in subparagraph (B), whichever is earlier.

"(B) In the case of a State which the Secretary identifies, in consultation with the Association, as—

"(i) requiring State legislation (other than legislation appropriating funds) in order for medicare supplemental policies to meet standards described in subparagraph (A)(i), but

"(ii) having a legislature which is not scheduled to meet in 1990 in a legislative session in which such legislation may be considered,

the date specified in this subparagraph is the first day of the first calendar quarter beginning after the close of the first legislative session of the State legislature that begins on or after January 1, 1990. For purposes of the previous sentence, in the case of a State that has a 2-year legislative session, each year of such session shall be deemed to be a separate regular session of the State legislature.

"(5) In the case of a medicare supplemental policy in effect on January 1, 1990, the policy shall not be deemed to meet the standards in subsection (c) unless each individual who is entitled to benefits under this title and is a policy holder under such policy on such date is sent a notice in any appropriate form by not later than January 31, 1990, that explains—

"(A) the changes in benefits under this title effected by the Medicare Catastrophic Coverage Repeal Act of 1989, and

"(B) how these changes affect the benefits contained in such policy and the premium for the policy.

"(6) In the case of an insurer which had in effect, as of December 31, 1988, a medicare supplemental policy with respect to an individual, for which the individual terminated coverage as of January 1, 1989 (or the earliest renewal date thereafter), no medicare supplemental policy of the insurer shall be deemed to meet the standards in subsection (c) unless the insurer—

"(A) provides written notice, by January 15, 1990, to the individual (at the most recent available address) of the offer described in subparagraph (B), and

"(B) offers to the individual, during the period beginning on January 1, 1990, and ending on March 1, 1990, continuation of coverage under such a medicare supplemental policy (with coverage effective as of January 1, 1990), under the terms respecting treatment of pre-existing conditions and group rating of premium which are at least as favorable to the individual as such terms as existed with respect to the policy as of December 31, 1988.".

(2) SENSE OF CONGRESS.—It is the sense of Congress that States should respond, at the earliest practicable date after the date of the enactment of this Act, to requests by insurers for review and approval of riders and premium adjustments for medicare supplemental policies in order to comply with the amendments made by paragraph (1).

(b) ADJUSTMENT OF CONTRACTS WITH PREPAID HEALTH PLANS.—Section 222 of MCCA is amended by inserting "and before January 1, 1990," after "December 31, 1988," each place it appears.

(c) NOTICE OF CHANGES.—The Secretary of Health and Human Services shall provide, in the notice of medicare benefits provided under section 1804 of the Social Security Act for 1990, for a description of the changes in benefits under title XVIII of such Act made by the amendments made by this act.

(d) MISCELLANEOUS TECHNICAL CORRECTION.—Section 221(g)(3) of MCCA is amended by striking "subsection (f)" and inserting "subsection (e)".

(e) EFFECTIVE DATE.—The provisions of this section shall take effect January 1, 1990, except that the amendment made by subsection (d) shall be effective as if included in the enactment of MCCA.

TITLE III—MISCELLANEOUS AMENDMENTS

SEC. 301. OTHER MISCELLANEOUS AMENDMENTS.

(a) IN GENERAL.—Sections 421 through 425 and 427 of MCCA are repealed and any provision of law amended or repealed by such sections is restored or revived as if such sections had not been enacted.

(b) MISCELLANEOUS TECHNICAL CORRECTIONS.—

(1) Effective as if included in the enactment of the Omnibus Budget Reconciliation Act of 1987, section 1834(b)(4)(A) of the Social Security Act, as added by section 4049(a)(2) of the Omnibus Budget Reconciliation Act of 1987, is amended by striking "insurance and deductibles under section 1835(a)(1)(I)" and inserting "coinsurance and deductibles under sections 1833(a)(1)(J)".

(2) Section 1842(j)(1)(C)(vii) of the Social Security Act, as added by section 4085(i)(7)(C) of the Omnibus Budget Reconciliation Act of 1987, is amended by striking "accordingly" and inserting "according".

(3) Section 1886(g)(3)(A)(iv) of the Social Security Act, as added by section 4006(a)(2) of the Omnibus Budget Reconciliation Act of 1987, is amended by striking "may) be" and inserting "may be)".

(4) Section 1966(a)(1)(F)(i)(III) of the Social Security Act is amended by striking "fiscal year))" and inserting "fiscal year)".

(5) Section 1875(c)(7) of the Social Security Act, as added by section 9316(a) of the Omnibus Budget Reconciliation Act of 1986, is amended by striking "date of the enactment of this Act" and inserting "date of the enactment of this section".

(6) Section 1842(j)(2)(B) of the Social Security Act, as amended by section 8(c)(2)(A) of the Medicare and Medicaid Fraud and Abuse Patient Protection Act of 1987, is amended by striking "paragraphs" and inserting "subsections".

(c) EFFECTIVE DATE.—The provisions of this section shall take effect January 1, 1990, except that—

(1) the repeal of section 421 of MCCA shall not apply to duplicative part A benefits for periods before January 1, 1990, and

(2) the amendments made by subsection (b) shall take effect on the date of the enactment of this Act.

The SPEAKER pro tempore (Mr. MCDERMOTT). Is a second demanded?

Mr. ARCHER. Mr. Speaker, I demand a second.

The SPEAKER pro tempore. Without objection, a second will be considered as ordered.

There was no objection.

The SPEAKER pro tempore. The gentleman from Illinois [Mr. ROSTENKOWSKI] will be recognized for 20 minutes, and the gentleman from Texas [Mr. ARCHER] will be recognized for 20 minutes.

The Chair recognizes the gentleman from Illinois [Mr. ROSTENKOWSKI].

GENERAL LEAVE

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent that all Members may have 5 legislative days within which to revise and extend their remarks and include therein extraneous material on the bill now under consideration.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Illinois?

There was no objection.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, this bill is being considered today as part of an agreement reached by the joint bipartisan leadership yesterday on the debt ceiling bill. If this bill passes the House, as I am sure it will, the other body indicates that it will also consider it today. They have reached an agreement which provides that the McCain amendment with technical modifications will be attached to it.

H.R. 3607 is identical to the catastrophic health insurance repeal provisions contained in the reconciliation bill as passed by this House on October 4 by a vote of 360 to 66. The bill repeals all portions of the Medicare Catastrophic Coverage Act of 1988, including the surtax. Only the Medicaid provisions would be retained.

Mr. Speaker, as a policy matter, I continue to oppose repeal of this program. We have all seen recent reports that Medigap insurance premiums will increase significantly next year if repeal is enacted. The primary reason for these rate increases is that insurance companies anticipate repeal and are adjusting these premiums on the elderly for their Medigap policies.

Repeal of the Catastrophic Health Insurance Program will hurt millions of senior citizens whose voices have not been heard. I continue to believe that those voices will be heard eventually and loudly if we actually repeal the program.

Nevertheless, I fully respect the will of the House as expressed by the overwhelming vote in favor of repeal. I hope that we can pass this bill today, that the Senate will pass the McCain amendment, and that we can get to conference with the Senate as soon as possible. It is my further hope that in conference, we can develop a responsible compromise between the two bills that preserves essential catastrophic health protection for our senior citizens.

Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. Speaker, I yield myself such time as I may consume.

Mr. Speaker, I rise today in support of H.R. 3607, the bill to repeal the Medicare Catastrophic Coverage Act. This bill is identical to the amendment I introduced to the budget reconciliation measure with my Ways and Means Committee colleagues, Representatives DONNELLY and RUSSO.

That measure passed this Chamber by a resounding margin of 360 to 66. This margin reflected the House's opposition to the surtax and costly benefits included in the Medicare Catastrophic Coverage Act. The elderly do not see Medicare catastrophic as either fair or necessary, and the House acted accordingly.

The Senate also, in response to the concern of senior citizens, repealed the Medicare catastrophic surtax and the act's costliest benefits. Senator John MCCAIN led the effort to amend the Catastrophic Act, and his proposal represents an honest attempt at reform.

After this House passes H.R. 3607, the Senate will likely amend repeal with an amendment reflecting Senator MCCAIN's work. It is critically important that the two chambers join in conference quickly to settle the fate of the Medicare Catastrophic Coverage Act.

The surtax and many of the act's costliest benefits need to be repealed as soon as possible so that the elderly will not have to fear the burden of the mistakes made in the passage of Medicare catastrophic. It is important to act in a timely fashion so that our constituents will know that this Congress listens to the people and responds to their wishes.

Mr. Speaker, it is my intention to participate actively in resolving the differences in Medicare catastrophic between the House and the Senate. I am confident that my colleagues and I can reach a satisfactory conclusion.

□ 1220

Mr. Speaker, I reserve the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I yield 2 minutes to the gentleman from California [Mr. STARK].

Mr. STARK. Mr. Speaker, I thank the distinguished chairman for yielding. I would like to join with the gentleman from Illinois [Mr. ROSTENKOWSKI] and a multitude of other Members in opposition to the Donnelly-Archer-Russo amendment. Our constituents have asked us to repeal the supplemental premium, not the benefits of the program. This may seem like a quick fix, but it is certainly not a solution.

I just want to remind Members that if this amendment carries, the losers are 20 million seniors who will be without prescription drug coverage, rural seniors who tend to be without employer based coverage, families who need in-home respite care, and the approximately 4,000 women whose lives would be saved by the Medicare mammography screening benefit that was included in the bill.

It is the States that will lose. My own State of California will lose $28 million. The State of Texas will lose $14 million. The State of Massachusetts will lose $46 million. Because that is cost to the States of the benefits that the catastrophic bill would have picked up and will not now be paid for.

I am sure we are going to reaffirm today the repeal of this bill, but I want to just remind the Members who may have second thoughts that I do not think we will be doing the right thing.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Florida [Mr. SHAW].

Mr. SHAW. Mr. Speaker, I thank the gentleman from Texas for yielding. I want to congratulate the chairmen of the full committee and subcommittee, as well and the ranking member of each of these committees, for bringing this matter back before the House. It does show that the process is working.

The Subcommittee on Health has worked hard and diligently trying to come up with an agreeable formula that would be acceptable to the thousands and hundreds of thousands and millions of seniors across this country who have voiced their opposition to the present law.

In the full committee we worked hard. The gentleman from California [Mr. STARK] brought to our attention that the benefits are also going. Of course, this is true. But, of course, the tax is the locomotive that pulls the cars down the track. if you remove the locomotive, the cars are useless standing there idly.

So it is up to this Congress to remove all of those impediments in the legislation from the books, and perhaps this will have an opportunity to start over. We have some great minds that have tried to work on a compromise. Under the existing conditions that compromise simply is not out there.

I do not believe any Member represents more seniors than I do in the 15th Congressional District of Florida. Sometimes it is very difficult, but it is an historic moment when Congress gets up and says we voted for something that the people really did not want, so now we are going to listen to the people again, the people that we represent, the people that sent us here to Washington, to voice their view. They are singing out very loud and strong, repeal catastrophic.

This is not going to be the end of the line. We will continue to talk about the health needs of the elderly. This is something that is very much on the minds of all of the members of the Committee on Ways and Means.

I will be happy to join with them and continue to explore the possibility of additional health care for the elderly. But today the voices are being

heard loud and clear, repeal catastrophic.

Mr. ROSTENKOWSKI. Mr. Speaker, I reserve the balance of my time.

Mr. ARCHER. Mr. Speaker, I yield 2 minutes to the gentleman from Ohio [Mr. REGULA].

Mr. REGULA. Mr. Speaker, I thank the gentleman for yielding. While I join in the effort to repeal catastrophic for many of the reasons that have already been stated, I do hope that the conferees will take a look at the McCain proposal with some modifications.

I am a cosponsor of House Resolution 3585, which tracks McCain in many respects. If we repeal catastrophic, which obviously we will, there will be 20 million beneficiaries of Medicare who would not have paid the surtax, but also will no longer have the coverage.

Second, this action result in an increase in Medigap insurance premiums. I think we need to address that concern of many seniors.

The McCain proposal embodied in H.R. 3585 with some changes does these important things. First, it provides unlimited coverage for hospital care. That is very important to the seniors.

Second, it expands slightly home health, hospice, and respite care.

Third, it provides for mammography.

Fourth, and I think this is a very important point, it retains the spousal improverishment provisions in the original catastrophic legislation. This is a vital point to preserve, because it gives seniors the security that they will not suddenly be impoverished by an extended illness of a spouse.

Lastly, this is all accomplished without any increased surtax. The existing part B payments will cover these costs, so there will be no increased taxes for anyone that would benefit from this proposal.

I certainly hope the conferees will take the McCain proposal now in the Senate package, perhaps make some improvements on it, but come back with a conference report that embodies these needed coverages.

Mr. ARCHER. Mr. Speaker, I yield 1 minute to the gentleman from Florida [Mr. Goss].

Mr. GOSS. Mr. Speaker, I thank the gentleman from Texas for yielding. I rise in support of H.R. 3607. I do not wish to debate the gentleman from Florida [Mr. SHAW], and I do not think it is really relevant whether he has the greatest number of seniors in his district or I do in mine, but it is a close contest.

The fact is we have recently taken soundings among those seniors, and I can report back very safely and with conviction that the preferred route that those seniors want us to take in this body is still repeal, even though they have heard the talk of Medigap insurance going up, even though that may be a self-fulfilling prophesy.

At my town meetings recently this week, and my mail is still running very clearly along this line, repeal is the preferred route. I hope that this Congress will be aware of that and follow those lines, unless we hear otherwise.

Mr. ARCHER. Mr. Speaker, I yield the balance of my time to the cosponsor of the legislation, the gentleman from Massachusetts [Mr. DONNELLY].

The SPEAKER pro tempore (Mr. MCDERMOTT). The gentleman from Massachusetts [Mr. DONNELLY] is recognized for 13 minutes.

Mr. DONNELLY. Mr. Speaker, I thank my friend the gentleman from Texas [Mr. ARCHER] for yielding me the balance of the time.

Pursuant to an agreement between the leadership of this body and the leadership of the other body last evening, I filed legislation, along with the gentleman from Texas and the gentleman from Illinois [Mr. RUSSO], that word for word was the legislation that passed this House in regard to the repeal of the Medicare Catastrophic Coverage Act by a vote of 360 to 60.

It is my understanding that there will be a conference appointed and that we will attempt to work this issue out. But let me go on record at this point in time to let the Members know that this is not an issue that will be easily worked out.

The so-called McCain approach has two very fundamental flaws, and that is that it does not deal with the issue of duplication of benefits, and that has been the problem from day one.

Seniors object, rightly so, to being charged for benefits that they have already paid for. As many as one-half or more of Medicare beneficiaries already have these benefits and already have paid for these benefits. Rightly so, in the last decade they took care of their retirement needs and their health care needs in their retirement years, because they did not trust Social Security and the Medicare system to provide them the coverage that was necessary for themselves and their spouses.

□ 1220

Mr. Speaker, I have heard a lot said about the seniors in this country and their objections to this program, but they are darn right to object to being double billed, and that is the fundamental flaw in the Catastrophic Coverage Act, and that is a flaw that is not corrected by the McCain approach.

The second problem I have with the McCain approach is that it charges a very regressive flat fee to pay for this duplicative coverage. It treats all seniors in this country as if they are in the same income bracket.

My colleagues, I think there is something we should have learned over the course of the last few months. They are not. There are poor seniors, middle-class seniors, and there are rich seniors. The seniors belong to economic groups like the rest of America does, and to charge a poor senior the same amount of money for coverage that is charged the most wealthy is blatantly unfair but that is the funding approach that the McCain proposal takes.

Mr. Speaker, I object to that and strenuously object to that, as do many of my colleagues on this side of the aisle, so I say to those who think that this problem will be worked out quickly and easily. "I think you're deluding yourselves."

It has always been my position, as one of the original authors of this legislation, that what we ought to do is repeal it, go back to square one, create a Medicare system that gives the seniors the same options and health care coverage as every Member of this House has, the right to choose their coverage, the same right that we have presently under an open season, at this place in time, for the coverage that we have as Members of the U.S. House of Representatives.

However, Mr. Speaker, if that not be the will of the other body, I am willing to try to come to some sort of compromise, if possible.

I really think that we ought to hold up our opposition to repeal the program, go back to square one, deal with a very complex issue. There is no issue, either in reconciliation or out of reconciliation, that affects more Americans. We are talking about a program that affects 33 million Medicare beneficiaries, and, if my colleagues think they can solve that problem of 33 million people in a week, then I think we are deluding ourselves.

Let me just say in response to my good friend from California that in his remarks he stated that States would lose money if we repeal the catastrophic coverage. Well, that is the fundamental problem with catastrophic coverage. We are asking the seniors to bail out State deficits.

Mr. Speaker, that is not fair. That is not what coverage should be all about. That is one of the best reasons I have heard to repeal the program.

The seniors should not be asked to bail out the deficit of the Commonwealth of Massachusetts. That was created by the leadership in the Commonwealth of Massachusetts. The seniors should not be asked to do that.

So, I would hope that in conclusion the House would strongly maintain its position to repeal the program, admit that we made mistakes, admit that we never saw the fundamental flaws in this program, and be able to deal with the issue next year in a very antiseptic

way. So, I hope that the House maintains its position and gives the conferees a vote of confidence to maintain our position to repeal the program.

Mr. BRENNAN. Mr. Speaker, I rise today to reemphasize my support for complete repeal of the unfair surtax contained in the Medicare Catastrophic Coverage Act of 1988. I rise today to reemphasize my opposition to completely disposing of this entire Coverage Program. On October 4, I stated the necessity to retain those benefits most expensive and therefore least accessible under private Medigap policies.

Reports issued since this body's vote to repeal the program have indicated that our Nation's senior citizens face increases of up to 43 percent for Medigap insurance. Who needs Medigap coverage? The Health Insurance Association of America estimates that supplemental insurance is held by more than 25 million people, or 78 percent of the 33 million Medicare beneficiaires, of whom 30 million are 65 and over and 3 million are disabled.

These people need, at least, the benefit provisions which the Senate has voted to retain by 99–0. I anticipate a majority in the House will again vote for the Donnelly-Archer outright repeal measure which I believe to be a direct step backward in actively developing a program for long-term care for the fastest growing population in the United States, our senior citizens. Today, I rise in opposition to that measure and trust the House-Senate conferees will realize the importance of not only repealing the surtax, but also providing Medicare beneficiaries with some protection against catastrophic disease, injury, and illness.

I urge the conferees to keep in mind the increasing need for home-health and respite-care services and to retain those benefits; 42,000 women died from breast cancer in 1988 and I urge the conferees to retain mammography screening in order to prevent approximately 14,000 of these deaths in future years. Of course, I urge the conferees to retain the spousal improverishment and Medicaid buy-in provisions of the program in order to ensure financial security for senior citizens and their families when confronted with a catastrophic or long-term illness.

Regardless of the outcome of this program, it will be our job to seriously begin to establish a policy for lifelong, long-term health care coverage for the people of this Nation. Relative to the amount of money we spend on health care in this Nation, we are not a healthy Nation. In fact many of our citizens have absolutely no access to any health benefits. Let's make significant strides in the very near future to meet the health care needs of the people of this Nation.

Mrs. BENTLEY. Mr. Speaker, I am pleased that we are down here on the House floor today, poised to resolve the catastrophic care issue that has been the source of much discontent. This sends a positive signal that the Congress is committed to resolving this issue before the scheduled adjournment date later this month. It also sends another signal to this body as a whole—when senior citizens speak, people listen.

For 16 months, the elderly deluged this body with calls for repeal of the hated catastrophic surtax. We responded in early October by doing just that. One month later we are preparing to finish the job.

Although senior citizens have been most outspoken on the issue of catastrophic health care, their voices cannot be ignored in regard to the entire health care picture. Medicare and Medicaid are pathetically inadequate—not to mention confusing—in terms of providing for the health care of our elderly in an efficient and equitable fashion.

This Nation is in the midst of a national health care crisis. Our numerous health care programs and proposals represent nothing more than a band-aid approach. Before we finish this 101st Congress, we must devise and set in motion a fair and thoughtful program to replace the corpse that we are burying today.

Mr. SAXTON. Mr. Speaker, a few weeks ago hundreds of older Americans from New Jersey, Pennsylvania, and Delaware came to Washington to hold a rally at the Capitol.

Heavy rains did not dampen the determination and spirit of the group. Their message was simple and to the point—the "cat" must go.

I am pleased to stand here with my colleagues today to follow through with what our constituents have asked us for—all out repeal of the Medicare Catastrophic Coverage Act.

The will of the House was heard in early October when 360 Members of the House voted for all-out repeal of the bill. It will be heard again today.

The other House must now decide on whether to vote for repeal.

Mr. Speaker, I urge my colleagues to continue to support repeal of the bill.

Instead of last minute revisions to save portions of a dying bill, we in Congress must roll up our shirt sleeves and begin to attack the real issue threatening the pocketbooks of seniors, that of long-term care coverage.

Seniors want a product worth paying for. Therefore, let's begin to devise coverage that they can't currently buy—long-term care.

Mr. Speaker, many reports have recently stated that repeal of this act will cause Medigap policies to soar. This is causing a great deal of alarm for individuals who have been victims to rising supplemental insurance premiums.

However, to blame their increases on repeal of the Medicare catastrophic coverage law is grossly misleading. My friend and colleague, Mr. FAWELL, presented testimony at a recent hearing objecting to these claims.

In his testimony he revealed, that the repeal of the law should raise 1990 Medigap rates to cover only 1989 part A benefits which went into effect last year.

Instead Medigap rates will continue to rise for a number of reasons which cannot be attributed to the repeal of catastrophic such as medical inflation.

Medical inflation is a serious problem. This surge in the costs of health insurance premiums reflects the Nation's urgent need to bring escalating medical costs under control.

It is imperative that we look to contain the double digit increase in medical cost without threatening the availability and quality of health care.

Mr. Speaker, I urge a quick conference to bring resolution which embodies the senior citizens intent.

Mr. SLAUGHTER of Virginia. Mr. Chairman, our consideration today of this repeal of the Medicare Catastrophic Protection Act is another victory for our Nation's elderly. Slowly but surely, the Congress is bowing to the will of our senior citizens in correcting this misguided legislation.

Seniors can claim victory in insisting on a repeal of the seniors-only surtax, which was eliminated by both the earlier House vote to repeal and the Senate vote to reform the catastrophic illness law. Seniors can claim victory in helping the Congress to realize that the true catastrophic costs they face are not extended hospital stays, but long-term nursing and home care. And seniors can claim another important victory in our consideration of the catastrophic illness program on its own merits, and not as part of an unrelated legislative package.

Mr. Chairman, since passage of the catastrophic illness program last year, it has been a long road for those of us who opposed this law all along. I was one of 72 Members of the House who opposed the bill on final passage because of the seniors-only surtax, the lack of long-term care assistance and the substantial threat to the stability of the Medicare trust funds posed by its unwise financing methods.

I hope that the other body will join us here in the House and vote to repeal the catastrophic illness coverage bill and return next session determined to enact a more responsible health care policy for our elderly. Such a policy would abandon the surtax method of financing and emphasize existing private sector resources in an effort to provide access to effective catastrophic illness coverage for all Americans.

Mr. DONNELLY. Mr. Speaker, I yield back the balance of my time.

Mr. ROSTENKOWSKI. Mr. Speaker, I have no further requests for time, and I yield back the balance of my time.

The SPEAKER pro tempore (Mr. MCDERMOTT). The question is on the motion offered by the gentleman from Illinois [Mr. ROSTENKOWSKI] that the House suspend the rules and pass the bill, H.R. 3607.

The question was taken; and (two-thirds having voted in favor thereof) the rules were suspended, and the bill was passed.

A motion to reconsider was laid on the table.

SEQUESTER—WE ENDURED IT ONCE BEFORE

(Mr. FRENZEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. FRENZEL. Mr. Speaker, there is more and more talk about actually living with a sequester through most of the year. I think House Members

should be advised that we lived with a sequester for most of the year in 1986.

At that time we sequestered $11.8 billion, and we did it for the time period March through September. This year, if we were to have a sequester, the official number would be $16 billion, but OMB tells us what will actually be sequestered is about $11.8 billion, exactly what we did 4 years ago.

Four years ago very few people complained. We got through the year apparently without too much pain in our sacrifice. This year we will be talking about the same size sequester, and we will be talking about the same number from a much larger spending base.

So if, in fact, we have to endure sequester because this Congress cannot produce a satisfactory reconciliation bill, Members should be comforted to know that it will not be a first, and that we have endured it one time before.

LEGISLATION TO RESTORE OLIVER NORTH'S PENSION

(Mr. SOLOMON asked and we given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. SOLOMON. Mr. Speaker, BILL DICKINSON of Alabama and I are cosponsoring legislation to restore both Oliver North's pension and the honor of the House of Representatives.

Technically, these bills are designed to amend the United States Code sections that discriminate against military retirees. What these bills will do is restore Oliver North's military pension.

Mr. Speaker, the Government has spent $47.5 million to harass Oliver North in an effort by some to undermine the Reagan doctrine in Central America. We see the results of that effort today, when it becomes more and more obvious that the Sandinistas have no intention of sharing power, or in joining the worldwide tide of democracy.

As Oliver North said 2 years ago, we ought to do more than let these brave teen-aged peasants, the Contras, die for their country. And for his candor he was treated like a traitor, despite a Silver Star, a Bronze Star, and two Purple Hearts earned in Vietnam, despite his major role in the liberation of Grenada, the bombing of Libya, and the capture of the *Achille Lauro* terrorists.

Mr. Speaker, Oliver North is a former constituent of mine, and I'm not going to see him made a political scapegoat. I said it 3 years ago, and I'll say it today: Oliver North is a genuine American hero, and I ask all of you to join me and BILL DICKINSON in supporting this legislation.

AN OPPORTUNITY THAT WAS PASSED BY DELIBERATELY

(Mr. HENRY asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. HENRY. Mr. Speaker, just a few moments ago the gentleman from Minnesota [Mr. FRENZEL] addressed the issue of sequestration, and, while I share his concern that I would prefer not to see us entered into a sequester process, I want to remind Members that under the Gramm-Rudman Act the majority leader has the right to offer a privileged motion to this body to restructure the consequences of sequestration, should that have become necessary, and I think it is important we remind ourselves of that fact should, in fact, sequestration take place and should, in fact, we begin to hear from our constituents relative to reduction in student loans half way through the academic year, et cetera.

Mr. Speaker, an opportuunity was offered in law for a privileged motion to address some of these issues, an opportunity that was passed by deliberately by the leadership of this House.

FULFILLING OUR OBLIGATIONS TO OUR VETERANS

(Mr. JONTZ asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. JONTZ. Mr. Speaker, this Saturday citizens throughout our Nation will be conducting various observances for Veterans Day and being thankful for the contributions that veterans have made to keeping our Nation free and strong. One of the ways that we as a country can fulfill our obligations to our veterans is to see that they have their medical needs addressed through our VA health care system, and one major gap in that system at the present time are services which are not being delivered to veterans, particularly of the Vietnam conflict who are suffering from post-traumatic stress disorder.

□ 1230

Mr. Speaker, the Research Triangle Institute finished a study this last year under contract with the VA which identified approximately 480,000 veterans in this country who currently suffer from PTSD. Of that number, only 10 percent in this year received any assistance from the Veterans' Administration. The VA does have some good programs to help veterans with these readjustment problems. The veterans centers do an outstanding job in this regard.

In my own district, the Marion, IN, VA has conducted an excellent in-patient program. But the facilities which are available are too few to serve the needs that are there. The many barriers that exist to helping Vietnam veterans who are suffering with PTSD need to be taken down.

Mr. Speaker, as we remember our veterans this Saturday and express our thanks for the contributions, the sacrifices they have made, let us remember the needs which exist, to address the needs of the veterans with post-traumatic stress disorder in our Nation.

CATASTROPHIC AND SEQUESTRATION

(Mr. MICHEL asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. MICHEL. Mr. Speaker, may I take this opportunity to applaud the members of the Ways and Means Committee, the chairman and the ranking member, for their cooperative spirit with the leadership in addressing the issue of catastrophic health care, as we did just a few moments ago under suspension of the rules, and passing it quickly by a voice vote. I would anticipate that over in the other body similar action on their perception of what ought to be done with respect to catastrophic, and then getting the two Houses together as is traditional around here to work out a conference agreement between the two opposing views.

We had an opportunity this morning in the leadership meeting with the President to discuss it. He, too, was very happy that the unfolding of developments were such that the debt ceiling was passed unencumbered last night, except with section 89, which I think was universally accepted by both sides of the aisle. So it does move us one step further to an ultimate adjournment hopefully before Thanksgiving.

If I might be permitted to make one other remark in my given time, several remarks with respect to sequestration, whether it is good or whether it is bad. You know, there is one simple way of avoiding sequestration, and that is simply making the kind of deficit reductions in the reconciliation package that comes to the figure the President talked about, rounded out roughly at $14 billion. If that is there and it is real savings, obviously we do not have to fully utilize the enforcement mechanism of Gramm-Rudman to force the savings through sequestration. It is very simple. We either vote the necessary deficit reduction or we do not, and if we do not, obviously we have to take the fall-back position.

BEST WAY TO AVOID SEQUESTRATION IS WITH GENUINE CUTS

(Mr. PEASE asked and was given permission to address the House for 1 minute and to revise and extend his remarks.)

Mr. PEASE. Mr. Speaker, I would like to comment on the remarks just made by the minority leader and say that I agree with the gentleman that the best way to avoid a sequester is to come up with $14 billion in genuine budget cuts. It is important, because while we can make cosmetic cuts this year, we cannot avoid those cosmetic cuts contributing to increases in the national debt.

Last night we increased the national debt ceiling to over $3.1 trillion.

The budget deficit in our budget last year was $146 billion. The actual deficit, according to Gramm-Rudman calculations, came in at about $160 billion for last year. The real deficit which we added to our national debt for the 1989 fiscal year was almost $270 billion. That means that when we next year struggle with the budget to come up with ways to meet the needs of the American people for the war on drugs, for child care and education and lots of other things, we have to realize that the first $20 billion of whatever additional revenue we have comes right off the top to go to pay for interest on that increase of $270 billion in the national debt. It seems to me that is unconscionable, and a terrible way to run the Government.

OIL POLLUTION PREVENTION, RESPONSE, LIABILITY, AND COMPENSATION ACT OF 1989

The SPEAKER pro tempore (Mr. MCDERMOTT). Pursuant to House Resolution 277 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 1465.

□ 1235

IN THE COMMITTEE OF THE WHOLE

Accordingly, the House resolved itself into the Committee of the Whole House on the State of the Union for the further consideration of the bill (H.R. 1465) to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes with Mr. PEASE in the chair.

The Clerk read the title of the bill.

The CHAIRMAN. When the Committee of the Whole rose on Thursday, November 2, 1989, all time for general debate had expired.

Pursuant to the rule, the amendment in the nature of a substitute consisting of the text of the bill, H.R. 3394, as modified by the amendments printed in section 1 of House Report 101-323, shall be considered by titles as an original bill for the purpose of amendment, and each title shall be considered as having been read.

It shall be in order to consider en bloc the amendments printed in section 2 of House Report 101-323, if offered by the gentleman from Massachusetts [Mr. STUDDS] or the gentleman from California [Mr. MILLER]. Said amendments en bloc shall be debatable for 60 minutes, equally divided and controlled by the proponent of the amendments and a member opposed thereto, and shall not be subject to a demand for a division of the question.

The Clerk will designate section 1.

The text of section 1 is as follows:

H.R. 3394

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. SHORT TITLE AND TABLE OF CONTENTS.

(a) SHORT TITLE.—This Act may be cited as the "Oil Pollution Act of 1989".

(b) TABLE OF CONTENTS.—The contents of this Act are as follows:

Section 1. Short title and table of contents.

TITLE I—OIL POLLUTION LIABILITY AND COMPENSATION

Sec. 1001. Definitions.
Sec. 1002. Elements of liability.
Sec. 1003. Defenses to liability.
Sec. 1004. Limits on liability.
Sec. 1005. Interest.
Sec. 1006. Natural resources.
Sec. 1007. Recovery by foreign claimant.
Sec. 1008. Recovery by responsible party or cargo owner.
Sec. 1009. Contribution.
Sec. 1010. Indemnification agreements.
Sec. 1011. Consultation on removal actions.
Sec. 1012. Uses of the Fund.
Sec. 1013. Claims procedure.
Sec. 1014. Designation and advertisement.
Sec. 1015. Subrogation.
Sec. 1016. Financial responsibility.
Sec. 1017. Litigation, jurisdiction, and venue.
Sec. 1018. Relationship to other law.
Sec. 1019. State financial responsibility.
Sec. 1020. Effective date.

TITLE II—CONFORMING AMENDMENTS

Sec. 2001. Intervention on the High Seas Act.
Sec. 2002. Federal Water Pollution Control Act.
Sec. 2003. Deepwater Port Act.
Sec. 2004. Outer Continental Shelf Lands Act Amendments of 1978.
Sec. 2005. Effective date.

TITLE III—IMPLEMENTATION OF INTERNATIONAL CONVENTIONS

Sec. 3001. Definitions.
Sec. 3002. Applicability of conventions.
Sec. 3003. Recognition of International Fund.
Sec. 3004. Action in United States courts.
Sec. 3005. Contribution to International Fund.
Sec. 3006. Recognition of foreign judgments.
Sec. 3007. Convention financial responsibility.
Sec. 3008. Regulations.

TITLE IV—PREVENTION AND REMOVAL

Sec. 4001. Definitions.

Subtitle A—Prevention

Sec. 4101. Review of alcohol and drug abuse and other matters in issuing licenses, certificates of registry, and merchant mariners' documents.
Sec. 4102. Term of certificates of registry and merchant mariners' documents.
Sec. 4103. Suspension and revocation of licenses, certificates of registry, and merchant mariners' documents for alcohol and drug abuse.
Sec. 4104. Removal of master or individual in charge.
Sec. 4105. Access to National Driver Register.
Sec. 4106. Manning standards for foreign tank vessels.
Sec. 4107. Vessel traffic service systems.
Sec. 4108. State authority to require state pilotage for tankers.
Sec. 4109. Great Lakes pilotage.
Sec. 4110. Study on tanker navigation safety standards.
Sec. 4111. Dredge modification study.
Sec. 4112. Use of liners.

Subtitle B—Removal

Sec. 4201. Federal removal authority.
Sec. 4202. Contingency plans.
Sec. 4203. Strike teams.
Sec. 4204. Coast Guard vessel design.
Sec. 4205. Removal resource inventory.

Subtitle C—Miscellaneous

Sec. 4301. Increased penalties.
Sec. 4302. Deposit of certain penalties into Oil Spill Liability Trust Fund.
Sec. 4303. Hazardous substances.

TITLE V—PRINCE WILLIAM SOUND OIL SPILL REMOVAL

Sec. 5001. Short title.
Sec. 5002. Definitions.
Sec. 5003. Tank vessel requirements.
Sec. 5004. Vessel traffic service system.
Sec. 5005. Equipment and personnel requirements.
Sec. 5006. Use of local services.
Sec. 5007. Authority of State of Alaska.
Sec. 5008. Environmental assessments.
Sec. 5009. Report.

TITLE VI—MISCELLANEOUS

Sec. 6001. Statutory waivers.
Sec. 6002. Savings clause.
Sec. 6003. Qualified authorizing legislation.

TITLE VII—RESEARCH AND DEVELOPMENT

Sec. 7001. Oil pollution research and development program.

TITLE VIII—TRANS-ALASKA PIPELINE SYSTEM

Sec. 8001. Short title.
Sec. 8002. References to Trans-Alaska Pipeline Authorization Act.

Subtitle A—Improvements to Trans-Alaska Pipeline System

Sec. 8101. Liability within the State of Alaska and clean up efforts.
Sec. 8102. Trans-Alaska pipeline liability fund.
Sec. 8103. Presidential task force.

Subtitle B—Penalties

Sec. 8201. Authority of the Secretary of the Interior to impose penalties on Outer Continental Shelf facilities.

Sec. 8202. Trans-Alaska System civil penalties.
Subtitle C—Provisions Applicable to Alaska Natives
Sec. 8301. Land conveyances.
Sec. 8302. Impact of potential spills in the Arctic Ocean on Alaska Natives.

The CHAIRMAN. Are there amendments to section 1?

AMENDMENTS OFFERED BY MR. JONES OF NORTH CAROLINA

Mr. JONES of North Carolina. Mr. Chairman, I offer amendments and I ask unanimous consent that they be considered en bloc.

The CHAIRMAN. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

The CHAIRMAN. The Clerk will report the amendments.

The Clerk read as follows:

Amendments offered by Mr. JONES of North Carolina: Page 4, after line 12, insert the following new paragraph—

"(5) 'deepwater port' is a facility licensed under the Deepwater Port Act of 1974 (33 U.S.C. 1501-1524)." and renumber the following paragraphs accordingly.

Page 4, line 24 strike "Such" and insert "This".

Page 5, strike lines 9 through 11, and insert—

"(11) 'gross ton' has the same meaning given that term by the Secretary under part J of title 46, United States Code."

Page 5, line 14, after "responsible party" insert "or owner of oil carried in bulk as cargo on a vessel".

Page 7, line 6, strike "(A)".

Page 7, line 12, strike "; and", and insert a period.

Page 7, strikes lines 13 through 15.

Page 7, line 17, strike "therefrom".

Page 7, line 21, insert a comma after "United States".

Page 9, lines 17 to 19, strike "(B) FACILITIES.—In the case of a facility (including a pipeline but not including any other offshore facility)," and insert "(B) ONSHORE FACILITIES.—In the case of an onshore facility (other than a pipeline),".

Page 9, line 23, strike "of an onshore facility,".

Page 10, line 8, insert "(43 U.S.C. 1301-1356)" after "Act".

Page 10, line 10, strike "permittee)," and insert "permittee), except a Federal agency, State, municipality, commission, or political subdivision of a State, or any interstate body, that, as owner transfers possession and right to use the property to another person by lease, assignment, or permit".

Page 10, line 13, insert "(33 U.S.C. 1501-1524)" after "1974".

Page 10, after line 13, insert the following new subparagraph:

"(E) PIPELINES.—In the case of a pipeline, any person owning or operating the pipeline." and renumber existing subparagraph (E) as (F).

Page 10, line 15, insert "deepwater port, pipeline," after "onshore facility".

Page 12, line 17, strike "plans" and insert "plan".

Page 13, line 15, insert "net" before "loss".

Page 14, after line 2, insert the following:

"(F) PUBLIC SERVICES.—Damages for net costs of providing increased or additional public services during or after removal activities, including protection from fire, safety, or health hazards, caused by a discharge of oil, which shall be recoverable by a State, or a political subdivision of a State.".

Page 16, line 8, strike "party" and insert "party (except where the sole contractual arrangement arises in connection with carriage by a common carrier by rail)".

Page 17, line 5, strike "other facility including" and insert "onshore facility and".

Page 20, line 1, insert "ONSHORE" before "FACILITIES".

Page 20, line 2, strike "Secretary" and insert "President".

Page 21, line 23, strike "Secretary" and insert "President".

Page 22, lines 4 and 5, strike "his or her" and insert "the responsible party's".

Page 23, line 16, insert "and removal costs" after "damages".

Page 24, line 6, insert "or political subdivision thereof" after "State".

Page 24, lines 4 and 5, strike "within the State or".

Page 33, lines 19, strike "Secretary" and insert "President".

Page 33, lines 23, strike "Secretary" and insert "President".

Page 35, line 12, strike "DEFENSES" and insert "DEFENSE".

Page 35, line 15, strike "or economic loss is" and insert ", removal costs, or damages are".

Page 106, line 10, insert "subject to section 8502 of title 46, United States Code," after "vessels".

Page 112, strike lines 1 through 4, and make the conforming changes to the table of contents.

Mr. JONES of North Carolina (during the reading). Mr. Chairman, I ask unanimous consent that the amendments be considered as read and printed in the RECORD.

The CHAIRMAN. Is there objection to the request of the gentleman from North Carolina?

There was no objection.

Mr. JONES of North Carolina. Mr. Chairman, our legislation today combines material from four committees with suggestions from two others. The task of assembling these products resulted in a number of drafting efforts.

These amendments correct those errors. They are all technical, conforming, or noncontroversial. They have been cleared with the appropriate committee leaders.

Mr. ANDERSON. Mr. Chairman, I am pleased to support the gentleman's amendment. The amendment would make several technical corrections to the text of the bill which are noncontroversial and have been agreed to by all sides. The amendment would also make some minor substantive changes to the text. Included in the substantive provisions are protection of public entities from liability who transfer possession and right to use an offshore facility to another party, a provision allowing States and political subdivisions to recover for net costs of providing increased or additional public services during or after an oilspill, and a provision to protect railroads acting as common carriers when they cannot refuse to carry cargo and a spill occurs through no fault of their own.

These amendments are agreeable to the leadership of our committee, both Democratic and Republican, and I urge my colleagues to support them.

Mr. DAVIS. Mr. Chairman, I rise in support of the technical, conforming, and noncontroversial set of amendments offered by the gentleman from North Carolina [Mr. JONES].

Mr. Chairman, I ask unanimous consent to include as part of these technical amendments the text of an amendment I have at the desk. This amendment conforms the penalty sections of section 9308 of title 46, United States Code, dealing with Great Lakes pilotage, to other penalty sections in title 46.

The CHAIRMAN. Is there objection to the request of the gentleman from Michigan?

Mr. JONES of North Carolina. Mr. Chairman, reserving the right to object, we have no objection to including the amendment of the gentleman from Michigan [Mr. DAVIS] as part of our technical amendments.

Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN. Is there objection to the request of the gentleman from Michigan?

There was no objection.

AMENDMENT OFFERED BY MR. DAVIS TO THE AMENDMENTS OFFERED BY MR. JONES OF NORTH CAROLINA

Mr. DAVIS. Mr. Chairman, I offer an amendment to the amendments.

The Clerk read as follows:

Amendment offered by Mr. DAVIS to the amendments offered by Mr. JONES of North Carolina: Page 4, strike "Page 80, line 20, strike '$25,000', and insert '$15,000'", and insert—

"Page 80, strike lines 19 through 22, and insert—

"(1) in subsection (a), by striking '$500' and inserting 'no more than $15,000'; and

"(2) in subsections (b) and (c), by striking '$500' and inserting 'no more than $10,000'.".

Mr. DAVIS. Mr. Chairman, I rise in support of the technical, conforming, and noncontroversial amendments offered by my chairman, Congressman JONES of North Carolina. Generally, these amendments make the bill internally consistent, correct references, make grammatical changes, and clarify the text in several aspects. In several instances, the amendment also improves the operation of the Oil Pollution Act.

My amendment to this technical amendment will conform the penalty sections of title 46 dealing with Great Lakes pilotage with other title 46 penalty sections. Specifically, it will authorize the imposition of a maximum penalty, rather than mandate a penalty amount. Because the penalties for navigation safety violations have been significantly increased across the board by the Oil Pollution Act, I believe it is fairer to grant some discretion to the Secretary of Transportation when enforcing navigation laws relating to oilspill prevention.

The technical amendments also clarify the present text of H.R. 3394 to ensure that Canadian-flag vessels can continue to use qualified crewmembers in lieu of registered pilots in undesignated waters. Although the original concept in H.R. 3394 of eliminating the Canadian Great Lakes "B" certificate (issued to officers serving as masters on foreign-flag vessels) in undesignated Great Lakes waters will remain intact, this amendment also acknowledges provisions of Canadian law that accept certificates of competency from officers of certain other commonwealth countries which have standards and qualifications equivalent to those under Canadian law. These certificates of competency are valid only for use on Canadian-flag vessels by officers employed on such vessels who are generally permanent residents or citizens of Canada.

This amendment also corrects some inadequacies in the legal regime for oilspills, as we have learned from our experience with the *Exxon Valdez* in Prince William Sound. First, it will extend a protection afforded certain government-owned onshore facilities in our bill to offshore facilities such as floating piers. The amendment also allows for the collection of monetary damages for the net costs of increased public services provided as a result of an oilspill. This provision will ensure that small communities inundated with oilspill removal workers will not suffer an economic loss because increased revenues from these workers did not offset the additional police or fire protection, solid waste disposal costs, or sewage treatment problems created by their presence.

The amendment also doubles the number of escort vessels required in Prince William Sound for tank vessels.

Finally, the amendment supports a defense to liability granted in other environmental laws, such as the Comprehensive Environmental Response, Compensation, and Liability Act, to railroads, who must transport oil as a common carrier and may not charge rates which reflect the actual risks of transporting oil.

I thank the Chairman for his support, and urge my colleagues to support the entire package of technical amendments.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Michigan [Mr. DAVIS] to the amendments offered by the gentleman from North Carolina [Mr. JONES].

The amendment to the amendments was agreed to.

□ 1240

Mr. DAVIS. Mr. Chairman, I thank the chairman for this support, and I urge my colleagues to support the entire package of technical amendments.

Mr. HAMMERSCHMIDT. Mr. Chairman, I move to strike the last word.

Mr. Chairman, we on the minority side of the Committee on Public Works and Transportation have looked over the technical amendments offered by the gentleman from North Carolina. We are in agreement with those amendments. We have no objection, of course, to the technical amendment offered by the gentleman from Michigan that was made part of the earlier amendments, because it is totally within their committee's jurisdiction.

We are in agreement with all the amendments that have been offered.

The CHAIRMAN. Is there any Member who wishes to be heard on the amendments offered by the gentleman from North Carolina [Mr. JONES]?

If not, the question is on the amendments offered by the gentleman from North Carolina [Mr. JONES], as amended.

The amendments, as amended, were agreed to.

The CHAIRMAN. The Clerk will designate title I.

The text of title I is as follows:

TITLE I—OIL POLLUTION LIABILITY AND COMPENSATION

SEC. 1001. DEFINITIONS.

For the purposes of this Act, the term—

(1) "act of God" means an unanticipated grave natural disaster or other natural phenomenon of an exceptional, inevitable, and irresistible character the effects of which

could not have been prevented or avoided by the exercise of due care or foresight;

(2) "claim" means a request, made in writing for a sum certain, for compensation for damages or removal costs resulting from an incident;

(3) "claimant" means any person who presents a claim for compensation under this Act;

(4) "damages" means damages for injury to, destruction of, or loss of natural resources and damages for economic loss specified in section 1002(b) of this Act, and includes the cost of assessing these damages;

(5) "discharge" means any emission (other than natural seepage), intentional or unintentional, and includes, but is not limited to, spilling, leaking, pumping, pouring, emitting, emptying, or dumping;

(6) "exclusive economic zone" means the zone established by Presidential Proclamation Numbered 5030, dated March 10, 1983;

(7) "facility" means any structure, group of structures, equipment, or device (other than a vessel) which is used for one or more of the following purposes: exploring for, drilling for, producing, storing, handling, transferring, processing, or transporting oil. Such term includes any motor vehicle, rolling stock, or pipeline used for one or more of these purposes;

(8) "foreign offshore unit" means a facility which is located, in whole or part, in the territorial sea of, or on or over the continental shelf of, a foreign country;

(9) "Fund" means the Oil Spill Liability Trust Fund, established by section 9509 of the Internal Revenue Code of 1986;

(10) "gross ton" means tonnage measured in accordance with the provisions of the International Convention on Tonnage Measurement of Ships, 1969;

(11) "guarantor" means any person, other than the responsible party, who provides evidence of financial responsibility for a responsible party under this Act;

(12) "incident" means any occurrence or series of occurrences having the same origin, involving one or more vessels, facilities, or any combination thereof, resulting in the discharge or substantial threat of discharge of oil;

(13) "Indian tribe" means any Indian tribe, band, nation, or other organized group or community, but not including any Alaska Native regional or village corporation, which is recognized as eligible for the special programs and services provided by the United States to Indians because of their status as Indians;

(14) "lessee" means a person holding a leasehold interest in an oil or gas lease on lands beneath navigable waters (as such term is defined in section 2(a) of the Submerged Lands Act (43 U.S.C. 1301(a)) or on submerged lands of the Outer Continental Shelf, granted or maintained under applicable State law or the Outer Continental Shelf Lands Act;

(15) "mobile offshore drilling unit" means a vessel (other than a self-elevating lift vessel) capable of use as an offshore facility;

(16) "national contingency plan" means the national contingency plan published under section 311(c) of the Federal Water Pollution Control Act (33 U.S.C. 1321(c)) or revised under section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (42 U.S.C. 9605);

(17) "natural resources" includes land, fish, wildlife, biota, air, water, ground water, drinking water supplies, and other such resources belonging to, managed by, held in trust by, appertaining to, or otherwise controlled by the United States (including the resources of the exclusive economic zone), any State or local government or Indian tribe, or any foreign government;

(18) "navigable waters" means the waters of the United States, including the territorial sea;

(19) "offshore facility" means—

(A) a facility (other than a self-elevating lift vessel) which is located, in whole or part, on lands beneath navigable waters (as the term is defined in section 2(a) of the Submerged Lands Act (43 U.S.C. 1301(a))) or on the outer Continental Shelf (as defined in section 2 of the Outer Continental Shelf Lands Act (43 U.S.C. 1331)); and

(B) a deepwater port licensed under the Deepwater Port Act of 1974 (33 U.S.C. 1501-1524);

(20) "oil" means petroleum, including crude oil or any fraction or residue therefrom;

(21) "onshore facility" means any facility (including motor vehicles and rolling stock) of any kind, any portion of which is located in, on, or under, any land within the United States other than submerged land;

(22) "owner" means any person holding title to, or in the absence of title any other indicia of ownership (whether by lease, permit, contract, license, or other form of agreement), of a vessel or facility or of oil carried in bulk as cargo on a vessel; except that the term does not include a person who, without participating in the management or operation of a vessel or facility or in the transportation of the oil, holds indicia of ownership primarily to protect a security interest therein;

(23) "person" means an individual, corporation, partnership, association, Federal agency, State, municipality, commission, or political subdivision of a State, or any interstate body;

(24) "permittee" means a person holding an authorization, license, or permit for geological exploration issued under section 11 of the Outer Continental Shelf Lands Act (43 U.S.C. 1340) or applicable State law;

(25) "public vessel" means a vessel owned or bareboat chartered and operated by the United States, or by a State or political subdivision thereof, or by a foreign nation, except when the vessel is engaged in commerce;

(26) "remove" or "removal" refers to removal of oil from water and shorelines or the taking of other actions (including containment, dispersal, disposal, or other response actions) which may be necessary to minimize or mitigate damage to the public health or welfare, including damage to fish, shellfish, wildlife, and public and private property, shorelines, and beaches;

(27) "removal costs" means costs of removal that are incurred after a discharge of oil has occurred, including all costs of completing removal and the costs to prevent, minimize, or mitigate oil pollution in any case in which there is a substantial threat of a discharge of oil, including costs incurred under subsections (c), (d), (e), and (l) of section 311 of the Federal Water Pollution Control Act, the Intervention on the High Seas Act, or section 18 of the Deepwater Port Act of 1974 (33 U.S.C. 1517);

(28) "responsible party" means the following:

(A) VESSELS.—In the case of a vessel, any person owning, operating, or chartering by demise, the vessel.

(B) FACILITIES.—In the case of a facility (including a pipeline but not including any other offshore facility), any person owning or operating the facility, except a Federal agency, State, municipality, commission, or political subdivision of a State, or any interstate body, that, as the owner of an onshore facility, transfers possession and right to use the property to another person by lease, assignment, or permit.

(C) OFFSHORE FACILITIES.—In the case of an offshore facility (other than a pipeline or a deepwater port licensed under the Deepwater Port Act of 1974), the lessee or permittee of the area in which the facility is located or the holder of a right of use and easement granted under applicable State law or the Outer Continental Shelf Lands Act for the area in which the facility is located (if the holder is a different person than the lessee or permittee).

(D) DEEPWATER PORTS.—In the case of a deepwater port licensed under the Deepwater Port Act of 1974, the licensee.

(E) ABANDONMENT.—In the case of an abandoned vessel, onshore facility, or offshore facility, the persons who would have been responsible parties immediately prior to the abandonment of the vessel or facility.

(29) "Secretary" means the Secretary of the Department in which the Coast Guard is operating;

(30) "tank vessel" means a vessel that is constructed or adapted to carry, or that carries, oil or hazardous material in bulk as cargo or cargo residue, and that—

(A) is a vessel of the United States;

(B) operates on the navigable waters of the United States; or

(C) transfers oil or hazardous material in a port or place subject to the jurisdiction of the United States;

(31) "territorial sea" means the belt of seas measured from the line of ordinary low water along that portion of the coast which is in direct contact with the open sea and the line marking the seaward limit of inland waters, and extending seaward a distance of 12 miles;

(32) "United States" and "State" mean the several States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, Guam, American Samoa, the United States Virgin Islands, the Commonwealth of the Northern Marianas, and any other territory or possession over which the United States has jurisdiction; and

(33) "vessel" has the meaning that term has in title 1, United States Code.

SEC. 1002. ELEMENTS OF LIABILITY.

(a) LIABILITY.—

(1) JOINT, SEVERAL, AND STRICT LIABILITY.—Notwithstanding another law and subject to the provisions of this Act, each responsible party for a vessel or a facility from which oil is discharged, or which poses the substantial threat of a discharge of oil, into or upon the navigable waters or adjoining shorelines or the exclusive economic zone is jointly, severally, and strictly liable for the removal costs and damages specified in subsection (b) that directly result from such incident.

(2) SECONDARY LIABILITY.—The owner of oil carried in bulk as cargo on a vessel shall be secondarily liable for removal costs and damages as provided in section 1004.

(b) COVERED REMOVAL COSTS AND DAMAGES.—

(1) REMOVAL COSTS.—The removal costs referred to in subsection (a)—

(A) are removal costs for removal actions taken by the United States, a State, or an Indian tribe which are not inconsistent with the national contingency plans; and

(B) are removal costs for removal actions taken by any other person which are consistent with the national contingency plan.

(2) DAMAGES.—The damages referred to in subsection (a) are the following:

(A) NATURAL RESOURCES.—Damages for injury to, destruction of, or loss of natural resources, including the reasonable costs of assessing the injury, destruction, or loss, which shall be recoverable by a United States trustee, a State trustee, an Indian tribe trustee, or a foreign trustee.

(B) REAL OR PERSONAL PROPERTY.—Damages for injury to, or economic losses resulting from destruction of, real or personal property, which shall be recoverable by a claimant who owns or leases that property.

(C) SUBSISTENCE USE.—Damages for loss of subsistence use of natural resources, which shall be recoverable by any claimant who so uses natural resources which have been injured, destroyed, or lost.

(D) REVENUES.—Damages equal to the loss of taxes, royalties, rents, fees, or net profit shares due to the injury, destruction, or loss of real property, personal property, or natural resources, which shall be recoverable by the Government of the United States, a State, or a political subdivision thereof.

(E) PROFITS AND EARNING CAPACITY.—Damages equal to the loss of profits or impairment of earning capacity due to the injury, destruction, or loss of real property, personal property, or natural resources, which shall be recoverable by any claimant.

(c) EXCLUDED DISCHARGES.—This Act does not apply to any discharge—

(1) permitted by a permit issued under Federal, State, or local law; or

(2) from a public vessel.

(d) LIABILITY OF THIRD PARTIES.—

(1) IN GENERAL.—

(A) Except as provided in subparagraph (B), in any case in which the responsible party establishes that a discharge and the resulting removal costs and damages were caused solely by an act or omission of one or more third parties described in section 1003(a)(2) (or solely by such an act or omission in combination with an act of God or an act of war), the third party or parties shall be treated as the responsible party or parties for purposes of determining liability under this Act.

(B) A third party is not liable for removal costs or damages, other than damages for personal injury or wrongful death, if the third party is retained or directed by the President under section 311(c)(1)(B)(i) or 311(c)(1)(B)(ii), respectively, of the Federal Water Pollution Control Act for a discharge of oil, unless the third party is grossly negligent or engages in willful misconduct.

(2) LIMITATION APPLIED.—

(A) OWNER OR OPERATOR OF VESSEL OR FACILITY.—If such third party or parties are the owner or operator of a vessel or facility which caused the incident, the liability of the third party or parties shall be subject to the limits provided in section 1004 as applied with respect to the vessel or facility.

(B) OTHER CASES.—In any other case, the liability of such third party or parties shall not exceed the limitation which would have been applicable to the responsible party of the vessel or facility from which the discharge actually occurred if the responsible party were liable.

SEC. 1003. DEFENSES TO LIABILITY.

(a) COMPLETE DEFENSES.—Except when the responsible party has failed or refused to report the incident as required by law and the responsible party knows or has reason to know of the incident, there is no liability for any person under section 1002 if it is established that the incident—

(1) resulted from an act of God, an act of war, hostilities, civil war, or insurrection; or

(2) was solely caused by an act or omission of one or more persons other than—

(A) a responsible party;

(B) an employee or agent of a responsible party; or

(C) one whose act or omission occurs in connection with a contractual relationship with a responsible party.

(b) DEFENSES AS TO PARTICULAR CLAIMANTS.—There is no liability under section 1002 to a claimant, to the extent that the incident is caused by the negligence of that claimant.

SEC. 1004. LIMITS ON LIABILITY.

(a) GENERAL RULE.—Except as otherwise provided in this subsection, the total of the liability of a responsible party under section 1002 and any removal costs incurred by, or on behalf of, the responsible party, with respect to each incident shall not exceed—

(1) for a tank vessel, the greater of—

(A) $1,200 per gross ton; or

(B)(i) in the case of a vessel greater than 3,000 gross tons, $10,000,000; or

(ii) in the case of a vessel of 3,000 gross tons or less, $2,000,000;

(2) for any other vessel, $600 per gross ton or $500,000, whichever is greater;

(3) for an offshore facility except a deepwater port, the total of all removal costs plus $75,000,000.

(4) for any other facility including a deepwater port, $350,000,000.

(b) DIVISION OF RESPONSIBILITY.—

(1) TANK VESSELS AND CARGO.—For the purpose of determining the responsible party and applying the limits of liability under subsection (a), the liability for a tank vessel shall be distributed as follows:

(A) OWNER OR OPERATOR.—Except as provided in subparagraph (B)—

(i) the owner or operator of a tank vessel shall be liable for the first 50 percent of the applicable amount of liability under subsection (a)(1); and

(ii) the owner of oil carried in bulk as cargo on the vessel is liable for the remainder of that amount of liability.

(B) CARGO OWNER LIMIT.—If the owner or operator of a tank vessel is not entitled to a limit of liability for an incident for a reason specified in subsection (c), the owner of oil carried in bulk as cargo on the vessel shall be liable for all amounts of liability not compensated by the owner or operator of the vessel, except that the liability of that cargo owner shall not exceed 50 percent of the applicable amount of liability under subsection (a).

(2) MODU DISCHARGES ON OR ABOVE THE WATER.—

(A) TREATED FIRST AS A TANK VESSEL.—For purposes of determining the responsible party and applying this Act, a mobile offshore drilling unit which is being used as an offshore facility is deemed to be a tank vessel with respect to the discharge, or the substantial threat of a discharge, of oil on or above the surface of the water, except as provided in subparagraph (B).

(B) TREATED AS A FACILITY FOR EXCESS LIABILITY.—To the extent that removal costs and damages from any incident described in subparagraph (A) exceed the amount for which a responsible party is liable (as that amount may be limited under subsection (a)(1)), the mobile offshore drilling unit is deemed to be an offshore facility. For purposes of applying subsection (a)(3), the amount specified in that subsection shall be reduced by the amount for which the responsible party is liable under subparagraph (A) of this paragraph.

(c) EXCEPTIONS.—

(1) PROXIMATE CAUSE.—Subsection (a) does not apply if the incident was proximately caused by—

(A) gross negligence or willful misconduct of; or

(B) the violation of an applicable Federal safety, construction, or operating regulation by,

the responsible party, or an agent or employee of the responsible party.

(2) FAILURE OR REFUSAL OF RESPONSIBLE PARTY.—Subsection (a) does not apply if the responsible party fails or refuses—

(A) to report the incident as required by law and the responsible party knows or has reason to know of the incident;

(B) to provide all reasonable cooperation and assistance requested by a responsible official in connection with removal activities; or

(C) without sufficient cause, to comply with an order issued under section 311(e) of the Federal Water Pollution Control Act.

(d) ADJUSTING LIMITS OF LIABILITY.—

(1) FACILITIES.—Subject to paragraph (2), the Secretary may establish by regulation, with respect to any class or category of onshore facility, a maximum limit of liability under this section of less than $350,000,000, but not less than $8,000,000, taking into account the size, storage capacity, oil throughput, proximity to sensitive areas, type of oil handled, history of discharges, and other factors relevant to risks posed by the class or category of facility.

(2) DEEPWATER PORTS AND ASSOCIATED VESSELS.—

(A) STUDY.—The Secretary shall conduct a study of the relative operational and environmental risks posed by the transportation of oil by vessel to deepwater ports (as defined in section 3 of the Deepwater Port Act of 1974 (33 U.S.C. 1502)) versus the transportation of oil by vessel to other ports. The study shall include a review and analysis of offshore lightering practices used in connection with that transportation, an analysis of the volume of oil transported by vessel using those practices, and an analysis of the frequency and volume of oil discharges which occur in connection with the use of those practices.

(B) REPORT.—Not later than 1 year after the date of the enactment of this Act, the Secretary shall submit to Congress a report on the results of the study conducted under this subparagraph.

(C) RULEMAKING PROCEEDING.—If the Secretary determines, based on the results of the study conducted under this paragraph, that the use of deepwater ports in connection with the transportation of oil by vessel results in a lower operational or environmental risk than the use of other ports, the Secretary shall initiate, not later than the 180th day following the date of submission of the report to Congress under subparagraph (B), a rulemaking proceeding to lower the limits of liability under this section for vessels transporting oil to deepwater ports and for deepwater ports as the Secretary determines appropriate. With respect to deepwater ports, the Secretary may establish a maximum limit of liability of less than $350,000,000, but not less than $50,000,000, in accordance with paragraph (1).

(3) PERIODIC REPORTS.—The Secretary shall, within six months of the enactment of this Act, and from time to time thereaf-

ter, report to Congress on the desirability of adjusting the limits of liability specified in subsection (a) of this section.

SEC. 1005. INTEREST.

(a) GENERAL RULE.—The responsible party or his or her guarantor is liable to a claimant for interest on the amount paid in satisfaction of a claim under this Act for the period described in subsection (b).

(b) PERIOD.—

(1) IN GENERAL.—Except as provided in paragraph (2), the period for which interest shall be paid is the period beginning on the 30th day following the date on which the claim is presented to the responsible party or guarantor and ending on the date on which the claim is paid.

(2) EXCLUSION OF PERIOD DUE TO OFFER BY GUARANTOR.—If the guarantor offers to the claimant an amount equal to or greater than that finally paid in satisfaction of the claim, the period described in paragraph (1) does not include the period beginning on the date the offer is made and ending on the date the offer is accepted. If the offer is made within 60 days after the date upon which the claim is presented under section 1013(a), the period described in paragraph (1) does not include any period before the offer is accepted.

(3) EXCLUSION OF PERIODS IN INTEREST OF JUSTICE.—If in any period a claimant is not paid due to reasons beyond the control of the responsible party or because it would not serve the interest of justice, no interest shall accrue under this section during that period.

(4) CALCULATION OF INTEREST.—The interest paid under this section shall be calculated at the average of the highest rate for commercial and finance company paper of maturities of 180 days or less obtaining on each of the days included within the period for which interest must be paid to the claimant, as published in the Federal Reserve Bulletin.

(5) INTEREST NOT SUBJECT TO LIABILITY LIMITS.—Interest under this paragraph is in addition to damages for which claims may be asserted under section 1002 and shall be paid without regard to any limitation of liability under section 1004. The payment of interest under this subsection by a guarantor is subject to section 1016(g).

SEC. 1006. NATURAL RESOURCES.

(a) LIABILITY.—In the case of an injury to, destruction of, or loss of natural resources under this section, liability shall be—

(1) to the United States Government for natural resources belonging to, managed by, controlled by, or appertaining to the United States,

(2) to any State for natural resources within the State or belonging to, managed by, controlled by, or appertaining to such State,

(3) to any Indian tribe for natural resources belonging to, managed by, controlled by, or appertaining to such Indian tribe, and

(4) in any case in which section 1007 applies, to the government of a foreign country for natural resources belonging to, managed by, controlled by, or appertaining to such country.

(b) DESIGNATION OF TRUSTEES.—

(1) IN GENERAL.—The President, or the authorized representative of any State, Indian tribe, or foreign government, shall act on behalf of the public, Indian tribe, or foreign country as trustee of the natural resources to present a claim for and to recover damages to the natural resources.

(2) FEDERAL TRUSTEES.—The President shall designate the Federal officials who shall act on behalf of the public as trustees for natural resources under this Act.

(3) STATE TRUSTEES.—The Governor of each State shall designate State and local officials who may act on behalf of the public as trustee for natural resources under this Act and shall notify the President of the designation.

(4) INDIAN TRIBE TRUSTEES.—The governing body of any Indian tribe shall designate tribal officials who may act on behalf of the tribe or its members as trustee for natural resources under this Act and shall notify the President of the designation.

(5) FOREIGN TRUSTEES.—The head of any foreign government may designate the trustee who shall act on behalf of that government as trustee for natural resources under this Act.

(c) FUNCTIONS OF TRUSTEES.—

(1) FEDERAL TRUSTEES.—The officials designated under subsection (b)(2)—

(A) shall assess damages for injury to, destruction of, or loss of natural resources for purposes of this Act for the natural resources under their trusteeship;

(B) may, upon request of and reimbursement from a State or Indian tribe and at the Federal officials' discretion, assess damages for the natural resources under the State's or tribe's trusteeship; and

(C) shall develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent, of the natural resources under their trusteeship.

(2) STATE TRUSTEES.—The officials designated under subsection (b)(3)—

(A) shall assess damages to natural resources for the purposes of this Act for the natural resources under their trusteeship; and

(B) shall develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent, of the natural resources under their trusteeship.

(3) INDIAN TRIBE TRUSTEES.—The officials designated under subsection (b)(4)—

(A) shall assess damages to natural resources for the purposes of this Act for the natural resources under their trusteeship; and

(B) shall develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent, of the natural resources under their trusteeship.

(4) FOREIGN TRUSTEES.—The officials designated under subsection (b)(5)—

(A) shall assess damages to natural resources for the purposes of this Act for the natural resources under their trusteeship; and

(B) shall develop and implement a plan for the restoration, rehabilitation, replacement, or acquisition of the equivalent, of the natural resources under their trusteeship.

(5) NOTICE AND OPPORTUNITY TO BE HEARD.—Plans shall be developed and implemented under this section only after adequate public notice, opportunity for a hearing, and consideration of all public comment.

(d) MEASURE OF DAMAGES.—

(1) IN GENERAL.—The measure of damages in any action under this section for injury to, destruction of, or loss of natural resources is—

(A) the cost of restoring, rehabilitating, replacing, or acquiring the equivalent of, the damaged natural resources; plus

(B) the diminution in value of those natural resources pending restoration.

(2) DETERMINE COSTS WITH RESPECT TO PLANS.—Costs shall be determined under paragraph (1) with respect to plans adopted under subsection (c).

(3) NO DOUBLE RECOVERY.—There shall be no double recovery under this Act for natural resource damages, including the costs of damage assessment or restoration, rehabilitation, replacement, or acquisition for the same incident and natural resource.

(e) DAMAGE ASSESSMENT REGULATIONS.—

(1) REGULATIONS.—Not later than 2 years after the date of enactment of this Act, the President shall promulgate regulations, consistent with subsection (d)(1), for the assessment of damages to natural resources arising out of an incident.

(2) REBUTTABLE PRESUMPTION.—Any determination or assessment of damages to natural resources for the purposes of this Act made under subsection (d) by a Federal, State, or Indian trustee in accordance with the regulations promulgated under paragraph (1) shall have the force and effect of a rebuttable presumption on behalf of the trustee in any administrative or judicial proceeding under this Act.

(f) USE OF RECOVERED SUMS.—Sums recovered under this Act by a Federal, State, Indian, or foreign trustee for damages to natural resources shall be retained by the trustee, without further appropriation, for use only to reimburse or pay costs incurred by the trustee under subsection (c) with respect to the damaged natural resources. Any amounts in excess of those required for these reimbursements and costs shall be deposited in the Fund.

(g) CIVIL PENALTY.—

(1) IN GENERAL.—Any responsible party liable under this section for damages resulting from a discharge of oil shall be subject to a civil penalty not to exceed the greater of $1,000,000 or ½ of the responsible party's liability under section 1002 if the discharge results in damages to natural resources which cannot be restored, rehabilitated, or replaced, and for which no equivalent can be acquired.

(2) ASSESSMENT, SETTLEMENT, AND COLLECTION.—The President or authorized representative of a State or Indian tribe, acting under this section as trustee, may request the Attorney General to bring an action in court to recover a civil penalty under this subsection. In determining the amount of a civil penalty under this subsection, the court shall consider the nature and extent of the damages to natural resources, the value of the natural resources, the degree of culpability of the person held liable for the discharge, and the nature and extent of efforts taken by the person to prevent and mitigate damages to natural resources and to restore damaged natural resources.

(3) SEPARATE LIABILITY.—Except as provided in section 3002, any liability for a civil penalty under this subsection shall be separate from and in addition to any liability for a discharge of oil under this section.

(4) DEPOSIT INTO FUND.—Sums received under this subsection shall be deposited in the Fund. Sums so deposited shall be available, without appropriation, for use by the relevant trustee, for the general enhancement of the ecosystem of which the destroyed natural resources were a part for restoring and maintaining the chemical, physical, and biological integrity of the ecosystem.

SEC. 1007. RECOVERY BY FOREIGN CLAIMANTS.

(a) IN GENERAL.—A foreign claimant may only recover removal costs and damages under this Act in accordance with this section.

(b) COVERED DISCHARGES.—A foreign claimant may recover only if the discharge of oil was from—

(1) a facility;

(2) a vessel in the navigable waters; or

(3) a tank vessel carrying oil originally received at the terminal of the pipeline constructed under the Trans-Alaska Pipeline Authorization Act for transportation to a port in the United States, the incident having occurred prior to delivery to that port;

and resulted in the presence of oil in or on the territorial sea, internal waters, or adjacent shoreline of a foreign country.

(c) REQUIREMENTS.—A foreign claimant may only recover if—

(1) the claimant first seeks compensation under title III;

(2) the claimant has not been otherwise compensated for the removal costs or damages; and

(3) recovery is authorized by a treaty or executive agreement between the United States and the claimant's country, or the Secretary of State, in consultation with the Attorney General and other appropriate officials, has certified that the claimant's country provides a comparable remedy for United States claimants.

(d) EXCEPTION FOR CANADIAN CLAIMANTS RESPECTING TRANS-ALASKA PIPELINE OIL.—Subsection (c)(3) shall not apply with respect to recovery by a resident of Canada in the case of an incident described in subsection (b)(3).

(e) DEFINITION OF FOREIGN CLAIMANT.—For purposes of this section, the term "foreign claimant" means any person residing in a foreign country, the government of a foreign country (including a foreign trustee), or any agency or political subdivision thereof.

SEC. 1008. RECOVERY BY RESPONSIBLE PARTY OR CARGO OWNER.

(a) IN GENERAL.—The responsible party for a vessel or facility from which oil is discharged, or which posed the substantial threat of a discharge of oil, and the owner of oil carried in bulk as cargo on a vessel, may assert a claim for removal costs and damages under section 1002 only if the responsible party or the owner of the oil can show that—

(1) the responsible party is entitled to a defense to liability under section 1003; or

(2) the responsible party or the owner of the oil is entitled to a limitation of liability under section 1004.

(b) EXTENT OF RECOVERY.—A responsible party or owner of oil who is entitled to a limitation of liability may assert a claim under section 1002 only to the extent that the sum of the removal costs and damages incurred by the responsible party or the owner of oil plus the amounts paid by the responsible party or the owner, or by the guarantor on behalf of the responsible party or the owner for claims asserted under section 1002 exceeds the amount to which the total of the liability under section 1002 and removal costs and damages incurred by, or on behalf of, the responsible party or the owner of oil is limited under section 1004.

SEC. 1009. CONTRIBUTION.

A person may bring an action for contribution against any other person who is liable or potentially liable under this Act. Such an action shall be brought in accordance with section 1013.

SEC. 1010. INDEMNIFICATION AGREEMENTS.

(a) AGREEMENTS NOT PROHIBITED.—Nothing in this Act shall prohibit any agreement to insure, hold harmless, or indemnify a party to such agreement for any liability under this Act.

(b) LIABILITY NOT TRANSFERRED.—No indemnification, hold harmless, or similar agreement or conveyance shall be effective to transfer the liability imposed under this Act from a responsible party or from any person who may be liable for an incident under this Act to any other person.

(c) RELATIONSHIP TO OTHER CAUSES OF ACTION.—Nothing in this Act, including the provisions of subsection (b), shall bar a cause of action that a responsible party subject to liability under this Act, or a guarantor, has or would have, by reason of subrogation or otherwise, against any person.

SEC. 1011. CONSULTATION ON REMOVAL ACTIONS.

The Secretary shall consult with the affected trustees designated under section 1006 on the appropriate removal action to be taken in connection with any discharge of oil. Removal with respect to any discharge shall be considered completed when so determined by the Secretary in consultation with the Governor or Governors of the affected State or States.

SEC. 1012. USES OF THE FUND.

(a) USES GENERALLY.—The Fund shall be directly available to the President for—

(1) the payment of removal costs, and the costs of monitoring removal actions, incurred by Federal authorities;

(2) the costs incurred by Federal, State, or Indian tribe trustees in carrying out their functions under section 1006 for assessing damages to natural resources and for developing and implementing plans for the restoration, rehabilitation, replacement, or acquisition of the equivalent of damaged resources;

(3) the payment of obligations under subsection (d) of this section;

(4) the payment of removal costs and damages resulting from the discharge, or substantial threat of discharge, of oil from a foreign offshore unit;

(5) the payment of administrative, personnel, and enforcement costs and expenses—

(A) reasonably necessary for and incidental to the implementation, administration, and enforcement of this Act, including sections 1004(d)(2), 1006(e), 4107, 4110, 4111, 4112, 5009, and title VII of this Act;

(B) reasonably necessary for international activities related to the purposes of this Act;

(C) reasonably necessary for and incidental to the implementation, administration, and enforcement of section 311(c) of the Federal Water Pollution Control Act (33 U.S.C. 1321(c)); and

(D) reasonably necessary for Federal expenses under section 311(j) of the Federal Water Pollution Control Act (33 U.S.C. 1321(j));

(6) the payment of contributions to the International Fund under title III of this Act; and

(7) all otherwise uncompensated removal costs or damages in accordance with section 1013 of this Act.

(b) DEFENSES TO LIABILITY FOR THE FUND.—The Fund shall not be available to pay any claim for removal costs or damages to a particular claimant, to the extent that the incident or economic loss is caused by the negligence of that claimant.

(c) FEDERAL AND STATE OFFICIALS WHO MAY OBLIGATE FROM THE FUND.—The President may promulgate regulations designating one or more Federal officials who may obligate money in the Fund in accordance with subsection (a) of this section. The President shall designate the Commandant of the Coast Guard to be a Federal official who may obligate money in the Fund in accordance with subsection (a). The President also may delegate authority to obligate money in the Fund or to settle claims to officials of a State with an adequate program operating under a cooperative agreement with the Federal Government.

(d) OBLIGATION OF THE FUND BY STATE OFFICIALS.—

(1) AUTHORITY.—In accordance with regulations promulgated under this subsection, the Governor of each State, or any appropriate State official designated by the Governor, may obligate the Fund for payment in an amount not to exceed $250,000 for removal costs not inconsistent with the national contingency plan required for the immediate removal of a discharge, or threat of a discharge, of oil.

(2) NOTIFICATION.—A Governor or designee exercising the authority granted by this subsection shall notify the Secretary within 24 hours of any obligation of a payment from the Fund.

(3) REGULATIONS.—The President shall—

(A) not later than 6 months after the date of the enactment of this Act, publish proposed regulations detailing the manner in which the authority to obligate the Fund and to enter into agreements under this subsection shall be exercised; and,

(B) not later than 3 months after the close of the comment period for such proposed regulations, promulgate final regulations for that purpose.

(e) RIGHTS OF SUBROGATION.—Payment of any claim or obligation by the Fund under this Act shall be subject to the United States Government acquiring by subrogation of all rights of the claimant or State to recover from the responsible party.

(f) AUDIT.—The Comptroller General shall audit all payments, obligations, reimbursements, and other uses of the Fund, to assure that the Fund is being properly administered and that claims are being appropriately and expeditiously considered. The Comptroller General shall submit to Congress an interim report one year after the date of enactment of this Act. The Comptroller General shall thereafter audit the Fund as is appropriate. Each Federal agency shall cooperate with the Comptroller General in carrying out this subsection.

(g) PERIOD OF LIMITATIONS FOR CLAIMS.—

(1) REMOVAL COSTS.—No claim may be presented under this section for recovery of removal costs unless the claim is presented within three years after the date of completion of all removal action.

(2) DAMAGES.—No claim may be presented under this section for recovery of damages unless the claim is presented within three years after the date on which the loss and its connection with the discharge in question were reasonably discoverable with the exercise of due care, or in the case of damages under section 1002(b)(2)(A), if later, the date on which final regulations are promulgated under section 1006(e).

(h) LIMITATION ON PAYMENT FOR SAME COSTS.—In any case in which the President has paid an amount from the Fund for any removal costs or damages specified under subsection (a), no other claim may be paid from the Fund for the same removal costs or damages.

(i) OBLIGATION IN ACCORDANCE WITH PLAN.—

(1) IN GENERAL.—Except as provided in paragraph (2), amounts may be obligated from the Fund for the restoration, rehabilitation, or replacement, or acquisition of natural resources only in accordance with a plan adopted under section 1006(c).

(2) EXCEPTION.—Paragraph (1) shall not apply in a situation requiring action to avoid irreversible loss of natural resources or to prevent or reduce any continuing danger to natural resources or similar need for emergency action.

SEC. 1013. CLAIMS PROCEDURE.

(a) PRESENTATION.—Except as provided in subsection (b)—

(1) all claims for removal costs or damages shall be presented first to the responsible party or guarantor of the source designated under section 1014(a); and

(2) where appropriate, to the owner of oil carried in bulk as cargo on a vessel.

(b) PRESENTATION TO FUND.—Claims for removal costs or damages may be presented first to the Fund—

(1) where the Secretary has advertised or otherwise notified claimants in accordance with section 1014(c);

(2) by a responsible party who may assert a claim under section 1008;

(3) by the Governor of a State for removal costs incurred by that State; or

(4) by a United States claimant in a case where a foreign offshore unit has discharged oil causing damage for which the Fund is liable under section 1012(a).

(c) ELECTION.—If a claim is presented in accordance with subsection (a) and—

(1) each person to whom the claim is presented denies all liability for the claim, or

(2) the claim is not settled by any person by payment within 90 days after the date upon which (A) the claim was presented, or (B) advertising was begun pursuant to section 1014(b), whichever is later,

the claimant may elect to commence an action in court against the responsible party or guarantor or to present the claim to the Fund.

(d) UNCOMPENSATED DAMAGES.—If a claim is presented in accordance with this section and full and adequate compensation is unavailable, a claim for the uncompensated damages and removal costs may be presented to the Fund.

(e) PROCEDURE FOR CLAIMS AGAINST THE FUND.—The President shall promulgate, and may from time to time amend, regulations for the presentation, filing, processing, settlement, and adjudication of claims under this Act against the Fund.

SEC. 1014. DESIGNATION AND ADVERTISEMENT.

(a) DESIGNATION OF SOURCE AND NOTIFICATION.—When the Secretary receives information of an incident, the Secretary shall, where possible and appropriate, designate the source or sources of the discharge. If a designated source is a vessel or a facility, the Secretary shall immediately notify the responsible party and the guarantor, if known, of that designation.

(b) ADVERTISEMENT BY THE RESPONSIBLE PARTY OR GUARANTOR.—If a responsible party or guarantor fails to inform the Secretary, within 5 days after receiving notification of a designation under subsection (a), of his or her denial of the designation, such party or guarantor shall advertise the designation and the procedures by which claims may be presented, in accordance with regulations promulgated by the Secretary. Advertisement under the preceding sentence shall begin no later than 15 days after the date of the designation made under subsection (a). If advertisement is not otherwise made in accordance with this subsection, the Secretary shall promptly and at the expense of the responsible party or the guarantor involved, advertise the designation and the procedures by which claims may be presented to the responsible party or guarantor. Advertisement under this subsection shall continue for a period of no less than 30 days.

(c) ADVERTISEMENT BY THE SECRETARY.—If—

(1) the responsible party and the guarantor both deny a designation within five days after receiving notification of a designation under subsection (a),

(2) the source of the oil pollution was a public vessel, or

(3) the Secretary is unable to designate the source or sources of the oil pollution under subsection (a),

the Secretary shall advertise or otherwise notify potential claimants of the procedures by which claims may be presented to the Fund.

SEC. 1015. SUBROGATION.

(a) IN GENERAL.—Any person, including the Fund, who pays compensation pursuant to this Act to any claimant for removal costs or damages shall be subrogated to all rights, claims, and causes of action that the claimant has under this Act.

(b) ACTIONS ON BEHALF OF THE FUND.—At the request of the Secretary, the Attorney General shall commence an action on behalf of the Fund to recover any compensation paid by the Fund to any claimant pursuant to this Act, and all costs incurred by the Fund by reason of the claim, including interest (including prejudgment interest), administrative and adjudicative costs, and attorney's fees. Such an action may be commenced against any responsible party or (subject to section 1016) guarantor, or against any other person who is liable, pursuant to any law, to the compensated claimant or to the Fund, for the cost or damages for which the compensation was paid. Such an action shall be commenced against the responsible foreign government or other responsible party to recover any removal costs or damages paid from the Fund as the result of the discharge, or substantial threat of discharge, of oil from a foreign offshore unit.

SEC. 1016. FINANCIAL RESPONSIBILITY.

(a) VESSELS.—

(1) REQUIREMENT.—The responsible party for—

(A) any vessel over 300 gross tons (except a non-self-propelled vessel that does not carry oil as cargo or fuel) using any port or place in the United States or the navigable waters; or

(B) any vessel using the waters of the exclusive economic zone to transship or lighter oil destined for a port or place subject to the jurisdiction of the United States;

shall establish and maintain, in accordance with regulations promulgated by the Secretary, evidence of financial responsibility sufficient to meet the maximum amount of liability to which, in the case of a tank vessel, the responsible party could be subjected under section 1004(a)(1) or (d) of this Act, or to which, in the case of any other vessel, the responsible party could be subjected under section 1004(a)(2) or (d) of this Act, in a case where the responsible party would be entitled to limit liability under that section. If the responsible party owns or operates more than one vessel, evidence of financial responsibility need be established only to meet the maximum liability applicable to the largest of such vessels.

(b) CARGO.—An owner of oil carried in bulk as cargo on a vessel shall establish and maintain, in accordance with regulations promulgated by the Secretary, evidence of financial responsibility sufficient to meet the maximum amount of liability of that owner under section 1004(b)(1)(B).

(c) SANCTIONS.—

(1) WITHHOLDING CLEARANCE.—The Secretary of the Treasury shall withhold or revoke the clearance required by section 4197 of the Revised Statutes of the United States of any vessel subject to this subsection that does not have the evidence of financial responsibility required for the vessel and the oil carried in bulk as cargo on the vessel under this section.

(2) DENYING ENTRY TO OR DETAINING VESSELS.—The Secretary may (A) deny entry to any offshore facility or any port or place in the United States, or to the navigable waters, or (B) detain at such a facility or port or place, any vessel that, upon request, does not produce the evidence of financial responsibility required for the vessel and the oil carried in bulk as cargo on the vessel under this section or the regulations issued under this section.

(3) SEIZURE OF VESSEL AND OIL.—Any vessel and any oil carried in bulk as cargo on the vessel subject to the requirements of this section which is found in the navigable waters without the necessary evidence of financial responsibility for the vessel and the oil carried in bulk as cargo on a vessel shall be subject to seizure by the United States.

(d) OFFSHORE FACILITIES.—

(1) IN GENERAL.—Except as provided in paragraph (2), each responsible party with respect to an offshore facility shall establish and maintain evidence of financial responsibility of $150,000,000 to meet the amount of liability to which the responsible party could be subjected under section 1004(a) in a case in which the responsible party would be entitled to limit liability under that section. In cases where a person is the responsible party for more than one facility subject to this subsection, evidence of financial responsibility need be established only to meet the maximum amount of liability applicable to the largest of those facilities.

(2) DEEPWATER PORTS.—Each responsible party with respect to a deepwater port shall establish and maintain evidence of financial responsibility sufficient to meet the maximum amount of liability to which the responsible party could be subjected under section 1004(a) of this Act in a case where the responsible party would be entitled to limit liability under that section. If the Secretary exercises the authority under section 1004(d) to lower the limit of liability for deepwater ports, the responsible party shall establish and maintain evidence of financial responsibility sufficient to meet the maximum amount of liability so established. In a case in which a person is the responsible party for more than one deepwater port, evidence of financial responsibility need be established only to meet the maximum liability applicable to the deepwater port having the greatest maximum liability.

(e) METHODS OF FINANCIAL RESPONSIBILITY.—Financial responsibility under this section may be established by any one, or by any combination, of the following methods which the Secretary determines to be acceptable: evidence of insurance, surety bond, guarantee, letter of credit, qualifica-

tion as a self-insurer, or other evidence of financial responsibility. Any bond filed shall be issued by a bonding company authorized to do business in the United States. In promulgating requirements under this section, the Secretary may specify policy or other contractual terms, conditions, or defenses which are necessary, or which are unacceptable, in establishing evidence of financial responsibility to effectuate the purposes of this Act.

(f) CLAIMS AGAINST GUARANTOR.—Any claim for which liability may be established under section 1002 of this Act may be asserted directly against any guarantor providing evidence of financial responsibility for a responsible party liable under that section for removal costs and damages to which the claim pertains. In defending against such a claim, the guarantor may invoke (1) all rights and defenses which would be available to the responsible party under this Act, (2) any defense authorized by the Secretary in requirements promulgated by the Secretary under this section, and (3) the defense that the incident was caused by the willful misconduct of the responsible party. The guarantor may not invoke any other defense that might be available in proceedings brought by the responsible party against the guarantor.

(g) LIMITATION ON GUARANTOR'S LIABILITY.—Nothing in this Act shall impose liability with respect to an incident on any guarantor for damages or removal costs which exceed, in the aggregate, the amount of financial responsibility required under this Act which that guarantor has provided for a responsible party or the owner of oil carried in bulk as cargo on a vessel.

(h) CIVIL PENALTY.—

(1) IN GENERAL.—Any person who, after notice and an opportunity for a hearing, is found to have failed to comply with the requirements of this section or the regulations issued under this section, or with a denial or detention order issued under subsection (c)(2) of this section, shall be liable to the United States for a civil penalty, not to exceed $25,000 per day of violation. The amount of the civil penalty shall be assessed by the Secretary by written notice. In determining the amount of the penalty, the Secretary shall take into account the nature, circumstances, extent, and gravity of the violation, the degree of culpability, any history of prior violation, ability to pay, and such other matters as justice may require. The Secretary may compromise, modify, or remit, with or without conditions, any civil penalty which is subject to imposition or which has been imposed under this paragraph. If any person fails to pay an assessed civil penalty after it has become final, the Secretary may refer the matter to the Attorney General for collection.

(2) JUDICIAL RELIEF.—In addition to, or in lieu of, assessing a penalty under paragraph (1) of this subsection, the Secretary may request the Attorney General to secure such relief as necessary to compel compliance with this section, including, but not limited to, a judicial order terminating operations. The district courts of the United States shall have jurisdiction to grant any relief as the public interest and the equities of the case may require.

(i) CONTINUATION OF REGULATIONS.—Any regulation respecting financial responsibility, which has been issued pursuant to any provision of law repealed or superseded by this Act, and which is in effect on the date immediately preceding the effective date of this Act, shall be deemed and construed to be a regulation issued pursuant to this section. Such a regulation shall remain in full force and effect unless and until superseded by new regulations issued under this section.

(j) UNIFIED CERTIFICATE.—The Secretary may issue a single unified certificate of financial responsibility for purposes of this Act and any other law.

SEC. 1017. LITIGATION, JURISDICTION, AND VENUE.

(a) REVIEW OF REGULATIONS.—Review of any regulation promulgated under this Act may be had upon application by any interested person only in the Circuit Court of Appeals of the United States for the District of Columbia. Any application shall be made within 90 days from the date of promulgation of the regulations.

(b) JURISDICTION.—Except as provided in subsection (a) of this section, the United States district courts shall have original and exclusive jurisdiction over all causes of action arising under this Act (which shall be deemed to include actions under the International Convention on Civil Liability for Oil Pollution Damages, 1984, and the International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage, 1984), without regard to the citizenship of the parties or the amount in controversy.

(c) VENUE.—Venue shall lie in any district in which the incident, injury, or damages occurred, or in which the defendant resides, may be found, has its principal office, or has appointed an agent for services of process. For the purposes of this section, the Fund and the International Fund established under article 2 of the International Convention on the Establishment of an International Fund for Compensation for Oil Pollution Damage, 1984, shall reside in the District of Columbia.

(d) SAVINGS PROVISION.—Nothing in this Act shall affect any action commenced before the date of enactment of this Act.

(e) PERIOD OF LIMITATIONS.—

(1) DAMAGES.—Except as provided in paragraphs (3) and (4), an action for damages under this Act shall be barred unless the action is brought within 3 years after—

(A) the date on which the loss and the connection of the loss with the discharge in question are reasonably discoverable with the exercise of due care, or

(B) in the case of damages described in section 1002(b)(2)(A), the date on which regulations are issued under section 1006(e), if that date is later than the date referred to in subparagraph (A).

(2) REMOVAL COSTS.—Except as provided in paragraphs (3) and (4), an action for recovery of removal costs under this Act shall be barred unless the action is brought within 3 years after completion of the removal. An action may be commenced under section 1002 for recovery of removal costs at any time after such costs have been incurred.

(3) ACTIONS FOR CONTRIBUTION.—An action for contribution for any removal costs or damages shall be barred unless the action is brought within 3 years after—

(A) the date of judgment in any action under this Act for recovery of the removal costs or damages, or

(B) the date of entry of a judicially approved settlement with respect to the removal costs or damages.

(4) SUBROGATION.—An action based on rights subrogated pursuant to this Act by reason of payment of a claim may not be commenced under this Act unless that action is commenced within 3 years after the date of payment of that claim.

SEC. 1018. RELATIONSHIP TO OTHER LAW.

(a) PREEMPTION.—

(1) ACTIONS PREEMPTED.—Except as provided in this Act and the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.), no action arising out of a discharge of oil, or a substantial threat of a discharge of oil, from a vessel or facility into or upon the navigable waters or adjoining shorelines or the exclusive economic zone (other than an action for personal injury or wrongful death), may be brought in any court of the United States or of any State or political subdivision thereof.

(2) STATE FUNDS AND ACCOUNTS.—Nothing in this Act or in sections 4611 and 9509 of the Internal Revenue Code of 1986 shall affect the authority of any State (A) to establish or continue in effect an oil spill fund or account; or (B) to require any person to contribute to that fund or account.

(b) NO PREEMPTION OF PENALTIES.—Nothing in this Act or section 9509 of the Internal Revenue Code of 1986 shall affect the authority of the United States or any State or political subdivision thereof to impose, or to determine the amount of, any fine or penalty for any violation of law relating to an incident.

(c) LIMITATION OF LIABILITY ACT.—The Act of March 3, 1851, shall not apply to removal costs and damages that directly result from an incident involving the discharge or substantial threat of discharge of oil.

SEC. 1019. STATE FINANCIAL RESPONSIBILITY.

Except as provided in this Act, a responsible party or an owner of oil carried in bulk as cargo on a vessel who establishes and maintains evidence of financial responsibility in accordance with this title shall not be required under any State or local law, rule, or regulation to establish or maintain any other evidence of financial responsibility in connection with liability for the discharge, or substantial threat of a discharge, of oil. Evidence of compliance with the financial responsibility requirements of this Act shall be accepted by a State in lieu of any other requirement of financial responsibility imposed by that State in connection with liability for the discharge of oil. A State may enforce, on the navigable waters of the State, the requirements for evidence of financial responsibility imposed under section 1016 of this Act.

SEC. 1020. EFFECTIVE DATE.

(a) IN GENERAL.—Except as provided in subsection (b), this Act shall apply with respect to an incident occurring after the date of the enactment of this Act.

(b) PAYMENTS FROM FUND.—Payments under section 1012(a) may not be made before the commencement date (as that term is defined in section 4611(f)(2) of the Internal Revenue Code of 1986).

The CHAIRMAN. Are there amendments to title I?

AMENDMENTS EN BLOC OFFERED BY MR. MILLER OF CALIFORNIA

Mr. MILLER of California. Mr. Chairman, I offer amendments en bloc.

The Clerk read as follows:

Amendments en bloc offered by Mr. MILLER of California:

(a) LIABILITY LAWS.—Section 1018(a) is amended to read as follows:

"(a) PRESERVATION OF STATE AUTHORITIES.—

(1) Notwithstanding any other provision, nothing in this Act or the Act of March 3, 1851 shall—

(A) be construed or interpreted as preempting any state or political subdivision thereof from imposing any additional liability or requirements with respect to the discharge of oil or other pollution by oil within such state; or

(B) affect or modify in any way the obligations or liabilities of any person under the Solid Waste Disposal Act (42 U.S.C. 6901 et seq.) or state law, including common law.

(2) Nothing in this Act or in sections 4611 or 9509 of the Internal Revenue Code of 1986 shall affect or be construed to affect the authority of any state or political subdivision thereof—

(A) to establish or to continue in effect a fund any purpose of which is to pay for costs or damages arising out of, or directly resulting from, oil pollution or the substantial threat of oil pollution; or

(B) to require any person to contribute to such a fund."

(b) FINANCIAL RESPONSIBILITY.—Section 1019 is amended by striking out the first two sentences thereof.

(c) STATE COURTS.—Section 1017(b) is amended by striking from the first sentence thereof the term "and exclusive".

(d) REMOVAL STANDARDS.—(1) Section 1002(b)(1) (A) and (B) are amended by inserting after "with the national contingency plan" the following: "and applicable state law."

(2) Section 1011 is amended by striking "in consultation with the Governor or Governors of the affected State or States" and inserting in lieu thereof the following: "and the Governor or Governors of the affected State or States, in accordance with the national contingency plan and applicable State laws.".

The CHAIRMAN. Pursuant to the rule, the gentleman from California [Mr. MILLER] will be recognized for 30 minutes, and a Member in opposition will be recognized for 30 minutes.

Mr. HAMMERSCHMIDT. Mr. Chairman, I oppose the amendment.

The CHAIRMAN. The gentleman from Arkansas [Mr. HAMMERSCHMIDT] will be recognized for 30 minutes.

The Chair recognizes the gentleman from California [Mr. MILLER].

Mr. MILLER of California. Mr. Chairman, in the consideration of the oilspill liability bill, we have come to a crucial point where we are going to have to make a decision about whether or not we are going to have tough laws against oilspills and whether or not we are going to protect the rights of the States to devise systems and to impose penalties and to extend liabilities to those who would spill oils in the waters off of their States.

The amendment that I am offering on behalf of myself and the gentleman from Massachusetts [Mr. STUDDS] is an amendment to correct a glaring flaw in H.R. 1465, by preserving the rights of States to set higher standards for oil pollution liability and more complete systems of compensation than are allowed under this bill or under current law. In addition, the amendment protects the rights of States to set higher levels of financial responsibility and leaves State court jurisdiction intact, makes State standards apply to cleanups, and gives the Governors an equal say with Federal authorities as to when the cleanup is completed.

These are hardly radical proposals. The Senate oilspill legislation which passed by a vote of 99 to 0 has virtually identical provisions. The preemption of State laws and rights were never challenged during the Senate consideration. Why? Because we have a long history in environmental protection in making sure that the States' rights are protected.

Mr. Chairman, in fact, the only group lobbying to get rid of the State laws are those people seeking additional rights to the polluters. It is the oil companies and the shipping industry, not the potential victims of the spill, who support getting rid of this provision. The Studds-Miller amendment is supported by the National Governors' Association, which has told us that Congress has traditionally passed environmental laws that establish minimum standards, that States are free to exceed in order to meet the particular needs of their State.

We see no reason to depart from that successful practice. That is what the Studds-Miller amendment does. It allows the States to continue to deal with oilspill liability as they deal with clean air, as they deal with clean water. The amendment gives States the rights to protect their environments, the needs of their citizens and their particular situations.

This is a fundamental right of the States to do that, and we should not take that right away in this legislation. In fact, that is what this legislation would do if the Studds-Miller amendment is not accepted.

The National Association of Attorneys General is supporting the amendment. They tell us that the States are often the first line of defense in reacting to oilspills and often have an interest, and this is important for Members to remember, that is different and greater than that of the Federal Government in cleaning up and restoring the environment.

We should not allow this legislation to destroy their ability to deal with that interest and to deal with those concerns.

Let us think of what would be the situation if the committee bill was law when the *Exxon Valdez* oilspill occurred. First, under the bill as written, Alaska State law, which provides for unlimited liability and which extends liability to the owner of the oil in addition to the shipper, would be wiped out by H.R. 1465.

Second, H.R. 1465 would eliminate State court jurisdiction. The State of Alaska has filed suit in Anchorage, and yet H.R. 1465 would limit jurisdiction to Federal courts, with no guarantee that the suit would be heard in the State of Alaska. I think it is important to understand that. It is important to understand that if we pass this bill without the Studds-Miller amendment, we are in fact lessening the liability on Exxon and other potential polluters than we are under current law.

It cannot be the policy of this Congress when we are done with the consideration of this oilspill liability bill to provide for weaker sanctions against polluters than we have in current law, and that is what will happen if we pass the bill without the provisions of the Studds-Miller amendment.

Mr. Chairman, I reserve the balance of my time.

Mr. HAMMERSCHMIDT. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise in strong opposition to the amendment offered by the gentleman from California [Mr. MILLER].

The compromise bill was developed after careful discussions involving the leadership of the committees of jurisdiction. During those discussions, we realized that the preemption issue was one that we would be unable to come to agreement on and that it would have to be decided ultimately by this body. Therefore, it comes as no surprise that we are going to be debating the issue today.

However, I had thought that the issue of concern centered around whether State liability laws should be preempted. That is not the only issue presented by this amendment. This amendment goes much further. It would remove provisions in the bill addressing the need for a uniform system of financial responsibility.

The system of liability and compensation in the bill is intended to be comprehensive and definitive. It is intended to allow for quick and complete payment of reasonable claims without resort to cumbersome litigation. A key feature of the bill is Federal preemption of State laws on liability. Without such preemption, we would return to a patchwork of overlapping and conflicting laws which may actually impede prompt payment of justifiable claims.

It is important to keep in mind that the bill provides for a strong State role in dealing with oilspills. States would participate in developing contingency plans which establish the basic framework for oilspill response. The States' right to establish safety or environmental requirements that go beyond the Federal requirements are preserved. States are entitled to direct access of up to $250,000 from the Federal fund to pay for State cleanup costs in the event of a spill. State authority to legislate on personal injury, wrongful death and workman's compensation is preserved, as well as the authority to impose civil and criminal penalties in the event of a spill.

State trust funds, even those financed through taxes on the same industries that pay into the new Federal fund, are protected. Finally, the Coast Guard would be required to consult with the State concerning the adequacy of any cleanup effort.

Therefore, anyone who says that the bill takes away the right of the State to ensure that its citizens are fully protected is engaging in a gross mischaracterization of the bill. The only thing a State is not entitled to do is to undermine the shared system for compete liability for all cleanup costs and damages that is established under the bill. This is not too much to give up in order to receive the considerable benefits of an effective and unlimited Federal fund.

The gentleman's amendment goes beyond the issue of preempting State liability laws. It would also eliminate the bill's provisions calling for a uniform system of financial responsibility, so important to an orderly flow of commerce. It would also allow for litigation of claims brought under the federal system of liability, seeking compensation from the Federal fund, in State rather than Federal courts.

Finally, it would perpetuate the nightmare situation we had hoped to prevent—one in which Federal response officials are handcuffed by a series of what might be conflicting State requirements at a time when decisive action is essential.

I certainly have no objection to allowing the States whatever freedom is necessary to go beyond the Federal cleanup effort, but they should do so under the authorities which this bill allows them to exercise rather than second guessing the Coast Guard. If we have learned anything from the response to the *Exxon Valdez* spill, it is that when a disastrous spill occurs you have to have one person in charge with one set of rules to follow.

Mr. Chairman, I had hoped that we could debate these complex issues separately rather than having them all lumped together. Each of the five separate aspects of this amendment deserve careful consideration and analysis. Therefore, I intend to support a series of substitute and perfecting amendments which will help to focus the debate on these issues. I urge my colleagues to carefully weigh the arguments on their own merits. Don't be stampeded into a vote on this amendment without understanding that a great more than States' rights is at stake. I am convinced that if you examine each of these issues carefully, you will agree that the bill's approach is reasonable and in the best interest of the country. I urge you to reject the en bloc amendment.

□ 1250

Mr. Chairman. I reserve the balance of my time.

Mr. MILLER of California. Mr. Chairman, I yield such time as he may consume to the gentleman from Massachusetts [Mr. STUDDS].

Mr. STUDDS. Mr. Chairman, I want to thank the gentleman from California for managing to be here on the floor when the surprise came and we avoided a vote on the preceding bill. Many Members were rushing over I believe, and the gentleman has offered the amendment on behalf of himself and myself, the gentleman from Florida [Mr. Goss], the gentlewoman from Rhode Island [Ms. SCHNEIDER], and a legion of other Members from both parties in the House.

Mr. Chairman, this amendment is the so-called preemption amendment. I offer it on behalf of myself, the gentleman from California [Mr. MILLER], the gentleman from Florida [Mr. Goss], the gentlewoman from Rhode Island [Ms. SCHNEIDER], and a legion of other Members from both parties in this House. It addresses a subject that has blocked passage of Federal oilspill liability legislation for 14 years. And from the point of view of the environment and States' rights, it is the most important amendment we will consider today.

Simply put, this amendment would protect the right of States to enact and enforce their own oil pollution laws, and it would require that oilspills be cleaned up in accordance not only with Federal, but with applicable State law.

The bill before us would preempt the laws of 19 States that impose unlimited liability for oilspills.

It would preempt the right of all 50 States to set higher standards of liability or more complete standards of compensation than those included in the Federal system.

It would, according to Alaska's attorney general, wipe out all or part of nine separate environmental protection statutes enacted by that State's legislature.

It would deny the right of any State to go to its own courts to force a spiller to clean up an oilspill; or to detain an oil tanker as security for damages; or to impose insurance requirements on oil tankers and barges; or even to collect civil penalties assessed against someone who has spilled oil into the waters of that State.

The preemptive language of this bill violates a longstanding tradition that Federal environmental laws should not preempt State laws and it does so on precisely the wrong issue at precisely the wrong time.

We did not preempt State laws in the Clean Air Act or the Clean Water Act or the Superfund law or the Trans-Alaska Pipeline Act or the OCS Lands Act or the Deepwater Ports Act or any other statute related to the production, transportation, or regulation of oil. Why now?

Why now, after the fiasco in Prince William Sound, should we be telling Governors, State legislatures, and the public that the Federal Government always knows best; that only the Federal Government and the spiller should decide when an oilspill cleanup is complete; that coastal communities and beachfront property owners and fishermen have no need—and should have no right—to hold the oil industry to a higher standard; that they have no right to do everything they can to protect themselves, their homes, their beaches, and their environment?

Why now?

I say, not now. Not ever.

Let us protect, now subvert, States' rights. Let us learn, not ignore, the lessons of this past year. Let us prevent, not invite, another *Exxon Valdez*.

Now, I have heard some argue that, without preemption, oil barge and tanker businesses will shut down. In fact, I've been hearing that since I first introduced a Federal oilspill bill 14 years ago. And throughout those 14 years, we've had no preemption. Throughout those 14 years, States from Maine to Florida to Alaska have had unlimited oilspill liability laws. And throughout those 14 years, the oil transportation industry has done just fine.

I've also heard that preemption is designed to help not the polluters, but the victims of oilspills.

Well, think about it. Are the potential victims of oilspills lobbying for preemption? Have you had fishermen calling you every night to ask you to preempt States rights? Is it because the average American wants preemption that the only newspaper in America on record against this amendment is the Wall Street Journal?

Make no mistake; when it comes to State preemption and the oil industry, the battle lines are clearly drawn.

Between those who are hurt by oilspills and those who cause them.

Between the public's interest and a narrow private interest.

Between the average citizen and big oil.

And between those who will support this amendment and those who will oppose it.

On that note, let me just mention that among those who support this amendment are the National Governors Association, the Coastal States Organization, the National Association of Attorneys General and virtually every major environmental, fisheries and conservation group in this country.

Passage of this amendment will mean the difference between a strong environmental bill and one that is not so strong; between an effective response to the *Exxon Valdez* spill and one that is not so effective; between an approach to the issue of States

rights that is correct; and one that is dead wrong.

So remember, when the time comes to vote on this amendment. "Yes" is pro-environment. "Yes" is pro-States' rights. "Yes" is protection for the people of your district and your State.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I am happy to yield to the gentleman from Michigan.

□ 1300

Mr. DAVIS. As the gentleman knows, there are a couple of things in his amendments I thought ought to be changed and there will be a subsequent amendment or two that will probably be offered to try to make some corrections of what I think are legitimate concerns.

The one question I have is, in effect, about the Governor's right to veto what happens and whether or not cleanup is finished. I guess I am concerned about the constitutionality of saying that the President in this bill has the authority to decide who is going to be in charge from the Federal level, and we all know that is going to be the Coast Guard, and yet one of the sections in the gentleman's bill says even if this person makes the decision that he considers the cleanup sufficient, that then the Governor would have the right to say, "Well, we are not satisfied." And I would guess that that is something that may happen.

Mr. STUDDS. Let me respond to the gentleman's concern if I may.

Mr. DAVIS. OK. I am just concerned about the constitutionality of that.

Mr. STUDDS. I understand the gentleman's concern, but let me say to him it is misplaced.

Under our amendment the Governor of a State would not be put in control of, nor given, the decision about any Federal authority of Federal officials, of the Coast Guard or anybody else. The President and the President alone makes those decisions and determines when, for Federal purposes, the cleanup is complete; when people under his jurisdiction and his command are finished.

What our amendment would do, however, is say that a Governor, acting under applicable State law, if in his or her judgment the State law had not been complied with, could still have access to the Federal fund for further cleanup required by applicable State law.

Under no circumstances would it raise questions with respect to the constitutional command authorities of the President.

Mr. Chairman, let me ask the gentleman from California [Mr. MILLER] about the use of his time.

Mr. MILLER of California. Mr. Chairman, I would just ask that the gentleman seek his own time. We will be under the 5-minute rule and we can go back and forth in the debate. We have a number of requests for time, so I would not yield any further at this time.

The CHAIRMAN. The time of the gentleman from California [Mr. MILLER] has temporarily expired.

Mr. HAMMERSCHMIDT. Mr. Chairman, how much time remains on each side?

The CHAIRMAN. The gentleman from Arkansas [Mr. HAMMERSCHMIDT] has 25 minutes remaining, and the gentleman from California [Mr. MILLER] has 17 minutes remaining.

Mr. HAMMERSCHMIDT. Mr. Chairman, I ask unanimous consent that the gentleman from Louisiana [Mr. TAUZIN] be allowed to control the balance of the time for the opposition on the Miller amendment.

The CHAIRMAN. Is there objection to the request of the gentleman from Arkansas?

There was no objection.

The CHAIRMAN. The gentleman from Louisiana [Mr. TAUZIN] is recognized for 25 minutes.

Mr. TAUZIN. Mr. Chairman, I yield 5 minutes to the gentleman from California [Mr. SHUMWAY].

Mr. SHUMWAY. Mr. Chairman, I rise in strong opposition to the Studds-Miller en bloc amendment.

This amendment packages four highly controversial and, I believe, highly objectionable amendments. It is not merely an amendment to eliminate Federal preemption of State liability laws. It goes much, much farther.

First, part D of the amendment creates an unworkable situation where there is no one in charge of an oil spill cleanup. The Governor of an affected State has the ability, under this amendment, to order the Coast Guard to continue cleanup operations indefinitely, and what's more, the Governor can get the Federal fund to pay for it indefinitely. This is an outrageous delegation of Federal authority and Federal funds.

If the *Exxon Valdez* disaster demonstrated anything, it's that one entity needs to be in charge of response and cleanup—and for Federal cleanup efforts, it should be the Coast Guard. This bill mandates that the Coast Guard is in charge of cleanups, but this amendment undercuts the Coast Guard by giving State Governors veto authority over Coast Guard decisions and it allows States to spend Federal funds without limit.

Second, the amendment eliminates the provision that a State's requirement for evidence of financial responsibility conform with the Federal requirements. This is totally impracticable in the real world.

Oil transportation is a matter of interstate commerce, and requiring a tanker operator to have a different certificate of financial responsibility is absurd.

The Federal requirements with regard to financial responsibility already in the bill are more than adequate. If a Member believes them to be inadequate, he or she could offer an amendment to raise them. But this amendment doesn't do that—it lets each State require its own level of financial responsibility. This is a matter of interstate commerce regulation, and properly it is the Federal Government which should regulate these requirements.

And finally, I strongly oppose parts A and C of this amendment which eliminate the Federal preemption of State liability laws.

The House has been considering oilspill liability and compensation legislation for 14 years, and never once has this body passed an oilspill bill which does not have the preemption provision in it. In fact, the House has defeated efforts in the past—such as this—to eliminate preemption. And we should defeat this effort again today.

When dealing with Federal oilspill legislation, preemption is not a dirty word as proponents of the Studds-Miller amendment would have you believe. Quite the contrary, it is the very heart and soul of a truly comprehensive oil liability system.

Voting for Studds-Miller will not help protect the environment in any way. It will only exacerbate the present problem where we have one Federal system and 30 different State liability systems.

While proponents of the Studds-Miller amendment try and make their proposal sound like a State's rights issue, it will really only create an impossibly confusing system. The real effects of Studds-Miller will be: to increase litigation; to delay compensation to parties damaged by an oilspill; and to actually pose greater risk to the environment by increasing the delay and confusion in oilspill response, and by forcing responsible oil transporters out of the business only to be replaced by foreign-owned shell companies.

If you want a comprehensive system that provides clear-cut authority to the Coast Guard for immediate cleanup response, vote against Studds-Miller.

If you want a comprehensive system that eliminates the existing patchwork system of confusing Federal and State laws—a system that only results in delays in response and compensation to victims—vote against Studds-Miller.

If you want a system which won't drive the responsible, safe oil transporters out of business—only to be replaced with one-vessel companies owned by foreign countries and manned with foreign crews—vote against Studds-Miller.

Retain the House's long-held and principled position. Defeat Studds-Miller so that we can pass a truly comprehensive bill that addresses the overriding concerns of all affected.

It also should be made clear that this amendment will allow responsible parties to recover damage and removal costs imposed by a State above and beyond the Federal limit.

Section 1008 clearly says that any removal costs or damages above the appropriate Federal limit of liability is reimbursable to the responsible party from the Federal fund—provided it's not a spill resulting from gross negligence or willful misconduct.

This means that under the terms of the bill as amended by Studds-Miller, if a spiller is liable under State law for, say, $20 million worth of removal costs and damages, and the Federal limit of liability is, say, $15 million, the responsible party can recover the $5 million difference from the Federal fund—again, provided the spill is not the result of gross negligence or willful misconduct.

Mr. MILLER of California. Mr. Chairman, I yield 1½ minutes to the gentleman from Connecticut, [Mr. ROWLAND].

Mr. ROWLAND of Connecticut. Mr. Chairman I thank the gentleman for yielding time to me.

Mr. Chairman, I rise today in strong support of H.R. 1465 and the Miller amendment. My home State of Connecticut has seen more than its share of oilspills during the past decade. In fact, from 1984-1986, there were 210 incidents in Connecticut in which oil was spilled—a total amount of over 24,000 gallons of oil. While this number pales in comparison to the *Exxon Valdez* spill, it underscores the national scope of this critical situation.

However, in conjunction with my strong support for this bill, I also unconditionally support States' rights to provide for their own liability and compensation laws. I believe that States like Connecticut which have persevered in achieving strong oil spill liability laws should not be forced to lower their standards. Connecticut is one of 28 States which would be preempted by H.R. 1465 as it currently stands. And of these, Connecticut is one of 19 which impose unlimited liability for oil pollution cleanup costs and damages. Additionally, Connecticut has well-defined civil and criminal penalties in place.

While I applaud the efforts which have created this strong Federal bill, I nevertheless believe that it is essential to allow those States which have done their homework to retain their good marks. H.R. 1465, along with the Miller/Studds amendment, will ensure that cleanups of any oilspills which occur will meet both State and Federal standards. It will also enable Connecticut and many other States the opportunity to preserve its precious waterways and coastline in the most comprehensive manner possible.

Mr. TAUZIN. Mr. Chairman, I yield 3 minutes to the illustrious chairman of the Committee on Merchant Marine and Fisheries, the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Chairman, I thank the gentleman from Louisiana for yielding time to me.

Mr. Chairman, I oppose the current amendment.

Our bill preserves many rights for the various States. But our bill is based on the principle of a national, uniform comprehensive oilspill system. It will undermine that principle if the States also have their own individual liability laws.

Some people say that the State laws with unlimited liability for spillers will serve to prevent future spills. This is a silly argument. There are existing State laws with unlimited liability, and they sure did not prevent the spills we saw this summer.

Most State liability laws look good on the surface but don't deliver in the clutch. What good is a State law with unlimited liability if it merely allows an injured claimant to spend months and years in a lawsuit and pay large fees to attorneys to assert a claim? In one famous oilspill involving the *Amoco Cadiz*, the lawsuits have dragged on for almost a dozen years and no claimant has gotten a penny yet. You can bet that the lawsuits in Alaska resulting from the *Exxon Valdez* spill will take years before they are resolved.

Our bill provides a better deal for claimants. The Federal law establishes extremely generous terms of liability and then offers a system where claimants can get compensated swiftly without the hassle of lawsuits. They file for and collect compensation from the Federal fund. The fund turns around to sue the spiller for reimbursement.

The State laws promise a lot, but fail to deliver. You can bet they will never have compensation funds of the size we establish. The average citizen who is a victim of an oilspill will be much better off with the combination of a single Federal liability standard and a massive compensation fund which avoids the pitfalls of lawsuits.

□ 1310

Mr. MILLER of California. Mr. Chairman, I yield 2 minutes to the gentlewoman from Rhode Island [Ms. SCHNEIDER].

Ms. SCHNEIDER. Mr. Chairman, I rise in support of the amendment offered by myself, and my colleagues, GERRY STUDDS, GEORGE MILLER, and PORTER GOSS.

This body has been considering a comprehensive oilspill bill for over a decade, and the issue of preemption always seems to be the last and greatest hurdle. This year we must clear that hurdle, and we must pass a bill which does not preempt State law.

Congress has traditionally passed environmental legislation which allows States to enact their own laws which are stricter than the Federal standard. This precedent has been set with laws such as the Clean Water Act, the Outer Continental Shelf Lands Act, and Superfund. H.R. 1465, as written, sets unnecessary limits on the ability of States to set their own tough standards and to ensure adequate compensation for their citizens. In fact, the four existing Federal statutes which govern oilspill liability specifically recognize the right of States to protect their own interests with stricter laws.

Opponents of this amendment, those who support preemption, argue that without preemption it will be impossible for shippers to obtain insurance. But I would like to know why this has not happened before? Current Federal oilspill laws do not preempt State law—28 States have their own laws and regulations relating to oilspills, and 19 of these States have unlimited liability for oilspills.

An example of what this amendment would accomplish can be illustrated by the case of Exxon in Alaska. Had H.R. 1465 been law without this amendment, Exxon would have been much better off, and the citizens and natural resources of Alaska, as well as the taxpayers across the United States, would have been much worse off. The State of Alaska's oilspill laws do not cap a company's liability, but this bill would do just that. In fact Exxon would have had no legal obligation to expend more than $115 million. Under Alaska's law they have already been required to spend over $2 billion to clean up their mess. Had the State's law been preempted the American taxpayers would have had to cover $2 billion in expenses for Exxon. Is this the system we want?

We have been waiting for 14 years to enact this legislation. This time Congress must act and should no longer allow the issue of preemption to cause us to come away empty handed. I urge my colleagues to support this amendment, which will make H.R. 1465 a much stronger bill, and will lead to its enactment this year.

Mr. TAUZIN. Mr. Chairman, I yield 5 minutes to the gentleman from New York [Mr. LENT].

Mr. LENT. Mr. Chairman, I rise in strong opposition to this amendment.

If I understand the gentleman's amendment correctly, it would provide that even with the Federal Oilspill Liability Program, we would continue to have separate State liability programs equally in effect. Preemption is not a new issue for the Congress to consider.

Both sponsors of this amendment have pointed to preemption in the Clean Air Act; the Clean Water Act, Superfund, and other Federal laws. This is an over simplification. It is important for the Members to realize that, in this case, we are creating for the first time a guaranteed compensation regime for victims of an environmental catastrophe. That is a significant distinction from these other previous programs.

I would also point out that while the Clean Air Act, for example, does not preempt State law in some situations, it does preempt State law with regard to the regulation of emissions from aircraft moving within the United States. The Clean Air Act also preempts State laws with regard to regulating emissions from motor vehicles. The lesson of these other statutes is there ought not be preemption in the care of moving vessels.

Mr. Chairman, it is very important for the Members to understand that H.R. 1465 involves the movement of vessels—whether they be oil tankers operating on the Atlantic seaboard, or tugs and barges going up and down the Mississippi River. They are in interstate commerce and move from one State to another.

To focus on the Superfund Program for a minute, while it does not preempt State law with respect to fixed sites, it does, however, preempt State law concerning a vessel owner's ability for release of a hazardous substance.

I hope my colleagues will focus on the fact that, if the Studds amendment is adopted, there is a very real possibility that many existing operators involved in the transportation of petroleum products may decide that, because of the multitude of State liability requirements, it is simply not worth the legal risks. That may well be the desired result from some people, but I hope the Members understand some of their constituents might have a real problem when their home heating oil all of a sudden disappears. I hope my colleagues realize that this is not just some fanciful notion that I am talking about.

I am firmly convinced that, if we end up with a Federal liability program in place and on top of that additional State liability regimes, energy costs for consumers will skyrocket—in part because of higher insurance rates. Interstate and foreign commerce in oil and petroleum products will be severely disrupted and many responsible shippers will be driven out of business. Another thing to note is that it would almost guarantee that any future oilspill will result in confusion among the various jurisdictions asserting jurisdiction coupled with a flood of law suits.

Mr. Chairman, as the ranking member of the Merchant Marine Subcommittee, I want to point out that the U.S. Navy is greatly concerned about the Studds amendment. They believe that it will cause the American owners of foreign-flag tankers to sell all their tankers rather than face the uncertain liability and financial risks that the amendment would result in. The Navy says that the loss of these tankers will cause irreparable harm to the national security by weakening the ability of the United States to implement its forward defense strategy and to maintain our needed military sealift capability.

The last point that I hope my colleagues will consider is the fact that the objective of the single Federal program is to eliminate the need for those who suffer damage from an oilspill to resort to litigation before any compensation is paid. When an oilspill occurs, we should have a system that will provide an immediate response. When a spill takes away the livelihood of individuals, as it did in Alaska last spring, we should have a system that will provide for immediate financial security. Injured citizens should not have to go to court to obtain relief.

Most importantly from the standpoint of national policy—which is what we should be concerned with in this body—we should set up a system that would minimize the costs and delays and difficulties for individual citizens and, at the same time, not disrupt our Nation's commerce and economy. And that, Mr. Chairman, is what H.R. 1465 is all about.

I urge my colleagues to defeat this amendment because it is a bad idea and it is most assuredly bad public policy.

Mr. MILLER of California. Mr. Chairman, I yield such time as he may consume to the gentleman from Pennsylvania [Mr. KANJORSKI].

Mr. KANJORSKI. Mr. Chairman, I rise in strong favor and support of the amendments offered by my colleagues, the gentleman from California [Mr. MILLER] and the gentleman from Massachusetts [Mr. STUDDS], to H.R. 1465, the Oil Pollution, Prevention, Response, Liability, and Compensation Act of 1989.

Having recently seen for myself the pristine beauty of the Alaskan environment, as well as the damage caused by man's negligence, I urge my colleagues to support the legislation that will best protect our lands, our waters, and our wildlife.

It is clear to me that in this case, the legislative alternative that offers the most security is the amendment offered by Congressmen STUDDS and MILLER. States must be able to exercise their basic rights to protect the health of their citizens and natural resources. I have been contacted by both Governor Casey of Pennsylvania as well as Governor Cowper of Alaska urging me to protect the preeminence of State laws.

As a lifelong resident of northeastern Pennsylvania, I am familiar with damage to the environment that is caused by man's pursuits in the industrial revolution. For nearly 100 years, our resources were extracted from the Earth with little or no regard for the land. We did not recognize then the unfortunate repercussions which were to be with us for years to come.

We do, however, know better now. Not only do we now realize the extent of the injury that can be done to our land, rivers, oceans, seas, and air, but we also have the technology to prevent it. This technology, however, must be in place and it must be strictly enforced.

I firmly believe that the only way to achieve this is through tough, sensible laws. The Miller-Studds amendment offers the strictest guidance of all the possibilities being considered today. I urge my colleagues to support the amendment.

Mr. MILLER of California. Mr. Chairman, I yield 1 minute to the gentleman from Maine [Mr. BRENNAN].

Mr. BRENNAN. Mr. Chairman, I rise today to express my strong support for the most stringent oilspill legislation possible. The best legislation is that which will give the States the right to set their own liability standards. I therefore urge my colleagues to vote for the Miller-Studds amendment to this bill.

I would like to take a moment to thank the chairman of the Merchant Marine and Fisheries Committee, Mr. JONES, for his effective management of this bill in the Merchant Marine Committee. I would also like to thank Mr. STUDDS for his hard and diligent work on this issue, and commend the House leadership, including the chairman of the Public Works and Science and Technology Committees, for their work in bringing this bill to the floor today.

As we know, this bill contains three sections: Prevention, response, and liability. I strongly support the prevention and response portions of this legislation. Clearly the best and cheapest way to approach this problem is to prevent oilspills in the first place. By revising licensing standards and improving vehicle traffic systems we go a long way toward reaching that goal.

Should the worst happen, the bill contains provisions which create seven continually manned response teams, and which require the development of oilspill contingency plans so that the miscommunication and delay we saw during the *Exxon Valdez* cleanup will not be repeated.

But despite the best efforts of Congress we must face one fact squarely: The *Exxon Valdez* could happen again, and it could happen anywhere. Then the question becomes: Who pays? Mr. Chairman, I believe that in the Gulf

of Maine the State of Maine should answer this critical question.

The Miller-Studds amendment simply gives each State the right to enact requirements stronger than the Federal standard. This concept has been written into some of the most significant environmental legislation of Congress, including the Clean Air Act and the Clean Water Act. This principle is fair and proper: After all, who knows more about what is right for the State than its own people?

Those who favor Federal preemption argue that oil transporters will find it easier to deal with a single standard; that a single standard will guarantee quicker compensation for those damaged by a spill; and that if shippers are subject to stringent State liability standards they will be unable to

I do not believe it is our task to make life simple for the oil industry. It is our job to ensure that spills do not happen. If they do, we must make sure that those responsible clean up their own mess. If that means making life more complicated for the industry, so be it.

Shippers argue that if they have to deal with claims arising in different States, compensation to the victims of a spill will be delayed. In other words, giant companies argue that preemption is necessary in order to protect the little guy, the independent fisherman, lobsterman, or hotel owner. I find this argument difficult to swallow.

Finally, under the current system shippers are subject to a wide variety of State laws; the majority of U.S. tanker traffic passes through the waters of Alaska, a State which has wisely taken the position that "The polluter pays." And yet these shippers have all obtained insurance. I find it difficult to accept the argument that if we maintain the current liability system these same shippers will be unable to find insurance.

If we had passed this law 2 years ago, Exxon's liability would have been limited to $114 million—$114 million out of $2 billion—because Alaska's stricter laws would have been preempted. We maintain that we have learned from the *Exxon Valdez* disaster. Yet if we pass this bill with Federal preemption, we have learned nothing. We will have sent a clear signal to shippers: We will have told them that they do not have to pay for their mistakes. And we will have told our constituents that we preferred to make life simple for the oil companies rather than protect our own coasts.

If the price to pay for clean coasts, for healthy fisheries, for unspoiled nature, is a little complication for companies which have spilled oil, that is a small price to pay. I would not care to explain to the residents of Maine that someone responsible for a major spill off our shores might not have to foot the bill for the clean up.

Mr. Chairman, I urge my colleagues to vote for the Miller-Studds amendment, and for the amended bill.

□ 1320

Mr. TAUZIN. Mr. Chairman, may I inquire as to how much time each side has?

The CHAIRMAN. The gentleman from Louisiana [Mr. TAUZIN] has 14 minutes remaining, and the gentleman from California [Mr. MILLER] has 12½ minutes remaining.

Mr. TAUZIN. Mr. Chairman, I yield 5 minutes to the gentleman from Delaware [Mr. CARPER].

Mr. CARPER. Mr. Chairman, the vote on this particular amendment offered by Messrs. STUDDS and MILLER is a close call, a very close call. There are positive elements, things I like about the amendment. There are negative elements, things that I find less attractive about the amendment.

I believe a relevant question for Members to ask themselves is if this amendment would be defeated, what are we left with?

What we are left with is a bill that is still much stronger, a much better bill, than the oilspill bill that passed the 98th Congress, that passed the 99th Congress, that passed the 100th Congress. We are left with a bill which creates a much bigger cleanup fund, a much bigger liability fund, than was ever envisioned before.

In fact, in the past we have talked about a fund capped at $500 million. We have today in this bill before us a cap that frankly does not exist. It could be 1, 2, 3, or more billions of dollars. Moreover, we have before us today a measure that requires the oil companies, the shippers, if you will, to pay literally four times as much as they previously would have been required to pay into the oilspill trust fund under this bill.

We also raise by two to three times the liability limits for shippers than did exist under our previous oilspill bills. These liability limits are even higher higher than those in the Senate bill.

We also have added better provisions with regard to cleanup response time, provisions dealing with contingency plans, drills, strike teams, and the list goes on.

In short, this is a much better bill than we have passed in this House many times in previous years.

Think of several relevant questions we may want to ask ourselves. Say you have a Governor or State that is dissatisfied with the extent of the cleanup being performed by the Federal fund. What alternatives does that Governor have?

First of all, our legislation says that the Federal Government must consult with the Governor of the State to ensure the State has input as to whether or not the cleanup is adequate.

Second, we know as a practical matter that a State's congressional delegation on the House and Senate side is going to be leaning on the relevant Federal agencies to ensure the cleanup is adequate.

What if a Governor is not satisfied with the thoroughness of the cleanup? What alternative does the State have?

Under previous oilspill laws we have passed in the House, we said States could not create their own oilspill cleanup fund. We preempted those.

This legislation permits a State to have, maintain, create, with no cap, its own cleanup fund. To the extent a Governor or State is dissatisfied with the adequacy of the Federal cleanup, they may proceed with their own funds.

My amendment, adopted in committee, permits that to happen.

The second questions Members may want to consider here is do we want to create a Federal fund that gives any State or any Governor, whether our own or some other, a blank check or a veto over the use of the funds from this Federal liability fund?

I do not think so. We give them here the option of having their own fund. If they are not satisfied with the extent of a federally funded cleanup, they now use the State's fund to complete what they believe might be required.

Does this bill enable persons that are damaged to be compensated? Yes. The legislation spells out clearly the number of steps that can be taken. If I am damaged, if my business is damaged, if my property is damaged, if my ability to earn income is damaged, or that of any other citizen, they have a remedy and they have a source, first to go to the shipper, the owner of the ship. If they are not satisifed there, they go to the Federal fund within 90 days.

There is perhaps one more consideration. That is should there be limits on liability? Others have spoken on this. Let me say where gross negligence is the case, where there is willful misconduct, there is no limit on liability in this bill. Where there is simple negligence, where there is human error involved, there is a limit on liability. In the case of a large tanker, that company owning that tanker would be subject to out of pocket expenses to $150 million if simple negligence is involved. After that point, the fund itself would take over to pay additional claims and damages.

Why are we in our legislation saying that States cannot have their own liability limits? Why do we do that?

Let me just say before the Valdez oil spill we frankly had not seen a spill

which created more than maybe $100 million, $200 million worth of damages, pre-Valdez. It was easy to get insurance up to maybe $400 million.

Now we know the damage can be $1 billion, $2 billion, even more billions of dollars.

It was easy to get insurance before. It is not going to be easy to get insurance in the future for unlimited liability. It may be impossible.

We are going to end up, I am afraid, as the gentleman from New York [Mr. LENT] has suggested, with, instead of the responsible shippers carrying the oil, shipping the oil, with fly-by-night operations doing the business, if this well-intentioned amendment is adopted to H.R. 1465.

Mr. MILLER of California. Mr. Chairman, I yield 1 minute to the gentleman from Rhode Island [Mr. MACHTLEY].

Mr. MACHTLEY. Mr. Chairman, today we rise in general support of comprehensive oilspill legislation which comes in the wake of the Valdez spill.

The Valdez spill maybe the worst in history, but it is not the only oilspill. From 1984 to 1986 the Coast Guard tell us there were 20,000 incidents spilling 40 million gallons of oil into the oceans surrounding our continent. This year in my State the *World Protoge* went aground spilling thousands of gallons of oil into Narragansett Bay.

It is time to get tough, using all of our resources, both State and Federal. Right now there are 19 States that have tougher liability standards than the proposed Federal standard.

Keep in mind it is each individual State that is going to be the most affected by oilspills which occur next to a State. For this reason, it makes sense to let each State set its own oilspill liability, reflecting their specific needs and concerns.

A tough response means using all of our strongest resources, both State and Federal. I urge support for the Miller-Studds-Goss-Schneider amendment. It is a vote for a better environment.

Mr. TAUZIN. Mr. Chairman, I yield 3 minutes to my colleague, the gentleman from Louisiana [Mr. HAYES].

Mr. HAYES of Louisiana. Mr. Chairman, the State of Louisiana would probably economically benefit from the Miller-Studds amendment. Unfortunately, the country would not.

If we look at the provincial interests of the State of Louisiana, we could simply say that if we authorized those who ship oil to America and who do so at a volume that is over 50 percent of our national needs now to use the corridors and sealanes that would include the Port of New Orleans, and which is the primary distribution point for shipment to other States, an economic boom would follow.

The consequence, however, is an alteration in price that I do not believe either the American people are prepared to pay or that they recognized does not do one whit toward making tougher environmental standards.

There are States with differing attitudes toward the means by which you measure your liability. There are no States with tougher environmental standards than the bill from the committee and subcommittee of the gentleman from Louisiana and its distinguished chairman.

The point becomes should we confuse environmental standards with the standards of negligence? The answer is one thing that will not confuse anyone is their utility bill. When the gentleman from Massachusetts receives telephone calls from his constituents, when the gentleman from California receives telephone calls from his constituents, the question is going to be how did this happen, and second, is it not in fact still possible for an oilspill to occur? Is it not in fact still possible for an accident to happen?

What we are measuring is the amount of the fund to clean it up, the dedication of the Federal Government to have an unlimited fund to clean it up, and a simple standard by which any company anywhere can measure.

The alternative may be a short-term help for my State, but certainly will not be to the benefit of the country.

Mr. MILLER of California. Mr. Chairman, I yield 2 minutes to the gentleman from Florida [Mr. Goss].

Mr. GOSS. Mr. Chairman, I am pleased to join my three colleagues in introducing this amendment. It would correct what most coastal State Governors consider to be the most substantial deficiency in this bill: Preemption of State oilspill funds and laws.

In past votes on other environmental and public safety legislation, we in the House have adhered to the principle of States rights. We have not tried to preempt southern California's attempts to clean its own air, and up to now, we have not tried to preempt States from responding to the portion of the 8,000 oilspills a year that occur within our waters. Every State is special in some way and each State should be able to protect its unique features with reasonable special legislation.

Proponents of preemption claim, however, that by preempting State laws, we would somehow increase our Nation's efficiency in responding to oilspills.

Just this morning I talked with the director of Florida's State oilspill fund, and he related a story to me that should give defenders of preemption pause.

Last week, we had two freighters run aground in the Florida straits, and one of these slammed into a coral reef that is part of a national marine sanctuary. As Florida waited nervously, two Federal agencies failed to respond while they argued—over whose responsibility it is to respond to potential oilspills in national parks and national marine sanctuaries. If not for prompt action by our Governor, that freighter might have broken up, spilling thousands of gallons of oil and, appropriately, fertilizer, onto our Nation's last living coral reef.

I am told that occasionally, the Coast Guard is unable to respond to oilspills in Florida's inland waters because they are not considered "sufficiently critical." At other times, Federal oilspill cleanups on Florida beaches have ended prematurely, even though Florida businesses depend heavily on the cleanliness and beauty of our beaches and waters. The 6-month cleanup time forecast by the Federal Government for the Valdez oilspill is too long. Six months is a lifetime in the Florida tourist industry.

My intention is not to criticize the Coast Guard: We give them too much to do, and not enough funds to do it with. Moreover, they do an excellent job with what they have.

However, it is not good policy to put all our eggs in the Federal Government basket. It is not good policy to assume that the farsighted oilspill bill we pass today will necessarily foresee something that could occur in 20 years. We didn't restrict State flexibility and State innovation with the Clean Air Act, Superfund, or the Clean Water Act, and we should not start doing it now.

I will pass on an example of how yesterday's visionary legislation can become today's straitjacket. In 1972, Congress passed the Farsighted Marine Mammal Protection Act, which for the first time committed this Nation to protecting marine mammals.

In Florida, however, we have recently discovered that our State aquatic preserves law's language offering dolphins in preserves special protection is apparently preempted by the very law that was originally designed to protect the dolphins. The State isn't happy about this ironic twist, and I don't imagine the dolphins are, either because they are being captured for commercial display and sentenced to life in a small tank, being stared at.

Like its recent record on dolphins, the Federal Government's record on oil in Florida is not good. In the time it took the Federal Government to stop arguing among itself last week, an oilspill might already have reached the everglades, not to mention our mangrove forests, coral reefs, and the pristine white beaches so critical to our economic livelihood and way of life.

We feel very strongly in Florida about protecting our coasts, and we do

not feel comfortable in abdicating our ability to protect them. We are worried, based on past experience, about the possibility of a bureaucrat in Washington serving as the ultimate arbiter on how clean our beaches should be, on whether an oilspill occurred in a sufficiently critical waterway to merit cleanup, on what standard of financial responsibility we have the right to require when a tanker runs aground on our jagged coral reef.

Yes, Mr. Chairman, based on our experience in Florida, we are worried about our State's right to protect itself. And if it can happen to us, it can happen to you in your State, in your district.

Protecting States rights is not going to create a free-for-all assault on oil companies' pocketbooks. Twenty-eight States currently maintain their own, preemption-free, oilspill funds and laws, and yet this has not happened. As the director of my State's oilspill fund told me, the State funds have not played an adversarial role to the Federal funds we have now. Rather, they have played a complementary role.

If oil companies were to lose their liability insurance, if differing standards of financial responsibility were to make shipping traffic impossible, if different State laws were to drive shippers out of business, then this would have already happened under current law. Clearly, it has not.

We are not talking about manufacturing some new antibusiness State right. Rather, we're talking about protecting an existing principle that has worked well for over 200 years.

□ 1330

Mr. TAUZIN. Mr. Chairman, I yield 2 minutes to the gentleman from Texas [Mr. FIELDS].

Mr. FIELDS. Mr. Chairman, I rise in strong opposition to this amendment which strikes the State preemption language in H.R. 1465.

Mr. Chairman, for the past 9 years I have strongly supported the creation of a comprehensive Federal oilspill cleanup fund and I have shared the frustration of our inability to move this legislation through the other body and see it enacted.

While the State preemption provision has been an impediment, it is, nevertheless, a critical component of this legislation. Let me tell you why I oppose this amendment.

First, I think it is inappropriate to frame this debate on preemption as whether you are "for" or "against" States' rights.

Rather, the real question is whether you support a truly comprehensive Federal system which will fully compensate victims of an oilspill, or you support the continuation of a patchwork of State laws which are confusing, inadequate, and incapable, in many cases, of fully compensating injured parties or cleaning up the environment.

While the majority leader in the Senate fondly talks about the State of Maine's cleanup fund, and I will grant you that it is one of the more progressive State oilspill laws, what he does not emphasize is that Maine's fund is capped at a mere $4.5 million.

Mr. Chairman, we all know, from the tragic experience of the *Exxon Valdez* that $4.5 million wouldn't begin to compensate those affected by a major oilspill; it wouldn't begin to pay for cleanup costs; and it certainly wouldn't begin to restore damaged natural resources.

Mr. Chairman, what would have happened if you had a tanker spill the size of the *Exxon Valdez*, which wasn't the result of gross negligence, occur off the coasts of Maine, North Carolina, or Texas? Without this comprehensive Federal fund, the State funds would prove wholly inadequate for cleanup, and individuals and businesses would have to spend years trying to receive some, if any, compensation for their injuries.

I think it is time we stop the confusion and costly litigation delays to providing individuals with one Federal fund which they can go to under one set of clearly defined liability laws so that they will receive fair and full compensation in a timely manner.

It is also important to recognize that our State preemption language does not, in any way, prevent States from having or creating oilspill pollution funds. In fact, it will complement those efforts and will allow States to target their more limited resources for such vital activities which the Federal fund is not specifically designed for, such as oilspill equipment purchases, training of personnel, and research and development of oilspill control technologies. Instead of undermining State pollution control efforts, our State preemption language enhances the States' ability to maximize their resources.

Finally, Mr. Chairman, I want to highlight my own State's oil pollution cleanup fund which was established by the Texas Legislature with its enactment of the Coastal Oil and Hazardous Substance Spill Prevention and Control Act of 1975.

This landmark law created the Texas Spill Response Fund whose primary purpose is to cleanup and remove any hazardous substance, including oil, from the Texas coastal environment. This fund, which is capped at $5 million, is not, however, designed to be a primary source of compensation for those who experience financial hardships as a result of an oilspill. In fact, the State law does not provide any assurance that an injured citizen or affected business, like a hotel, will be compensated for their economic losses. By contrast, H.R. 1465, as it is currently written, will provide compensation to all injured parties.

Mr. Chairman, I strongly believe that the citizens of my State should receive the protection and the financial benefits that it offers to those who may suffer from a future oilspill off their shores.

Frankly, Texas and this Nation have waited long enough for this comprehensive Federal fund and if the Senate majority leader or anyone else desires to once again kill this legislation then they will have to answer to the people of this Nation. By passing H.R. 1465, without this amendment, we will be passing a strong oilspill liability and compensation bill, and the American people will know that the House of Representatives has once again done its part to protect us from future oilspills.

Mr. Chairman, let us, as we have for many previous Congresses, retain this preemption provision which will eliminate the present patchwork system which has proven inadequate. This legislation provides the certainty of an unlimited Federal fund where damaged parties can receive full and expeditious compensation.

Mr. Chairman, I urge my colleagues to carefully review this amendment and not to blindly support it because its sponsors have characterized it as a way to punish the oil industry. If you truly want an effective and strong Federal oil pollution cleanup program—then the only vote is a no vote on this ill-conceived amendment.

Mr. MILLER of California. Mr. Chairman, I yield 30 seconds to the gentlewoman from Washington [Mrs. UNSOELD].

Mrs. UNSOELD. Mr. Chairman, I rise in strong support of this amendment. This legislation has been 14 years in coming. It is better than it was in 1975, but it is going to be best when we complete the amendment today, including the adoption of the Miller-Studds amendment.

Mr. Chairman, I urge our adoption of this today.

Mr. Chairman, today we have the opportunity to take advantage of the sad lessons that we have learned from recent oilspills and pass legislation that will both improve tanker safety and response capabilities and provide fair compensation to those who are harmed by these environmental disasters. The legislation before us today improves current law in many important ways. In particular, it vastly improves our Nation's ability to prevent and respond effectively to oilspills.

Nevertheless, the bill can—and must—be improved.

First, Federal oilspill legislation should articulate clear goals and standards for cleanup and restoration. It must require that cleanup standards meet the more stringent standards applicable under an affected State's environmental laws as well as minimum Federal standards.

Yet the bill before us today does not meet this requirement. It gives the Federal Government—not States—the authority to determine when the cleanup is complete.

Individual States only have to look to the Valdez spill to see the ineffectiveness of the Federal Government in dealing with oilspills. Despite touting himself as the "environmental President," George Bush has failed to show any leadership on the most severe environmental disaster in this decade. His administration has taken no steps to bring Exxon to court and hold it liable for the damage it has caused. And now, Exxon has packed its bags with no promise of returning and no protest by the President.

How clean is clean, and should States have a say in this decision? Or must they settle for what the Federal Government tells them is clean? I gathered these oiled rocks from a beach in Alaska that had been certified as clean. I urge my colleagues to look at it. Then I ask that you support the Miller-Studds amendment to require that cleanups be consistent with State laws and cleanup standards.

My second concern is that this bill would also preempt State liability laws. In the State of Washington and many other coastal States, there are very tough liability laws to help ensure that the industry exercises the highest standard of care and not be let off the hook in the case of an accident. No one argues that we need a comprehensive system regarding oilspills. But, why now after recent oilspills expose the shortcomings of Federal oilspill response capabilities, should we deprive State Governments of the right to protect their citizens?

The single Federal standard of liability estability established by this bill is certainly a necessary minimum. This is the same approach taken in the Clean Air Act, the Clean Water Act, the Superfund law, and even the four existing Federal oilspill laws that we are attempting to consolidate here today. None of these Federal laws, however, preempts the States' authority to impose stricter standards. Federal law does not prohibit the States from requiring cleaner water, cleaner air, or safer hazardous waste disposal. Why should policy be different for oil pollution?

Mr. Chairman, I have not heard a satisfactory answer to this question, and I would therefore urge my colleagues to support the Miller-Studds amendment which preserves the basic rights of States to protect their citizens and their environments.

Mr. TAUZIN. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I realize that when we debate on the floor sometimes we exaggerate. Sometimes we are given to some hyperbole. The fact of the matter is I think we can agree on one thing. This bill, this massive comprehensive oilspill liability response bill, is superbly improved over every other version that has come before this House. It has an unlimited Federal fund upon which victims may be compensated and natural resource damages may be restored. This unlimited fund will be paid for by the oil and gas companies who move oil and gas products and other refined products through our waters.

Second, this bill does not do what other bills did in terms of preemption. It does not say to States that they cannot have their own State fund. They can. It does not say to States that they cannot tax the oil and gas companies, too, if they want to. They can. It does not say to States that they cannot clean up even further than this bill may have cleaned up if they think further cleanup is necessary, and they can keep taxing the oil companies until they clean it up as satisfactorily as they want. It allows the States that full range. It does not say to States they cannot fine to the brink, if they want, someone who has violated their environmental rights by polluting their environment.

Mr. Chairman, it does not do any of those things. It preserves all those rights for the States.

Mr. Chairman, it simply does one thing which the Miller-Studds amendment wants to undo, and that is sets up a comprehensive Federal system for liability. Without a comprehensive system for Federal liability, this is what we get: We get a bunch of State laws, each of which may be different, establishing rights of claimants to the Federal fund.

Now imagine a spill that is spilled along the coast that affects two States. In one State citizens are allowed to sue for all kinds of exotic claims. In another State they are allowed to sue for the same things, the basic claims that are provided in this Federal regime.

What happens to the equity in the relationship between citizens in this Nation under this Federal regime? It is gone. What happens to the fund when one State can in fact rape it by providing all kinds of exotic liability schemes to take money out of the fund for its citizens when the fund might not then be available for spills that occur in other States where other citizens need protection?

Listen. I come from Louisiana. We believe in States rights; my colleagues know that. I am telling my colleagues that this is not a States rights issue. This is not even a preemption issue in the real sense that we have debated preemption. We give the States all its rights, establish its own fund, tax to the limit, if it wants to. We simply say that citizens in one State are entitled to the same liability claims that citizens in another State are entitled to, and that ought to be preserved on this floor. The Miller-Studds amendment destroys that basic right of one citizen to the same treatment in one State that he might receive in another.

Second, the Miller-Studds amendment goes further. It says that any State can declare when it wants to when the Federal funds should be spent in a cleanup. Now we preserved for the right of the State to clean up as far as it wants to within its own fund, but we say that our Federal officials in charge, our Coast Guard Commandant, makes the decision in consultation with the State when our Federal fund is used up. To do what the Miller-Studds amendments wants us to do is to give to the States, whichever State is involved, the right to rip that fund up again and make it unavailable for other citizens because it determines when the fund stops paying out in that State.

Now, look. We have never done that in other systems. We do not allow States to come to the HUD agency, for example, and take all the money out it wants to the detriment of other States who need housing funds. We do not allow them to come to the Transportation Department and build all the roads they want in one State to the detriment of other citizens in other States.

We set up a Federal system, and we share it. We make sure citizens are treated the same in one State to the next. That is what our bill does. To adopt the Miller-Studds amendment is to destroy that comprehensive system.

Finally, let me make one final point. Our bill provides for an insurance program for America. It states to people that are going to be transporting the oil. "You have a deductible, you have a liability. If you're not grossly negligent, you're protected by that liability limit, and beyond that you almost put into an insurance fund for America."

Mr. Chairman, it is an insurance policy. What the Miller-Studds amendment says is, "Forget about your deductible limit, folks. When you buy this insurance policy, you still have to keep paying forever, regardless of the insurance policy limits. If the State wants you to pay forever into this fund, you have to pay forever."

This bill is awfully well crafted. The Miller-Studds amendment destroys its basic comprehensive integrity and its equity relationships with citizens from State to State.

I urge my colleagues to think about it. I may not change any of my colleagues' minds, but I hope I could. I may not because I know the environmentalist community has said to my colleagues, "This preemption thing is a tough vote for you."

□ 1340

But think about it for a second, think about it for just a minute. If what you do by adopting the Miller-Studds amendment is to destroy the integrity of this bill, what have we accomplished?

AMENDMENT OFFERED BY MR. TAUZIN TO THE AMENDMENTS EN BLOC OFFERED BY MR. MILLER OF CALIFORNIA

Mr. TAUZIN. Mr. Chairman, I offer a perfecting amendment to the amendments.

The Clerk read as follows:

Amendment offered by Mr. TAUZIN to the amendments en bloc offered by Mr. MILLER of California: Strike subsection (b) and insert in lieu thereof the following:

"(b) On Page 53, line 13, insert after the period, the following sentence:

"Nothing in this Act shall affect the ability of a State to require an owner or operator of an onshore facility located within the State to establish or maintain evidence of financial responsibility."

Mr. TAUZIN. Mr. Chairman, this perfecting amendment would strike subsection (b) of the Miller-Studds amendment. Subsection (b) in effect to the Miller-Studds amendment allows each State of the Nation to make a separate requirement of financial responsibility upon those vessels, those barges, those tankers, or ships which may come through the State's boundaries, its river systems and its harbors.

Now, at first blush you say, well, why should not the States be able to require separate responsibility requirements upon those shippers who pass through its borders?

Well, while that may seem like a good idea to some, think about what you are doing. What you are saying, for example, to the inland barge industry that when it moves an oil barge up or down the Mississippi River or through any of the river systems of America, that as it crosses State boundaries it can then be required by each State it passes through to have separate requirements for financial responsibility as it goes through.

In connection with the main thrust of the Miller-Studds amendment then, that barge operator becomes liable, has perhaps unlimited liability and each one of the States it passes through and is required to submit to that State its own financial responsibility requirement.

The gentleman from New York [Mr. LENT] made a point earlier that I want to rememphasize, and the gentleman from Louisiana [Mr. HAYES] made a point that perhaps I should reemphasize, too. If what you want to do is raise the cost dramatically of shipping oil refined products through America by allowing each State this extraordinary right to impose unlimited liability and unlimited financial responsibilities requirements upon the interstate shippers of oil and gas products, then I suppose you ought to vote against this amendment I have offered.

If on the other hand you want the financial responsibility requirements of this bill to be the source by which we determine the responsibility of interstate shippers, which by the way is a very strong provision in this bill, so that you have one system that works for every shipper going through your State and mine, all our States collectively, then I suggest you want to vote for this amendment.

If you want the price of oil and gas products to go so high in your State that some of your utility consumers will be hollering pretty loudly at you one day, then vote against this amendment, because what this amendment will do if it is not adopted, the Miller-Studds amendment, will effectively raise the cost of transporting these products through the State.

Now, that may help Louisiana and Oklahoma and Texas and a few other States that ship by pipeline, but it is going to hurt the dickens out of those who depend upon tanker and barge shipments to keep the fires burning in the cold of winter.

I suggest that this amendment at least preserves the one feature of our bill which I think is credible, and that is that Interstate Commerce has one evidence of financial responsibility, a good strong one to meet within the context of this bill, and it does not, however, have to address the same requirements over and over again as it passed through the various States.

Now, this amendment preserves, if you read it, it preserves the right of the States to impose upon the owner-operator of an onshore facility located within that State evidence and maintenance of that evidence of financial responsibility; so we preserve in our amendment the right of the States to effect financial responsibility requirements upon those facilities that are located specifically within the State by preserving in our bill the obligation of the Federal regime to require financial responsibility upon those interstate carriers.

Now, think about it carefully. Think about the effect on utility bills in your State. Think about the inability of some in the barge and towing industry to get insurance to meet one after another of unlimited liability responsibilities and financial requirement of each and every State they pass through. Think about that for a second and decide for yourselves today just how much you want your consumers to pay.

This is not an issue whether they will have protection. They will have it under the Federal regime. This is an issue whether or not you want those shippers to have to provide it over and over again at the expense of your utility consumers.

Mr. Chairman, I urge the Members at least to adopt this perfecting amendment if you want to preserve the integrity of our financial responsibility regime and keep your utility prices down.

Mr. STUDDS. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, I have to express my bewildered appreciation to the delegation from Louisiana for their newfound concern for utility rates. Elsewhere in the country we are deeply gratified and hope that concern will last. I assume that means that all those old bumper stickers that began "drive 90 and" have been destroyed.

Mr. Chairman, this is the first of what will be at least as far as we know two or three amendments offered in the guise of so-called perfecting amendments, which are in fact killer amendments, which go to the heart of the question before us. The question for Members is whether or not we ought to preempt State law. The gentleman from Louisiana, we believe, and perhaps some other Members, will try to pick apart various segments of the Miller-Studds amendment. The fact of the matter is that either we support that amendment and the proposition that we ought not to be speaking for the States in terms of what they may or may not do, or we do not.

This amendment goes right to the heart of the issue we are debating today. Requiring a person shipping or storing oil to obtain pollution insurance is the best method of encouraging that person to observe a high standard of care in his operations, and the surest guarantee that compensation will be available from the spiller should an incident occur.

For that reason, we require evidence of financial responsibility in the Federal bill. The question is whether we should deny that same right to state Governors and legislatures.

The Tauzin amendment would deny that right. It would deny Alaska the right to seek protection from Exxon for shipping oil through Prince William Sound, or from Alyeska for loading oil onto vessels at the port of Valdez.

It would deny the people of Seattle the ability to make their own judgment about what is adequate to compensate their citizens should an oil tanker break apart in Puget Sound.

It would deny the people of Florida the right to seek extra protection for the Florida Keys.

It would set the same insurance standards for all vessels, all coasts, all conditions—$1,200 a ton. That's equal to about $100 million for the largest vessels.

Is that enough? Is $100 million enough protection—a high enough standard of care—for the coasts of California and Oregon? For Long Island Sound, and the Jersey shore and the Carolinas? For the Great Lakes? For the bayou? Is $100 million enough? Are there no special places, not ports or stretches of coastline or bays or sounds that Deserve something more than least common denominator treatment from this Congress?

Now, I want to be clear on this. Many States—probably most States—

will rely on the Federal standards contained in this bill. They will decide in the future, as they have in the past, not to impose additional insurance requirements on the industry. The question is, whose choice should that be? Theirs? Or ours? I submit it is not our choice to make.

I would also ask Members to ask themselves, what problem is this amendment designed to solve? The fact is that there is no problem. States have always had the authority to impose their own insurance requirements on oil tankers and both the Republic and Exxon have survived. Both will continue to survive if this amendment is defeated.

Mr. Chairman, this amendment is a will-intentioned amendment. But it is not a good amendment. I urge its defeat.

Mr. STANGELAND. Mr. Chairman, I move to strike the last word, and I rise in support of the Tauzin amendment.

Mr. Chairman, I rise in strong support of the Tauzin amendment.

I think the distinguished gentleman from Massachusetts just elucidated why the Tauzin amendment ought to pass when he discusses different financial responsibilities for Seattle, for Alaska, for Florida, for the bayou, or whatever.

The financial responsibility in this legislation is certainly generous and adequate to meet the needs to protect those States and their unique problems.

There is certainly precedent for the amendment of the gentleman from Louisiana in that the Superfund law preempts State financial responsibility laws for vessels and facilities involved in the manufacture and handling of hazardous materials, so there is precedent that this House has set, that there is entitlement of the Federal Government to preempt certain responsibilities of State governments.

You know, I initially am a very strong supporter of States' rights, but I would have loved a much stronger preemption section. We have come a long way in yielding certain rights to States that I thought were better held when you consider oilspill Superfund, far better held by a Federal regime. If we were to duplicate the Federal regime in a whole host of States, we really would have little use for a Federal law, a Federal fund. We are currently protected adequately, but we need something that has some sense of comity, some sense of direction in a Federal regime, something that pulls together a whole host of State concerns and sets up a playing field and a set of rules and a set of protections that has some sense to it.

I would certainly urge my colleagues to support the amendment of the gentleman from Louisiana.

Mr. Chairman, I rise in strong opposition to the en bloc amendment offered by the gentlemen from California and Massachusetts. It would thwart our efforts to reform the existing patchwork of oilspill laws, grind cleanups to a halt because of intergovernmental disputes, and unravel the delicately balanced compromise reached among the leadership and the authorizing committees.

First, one of the most troubling aspects of the amendment is the fact that it is en bloc. There are too many controversial issues to be packaged together as one amendment. State liability laws, courts, financial responsibility requirements, and cleanup decisions merit separate debate and voting.

Next, let me address preemption. I can appreciate the gentlemen's concerns about States rights. My record on protecting States' rights is a consistent and strong one. But in the oilspill arena, it doesn't make good sense or policy to establish a new Federal liability regime without some measured degree of preemption. Ten years of congressional debate and subcommittee hearings bear this out.

One of the problems we are trying to solve in this bill is the existing patchwork of Federal and State liability laws. This crazy quilt encourages complicated legal quagmires and delayed compensation to victims. Ambulance chasers—or I should say barge or tanker chasers—can file lawsuits under various State laws hoping that one will prove more favorable than the other. For coastal and inland spills affecting many jurisdictions, we need consistency and uniformity.

Only the trial lawyers will benefit if we adopt the gentlemen's amendment and decide not to reform existing law. In truth, we will defeat one of the bill's overall purposes if we agree to add another layer to the patchwork rather than establish one consolidated, workable regime.

The amendment also undercuts the compromise that is the heart of our bill. H.R. 1465 establishes an expansive new Federal liability system to make the polluter pay and a potential $1 billion fund to ensure cleanup costs, natural resource damages, and economic third-party losses are compensated quickly and adequately.

With these greater legal remedies, States and their citizens will also have more opportunities and resources to prevent and cleanup spills. This includes immediate access to the fund when recovering cleanup costs, a $250,000 direct draw authority, improved opportunities for spill notification and cleanup consultation and special status for State officials as natural resources trustees. We have also made sure that nothing in the bill prevents States from retaining their own trust funds, taxing mechanisms, and oilspill programs. This is a major concession based on previous House bills over the last decade.

In exchange for these benefits, as well as expected benefits from the international protocols, States are asked to follow the bill's liability and compensation rules. This is a reasonable approach and is preemptive only to the extent necessary. For example, States can still enforce their own penalties and Federal financial responsibility laws. Nothing in the bill affects State laws on personal injury or workers compensation, either. Nothing prevents States from using their own trust funds or cleaning up sites on their own initiatives.

A related preemption issue involves financial responsibility. Preemption of State financial responsibility requirements goes hand-in-hand with preemption of liability laws. It allows interstate commerce to move without undue burdens or duplicative financial insurance requirements from State to State. Shippers and carriers need to know that the rules of the game are not going to change in each State. Even the Superfund law recognizes that basic concept. It establishes Federal financial responsibility requirements and then preempts States from having any other financial responsibility requirements.

Finally, let me address cleanup standards and Governor's vetoes. Our bill presents a compromise. It requires the Coast Guard—or EPA when appropriate—to work in close cooperation with the States in every aspect of oilspill emergency response and long-term cleanup. Cleanups must be consistent with the national contingency plan. This document already reflects significant input from and concerns of the States. We also require Federal cleanup officials to make all critical decisions in consultation with State officials.

But, Mr. Chairman, we draw the line when it comes to giving the Governor a complete veto over cleanup decisions. We're talking about huge spills with millions of dollars in cleanup costs, Federal resources and manpower and the use of a Federal trust fund. Individual States should play an integral role in the program—particularly when their resources are at stake and their citizens are threatened—but they shouldn't have a total veto power. Even the Superfund law, which gives States a significant role in cleanups, refrains from giving Governors such authority.

One of the lessons we've learned from the *Exxon Valdez* cleanup is the importance of having a clear chain of command—a field general to call the shots quickly and coordinate all available resources in times of emergency. We've also seen how the process can become so politicized and bogged down

in multilayered bureaucracies that we waste precious time and resources—both human and natural.

It may sound good on paper to give the Governor a veto and to require cleanup to meet any and all State laws but in reality it makes little sense and will become counterproductive.

Mr. Chairman, H.R. 1465 is meant to strike a balance between those who want complete preemption and those who want no preemption and those who want to give Governors complete vetoes over cleanup decisions. I respect the gentleman's intentions but believe their amendment will prevent our continued progress in moving an acceptable compromise. H.R. 1465 is a good faith effort to end the stalemate over oilspill legislation.

Therefore, Mr. Chairman, I urge my colleagues to support the committee-sponsored bill and oppose the gentleman's en bloc amendment.

□ 1350

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. STANGELAND. I am happy to yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, I think it is important to point out the bill as it is currently drafted guarantees to every citizen of each State that they will be promptly and fully compensated for cleanup costs and damages even if the spiller is unknown, if he denies liability, or even if he is not financially capable. So this added requirement of financial responsibility State to State, region to region, is just superfluous and costly, and I think eventually will be costly to the consumer.

Second, it guarantees to each State the right to tap into that fund in addition to the financial responsibility limits to the tune of $250 million if it needs to immediately. Those are the kinds of protections we already have built in for the States.

Mr. MILLER of California. Mr. Chairman, I move to strike the requisite number of words, and I rise in opposition to the amendment.

(Mr. MILLER of California asked and was given permission to revise and extend his remarks.)

Mr. MILLER of California. Mr. Chairman, as my colleague, the gentleman from Massachusetts [Mr. STUDDS], pointed out, we are now engaged in a process by which a number of amendments will be offered on the floor to try to unravel and to gut the Studds-Miller amendment to the committee bill.

It is the intent of the Studds-Miller amendment that we preserve the right of States to fully protect their citizens and their natural resources against a catastrophic oilspill like we witnessed this last year in the Gulf of Alaska.

Let us ask: Why is it that we do that? Why would we give the States the right to ask oil companies and shippers to demonstrate financial responsibility, a right which exists in the States today under current law, a right that would be taken away under this bill if it was passed without the Miller-Studds amendment? The reason we do that is because what we recognized after the Prince William Sound accident was that when we move oil around this country, when we move oil from overseas to the United States or from Alaska to the lower 48 States, we are using the resources, we are using the economies of these States. When we move oil down the east coast, we are moving it along the inland waterways. We are moving it off of Myrtle Beach, off of Hilton Head, economies that are important to the States of those regions. When we move oil into the Pacific Northwest, we move it through Puget Sound, a huge tourism economy, a huge fishery important to the State of Washington. When we move oil into San Francisco Bay, we are talking about one of the leading tourism economies in the Nation, an economy that can be destroyed because the bay is what attracts people to that city, to that region. Hundreds of oil tankers come into my district with its four or five oil refineries, one of the largest ports in the world for moving oil, which is in my district. They are using the resources of that district.

We think the State of California, as the legislature now has under consideration, has the right to ask tanker operators to post a bond. We think the State of Alaska has the right to ask them to post a bond.

In the bill, what are the bond requirements? $100 million? $115 million? We now find that is less than 5 percent of what has already been spent on the *Exxon Valdez.* That is what we are asking, to protect the Florida Keys, a State resource that attracts hundreds of thousands of visitors, to Key West, to Key Largo, to other areas. We think that what our amendment does is let the marketplace set the standards of care, because if you have to go to an insurance company and you have to ask for a bond to ensure your systems, that is a strong incentive to operate safely. This is done all of the time in the chemical and the oil industry. To ensure systems against catastrophic failures, you get an audit and they tell you your ship is a little old or your ship is not suited for this kind of traffic through Prince William Sound. That is what will happen if Miller-Studds is enacted. We want to make sure people exercise a high standard of care, and the States should be protected in their right to impose insurance requirements.

We will have this amendment by the gentleman from Louisiana [Mr. TAUZIN], and we will have other amendments by the gentleman from Louisiana [Mr. TAUZIN] and others that will try to strip away the ability of States to protect their citizens, to protect their natural resources, stripped away by reducing their ability to ask for financial liability, stripped away by reducing their ability to impose liability on the shippers that use those waterways, that use those resources. We cannot let that happen. If we do, the end result will be that we will be rewarding the *Exxon Valdez* spill, because the law will require less stringent requirements on them than under current law. That cannot be the case. We cannot allow that to happen.

The Studds-Miller amendment is about the preservation of States rights. It is about making sure that, in fact, the liability from an oilspill, as we have witnessed, can in fact be covered, and that cannot be assured under the committee bill without the Studds-Miller amendment.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. MILLER of California. I am happy to yield to the gentleman from Michigan.

Mr. DAVIS. Mr. Chairman, I just wanted to say that I do disagree with one of the things the gentleman said and that one of the other gentlemen said, that some of the amendments that are being offered are trying to gut the bill or gut the Miller-Studds amendment. I do not think that is true. I think what some people are trying to do is to make what we consider to be perhaps some amendments to the amendment of the gentlemen.

The CHAIRMAN. The time of the gentleman from California [Mr. MILLER] has expired.

(By unanimous consent, Mr. MILLER of California was allowed to proceed for 1 additional minute.)

Mr. MILLER of California. Mr. Chairman, I yield to the gentleman.

Mr. DAVIS. Mr. Chairman, that will make the gentleman's amendment a better amendment, so I just want to say that I do not agree that we are trying to gut or that some people are trying to gut it.

I may end up supporting the amendment of the gentleman, but I may end up supporting some amendments, including the Tauzin amendment which is before us now, which will hopefully make the amendment offered by the gentleman a better amendment.

Mr. MILLER of California. I thank the gentleman, and I urge rejection of the Tauzin amendment.

Mr. SHUMWAY. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I do not want to needlessly prolong this debate, but I think there are two or three points that need to be made with reference to the Tauzin amendment. One of them is that we should realize that when we came together to form this more per-

fect Union, we recognized that there would be some of the so-called States' rights that would have to be relegated to the rights of the whole and relegated to the Federal level of responsibility.

We recognize some of those rights as coming within the area of interstate commerce. I am sure that all of us in this body, coming from the several States as we do, have strong loyalties for our own States, and all of us would stand and say that we support States' rights, and certainly there is nothing wrong with doing that.

I think, at the same time, we could all be very much in agreement that shipping, the transport of oil, is something which very clearly comes within interstate commerce and, therefore, very clearly is something which should fall under a system of Federal law. That is all we are seeking here.

Those who are antagonistic to this amendment have said there is nothing wrong with the system we have had in the past; it has worked. It has worked, but with some very spotty successes. We see that it did not work very well in the Alaska spill, and that is why we are trying to improve upon what we have had in the past.

We have seen that a way to improve upon the past patchwork system is to recognize what is interstate commerce and bring it within the Federal framework, and then allow those things that still lie within States' operations to stay as State's rights. This is something which I suggest very clearly comes within interstate commerce. It calls out for a Federal uniform system of law, and that is all that the Tauzin amendment seeks to accomplish.

Second, let me just make the point that the requirement of evidence of financial responsibility does not mean that compensation will be limited to those levels of whatever financial responsibility might be the case. The reason that we are putting in place this fund is to provide that behind that initial layer of responsibility there will be an unlimited source which can be tapped to pay those who may be claimants, those who have been harmed by an oilspill.

□ 1400

And that fund is designed to fully compensate all victims. So if indeed the limits that we are asking for in this bill are too low, then let us have an amendment to raise them up rather than an amendment to strike them out and let States have their several conflicting, patchwork systems as has been the case in the past.

Finally, Mr. Chairman, let me just reiterate that when we vote upon this amendment we should realize that a vote for the Tauzin amendment is not a vote against preemption against State liability. This is simply a perfecting amendment to the Miller-Studds amendment which does provide for the preemption of State liability.

I would urge Members to support the Tauzin amendment.

Mr. McMILLEN of Maryland. Mr. Chairman, I move to strike the requisite number of words and I rise in strong support of the Miller-Studds amendment, as is, without amendment.

Mr. Chairman, I stand in strong support of the Miller-Studds-Gross-Schneider amendment as is without amendment to H.R. 1465. Over the past few weeks it has become quite evident that this is a constructive refinement to the oilspill liability bill. Based on the longstanding regard that the Maryland State government has had in the past for the health of the Chesapeake Bay, it was only logical that Maryland moved ahead expeditiously to institute oilspill liability laws. These laws, and the accompanying oilspill fund stand as model State legislation, and it is often emulated by other States. To mandate that such laws should be preempted by a new, possibly weaker, Federal law is unreasonable. Such a move would destroy the carefully built consensus in the Maryland State House that permitted this landmark bill to pass. Further, Maryland's laws are crafted in such a way as to reflect the special and unique qualities of the Chesapeake Bay. For example, an oilspill in the Chesapeake Bay would be especially harmful, as the specific water flow dynamics of the bay are such that a spill would be trapped inland for a long while, especially since the Chesapeake is unable to flush itself as efficiently as other estuaries. Maryland law reflects this particular characteristic, and makes adjustments for it. We would not be able to fine-tune a Federal statute as exactly to accommodate the special features of the Chesapeake.

For these reasons, and others cited by my colleagues, I ask that you actively support the passage of this thoughtful amendment.

Mr. HAYES OF Louisiana. Mr. Chairman, I move to strike the requisite number of words and I rise in support of the Tauzin amendment.

One point which I feel should be made and has not been completely addressed is the fact that under the interstate commerce clause we have an obligation among States in a collective union not to restrict the commerce of each other. If we were to adopt without the additional language offered by the Tauzin amendment the Miller-Studds amendment we would, in effect, be saying that some coastal States can determine the means by which commerce will be engaged in the heart of the Mississippi Valley.

To give an illustration, for example, the gentleman's home State of California declares through a responsibility a standard which is prohibitive, which does not allow the coastal areas of California to become the subject of commerce, the answer will be that other alternatives will be found. We are not going to do away with the demand for oil and gas, but the other alternatives might very well impede the ability of the State of Nevada to have its energy costs maintained at present levels, and might double or triple the energy costs in, for example, the State of Alabama, the State of New Mexico. For that reason, the courts have for years looked toward an interpretation of the interstate commerce clause showing a Federal authority that is higher in this field.

The real issue is one that is more emotional, and I think one that is heartfelt by the gentleman from California. Of course all of us are interested not only in the areas of our representational responsibility, but those parts of America which we all cherish. Each and every one of us that has had an opportunity to even briefly visit the Eastern Shore of Maryland would never support any provision, any law that would in any way inhibit the beautful area from staying so. But that is where we are incorrectly distinguishing or trying to merge the issues of liability and the standards of care with the mechanism of cleanup.

No law we pass is going to make it impossible to spill petroleum. No law we pass in my aviation subcommittee is going to make it impossible for an air crash to occur. What we do is address the aftermath of such an accident, and all that we can do by saying that we are addressing the problem is to have the highest possible safety standards. We have not heard one word to contradict that this bill has the highest possible safety standards.

Second, we maintain a means by which cleanup can be paid for. But I suggest that if we take uninhibited the language of the Miller-Studds amendment, we are not going to have any greater ability to pay. We are going to have a different ability to pay, and we are going to cause a convoluted mechanism by which suddenly there are carriers that are not insured, that there are bootleg operations that are not covered. And if we pass this amendment without a change in the language we are going to have spills, hopefully not in the Eastern Shore of Maryland, hopefully not in the Pacific Coast of California, but we are going to have spills for which no one is liable.

Then we are going to come back to the Congress and say how can that happen. And the answer is going to be the Miller-Studds amendment.

Mr. McDERMOTT. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I was not intending to speak until my colleague from Louisiana got up here and used some of the oldest techniques that are used in legislative bodies. First of all, scare people, talk about things that might happen, talk about things that can happen, but things that are not really quite true.

The gentleman said, first of all, we will raise the price of gasoline or we will raise the price of oil products if we change and allow States to have higher standards than are in this bill. That is already true. The State of Washington already has tougher standards, and what this bill would do is take them away.

The reason that is important is not just to the State of Washington, but it is important to everybody in the United States. The coastlines of this country, many of them, are national parks, and what we are saying in the Tauzin amendment is that we want the oil companies to be able to get under a national law that is less than we require in the State of Washington. That is the first thing that is not true.

It is clear that also my colleague from Louisiana did not pay attention to the amendments that are coming up. We are talking about safety standards. He says this bill has the toughest safety standards. There are subsequent amendments that will come up on double hull tankers. There are many things that we can do to make this bill better.

I urge Members to turn down the Tauzin amendment and to adopt the Studds-Miller amendment without amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from Louisiana [Mr. TAUZIN] to the amendments en bloc offered by the gentleman from California [Mr. MILLER].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. TAUZIN. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 151, noes 270, not voting 12, as follows:

[Roll No. 337]

NOT VOTING—12

Brooks	Garcia	Molinari
Bryant	Jenkins	Roe
Courter	Lloyd	Smith (IA)
Florio	McMillan (NC)	Tallon

□ 1427

Messrs. NELSON of Florida, VENTO, CRANE, and COUGHLIN, and Mrs. MARTIN of Illinois changed their vote from "aye" to "no."

Messrs. SPENCE, BARNARD, and RAHALL changed their vote from "no" to "aye."

So the amendment to the amendments en bloc was rejected.

The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. TAUZIN TO THE AMENDMENTS EN BLOC OFFERED BY MR. MILLER OF CALIFORNIA

Mr. TAUZIN. Mr. Chairman, I offer an amendment to the amendments en bloc.

The Clerk read as follows:

Amendment offered by Mr. TAUZIN to the amendments en bloc offered by Mr. MILLER of California: Strike subsection (d).

□ 1430

Mr. TAUZIN. Mr. Chairman, the sponsors and proponents of the Miller-Studds amendment will try to tell Members when they walk through the doors next time that this is the same amendment all over again. It is not the same amendment all over again. This is an entirely different amendment, and it is an entirely appropriate one, and a necessary one, if you want to protect the integrity of the measure established in this act.

Mr. Chairman, I repeat when Members walk through the doors the next time a recorded vote is called on this amendment, it is likely someone will suggest to them that this is the same amendment over again. Vote no again, it is the same Tauzin amendment we just voted on.

That is not true. It is not even close to being the same amendment. It is entirely different. It has to do with something entirely different than financial responsibility and preemption. It has to do with when, in fact, cleanup is completed using the Federal fund.

This amendment simply deals with the issue of whether or not each individual State will decide for itself, as opposed to the person in charge of the cleanup, the Coast Guard, when, in fact, the Federal funds have been expended sufficiently to clean up the State, and when, in fact, a State wants additional funds spent.

Now, at first blush Members might say well, when there is a spill in my State, I would like to be able to determine for our State that the cleanup is completed. I would hate to have those Federal boys walk away.

The problem is we are dealing with a fund collected here in Washington, DC, that is a Federal fund, one that is for every State.

If you adopt the Miller-Studds amendment without the amendment I am proposing, what you are doing is allowing each State in the Nation to make a determination of how much of these funds it wants to spend in its given State, even though there may be several spills ongoing at the same time.

Let me recall to your attention the time not long after the *Exxon Valdez* incident when there was three major spills in America. There was one in Rhode Island, one in Delaware, and one in Houston, TX.

Now, that should not surprise Members. We have 870 spills a year on average.

There were three spills that same weekend. The Coast Guard was out in three locations trying to help, without the advantage of this bill, cleanup efforts in three different States.

Now, I want Members to imagine the Miller-Studds amendment as passed without the Tauzin amendment. I want Members to imagine three major spills occurring in America.

I want Members to imagine a time when the fund is not yet up to $1 billion, when we are collecting our taxes and have several hundred million dollars collected. The Governor of one State decides he wants cleanup to continue in his State, even though the Federal authorities have determined in consultation with that State that cleanup is completed.

There will be two other Governors out there trying to get their cleanup done, and we will have one Governor saying oh, no, I want the money to continue to be spent in my State.

Under the Miller-Studds amendment, that Governor controls. Under the Miller-Studds amendment the Federal funds is in the hands of that State Governor, so long as he wants to say those funds should be spent in my State.

Mr. Chairman, what we have tried to do in this enormously complex and important bill is to establish a comprehensive Federal system to ensure that every State is protected against oilspills, to ensure that in every State where cleanup is necessary, that funds will be available to conduct that cleanup.

We have preserved for the States the right to have a separate fund in their own State, to tax the oil and gas companies to the hilt if they want to, to have a separate fund to clean up even beyond what the Coast Guard on-scene commander requires to be cleaned up. But we have not permitted the State to decide the issue of when our Federal funds are completed in terms of a cleanup in a given State.

Mr. Chairman, that is the choice Members have with this amendment. It has nothing to do with Federal or State liability laws. It has nothing to do with State or Federal court jurisdiction, whether you sue in the State or the Federal regime. It has only to do with the issue of the provision we have in the bill that requires the on-scene Federal coordinator to determine, in consultation with the State, when the Federal funds have done their job, or whether Members want to adopt the Miller-Studds provision which will give each Governor the right to say that in his own State.

The CHAIRMAN pro tempore (Mr. LANCASTER). The time of the gentleman has expired.

(By unanimous consent, Mr. TAUZIN was allowed to proceed for 1 additional minute.)

Mr. TAUZIN. Mr. Chairman, in conclusion, the choice is simple. This is not the other amendment that Members just voted on. Do not let anybody say it is.

In this amendment, the choice is simple: Do Members want a Federal fund that protects us all, or do they want a Federal fund that each Governor controls? If Members want a Federal fund that each Governor controls, Miller-Studds gives them that Federal fund. If Members want a Federal fund that protects us all, that still preserves the right of each State to have its own fund, to go further if it wants to, then they want to vote for the Tauzin amendment.

Mr. STANGELAND. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I will be happy to yield to the gentleman from Minnesota.

The CHAIRMAN pro tempore. The time of the gentleman from Louisiana [Mr. TAUZIN] has expired.

(On request of Mr. STANGELAND, and by unanimous consent, Mr. TAUZIN was allowed to proceed for 3 additional minutes.)

Mr. STANGELAND. Mr. Chairman, is it not true the cleanups have to be done in conformance and consistent with a national contingency plan?

Mr. TAUZIN. The question is does the cleanup have to be done in conformance with a national contingency plan. The answer is yes.

Mr. STANGELAND. Mr. Chairman, do the States have a role in developing that national contingency plan?

Mr. TAUZIN. The States will in fact have a role in the development of the plan nationally, as well as local contingency plans for the local areas.

Mr. STANGELAND. Mr. Chairman, under the bill that is currently before the House, is it not required that the Governors have to be consulted in a cleanup process?

Mr. TAUZIN. The bill as it presently reads without the Miller-Studds amendment does not allow the Federal on-scene coordinator to declare the cleanup complete until consultation with the State authorities.

Mr. STANGELAND. Mr. Chairman, under our Superfund law, do the Governors have a veto authority over cleanups of Superfund sites?

Mr. TAUZIN. No, they do not. In this bill, the Miller-Studds amendment would give the Governor such a veto authority over Federal cleanups in the case of oilspills.

Mr. STANGELAND. Mr. Chairman, I thank the gentleman from Louisiana [Mr. TAUZIN], and I rise in strong support of the Tauzin amendment.

Mr. DAVIS. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, I had an amendment which I felt was a little superior to this one. The difference between this amendment and my amendment was that I allowed State standards to be followed, as well as Federal standards. This amendment only allows Federal standards. But I still think it is a good idea. In effect, this is what I have.

One of the things that we found out I think from the Alaska disaster was one person has to be in charge, to make the determination of what should be done, and someone ought to be in charge of saying when in fact the cleanup is completed.

What we have now in the Miller-Studds amendment technically is one person in charge appointed by the President in effect, with 50 other people that can say, "Wait a minute, we do not think what you have done is enough and we want you to go further."

Let us take as an example the State of Alaska right now. No determination has been made yet as to whether Exxon has completed their cleanup. But you can imagine if in fact the Governor of that State had the power now to make the determination after the Federal Government said yes, we think it is cleaned up. There is no way that the Governor of the State of Alaska is going to be satisfied.

□ 1440

Mr. Chairman, I ask, What do you have to do? Do you have to clean up every single rock?

I mean we have to have some common sense in this issue, and from a practical political standpoint I cannot see a Governor ever being in the position where he is ever going to be able to say, "well, I think that the Federal Government has cleaned up to our satisfaction," and, if we allow the Governors to have this veto power, it could use up all the money in the fund.

Very simply put, Mr. Chairman, somebody has got to be in charge, somebody has got to be able to make a commonsense decision as to when enough is enough and when the cleanup has been completed.

I suggest that we need to have one person, one agency, in charge of doing that, and we should not be giving the 50 Governors in this Nation that opportunity because, as I said before, from a practical political standpoint they are going to be under pressure from their people to say, "we don't think, no matter how far you've gone, that you've gone far enough," and I just think this is a reasonable amendment.

Mr. Chairman, this amendment does not gut the Miller-Studds amendment at all. I think it makes it better.

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. DAVIS. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, I only want to point out that the bill, as drafted, does not take away the right of the Governor to clean up further than the Federal standards.

Mr. DAVIS. The gentleman from Louisiana [Mr. TAUZIN] is correct.

Mr. TAUZIN. In addition, Mr. Chairman, cleanup, as far as he wants to, as long as he does it with State funds collected in its own State cleanup liability system. We preserve the right of the State to have its own fund, to tax the oil and gas companies and then to use those funds as long as it wants to. So, the Governors still have that right.

The only difference between the Miller-Studds amendment and our amendment is that the Governor does not have the right to indefinitely call upon the Federal fund to go as far as he may want to go.

Mr. DAVIS. Mr. Chairman, I might just say, as the chairman of the subcommittee has pointed out, this is not the same as the last amendment, and I think this is a reasonable, responsible approach.

Mr. Chairman, if my colleagues do not want to have a hodgepodge, I think we ought to support this amendment. It does not in any way, in my opinion, gut the Miller-Studds amendment. My colleagues can vote for this and still vote for the Miller-Studds amendment.

I urge the Members to support this amendment.

Mr. STUDDS. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, let me start by agreeing with the gentleman from Louisiana [Mr. TAUZIN] and the gentleman from Michigan [Mr. DAVIS]. This is not the same as the last amendment. It is substantially worse than the last amendment.

Mr. Chairman, let me say very quickly to Members that there are four components of the Miller-Studds amendment that deal with preemption. The preceding amendment by the gentleman from Louisiana [Mr. TAUZIN] sought to strike one of those components. This amendment seeks to strike another different, and even more important, component.

Mr. Chairman, what is at stake here are the following two things. Are actions taken to clean up a spill pursuant to a higher State standard compensable under the fund? The answer under Miller-Studds is yes. The answer, incidentally, under the Superfund is yes. The answer under this amendment, if adopted, is no.

The other question at issue is: Shall the Governor have a voice in the decision as to when the cleanup action is complete? The answer under the Miller-Studds provision is yes. The answer under Superfund is yes. And the answer, should this amendment be adopted, is no.

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. Mr. Chairman, let me complete my statement, and then I will be happy to yield to the gentleman from Louisiana.

Mr. Chairman, the author of this amendment has apparently offered this amendment because he objects to the premise in the Miller-Studds language that Governors should be accorded an important role in determining when an oilspill cleanup is complete. The gentleman's amendment is based on the premise that Governors are terrible people who will use any power we give them, not to protect their own people, but to destroy the Federal fund. I must say to the gentleman that I have a higher opinion of Governors than that.

In fact, Mr. Chairman, some of the people I respect most in this House have even run for Governor, and I am sure, if elected, they would never abuse their authority or the trust of this Congress.

I must also say to the gentleman from Louisiana [Mr. TAUZIN] that his attitude toward States' rights and States' prerogatives is somewhat startling given the geographic latitude of the district he represents. Perhaps the latitude of his law school explains it.

Let me respond to the substance of the gentleman's amendment with two hypothetical questions.

If a supertanker should split wide open off the coast of Louisiana the day after this bill becomes law, and millions of gallons of oil wash ashore along the gulf coast, should the Federal oilspill fund be available to help clean up that spill in a manner that is satisfactory to the State of Louisiana? And should Governor Buddy Roehmer be able to seek compensation from the fund for oil removal actions necessary to comply with State law?

I believe—and the gentleman from California [Mr. MILLER] and I stipulate—that the answer to both questions should be yes. And for the life of me, I don't understand why the gentleman from Louisiana or any other coastal State would disagree.

The language in the Miller-Studds amendment is identical to language that was approved by the Committee on Merchant Marine and Fisheries. It is identical, in substance, to the standards we use for cleaning up spills of hazardous substances under Superfund. If a chemical is spilled, we apply both State and Federal cleanup standards. Our amendment simply provides that we do the same thing for oil.

Our amendment would not, as some have suggested, give Governors a veto over the Federal response to an oilspill.

Mr. Chairman, I know there are Members on this side who are concerned about that. The gentleman from Michigan [Mr. DAVIS] asked about that earlier.

The response title of this bill is clear. Under the national contingency plan, the responsibility for responding to a spill rests with the appropriate Federal official period. He—or she—calls the shots and the Miller-Studds amendment doesn't change that.

Under our amendment, if the Federal officials decide to stop cleanup operations, they can do so. There is no question about that. No Governor can keep the Coast Guard on the beach after it decides to leave. No Governor can order the Federal Government to keep people under contract. And except as directly specified in the bill, no Governor will have direct access to the Federal fund to carry out cleanup operations.

The difference is that, under the Miller-Studds language, unlike Mr. TAUZIN's proposition, a State has the right to continue cleanup on its own if the Coast Guard walks before the job is done. And they have the right to send the bill to the fund. Or to the spiller. And if the claim is reasonable, if the cleanup costs were, in fact, necessary to meet State standards, the State will be reimbursed from the Federal fund.

That does not seem to us to be an outrageous arrangement.

Mr. Chairman, let me remind Members once again. Are actions taken to clean up a spill pursuant to a higher State standard compensable by the Federal fund? Under the Miller-Studds language the answer is yes. Under the

Superfund law the answer is yes. Under the amendment of the gentleman from Louisiana [Mr. TAUZIN] the answer is no. Should the Governor of a State have a voice in the decision as to when a cleanup action is complete? Under our language the answer is yes. Under Superfund the answer is yes. And under the proposal of the gentleman from Louisiana [Mr. TAUZIN] the answer would be no.

Therefore, Mr. Chairman, we urge the defeat of the amendment.

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, I want to make three points.

The CHAIRMAN pro tempore (Mr. LANCASTER). The time of the gentleman from Massachusetts [Mr. STUDDS] has expired.

(On request of Mr. TAUZIN and by unanimous consent, Mr. STUDDS was allowed to proceed for 1 additional minute.)

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, I want to make the point that the gentleman from Massachusetts [Mr. STUDDS] somehow thinks Governors are terrible. That is a bit unfair. I think most Governors are indeed very honorable people, my own included, even though he was educated in his State.

Mr. STUDDS. Mr. Chairman, I allow for that exception.

Mr. TAUZIN. The gentleman from Massachusetts [Mr. STUDDS] allows that exception, sure.

Mr. Chairman, let me also make the second point, and that is that Louisiana cleanup standards do not come anywhere near, do not come anywhere near, the stringent Federal standards we have established in this bill. If we had a spill in Louisiana, the Federal standards would do a lot more than the Louisiana standards.

Third, I beg to differ with the gentleman from Massachusetts [Mr. STUDDS]. The bill without the Miller-Studds amendment requires the consultation of the Governors, even in my own State of Louisiana, in the cleanup that occurs when the spill occurs in the State; and, second, I want to point out that under the Superfund amendment the States have to ante up 10 percent of the fund before they can in fact call upon that unlimited resource to clean up sites within their States. In this case the States put up nothing to the Federal fund. That is a big difference.

Mr. STUDDS. Mr. Chairman, let me respond, if I may, very briefly to the gentleman from Louisiana [Mr. TAUZIN].

If Louisiana in fact has no stronger State statutes, then there is no problem. There are other States that do and other States that may wish to, and the proposition of the gentleman from California [Mr. MILLER] and myself is that we ought not to make it impossible for them to do so.

With respect to the role of Governors under the amendment of the gentleman from Louisiana [Mr. TAUZIN] the decision to terminate a cleanup would be made by the Federal Government in consultation with the Governor regardless of what the Governor sought. Under the Miller-Studds proposition it makes a difference what the Governor thinks, and, if he has higher standards, he can continue the cleanup. That is basically the difference.

Mr. TAUZIN. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, is it not true that without the Miller-Studds amendment and with the adoption of the Tauzin amendment that the States would still have the right to have their own cleanup standards, that they could have their own fund, they could clean up beyond the Federal standard with their own fund if they wanted to? Is that not true?

□ 1450

Mr. STUDDS. With their own moneys.

Mr. TAUZIN. With the moneys collected from the oil and gas companies.

Mr. STUDDS. That is correct.

The question here is the responsibility of the Federal fund and whether we have the right, whether it is reasonable or not or sensible or not to say to the States, you may not act with the higher standards.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. STUDDS. I yield to the gentleman from New York.

Mr. LENT. The gentleman, I think, correctly indicated that under the terms of his amendment the State can continue to tap into the fund until the Governor of that State is satisfied that the cleanup is entirely completed, is that correct?

Mr. STUDDS. Pursuant to applicable State law, that is correct.

Mr. LENT. Then the gentleman went on to say there was a similar provision in the Federal Superfund law. I have the Federal Superfund law in front of me, and while the Superfund law does provide for consultation with the Federal Govenrment on the cleanup of a Superfund site, there is nothing that goes anywhere near as far as the gentleman's amendment here which would provide that the fund could be held hostage until a given Governor was satisfied that the cleanup was absolutely pristine.

Mr. STUDDS. If I may say to the gentleman, I have the Superfund statute before me, and with respect to the degree of cleanup it reads, and I quote:

With respect to any hazardous substance, pollutant or contaminant that will remain on site, if any standard under any Federal law is met,

And this is the key phrase, and I quote:

any promulgated standards, requirement, criteria, or limitation under a State environmental law that is more stringent than any Federal standard.

That is precisely the reference that I had made.

Mr. LENT. The provision the gentleman read does not require, that is, in the Superfund law does not require the Governor to sign off. Let me read from the Superfund law:

The President—

Meaning the EPA Administrator—

shall consult with the affected State or States before determining any appropriate remedial action to be taken.

It does not give the State Governor anywhere near the authority of the Superfund that is given here.

Mr. STUDDS. That is with respect to determining remedial action. It is not with respect to determining whether the site is clean.

We therefore urge opposition to the amendment.

Mrs. UNSOELD. Mr. Chairman, I move to strike the requisite number of words. I rise in opposition to the amendment.

The gentleman from Louisiana is right. This is not the same amendment that we just voted on.

I would like to point out to this body that in the Merchant Marine and Fisheries Committee we voted to require that cleanup standards meet applicable State laws. Somewhere along the way between the bill passing out of committee and arriving on the floor, that disappeared and it is why we need to place that back in the Studds-Miller amendment.

Federal oilspill legislation should articulate clear goals and ought to meet high standards for cleanup and restoration. Those cleanup standards should be minimally set by the Federal Government and any affected State's environment laws that are tougher ought to have to apply in a cleanup situation.

The bill before us today, without the Studds-Miller amendment, does not do that and it is why we must defeat the Tauzin amendment.

Individual States have only to look at what happened in Valdez to see the ineffectivness of the Federal Government in dealing with oilspills. Despite touting himself as the environmental President, George Bush has failed to show leadership on the most severe environmental disaster in a decade. His administration has taken no steps to bring Exxon to court and hold it liable for the damage it has caused

and Exxon has packed its bags and walked away with no promise of returning and no process by the Government.

How clean is clean, and should States have a say in this decision? I want to show this body, these are pebbles taken from a beach certified as clean. I gathered them last summer from the State of Alaska. You pick them up and you get black. To say that the States should not have authority to say that their laws require a better job than this would be a grave mistake on our part.

Out of any disaster, if we can have a benefit come, we have that obligation. Out of the *Exxon Valdez* disaster, let us provide future generations with the laws that are going to protect them and let us have State law determine when the job is finished.

Mr. Chairman, I urge defeat of this amendment, and I urge my colleagues to examine these cleaned rocks.

Mr. TAUZIN. Mr. Chairman, will the gentlewoman yield?

Mrs. UNSOELD. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, I want to point out that it is precisely the *Exxon Valdez* incident, with the lack of a comprehensive Federal regime, the lack of Federal authority to step in and not only monitor, but actually undertake the cleanup, that this bill is designed to correct. To use the *Exxon Valdez* horror story as an example of what is wrong with this bill, I think is incorrect. The bill is designed to cure *Exxon Valdez*. It gives the State of Alaska every right to set its own standards, to have its own fund, to go beyond whatever cleanup occurred or would occur under this bill.

Mrs. UNSOELD. The purpose of this act is to provide a fund that can be used for the good of all the people. To say that that fund ought not to be used to go beyond what apparently meets the current Federal standard, the current standard by the polluter, I feel is not correct.

Mr. TAUZIN. Mr. Chairman, will the gentlewoman yield further?

Mrs. UNSOELD. I yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, it is not the current standards we are debating today. What we are debating today is an incredibly enhanced Federal standard, a standard better than in most States in the Nation, a standard certainly better than my own State. What we are debating today is a standard far in excess of the standard that existed with the *Valdez* when this awful incident occurred.

Let me make a further point——

Mrs. UNSOELD. I will take back my time.

The standard that we are debating is whether States can continue to decide when a cleanup has been completed, and we are providing a Federal pool of money to the States to use.

Mr. YOUNG of Alaska. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I will have to take exception to my good friend, the gentlewoman from Washington, who just spoke, She infused a partisan political part into this debate and really oiled the waters.

In fact, the more I listen to this debate and while it does support most of the Miller-Studds amendment, I am beginning to wonder why we need this legislation.

The gentlewoman said that Mr. Bush, the environmental President, did not act fast enough. In fact, he acted appropriately, on time, and if he had done anything different, Exxon would have been off the hook. If that is what she wanted, fine. Then we know who she speaks for.

But I am a little bit disturbed the more I hear this debate, do we want a bill? It is sort of being aimed at Exxon and all our domestic oil industry, and it is not even considering what is really happening in our ports. Everybody in this room and everybody who is listening to this great debate today is burning heating oil and gasoline and jet fuel from overseas shipped into our ports on foreign rust bucket tankers. If we do not have a bill that has this Federal fund, when one of them goes aground they are going to walk away from it and your beaches are going to be stained and soiled forever.

Now, we have been debating this issue six times before this House. My good chairman, the gentleman from North Carolina [Mr. JONES] has passed good legislation. Yes, this legislation can be improved, but if we start throwing oiled rocks, if we start making statements and not seek to solve the problem of potential disaster of foreign shipping fleets, then I suggest we go home.

This is an issue that is going to affect everybody in every port. For some reason, there is a group of people in this body that wants to punish the domestic oil industry. I say, go right ahead and we will buy more oil from the OPEC countries. We will become more dependent on those countries each day and our heating bill will go up and our old people will become cold.

For some reason, we have lost sight of where we are heading and what we should be into, and that is a good national oilspill liability bill. The Studds-Miller amendment has some good parts in it. Let us not forget that. They have some parts about which I have deep reservations and I hope are dropped out in conference, and we are going to work for that.

Even Mr.—I will not mention his name—is disagreeable to some of those amendments, some parts of the Studds-Miller amendment.

But I agree with this body. Let us keep it on a high plane and let us not get down to the dirty-dirty level. If you do not, I am going to be back down here.

Mr. STUDDS. Mr. Chairman, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman from Massachusetts.

Mr. STUDDS. Mr. Chairman, I want to thank the gentleman for yielding to me.

I just want to say two things. First of all, while I cannot presume to speak for the gentlewoman from Washington, I want to echo and reaffirm something the gentleman said. We have worked together in this Congress and on this committee and on this bill for more years than either of us care to recall.

□ 1500

If there ever was an undertaking that is thoroughly nonpartisan, thoroughly bipartisan, if there ever was a problem that was singularly nonpartisan, that of oil in the waters, this is it. Members on the Republican side, Members on the Democratic side have worked their hearts and souls out for a decade and a half on that legislation, and no one harder than the gentleman from Alaska.

Mr. YOUNG of Alaska. I thank the gentleman for his comments.

Mr. STUDDS. No one is more distinguished or beloved or more potentially mellowing than the gentleman from Alaska. I also want to say, finally, that is my personal observation for the gentleman, and also in substance, let me say that if one really wanted to do the oil companies in, probably the way to do that would be to not pass this legislation, thereby guaranteeing the very proliferation of State actions that they seek to avoid.

I thank the gentleman again for his role.

Mr. TAUZIN. Mr. Chairman, would the mellow gentleman from Alaska yield?

Mr. YOUNG of Alaska. I am happy to yield to the gentleman from Louisiana.

Mr. TAUZIN. Mr. Chairman, I think it is important to point out that we ought not have any kind of misinformation on the floor. The rocks that are before us, the soiled, oily rocks that are before us are part of a beach the Coast Guard Commandant on the scene has not declared cleaned up. In fact, he ordered Exxon back to that beach to clean it up. That is under the current law. Under the new law, this Coast Guard commander on the scene has even more authority to insist on the Federal standards, and I think we are going to have a unanimous-consent decree to even make the State stand-

ards applicable in that situation to ensure that, in fact, the cleanup occurs thoroughly on Alaskan beaches and Louisiana shores.

I think the gentleman has made a good point. We can go too far here and kill, if you will, the goose that laid the golden egg. If we destroy the ability of the industry to produce and ship oil to us as a result of what we do, we are going to be in trouble here.

More importantly, if we destroy the integrity of a national fund in this zest to get even with Exxon, what good will we have done in trying to perfect a good bill? This a bipartisan effort, and I commend the gentleman for his effort in it.

The CHAIRMAN pro tempore (Mr. LANCASTER). The time of the gentleman from Alaska [Mr. YOUNG] has expired.

(By unanimous consent, Mr. YOUNG of Alaska was allowed to proceed for 1 additional minute.)

Mr. YOUNG of Alaska. Mr. Chairman, I would like to indulge in a colloquy with the gentleman from Massachusetts for one moment.

As I mentioned. I have some reservations about the Miller-Studds amendment and also support many parts of it. But there was a comment made, and I would like for the record to show that in fact in the case of a spill, a tanker goes, God help us, on the reef again, under the Miller-Studds amendment, who is charge of the spill immediately?

Mr. STUDDS. Mr. Chairman, will the gentleman yield?

Mr. YOUNG of Alaska. I am happy to yield to the gentleman from Massachusetts.

Mr. STUDDS. Mr. Chairman, the Federal Government under the national contingency plan.

Mr. YOUNG of Alaska. There is no disagreement about who has the authority to direct the cleanup?

Mr. STUDDS. If the gentleman will yield further, absolutely none.

Mr. YOUNG of Alaska. Mr. Chairman, I thank the gentleman.

Mr. DAVIS. Mr. Chairman, I have a unanimous-consent request, and it would require that the gentleman from Louisiana [Mr. TAUZIN] withdraw this amendment, and that I be allowed to offer my amendment in its place. Simply put, the only thing that it would add would be to allow the words "and applicable State law" to be added in two different sections, but in order to do that, the gentleman from Louisiana [Mr. TAUZIN] would have to agree to withdraw his amendment, and I would offer this.

The CHAIRMAN pro tempore. Does the gentleman from Louisiana request unanimous consent to withdraw his amendment and allow the substitution of the amendment offered by the gentleman from Michigan?

Mr. TAUZIN. Mr. Chairman, if I can get assurances from the authors of the Miller-Studds amendment that they will not interpose an objection to that change.

Mr. STUDDS. Mr. Chairman, will the gentleman yield?

Mr. DAVIS. I am happy to yield to the gentleman from Massachusetts.

Mr. STUDDS. Mr. Chairman, could the gentleman give us a layman's description of the proposed change?

Mr. DAVIS. The effect is it says that applicable State laws shall be part of this law and says that whatever law the State has, the Federal fund will pick up the cost of cleanup, and what it says is that we have to follow Federal law and State law, but that the Governor would not have the right to veto, but it still then would say that we would have to follow the State law, so we would have to do the cleanup, but it would be up to the Federal person in charge to determine whether or not we had met State laws and Federal laws.

Mr. TAUZIN. Mr. Chairman, if the gentleman will yield further, in other words, the gentleman would try to cure the complaint that if a State has a stronger standard than even this national contingency plan, that State's standard would be the standard by which the Federal cleanup administrator would judge when the cleanup is complete? Is that correct?

Mr. DAVIS. What this does is keeps part 1 and strikes section 2, and from all of the arguments that I have heard from the gentleman from Massachusetts, he wants to make sure that State laws are applicable, and what this amendment would do is simply say, yes, State laws would be applicable.

Mr. STUDDS. If the gentleman will yield further, I am still not sure I understand. Is the gentleman proposing, first of all, to have the gentleman from Louisiana [Mr. TAUZIN] withdraw his amendment altogether and start anew with a different amendment?

Mr. DAVIS. The only way we can do it technically is to have the gentleman from Louisiana [Mr. TAUZIN] withdraw.

Mr. TAUZIN. The same amendment with the change.

Mr. DAVIS. Then it would be the same amendment except we say that applicable State laws will follow.

Mr. STUDDS. Mr. Chairman, I want to discuss, if the gentleman will continue to yield, that we would like to see it in writing, and we also have some questions, if we may. Is it the understanding of the gentleman under his new proposition that he would seek to offer that actions taken to clean up the spill pursuant to a higher State standard would be compensable by the Federal fund?

Mr. DAVIS. The gentleman is correct.

Mr. STUDDS. They would?

Mr. DAVIS. Yes.

Mr. STUDDS. But the gentleman would leave untouched the role of the Governor; that would remain "in consultation with"?

Mr. DAVIS. The consultation would remain; the Governor would not have the power to veto what the Federal person said. If he says, "Look, we have lived up to State laws, we have lived up to the Federal law, therefore, the cleanup is completed."

Mr. STUDDS. If the gentleman would yield further, if I understand the gentleman, I think I may now, while the gentleman is prepared to stipulate that State laws, if they have a higher standard, should be met, he leaves it to the Federal Government rather than the State government to determine whether or not those standards have been met? Is that correct?

Mr. DAVIS. That is correct. So we have one person who is in charge to make the determination for all 50 States, still in consultation with the Governor.

Mr. STUDDS. If the gentleman will yield further, I understand. It is my understanding, and I really do not propose to get into a reading match game with respect to the complicated Superfund statute, but it is my understanding that that would still not be consistent with the role of the Governor in making that determination under the Superfund, and I think under those circumstances, the gentleman from California [Mr. MILLER] and I and those who support our amendment would oppose it. Whether it serves any purpose to oppose it, I am not sure, but I think our objections to it would be as strong and essentially the same as those we have articulated with respect to those to the Tauzin amendment.

If the gentleman wants to yield to the gentleman from California [Mr. MILLER] I have no trouble with the gentleman offering any amendment he wishes.

Mr. MILLER of California. Mr. Chairman, will the gentleman yield?

Mr. DAVIS. I am happy to yield to the gentleman from California.

Mr. MILLER of California. It would take unanimous consent, and I think we would object. It is the same issue, but it just postpones the moment when that issue arises, and that now there would be an argument between the Federal and State governments when State law was complied with, and the gentleman has the same overriding capabilities of the Federal Government to make that sole determination under the proposals, as I understand it, that he is about to make. That is what we are trying to avoid, and we are trying to avoid the State and Federal governments overriding those determinations. I do not think

that the gentleman has cured the problem.

Mr. DAVIS. I had hoped that the gentleman would agree not to object and let us put this amendment in, and then if he wants to continue to argue against it. But what I am doing is making the Tauzin amendment much better than it is, giving the States the right to pass any law they want, which can be more stringent than the Federal law, and still the Federal fund has to pay for it. So it would seem to me that we ought to at least accept this unanimous-consent request and then if they want to argue against the whole thing, go ahead and do that.

Mr. TAUZIN. If the gentleman will yield further, I think what we have determined is that the authors of the Miller-Studds amendment are not as interested in having the standard changed as they are in having the Governor make the decision rather than the Federal cleanup authority. Is that correct?

Mr. MILLER of California. Mr. Chairman, will the gentleman yield?

Mr. DAVIS. I am happy to yield to the gentleman from California.

Mr. MILLER of California. Mr. Chairman, I assume it is the gentleman's intent to offer this anyway, so for the sake of time, let us go ahead and allow the unanimous consent. We can debate the amendments, because he can offer it after the amendment offered by the gentleman from Louisiana [Mr. TAUZIN], is disposed of, and we can deal with the issue all in one. It is essentially the same issue.

Mr. TAUZIN. Mr. Chairman, I ask unanimous consent to withdraw my amendment.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Louisiana?

There was no objection.

AMENDMENT OFFERED BY MR. DAVIS TO THE AMENDMENTS EN BLOC OFFERED BY MR. MILLER OF CALIFORNIA

Mr. DAVIS. Mr. Chairman, I offer an amendment to the amendments en bloc offered by the gentleman from California [Mr. MILLER].

The Clerk read as follows:

Amendment offered by Mr. DAVIS to the amendments en bloc offered by Mr. MILLER of California: Strike (d) and substitute the following:

(d) REMOVAL STANDARDS.—Page 12, line 17, insert "and applicable State law" after "plan".

Page 12, line 20, insert "and applicable State law" after "plan".

Page 33, line 22, strike "Removal" and insert "For the purposes of the national contingency plan, removal".

Page 33, line 25, strike "States.". and insert "States. However, this determination shall not preclude additional removal actions under applicable State law.".

□ 1510

Mr. DAVIS. Mr. Chairman, in effect what we have done now is we have said that we must live up to not only Federal standards, but also State standards, and even if those State standards go beyond the Federal standards we have to live up to those, and we would use the Federal funds to be able to do what both the Federal and State standards say.

The only thing that I have eliminated in this amendment that was in the Studds amendment is the Governor's right to veto. What we are saying is the State has their own law, their own standards. Determination shall be made then by the Federal person in charge as to whether we have lived up to the Federal standards and the State standards.

It seems to me to be a very reasonable compromise, and as I listened to the arguments, the arguments were that we wanted to protect the State's rights and ability to be able to have their own standards. In fact, that is exactly what this amendment does.

Mr. STUDDS. Mr. Chairman, I move to strike the last word.

Mr. Chairman, if I could have the attention of the gentleman from Michigan, I want to make absolutely certain we understand this correctly. I believe I have a correct copy in front of me. The final provision of the gentleman's amendment where it says "this determination shall not preclude additional removal actions under applicable State law," does the gentleman have that before him?

Mr. DAVIS. If the gentleman will yield, yes.

Mr. STUDDS. Is it correct that under that sentence those additional removal actions under applicable State law would be compensable under the Federal fund?

Mr. DAVIS. The gentleman is correct.

Mr. STUDDS. If that is the case, then if I understand the gentleman's amendment correctly, it does not alter the intention of the gentleman from California and myself, and the amendment would be acceptable to us.

Mr. HOUGHTON. Mr. Chairman, I rise in support of H.R. 1465. Work on this issue started long before I became a Member of Congress, but I am glad to be here today to put my stamp of approval on the final product.

Let me start by saying that H.R. 1465 provides strong protection for our fragile environment. It will help prevent spills—provide rapid response—adequate cleanup and full compensation to those who suffer economic damages if spills occur. This is good legislation—we need it.

But I would like to take this moment to address the Miller-Studds amendment and the concerns I have with it. A strong component of H.R. 1465 is that it provides coordinated, consistent action to clean up oilspills. It provides accountability and delegates leadership responsibility to the Coast Guard. But the amendment proposed by my two colleagues would create a less effective cleanup program as Government jurisdictions battle for control. An example of this is an oilspill in the New York City Harbor which could trigger litigation and confusion in cleanup responsibility between New York, New Jersey, and the Federal Government. As you know it is difficult to get one large bureaucracy to act in an efficient and coordinated way, and each additional bureaucracy that is included leads to duplication and disjointed cleanup efforts.

H.R. 1465 establishes a fund that will not only clean up all oilspills but will quickly compensate all who are economically harmed by such a spill. In the past, spillers have been able to indulge in protracted lawsuits for up to 12 years while claimants wait to be reimbursed. H.R. 1465 establishes a system in which a claimant will present a bill to the spiller and be compensated within 90 days. And if the spiller denies the claim or simply cannot pay it, the bill is presented to the fund for payment.

No lengthy court battles.

No slick lawyers trying to prolong the process.

No need for a small fisherman making $25,000 a year to try and battle a multibillion dollar company.

And payment in a matter of months, not years—months.

The amendment offered by Mr. STUDDS and Mr. MILLER seeks to continue to prolong the litigation. My constituents deserve better. Yours deserve better. I urge you to oppose this effort to continue this existing awkward claims process and to accept H.R. 1465's cleanup compensation program as written.

Mr. KOLTER. Mr. Chairman, I rise in opposition to the amendment that strikes Federal liability preemption from H.R. 1465.

A uniform Federal liability standard would allow companies to know the full extent to which they will be held liable for damages resulting from oilspills.

Without Federal preemption, a confusing system of State laws would exist. Responsible, established companies would not be financially capable of operating oil transport operations in States that do not set limits on liability. Inexperienced, upstart companies will be the only ones willing to take these liability risks. Once one of these companies experiences a big spill where there is no limit on liability, it will likely declare bankruptcy and leave the cleanup to us.

The limited Federal preemption contained in H.R. 1465 will not only improve the recovery of damages on a national level, but will greatly enhance our ability to enforce American judgments worldwide. Foreign companies will be unwilling to accept a policy of varying liability levels. These same companies can be held responsible for damages if a strong federal system is in place that corresponds with international agreements.

This amendment would create an unworkable situation for insurance coverage of oil shippers. Oil companies would have to establish numerous policies to meet the different liability demands imposed by the different States. The alternative would be for the oil companies to obtain a policy of infinite liability which insurance companies may be afraid to offer. Even if they were to be offered, reliable oil companies may not be able to afford the high premiums.

I am proud of my voting record on environmental issues. If I felt that this amendment would benefit the natural resources and livelihoods most vulnerable to a spill, I would support it. However, the ambiguous situation that this amendment would create is not in the best interest of the people, wildlife, and environment which we are striving to protect with the passage of this bill.

This amendment also brings up the issue of equity in the system of compensating those affected by a spill. Several oilspills have caused damage to more than one State. Would it be fair for you to receive a smaller award while someone up the coast similarly affected by the spill received a much larger award just because he lives in a different State?

Consider the hypothetical situation of a damaged tanker in the Chesapeake Bay. With oil leaking from the ship, the captain must head to port to avoid further damage. But which port should he head for? He might be ordered by his superiors to enter a Virginia port instead of a Maryland port because any damage done to the Virginia coastline will result in lower liability to the company. In a comprehensive Federal liability system the captain would not concern himself with liability concerns during these crucial moments, but only with the issue of primary concern—getting the ship out of open waters to avoid further contamination of the environment.

As we know all too well, oilspills know no boundaries. Federal regulations must be enacted to equitably compensate all who are affected by oilspill accidents.

Included in H.R. 1465, is a provision establishing an oilspill trust fund to be financed by the oil companies. This fund will cover those damages which remain after the liability limit is met. This, combined with the liability provisions contained in the bill, is a fair and balanced approach to compensating those affected by oilspills.

I urge my colleagues to join me in supporting the liability language contained in the bill and opposing the amendment.

Ms. SNOWE. Mr. Chairman, I rise today to voice my objections to provisions in H.,R. 1465 which would preempt existing State oilspill liability laws, and to urge my colleagues to join me in support of the Miller-Studds amendment.

While this legislation addresses many important issues in regard to oilspill prevention and response, it has a critical flaw: It strips States of the ability to protect their resources and people from the devastation that can result from an oilspill.

Consider, for a moment, the aftermath of the tragic *Exxon Valdez* spill in Prince William Sound. In September, we watched in frustration as Exxon ended its cleanup efforts—leaving much oil and many questions about the effectiveness of their cleanup work. But, even that work itself has cost Exxon nearly $2 billion.

Let me remind my colleagues that if H.R. 1465 as reported had been in effect, Exxon's cost would have been limited to not more than $114 million. If it were not for Alaska's tough oilspill liability laws, Exxon would not have borne the nearly $2 billion in costs. Little imagination is needed to guess who would have paid—the taxpayers.

The CHAIRMAN pro tempore (Mr. LANCASTER). The question is on the amendment offered by the gentleman from Michigan [Mr. DAVIS] to the amendments en bloc offered by the gentleman from California [Mr. MILLER].

The amendment to the amendments en bloc was agreed to.

The CHAIRMAN pro tempore. Are there further amendments to the Miller amendments?

If not, the question is on the amendments en bloc offered by the gentleman from California [Mr. MILLER], as amended.

The question was taken; and the Chairman pro tempore announced that the ayes appeared to have it.

RECORDED VOTE

Mr. TAUZIN. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 279, noes 143, not voting 11, as follows:

NOT VOTING—11

Aspin	Dymally	Molinari
Brooks	Florio	Roe
Bryant	Garcia	Smith (IA)
Courter	Jenkins	

□ 1533

Mr. BEREUTER and Mr. ORTIZ changed their vote from "aye" to "no."

Messrs. MAZZOLI, TRAXLER, PACKARD, and MARTIN of New York changed their vote from "no" to "aye."

So the amendments en bloc, as amended, were agreed to.

The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. SHUMWAY

Mr. SHUMWAY. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. SHUMWAY: Page 52, after line 23, insert the following:

(d) ELECTION OF REMEDY.—

(1) GENERAL RULE.—A person—

(A) who asserts a claim under this Act for removal costs or damages resulting from an incident may not assert a claim under the law of any State for removal costs or damages resulting from that incident; and

(B) who asserts a claim relating to an incident under the law of any State may not assert a claim under this Act for removal costs or damages resulting from that incident.

(2) DECISION NOT FINAL FOR 90 DAYS.—The decision of a person to assert a claim described in paragraph (1) (A) or (B) shall not be considered final for purposes of paragraph (1) until the earlier of—

(A) 90 days after the first date the person asserts a claim described in paragraph (1) (A) or (B); or

(B) the end of the period of limitations that applies to that claim under section 1017(e).

Mr. SHUMWAY (during the reading). Mr. Chairman, I ask unanimous consent that the amendment be considered as read and printed in the RECORD.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from California?

There was no objection.

Mr. SHUMWAY. Mr. Chairman, I think every Member who offers an amendment in this body likes to preface his or her remarks with saying, "My amendment is simple and straightforward." Sometimes that is true, and sometimes it is not true. However, I will preface my remarks by saying that I think that is true.

Mr. Chairman, my amendment is simple and straightforward. The amendment:

First. Cuts down on unnecessary litigation;

Second. Speeds up the compensation process for parties injured as a result of an oilspill; and

Third. Eliminates the possibility of double recovery by claimants going to both Federal and State courts.

The bill already clearly states that there is to be no double recovery for damages under the Federal act. However, since Federal preemption of State laws has been removed from the bill, the possibility for double recovery from both the Federal and State systems now exists. All it would take is for a reasonably creative lawyer to file multiple claims or suits for the same damages under different Federal and State legal theories and a claimant could be compensated twice.

This amendment eliminates this possibility of recovering twice for the same damages. It does so by specifically stating that any one claimant must elect to pursue compensation either through the Federal or State system—but not both. It gives every individual claimant the freedom to choose either system. And it also gives a claimant 90 days after he or she files a claim before the election of forum or remedy is final.

The amendment merely clarifies the intent of the original bill and is consistent with normal judicial practices. A Federal or State judge can already consolidate varying claims by a single claimant into one forum. But that is a lengthy and costly process. This amendment eliminates even the possibility of the confusing practice of multiple claims under multiple jurisdictions.

Without this amendment, multiple jurisdictions will result in unwieldy litigation and confusion after an oilspill—and that in turn will result in a claimant's nightmare and a lawyer's dream. This amendment helps those seeking compensation for damages, not lawyers.

The Coast Guard and administration support this amendment. I urge your support for this amendment.

Mr. STUDDS. Mr. Chairman, I rise in opposition to the amendment.

I do so, even though I sympathize with the goal of the amendment's author, which is to simplify procedures for obtaining compensation for oilspill damages.

The fact is, though, that there are several things wrong with this amendment. It's unjustified. It's unfair. And it's a bad idea.

This amendment purports to solve a problem that doesn't exist. The bill coupled with standard rules of judicial practice already contains a crystal clear prohibition on double recovery. No one—I repeat no one—can expect to recover under both State and Federal law for the same damages. That would be ridiculous; it would be unfair; and we don't need this amendment to make sure it doesn't happen.

The problem then, is not what the amendment seeks to do. The problem is what it would do.

It would force claimants to make an irrevocable, one-time choice between seeking compensation for damages under a State law or under Federal law.

Thus, a fisherman who files a claim under State law to recover costs incurred while using his boat to clean up a spill, would be barred from filing under Federal law for a loss of income that might not even be apparent at the time the original claim is filed—damage to a spawning ground or a shellfish bed, for example.

Similarly, a State might recover under its own law for cleanup costs that can be calculated quickly; and then be barred from filing under Federal law to recover for damages to natural resources that might not be fully tabulated for several years.

Mr. Chairman, I don't think it is fair to say to our citizens that we will give you certain rights under Federal law, but only if you give up your rights under State law.

This amendment will, in fact, accomplish exactly what we want to avoid, for it will splinter the process of hearing and resolving claims. Under most big cases likely to arise under this act, Federal judges will be able to consolidate claims for pollution damages, whether those claims are filed in Federal or State court, under Federal or State law—thus simplifying the whole legal process.

But with this amendment, consolidation will not be possible. Federal courts won't be able to hear State claims, and State courts won't be able to hear Federal claims. This will drag out the process; it will complicate it; it will do exactly the reverse of what the author of the amendment says he intends.

What public purpose is served by this amendment? The fact is that the amendment has no compelling purpose. But its effect would be to undermine the overriding principle of this legislation—which is to guarantee full compensation to the victims of oilspills.

The fact is that this is yet another effort to restore a measure of preemption to this bill. Another effort to put private interests above public rights. Another effort to break with the tradition of preserving State environmental laws and prerogatives. Another effort, however inadvertent, to put obstacles in the path to enactment of this legislation.

Mr. Chairman, I urge Members to oppose the amendment.

□ 1540

The CHAIRMAN pro tempore (Mr. LANCASTER). The question is on the amendment offered by the gentleman from California [Mr. SHUMWAY].

The question was taken; and the Chairman pro tempore announced that the noes appeared to have it.

RECORDED VOTE

Mr. SHUMWAY. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 169, noes 251, not voting 13, as follows:

Dwyer	Molinari	

□ 1602

Messrs. OLIN, BUSTAMANTE, PORTER, Mrs. LLOYD, and Mr. DE LA GARZA changed their vote from "aye" to "no."

So the amendment was rejected.

The result of the vote was announced as above recorded.

AMENDMENT OFFERED BY MR. HUGHES

Mr. HUGHES. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. HUGHES: Page 53, line 1, strike "STATE FINANCIAL RESPONSIBILITY." and insert in lieu thereof "STATE LIABILITY."

Page 53, line 13, insert "(a) FINANCIAL RESPONSIBILITY.—" before "A State".

Page 53, after line 15, insert the following:

(b) LIMIT OF LIABILITY.—Any State or local law, rule, or regulation to establish liability with respect to the discharge or substantial threat of discharge of oil, or with respect to any other pollution by oil, shall not exceed the limits of liability set forth in section 1004.

Mr. HUGHES (during the reading). Mr. Chairman, I ask unanious consent that the amendment be considered as read as printed in the RECORD.

The CHAIRMAN pro tempore (Mr. LANCASTER). Is there objection to the request of the gentleman from New Jersey?

There was no objection.

Mr. HUGHES. Mr. Chairman, the amendment that I am offering on behalf of myself, the gentleman from Delaware [Mr. CARPER] and the gentleman from California [Mr. SHUMWAY] would insure that States set their own limits of liability at a level that is consistent with the Federal levels of this bill.

The amendment simply states that State liability limits shall not exceed Federal liability limits set pursuant to this legislation.

This amendment in no way restricts or preempts victims of oilspills from receiving full compensation under State liability limits. Nor does this amendment restrict or preempt States from enforcing stricter oilspill cleanup or restoration standards than the Federal law.

This amendment does allow States to maintain their own oilspill liability and compensation laws to protect their environment and natural resources. Since the transportation of oil is an interstate activity, it is reasonable to have State and Federal liability limits be fairly consistent.

Opponents have stated that unlimited liability, a standard which some States require for damages resulting from oilspills, ensures a higher standard of care by the oil transporters and oil companies.

I disagree. I believe that an unlimited liability limit would actually increase insurance costs dramatically. These increased costs would be ultimately passed on to the consumer, or would create a climate of financial risk where only shell companies with minimal assets will choose to operate.

These shell companies which would have comparatively little to lose in the event of a catastrophic spill, are likely to pose a significantly greater environmental risk, since they would operate under lower safety standards and command little in the way of cleanup capabilities.

Now, more than ever, we need to prevent oilspills by ensuring that environmentally responsible companies, which have long-term investments in equipment, personnel, and safety, will be able to maintain insurance and a high standard of care when transporting oil on our marine waters.

Mr. Chairman, I have supported consistently Studds-Miller. My State has an oilspill bill. I want to preserve that. I want to preserve individual liability in the States, but I also want a regime that is going to encourage responsible transporters. What we are going to encourage if we have unlimited liability

for States and limited liability for the Federal Government, we are going to force the responsible transporters out of business and we are going to have the fly-by-nights.

Let me tell you a little bit about the Florida experience. My colleagues from Florida know better than most a specific example where a State had its own oilspill law with unlimited liability that drove responsible operators out of business in Florida in the 1970's. I am going to quote from the Florida State University law review regarding this 1970 Florida law. This is what happened in Florida:

The major problem with the Florida legislation was the unlimited and absolute liability imposed on a spiller for costs and damages from an oilspill. The immediate tangible effect of this provision was that almost all businesses engaged in shipping any sort of pollutant were unable to obtain insurance to respond to any potential liability under the 1970 law. Thus, shippers were forced to comply with the financial responsibility section of the statute by becoming self-insurers for at least part of the liability and by pledging all of their firms assets to remedy possible spills.

In many cases, this massive incurrence of liability by a shipper entering Florida waters had ripple effects that were highly detrimental to the public interest: shippers refused Florida business or required their Florida contractees to hold the shippers harmless for any spills occurring in Florida waters.

By 1974, the problems posed by the unlimited liability law were so severe that the legislature began drafting legislation to revise the 1970 law. Even the environmental groups recognized the problems at the time and the National Environmental Development Association specifically advocated a more moderate approach to State liability.

This group "supported a balanced approach to environmental and economic opportunities" and asked the Florida Legislature to reconsider the unlimited liabilities provisions in the 1970 law. The National Environmental Development Association also posed the question, "whether recovery from an insurance company would be preferable to recovery from a corporation, and whether the indirect effect of increased energy prices for the consumer might be more costly than an oilspill?"

The CHAIRMAN. The time of the gentleman from New Jersey has expired.

(By unanimous consent, Mr. HUGHES was allowed to proceed for 2 additional minutes.)

Mr. HUGHES. In 1974, Florida repealed their unlimited oilspill liability law and now imposes reasonable limits on liability.

I say to my colleagues that the correct environmental vote is to support the Hughes-Carper-Shumway amendment, because what we are going to have is transporters basically that should not be transporting oil, that are not responsible, that have not maintained the manning and the safety standards of vessels that are responsible, and so the correct vote is a vote in support of this amendment. So the correct vote is a vote in support of this amendment.

□ 1610

Mr. Chairman, the reason we develop this type of a provision in committee and limit it at the Federal level is because we have a Superfund. If there is a spill that exceeds what a carrier can provide or what a fund provides at the State level, the Superfund provides for unlimited cleanup. The only question is what kind of a burden we are going to place on the transporters and carriers of oil.

I think that the way we need to go is this way.

Mr. HAMMERSCHMIDT. Mr. Chairman, I rise in support of the amendment.

Mr. Chairman, I rise in strong support of the amendment of the gentlemen from New Jersey, Delaware, and California.

Mr. Chairman, let me note that the amendment has the support of those that supported the compromise bill on preemption and those that opposed preempting State liability laws. This amendment is different from the preemption amendment. This amendment ensures that in setting up their own liability laws, States cannot set liability at levels higher than the Federal levels.

This approach would address the principal concern raised by those opposed to preemption—that the State can't rely on the promises of the Federal Government to respond to oilspills and need the flexibility to ensure protection of their citizens by enacting their own liability laws. At the same time, the amendment would preserve reasonable liability limits which are essential to ensuring that responsible oil transporters have access to the insurance needed to operate. Without such limits, insurance may not be available.

This in turn could have negative environmental impacts as the larger, responsible transporters—those with substantial assets at stake—elect to get out of the business of transporting oil rather than risk being wiped out by a catastrophic spill. If this happens, oil will be shipped predominantly by single vessel shell companies that have shoddy safety records and little to lose in the event of a spill. I do not believe any of us wants such a result. The pending amendment will ensure that this doesn't happen. Accordingly, I support the amendment and urge my colleagues to do so as well.

Mr. FISH. Mr. Chairman, I move to strike the last word.

Mr. Chairman, I rise in support of the amendment offered by the gentlemen from New Jersey, Delaware, and California, respectively. This amendment to section 1019 of the bill would ensure that Federal and State oilspill laws are uniform with respect to limits on liability.

H.R. 1465 is compromise legislation. It establishes a comprehensive Federal system to provide compensation for damage incurred in connection with oilspills. It consolidates four preexisting Federal oilspill statutes into one. It establishes a three-tiered compensation scheme that recognizes the need for a rapid, effective response when an oilspill occurs.

Importantly, this measure also imposes joint, several and strict liability on responsible parties for cleanup costs and compensatory damages. If a spill occurs, vessels, owners or facility operators—those in the best position to prevent spills—are primarily and immediately liable. Thus, an owner or operator is strictly liable up to the preestablished—and substantial—liability limitations. If the owner's or operator's conduct involves gross negligence, willful misconduct, or failure to comply with applicable safety laws, then there is no limit on the owner's or operator's liability.

Cargo owners are secondarily liable for a spill, again up to significant levels of liability. Finally, this measure establishes a new oilspill liability trust fund, financed by a tax on oil companies. This new Federal fund provides the essential safety net—the funds necessary to compensate victims in those instances where the overall damages exceed liability limits.

It is important for the Members of this House to not lose sight of our real goals in connection with this very important environmental legislation. A primary aim is quick, responsive cleanup when spills occur, with the costs being borne, directly or indirectly, by the transporters, operators, and oil companies. Another fundamental goal is a safer petroleum transportation system, by encouraging responsible and environmentally concerned operators.

This is a logically and carefully balanced bill. We should not upset that balance and superimpose a patchwork of differing State laws—many of which contain no liability limits at all—on top of this new Federal response system. Otherwise, the result of this legislation could well be counterproductive to the environmental goals it seems to protect.

Marine pollution insurance is already extremely difficult to obtain, in large part because of the cleanup costs and damages resulting from the *Exxon Valdez* incident. Now, if these carriers are made to face unlimited liability under a variety of State laws, as well

as strict liability—liability irrespective of fault—under a new Federal law, they will become virtually uninsurable. Those domestic operators that currently train their employees in safety procedures and invest in state-of-the-art equipment, will no longer have an incentive to conduct their business in a responsible manner. If they are made subject to open ended, unlimited liability, then their efforts to undertake expensive safety measures would be discouraged.

We simply cannot ask responsible transporters to literally risk the existence of their company every time one of their ships is in the water. If vessel owners and facility operators are made simultaneously subject to Federal liability levels and open ended State liability systems, responsible owners and operators simply will no longer be in this business.

Then, we will be left with foreign-flag vessels transporting oil in U.S. waters, protected by the jurisdictional barriers of foreign law. Some of these would be essentially minimal asset shell companies, specifically structured so as to avoid any potential liability. Clearly, these types of vessel operators would pose a threat of the most serious type to our environment.

Mr. Chairman, I have always supported strong, tough environmental laws. We need to protect this Nation's natural resources and ensure that oilspill victims are fully compensated. The liability and compensation system established under H.R. 1465 properly places liability on those who have the responsibility to transport oil in a safe and secure manner. It also encourages the continuation and further development of responsible domestic marine transporters of petroleum. For these reasons, I strongly support the Hughes-Carper-Shumway amendment. It recognizes that the Federal liability limits in H.R. 1465 are a realistic, fair, and predictable method of allocating responsibility. This amendment also recognizes the need for a Federal law that encourages the responsible transportation of oil by responsible transporters. It would strike the best balance between financial accountability and the real world need for a careful, environmentally sensitive oil transport industry.

Mr. CARPER. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in support of this amendment.

A number of criticisms have been leveled at this amendment which Mr. HUGHES, Mr. SHUMWAY and I are offering. I want to take this opportunity to explore some of those criticisms and to report them.

Criticism No. 1: The Hughes-Carper-Shumway amendment is preemption. It completely guts the Studds-Miller amendment.

In responding, let me say that Hughes-Carper-Shumway is not preemption. The preemption provision originally in the bill as brought to the floor would preempt States from even having oilspill liability laws so that any damaged party would have to bring his or her claim under the Federal Act.

The Hughes-Carper-Shumway amendment allows States to have their own oilspill liability laws so that a claimant may seek compensation under a State liability system of laws.

A number of proponents of the Studds-Miller amendment support the Hughes-Carper-Shumway amendment.

Finally, with passage of the Studds-Miller amendment, the underlying premise of the bill has changed. The Hughes-Carper-Shumway amendment recognizes this change and seeks to make State and Federal liability laws reasonably consistent.

Criticism No. 2: 17 States already have unlimited oilspill liability laws on their books and the responsible oil tanker operators haven't been driven out of business.

Let me respond by saying, prior to the *Exxon Valdez* incident, the worst case spill was considered to be about $150 million, well within the range of the $400 million pollution insurance available on the international market. The liability exposure for oil transporters in an unlimited liability system is now measured in terms of billions of dollars. By comparison, the largest independent domestic oil tanker operator has assets of only $125 million.

With unlimited liability, which now in the post-*Exxon Valdez* era is uninsurable, these companies would be literally betting their businesses every time they transport oil.

A specific example where a State had its own oilspill law with unlimited liability drive responsible operators out of business took place in Florida in the early 70's. Mr. HUGHES has described the consequences of that law already which led to its subsequent repeal.

Criticism No. 3: States need unlimited liability against the spiller to ensure safe tanker operations off their coasts and to protect their environment.

In reality, unlimited liability does not promote a higher standard of care or protection for the environment.

In fact, the opposite is true. Having State systems with potentially unlimited liability increases the financial risk to oil transporters to a level where only shell companies with minimal assets—and therefore the least to lose—will choose to operate.

These shell companies, with a small "s"; will be foreign-flagged and foreign-manned and will likely pose a significantly greater environmental risk since they operate under lower safety standards and possess little in the way of cleanup capabilities.

Criticism No. 4: Other laws, particularly Superfund, don't restrict State liability limits.

Actually, Superfund is a very different statute. It does not in any way seek to address third-party economic damages. It only specifically addresses cleanup costs and natural resource damage costs. Therefore, it does not even speak to the issue of State liability for damages such as economic losses or property losses.

The oilspill bill addresses all conceivable damages resulting from an oilspill so it is appropriate to have a single limitation to total liability—both at the Federal level and at the State level.

Criticism No. 5: This is a bailout to the oil and gas industry and the shippers.

Let me observe that the limits of liability in the bill, and which we use as a cap on State liability, are very high.

These liability limits are two to three times higher than the House has ever considered before. They are higher than the Senate's limits on liability.

For a major oil tanker they would exceed $150 million—more than the assets of the single largest U.S. independent oil transporter.

Even though these limits on liability are very stiff, they will allow operators to obtain insurance so they don't have to bet their companies every time they transport oil or so they don't quit the business altogether.

That is their purpose—to maintain insurability for safe, responsible tanker operators.

Let me conclude by stating that if you want to enable States to establish their own liability laws, vote for this amendment. If you want to make those State laws reasonably consistent with this new Federal fund, vote for this amendment. If you want to ensure that gross negligence and willful misconduct by an oil transporter results in unlimited liability, vote for this amendment. If you want to ensure that responsible shippers stay in the business and fly-by-night operators stay out, vote for this amendment.

Mr. SHUMWAY. Mr. Chairman, I move to strike the requisite number of words, and I rise in support of the amendment.

Mr. Chairman, I rise in support of the Hughes-Carper-Shumway amendment and I commend the gentleman from New Jersey and the gentleman from Delaware for their efforts in this regard.

Mr. Chairman, the House has already voted to allow States the right to establish their own liability laws so that parties damaged as a result of an oil spill can seek compensation under

State laws. This amendment does not change that.

Like all legislation that deals with a number of competing interests, this bill needs to strike a proper balance. This amendment provides the proper and needed balance between the overriding concern of the Coastal States and the U.S. oil tanker operators who must operate under the law we are about to pass.

What this amendment does is establish a consistent policy regarding limits of liability between the various State oilspill systems and the Federal system.

Let me emphasize that this amendment is not preemption. Preemption foreclosed on all State liability laws so that all claims would have to be brought under the Federal system. Under this amendment, State systems and State courts are completely available to parties damaged as a result of an oil spill and seeking compensation. The only restriction this puts on States is that they not have limits of liability. These liability limits are spelled out under section 1004 of the bill, and the most applicable of the limits is $1,200 per gross ton for oil tankers.

It is the intent of this amendment that the other conditions of liability in section 1004 also apply so that in cases of gross negligence or willful misconduct the limits of liability are removed.

Let me make absolutely clear that while this amendment puts a cap on State liability for the responsible parties, it in no way limits State compensation to damaged parties. Members must understand that limiting liability does not mean limiting compensation. The Federal bill limits liability but does not limit compensation. This effect of this amendment on States would be the same—State compensation remains unrestricted.

This amendment, then, merely conforms the bill's essential framework as originally passed by the committees of jurisdiction with the newly adopted premise that States will also have oilspill liability laws.

For some inexplicable reason, opponents of this amendment maintain that unlimited liability is good for the environment. That is simply untrue. In fact, it's just the opposite. Unlimited liability actually promotes less safe oil tanker operations.

The reason these liability limits are needed is essential to ensuring safe oil tanker operations off our coasts. Having State systems with potentially unlimited liability, as the bill without preemption allows, increases the financial risk to oil transporters to a level where we fear only "shell companies" with minimal assets—and therefore the least to lose—will choose to operate. Under this atmosphere of unlimited financial risk, these shell operators will set themselves up so that they have comparatively little to lose in the event of a catastrophic spill. Moreover, with no long-term investment, these shell companies will pose a significantly greater environmental risk since they operate under lower safety standards and possess little in the way of cleanup capabilities.

In effect, without our amendment, the potential for unlimited state liability represents enormous financial risk to the more established, safer tanker operators—since they have the most to lose. Under those conditions, they will drop out of the oil-transport business and we'll be left primarily with undercapitalized, unsafe foreign-flag, foreign-manned tankers off our coasts.

This amendment in no way restricts or preempts victims of oilspills from receiving full compensation under State liability laws. Nor does it restrict or preempt States from enforcing stricter oilspill cleanup or restoration standards than the Federal law. It merely ensures that States set reasonable liability limits that won't drive those operators, who have the capacity to do the job right, out of the oil-carriage business.

I urge Members' support of this amendment.

Mr. JONES of North Carolina. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, I rise in support of the amendment under consideration. I feel that it is a necessary and important compromise on a complex issue.

The amendment is one which strikes a careful balance between two concerns. Many States have expressed their feelings that they must be able to enact laws to protect their citizens from the potential harm of oil spills. On the other hand, in order to ensure that those who engage in the transportation of oil are able to insure themselves, and therefore, that they will stay in the business of transporting oil in a responsible manner, they must not be unduly subjected to unlimited liability.

The amendment achieves both of these goals. It is consistent with the Studds-Miller amendment, allowing States to develop laws to guard their citizens against spills. Simultaneously, in exchange for the protections afforded by the comprehensive legislation and the national fund, States would have to conform their liability limits to those contained in the legislation before us. I might add that these liability limits are far, far higher than those contained in the original legislation and also higher than those in the Senate bill.

The amendment is a fair one and I urge its support.

Mr. STUDDS. Mr. Chairman, I move to strike the requisite number of words and I rise in opposition to the amendment.

Mr. Chairman, I must confess some surprise and disappointment in my three colleagues and friends who have offered this amendment jointly, not that they do not have a proposition of substance and importance, but Halloween, my friends, has come and gone, and this is the fourth costume in which this proposition has appeared this afternoon before the House.

As I said to Members in the beginning, we have just adopted a few votes ago the amendment offered on behalf of myself, the gentleman from Florida [Mr. Goss], the gentlewoman from Rhode Island [Ms. SCHNEIDER], the gentleman from California [Mr. MILLER], and myself. That amendment had four parts. The single most important part of that amendment would be struck by this amendment. It is as simple as that.

If Members think that preemption is not a particularly good idea, they are clearly on record and should vote consistently at this point, and should oppose this amendment. Its authors have said several times in the well now, do not worry, the States can still have their own liability laws. That is true. But what they neglect to tell Members was that they can have their own liability laws so long as they are no higher than the Federal liability law.

The amendment offered by the gentleman from New Jersey reads: "Any State law shall not exceed the limits of liability set forth in this bill." Members should understand exactly what this amendment does. It would effectively restore to the bill a provision that we all, or most of us just voted to take out.

More precisely, it would nullify the laws of 19 States that now impose unlimited liability. Alabama, Alaska, Arkansas, California, Connecticut, Georgia, Illinois, Kentucky, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, Oregon, Vermont, Washington, and Wisconsin all would have laws immediately overridden by this amendment.

□ 1630

The laws of North Carolina and South Carolina, which impose unlimited liability for damages suffered by private citizens, would be overriden. Other States such as Florida, New Jersey, New York, and Virginia would be barred from amending their own statutes in any way that would conflict with the Federal regime.

It would preempt the right of all 50 States to set higher standards of liability or more complete standards of compensation than those included in the Federal system, and that is precisely what the struggle over preemption is all about. It would violate, as I said earlier in this debate, the longstanding fundamental tradition of this

Congress that Federal environmental laws should not preempt State laws.

We did not do that in Superfund, we did not do that in the Clean Air Act, we did not do that in the Clean Water Act, we did not do that in the Outer Continental Shelf Lands, and we did not do that in the Deep Water Ports Act; we did not do it in the Trans-Alaska Pipeline Act, and for precisely the same valid reasons we ought not to do it in this oilspill law.

This amendment would substitute our judgment for the judgment of State legislators and Governors around this country about what standard of care should be imposed on those who transport oil around the coastline, lake shores and rivers of this country. It would gravely jeopardize the prospects for enacting this bill.

Let me repeat what I said a few moments ago during the Miller amendment: The oil and shipping industries claim that they cannot live without preemption. But they have been living without it for 200 years.

No one can blame the oil industry for wanting preemption. There is not an industry in this country that would not seize the opportunity to be protected from the responsibility for what they do. But our responsibility is to protect the public's interest and in our democracy State governments share in the responsibility for determining what that interest is.

So I say to my colleagues, do not be fooled. This amendment is the heart and soul of preemption, pure and simple. It is protection for a few at the expense of the many. It is precisely the same issue we thought we have just settled.

It is a direct attack on the views that have been expressed to us in this Congress over and over again by the people of Alaska, who are still trying to get on their feet after the tragedy in Prince William Sound, by the Governors of virtually every State in this country, including, I might add, most eloquently by the Governor of New Jersey, and by fishing and conservation and environmental groups from Long Beach to Kennebunkport.

If you supported the Miller-Studds amendment, if you think preemption is not a sound idea, this is precisely what we voted on before, and the amendment should be rejected.

Mr. TAUZIN. Mr. Chairman, I move to strike the requisite number of words.

Mr. Chairman, you have heard Mr. HUGHES, who was in support of the Miller-Studds amendment. I was one who was opposed to it.

You heard Mr. HUGHES, sponsor of this amendment, tell you, correctly, this is not a preemption amendment. It is not.

The Senate bill by Mr. MITCHELL does not contain preemption language.

Our House bill does no longer contain preemption language as a result of the Miller-Studds amendment. The Senate bill, however, like the House bill, has limits of liability. Rather than think of limits of liability as relieving shippers of responsibility, I would like you to think along with me and Mr. HUGHES and other sponsors of this amendment about what limits of liability is really all about.

Limits of liability does not say to shippers that you are not going to pay the full cost of cleanup. You will. You are going to pay it in two ways.

You are going to pay it up front with the deductible, the limit of liability, and you pay the rest of it in a tax that goes into a fund. But you will pay all of the cleanup costs. You will pay all of the claims for damages brought in either State or Federal court now under State liability laws or under Federal liability law now since we no longer have preemption.

You will pay all claims. Like the Fram oil filter, you will pay it now or you will pay it later, but you will pay them all. The issue is not whether oil companies will pay. They will pay. And they will pay under both systems now, totally.

The only issue is whether or not oil shipments will be insurable. That is the only issue.

The Senate bill and the House bill now contain limits of liability before the fund kicks in. Why? Because that is the way insurance works. Just like a regular insurance policy on your automobile at home. You pay the deductible for the damage you cause another person, and then your insurance kicks in for the rest.

Unlike your automobile insurance policy, we go further. We say that if you are grossly negligent or if you willfully injure someone by damaging oilspills, that you will be totally responsible. But if you are simply negligent as an ordinary driver might be, the insurance fund kicks in.

What insurance fund? An insurance fund composed of tax dollars collected from you. You pay either way.

Now why is it an issue of whether or not we want responsible transporters? In the Senate version of this bill the Senate provided for $1,000 per gross ton on tankers. We did it differently.

We said we are going to go $600 a gross ton on tankers as a deductible, but another $600 on the owner of the oil.

What did we do? We said in effect we are going to have a $1,200 deductible; higher than the Senate. But we are going to impose the deductible, that first payment not only on the transporter but on the owner of the oil as well.

Why? Because we want responsible transporters out there. We want and expect owners of oil who are moving around America to hire responsible parties to move that oil

Now if this amendment is not adopted, if States are allowed in the presence of this big insurance fund now to maintain their own unlimited liability limits, then who will be able to get insurance under this fund?

I suggest to you that what will happen is oilowners, knowing they have a responsibility they cannot duck, will have trouble finding transporters who can get insurance, and as a result you will see more and more sham corporations set up, more fly-by-night transporters walking around, we will see more calls on the fund, yes, but we will see less responsible parties with insurance.

Now, look, this is not preemption, this is not Halloween; do not be spooked. This is not preemption.

This is a simple issue of whether or not you want responsible transporters moving oil and oil products around America.

I suggest you look: The right environmental vote is a vote to ensure that responsible parties are out there with insurance but the State laws mimic the Federal law on those limits of liability before the big fund kicks in.

Do not kid yourselves, the spiller will pay; they will pay up front or they will pay through the nose in taxes until the cleanup is accomplished.

That is what our bill does.

The Hughes amendment sponsored by a Member who voted for and supported Miller-Studds is the right amendment and it ought to be passed.

Mr. HUGHES. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I am happy to yield to the gentleman from New Jersey.

Mr. HUGHES. I thank the gentleman for yielding.

Mr. Chairman, I am really disappointed with my colleague whom I have served with for 15 years, suggesting in some way I am attempting to do away with Studds-Miller. I not only voted for Studds-Miller, but I resisted my chairman.

The CHAIRMAN pro tempore (Mr. LANCASTER). The time of the gentleman from Louisiana [Mr. TAUZIN] has expired.

(On request of Mr. HUGHES and by unanimous consent, Mr. TAUZIN was allowed to proceed for 2 additional minutes.)

Mr. HUGHES. Mr. Chairman, will the gentleman continue to yield?

Mr. TAUZIN. I continue to yield to the gentleman from New Jersey.

Mr. HUGHES. I thank the gentleman further.

Mr. Chairman, I also opposed my chairman and the Tauzin amendment because I thought that would do violence.

Mr. TAUZIN. And I am going to remember that.

Mr. HUGHES. And the gentleman is very forgiving.

But in addition to that I opposed the Shumway amendment with whom I happen to be cosponsoring this particular amendment.

But we are talking about a new Federal regime. We have spent 15 years now, the entire time that I have been in Congress, trying to develop a Federal oilspill piece of legislation to try to deal with a major international problem.

What is fair and reasonable is what we are talking about. Frankly, what we are saying is that the States should not impose liability on the transporters more than we have imposed in the Federal legislation.

It is an environmental issue. A vote against it, in my judgment, is going to enable the rust buckets to ply our coasts and the shell operators to set up sham corporations basically to comply with State laws because they cannot get insurance.

Mr. TAUZIN. Mr. Chairman, reclaiming my time, the gentleman makes a good point. His amendment is not designed to make any oil company happy. They are going to pay for the cleanup regardless.

His amendment is designed to make sure we have responsible oil companies moving oil around America, instead of rust buckets.

□ 1640

Think about that. Does not that make sense? Is not that a good environmental vote anytime we get a little sense into this bill?

I want Members to support the Hughes amendment.

Mr. MILLER of California. Mr. Chairman, I rise in opposition to the amendment. This amendment actually should have been offered to the amendment in a motion to strike the first part of the Studds-Miller amendment because this amendment offered by the gentleman from New Jersey [Mr. HUGHES] and others goes to the heart of the preemption. It goes to the heart of our legislation.

Now, apparently the defense against what the gentleman from Massachusetts [Mr. STUDDS] and myself are trying to do is that if we are successful, the captains of American industry, the chairman of the board of Exxon, the chairman of the board of Chevron, the chairman of the board of Mobil, the chairman of the board of Amoco, the chairman of the board of Arco, will all go out and hire rust buckets and put our environment at risk. If that is the industry, Mr. Chairman, maybe nationalization should be the next amendment.

The issue here is whether or not States will have the right to impose liability on people who use their waterways and use their resources, and to protect those resources from damage.

Now, they say that every company is going to go out of business. Well, since the *Exxon Valdez*, the gentleman from Delaware [Mr. CARPER] says there is a new standard. It is billions of dollars of liability, not hundreds of millions of dollars.

Since the *Exxon Valdez*, since June of this year, over 300 supertankers, maybe about a million barrels each, have left the Port of Valdez under strict liability under Alaska law. They have left the Port of Valdez under simple negligence, under the TAPS, the Federal law of this land. They are all insured. They are all out there plying their business. They are moving 25 percent of America's domestic oil production, 2 million barrels a day they are moving in tankers. They comply with the laws on the books today, which we would not preempt, but which the gentleman from New Jersey [Mr. HUGHES] would preempt.

How would he preempt them? He would keep them from exceeding the Federal standards, even though the State legislature and the State of Alaska, the people of Alaska, support those standards. He would override the people in the State of California as to those standards. We do not need this. This is another attempt, it is the same mix of people, the gentleman from California, [Mr. SHUMWAY], the gentleman from New Jersey [Mr. HUGHES]. However it comes back at Members, this is the same mix of people, who favor preemption. They are here on behalf of the only people so far that have lobbied against the Studds-Miller amendment, and that is the oil companies, the shipping companies, that do not want to do business tomorrow as they have to do business today.

Now, 278 Members just voted no on this amendment now. Now we are going to vote again, because this is the heart of the Studds-Miller approach. This is the heart of protecting States' rights. This is the heart of protecting the environmental laws of States, and the desires of those people. This amendment would gut what is existing law today, standards today, liability standards today. That is what this amendment would do. We ought not to be participating in that effort.

No company is going to go out of business. If the charge is that if we do this, they are going to engage somehow in criminal fraud, they are going to engage in an effort to defraud by setting up shell corporations and crummy ships, then we have bigger problems than this oilspill liability. We have an ethics problem in the oil industry. I do not know that is what they will do, because that is not what they do when they ship in other countries. Other countries have unlimited liability. If a company wants to go to the North Sea and pick up oil, and the company is Shell or Exxon, the company will go under strict liability. The company will go under unlimited liability. Why should that company be able to come to America and be able to wreck our environment and not be held liable? We will have one standard for foreign carriers and another standard for ours. It cannot be that way.

This is no more restrictive on them than current law today, and no more restrictive than any of the other countries of the world impose on them.

Members have to vote against the Hughes amendment. Vote against the Hughes amendment, and vote to maintain the vote Members just made on the Miller-Studds amendment by a margin of 278 to 148. I urge Members to vote no on this amendment.

Mr. ORTIZ. Mr. Chairman, I move to strike the requisite number of words.

I yield to the gentleman from New Jersey [Mr. HUGHES].

Mr. HUGHES. Mr. Chairman, I thank the gentleman for yielding. I am not sure that my colleague and my friend from California described the same amendment I offered.

I would, once again, reiterate that I have consistently supported the Studds-Miller amendment on the floor, resisting any and all weakening amendments. I do not know where the gentleman gets his suggestion that in some way we have changed the liability on the State. We do not do anything with liability.

All we are saying is we are going to create a new Federal regime. In doing so, we want the liability limits consistent so that some of the carriers can get insurance.

Now, it is not the Exxons that we are worried about. It is the operators such as Maritrans, which has assets of $1.25 million. That is all they have. They are the largest independent domestic oil tanker operator in the country.

I would think it would be in our interest to continue the independent operators. I urge my colleagues to support the Hughes-Carper-Shumway amendment.

Mr. ORTIZ. Mr. Chairman, I yield to the gentleman from California [Mr. SHUMWAY].

Mr. SHUMWAY. Mr. Chairman, I would like to make one additional point that underscores what the gentleman from New Jersey just told Members.

I have a report that was commissioned by the U.S. Coast Guard and dated September 1, 1989, just within the last 60 days. The report documents the trend in the industry, and I think it is very significant, that we can say that there companies are still operating that we believe will not go to the rust buckets, the shell capitalized kind of tankers.

Listen to what this report says:

The domestic approach, the state by state approach, will encourage the transportation of oil by independent, limited-asset owners rather than by major oil companies. Higher liability limits will accelerate the trend toward shipping tankers to owners with weaker financial means.

They show, by means of a graph, in 1978, 15 percent of the world's fleet was owned by major oil companies; by 1989, that is reduced to 7.5 percent. The trend is very clear there. If this bill passes, without the Hughes-Carper-Shumway amendment, the trend will be accelerated.

We have very reliable evidence to rely upon for that assertion. Indeed, we will find ourselves relying upon single owned vessels for carrying most of our Nation's oil.

Finally, let me say I know there has been a lot said about whether this preempts or does not preempt. However, I make the point again that all it does is limit the upper limits on what States can offer in their system of laws. It does not restrict or preempt States from enforcing stricter oil spill cleanup standards or restoration standards. It just says that the claimant cannot recover more there than he could under the federal system. I do not think that is total preemption. I think it is very harmonious with the bill as it has been amended.

I urge Members to support this amendment.

Mr. ORTIZ. Mr. Chairman, I urge my friends to support the Shumway-Carper-Hughes amendment. It is a good amendment.

The CHAIRMAN. The question is on the amendment offered by the gentleman from New Jersey [Mr. HUGHES].

The question was taken; the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. HUGHES. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 171, noes 252, not voting 10, as follows:

[Roll No. 340]

NOT VOTING—10

Brooks	Garcia	Roe
Bryant	Jenkins	Smith (IA)
Courter	Leath (TX)	
Florio	Molinari	

□ 1709

Messrs. VALENTINE, LEWIS of Georgia, and WISE changed their vote from "aye" to "no."

Messrs. DORNAN of California, EDWARDS of Oklahoma, McEWEN, and WILSON changed their vote from "no" to "aye."

So the amendment was rejected.

The result of the vote was announced as above recorded.

□ 1710

Mr. JONES of North Carolina. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly the Committee rose; and the Speaker having resumed the chair, Mr. LANCASTER, Chairman pro tempore of the Whole House on the State of the Union, reported that that Committee having had under consideration the bill (H.R. 1465) to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes had come to no resolution thereon.

FURTHER MESSAGE FROM THE SENATE

A further message from the Senate by Mr. Hallen, one of its clerks, announced that the Senate had passed with an amendment in which the concurrence of the House is requested, a bill of the House of the following title:

H.R. 3607. An act to repeal medicare provisions in the Medicare Catastrophic Coverage Act of 1988.

The message also announced that the Senate insists upon its amendment to the bill (H.R. 3607) "An Act to repeal medicare provisions in the Medicare Catastrophic Coverage Act of

1988," requests a conference with the House on the disagreeing votes of the two Houses thereon and appoints Mr. BENTSEN, Mr. MATSUNAGA, Mr. MOYNIHAN, Mr. BAUCUS, Mr. MITCHELL, Mr. RIEGLE, Mr. ROCKEFELLER, Mr. BRADLEY, Mr. PACKWOOD, Mr. DOLE, Mr. ROTH, Mr. DANFORTH, Mr. CHAFEE, Mr. HEINZ, and Mr. DURENBERGER, to be conferees on the part of the Senate.

The message also announced that the Senate had passed a bill of the following title, in which the concurrence of the House is requested:

S. 84. An act to amend title 28, United States Code, to provide Federal debt collection procedures.

APPOINTMENT OF CONFEREES ON H.R. 3607, MEDICARE CATASTROPHIC COVERAGE ACT OF 1988

Mr. ROSTENKOWSKI. Mr. Speaker, I ask unanimous consent to take from the Speaker's table the bill (H.R. 3607) to repeal Medicare provisions in the Medicare Catastrophic Coverage Act of 1988, with a Senate amendment thereto, disagree to the Senate amendment, and agree to the conference asked by the Senate.

The SPEAKER. Is there objection to the request of the gentleman from Illinois? The Chair hears none, and appoints the following conferees, and, without objection, reserves the right to make additional appointments of conferees in the specified particular portions of the House bill and Senate amendment as the subject of various modifications committed to conference.

From the Committee on Ways and Means, for consideration of the House bill, and the Senate amendment, and modifications committed to conference: Messrs. ROSTENKOWSKI, STARK, DONNELLY, COYNE, PICKLE, LEVIN of Michigan, MOODY CARDIN, RUSSO, ARCHER, VANDERJAGT, CRANE, FRENZEL, and SCHULZE.

From the Committee on Energy and Commerce, for consideration of the House bill, and the Senate amendment, and modifications committed to conference: Messrs. DINGELL, WAXMAN, SCHEUER, WALGREN, WYDEN, BRUCE, and ROWLAND of Georgia, Mrs. COLLINS, Messrs. HALL of Texas, LENT, MADIGAN, DANNEMEYER, TAUKE, and BILIRAKIS.

There was no objection.

OIL POLLUTION PREVENTION, RESPONSE, LIABILITY, AND COMPENSATION ACT OF 1989

The SPEAKER. Pursuant to House Resolution 277 and rule XXIII, the Chair declares the House in the Committee of the Whole House on the State of the Union for the further consideration of the bill, H.R. 1465.

□ 1715

IN THE COMMITTEE OF THE WHOLE

Accordingly the House resolved itself into the Committee of the Whole House on the State of the Union for the consideration of the bill (H.R. 1465) to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes, with Mr. LANCASTER (Chairman pro tempore) in the chair.

The Clerk read the title of the bill.

The CHAIRMAN pro tempore. When the Committee of the Whole rose earlier today, the amendment offered by the gentleman from New Jersey [Mr. HUGHES] had been disposed of.

Title I is open for amendment at any point.

Are there further amendments to title I?

AMENDMENT OFFERED BY MR. MILLER OF CALIFORNIA

Mr. MILLER of California. Mr. Chairman, I offer an amendment.

The Clerk read as follows:

Amendment offered by Mr. MILLER of California: Page 19, strike line 6 and insert the following:

(A) negligence by the responsible party or an employee or agent of the responsible party:

Mr. MILLER of California. Mr. Chairman, it is my understanding that the leadership is interested in rising around 6 o'clock, so it would be my intent when the gentleman from Louisiana [Mr. TAUZIN] comes back to consider the question of whether or not we would have a time limit and then divide the time among the parties.

Mr. Chairman, I rise in support of my amendment to establish a negligence standard of care for purposes of capping liability on the oil and shipping companies. While this amendment changes only one line in H.R. 1465, it is clearly the most important environmental vote that the House will cast today.

The fundamental issue is whether or not we are going to extend to Exxon or to any other polluters and oil spillers a lesser standard of care than is imposed on any other industry in this country. Do we want to reward the oil transporters by limiting liability even when they disregard the reasonable standards of conduct? I do not think we do. I do not think we should, and that is why we should adopt this amendment.

In the Senate an amendment to strike all liability limits on the oilspill legislation failed by only 2 votes. The standard of breaking liability limits on H.R. 1465 is gross negligence or willful misconduct. Both are very difficult to prove.

Prosser on Torts describes gross negligence as the failure to exercise even that care which a careless person would use. Is that really the standard that we want to attribute to the people who ship oil in ships that hold up to a million barrels of oil?

My amendment would provide an unlimited liability in cases of negligence, a reasonable compromise between the extremes. The oil and the shipping industries operate today under the State law of negligent standards and unlimited liability. A CRS survey of State laws found only nine States which have limited oilspill liability by statute.

Why after the *Exxon Valdez* should the Congress give the oil and shipping industries a reward for acting carelessly and unreasonably? It makes absolutely no sense to allow negligent conduct which results in unlimited liability under the current Federal law pertaining to the movement of Alaska oil, and other State laws to be rewarded with liability caps under this bill.

After the *Exxon Valdez*, the public's expectation is that the Congress will require greater care by those in the oil transport business and better judgment by the oil companies and the shippers, not less care. That is what this amendment is about.

The amendment is whether or not after the *Exxon-Valdez* standard this Congress is going to go on record as lowering the standard of care that we would require of shippers.

Mr. Chairman, I would hope that Members in the Chamber would understand what we are talking about. If you pass this bill without this amendment, you will be lowering the standard of care on shippers from what it is today. You will be saying after the largest oilspill in the history of this country with billions of dollars of damage, with tragic environmental consequences, that we are going to hold you to a lower standard of care.

Now, mind you, the standard of care that I ask for is not radical. It is not new. It is current Federal law with respect to all of the oil that moves up and down the west coast of the United States, that moves through the Panama Canal to the Virgin Islands to the refineries, all of the oil leaves Alaska, 2 million barrels a day now comes under the standard that I am asking you to maintain by accepting my amendment to this legislation.

I think you should understand that this amendment is a threshold amendment for the environmental organizations. It is supported by the States. It is supported by over 105 environmental organizations. It is going to be a threshold vote in terms of our environmental records, because it is that important, because this is the duty of care which somebody in this business owes to us, the public, owes to the States, owes to our constituents, and it is important that this amendment be accepted for that reason.

Mr. SYNAR. Mr. Chairman, will the gentleman yield?

Mr. MILLER of California. I yield to the gentleman from Oklahoma.

Mr. SYNAR. Mr. Chairman, I intend to support the amendment of the gentleman from California to change the standard of care to negligence because I believe the standard of gross negligence and willful misconduct now contained in the bill is far too stringent and will virtually ensure that all spills are subject to liability limitations. On the other hand, I am concerned that a standard of simple negligency might have the opposite effect—in other words, making it difficult to obtain a limitation under almost all circumstances. Quite frankly, I do not want that to happen either. Therefore, I want to address two questions to my friend from California:

Is it the Gentleman's intention to extend unlimited liability to all circumstances?

Mr. MILLER of California. Mr. Chairman, if the gentleman will yield, that is not the case, that is not the intent nor the purpose nor the effect of the amendment.

Mr. SYNAR. Is it the gentleman's understanding that companies which exercise reasonable care can depend upon the fund to limit their liability under appropriate circumstances?

Mr. MILLER of California. Exactly, and that is the purpose of the amendment.

The CHAIRMAN. The time of the gentleman from California has expired.

(By unanimous consent, Mr. MILLER of California was allowed to proceed for 2 additional minutes.)

Mr. MILLER of California. That would be the purpose of this amendment. If you exercise reasonable care, and we are all aware that accidents happen from time to time even by those individuals who exercise reasonable care, then you would be entitled to the caps on your liability and you have access to the fund that this legislation sets up. That is the intent of the amendment.

Mr. SYNAR. Mr. Chairman, I thank the gentleman.

□ 1720

Mr. MILLER of California. I thank the gentleman for his concern and for his support.

The point of this amendment is that we are not going to give you access to this fund if you are a careless operator. If you act in a careless fashion, why should other oil companies, why should other individuals who operate in a reasonable fashion, in a careful fashion under a standard of reasonable care, why should they have to pick up the tab for your careless actions? That is what in fact would happen if we do not adopt this amendment. I think it is a reasonable amendment. It is a compromise between unlimited liability in every instance and protection of the resources of this fund.

Later we are going to have to vote on a new tax to go into this fund, and if we just open the door to this fund, we will be back here time and again trying to replenish that, and I would have to tell the Members, for those who have represented to their constituents that we are creating a billion-dollar fund, according to CBO there is little if any likelihood that over the next 5 or maybe even 10 years this fund would even reach $1 billion. It is little likely, there is absolutely no likelihood, that it will reach any kind of money in the fund in terms of a surplus to pay out on an oil spill over the next couple of years, so this is our first line of defense to make sure operators operate in a safe fashion.

I hope that the Members will support the Miller amendment.

Mr. HAMMERSCHMIDT. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, I rise in strong opposition to the amendment of the gentleman from California [Mr. MILLER.]

The amendment undermines the entire liability system developed by the leadership of the committees of jurisdiction. It is tantamount to establishing a system of absolute liability for all cleanup costs and makes a mockery of the tiered system of liability in the bill. It places all of the risk associated with the transportation of oil on the vessel owners and operators rather than spreading that risk between the carriers and those who are ultimately responsible for the oil being there—the oil industry.

Do not be misled. A vote for the Miller amendment is not a vote against big oil—it is a vote against the shipping industry and a vote for big oil. That's because the committee's bill places some of the liability on the owner of the oil being shipped and, ultimately, the fund financed by the oil industry—except where gross negligence is shown. By shifting liability for all costs and damages to the vessel owners/operators when there is only evidence of simple negligence, we are, in effect, letting the oil industry off the hook.

Oil companies that ship their own oil will incur greater risks. However, it doesn't take a graduate of the Wharton School to realize that those companies will simply divest themselves of their shipping operations—leaving independent carriers to pick up all of the costs.

In closing, let me remind my colleagues that gross negligence is the standard for breaking liability limits in the Senate oilspill bill and is virtually the same as the willful negligence standard in the Federal Superfund law. Anything less amounts to unlimited strict liability which would result in total upheaval of the shipping industry. I do not believe that is what this body wants.

Accordingly, I urge my colleagues to reject the Miller amendment on simple negligence.

Mr. GEJDENSON. Mr. Chairman, I move to strike the last word.

Mr. Chairman, what we have before us is a test of whether we are going to go backward or forward, whether we are going to at least maintain the standards that existed at the time of the oil spill in Alaska, or make the standards easier on people who are involved in oil spills. For that purpose, I would like to ask the gentleman from California [Mr. MILLER], the author of this amendment, if his amendment is not adopted, how would that affect the situation as it occurred in Alaska? Would there be tighter standards or looser standards?

Mr. MILLER of California. Mr. Chairman, will the gentleman yield?

Mr. GEJDENSON. I am happy to yield to the gentleman from California.

Mr. MILLER of California. Mr. Chairman, in fact, there would be a looser standard under the law than currently exists, so if we reran the *Exxon Valdez* under the same scenario, it would be more difficult to prove liability on the part of the company if the bill is passed without this amendment than it was after the accident, and I think that is a very important point. We ought not to be lessening the standard of care and rewarding careless activity by proposing such a high standard that we cannot meet that when we seek to have those companies act in a reasonable fashion.

Mr. GEJDENSON. Without the amendment offered by the gentleman from California, what we would move is from the present situation, which is negligence, to gross negligence?

Mr. MILLER of California. The gentleman is correct.

Mr. GEJDENSON. So what we would find ourselves in is someone would have to be more negligent than simply normal negligence in order to trigger this provision?

Mr. MILLER of California. If the gentleman will yield further, that is right. What that means is this fund which will either be paid into by energy users all over the United States, and if we had an oil spill right away, what we would have under the bill is a limit on the liability of the company. Then we would use taxpayer dollars to borrow money to pay into the oilspill liability. We would then be making it easier for a careless operator to get at taxpayer dollars to clean up the spill as opposed to being responsible for his own actions.

Mr. GEJDENSON. If we can move away from Alaska for a moment to Long Island Sound, where something

like 50 million people live within a short distance, we have a situation where 6.5 billion barrels of oil travel through Long Island Sound every year, and if the amendment offered by the gentleman from California is not accepted, what we would find is that the fund would be used to cover people who are less careful than a careless person. Is that correct?

Mr. MILLER of California. If the gentleman will yield further, the gentleman is absolutely correct. That would become the standard for moving a supertanker through Long Island Sound or Prince William Sound or San Francisco Bay or off of the Florida Keys. We would say that one could be less careful than a careless man and still not be liable for his actions.

Mr. GEJDENSON. So what we have here is a situation where the drunk driver is automatically covered by the Government, and you cannot get that in your auto insurance, you cannot get it anywhere else, but you virtually put somebody who has taken virtually no precautions, and if he ruins Long Island Sound, the taxpayers are going to pick up the tab.

Mr. MILLER of California. That is the test, as everybody knows, of gross negligence or willful misconduct, which is a very, very difficult test to meet, and what that does is it opens the door either to this fund or the Federal Treasury to clean up these oil spills.

Mr. GEJDENSON. Mr. Chairman, I would just submit that the American people who are out there watching, and there are a lot of issues we can slip by on, but this is one where the magnitude of the spill, I think, has awakened the American people to a degree that they are going to take a careful look at what we have done, and if we cannot get funds out of this Congress to help clean up the damage that we have in our sounds and our bays as a result of normal pollution, if we are forced to use taxpayer money under a standard of gross negligence, less care than a careless person, I think that we would lose face with the American people. We are not talking about somebody carrying rose petals across a clover field. We are talking about ships that are carrying hazardous chemicals and oils that can destroy some of the basic waterways they travel on.

We ought to make sure that the legislation we send out of this Chamber sends a message across the globe that what we demand is the highest standard and not the lowest standard that we expect from the ship operators and the shippers of oil, to have a standard that guarantees the least possibility of spoiling our natural waterways and bays, not the gross negligence of a careless, less-than-careful person.

Mr. Chairman, I rise today in support of the Miller amendment to H.R. 1465 to change the legislation's negligence standard from "gross negligence" or willful misconduct to simple "negligence." I urge my colleagues to join me in support of this important amendment.

The legislation that we are debating today is very important. On March 24, 1989, we experienced a national disaster in the Prince William Sound when the *Exxon Valdez* ran aground on Bligh Reef spilling over 10 million gallons of crude oil into one of this Nation's most pristine waterways. The intent of this legislation is to prevent future spills from occurring. This legislation must ensure that oil transporters take every precaution necessary to prevent future spills. The Miller amendment does this.

Mr. Chairman, the definition of gross negligence that this legislation uses to determine whether the liability caps are broken is: "A. The failure to exercise a standard of care which even a careless person would exercise." This standard is fine for nonhazardous materials, but not for crude oil transported over some of the most environmentally sensitive areas in the world. If this standard were in place when the tanker *Valdez* ran aground, it is very likely that the Exxon Corp. would not have been held liable for the full cost of cleanup of the spill.

The negligence standard in Mr. MILLER's amendment is defined as a "failure to exercise a reasonable standard of care." This definition is clear and will induce shippers to take all necessary steps to prevent spills. This language is also the standard under provisions of the Trans-Alaskan Pipeline Authorization which that all Alaskan oil is transported under. And this standard is an important factor in ensuring that Exxon paid for the cost of its cleanup of the Prince William Sound.

Many in the shipping industry may argue that the standard in the Miller amendment will not allow them to operate any longer. Mr. Chairman, 19 coastal States currently have unlimited liability in the event of a spill and the industry is operating with huge profits. The language in this amendment will simply maintain the status quo, the language in H.R. 1465 would weaken current laws.

My home State of Connecticut has unlimited liability laws requiring all responsible parties to pay for the cleanup of any oilspill. Each year an estimated 6.5 billion gallons of fuel oil are transported through the Long Island Sound. I am certain that all of my colleagues will agree on the importance of protecting the Long Island Sound from potential oil or hazardous waste material spillage that may harm the already ecologically-at-risk estuary. As you may recall the Long Island Sound has been recognized as a nationally significant ecological resource under the National Estuary Program. This legislation would weaken the standard in the Long Island and would unnecessarily risk serious and long-term contamination of this crucial environmental, economic and recreational resource.

Despite the environmental damage and the economic and social dislocation of the spill in the Prince William Sound, we must learn some lessons. Perhaps the most important lesson learned is that the parties responsible for the spill must be held accountable for their actions. This was perhaps the only bright spot in the entire catastrophe, that, because of unlimited liability laws of the State of Alaska and the strict negligence standards under the Trans-Alaska Pipeline Authorization, Exxon has been held accountable for the cleanup costs. The gross negligence standard in this legislation will substantially weaken the current standard for Alaskan oil traveling through the Trans-Alaska Pipeline. Is this the direction that we want to go? The gross negligence standard in the legislation will hamper our ability to hold the responsible parties accountable. It also provides a disincentive for oil transporters to take all the necessary precautions because the vague nature of the standard will enable them to get out of it.

Mr. Chairman, we cannot let polluters get away with spoiling our precious natural resources and more importantly, the taxpayers should not have to foot the bill. The strict negligence standard that my colleague from California is proposing, makes sense and would not weaken current laws as the proposed legislation would. I urge my colleagues to join me in support of this amendment.

Mr. DAVIS. Mr. Chairman, I ask unanimous consent that all debate on this amendment end at 6 o'clock.

The CHAIRMAN pro tempore (Mr. LANCASTER). And amendments thereto?

Mr. DAVIS. And amendments thereto.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Michigan?

Mr. MILLER of California. Mr. Chairman, reserving the right to object, just if I may make an inquiry of the Chair: We could divide that time equally between those opposed and those in favor of the amendment?

The CHAIRMAN pro tempore. The Chair would intend to divide the time equally.

□ 1730

Mr. MILLER of California. I guess the other way to do it would be to let Members stand at random and they can yield their time.

The CHAIRMAN pro tempore (Mr. LANCASTER). The Chair would prefer to divide the time between the proponents and the opponents.

Mr. MILLER of California. With that caveat, Mr. Chairman, I do not object.

Mr. Chairman, I withdraw my reservation of objection.

The CHAIRMAN pro tempore. Is there objection to the request of the gentleman from Michigan?

There was no objection.

The CHAIRMAN pro tempore. The gentleman from California [Mr. MILLER] will control 15 minutes, and the gentleman from Louisiana [Mr. TAUZIN] will control 15 minutes.

Mr. MILLER of California. Mr. Chairman, because I spoke for 5 minutes prior to this agreement, I yield 5 minutes of my time to the gentleman from Louisiana [Mr. TAUZIN] to balance out the time.

The CHAIRMAN pro tempore. In that case, the gentleman from Louisiana [Mr. TAUZIN] will control 20 min-

utes, and the gentleman from California [Mr. MILLER] will control 10 minutes.

The Chair recognizes the gentleman from Louisiana [Mr. TAUZIN].

Mr. TAUZIN. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, let me correct the record again. The bill we are debating today does not set up a standard that requires proving of gross negligence before someone like the *Exxon Valdez* is liable for all of the costs of the spill. Under this bill, without the Miller amendment, the owner of the *Exxon Valdez* and the Exxon Corp. would be totally liable for cleanup costs.

Do my colleagues know why? Because they have violated safety standards. Under this bill one does not necessarily have to prove gross negligence. It is enough to prove that there is any violation of any applicable Federal safety, construction or operation regulation by the responsible party or by an agent or employee of the responsible party. Now let us set the record straight. This notion that somehow without the Miller amendment Exxon would not have been liable is just phony, it is not true. Exxon would have been totally liable under this bill, as they are in current law. Let us put that aside for a second.

Second, under the bill we have proposed, like every other good insurance policy, we built a system whereby the responsible party has a deductible amount that he pays first in an accident, and then his insurance policy covers the rest. How much of an insurance policy? Unlimited. If it runs out, they keep taxing until it is filled again, until all of the claims are paid, quite a good insurance policy.

We even provide that when someone causes a spill, when the spill is involved with your vessel, you do not even have to show you are negligent, you have to put up the first amount, that deductible, unless it is an act of God, an act of war, or it was clearly caused by a third party. We automatically assume negligence, and they have to put that first amount, that deductible liability amount up before the fund kicks in.

Let me say it as clearly as I can. If we adopt the Miller amendment, we do not need a bill anymore. I had just as soon scrap it. When it comes to having a fund, the idea of the fund is as an insurance policy that would tax, and who are the taxpayers? The oil shippers and the oil owners are going to put it in.

The previous speaker said we do not want the taxpayers to have to pay for the spill. The taxpayers, you and I, are not the ones taxed. The oil companies are taxed, and if they pass it through in commerce, and they can do it, fine. If they cannot, it is their responsibility, and they are taxed again, and again, and again so long as that fund is required to pay out the damages.

So if we make an argument that we have to change the limits of liability into an all-encompassing, strict liability system, then we are saying that we do not want a fund, we do not want an insurance program. If that is what Members really want to do, if the Miller amendment is going to prevail this time, we do not need a bill, and I would recommend to the President that we do not have the bill, and I think others would recommend that.

It goes to the basic issue. Members got rid of the preemption, and that is the choice. The Senate bill no longer has preemption. We are going to agree to that and go to conference. It is a done deal.

But if Members do away with the structure of the limits of liability and insurance fund on top of it, we need not have a bill at all.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to my friend, the gentleman from Michigan.

Mr. DAVIS. Mr. Chairman, I thank the gentleman for yielding. This is a crucial, crucial amendment, and I would hope that Members would not adopt this amendment.

I have here a letter, and I am sure many Members are aware of it, from the Secretary of the Department of Transportation. Let me just read one sentence. "The administration is vehemently opposed to this amendment, and I would recommend to the President that he veto the legislation if the simple negligence standard is enacted."

This would be a disaster. I believe very firmly that there would be an excellent chance that the President would veto this bill that we have been trying to pass for 14 years, and we ought not jeopardize this bill over this issue.

The standard of breaking liability limits in other environmental statutes such as the Superfund, clean water, the Outer Continental Shelf Act, is willful, gross negligence or willful misconduct. Why should the Oil Pollution Act have a significantly different standard? Almost every oilspill will have been caused by unintentional negligence. Therefore, the limits of liability will have no limit, and insurance may be impossible to obtain.

This bill is designed to handle the unintentional negligence cases by paying excess costs of cleanup and damages, if any, through the fund. We have removed the requirement that the willful negligence or willful misconduct be within the privity or knowledge of the responsible party as is required under other environmental laws. This will make it much easier to prove that a limit of liability should be breached.

I just think we would be making a terrible mistake, ladies and gentlemen, if we adopt this amendment. This is going too far, and it should not be adopted.

I thank the gentleman for yielding.

Mr. LENT. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from New York.

Mr. LENT. Mr. Chairman, I thank the gentleman for yielding.

Mr. Chairman, I wonder if the gentleman from Louisiana can tell us if this amendment were to be adopted, and the simple negligence standard were to be applied to impose unlimited liability on a shipper, would the cargo owner, the big oil company, be liable?

Mr. TAUZIN. We have limits of liability of 600 on an oil company, but that is it, he would not be liable unlimited. In fact, the shipper would end up being the responsible party.

Mr. LENT. It would be the shipper who would be the responsible party and the liability would be unlimited?

Mr. TAUZIN. The gentleman is correct.

Mr. LENT. But we would never get to the oil company?

Mr. TAUZIN. The gentleman is correct.

Mr. LENT. We would never get to the fund?

Mr. TAUZIN. We would not need the fund is my point, unless for some reason you had a rust bucket out there, which is what we are going to encourage if we are not careful.

Let me make one plea to the gentleman.

Mr. LENT. In other words, the thrust of this amendment, it seems to me, is to let the big oil companies get completely off the hook?

Mr. TAUZIN. I do not think that is the intent of the gentleman from California, Mr. MILLER, but I think that is the result.

Let me make the point that we passed this bill in the House how many times, and we have lost in the Senate conference how many times, and we have seen a spill in Alaska that dwarfs our imagination. When the next one hits, what excuse do we give the American public when we do not pass a bill this time, or when we get a veto and get tangled up on this thing? I suggest we do the sensible thing and pass this bill that will work.

Mr. LENT. Mr. Chairman, I rise in strong opposition to the amendment of the gentleman from California, Mr. MILLER. This amendment would change the standard in H.R. 1465—for being unable to limit liability for an oilspill—from gross negligence to simple negligence.

The language of the bill before us is right and proper. Someone who has been irresponsible and has caused an oilspill because of gross negligence or willful misconduct, as called for in the bill, should be held totally accountable and should bear unlimited liability.

However, a shipper who has taken all reasonable precautions against an accident and is operating within the proper rules of navigation and still suffers an accident should not have to face unlimited liability as this amendment would provide.

Virtually any accident that resulted in an oilspill could be the result of some simple negligence somewhere in the system. It could be something as elementary as having a navigation chart that is a week out of date or some other accidental action of a crewman. The Miller amendment would mean that the responsible vessel operators in our country would either have to pay exorbitant insurance premiums—even if insurance is available at all—or just get out of the oil transport business altogether. That, Mr. Chairman, will not provide the kind of operating environment that we are looking for.

This amendment will actually result in a more hazardous environment being created with regard to transporting oil. This is true because the responsible operators will no longer put their companies at the financial risk that unlimited liability for a simple negligent act would create. We will be left with small, one ship companies in this business. The owners will have no assets other than the vessel to use to pay for cleanup and compensation and they will have no incentive to take appropriate steps to prevent spills.

This amendment is quite simply a back door attempt to remove all liability limits in terms of responding to an oilspill. By contrast, H.R. 1465 provides for an appropriate liability and compensation program that makes those involved in the transport of oil fully liable for spills that are the result of truly negligent activity. A shipper will face unlimited liability if he is grossly negligent or engages in willful misconduct, fails to report an oilspill, or does not properly respond to a spill. That is a reasonable standard and one that all parties can live with.

I understand that the Department of Transportation, with the concurrence of the Office of Management and Budget, will recommend that the President veto this legislation if this amendment is included in the bill sent to the White House. That will mean that 14 years of effort will have been wasted.

Mr. Chairman, I urge my colleagues to join me, and the other Members of this Chamber who are eager to enact a good, workable oilspill law, to defeat this amendment.

Mr. SIKORSKI. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Minnesota.

Mr. SIKORSKI. Mr. Chairman, I thank the gentleman for yielding and thank all of the Members for putting so much time and sincere effort and endeavor into this.

I have heard a lot of talk about the question of no insurance and we should have the same standard as others. It is my understanding that the major Alaska oil producer, British Petroleum, the major partner in the Trans-Alaska Pipeline, British Petroleum, operates just fine under British law which has a negligence standard that the gentleman gauges as a wrecker here, and as the gentleman from California [Mr. MILLER] proposes. If they can operate just fine under Britsh law providing for unlimited liability for oilspills caused by negligence, why should the standard of care and liability be less in the United States?

Mr. TAUZIN. The difference, I would say to the gentleman, is that the big oil companies, like BP and Exxon, are self-insured and not the ones I am worried about. The ones that I am concerned about, and the gentleman ought to be concerned about, are all the little tugs, and tow boats, and oil barges, and tankers that come into our ports and harbors from all over the world and from around America. If we have unlimited liability without the ability of this fund to stand behind it, then we had just as well not have a fund. We are not going to have a workable system and we still have threatened a veto. We have risked this legislation too far, and I suggest we ought not risk it any further.

Mr. BAKER. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Louisiana.

Mr. BAKER. Mr. Chairman, I thank the gentleman for yielding.

My question is as to the operational impact of the amendment. As proposed under the current system we are going to have a liability program and a fund which is collected from the oil and gas industry domestically of 3 cents per barrel. That gives us an insurance pool we can pull from.

Mr. TAUZIN. The gentleman is correct.

Mr. BAKER. We have a limited individual transporter's liability so that domestic operators can continue to get insurance coverage for their limited liability. If we take off that limit, and a small- or moderate-size transporter is found to have been negligent in the conduct of business, we are going to bankrupt that business and possibly force foreign bottom-owned vessels in order to transport oil through to our domestic marketplaces.

□ 1740

What recourse do we have if it is a foreign ship that transverses the waters of the United States and has a spill? How do we have an effective recovery against them?

Mr. TAUZIN. Well, until we sign protocols, which we have not yet signed, we are not protected against foreign vessels. We are lucky it was a domestic vessel in Alaska. Had it been a foreign vessel, we could not have made that party responsible.

Finally, let me point out that the gentleman makes a good point, what we are talking about is a system that can work and you will get no more protection with this Miller amendment, no more coverage, no more claims paid than under the bill as we have constructed it.

Mr. BAKER. And as proposed, we have 3 cents per barrel for unlimited expenditures.

Mr. TAUZIN. That is correct.

Mr. BAKER. So recovery will be made.

Mr. TAUZIN. Recovery will be unlimited under the current bill.

Mr. BAKER. And if we adopt the alternative, the net effect is only going to be to push oil possibly into the hands of foreign transporters rather than our own domestic industry.

Mr. TAUZIN. That is indeed one possibility, and it is a possibility we ought to avoid.

Let me sum it up: You have a choice here, you either have a bill that works with an insurance fund for America that prevents things like *Exxon Valdez* in Alaska or you have got a choice to go with the Miller amendment and limited liability and run right into a veto and maybe not get a bill at all, a system that does not work. It will be on our shoulders when the next spill happens and it happens in foreign tanker that is not covered and nobody gets covered or protected.

That is an awful choice.

I suggest to you let us get practical here at this moment in this Congress' history.

We have a golden opportunity to pass this bill and a measure in way that the Senate can agree upon it and the President can sign it and we can very soon provide this protection for America.

Mr. HAYES of Louisiana. Mr. Chairman, will the gentleman yield?

Mr. TAUZIN. I yield to the gentleman from Louisiana.

Mr. HAYES of Louisiana. I thank the gentleman for yielding.

Mr. Chairman, I know the chairman is acknowledged as having an expertise in this field. I have a question.

One of the concerns I have had in reading the legislation is, assume that we pass this amendment, the previous amendment and the bill becomes law in that fashion, I do not know how you entice someone to do cleanup work.

In other words, if you look at the whole comprehensive area of this bill, when you phone those Louisiana industries that have an expertise in cleanup, they are going to answer that they do not plan to risk vessels and operations because if the spill is out of control or does any harm whatsoever, they themselves, under a standard of negligence that is very, very high, can end up with liability for trying to do the cleanup under contract with the original shipper or owner.

Mr. TAUZIN. The gentleman makes a point.

We have tried in this bill to structure an advantage for someone to go out and try to clean up the mess, get out and do it. And if you do it, the insurance fund helps you beyond your limits of liability.

You take that advantage away, there is no purpose, no point in going out and trying to clean up. All you do is attract more liability to yourself.

What I am suggesting to the gentleman is let us be practical; we have a system that works in this bill. The Miller amendment destroys it, subjects us to a possible veto. It is not the thing to do if you want to pass this good bill for America.

Mr. Chairman, I reserve the balance of my time.

Mr. MILLER of California. Mr. Chairman, I yield 2 minutes to the gentleman from Oregon.

Mr. DEFAZIO. "Ladies and gentlemen of the jury, we admit our carelessness caused the tragic Prince William Sound oilspill and resulted in billions of dollars of damages. However, we were not any more careless than the average careless supertanker operator. Consequently, our liability for this spill should be limited to $115 million."

That is the result of the standard that we are setting here with this legislation, with the gross negligence standard.

This defense was not available to Exxon last March, and they spent a billion dollars, not enough, but they spent a billion dollars thus far cleaning up. Next time they will not have to, they can go to court and defend themselves and say it was simple negligence.

They can defend themselves under the simple negligence standard.

Now we are hearing a lot of talk about vetoes here.

Does anyone really believe that the President, the environmental President, George Bush, will veto the first major bill that comes to his desk regarding oilspill liability after the tragic *Exxon Valdez* disaster? I do not believe that. There is a lot of thought, a lot of threat of veto and a lot of wigling and squirming to get off the hook. That is because this amendment would place those oil companies, the oil companies, the owners of the oil, and the previous speakers are incorrect, the owners of the oil and the shippers firmly on that hook. They would have to pay and be held to the same standard that every American is held to every time they get in their automobile and drive down the street.

That is the standard of simple negligence, not gross negligence.

Imagine the mayhem in our streets if the standards were gross negligence. You could only collect if the person who ran into you was grossly negligent, if they are driving a 2-ton automobile and they run in to you—let alone a supertanker weighing hundreds of thousands of tons.

Adopt the Miller amendment.

Mr. MILLER of California. Mr. Chairman, I yield 2 minutes to the gentleman from Florida [Mr. SMITH].

Mr. SMITH of Florida. I thank the gentleman for yielding.

Mr. Chairman, I have heard a lot of somewhat disturbing information here. If the gentleman from Louisiana were to be believed, the only reason that people go out to clean up oilspills is from the magnanimity of their hearts and the only reason people ship oil is they want to get those people who do not have it to have it.

Folks, that is just not so. People go out and ship oil because they make money shipping oil; people go out and cleanup oilspills because they make money cleaning up spills. If they have a higher degree of care of achieve, they are still going to go out and clean up spills, only what they are going to do is charge a little bit more.

If the oil companies, the oil owners and the oil shippers have to do it under a higher degree of care, they are going to go out and charge a little bit more.

Nobody is going to stop shipping oil. Nobody is going to stop cleaning up oil. Nobody is going to stop producing oil.

There is a lot of money in oil, folks.

What we have tried to do, however, is take out from that equation the ability to use the oil to slip out of the liability. The previous speaker was right. What would happen if we were able under this law to see Exxon exculpate themselves any more than about $115 million in liability. The people of the United States were going to take it in the ear, that is what would happen.

That is what is going to happen every time unless you make the standard simple negligence. If you want to know the truth, there should not be any standard at all. It should be per se damage. If somebody is in the business of shipping oil and they released a couple of million tons and kill wildlife and foul a preserve and spoil the pristine beauty of the Valdez area or they do anything else or they take the Florida Keys and destroy them like the tanker that did that, that ran aground the other day, why should there be any negligence standard? If they did the damage, they should pay.

The gentleman from California is giving them at least some standard that we have to prove, and it is that they were negligent.

The tanker last week had another drunken mate at the helm. I am tired of it. The American people are tired of it. The Miller amendment is an amendment that makes sense and is not going to hurt anybody at all.

Mr. TAUZIN. Mr. Chairman, I yield myself such time as I may consume.

Mr. Chairman, I rise again to correct the record one more time. *Exxon Valdez* would be held liable under this bill without the Miller amendment for every dime of the cleanup. *Exxon Valdez* was guilty of an operational regulation violation. They were in State-piloted waters without a pilot at the helm. They were in violation of the regulation.

The bill as written provides for unlimited liability to any shipper who is in violation of an applicable Federal safety construction or operation regulation.

Now let us stop saying this on the floor when you know it is not true. *Exxon Valdez* would have been liable for every dime under the bill as we currently have it written.

One final thought: The Senate bill was hailed by every environmental group in America as a superb product, as an excellent bill. And do you know what the Senate bill says and contains?

It contains the identical standards of negligence as in this bill without the Miller amendment. It was hailed by every environmental group in America as the right thing to do. We did it on the House side.

If you want to agree with every environmental group in America, I suggest you vote against this Miller amendment, stick with the provision that is in the Senate bill as well that guarantees that we will have a workable process by which shippers and oil owners will be liable in the front end with this limit of liability and on the rear end with the fund standing behind the rest of the damages.

□ 1550

The bill we have works. The Miller amendment destroys it. If Members want to take that chance for America, then I will be very sad today. I think America will be sad today.

Let Members not take a chance on destroying a good product, a good safety system for the interests of America.

Mr. Chairman, I yield 2 minutes to the chairman of the full committee, the gentleman from North Carolina [Mr. JONES].

Mr. JONES of North Carolina. Mr. Chairman, I have been chairman of the Committee on Merchant Marine and Fisheries for x number of years, which I am sure Members are saying that is far too long. However, during that time this is either the fourth or fifth oilspill liability bill that this House has agonized over for hours and hours and hours, only to send it to the other body, and through indifference or misunderstanding, it dies a natural death.

This situation is in reverse. They have acted. They are sending something over here to this body. I think it

is incumbent upon Members to meet halfway in whatever way is necessary to enact an oilspill liability bill. Let me remind the membership we should reject this amendment. Our position is exactly the same as the standard already approved by the Senate. The Senate rejected an amendment similar to or just like the gentleman from California, Mr. MILLER's amendment.

It has already been started, to change the environmental groups of the United States for allowing their praise for the Senate bill. I conclude by saying the Senate standard is our standard, and there will be no problem in conference. They were exactly the same. Let Members defeat this amendment and save the oilspill liability bill.

Mr. TAUZIN. Mr. Chairman, I yield such time as he may consume to the gentleman from Alaska [Mr. YOUNG].

Mr. YOUNG of Alaska. Mr. Chairman, it is with some reluctance I rise in opposition to this amendment, because my good friend, the gentleman from California, is the chairman of the subcommittee that deals a great deal with other aspects of Alaska.

I would suggest respectfully if Members want to kill this bill, then Members vote for the gentleman's amendment.

I thought we were here to pass oilspill legislation that would help all coastal areas. That, in fact, will take care of the other States so that Alaska would not receive the damage that happened because of *Exxon Valdez*, in vain. However, I can assure Members, the gentleman from Michigan mentioned this bill will be vetoed if this provision is adopted. It is not in the Senate.

Some people say we will strip it out in conference. I think we have a responsibility to write good legislation. I think the bill that came out of the committee is a good piece of legislation. We have accepted the gentleman from California's amendments in some areas, some with my support and some not. However, I would suggest that if we really want to punish our domestic oil industry, and I believe some people on this floor are seeking to do that, then Members will, in fact, adopt the gentleman from California's amendment. However, if Members want legislation that will solve the problem and develop a national oilspill policy, then Members will oppose this amendment and oppose it strenuously.

I have listened to some of the debate over in my office. I do not know what comic books Members have been reading lately, but I am very, very chagrined that this bill has gone through three committees, three chairmen, six times, and now here we are today, asking to adopt an amendment that has no hearing, has had no input from the general public, no public input at all, because certain environmental groups want it to happen. I do not think that is the way Members should write legislation. These are not minor committees, these are major committees. Therefore, I want to say to my good friend from California that I am not sure he wants the bill, because if we adopt his amendment, this bill is dead. I want the bill. There is much good in this bill. There is much for the State of Alaska. There is the Miller-Studds amendment that has been adopted. Some Members did not approve of that. This is in the bill. However, any further addition to this bill, as I said in the general debate, will kill the bill. Therefore, I urge my colleagues on both sides of the aisle to vote no overwhelmingly on this amendment, so we can move this bill, and hopefully, hopefully with the encouragement of the leadership who have been involved in this legislation, just recently and not before, will urge the Senate, the other side of the body, and this House, so we can go to a conference in a rush and get this bill to the President so he can sign it. The adoption of this amendment could assure that will not happen.

Mr. DAVIS. Mr. Chairman, will the gentleman yield?

Mr. YOUNG of Alaska. I yield to the gentleman from Michigan [Mr. DAVIS].

Mr. DAVIS. Mr. Chairman, I might just say there were some amendments that the environmental groups in this country would have fallen on the sword for, and in fact have. I do not believe that this is one of those amendments. I think they recognize that this amendment could cause the distinct possibility that the bill could be vetoed.

Therefore, vote against this amendment. I do not think we will alienate the environmental groups in this country. I think most of the things that we want have already been adopted. This one, really, from an environmental standpoint, Members are not going to alienate the environmental groups in this country by voting against it.

Mr. YOUNG of Alaska. Even if we do so, that does not bother me a great deal, because that exposes them to what they are, and they do not want Members to have the oil that we need in this country safely. I will say that publicly. They want this country to be second-rate, and an opportunity not available for the future generations.

They talk a lot. If this amendment is adopted, we will be dependent upon those OPEC countries as we are today, and even to a greater extent. I am seeking the solution to the oil spill problem we have in this country.

Mr. MILLER of California. Mr. Chairman, I yield 1 minute to the gentleman from California [Mr. LEVINE].

Mr. LEVINE of California. Mr. Chairman, I thank the gentleman for yielding.

I would like to try to put two things in perspective as I rise in support of the gentleman's amendment.

First, my friend from Louisiana in his earlier remarks was very generous with Exxon's liability and with his interpretation of where Exxon would be liable. However, the fact of the matter is, despite my friend's interpretation, the lawyers from Exxon have a very different interpretation with regard to their liability, and they are in court as we speak, resisting this interpretation of their liability.

Second, my friend, the distinguished chairman from North Carolina, referred to the fact that, as he puts it, a similar amendment lost in the Senate. I think we need to put that in perspective, because that is the guts of what we are talking about today. The fact is, the amendment that lost in the other body was an amendment for unlimited liability, which lost by only 2 votes in the other body.

This amendment is a compromise amendment. It is not essentially no liability, or gross liability, nor is it unlimited liability, which a number of people support, but which lost by only 2 votes. It is some liability. It is a middle ground. We should support the Miller amendment.

Indeed, after we have spent $1 billion cleaning up the Valdez disaster, how can this body consider legislation that simply lets the industry off the hook the next time there's a spill? How can we consider legislation that would force the American people to pay for an industry's carelessness and neglect? How can we consider legislation that would ensure the American people rather than the oil companies pick up the tab the next time there's a spill?

Given the circumstances of the Valdez, I have to ask my colleagues why any of them could possibly feel it would be fair or appropriate to ask the American taxpayer to pay for the industry's negligence?

Clearly it would be neither fair nor just.

And perhaps more importantly, it would be a grievous mistake for this body to remove one of the industry's greatest incentives to be absolutely sure they prevent another *Exxon Valdez*. Certainly we cannot insure that the industry will learn from the Valdez by reducing their liability. Instead, we must unequivocally tell them that if their negligence destroys our environment and the livelihood of working men and women, it is they who will be held liable.

In the wake of the *Valdez* spill it is inconceivable to me that we could create an enormous new loophole through which the oil industry could run and hide the next time there's a spill.

I urge my colleagues to support the Miller amendment. We have an obligation to the American people to send a clear message to the oil industry that they will be held responsible for their actions.

Mr. MILLER of California. Mr. Chairman, I yield 1 minute to the gentleman from Utah [Mr. OWENS].

Mr. OWENS of Utah. Mr. Chairman, let Members be very clear about what we are voting on here. We are voting on giving the oil companies their reward of a lesser standard of care for their carelessness in Prince William Sound. We are saying to them we will only hold those companies responsible in the future if they have been grossly negligent, if they have been willfully negligent. We will reward those companies as the result of your good work in Prince William Sound in getting the *Exxon Valdez* safely through, by providing a lesser standard of care and making it easier for the company in the future.

Let Members not yield to this veto threat, this veto blackmail, this idea that the President will kill this bill if we attach this amendment to it, because all this amendment does is say we will make application here of the standard of care, the ordinary standard of care of simple negligence. That applies everywhere else, Mr. Chairman.

Mr. Chairman, I rise today in support of the Miller amendment.

In my travels to the North over the years, I have witnessed two Alaskas: One, pristine, unspoiled, arguably, after my own Utah, the most beautiful land I have ever seen. But the other, just 6 months ago, was an Alaska partially fouled, polluted, degraded, and abused. The difference between the two has simply been the breach of the public trust by the oil industry, a trust I placed in the industry when I participated in the drafting of the original Alaska pipeline legislation as a young Congressman 16 years ago.

The legislation before us today will be viewed as our answer to the cataclysm which struck Alaska's marine environment and which precipitated a response so inefficient it would have seemed comical if the outcome has not been so lethal to a once-pristine ecosystem. The bill we are debating will establish a framework for response and compensation in the face of similar accidents. But the bill does not adequately address our first line of defense against future oilspills—prevention.

Yes, there are new regulations and requirements for everything from vessel design to tanker captain testing. Yes, there are assessments of safety standards and outlays for research and development. None of this, unfortunately, gets to the heart of the matter.

We must give shippers and oil companies convincing incentives to act responsibly towards the environment. Corporations need to make decisions knowing they will be held fully accountable for their actions. A healthy respect for the fiscal consequences will lead to increased environmental sensitivity.

We must be reasonable. We cannot be draconian. We need the oil and we need its shippers and producers. But the standard of care proposed in the Miller amendment is no different than what we expect of the motorists who drive our highways. It is no different, no more demanding, than what we require in many other environmental laws, including the Alaska Pipeline Act passed in 1973. In Alaska, the oil and shipping industries have worked under the same standard proposed in the Miller amendment for the past 16 years.

In the light of recent events in Alaska and elsewhere, would it make sense to lower that standard of care in this legislation today? The Miller amendment encourages prevention. If a responsible party is found negligent, that party will pay for all costs associated with the cleanup and compensation. This standard of simple negligence, as opposed to "gross" negligence and "willful" misconduct, will give industry sufficient incentive to prevent future accidents. It will also ensure that a guilty party pays for its own negligence without passing the bill to the taxpayer or consumer.

I urge my colleagues to resist being swayed by rhetoric opposing this amendment, which has been, at best, inaccurate and misleading. What we do today will be watched closely by those we represent, people who were uniformly appalled at the events associated with the wreck of the *Exxon Valdez*. The Miller amendment is an essential part of the effort to prevent the recurrence of ecological nightmares like that in Prince William Sound, and I strongly urge its passage.

□ 1800

Mr. MILLER of California. Mr. Chairman, I yield 30 seconds to the gentleman from Massachusetts [Mr. STUDDS].

Mr. STUDDS. Mr. Chairman, I rise in support of the amendment.

The bill before us would allow responsible parties to limit their liability except in the event of gross negligence or willful misconduct.

The *Exxon Valdez* had a drunken captain, and was piloted by someone not legally qualified to do so. As a result, the vessel was driven out of a clearly marked shipping lane onto a clearly marked reef.

There is no reason on earth why Exxon should be permitted to limit its liability in such a case. But under the bill, as now written, Exxon could limit its liability if a similar incident were to happen in the future, unless it could be shown that the actions of the captain and chief mate were not just "negligent" but "grossly negligent," or if the incident were caused by the violation of a Federal safety standard.

It seems to me reasonable to argue that liability limits should be removed whenever the negligence or misconduct of the responsible party results in an oilspill.

This amendment would impose a higher standard of care on the part of those who transport oil around the shorelines of our country, and for that reason, I urge its adoption.

Mr. STANGELAND. Mr. Chairman, will the gentleman yield?

Mr. MILLER of California. I yield to the gentleman from Minnesota.

Mr. STANGELAND. Mr. Chairman, I rise in opposition to the amendment.

Mr. Chairman, I rise in strong opposition to the amendment of the gentleman from California. It strikes at the very heart of the leadership compromise, threatening to make oil transportation uninsurable and the proliferation of Shell corporations with limited assets inevitable.

The amendment changes the standard for waiving liability limits from one of gross negligence or willful misconduct to simple negligence. In effect, it makes the bill's liability limitations meaningless since virtually every spill involves one form or another or negligence. Our bill recognizes that and so it looks to instances of gross, willful negligence to determine when limits apply. Without the opportunity to place some reasonable limits on their liability, carriers and shippers will have trouble finding insurance. We will see an abundance of sham companies with limited assets. This is not the way to prevent oilspills.

The liability limits in our bill provide a key component to a comprehensive system of liability and compensation. Shippers and carriers are exposed to a definite and insurable risk of liability. Once the claimant obtains compensation from the spiller up to the specific limit, the claimant can then—if the need exists—obtain full compensation from the fund. The liability limits and gross negligence provisions in our bill only allocate risk between the spiller, the shipper, and the oil industry—they do not limit compensation.

In changing all of this, the gentleman's amendment makes a dramatic departure from existing law. The Clean Water Act and the Deepwater Port Act set liability limits—recognizing the need for insurable risks—subject to the same basic gross or willful negligence standards as in our bill. Even the Superfund law, regarded by many as one of the toughest most environmentally protective laws, contains liability limits subject to a gross negligence standard. Our bill merely follows this precedent.

Even the bill in the other body, which some claim to be the most stringent oil spill legislation we have seen in the last decade, follows the same approach as our bill's. It has a gross negligence standard for waiving liability limits. It recognizes simple negligence would destroy the bill's risk allocation mechanism.

The administration is strongly opposed to the gentleman's amendment, as well. The Coast Guard, the Justice Department, the State Department, and others all realize that a simple negligence standard may sound good on paper but just will not fly in the real world.

Mr. Chairman, our bill has got to deal with the real world. We cannot afford to adopt provisions that, in effect, try to ban oil transportation. I urge my colleagues to take the responsible position and defeat the gentleman's amendment.

Mr. MILLER of California. Mr. Chairman, I yield myself such time as I may consume.

I just want to make this very clear: I do not know if Sam Skinner, the Secretary of Transportation, who went out to Alaska and said Exxon was doing a great job 5 days after the oilspill and was later sent out by the President, is now the environmental adviser who is going to recommend a veto, but I do know on this amendment, as with the Studds-Miller amendment, Members will be rated by

the League of Conservation voters, because everybody understands the implications of this amendment. This is how we protect the environment, by getting a standard of care that is reasonable.

The Senate rejected unlimited liability by 2 votes. We should reject gross negligence. The Miller amendment is a compromise between those two standards. I would hope that all Members would support this.

Mrs. KENNELLY. Mr. Chairman, I rise today in support of Representative GEORGE MILLER'S amendment to change the bill's negligence standard from "gross negligence" to simple "negligence." Mr. Chairman, one need not possess a law degree to realize that with this amendment, we are not asking oil companies to adhere to something unreasonable. In fact, we are not asking transporters of oil to operate under stricter standards than almost every American must in his/her business and life activities.

Each and every American who operates a motor vehicle, for instance, will be held liable for damages caused by his accidents if he is deemed negligent. Each and every business owner is held liable for accidents on his premises, if he is deemed negligent.

Take the simple law school banana peel example. If an individual shopping in a supermarket slips on a banana peel and breaks his leg, the supermarket is liable if negligence is proven; that is, if normal and reasonable maintenance was not performed to eliminate obstructions in the aisles of the store. If the liability standard was gross negligence, the burden of proof would rest on the prosecutor to show that the store owner knowingly, and in fact, intentionally placed the banana peel on the floor.

Silly, right? Well, let us take an example more illustrative of the issue at hand—oilspills. In the case of the *Exxon Valdez*, after succumbing to a blood test, the blood alcohol level of the ship's captain was well above the limits established by the Coast Guard. To prove Exxon's liability in this case, under the gross negligence standard, not only would a court have to deem that the captain was drunk, but it would also have to find that Exxon had full knowledge of his drunkeness. Under the negligence requirement, an oil company would have to take reasonable steps to insure that their captains are in good health and condition while transporting oil.

Once again, liability standards should not be unreasonable. Accidents do happen, and they sometimes occur to the most cautious, responsible individuals and businesses, However, when examining the transport of millions of barrels of oil in multiton barges, we legislators should be creating incentives for great care and preventive safety measures. We should be implementing policy which insures swift and sure cleanup and payment by liable parties, not enacting weak legislation that lines the pockets of litigators engaged in disputes lasting many years—all at the expense of the environment, our environment.

Between 9,000 and 12,000 oilspills occur every year. In many cases, such as in Prince William Sound, the environment will never truly be restored to its prespill condition. Let us not remove an oil company's incentive to transport this environmentally devastating substance carefully. Let us not remove an oil company's impetus to set strict safety standards governing their operations. Let us hold oil tranporters to the same standard we all live and work under—to act responsibly and not negligently.

I urge my colleagues to join me in supporting this amendment. It is an amendment that will make the negligent polluter pay, not the U.S. taxpayer.

The CHAIRMAN pro tempore. The question is on the amendment offered by the gentleman from California [Mr. MILLER].

The question was taken; and the Chairman announced that the noes appeared to have it.

RECORDED VOTE

Mr. MILLER of California. Mr. Chairman, I demand a recorded vote.

A recorded vote was ordered.

The vote was taken by electronic device, and there were—ayes 213, noes 207, not voting 13, as follows:

[Roll No. 341]

□ 1820

Mr. GUNDERSON and Mr. ANTHONY changed their vote from "aye" to "no."

Mr. BILIRAKIS changed his vote from "no" to "aye."

So the amendment was agreed to.

The result of the vote was announced as above recorded.

Mr. SYNAR. Mr. Chairman, with the exception of two provisions noted later, I rise today in support of H.R. 1465, the Oil Pollution Prevention, Response, Liability and Compensation Act of 1989. This measure is long overdue. In fact, the progress made this year represents a significant breakthrough in efforts to establish and maintain a comprehensive and workable Federal response to the more than 10,000 oilspills that occur each year in U.S. waters.

Unfortunately, Mr. Chairman, it has taken an environmental tragedy for Congress to face up to the deficiency of the existing Federal controls and response measures.

On March 24, 1989, the 987-foot long, 95,000-ton oil tanker *Exxon Valdez,* a U.S.-built and crewed vessel en route from Alaska to California, struck Bligh Reef in Prince William Sound, AK, causing the largest oil tanker spill in U.S. history. The magnitude of the spill and the damage caused to valuable natural resources and Alaska's economy have drawn international attention.

Response to the spill was delayed because a barge required for transporting containment and cleanup equipment of the Alyeska Pipeline Co., operators of the Valdez terminal, was inoperable. This delayed responding to the spill for 10 hours, a period considered crucial in minimizing damage. On the third day, 70-mile-per-hour winds spread the spill 35 miles southwest over one-half the sound. By the end of the first week, the spill covered more than 1,000 square miles, endangering coastlines of numerous islands in southwestern Prince William Sound, and the first oil entered the Gulf of Alaska.

Within a week, the crude oil had a mousse-like consistency and became difficult to remove. A controversy developed over the timeliness and effectiveness of Exxon's response and over the Federal role in the cleanup. No Federal charges have been filed to date, but the State of Alaska has placed charges against the vessel's captain and has sued Exxon. Meanwhile, oil still coats roughly 350 miles of Prince William Sound shoreline.

Mr. Chairman, as of the latest count I have seen, the spilled crude oil from the *Exxon Valdez* has killed more than 33,000 sea birds, 980 sea otters and 138 eagles. No major fish kills have been reported. However, fish eggs and larvae are vulnerable and several commercial fisheries were canceled this season and others delayed. The immediate costs include cleanup expenses of more than $1.3 billion. Yet to be determined are direct damages to natural resources, and loss of income due to natural resource damage. Other costs will include losses of tax revenues and other effects to the local economy, such as loss of tourism revenues.

As a result of the oilspill, public confidence in the oil transport and exploration industries as well as the Federal regulation of those businesses is at an all time low. The public demands a comprehensive oil pollution prevention, liability and compensation scheme, however, until this year none has succeeded.

There are presently four Federal laws governing oil pollution liability, compensation and cleanup issues. These laws, however, sharply limit the liability of parties responsible for spills, or address liability and cleanup in specified areas only. In fact, Federal response to this critical question can aptly be described as a patchwork of coverage that varies from law to law, and condition to condition.

In addition, 24 States have established oilspill liability and compensation systems. Seventeen States have no limits on liability, thereby requiring that responsible parties pay for all cost of cleanup and damages. State laws and systems are not currently preempted in any way by Federal oilspill laws.

Fortunately, Mr. Chairman, the *Exxon Valdez* has led to renewed consideration of Federal oil pollution liability and compensation responses. We are now ready to proceed with a comprehensive and measured approach to economic and environmental dangers posed by the transportation, storage, and handling of oil.

The benefits of the framework embodied in H.R. 1465 are manifest. However, Mr. Chairman, the measure reported to the whole House contains two serious flaws, that must be corrected. As reported, H.R. 1465, in many if not most cases, would limit the liability of vessels, offshore and onshore facilities and deepwater ports. The measure also would preempt State oilspill liability laws, but would not preempt the authority of States to maintain individual compensation funds. I disagree with both of these provisions.

First, Mr. Chairman, I think the standard of care necessary to break through the liability limitation sends the wrong message to the oil transportation industry, and the American people. I think it is clear that the only appropriate response to the unparalleled wastes and destruction the *Exxon Valdez* caused on Bligh Reef is: the polluter pays.

Limiting the liability of the polluter when the next *Exxon Valdez* disaster occurs—except in case of "gross negligence or willful misconduct"—suggests that just the opposite is true: they don't care, they don't have to.

There are instances in which it is appropriate and justified for Congress to intervene on behalf of enterprises to limit potential tort liability. We have done so to protect industries that cannot obtain or afford liability insurance. The commercial production and availability of so-called orphan drugs is a prime example of an enterprise that is necessary and beneficial to society as a whole. Yet orphan drug producers cannot obtain affordable insurance. Therefore to advance the twin goals of encouraging development of orphan drugs and ensuring operation of those companies, it is essential to provide meaningful liability limits.

Mr. Chairman, the standard of breaking through the liability limits in the measure before the House is not based on the risks involved in the transportation of oil and the cost of responding to spills of the magnitude of the *Exxon Valdez.* Indeed, if these limits—and the standard for uncapping the liability limitation—had been in effect on March 24 of this year, Exxon would face a bill for only $114 million. Under the proposed Federal response, we are debating today, anyone attempting to place a greater burden on Exxon for the disaster on Bligh Reef would face a decade of litigation trying to prove "gross negligence and willful misconduct." Mr. Chairman, that is just not right.

All parties involved in the transportation of oil must share the responsibility to eliminate the risk of oilspills and to pay for damages. The purpose of including a standard of care for breaking the liability limitations in oilspill legislation is twofold. First, it specifies the degree of care required in the transportation of oil and the financial liability when the standard is not met. Second, it permits persons who have suffered harm as a result of a lack of care to seek redress from the responsible parties.

Negligence—as opposed to gross negligence or willful misconduct—is a more appropriate standard for breaking the oilspill liability limits. Negligence is unreasonable conduct. It is the failure to exercise the same degree of care a reasonable person would consider necessary for the particular circumstances or activity in question.

By contrast, gross negligence and willful misconduct—the standard established in the bill as reported—is conduct that is intended to injure or is reckless, showing the wanton disregard for the harm to others which is the likely result of a certain course of action or activity. Gross negligence is considered by the courts to be an extreme departure from reasonable conduct. Willful misconduct requires proof of an element of conscious intent. There are extraordinarily difficult to prove.

Mr. Chairman, negligence is the standard of care that governs the operations of the Trans Alaska Pipeline. It is a feature of most civil liability statutes. It is the standard that puts prevention into oil pollution prevention legislation. There is no logic and no reasonable justification for adopting a new standard as a part of our oilspill response efforts. Moreover, I am very concerned that the gross negligence and willful misconduct standard is so extreme that its inclusion would virtually ensure that liability would be limited—and the trust fund tapped—in almost every case. And frankly, I just do not think that is fair. In essence, it would result in those companies who have taken extraordinary measures to ensure safe operations paying for a good portion of the consequences of actions by companies who did not undertake such efforts or care. The purpose of the system should not be to punish the best and the safest.

At the same time, I am sensitive to the argument made by the industry that a standard of simple negligence may have the unintended effect of ensuring that liability would never be limited under any circumstance, and could impact on the industry's ability to obtain adequate liability insurance. It seems evident to me that the insurance picture will probably be adversely affected as a result of the *Exxon Valdez* spill—regardless of what Congress does on oil pollution prevention legislation. And, it is important to note that if the final bill does not preempt State laws, several of those

States would still subject companies to unlimited liability.

I intend to support the amendment to change the standard of care from gross negligence and willful misconduct to negligence with the hope that, if adopted, a reasonable middle ground can be found with the Senate.

Finally, Mr. Chairman, the proposed measure would preempt State liability laws in 24 States and would require that all cleanup and damage actions and claims be made under the procedures and limitations established by this bill. The bill also provides that all legal actions concerning oilspills—except for personal injury and wrongful death—must be filed in Federal court.

Mr. Chairman, I believe strongly that Congress should not deprive States of the right to enact laws and requirements that are stronger than Federal standards, and that take into account the unique situations, risks, and resources on individual States. This principle is the foundation of our major environmental laws such as the Clean Air Act, Clean Water Act and Superfund. Moreover, it is the standard for the four existing Federal oilspill statutes, none of which preempt State laws. There is no reason this measure should be any different. Indeed, there are strong reasons to maintain the current balance of authority between the Federal Government and the States. Those reasons form the foundation of our Nation.

The Founding Fathers adopted a federal system of government for good reason. It protects the weak from the strong and spreads out the authority of government so that it cannot be dominated by any one faction, group or interest. Proponents of preemption have presented no compelling arguments or evidence—such as a significant burden on interstate commerce—which would warrant an intrusion into the affairs of the States.

In fact, Mr. Chairman, the proponents of the reported bill have merely resurrected the old canard that actually killed several past efforts to erect a comprehensive system for Federal prevention, response, liability and compensation for oilspills: preemption of State law. I might add that the Senate version of the bill, which does not preempt State laws, passed that body unanimously.

Disputes over the preemption of State laws have held up enactment of a comprehensive oilspill legislation for more than a decade. The Senate has produced a bill that does not preempt State laws. The House should do no less.

Now is the time, Mr. Chairman, for action. It is time for a comprehensive Federal Oil Pollution, Response, Liability and Compensation Act that makes the polluter pay. It is time to amend and pass H.R. 1465.

Mr. MANTON. Mr. Chairman, as an original cosponsor of H.R. 1465 and a member of the Merchant Marine and Fisheries Committee, I rise in strong support of the Comprehensive Oil Pollution Prevention, Response, Liability, and Compensation Act of 1989. The enactment of a comprehensive Federal oilspill prevention and cleanup regime is long overdue, and I encourage my colleagues to support this worthwhile legislation.

This body has repeatedly worked for the enactment of such legislation during the past 15 years. The measure before us today is a culmination of those efforts. As a result, this bill has a stronger and more comprehensive approach for addressing the aftermath of a tragic oilspill. The bill also seeks to take those actions necessary to reduce the likelihood of such spills. The bill will put in place those mechanisms which will help prevent oilspills from occurring, train personnel and ensure the proper equipment is in place to respond to any spills that do occur, provide for the cleanup of oil spills, and compensate those parties who are injured by spills.

Mr. Chairman, this is a good bill; a strong bill. While we can never guarantee an oilspill of the devastating magnitude of the *Exxon Valdez* will not occur in the future, we can take those steps necessary to attempt to prevent such spills and ensure the financing is available to pay for the cleanup and compensate the victims of a major spill. The legislation we are considering will accomplish these worthwhile goals.

Mr. Chairman, I congratulate the chairman and ranking member of the Merchant Marine and Fisheries Committee, Mr. JONES of North Carolina and Mr. DAVIS, the chairman of the Coast Guard Subcommittee, Mr. TAUZIN, the chairman and ranking member of the Public Works and Transportation Committee, Mr. ANDERSON and Mr. HAMMERSCHMIDT, and my good friend and colleague from New York, Mr. NOWAK, the chairman of the Water Resources Subcommittee, and the ranking member of the subcommittee, Mr. STANGELAND, for their efforts in bringing this measure to the floor. Again, I urge my colleagues to support this landmark piece of legislation.

Mr. MILLER of California. Mr. Chairman, I move that the Committee do now rise.

The motion was agreed to.

Accordingly the Committee rose; and the Speaker pro tempore [Mrs. KENNELLY] having assumed the chair, Mr. LANCASTER, Chairman pro tempore of the Committee of the Whole House on the State of the Union, reported that that Committee, having had under consideration the bill (H.R. 1465) to establish limitations on liability for damages resulting from oil pollution, to establish a fund for the payment of compensation for such damages, and for other purposes, had come to no resolution thereon.

Mr. YOUNG of Florida. Mr. Chairman, I rise in strong support of the Miller-Studds amendment to H.R. 1465, the Oil Pollution, Prevention, Response, Liability, and Compensation Act of 1989, to protect the rights of States to maintain their own oilspill response standards.

Earlier this year, it was the damage to Alaska's environment caused by the *Exxon Valdez* that shocked our Nation and gave this body a renewed incentive for action. Twenty years ago it was the *Delian Apollon* which ran aground in Tampa Bay leaving behind a 20-square-mile oil slick that spurred the Florida State Legislation into adopting what remains today our Nation's toughest oilspill standards.

The legislation we have under consideration this week would establish important, long overdue, new Federal standards requiring emergency response plans in the event of tragic oilspills such as the one we witnessed in Alaska. It also would clarify the responsibilities and liabilities of tanker owners and shippers in the event of a spill.

As reported by the committee, however, H.R. 1465 significantly undermines the authority of States to maintain their own more stringent Federal oilspill response standards and liability requirements. States such as Florida, which has been a national leader in the enactment of legislation to protect our fragile marine environment and resources from oilspills and other accidents at sea, should not be penalized for their efforts to establish emnergency response plans and funds.

As a former Florida State Senator and author of our State's Oil Spill Prevention and Containment Act, I strongly support the Miller-Studds amendment to preserve these important States rights in this area. The 1970 legislation which I drafted was the first of its kind in our Nation and became a model used by other States in establishing their own oilspill response programs and standards.

The Florida State Legislature's overwhelming support for my legislation was the result of our experience in February 1970 when the *Delian Apollon* ran aground in Tampa Bay, spilling more than 10,000 gallons of crude oil. I remember the helpless feeling of standing on the shoreline as the oil spead into a 20-square-mile slick. No containment or cleanup equipment was available anywhere in the area and there was no preplanned strategy to stop the spread of oil. This lack of preparedness caused the death of thousands of birds, fish, and other wildlife, damaged and destroyed many boats, and covered our beautiful sandy white beaches with tar balls.

Within 4 months of that accident, our State did something to prevent future damage to our environment by enacting tough oilspill legislation that was eventually upheld unanimously by the U.S. Supreme Court. The intent and scope of this legislation included many of the same provisions that we have under consideration in H.R. 1465. As with this legislation, the Florida law established an oilspill trust fund to pay for cleanup costs associated with oilspills, required oilspill containment and cleanup equipment to be available in case of a spill, and provided penalties for those responsible for oil spills. We also established in Florida 11 district response teams to be ready and available to assess damage and initiate cleanup activities in the event of a spill anywhere in the State. A similar response team program is included in the legislation before us today.

The damage to Alaska's wildlife and environment in Prince William Sound is a stark reminder of the destruction a major oilspill can leave behind, especially when emergency response efforts are limited by a lack of preparedness. Just 2 weeks ago in Florida, we endured two near cataclysmic shipping accidents within a 5-day period. Although there was no major loss of oil or other cargo in the water, the grounding of these two tankers caused irreparable damage to the unique coral reefs in the Key West area. Thousands of square feet of coral that took more than 100 years to grow, was destroyed in these two accidents. One can only wonder about the magnitude of damage that would have

been caused to these areas had the ships spilled oil or phosphate into the water or had a similar accident occurred involving a supertanker carrying oil.

With the Keys, Dry Tortugas, coral reefs, grassy sea beds, and other unique marine estuaries, the State of Florida has a real need to maintain the most stringent possible oilspill guidelines, cleanup standards, and emergency response requirements. The legislation before us today should supplement, not replace our State requirements.

Mr. Chairman, the members of the committees that have brought us this legislation are to be commended for their perseverance over the past 14 years that has moved us one step closer to the enactment of legislation to provide a strong and effective Federal response to the cleanup of oilspills and other accidents at sea. I know it has been a long battle because I have testified before your committees and been actively involved in the consideration of a number of proposals that have come before the House.

As a representative of the State of Florida, which with its 8,000 miles of shoreline has the longest exposed coastline of any State in our Nation, the people of Florida welcome the additional protection this legislation would provide to our unique waterways and beaches. We believe, however, that the Federal response should be in partnership, not in place, of the tough State program we set in place more than 20 years ago in Florida. The amendment before us today would preserve these critical States rights to maintain a primary role in response to any spill in waters along our coastline and I would urge its adoption by my colleagues.

Mr. GREEN. Mr. Speaker, I rise today to explain my opposition to two amendments the House considered Wednesday during its deliberation of H.R. 1465, the Oil Pollution, Prevention, Response, Liability, and Compensation Act of 1989, on the basis that they would threaten the implementation of international oil treaties. I contend that it is in the best interest of the United States to implement those treaties.

What does the United States gain from its participation in international protocols? Financial security. The protocols establish an international fund paid for by member nations. If, for example, crude oil were to be spilled, and if the damage were greater than the ship owner's responsibility, then the international fund would pay up to $260 million. Only amounts beyond the ship owner's liability and the international fund's limits would be absorbed by a domestic fund. If the United States did not ratify the treaty, then it would be unable to claim any compensation from the fund. Hence, in the case of a crude oil accident, domestic funds—paid for by taxpayers—would foot the bill. If the accident was because of a foreign ship, the United States still would be liable financially. If one were a believer in the "polluter pays" principle, then that would be grossly unfair.

The United States would be unable to ratify the 1984 protocols to the 1969 civil liability and 1971 fund conventions if each State were allowed to set its own law—thus preempting the Federal law—as the Miller-Studds en bloc amendment legislates, because those protocols require member nations to maintain consistency in their laws. A hodgepodge of conflicting State laws would violate that requirement. Furthermore, States may find it quite difficult, if not impossible, to implement their laws internationally in the event of a crude oilspill on their borders. A single, cohesive law would enable the United States to negotiate better its position than would incohesive State laws.

I opposed the Miller-Studds en bloc amendment, which provides that State laws, programs, and jurisdiction relating to oilspill liability, compensation, and cleanup would not be preempted by Federal law. I also opposed the Miller amendment, which would lower the standard for unlimited liability from gross to simple negligence. Both amendments violate the international protocols, and for that reason I must vote against them.

Although I did oppose the passage of those two amendments, I shall vote for final passage of H.R. 1465. It is my hope that those provisions will be ironed out in conference in a way that will permit the United States to ratify the 1984 protocols.

Mrs. VUCANOVICH. Mr. Chairman, I am a supporter of the Miller-Studds en bloc amendment which provides that State laws relating to oilspill response would not be preempted by Federal law.

The Federal Government should not take away the right of the States to have laws of their own that are stronger than Federal standards, and that take into account the unique characteristics of the individual States. This principle has long been the basis of laws such as the Clean Air Act, Clean Water Act, the Superfund law, and even the four existing Federal oilspill statutes. None of these laws preempt State laws and there is no reason the bill we are currently considering should be any different.

Preemption supporters talk of adverse effects that would result from leaving the different State laws in place, but have not been able to prove that preemption is warranted. These bad situations have not occurred under the current system where State laws are not preempted. For example, differing State laws have not prevented shippers from getting insurance.

Disputes over the preemption issue have held up comprehensive oilspill legislation for 10 years. In the aftermath of the *Exxon Valdez* spill, and the three other spills that have occurred since, the other body has unanimously passed a bill that does not preempt state laws. We in the House should do no less. We cannot allow the dispute over preemption to once again prevent changes in the Federal response system for oilspills.

I strongly believe the Federal Government should not encroach upon the sovereignty of the States. My own State has been subjected to instrusive Federal policy in regard to the site characterization of Yucca Mountain, NV, as the national repository for high-level nuclear waste and I am continuing my efforts to ensure that the State has its proper rights to protect the health and safety of Nevadans. I am also fighting further Federal intrusion into Nevada's rights: If the current Nevada wilderness proposal becomes law, the right of Nevada and other States to allocate their own water flows would be preempted by the Federal Government. Therefore, I support the en bloc amendment to protect State sovereignty in the matter of oilspill response.

PERSONAL EXPLANATION

Mr. UDALL. Mr. Speaker, unfortunately, I was unavoidably absent when a vote was taken on rollcall No. 341. Had I been present, I would have voted in favor of the amendment.

REPORT ON RESOLUTION WAIVING POINTS OF ORDER AGAINST CONFERENCE REPORT ON H.R. 2461, NATIONAL DEFENSE AUTHORIZATION ACT FOR FISCAL YEARS 1990 AND 1991 AND AGAINST CONSIDERATION OF SUCH CONFERENCE REPORT

Mr. MOAKLEY, from the Committee on Rules, submitted a privileged report (Rept. No. 101-335) on the resolution (H. Res. 285) waiving all points of order against the conference report on the bill (H.R. 2461) to authorize appropriations for fiscal year 1990 for military activities of the Department of Defense, for military construction, and for defense activities of the Department of Energy, to prescribe personnel strengths for such fiscal year for the Armed Forces, and for other purposes, and against the consideration of such conference report, which was referred to the House Calendar and ordered to be printed.

VACATION OF MEMBER'S SPECIAL ORDER

Mr. GOSS. Madam Speaker, I ask unanimous consent that the 60-minute special order requested by the gentleman from California [Mr. DORNAN] for today be vacated.

The SPEAKER pro tempore. Is there objection to the request of the gentleman from Florida?

There was no objection.

A GREAT YEAR FOR A GREAT PRESIDENT

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from California [Mr. DORNAN] is recognized for 5 minutes.

Mr. DORNAN of California. Madam Speaker, just a little moment of nostalgia. This is the fastest year of my life. From November 8 last year when Vice President George Bush was the first sitting Vice President to win the Presidency since Martin Van Buren, 152 years ago, I think it has been a great year for a great President.

I think George Bush in his first of what I hope will be 8 years has begun to put a distinctive mark of his style on the future history of this country. I think the world is going to follow his

coming meeting in the month of December off the coast of the old and historic island of the island nation of Malta. I think we are going to see the beginning of a new day in the reduction of world tensions.

George Bush's acceptance ratings are so high, and also those of his wife, that it is breathtaking. I had a chance just by coincidence to visit with the President in the Oval Office this morning. I had no appointment. I was down there to see Chief of Staff Governor Sununu on the killing that is going on in Lebanon. The President came through the room, saw me, and pulled me into the Oval Office and talked about how good he has felt over the last year.

I had never seen anyone in my life enjoy public service as much as President George Bush. I am proud of him. I could not be more proud. I think he is going to go down in the anals of our country's wonderful and great history as one of our top Presidents.

I say to the President, congratulations on the first year. Let us have three more like that and then we will end up with a great era of George Bush in the 1990's.

□ 1830

PRUDENCE DOES NOT A GREAT PRESIDENT MAKE

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from West Virginia [Mr. WISE] is recognized for 5 minutes.

Mr. WISE. Madam Speaker, where are we a year later with President Bush? I think that is a worthwhile avenue to pursue, because I think that what our country is doing is drifting. We are a country without policy right now.

Madam Speaker, yes, acceptance ratings are high, the highest on record apparently. But does that reflect a policy? I think what it reflects is careful prudence, prudence that shapes the response and says, "I want to do whatever is acceptable, what is popular," but that may be short term, but it does not get us anywhere long term.

Let us look at the facts. The trade deficit is climbing and soaring. It was down for a few months, going back up. Most people think it is going to be higher next year.

Foreign investment is climbing and soaring. Rockefeller Center will soon be under the ownership of foreign investors. Other major holdings, office buildings, real estate are under the ownership of foreign investors.

Our budget deficit: Here we were supposed to have the great budget agreement, the dare-to-be-great budget agreement that solved the problems, brought the Republicans and the Democrats together, and it was going to be a combination of all the different approaches, and get that budget deficit down. What do we have? We have total chaos. The result is a badly splintered Congress, a badly splintered White House, umpteen conference committees meeting around the clock to resolve who knows what. The deficit is climbing.

As to Eastern Europe, when do we develop an ability to respond, Madam Speaker? Here we have a situation where we are spending over $100 billion a year to maintain NATO forces. The Polish Government is going through great transition; East Germany. The winds of freedom are blowing across Eastern Europe. The President visited Poland, and they asked for $10 billion. He said maybe $100 million. That week a lady who has inherited a great deal of money from Johnson & Johnson matched his offer and is writing the check to the Gdansk shipyard for $100 million, a private individual.

The United States: Are we some sort of pitiful giant? That is the question we have to ask a year after this election.

Where is our policy on anything? Can anyone tell me what the START policy is, what our arms policy is, what our deficit-reduction policy is, what our infrastructure policy is? Talk about a country that cannot respond, we are faced with the greatest crisis in drugs, and many think the greatest crisis since World War II. What is our response? We have to cut and nickel and dime from every different agency to try to come up with a minuscule amount to fight a war. Is this a way to fight a war?

Madam Speaker, if we had gone into World War II, and say, "We are going to go in fighting with General Gramm-Rudman, and this is not going to cost more than $5 billion or $7 billion or whatever," and, Madam Speaker, I am concerned that when we get to the area of trade, foreign investment, education, people know it is not working. When we get to the area of foreign policy, people sense where we are going. When we get to the area of drugs, people know it is not working when they pick up the paper on any day and see the carnage and death toll coming about because of the drug war.

For all of these reasons, I would suggest, Madam Speaker, that prudence is not a policy, and prudence does not a great President make.

AIRLINE CONSUMER PROTECTION ACT OF 1989

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. BOEHLERT] is recognized for 5 minutes.

Mr. BOEHLERT. Madam Speaker, today's news media chronicled another story of the demise of yet another airline. This one is Braniff Airlines. Braniff, says the story, suspended all passenger flights on Monday and is now up for sale.

I am concerned about the thousands of people who are going to lose jobs with Braniff Airlines, and we all should be concerned. I am concerned about the hundreds of communities across this country that are going to lose vital service, and we should all be concerned.

Madam Speaker, no one seems to worry about the hundreds of thousands of consumers who have purchased a ticket, depended upon the availability of a flight and now find that that ticket is worth no more than the paper it is printed on. What about those cosumers? What do we do to protect them?

Madam Speaker, since deregulation of the airline industry in 1978, over 160 airlines have gone bankrupt or terminated service. Braniff is just the latest.

In 1987, seven airlines went bankrupt. Two of those airlines left outstanding debts to the ticketholders of $50 million. What about those ticketholders? What are they told? Can they walk to another counter and give the ticket to another airline and get a flight to the same city? In most cases the answer is no. Can they send in and get a refund? In most cases the answer is no. Do the Members know what they are told? They are told to go to the bankruptcy court and stand in line.

Madam Speaker, that is not good enough. These people paid for the service up front, fully expecting to receive it, and in most cases we are talking about families saving for a vacation. We are talking about small business people going on a trip to try to get new business that will enable them to create more jobs.

Madam Speaker, I say that while we have to be concerned about those thousands of Braniff employees losing their jobs, while we have to be concerned about all of those communities losing vital service, and we are, we also have to worry about those forgotten Americans, those hundreds of thousands of Americans who have tickets that are virtually worthless right now. What do we do to remedy the situation?

I have a solution. It is called the Airline Consumer Protection Act of 1989. I would encourage my colleagues to look at it very closely.

What it says to the airline industry is simply this: "We will give you 6 months within the industry, within the private sector, to develop a remedy to this problem. You tell us how best you can handle it, and if we are satisfied with it, we will buy it, and the traveling public will have some measure of protection, but if you are not able to do it or you refuse to do it, then we are going to do it."

Madam Speaker, we have an obligation to those Americans across this country from coast to coast to provide some measure of protection for them. Literally tens of millions of dollars in unused tickets are in the hands of everyday real American families who paid the money fully expecting the service, only to find out that the airline no longer is providing that service. When they look for some form of relief, when they contact us or go the Department of Transportation or the Federal Aviation Administration, the only thing we can tell them right now is to stand in line at bankruptcy court. "You might someday in the distant future get a refund."

Madam Speaker, I will say this, that there are families across this country who have had these worthless tickets for years, no refund. I think they deserve our attention. I think they deserve a responsive program from Congress that will address the problem.

I am urging all of my colleagues to pay attention to this issue. Their constituencies are affected, too. Let us provide a sensible plan to protect the consumers of American air travel. It is long overdue.

I included the two following articles.

[From the New York Times, Oct. 22, 1989]

BRANIFF PUTS ITSELF ON AUCTION BLOCK

(By Agis Salpukas)

Braniff, Inc., which suspended all passenger flights on Monday night, has put itself up for sale. But only small investors have shown an interest in buying the company. And several analysts said yesterday that it appeared unlikely that Braniff's hub city, Kansas City, Mo., would soon find another large carrier to fill the void, although several airlines are adding flights there.

Braniff, which had curtailed service in filing for Federal bankruptcy protection on Sept. 28, canceled as of yesterday its remaining 46 flights to 11 cities. Besides Kansas City, where Braniff held 30 percent of the market, the cities are New York, Newark, Chicago, Dallas, Los Angeles, Phoenix, San Diego, San Francisco, Washington and Orlando, Fla.

Most of Braniff's work force of 1,800 will be laid off, as the airline shrinks back to running its charter operations.

The airline, the nation's 15th largest before it cut service in September, is the latest victim of competition against large carriers with frequent-flier programs, strong hubs, regular flights and their own computer reservations systems.

USAir and Trans World Airlines soon plan to add four flights each out of Kansas City, while other large carriers have added or plan to add one or two flights.

"I think this latest development will expedite some decisions," Delbert Karmeier, Kansas City's aviation director, said yesterday of the Braniff move. "In the last five weeks, we were consistently being told by other airlines that might want to expand service here that they were not going to make any decisions as long as Braniff was in the picture."

Through much of the 1980's, Kansas City had enjoyed superior air service, as Eastern Airlines built one of its main hub-and-spoke systems there. But Eastern withdrew a year ago, believing the hub could not be sustained. Braniff then moved in.

Braniff, based in Orlando, said some other airlines might honor some of its tickets. People with tickets bought on a credit card can notify the card company for a refund. Those who bought tickets with cash or a check after Sept. 28 have been advised to call a toll-free telephone number, 1-800-282-5586, for a refund.

Braniff is owned by a group of real estate investors that bought the airline last year. The group then began an ambitious expansion plan. Before filing for protection under Chapter 11 of the Federal Bankruptcy Code, Braniff had 256 flights daily. The carrier employed 4,800 people and served 36 cities.

Sandy Smith, a Braniff spokeswoman, said the airline had hired Merrill Lynch Capital Markets to seek a buyer. Braniff's assets include its 28 gates at Kansas City International Airport and 52 aircraft.

Ms. Smith said the vacuum left by Braniff would take some time to fill because even if a primary carrier decided to establish a Kansas City hub, time would be needed to round up aircraft and to prepare a move into a new market. Large carriers often spend years preparing to enter a new hub and then often build service over a long period.

NEVER A VACUUM

Morton Ehrlich, the president of the Lifeco Services Corporation, a national travel agency, who was the head of strategic planning for Eastern Arilines when it expanded into Kansas City, said the area did not have enough local traffic to justify a primary hub.

"There was never a vacuum," he said. He added that Kansas City might merit additional flights, but not a hub.

Samuel Buttrick, an airline analyst for Kidder, Peabody & Company, said that while Kansas City was well situated as a hub, he had found little interest among any airline executives in entering on an extensive scale.

A person familiar with the initial attempts to find buyers for Braniff said that no large airline was interested in buying the carrier to build up a hub at Kansas City, but that some interest has arisen in some of Braniff's assets. Among them were the airline's Airbus A320 aircraft and its options and orders to buy new planes, as well as some of the leases on its Boeing 727's.

BRANIFF DETAILS CAUSES

Ms. Smith, the Braniff spokeswoman, said that the immediate cause of the carrier's suspension of flights was that a collateralized loan of $6.9 million from the Bank of America had been used up and that the airline could no longer pay for its operations.

William G. McGee, Braniff's chairman and chief executive, said the airline would explore alternatives besides a sale while trying to conserve its remaining cash, but he did not elaborate.

Farhad Azima, the founder of the defunct Global International Airways Corporation, has said he may be interested in buying Braniff's primary assets and restarting it as a smaller carrier. He now has an aviation-leasing business in Kansas City.

John Latshaw, a Kansas City investor, has also expressed an interest in putting together a group to revive part of the airline.

But the chances of raising money for such a venture are small, considering the high fatality rate of new airlines.

Even with large concessions from its unions, which gave the carrier low operating costs, Braniff had problems competing against the larger airlines.

Mr. Buttrick, Kidder, Peabody analyst, said Braniff never had much of a chance because the new investor group did not provide it with enough capital.

[From the New York Times, Oct. 22, 1989]

BRANIFF CUTBACK: WHAT TO DO WITH TICKETS

When Braniff Airways filed for protection under Chapter 11 of the Federal Bankruptcy Code on Sept. 28, it left a lot of customers wondering what to do with the tickets for their canceled flights. "Technically the tickets are still valid until Sept. 27, 1990, but that doesn't help our passengers who have tickets to cities we no longer serve," said a Braniff spokeswoman. The airline, which had been serving 40 airports with 256 flights a day, now has only 46 flights to 11 airports.

Some other airlines, including Trans World Airlines and Continental, are accepting Braniff tickets when there are seats available on their own flights, but the conditions vary from airline to airline.

For people who want refunds, truth-in-lending laws offer some protection to those who paid by credit card. But those who paid by cash or check are now creditors of the airline and will have to file a claim with the bankruptcy court.

According to information supplied to Braniff by the Department of Transportation, a person filing a claim should get a "Proof of Claim" form from a United States courthouse or a stationery store that sells legal forms. Keep one copy and send the original to the United States Bankruptcy Court, Middle District of Florida, First Bankers Building, 135 West Central Boulevard, Suite 950, Orlando, Fla. 32801; reference case number 89-3325. If possible, a photocopy of the ticket should be enclosed.

There is no guarantee that payment will be made or, if it is, that it will be for the full amount. The process will take several months "at least," the spokeswoman stressed. More information: 800-282-5586.

TAKE STOCK EXACTLY WHERE WE STAND

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio [Mr. MCEWEN] is recognized for 5 minutes.

Mr. MCEWEN. Madam Speaker, whenever a party or a politician is in power, he likes to admit that things are good, and those who are out of power like to complain that things are bad. As a result, we sometimes ignore facts and break into rhetoric that allows us many times to discourage the citizenry. There are those who attempt to build their political careers by attacking America and by attacking the conditions in our country, and I would like to just take a moment to take stock as to exactly where we stand.

We heard a dissertation just a moment ago discussing about foreign investment in this country and, indeed, a very simple question to ask is: If you have a good company, do people like to invest? The answer is yes. If you have a rotten company, do

people like to invest in a rotten company? The answer is no. Let us take it to a larger degree. If you have a good country where you have low inflation, high productivity, good-quality products, do people like to invest there? Yes. If you have a rotten country where you have high taxes, low productivity, low standards, do you like to invest in that country? The answer is no.

□ 1840

During the 1970's when we had the highest inflation and interest rates since the Civil War, we had the highest percentage of income going to taxes ever in our Nation's history, we had a declining standard of living, we were losing jobs at the rate of 50,000 a week, investment was not only not coming to America, American companies were investing abroad. No one was expanding any plants in America, not even Americans wanted to do that. As a result, we were losing our place in the world.

Indeed, those in power, those on the left said ladies and gentlemen, get used to it. This is what your future is. You must learn to live with less. Jerry Brown described it and said we have entered an era of limits. Jimmy Carter said we must turn down our thermostats and wear a sweater and ride our bicycles. The head of the Council of Economic Advisers in the Carter administration said the question is not whether or not America will have a declining standard of living. He said the question is whether or not Americans can learn to adapt to their declining standard of living.

Now that is what their program for America was, and that is where we should be at the end of the 1980's. But ladies and gentlemen, fortunately the common sense of the American people threw that all overboard in the 1980's. We went back to basics. We dusted off some old principles which by this time were called new ideas. That is that you just allow people to keep what they earn. You lower taxes, encourage investment and productivity and see what happens to the economy.

We did that, and in 1983 we hit a 35-year high in long-term capital investment. In 1984 we hit a 38-year high in long-term capital investment. Not only can Americans begin to invest in their country again, but we have become more competitive, we began to create jobs at the rate of 300,000 jobs a month for now 84 consecutive months. In fact, we have created in America nearly 7 out of every 10 jobs that have been created on this planet since 1982.

And not only is America investing in America, but the rest of the world says if I am a German businessman, or I am a Japanese businessman, or I am a Korean businessman, or I am a British businessman and I wish to invest, where do I invest? I do not want to invest in Taiwan, I do not want to invest in Mexico or in Brazil. I do not even want to invest in Japan. I want to invest in America, and as a result it is absorbing from the rest of the world productivity, growth, and capital necessary to make us the strong economy we are once again.

Remember, that is what built America. This country was not built by the wealthy. People did not walk out of their castles, get in their clipper ships to come to America to eke out an existence in the forest. They came here as poor paupers with nothing, but because of a sound economic system, as sound as a dollar on the gold standard, because of a sound political system, we have absorbed capital from the rest of the world, and it was the investment from Europe and elsewhere that built the American railroads, and built the great industry that made us No. 1. We had the influx of capital from 1776 to 1941.

In 1941 as we began to bomb the rest of the world, and shortly thereafter we began to invest elsewhere after World War II. Now as those economies have stabilized, and they have gone after their Socialist tendencies where they have discouraged thrift and investment, that capital is now flowing back to America, and ladies and gentlemen, that only means good things for us.

Let us look at the basic fact that half of all Nobel Prize winners in the world are American. Half of all of the inventions and patents in the world come from this little country with a population which is 6 percent of the world, this United States of America. Our manufacturing jobs in 1950, at the end of World War II when we had all of the productive capacity and the rest of the world had none, 20 percent, 1 job in 5, 20 percent of all of the jobs in America were in manufacturing. Today, 1989, 20 percent, 1 job in 5 in America is still in manufacturing.

We talk about the electronics industries, the computers, and all of the rest, the televisions, and we say somehow or another Japan has taken that. Who is the largest producer of electronic equipment in the world? The United States of America. The second largest nation happens to be Japan. What is the largest producer of electronic equipment in Japan? IBM, an American company.

We see very simply as we are closing up this decade that America is stronger economically and politically than it ever has been. The rest of the world says that is the system I want to have. They are not hiding and running away like they were in the 1970's.

Madam Speaker, it can best be summed up by the banner that was carried yesterday in Red Square when they said: "Workers of the world, we are sorry." They prefer freedom like us.

AMERICANS GO TO THE POLLS IN SUPPORT OF THE DEMOCRATIC PARTY

The SPEAKER pro tempore (Mrs. KENNELLY). Under a previous order of the House, the gentleman from New Jersey [Mr. TORRICELLI] is recognized for 5 minutes.

Mr. TORRICELLI. Madam Speaker, yesterday America went to the polls once again, and it is time to analyze not only who was elected, but what messages were sent, what kind of statement has been made about our country and its future. Clearly something is changing.

In my State, Congressman Jim FLORIO was elected overwhelmingly, not simply with the votes of Democrats, but extraordinary numbers of Republicans and independents, with a message not unlike one that he delivered 8 years ago in an unsuccessful campaign. What then is changing about our country, and why did the same people who did not listen to that message or did not respond to it only a few years ago vote in such overwhelming numbers? Perhaps it is this: Throughout the last decade America enjoyed a time perhaps usefully, maybe necessarily, in restoring pride in ourselves, reminding ourselves of the things that are good about America. But we also postponed decisions. We also did not face many of the difficult choices, and perhaps that is the difference of the politics of the 1980's and the politics of the 1990's, because time is up, America. The time when we could afford simply to congratulate ourselves, simply to talk about the things that are right about America but ignore our problems is over.

It will not be enough anymore for people to talk about how they are for education, believe in environmental protection, believe in building infrastructure, reducing debts, promoting savings if that is not also the record of their leadership, and if they are not prepared to make the difficult choices, indeed the sacrifices that are necessary to accomplish those ends.

The election yesterday in my State is the most profound example. Only a year ago on the shores of New Jersey, George Bush stood and claimed his allegiance to a clean environment. He was an environmentalist. Last year, as characterized most of the last decade, that statement was enough. The fact that there has been reductions in spending for clean water, for sewage treatment, the very things that would have prevented the abuse of our shores, and that the administration in which he served was responsible, that was all right, it was enough to claim concern. It was all right to go to the streets of cities and claim a concern about drug addiction and crime. The fact that we could not get restrictions on automatic weapons, reasonable con-

trols on guns used by drug dealers, that we could not get help for local law enforcement, that was all right, you could just talk about crime.

My friends, that time is over. What we witnessed yesterday is that people are now making the distinction. It is not what you say but where have you been; not what you promise, but are you prepared to ask people to make sacrifices.

It is time to get serious in America again, because the simple choices are these: a nation which ranks 18 out of the leading 18 democracies, industrialized nations in the world in the quality of our education, the testing of our students, simply has no future, not less of a future, but the country as we have know it will not strive, will not be powerful, will not be the America we have known. A nation which is last in the industrialized world in savings and highest in debt will have a lower standard of living. That is not talking down America. It does not mean we are less proud. It means we are realistic. It means we are honest, and the greatest gift to America today is simply honesty.

□ 1850

That is what prevailed yesterday in the elections in New Jersey and in Virginia.

That is our message. It is what separates the last decade from the next decade. I am proud to say that is what separates the Democratic Party from the other party.

LEGISLATION TO ESTABLISH CONSTRUCTION STANDARDS TO MINIMIZE EARTHQUAKE DAMAGE

The SPEAKER pro tempore (Mrs. KENNELLY). Under a previous order of the House, the gentleman from California [Mr. STARK] is recognized for 5 minutes.

Mr. STARK. Madam Speaker, today Representatives BOXER, ROYBAL, PELOSI, and I are introducing a bill to establish building codes that will ensure that new residential and commercial buildings are safer in the event of earthquakes. I believe that the enactment of this legislation could save tens of thousands of lives and tens of billions of dollars by reducing the impact of future earthquakes.

The National Institute of Standards and Technology has repeatedly conducted studies that clearly show that our Nation's buildings and public structures cannot resist a major earthquake—one that will be 100 times more powerful than the October 17 California quake. When an eight-plus Richter scale earthquake occurs in the continental United States, it will cause tens of thousands of deaths and up to $60 billion in damage. And it will largely be due to buildings collapsing. According to U.S. News & World Report:

A 1985 study by the Federal Emergency Management Agency found that a magnitude 7.6 quake in the East [Tennessee area] would cause 2,500 deaths, collapse 3,000 structures, cause $25 billion in damages and displace a quarter of a million people in Memphis alone if it struck on a working day. * * * The National Oceanic and Atmospheric Administration concluded that a magnitude 8.0 or above quake in San Francisco would leave as many as 11,000 dead if it struck during rush hour.

David W. Cheney, analyst in science and technology science policy division of Congressional Research Service, stated:

A postulated 8.1 earthquake in southern or northern California could potentially kill and injure tens of thousands of people and cause more than $60 billion damages. * * * A postulated Richter magnitude 7.5 earthquake on the Salt Lake City segment of the Wasatch fault could potentially kill and injure thousands of people and cause more than $8 billion in damages.

In a sense, earthquakes don't kill people, the buildings that collapse around them do. Fortunately safeguarding buildings and public structures from collapse works. The Washington Post editorialized on the recent earthquake in California:

Good engineering and vigilent enforcement of building codes have kept the toll of this calamity down in a range that is, by the world's standards, extraordinarily low.

Although the approximately 70 deaths and $10 billion in damage are a far cry from recent foreign earthquake disasters, our continued strengthening of building and public structure codes can, and will, reduce damages substantially.

Earthquakes are a very predictable disaster: we know they are coming. We can estimate the loss of life and the cost of the damage. For example, the chance of an earthquake of magnitude 7 or more on the Ritchter scale in California within the next 30 years remains at 90 percent. U.S. Geological Survey predicts there will a 6.0 earthquake in Parkfield, CA in the next 2 to 5 years. According to the Washington Post:

Geologists project that there is a 100% probability of a destructive quake hitting somewhere in the eastern U.S. before the year 2010, 20 years, and an 86 to 97 percent probability of a quake, at least 6.3 on the Richter scale, hitting New Madrid again before 2035.

Contrary to popular belief, California is not the only earthquake prone area in our country. In 1964 Alaska suffered a devastation of an 8.4 to 9.2 quake on the Richter scale. In 1811 and 1812 Missouri suffered three quakes of 8.5, 8.6, and 8.7. In 1886 Charleston received a 7.7. Many other states like Utah, Idaho, Wyoming, Montana, Washington, and Hawaii could also suffer major earthquakes. Considering that the ground in the East Coast amplifies earthquakes, east coast builders barely consider earthquakes, and there is no way to evacuate before an earthquake, imagine the devastation to the area around Charleston, if an even larger natural disaster than hurricane Hugo were to strike again. Even the 5.9 earthquake in Whittier, CA that occurred only 2 years ago cost $350 million.

We desperately need to make builders inside and outside of California think more about earthquakes. We need to ensure that builders everywhere use the very latest and best anti-earthquake technology.

Therefore our bill requires that after December 31, 1996, the use of tax exempt bonds, tax depreciation and the deductibility of interest expense will be denied for new structures unless they are certified to meet the new anti-earthquake standards applicable for various regions by the design and/or construction firms that build them.

The bill creates a Commission composed of experts in each of the fields related to making responsible building codes. We envision the USGS providing a national map of earthquake probabilities and magnitudes and a study of how earthquakes effect different ground compositions. We see the Council of Economic Advisors and HUD forming scientific ideas into building codes that make economic sense.

The one major question that is raised about this bill is the cost to new building and home buyers. Those buying in earthquake prone areas will probably have to pay slightly more, but in the long run—and in some cases, the short run—they will save money. The New York Times reported that:

U.S. experts calculated that the building of earthquake proof constructions and the reinforcement of old houses cost six times as little as likely damages from earthquakes.

This bill doesn't even cost extra money, all it requires is that we face the reality of earthquake power before another major earthquake happens.

This bill will save tens of billions of dollars and thousands of lives. Our Government spends $65 million a year for the research necessary to make stronger building standards, but we haven't followed through. It is time to apply our research and protect our country from our most dangerous natural disasters, earthquakes.

I urge all Members, particularly eastern Representatives, to join in supporting this legislation.

U.S. BANKS LOSING GROUND TO COMPETITION IN WORLD MARKETS

The SPEAKER pro tempore. Under a previous order of the House the gentleman from Illinois [Mr. ANNUNZIO] is recognized for 5 minutes.

Mr. ANNUNZIO. Madam Speaker, the global market for financial services is becoming increasingly competitive. Within this competitive environment of international banking, the global position of U.S. banks has been declining relative to foreign banks in size, market share, creditworthiness, and growth rates. U.S. banks are losing ground in this competitive environment, and this concerns me.

The relative decline of American financial institutions in the world market is very clear in commercial and investment banking, as well as in nonbank financial activity in general. In relation to the deposit size of banks around the world, the most striking fact is: whereas there were no Japanese banks in the top 19, 25 years ago, today the top 12 are all Japanese banks. This long-term trend shows that Japanese banks have been growing in size at the expense of American and other banks.

In terms of market share of assets in the global economy, the share of U.S. banks has been declining relative to most other international competitors. Among major industrialized

nations' banks, only U.S. banks now have fewer cross-border assets, chiefly loans and securities, than they did in 1983. While such United States banking assets now total $102 billion, Japanese banking institutions have increased their international assets fourfold to $129 billion.

The asset share of Japanese banks in the world market has increased from 23 percent in 1984 to 38 percent in 1988, and the asset share of United States banks in the world market has decreased from 26 percent in 1984 to 15 percent in 1988. The asset shares of West German, Swiss, and Italian banks have also increased over that same time period, while the asset shares of French, British, and other banks have decreased marginally.

Thus, both Japan and the United States had approximately one-quarter of the international banking market in 1984, but by the end of 1988, the United States' share in relation to that of Japan had gone from roughly even to an advantage of approximately two and one-half times for Japan. Furthermore, of the leading Western industrial nations, the decline in the United States' share of the world banking market has been the greatest in absolute terms.

The total level of capital available to bank in relation to existing assets also suggests the extent to which the potential exists for further increases in total assets. The market value of capital, or the stock market's current value of the institution's equity, and the level of profitability can also be helpful in determining the potential for further increases in asset levels.

Recent calculations of the market value of banking companies' equity show an enormous edge for Japanese institutions. On March 31, 1989, the global leader in terms of the then current value of equity was the Industrial Bank of Japan, with a value of $73.9 billion. Another 20 Japanese banks and one West German bank exceeded Citicorp, the leading United States institution with a market value of equity of $9.6 billion.

In addition to the marked decline of U.S. banks in terms of size, asset share and the market value of their capital, U.S. banks have been rapidly declining in their creditworthiness. The credit-standing of a bank has a direct effect on that bank's ability to compete in attracting customers and minimizing its cost of funds. As a result of rapid Japanese and West German economic growth, coupled with lending to lesser developed countries [LDC] and energy-related customers, the creditworthiness of United States banks has been declining. This diminishing creditworthiness feeds the loss of market share of U.S. firms in certain activities, like the commercial bank letter of credit business in the United States.

As measured by Moody's long-term ratings—the investment grade scale in Moody's long-term ratings for banks is from highest to lowest: Aaa, Aa1, Aa2, Aa3, A1, A2, A3, Baa1, Baa2, Baa3 and Ba1—the credit standing for the largest American banks relative to their chief foreign competitors has declined dramatically since 1980. In 1980, four United States banks were Aaa rated and three were Aa1 rated. By year-end 1988, no American banking company retained the coveted Aaa rating and only one was rated Aa3 or higher. While two of the largest foreign banks were Aaa rated in 1980 and no others even made a Ba1 rating, by year-end 1988, nine foreign banks were Aaa rated and five more were rated A3 or better.

By the measure of profitability, however, American banks appear to do relatively well. In 1988, in terms of return on equity, the largest United States financial institutions tended to show better performance than most of the largest Japanese banks; but this may be deceiving. The Japanese banks have higher capital levels than United States banks, causing their profits to shrink in relation to those of United States banks. Loosely defined, return on equity equals net income divided by average net worth or capital for any given year. So, higher levels of capital would tend to decrease measures of profit. This higher level of capital serves to promote safety and soundness while decreasing the chance of failure.

As competition has heightened in the global markets of banking, United States banks have been losing share in most of the important performance indicators. These facts concern me.

As chairman of the Subcommittee on Financial Institutions Supervision, Regulation and Insurance, I recently held hearings on the European Community and its project 1992. At those hearings the subcommittee heard testimony underscoring our deteriorating competitive position.

I intend to do everything in my power to maintain the competitiveness of U.S. banks. This pledge will not be broken; I have announced that the subcommittee will begin to look at the structure of U.S. banking next year. The subcommittee must approach these hearings with an open mind. If necessary, we must be prepared to alter our banking laws to maintain the competitiveness of U.S. financial institutions.

REPORT FROM HOUSE ARMS CONTROL OBSERVERS GROUP

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Missouri [Mr. GEPHARDT] is recognize for 5 minutes.

Mr. GEPHARDT. Madam Speaker, on behalf of the gentleman from Michigan [Mr. BROOMFIELD] and myself, I submit for the information of the House a report from the House Arms Control Observers Group:

HOUSE OF REPRESENTATIVES,
OFFICE OF THE MAJORITY LEADER,
Washington, DC, October 30, 1989.

Hon. THOMAS S. FOLEY,
Speaker of the House of Representatives, Washington, DC.

DEAR MR. SPEAKER: In our capacities as Co-Chairmen of the House Arms Control Observers Group, we led a delegation of twelve Members to Geneva, Vienna, and Brussels, from October 5 to 10, 1989.

This was an outstanding visit, during which we had the opportunity to meet with U.S. negotiators to four separate sets of arms control talks: the Nuclear and Space Talks, including the Strategic Arms Reduction Talks (START) and the Defense and Space Talks; the Nuclear Testing (NTT) talks, the Confidence- and Security-Building Measures (CSBM) talks, and the Conventional Forces in Europe (CFE) talks. We also had lengthy discussions of arms control and strategic issues with Soviet, NATO, and Warsaw Pact officials, as well as the U.S. representatives to NATO. In Vienna, we had particularly interesting conversations with arms control negotiators from Poland, Hungary, and East Germany.

The Members on our delegation were struck by the historic opportunities for progress now present in arms control negotiations underway in Geneva and Vienna. Combined with the momentous changes now occurring in Poland, Hungary, East Germany, and the rest of Eastern Europe, the prospects for reduction of conventional forces through a CFE agreement and strategic weapons through a START agreement offer the chance to literally re-draw the military map of Europe, and change the strategic relationship between the United States and the Soviet Union. We now have the chance to enhance our national security through skillful negotiations leading to arms control agreements.

Further, given the potential for rapid movement in the various negotiations, we were all convinced of the need for the House Members to remain current on the state of play of these talks. While the House does not ratify arms control treaties, we initiate defense spending bills that influence the course of these negotiations and we raise the revenue that funds new defense systems. Further, if negotiations result in executive agreements rather than treaties, the House will have an equal role in approving the legislation to implement these agreements.

For these reasons, the Members felt the need to continue active observation of these talks through another visit in the spring of 1990.

We are attaching to this letter: (a) a detailed summary of the principal issues we addressed during this trip, (b) a list of the Members who participated in the trip, and (c) a list of the meetings we held in Geneva, Vienna, and Brussels.

Sincerely,

RICHARD A. GEPHARDT,
Co-Chairman.
WILLIAM S. BROOMFIELD,
Co-Chairman.

REPORT ON THE VISIT OF THE HOUSE ARMS CONTROL OBSERVERS GROUP TO GENEVA, VIENNA, AND BRUSSELS, OCTOBER 5-10, 1989

Strategic Arms Reductions Talks (START)

U.S. Ambassador to the NST Richard Burt said in Geneva that although neither side in the START talks is negotiating against a deadline, the impetus provided by the Baker-Shevardnadze Summit in Wyoming presents good prospects for continued progress leading to the signature of a strategic arms reduction treaty with the Soviet Union. Such an agreement would result in the elimination of thousands of nuclear weapons on each sides, including mobile missiles, strategic submarines, ICBM's, and bombers. Ambassador Burt assured us that such cuts can be made without sacrificing our nuclear deterrence.

Ambassador Burt said that there remain a number of barriers to a START agreement. He said that there may be less than meets the eye in apparent concessions by the Soviet Union in de-linking a START agreement from the differing interpretations of the ABM treaty as they relate to the Strategic Defense Initiative. He said that Soviets have indicated that although they could sign and implement a START agreement

without resolving the SDI/ABM issue, they maintained the right to withdraw from a START agreement if the U.S. took any subsequent action that the Soviets interpreted as a significant violation of the ABM treaty. Ambassador Burt thought it inconceivable that the Senate would ratify a treaty which contained this potential loophole.

Other differences left to be resolved in the negotiations include:

Limitations and the corresponding verification regime for mobile strategic weapons systems;

Counting rules and range limitations for air-launched systems, which will have a fundamental impact of funding measures for the Department of Defense, especially the B-2 bomber. On this issue, Ambassador Burt said that the Soviet agreement to exempt certain conventional bombers was a major concession; and

Sea-launched cruise missiles—the Soviets have proposed that SLCM's be dealt with in separate talks, but that the SLCM's issue must be resolved prior to implementation of a START agreement through mutual declatory statements. The United States still believes that inspection and verification issues are virtually impossible to resolve.

Despite the difficulty of these issues, Ambassador Burt indicated that the START talks appear to be the highest of Soviet priorities in arms control negotiations, and that the Soviet attitude has been constructive, pragmatic, and non-ideological. While he was hopeful that such an attitude would allow for resolution of existing disputes in time for the proposed Bush-Gorbachev Summit next year, he again stressed that neither side is "negotiating against a deadline."

We were particularly interested in whether the Administration shared the view of former Secretary Kissinger that it was necessary to have a conventional force reduction (CFE) agreement in place prior to reaching a settlement on START to ensure that NATO's conventional forces are not undermined by a deterioration in our nuclear deterrence. Our negotiators said that this view is not shared by the Administration. Ambassador Burt said that the Administration would sign no agreement that weakened our nuclear deterrent capability.

In a separate two-hour meeting with the Soviet START negotiating team, Soviet Negotiator Yuriy Nazarkin said that his country's priorities in START were both to save money on defense programs and to enhance Soviet security through increased stability. He viewed the START talks as just the beginning of ongoing negotiations, including subsequent "stability talks" which he said would produce even greater reductions. In response to a question about eliminating mobile MIRV's, Nazarkin said that such a move would have a stabilizing effect, but that the reality was that the Soviets already had their system in place. Thus, the most they would accept would be to limit the systems to certain regions, strengthen inspection measures, and monitor production.

Much of the conversation focussed on the link between the ABM treaty interpretations and the START treaty. Ambassador Nazarkin reiterated the Soviet position that the two sides can complete and implement a START agreement without an ABM settlement, but that either side could leave the agreement if a "substantial" violation of the ABM treaty took place on the other side. He affirmed that any testing in space had to be consistent with the traditional interpretation of the ABM Treaty. In a discussion of the Soviet system, Soviet General Detinov said that the Soviet ballistic missile defense system around Moscow was designed to counteract mistakes or third-country attacks. On a related issue, several members of the U.S. delegation expressed their pleasure with the Soviet decision to dismantle its Krasnoyarsk radar station without condition.

Defense and Space Talks

In a meeting with U.S. delegates to the Defense and Space talks in Geneva, U.S. acting Defense and Space Negotiator William H. Courtney said that we were anxious to adopt confidence- and security-building measures to reduce the risk of "future technology surprise" from new developments. The Soviets share this concern, but they want these measures to apply only on a limited basis; they still place a high priority on verification, including unlimited on-pad inspections for all space launches. The Soviets also want continuous negotiations on defense and space issues, similar to the "stability talks" on START issues.

Nuclear Testing

There was considerable discussion with U.S. Nuclear Testing negotiator C. Paul Robinson in Geneva of the progress achieved in settling verification issues related to the 1974 Threshold Test Ban Treaty and the 1976 Peaceful Nuclear Explosions Treaty. This progress includes agreements on on-site inspections for underground tests exceeding 35 kilotons, at least two tests per year as a confidence building measure, and monitoring by seismic sensors or CORRTEX (hydrodynamic yield) for tests above 50 kilotons. The sense was that the resolution of the above issues paved the way for the signature of an accord on both the PNE and TTBT verification protocols at next year's Bush-Gorbachev Summit. Ambassador Robinson stressed the need for continued nuclear testing to ensure reliability, safety, and security of our nuclear systems. He added that the three principal factors used to judge any verification system were intrusiveness, effectiveness, and cost.

Conventional Forces in Europe (CFE)

The Members participating in this delegation were aware of the parameters of multilateral conventional force reduction talks. Nonetheless, it was eye-opening to hear first-hand that in the context of an over-all settlement (including unilateral Soviet reductions), the Soviets would cut their military personnel in Europe by half by demobilizing 300,000 troops and destroy massive amounts of military equipment, including 40,000 tanks and large numbers of artillery and armored troop carriers. This would constitute one of the largest peacetime demobilizations in history. U.S. negotiator to the CFE, Ambassador Stephen Ledogar, said without exaggeration, "We have the opportunity to re-write the military map in Europe."

Ambassador Ledogar pointed out that for 15 years in the precursor Mutual and Balanced Force Reduction negotiations, the Soviet Union and Eastern Bloc refused to consider asymmetric cuts and resisted intrusive verification. Now both of these positions have been abandoned. Ambassador Ledogar stated that the Warsaw Pact is negotiating in an expeditious and business-like manner. He said that the timetable established by President Bush—an agreement within six to twelve months—is ambitious but not out of reach. Still, many issues remained to be solved, including equipment definitions (especially on aircraft), stabilizing measures such as restraints on military exercises, storage concerns, verification and non-circumvention language, and ceilings that may apply to countries beyond the United States and the Soviet Union.

U.S. negotiators to the CFE stressed that some of the most difficult negotiations now underway were inside NATO itself. Some NATO allies were concerned that the pace of negotiations was going too rapidly and that mistakes were likely. Others, including France, insisted that any agreement must not impinge on their independent defense posture. Still others, such as Norway, Greece, and Turkey, were concerned that the structure of the negotiations would force troops out of Central Europe and into the flank nations.

The most serious intra-NATO concern lay in the question of which nation would cut their forces to meet the over-all NATO reductions. Surprisingly, far from competing for the resulting "peace dividend," most nations were averse to committing themselves to reductions. The U.S. approach was to have a CFE agreement impose a collective obligation, with individual nations agreeing to ensure that the over-all level is not exceeded. Subsequently, allocation of the reductions would be negotiated within the two blocs. The United Kingdom, Italy, and France rejected this solution, arguing that it is unthinkable for a sovereign state to enter into an agreement without known obligations.

In a meeting with the Soviet delegates to the CFE talks, Ambassador Oleg Grinievskiy said he was surprised that the West was not pursuing START and CFE agreements more aggressively, given the Soviet agreement to asymmetrical cuts in both agreements. He said that the Warsaw Pact perceived a slowing down in recent weeks, and stressed that the current "window of opportunity" might close if NATO did not move rapidly. He said that the Warsaw Pact was proposing a meeting of the Foreign Ministers of all participating countries early in 1990 to give the talks a new boost.

Ambassador Grinievskiy said that the Warsaw Pact was now more "open" than the West on several questions, including on-site verification. He called on the U.S. to be more flexible on the question of storage of NATO military equipment in forward sites, including in West Germany. In response to a question on short-range nuclear forces (SNF), he said that while the United States still seeks some deterrence, the Soviets' vision is still the "triple zero". In conclusion, he said that the current cuts being negotiated in the CFE talks were just the beginning: with a relaxation of tensions, confidence building through information exchanges and on-site inspections, and changes in defense force structures on both sides, even greater cuts would be possible in a successor agreement.

In a subsequent meeting with all the Warsaw Pact delegates to the CFR talks, glasnost reigned. Ambassador Konarski from Poland said that the current armed standoff in Europe is a form of stability, but not a desirable one. Both sides will have to reorganize to ensure defense within an environment of deep defense cuts, linked to each other. He said that a new order would have to emerge, where nations subordinated their sovereignty to pursue "cooperative security."

The East German delegate, Ambassador Ernst, said that the remaining CFE issues—aircraft, manpower, storage, and regional zones—would require a hefty dose of "politi-

cal will" on both sides to resolve. He said that the negotiations got off to a good start in May, but needed new momentum. The Romanian delegate, Ambassador Melescanu, stressed that tough questions over the distribution of cuts were being faced within the Warsaw Pact, with each country seeking to pursue its own security arrangements.

In response to a question about the economic benefits likely to result from the CFE, the Hungarian delegate, Ambassador Meiszter stressed that the initial economic impact of the CFE agreement would be negative, involving the cost of redeployment and demobilization of personnel and destruction of equipment. Further, demobilizing would create unemployment and disruptions of the labor force. While there would be long-term advantage from CFE, as economic resources were freed, the real benefits would emerge only in the context of an expanded "CFE-2" making deep cuts.

In response to a question about potential NATO/Pact changes, the Ambassador from Poland stated that if a country withdraws from the Pact or NATO, it would still be bound to the CFE agreement: not only do the two alliances sign the agreement, but each individual country signs the agreement as a sovereign nation.

Confidence- and Security-Building Measures (CSBM)

A separate set of talks in Vienna, the CSBM talks, involve 35 nations under the aegis of the Conference on Security and Cooperation in Europe (CSCE). These talks seek to reduce the overall tension level in Europe from the Atlantic to the Urals by engaging in measures to build mutual trust and confidence. U.S. delegate to the CSBM, Ambassador John Maresca, said that the 16 Western allies proposed in March a set of 12 measures, including exchange of military information, more frequent exchange of views on military policies, and expanded notification of military exercises.

Ambassador Maresca said that while the United States was strongly dedicated to this process, many countries had hidden agendas in the talks. The Soviets, for example, are making a strong naval push that may affect U.S. ability to reinforce Europe in wartime; in this light, they are trying to use CSBM to force the U.S. into an over-all negotiation on naval power. Other measures in the Warsaw Pact counter-proposal, especially on constraining measures, will hamper Western capabilities related to maneuvers far more than the Eastern Bloc.

Ambassador Maresca said that the Eastern Bloc adopted a uniform position at the CSBM talks, based on Soviet leadership. On hard defense issues, it was still the Soviets that called the shots. Nonetheless, the other Eastern Bloc nations were clearly pursuing their own interests. For example, he said that the incorporation of detailed advanced notification requirements on troop movements in the Eastern proposals were based in part on the desire of Poland and Hungary to get advanced notice on Soviet maneuvers.

Reflections from Brussels—U.S. NATO Supreme Command and NATO Allies

In discussions with U.S. officials in Brussels, U.S. Ambassador to NATO William Taft and other U.S. NATO officials reviewed the impact of on-going arms control talks on the Western Alliance. Ambassador Taft said that although the arms control plate is as full as it has ever been, NATO nations did not view arms control as the sole or even the primary basis for military stability in Europe—there was still an over-riding need for effective deterrence. He said that NATO would not accept a weaker defense posture from a CFE agreement, and neither would the Warsaw Pact nations.

Ambassador Taft said that despite the growing role of European countries in their own defense and the existence of new European military organizations, NATO still enjoyed an independent role in setting defense policies and that the United States still provided leadership within NATO. Nonetheless, there was a different perception of NATO, with the European viewing it as a regional organization, while the U.S. sees it more in the global context.

Ambassador Taft said that NATO's two immediate tasks relating to the CFE talks were to divide potential cuts among the allies and to ensure that NATO would make the best use of remaining assets through redefined strategies. The initial reaction from most NATO allies was to protect their national forces. The U.S. would take the largest cuts, while countries like Canada and Denmark may not cut at all. This would be the easiest way to accomplish "burden sharing," since it would result in a smaller proportional role for U.S. forces. One issue dividing the allies was the question of verification, including inspection of arms production facilities. The European members of NATO who export armaments were particularly reluctant to allow such inspection.

In a meeting with delegates from NATO allies, the Members of the House delegation raised the concept of burden-sharing. While noting that we maintained a commitment to NATO and the Western Alliance, we stressed that the perceived declining threat from the Soviet Union and Eastern Bloc, combined with stagnant or declining resources for defense spending, made it harder and harder to explain to the American taxpayer why we were playing such a large role in defending Europe.

The Spanish permanent representative, Ambassador Jaime de Ojeda, stressed that NATO would have to start reviewing the type of force structure that would be needed in the future, and reconcile the resulting force requirements with the numbers being put on the table in the CFE. He said that most Western Europeans still perceive the European continent as an integral unit, and strongly desire the creation of a more stable Europe with the reintegration of free and democratic Eastern European countries.

West Germany's acting permanent representative, Hans-Friedrich von Ploetz, stressed that the NATO alliance is a living entity, and that it was essential that the U.S. commitment to NATO not be diminished. The Germans still wanted and needed the presence of American troops as an essential part of the NATO alliance. Still, he recognized that NATO must adjust to post-war realities, including the fact that European countries could finance a larger part of their own defense.

Ambassador Francesco Paolo Fulci, the Italian permanent representative, shared the view that the presence of U.S. troops was a vital aspect of America's relationship with Europe. He said that Europeans believe that nuclear deterrence is necessary, but that this view may change in the future, and the Alliance must remain open on this issue. He said that European integration in other fields, including EC-92, would not isolate the United States, but would strengthen the basis for trans-Atlantic cooperation.

PARTICIPANTS IN HOUSE ARMS CONTROL OBSERVERS GROUP, CONGRESSIONAL DELEGATION TO GENEVA, VIENNA, AND BRUSSELS, OCTOBER 5-10, 1989

Richard Gephardt, D-Missouri, Co-Chairman;
William Broomfield, R-Michigan, Co-Chairman;
Les Aspin, D-Wisconsin
Mickey Edwards, R-Oklahoma
Robert Lagomarsino, R-California
Norman Dicks, D-Washington
Robert Carr, D-Michigan
Howard Berman, D-California
Jim Moody, D-Wisconsin
Esteban Torres, D-California
Joel Hefley, R-Colorado
Porter Goss, R-Florida.

MEETINGS OF HOUSE ARMS CONTROL OBSERVERS GROUP TO GENEVA, VIENNA, AND BRUSSELS, OCTOBER 5-10, 1989

Geneva, Switzerland

1. U.S. Head of Nuclear and Space Talks (START and Defense and Space) Ambassador Richard Burt and other members of U.S. START negotiating team—discussions of progress in Wyoming Summit between Baker and Shevardnadze and remaining issues to be resolved (mostly ABM/SDI, SLCM's, and mobile missiles) prior to possible agreement by time of Bush-Gorbachev Summit next spring or summer.

2. U.S. Acting Chief of Defense and Space Talks William H. Courtney and other members of U.S. DST negotiating team—further discussions as above, with special emphasis on linkage between continued SDI research and START agreement.

3. Soviet Nuclear and Space Talks Negotiator Ambassador Yuriy Nazarkin, Ambassador Yuriy Kuznetsov, Ambassador Lem Masterkov, and General Detinov—Soviet perceptions of above issues.

4. U.S. Ambassador C. Paul Robinson, negotiator for Nuclear Testing issues and other members of the Nuclear Testing Talks delegation—discussion of remaining verification issues associated with Nuclear Threshold Test Ban Treaty and Peaceful Nuclear Explosion Treaty.

Vienna, Austria

5. U.S. Delegate to Confidence and Security-Building Measures (CSBM) talks Ambassador John Maresca—discussions of multilateral negotiations to limit military exercises in Europe and enhance notification and verification provisions of conventional forces negotiations.

6. U.S. Delegate to the Conventional Armed Forces in Europe (CFE) Talks Ambassador Stephen Ledogar—discussion of remaining outstanding issues in NATO/Warsaw Pact negotiations to limit troops, tanks, and other conventional forces in Europe from the Atlantic to the Urals.

7. Soviet Negotiator to CFE, Ambassador Oleg Grinievskiy—Soviet perception of above issues, with specific emphasis on intermediate nuclear forces.

8. Negotiators from Warsaw Pact countries, including Ambassadors Ljuben Petrov (Bulgaria), Ladislav Balcar (Czechoslovakia), Klaus-Dieter Ernest (East Germany), David Meiszter (Hungary), Wlodzimierz Konarksi (Poland), Teodor Melescanu (Romania), and Oleg Grinievskiy (Soviet Union)—Warsaw Pact and individual country perceptions of above issues, with emphasis on need to proceed rapidly on conventional arms control to take advantage of existing opportunities.

Brussels, Belgium

9. U.S. Ambassador to Belgium and former INF Negotiator Maynard Glitman—lessons of the intermediate nuclear force negotiations for CFE and START negotiations.

10. U.S. Ambassador to NATO William H. Taft IV and other officials of U.S. Supreme Command to NATO—discussions of NATO's role in securing Western security in post-CFE Europe and perception of NATO allies.

11. Permanent Representatives of allied nations of NATO, including from Belgium, Canada, Denmark, France, West Germany, Greece, Iceland, Italy, Luxembourg, Netherlands, Norway, Portugal, Spain, Turkey, and United Kingdom—discussion of above issues, with special emphasis on U.S. commitment to NATO in post-CFE era and importance of "burden-sharing."

CONGRESSIONAL REFORM: WHO IS MINDING THE STORE?

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from New York [Mr. WALSH] is recognized for 60 minutes.

Mr. WALSH. Madam Speaker, I thank the Chair for allowing me this time this evening to present a special order that we have continued, the Republican Policy Committee has continued, to present before the House on successive Wednesdays for the past several months. The special order regards congressional reform, various aspects of congressional reform that we feel this body sorely needs.

Tonight's topic is entitled "Who Is Minding the Store?" It focuses on Congress' failure to provide systematic and consistent oversight over the many Federal programs and departments created and funded.

Legislative oversight is the written responsibility of each committee to constantly review the activities of the department or departments.

Two topics have dominated the news of late. One is the HUD scandal and the second is the S&L scandal. Both of these scandals are the direct result of a lack of thorough oversight on the part of Congress.

HUD, for example, the Department of Housing and Urban Development, which is reviewed by the Committee on Banking, Finance and Urban Affairs, was never authorized from the years 1981 to the year 1987. It was during this time that the problems begin in that department. The savings and loan scandal, which the House has funded a bailout of, also comes under the purview of that committee. Again I think that Congress has shirked its oversight responsibilities in these two matters.

Our rules require that the committee provide that oversight. The rule regarding oversight is as follows, section 692(a) general oversight, and it states:

Each standing committee other than the Committee on Appropriations and the Committee on the Budget shall review and study on a continuing basis the application, administration, execution and effectiveness of those laws or parts of laws the subject matter of which is within the jurisdiction of that committee and the organization and operation of the Federal agencies and entities having responsibilities in or for the administration and execution thereof, in order to determine whether such laws and the programs thereunder are being implemented and carried out in accordance with the intent of Congress and whether such programs should be continued, curtailed or eliminated.

This ongoing special order involves congressional reform.

We have discussed a number of issues, but this perhaps is the most timely.

With the ongoing HUD scandal and the savings and loan bailout, we are finding out that it is very expensive to not provide the proper oversight for these committees; it is very expensive in terms of credibility for the Congress and it is also very expensive in terms of taxpayers' dollars to the taxpayers.

The question begs for an answer: Why are Members and committees not performing their responsibilities? I am not sure if there is one specific answer, but it strikes me, as a new Member, that there is altogether too much going on outside of the responsibilities as determined by the committee structure.

We have members of the Committee on Armed Services writing agriculture legislation; we have members of the Agriculture Committee writing Ways and Means tax legislation; we have Ways and Means members writing legislation for everything but. There does not seem to be any discipline within the system.

Certainly, our Founding Fathers had forethought when they put the legislature together and, unfortunately, the committee and subcommittee process has grown like topsy-turvy and now everyone is overseeing everything and in actuality no oversight is being done.

In the 100th Congress the requirement that representatives from the Committee on Government Operations meet with other committees at the beginning of each Congress to discuss oversight plans and that the Government Operations Committee report to the House its oversight coordination recommendations with 60 days after convening of the first session, that requirement was deleted.

So now we have no single legislative agency or leadership group coordinating the numerous oversight activities. Again we see the results of that lack of oversight in the scandals that come up and the reaction to those scandals when everyone in Congress is calling for someone's head during the probe but during the day-to-day operation of business more scandals and more problems are brewing this very minute as we speak. And we are looking in the wrong places and directing our attention to the wrong things.

There are special oversight functions of specific committees also as assigned by the Committee on Rules.

Efficient government requires careful attention by Congress to the administration of our laws. A thoughtful, well-drafted law offers no guarantee that the policy intentions of the legislators will be carried out. Laws passed by Congress are general guidelines, sometimes deliberately vaguely worded. The implementation of legislation involves the development of administrative regulations by the executive agencies and day-to-day program management by agency officials.

Congress formalized its legislative oversight function in the Legislative Reorganizations Act of 1946.

That act required congressional committees to exercise continuous watchfulness. The continuous watchfulness precept of the act implied that Congress would participate actively in administrative decisionmaking in line with the observation that the administration statute is an extension of the legislative process.

Now this is not new to Congress. We have a history of this. It goes back all the way to the Credit Mobilier scandal in 1972; it repeated itself in the Teapot Dome scandal in 1923, the Stock Exchange, 1932 through 1934; Defense Department funding during World War II, the money trust scandal in 1972 and now we have with us today the HUD scandal and the savings and loan crisis.

The savings and loan crisis is a scandal of major proportions. I do not believe in the history of our country has it ever cost the Government over $150 billion to solve a problem that was spawned by legislative oversight.

The HUD inquiry is an interesting one in that it would seem that there was abuse in the Department of HUD because Congress simply looked the other way when it came to authorization.

The House Judiciary Democrats, on November 2, invoked a little-used provision of the independent counsel law to force Attorney General Thornburgh to consider a special prosecutor to investigate former HUD Secretary Sam Pierce.

A day earlier, House Banking Committee chairman, the gentleman from Texas [Mr. GONZALEZ] said he may start his own series of HUD scandal hearings.

The Senate Banking Committee, on October 31, created a subcommittee to investigate the agency.

All of the current actions are warranted. However, the larger question is how did we get here in the first place? What ever happened to oversight? We gentlemen and ladies are disorganized. We have a myriad of committees and

subcommittees, select committees, joint committees, et cetera, et cetera, each with overlapping responsibility and duties.

Now the Members of the freshman class on the Republican held a number of special orders and 1-minute's to discuss the drug problems of this country.

□ 1700

One of the things that we talked about is that there are currently 53 committees that exercise oversight authority in the House on the drug issue. Fifty-three committees.

We would think with all those committees watching we would not have any drug problems in this country, but we do.

Oversight, again, or the lack of oversight in a centralized concise form is the root of the problem.

Mr. Speaker, I yield to my colleague who cochaired the special order with me for the past several months, and who is also very committed to congressional reform, the gentleman from Michigan [Mr. UPTON].

Mr. UPTON. Madam Speaker, I thank the gentleman from New York for yielding.

First. There's a fairly well-known remark by Defense Secretary Dick Cheney that has to do with how well Congress oversees the programs it creates. His comment was published in the National Journal on July 22 of this year. To quote from the article: "Defense Secretary Dick Cheney said he has 'seriously considered' a proposal 'to stick about halfway through every report a piece of paper that says if you call the following phone number you'll get an all-expense-paid vacation to the Bahamas.' There is no danger of having to pay off, Cheney added, because 'nobody gets halfay through those reports; they go to Capitol Hill and they get filed.' "

Second. Now Dick Cheney was a member of his body for years, and he has great respect for the institution. But his point is this: We demand extensive reporting by the hundreds of agencies Congress has created over years, and then we don't seem to pay attention.

Third. Another example is the so-called HUD scandal. A good description of Congress's lack of oversight in this matter was presented in an October 9 segment of the MacNeil/Lehrer News Hour. The piece was by Roger Mudd, one of the best reporters on congressional politics around. Let me quote a part of what Roger Mudd said:

There are now so many committees and subcommittees on Capitol Hill that you probably won't go wrong simply calling everbody in Congress either Mr. or Madam Chairman. At last count, there were 51 committees, 286 subcommittees on everything from the Outer Continental Shelf to toxic substances. The Congressional Research Service recently reported at least 65 committees and subcommittees of the House and Senate with jurisdiction over President Bush's drug plan. * * * Can you imagine being Bill Bennett * * * So with all the committee firepower, why did the scandal at HUD go untouched for so long? The answer is a revealing self-portrait of the Congress. Of its overlapping and rival committees, of its penculiar way of doing business, of its disinterest, of its short attention span, of its political vanities, and of the personal problems of its members.

I insert into the RECORD at this point the entire Roger Mudd transcript just discussed.

FOCUS—HUD SCANDAL

Ms. WOODRUFF. We turn next to the scandal in the Reagan Administration Department of Housing and Urban Development. The Congressional investigation in the mismanagement and influence peddling at HUD resumes this week. A subcommittee of the House Government Operations Committee has been conducting Hearings since May was the first on Capitol Hill to uncover years of abuse inside the Department. Congressional Correspondent Roger Mudd looks at why Congress didn't uncover this scandal sooner.

Mr. MUDD. There are now so many committees and subcommittees on Capitol Hill that you probably won't go wrong simply calling everybody in Congress either Mr. or Madam Chairman. At last count, there were 51 committees, 286 subcommittees on everything from the outer Continental Shelf to toxic substances. The Congressional Research Service recently reported at least 65 committees and subcommittees of the House and Senate with jurisdiction over President Bush's drug plan.

Rep. JAMIE WHITTEN. One of the weaknesses with our country is in Congress where we have so many committees and all claiming some various jurisdiction.

Mr. MUDD. So with all that committee fire power why did the scandal at HUD go untouched for so long. The answer is a revealing self portrait of the Congress. Of its over lapping and rival committees, of its peculiar way of doing business, of its disinterest, of its short attention span, of its political vanities and of the personal problems of its members. So let's begin with the banking committees. There are two of them House and Senate and it is here where legislation is written and policy set for HUD. Why did the Senate Banking Committee not catch the scandal?

Sen. GARN. I was Chairman of the full Committee for 6 years, Banking, Housing as well as HUD Subcommittee and it is a fair question.

Mr. MUDD. This is Republican Sen. Jake Garn of Utah.

Sen. GARN. But if you look at Congressional staffs of any of the committees you are primarily set up with staff who are legislative staff. Recommending laws, general policy. And so if you wanted to have the type of staff that was necessary to look at individual contracts and grant awards you'd not only have to have a lot more staff you would have to have the CPAs, you'd have to have investigative attorneys to do the job.

Mr. MUDD. But over the years, Garn's big interest has been NASA and space. In 1985, in fact, he was the first Senatorial Astronaut and flew on the Space Shuttle Discovery. On the issue of public housing Garn was generally known as an opponent.

Sen. GARN. By the very nature of the way the separate branches of Government are set up that first line of defense should be there with the inspector generals, with the Department of Justice.

Mr. MUDD. So you are willing nor do you think you should have to take any of the blame for the HUD scandals not being uncovered sooner?

Sen. GARN. I don't think we can avoid some of the blame. But that is always true. Where I would blame Congress most of all is not in the oversight responsibility but creating such a proliferation of programs. It is such a large bureaucracy to begin with. As much as I am for better housing in this country, how many different types of Housing Programs do you need?

Mr. MUDD. In 1987 after the Democrats regained control of the Senate the chairmanship of the Banking Committee passed to William Proxmire of Wisconsin.

Mr. PROXMIRE. Why didn't our Senate sub Committees with direct jurisdiction act to prevent this waste and fraud? The answer to that is simple. We had no idea that it was going on.

Mr. MUDD. And why did Proxmire have no idea?

WILLIAM PROXMIRE, Former Senator. We simply didn't have the information. It didn't come out until April 25th 1989. Now the Congress has substantial staff but the people who do investigating is the inspector general. They have 492 people, they have investigators, they have auditors, they have accounts and that is their job. The IGA report was a public document. It would have made a terrific billion dollar Golden fleece but I missed the Boat. What I failed to do and what I recommended was that in the future you should assign a member of your staff to read thoroughly every report. Call to the attention to all members of the committee not just the Chairman anything in the reports that suggested they should be inquired into. And make sure that is done systematically and thoroughly.

Mr. MUDD. But what about the Housing Sub Committee of the full Banking Committee? Surely it knew the score. In 1981 and 1982 the Chairman of that Sub Committee was Republican Richard Lugar of Indiana. But following a staffing dispute with Chairman Garn he left the committee after two years. Lugar was succeeded as Sub Committee Chairman by John Tower of Texas. But within six months Tower had announced his retirement and spent much of his remaining time in office lining up consultancys and lobbying to become Secretary of Defense. Tower was replaced as Chairman by Republican Chick Hecht of Nevada because no one else wanted the job. Hecht knew little or apparently cared little about Government Housing. He was defeated for

re-election in 1988 and is now the ambassador to the Bahamas. Following Hecht in 1987 was Democrat Alan Cranston of California but Cranston has duties as assistant Senate Leader and as Chairman of the Veterans Committee that he seems to care more about. The ranking Republican on the Sub Committee, by the way, has been since '87 Al D'Amato of New York whose role surfaced, more than once during the HUD Hearing including a million dollar HUD grant he helped get for his home town swimming pool. So let's try the House Banking Committee controlled all these years by the Democrats. With the Republican scandal brewing you would think the Democrats would be bumping into each other to investigate. You would think that wouldn't you. Well, the Chairman of the House Committee was no other than Ferdenand St Germaine of Rhode Island and if anybody has less appetite for uncovering scandal at that time it was probably St Germaine. He himself was the subject of an Ethics Committee Investigation, a Justice Department investigation and was reported by the Wall Street Journal to have accumulated 2 million dollars in assets while on the public payroll. St Germaine was defeated for re-election in 1988 and he will not discuss the HUD story. Carroll Hubbard of Kentucky was Chairman of the oversight Sub Committee of Banking which can conduct hearings on anything within the purview of the full Committee. Hubbard won't talk about it now, but back then he decided to defer to Henry Gonzales of Texas Chairman of the Housing Sub Committee. Gonzales is a daunting figure on the Hill, a man with a short fuse who no one likes to anger by say launching his own investigation of HUD. So what did Gonzalez do? Not enough, according to Marge Roukema of New Jersey the ranking Republican on the Gonzalez Sub Committee.

Rep. MARGE ROUKEMA. I would liked to have had Mr. Gonzalez and myself take the leadership in terms of the oversight on these hearings.

Mr. MUDD. Why didn't you?

Rep. ROUKEMA. I put the request in but it was ignored.

Mr. MUDD. By Mr. Gonzalez

Rep. ROUKEMA. Yes.

Rep. MUDD. And why?

Rep. ROUKEMA. I don't know, I think on the one hand he may have feared that he would be treading on Congressman Lantos' position and on the other hand he felt, at least he stated to me that he wanted to give Jack Kemp, the new Secretary of HUD time to put his case together and come before the Committee and indeed, Mr. Kemp did come before our Committee but that was long after the Lantos' Committees investigations unfolded.

Mr. MUDD. Was there bad blood between Chairman Gonzalez and Secretary Pierce?

Rep. ROUKAMA. Yes that is an open secret. They did not have a very good relationship. I don't think any one was particularly at fault. It was just like oil and vinegar and I think it inhibited the free flow of information.

Mr. MUDD. The oil and vinegar is a reference to Gonzalez telling a group of HUD employees back in 1982 that although Pierce was not an Uncle Tom he was a Stephen Fetchit. Pierce called that vile, abusive and racist and never again appeared before a Gonzalez Committee. Gonzalez himself is not currerntly willing to discuss the HUD scandal and cancelled an interview two hours before it was to start. So neither banking committee ever got up to speed. Now let's try the appropriations committees of the House and Senate. It is here where Secretary Pierce and his staff had to come each year for money to run the Department. From 1981 to 1986 Republican Mark Hatfield of Oregon was Chairman of the Senate Committee responsible for the appropriation for 15 other Departments, the Congress, the Courts and at least 30 independent agencies. But what about the appropriations subcommittee specifically assigned to HUD. Well, the Republican Chairman was none other than Jake Garn of Utah, and the Democratic Chairman was none other than William Proxmire of Wisconsin and the House Appropriations Committee? Well it was being run all those years by Democrat Jamie Whitten of Mississippi, whose main interest was and always has been agriculture in general cotton in particular. The chairman of the subcommittee on HUD was Democrat Edward Bolin of Massachusetts but he was preoccupied with the war in Nicaragrua. So much for appropriations. The list is growing short and all that is left as Congressional whistle blowers for HUD are the two big investigation Committees of the Congress. The Senate Government Affairs Committee, the House Government Operations Committee. The dominant Republican figure on the Senate Committee has been since 1981 William Roth of Delaware. What did Roth do with HUD?

Sen. WILLIAM ROTH, (D) Delaware. Basically the role of the Government Affairs Committee has been minimal primarily because the authorizing committee has the principle over sight responsibility. When you stop and think that we have a trillion dollar budget and something like a 100 different agencies and cabinets it's true that government affairs cannot overview each of these agencies. That is reason we have the authorizing committees.

Mr. MUDD. Were you aware, Senator ROTH, about the scandal that was going on at HUD before the inspector general's report came out in April.

Senator ROTH. No.

Mr. MUDD. You were not?

Senator ROTH. No, I was not. Let me point out where I think the inspector general failed. as far as I am concerned. Every report had similar language. Yes we got some problems that you always do in an agency but every time they say Management is cooperating with us and it correcting it.

Mr. MUDD. Management meaning Pierce?

Senator ROTH. That's right.

Mr. MUDD. But Government affairs also has an oversight sub committee and its Chairman is Democrat Carl Levin of Michigan. Why didn't the Sub Committee do something? Levin won't say. His press office says quote the Senator hasn't focused on the HUD scandal and does want to get in to that. So now we're almost at the end of the line, the House Government Operations Committee and its employment and housing subcommittee. The Chairman of the Sub Committee during the height of the scandal was Democrat Barney Frank of Massachusetts. Frank claims he was trying to save HUD from being dismantled by the Reagan Administration. He says he didn't know it was being plundered. But Frank now caught in his own scandal has ceased doing interviews about anything. Frank was followed as Chairman by Tom Lantos of California. And but for Lantos, the HUD scandal might have slipped through the cracks of Congress. Alerted by a Washington Post story about the inspector general's April audit Lantos and his staff got copies of the 700 page report, questioned the inspector general and the next day announced hearings which have led to a cabinet secretary pleading the 5th amendment for the first time since the Teapot Dome scandal in 1923. So now comes a great flood of me too hearings and catch up politics. Gonzalez promises hearings, Riegle sent his Senate Banking Committee into action. Senator Leader Mitchell appoints a Housing tax force consisting of 7 members of Riegle's banking committee and the Senate Government Affairs Committee begins looking into the inspector general system. Some people would call that closing the barn door after the horse is gone.

On this subject, we can also look to former Senator William Proximire, who was chairman in the other body of the Committee on Banking, Housing, and Urban Affairs and the Appropriations Subcommittee that oversees HUD's budget. Let me read to you a passage about Senator Proxmire in the August 5, 1989, edition of Congressional Quarterly:

He said various committees, his own included, "ignored" obvious warnings—alarming reports issued by the inspector general's office at HUD that foreshadowed losses that now could reach into the billions of dollars. "The first lesson for Congress now is: Read the IG reports," Proxmire said. "Some of us in Congress," he added, were "negligent" for not "staying on top of these things."

To paraphrase a slogan that became popular in last year's elections, Where was Congress?

Fourth. A similar argument can be made about the savings and loan crisis. In 1986 and 1987, various private economists—include Ely and Co. and members of the Shadow Financial Regulatory Committee—were warning that official estimates given to our Banking Committee about the size of the S&L problem were much too small. These private economists said the S&L problems were really much bigger. But did the Banking Committee pursue these discrepancies further. The simple answer is no. Not until after the 1988 election, not until President Bush identified the true scope of the problem, were we in Congress willing to admit how bad it was.

Until then, Where was Congress?

Fifth. Still another example that has just begun to get attention is the Federal Housing Administration. A recent audit showed that the administration lost $4.2 billion in fiscal 1988, and now has a debt of $2.9 billion. These losses are greater than anyone here on the Hill expected. But according to Stephen Moore of the Heritage Foundation, Congress has had warnings for years. A backgrounder by the foundation dated October 12 of this year says:

Over the past several years, numerous GAO audits and Inspector General reports pointed to persistent financial problems at FHA, and a 1986 Heritage Foundation study

warned of the impending collapse. All warnings were joined on Capitol Hill.

Where was Congress?

Sixth. We also have these massive organizations known as Government-sponsored enterprises—Fannie Mae, Freddie Mac, Farmer Mac, Connie Lee—that back borrowing about $700 billion for such things as housing loans, farm loans, college construction. Earlier this year, our colleague from Ohio, BILL GRADISON, pointed out that these GSE's have weak accounting mechanisms so that really no one is held ultimately responsible if things go wrong. On October 31, the Banking Committee held a hearing on these institutions. But until then, we heard almost nothing about them—and we're talking about $700 billion worth of debt.

Where was Congress?

Seventh. Now, Congress also authorizes, every year, 69 independent agencies such as the Alaska Natural Gas Transportation System, the Delaware River Basin Commission, the Federal Retirement Thrift Investment Board, the International Development Cooperation Agency, the Appalachian Regional Commission. What are we doing to oversee these many organizations? Well, usually, once in the spring they come before some committee of Congress and talk about what they're doing, and then they come back in the fall for their appropriations. At their hearings, they make a short presentation about what they're doing and answer a few pro forma questions and after about an hour they go home. Is this oversight? How hard are we really trying to make sure there's not another HUD or S&L problem brewing in one of these agencies?

Where is Congress?

My point in all this is that we like to point the finger at someone else. But the truth is that we in Congress have to accept some responsibility. We have created these agencies at the taxpayers' expense. We have a responsibility to make sure they're operating efficiently and properly. The taxpayers should not have to wait until Tom Brokaw or Sam Donaldson or Roger Mudd tells us there's a problem.

Mr. WALSH. Madam Speaker, I thank the gentleman for his very appropriate remarks. His experience here has clearly shown that the Congress is not always involved in oversight as we should be.

Just one point on the comments about Roger Mudd. I hope Mr. Mudd attributed that story where it belongs. I believe where it belongs is to Sam Rayburn who instructed, I believe a then-Member Tip O'Neill, if he did not know the name of the Member walking down the hall to address him as "Mr. Chairman," and he would probably be right most of the time.

□ 1910

I would like to go back briefly to the savings and loans and in particular the Lincoln Savings and Loan Association of California Thrift, whose collapse is expected to cost us, and we are taxpayers also along with the the rest, over $2 billion.

Testifying before the House Mr. Edwin Gray, who is the director, and Shannon Fairbanks, who is chief of staff, said that by the time they left the bank board in June 1987, the agency staff had enough evidence of wrongdoing to initiate disciplinary action against Lincoln. But it has been almost 2 years before anything has happened.

Lincoln is expected to be the most costly thrift failure ever. It was never finally seized until April 1989.

Oversight after the money is spent or stolen is outrageous, just plain ridiculous. These questions beg for answers. How in the world did we get here to the HUD scandal, to the savings and loan bailout? The answer is very simple: No oversight.

The question is asked, Who is watching the store? Everybody and nobody. Everybody is involved in everbody else's business in the House of Representatives, but they are not paying attention to their own backyard.

The television commercial with the mechanic looking at an oil filter and making the statement, "You can pay me now or pay me later," was never clearer.

Congressional oversight in committee, as one sports announcer once described a slowed down basketball game, is about as exciting as artificial insemination. But the facts are that if it is not done, things get very exciting, and they turn into being scandals and problems of major proportions and major expense to the taxpayer and major expense to Congress' credibility.

The old statement, an ounce of prevention is worth a pound of cure, is never truer. We have a responsibility, we the Members of Congress, we the members of our committees, to do the oversight. And if it is not being done, to direct our chairman and ranking member to make sure that it is done. That is our responsibility here.

We have in this special order on congressional reform tried to focus on bringing Congress back to the basics, back to the basics of its responsibilities. In that interest, we the members of the Republican Policy Committee continue to dedicate ourselves to congressional reform, and will continue to pursue this as long as anyone is listening.

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore (Mrs. KENNELLY). Under a previous order of the House, the gentlewoman from Maryland [Mrs. BENTLEY] is recognized for 60 minutes.

AMERICA IN HARMS WAY

Mrs. BENTLEY. Madam Speaker, recently the American press has been deluged with headlines which appear to be part of a concerted economic attack on the United States. Although Japan is our ally, the headlines appear to tell a different story. They tell the story that America is in harms way.

I have in my hand just a small portion of the last 2 weeks of clips about Japan in our papers.

A sample of the headlines reads:

"Consumers Pay Dearly in Japan";

"Japan's Money Machine";

"Japanese Concerns Consider Ventures In U.S. Publishing";

"Japanese Buy Into Houston";

"Japanese Warm To U.S. Market in Mortgages";

"Japan's Invasion': A Matter of 'Fairness' ";

"Asian Investment Interest in California Still High";

"Japan Increases Pace of Foreign Acquisitions";

"German Touch At Sony Classical"—remember this is CBS Classical Records and now it is Sony Classical and is located in Germany and run by a German;

"Japanese to Buy 51 percent of Rockefeller Center";

"Mitsubishi No Upstart: Rockefeller Name Fits Its Image";

"Japanese Set To Send Troops Abroad Again";

"Japan Ministry Denies a Role in Market's Fall";

"Japanese Bankroll Small U.S. Firms";

"Investor in Rockefeller Center Took Risk";

"Japanese Firm May Be Seeking Bloomingdale's."

And the headlines go on—and on—and on.

This is nothing new. In July 1988 I held up the cover of International Business which showed the New York skyline silouetted in the symbol for the Japanese flag, the Rising Sun and with a caption, "Good Morning, New Tokyo" rather than "Good Morning, New York."

I also displayed a cartoon from the March 27 issue of the Los Angeles Times entitled "Morning In America." The sad part, it showed the White House and the office buildings of downtown Washington flying the Rising Sun.

It has gotten so bad that even citizens of other countries are disturbed with the sale of Rockefeller Center to Mitsubishi and Columbia Pictures to Sony.

This week I received a telephone call from France from a French citizen who cares about the United States. He was desperate. He called to ask what I thought about establishing an international fund in which anyone could

contribute to buy back the Rockefeller Center.

He said, "I am scared about the Rockefeller Center. I love America and I hate to see it being sold the way it is." He also said, "I will do anything I can to help America because your country is engaged in an economic war and I hope other Americans will join in the fight to save the United States."

This wonderful Frenchman cared enough to call and be willing to fight for this country. His remark hit home and it simply focused for me the cartoon from New York Newsday.

It showed Japanese businessmen sitting around a table with a newspaper headline—"Sony Buys Columbia" and "Mitsubishi Buys Rockefeller Center"—with glasses raised to drink a toast. The caption reads: "This land is your land! . . . this land is my land! . . from California . . . to the New York islands! . . ."

This my friends is real. We are in an economic war.

Regardless of the public relations statements about their affinity for America that have been made recently by Akio Morita, chairman of the Sony Corp., and other leading Japanese businessmen, their intentions remain the same. It is not trade as we Americans view it, but an economic war.

Magazine articles and newspaper stories have been liberally sprinkled with quotes on exactly what the Japanese game plan is. The October 16 Business Week states, "Many Japanese see Sony's move into Hollywood as an important test case of American receptivity to an expanded Japanese role in American culture."

Those intentions are also revealed in the Washington Post in a quote of Mr. Morita's that the "best investment is one that will get Americans on Japan's side."

I thought we were trading with Japan—not in conflict with them. Their actions on trade agreements and purchase of U.S. property certainly makes me wonder about their intentions. They are not purely trade, but political.

My friend, Pat Choate, vice president for policy analysis, TRW, and an expert on Japan's political influence in the United States stated in Business Week, "Morita chairs Japan's big-business committee responsible for politicking, public relations, and propaganda inside the United States. That's why the acquisition [of Columbia] is a political issue."

A recent story by Rudiger Dornbusch in the Washington Post quoted from the 1985 memoirs of Saburo Okita, a former Foreign Minister of Japan and distinguished opinionmaker on international issues.

It explained that Okita in his memoirs gave a striking clue to what drives Japan and "the feelings of those who, in 1943 already recognized the war was lost and looked ahead to the postwar challenges."

In that 1985 book, Okita wrote about that 1943 Japanese belief that "an army in uniform is not the only sort of army. Scientific technology and fighting spirit under a business suit will be our underground army. This Japanese-American war can be taken as the khaki losing to the business suits."

This is not some so-called Japanese basher but a former Foreign Minister of Japan calling this time—the one we are in now—calling this time a war which would be waged by an underground army in business suits.

Statements like these and subsequent Japanese actions have led other people to wonder about their intentions and they are speaking out. In addition to my friend Marvin Wolf, who first sounded the alarm on trade in 1983 in "The Japanese Conspiracy," there is Clyde Prestowitz who wrote "Trading Places" and Karl van Wolferen author of "The Enigma of Japanese Power."

All these books point out the differences in our two systems and the methods the Japanese are using to target our industries and to trade with us.

We have been given fair warning in these books on what to do in trade, and what the Japanese intentions are. In the August 7 Business Week, the vice president of the U.S. Chamber of Commerce, William T. Archey said, "it doesn't matter how good you are, how hard-working, how much you look at the long term, or how much you spend on R&D. A Japanese decision to buy your product is not going to be based on the market principles we're familiar with."

We need to understand that the two systems are not the same—nor are the intentions of their leaders.

Recently the Los Angeles Times took Akio Morita, chairman of Sony, to task for his arrogance in his book "The Japan That Can Say No." That book points out that we have not come to grips with the reality of our political and economic decline. In fact he, and his coauthor are not eager to have American audiences read the book.

Regardless of age, there are certain principles your parents taught you that you don't forget. I still remember at an early age my mother telling me that "if your intentions are pure, then you have nothing to be ashamed of, and nothing to hide."

Well, the same thing applies in business. Perhaps that is the reason Messers Morita and Ishihara do now want their book read by American audiences. If their intentions are pure and in friendship toward the United States then they have nothing to hide.

We certainly should question Sony's intentions on the purchase of Columbia Pictures Entertainment, Inc. In a speech on May 10, I expressed my concern for the American electronics industry if we sold Columbia and other film studios to the Japanese.

Business Week, October 16, 1989, clearly stated the case. In the article, "Why Sony Is Plugging Into Columbia" it said, "If it can navigate cultural and political shoals in the United States, Sony's music and film treasures will make it much easier for the company to sell everything from 8-millimeter video cameras to high-definition television sets."

It also stated, "But Sony's charge into the U.S. film industry was calculated against the competition in the consumer electronics industry. Although the company is revealing in brisk demand for audio and video products, would sales of these goods will grow only 4 percent a year through the turn of the century, according to Jardine Fleming Securities in Tokyo. In contrast, software such as films will continue growing 17 percent a year or more, and Sony will be on the cutting edge."

HDTV was also examined in the article. Vice Chairman of the Sony Corp. Michael P. Schulhof was quoted, the Columbia acquistion helps Sony "to the extent that maybe we can demonstrate the people the unique advantages of HDTV more easily."

He said, "Once they see it, they will be unable to return to regular television, much the same way that someone who has a compact disk cannot go back to an LP."

The article pointed out "There is only one potential U.S. manufacturer for HDTV's, Zenith Electronics Corp. and it is facing tough times. But, all these technologies are more compatible with existing American TV's than Japan's HDTV system."

Just as important are the VCR's. I have mentioned several times the opportunity the United States has to get into the double-deck VCR market and back into the semiconductor business. We have the patent and will have the only double-deck VCR, but it takes films and home video recorders to create demand for VCR's. Now we are literally putting the fox in the chicken coop with the sale of Columbia pictures.

This will assure them the way to squeeze us again out of the VCR market, semiconductors, and to undermine our electronics industry.

They will have films and the tools through electronics to shape the image of America. In fact Mr. Morita stated in his books, "If more ordinary Americans see Japan as a friend, Japan-bashers will be defeated at the polls."

Isn't it ironic that if we question Japan, we are Japan bashers but they are friends when they criticize the United States, complain about Americans spending too much. If we ques-

tion their sales we are unfair, they tell us "do as I say not do as I do." From childhood we Americans are all aware of that game. And it is a game, just as their agreements on beef and oranges have been.

We tried industriously to open up the Japanese market to American beef. Finally, we had the much-heralded agreement only to find they had purchased processing plants and set up beef operations in the United States. By the time they signed the agreement they had Japanese beef grown and processed on American soil to sell into the Japanese market under the American label.

They have also purchased orange groves so they can go through the same process of selling citrus to Japan.

Now we have the film industry going through the same process. The October 10 Washington Post carried a story that Jack Valenti, president of the Motion Picture Association of America was in Japan knocking on doors to get them to open up their markets to American films.

According to Valenti "the Japanese market, already second only to the United Kingdom with more than $100 million in annual billings for American movies, could expand by more than 10 percent if theaters added an evening show."

The secretary general of the Union of Exhibitors Association of Japan told Valenti "his members are not in a hurry to change their ways."

You can bet they will change their ways with alacrity when the Japanese own the studios.

Sure we will have Americans hired, to act, write, or produce. They will not have, based on past performances of the Japanese, the free hand to run the business.

More importantly, the money financing the business will be Japanese. Today's Wall Street Journal carries a front page story on what many of us have understood for a long time.

That is—our banks are in for an assault with the Japanese using the same tactics they have used to drive Hawaiians out of their homes—and have used in overbidding on businesses in the United States. They are cutting the price on loans so that American bankers cannot compete.

So we have Mr. Valenti conscientiously doing his job trying to open Japanese markets—only they will be Japanese-owned films with American titles. And, let me remind you they are American films that are our culture—they include Robert Penn Warren's "All the Kings Men," "Lawrence of Arabia," "Ghandi," and "The Bridge on the River Kwai."

So, they will have Japanese films; Japanese beef, grown in America; and Japanese oranges, grown in America and sent back to Japan under our trade agreements. Let me remind you, these agreements were suppose to be benchmarks in opening up the Japanese market to American business.

With the Japanese/American films added to this list, we have an added danger that puts America in harms way.

Most importantly, Hollywood films represent our culture and a piece of our soul. It also is the access directly into American homes through the networks. The films that are shown, who acts and writes will no longer operate under an American system, but the Japanese mindset.

In 1934 we passed the Communications Act to prevent our communication system from being owned by aliens who could influence us in time of war. Surely our communication system is as important to us as our airlines.

Our Secretary of Transportation is questioning the sale of airlines to foreign interests. Only 25 percent of the stock can be owned by a foreign company. I am amazed that we would sell a studio to a foreign company when we are the leaders in the world—and more importantly—it directly affects our communication process in this country.

Recently the Wall Street Journal carried a story about the number of Japanese trading companies who want to get into the entertainment business—Hollywood. One of them is C. Itoh, who illegally sold our sensitive technology to Russia to help them quiet their submarines and risk the lives of our Navy crews. They joined in with Toshiba.

Can you imagine, with the ethics they displayed, letting them make a film to be shown in our theaters and on television. More importantly, how will they treat documentaries—how will they be shaped?

Perhaps the answer is from an article "The Shadow Warriors" in Manhattan, Inc. quoting Mr. Yoshio Tersawa, the ranking Japanese member of the World Bank.

When questioned as to whether or not the Japanese would succeed here because of the peculiarity of their culture and its homogeneity he replied. "But, I don't agree with this argument at all. We are not a religious people, so we have no transcendent precepts or principles that bar us from taking whatever action is necessary. We can be terribly immoral if necessary."

Our cultural industries, the films, the print media, our drama and comedy are just part of the social glue of this country. It is how we express ourselves as Americans and is an integral part of how we shape our society.

That, combined with the effect the sale of Columbia Pictures will have on our electronics industry, both now and in the future, places America in harm's way.

We have been given ample examples of being in an economic war and the tools of war are our industries and our culture.

Americans have been unhappy for some time over the sale of America's media to foreign companies. The sale of Columbia Pictures is the straw that broke the camel's back.

We Americans buy and sell businesses. Remember the Japanese do not buy a business just to sell it in 2 or 3 years. They keep it. Our grandchildren, great grandchildren, and future generations will be on American soil watching Japanese films in Japanese-owned theaters. The Rockefellers are forever married, regardless of their agreement, to Mitsubishi.

This is not a shooting war, but an economic one. It can be just as lethal for us, attacking the American way of life—and opportunity for all of us. America is truly in harm's way. We must wise up and win this war.

□ 1930

PRESIDENT BUSH'S DISAPPOINTING FIRST YEAR

The SPEAKER pro tempore. Under a previous order of the House, the gentleman from Ohio [Mr. ECKART] is recognized for 60 minutes.

Mr. ECKART. Madam Speaker, 1 year ago today the American people went to the polls. They spoke rather decisively in what was characterized at the time and perhaps will be for some significant political period of time as a landslide victory for President George Bush and Vice President DAN QUAYLE. Since the Bush-Quayle team was sworn in on January 20, little else has happened. From the momentous occasion just a few yards from where I speak this evening in which we witnessed the President and Vice President raise their hands and swear their oaths of office, a time which has been characterized as a gentle breeze blowing across the west front of the Capitol, that breeze has really turned unfortunately very stale.

This President has squandered the most meaningful period of time that any President ever enjoys, the so-called honeymoon period allowed him by both the people and the press.

During the campaign Vice President Bush, self-described as the President's copilot, as President Reagan's soul mate, said that he was best equipped to be the President of the United States because he was prepared to hit the ground running. What George Bush did not tell the American people was that in fact we would be running in place.

What are the people saying about the Bush Presidency 1 year later? Congressional Quarterly entitled one major article, "Leadership More by

Default Than by Design, Brings Lackluster Performance on Capitol Hill."

Indeed, if we examine the commentaries made by those who observe this venerable Government of ours, members of his own party are befuddled, bewildered and frequently disappointed in Bush's performance as President.

We clearly have first and foremost an agenda gap. One of our esteemed colleagues, now a Member of the U.S. Senate, TRENT LOTT, is quoted as saying, "It's an enigma to me. I don't quite understand what the agenda is."

Another Republican, Steven Bell, former Republican Staff Director of the Senate Budget Committee, said:

He is like the captain of a ship. He can read longitude and latitude well, but he doesn't know where his port or destination is.

Outsiders hold similar views. Catherine Reuter, executive director of the American Political Science Association, said:

He is choosing not to face up to certain problems, and where he faced up to a problem he decided to go off budget.

I submit to you that President Bush as we look back on his honeymoon with the American people is hoisted on that horrible conundrum of not knowing whether to look good or do good.

Robert Samuelson in Newsweek, reprinted recently in the Washington Post, graded the first year of the Bush administration and his assessment is quite on point:

Bush's proposals have often been motivated by the crudest sort of short-term political calculus, the desire to look good or appeal to selected constituencies.

Samuelson said:

It is this triumph of showmanship over substance that leads me to give the administration's economic policies only a mediocre grade of C.

□ 1940

Clearly the inability of this administration, led by its President, to come to grips with significant matters of importance to the nation has not been lost upon those who follow us on a daily basis. The budget deficit clearly inspired with a compromise of great hurrah that clearly was much more showmanship than substance, has created its own kind of self-fulfilling prophecy.

President Bush says:

The budget agreement reminds me a lot of the individual who, after murdering both of his parents, throws himself upon the mercy of the court and pleads for mercy because he is now an orphan.

In fact, it is President Bush who, constrained by his own campaign-inspired utterances, now finds itself pleading for mercy before the court of public opinion because his wish list does not match his campaign lists.

Frankly, to my colleagues I submit that President Bush is either going to break his promises or break the bank. In Cleveland we would characterize Bush's economic performances as champagne taste with beer money.

On capital gains he proposed, once again, to raise revenues by cutting taxes for the wealthy.

On the savings and loan legislation, meritorious as it may have been, he decided to push off the accounting of that into future fiscal years with a kind of magic that says somehow that if we close our eyes the cost of it will go away. On Third World debt, the heavy cost of which stifles economic growth for other nations around the world, this administration has, in fact, advanced a plan that has met with more than tepid support, but he has refused to ask the Congress to fund it.

On inflation, the President has grudgingly let the Federal Reserve pursue a policy toward anti-inflation, but it risks high interest rates if a recession reoccurs and removes the Fed as the likely scapegoat.

On poverty and on trade, on education and on a space program, and on increased opportunities for health, this President has proposed bold new initiatives, but fails to back up those initiatives with responsible economic planning that simply says, "Yes, what we want we are willing to pay for." When push comes to shove, the issue is one of leadership, and what Robert Samuelson has to say about leadership and George Bush is quite revealing.

He says that leadership is more than a ringing phrase. It is something that people recognize and reward, even if they cannot precisely define it. This is not what we are getting from President Bush, obsessed with present popularity, and he will not take risks for the future.

That famous TV commercial so eloquently said, "He wants his Maypo, and he wants it now."

We have an agenda gap married to a performance gap. George Will said it most articulately just a few weeks ago:

His unserious Presidency has given "flippant" responses to his serious questions have become an administration specialty.

The Secretary of State has rejected criticism of a particular policy because the administration is rocking along with a 70-percent approval administration. George Will said simply that the symbol of this administration should be a wetted finger held up to the breezes.

George Will continued:

It is said that Bush's Presidency is one of good intention, but that it is a bit careless about connecting the ends with the means. That criticism is too kind. The administration's airy words are not as substantial as its serious intentions. When there is a pattern of willing ends without willing means, it is reasonable to conclude that the ends are not willed at all.

In today's Wall Street Journal, the president of MIT, Paul Gray, said:

This is a time in which a caretaker President would be a disaster for the Nation. Hitting the ground running is not the same as running in place.

Even the Heritage Foundation's Stuart Butler said:

The idea he has to have a year to find his feet is charitable to the extreme, because as we have discovered, wherever George Bush looks for his feet, they are frequently planted on both sides of an issue.

Let us look at his analysis about Poland. Many of us remember, some as children 30 years ago, the hesitancy of Dwight Eisenhower in that first uprising in Hungary to act, criticized by some, applauded by others, and he nonetheless had the opportunity to act, but chose not to. In effect he made a decision about the future of Eastern Europe. George Bush sits on the sidelines idly watching the parade of democracy sweeping through Eastern Europe and subsequently waving his American flag. As appropriate as that may be, convening a summit of allies and requiring that they take the initiative at the time when the strongest democracy in the world says, "My gosh, we are happy what you do, but don't ask us for any help," is the height of cynicism.

Lewis Preston, chairman of J.P. Morgan, perhaps put it in a unique perspective. He said:

It is a disappointment to a lot of us that the honeymoon period wasn't used to come to grips with the deficit problem. Mr. Bush's first year was the golden opportunity to deal with the deficit, and he fumbled.

Stu Eizenstat stated incisevely that the purpose of a President having popularity is so that he can effectively tackle the issues, difficult issues, and only Presidential leadership can tackle the budget deficit, and it has not been forthcoming.

We have an agenda gap. We have a performance gap. We have a President of empty promises, promising to be the education President, at the same time providing less funds, one eight-hundredths of the cost of a manned flight to Mars, gives no vitality to his vision.

Speaking of space, he designates his Vice President, who just having served 10 months as Vice President, Mr. Bush feels compelled to reaffirm his confidence in him as if for 10 months the Vice President has done nothing to merit his own expressions of confidence among the public.

In calling for establishment of a manned outpost on the Moon and sending an astronaut to Mars was the clear discovery that in asking for the Moon and delivering the American people cheese, he has once again failed to give any vitality to his vision.

We all remember vividly 375 days ago the repeated commercials of that awful scene of Boston Harbor. "Yes, vote for George Bush and, in fact, we will have an environmental Presi-

dent." One year later it is the environmental President who gags and muzzles the Administrator of the EPA and refuses to allow him to come to grips with one of the most threatening dangers to the environment, global warming.

What is it that the environmental President is against? Why, he is against sitting down to even talk about the problem? We have become the only major Western power to oppose an international convention to negotiate a global warming treaty.

The mixed signals of this administration would sometimes lead us to believe that we are more adept at running one of those famous Eastern European telephone systems; we know the kind, and that is where if you can dial a number, you often get the wrong party.

The administration was embarrassed when Health and Human Services Secretary Louis Sullivan endorsed a plan to revise catastrophic health only to have Budget Director Richard Darman overrule him that very same day. EPA Administrator William Reilly, before our committee's markup, said he opposed an amendment to the President's Clean Fuel, Clean Air Act proposal, while Chief of Staff in the White House John Sununu told another that the administration really was neutral on the amendment.

We have discovered that there are, indeed, perhaps too many cooks in the Bush kitchen but not enough folks following the recipe. The difficulty that this President clearly has is that in some circumstances we have too many cooks not following any recipe. We have no recipe for meals not yet planned, and if we did have a cook and the right recipe and a meal, there is no one to serve it to the people who want it.

□ 1950

We find a dozen meetings characterized, on the advancing of education in this Nation, characterized by the President's own drug czar, William Bennett, as pap. We find serious proposals being characterized by some in the administration as the failure to come to grips with reality. It is really a Presidency thus of only good intentions.

I submit to my colleagues and the country that this decade began with a simple campaign promise, a promise which said that they were going to get Government off your backs. In reality they want to place Government in your bedrooms.

It was an administration very simply that said Government was part of the problem, and 9 years later we find ourselves unable to govern because we are beseiged with an administration that has in some of the most key Government departments less than half of the staff in place. It is an administration that proposes to manage without managers.

So what ultimately happens? The test of all the rhetoric is obviously in performance, and the measure of performance is to contrast with the promises of what you said you were going to do, and the evaluation of that performance ultimately is in the voters' reaction to the final product.

From California through Texas, down into the heart of Mississippi and Alabama, up into Virginia, New Jersey and New York, the great State of Indiana and back again to Texas, in the absolute caldron, the crucible of where ideas and ideals are tested before the fire of political analysis is the ballot box, and in each one of those States, almost all of which President Bush and DAN QUAYLE, a scant 365 days ago rode through in triumphant victory, different candidates won. It was a startling victory in New Jersey, a State that President Bush just 365 days ago carried with almost 60 percent of the vote, turning around by a margin of 2 to 1 and defeating George Bush's hand-picked, hand-solicited candidate for Governor. And right across the mighty Potomac River, the bastion in some respects of conservative political thought, the State of Virginia, a State that Bush and QUAYLE carried so decisively just a short 12 months ago, a black Democrat was elected Governor at a time when Vice President QUAYLE and President Bush invested mightily the resources of the Republican Party and their personal appearances to change that outcome. And the special elections held in conservative southern districts, districts that have been targeted for political defeat by the master magician of mud slinging, Lee Atwater, George Bush and DAN QUAYLE having emerged victorious just 52 weeks ago, lost time and time again.

So we are not talking here about a poll of 200 or 300 adults scattered all across the Nation. We are talking about the crucible of politics, the ballot box, in which the program and platform, if in fact it is discernible, of this administration was tested, and in each of those tests, 9 times out of 11, the Bush-Quayle administration was found wanting.

What are the American people led to believe from last night's results when contrasted with last year's returns? For me it simply means that individuals always will be tested against each of their respective opponents. Clearly as we looked at the opponents fielded by the Republican Party, extensively supported by their vast financing schemes with the best mud slingers that money can buy, their campaign performances were abysmal.

In the heart of Dixie, an arena that Lee Atwater has cultivated so aggressively, they lost in districts that they had just won less than a year ago. And one of the main goals of Lee Atwater's ascendency to the chairmanship of the Republican National Committee was to appeal to blacks to join the Republican rising tide.

Oh, yes, many blacks joined the rising tide of political fortune. It was black leadership emerging victorious in Detroit, Cleveland, Virginia, the Northwest and New York, understanding full well that the capital gains proposals which so epitomize the fundamental economic premise of this administration, and that is a rekindling of trickledown economics, was really not in their best interests.

No, Madam Speaker, the lessons of the last 12 months are not lost on many of us. The test of performance in delivering the governance of this Nation is not a Presidency of photo opportunities. It is a Presidency that performs. It is an administration that is willing to back up the tough words with tough decisions. It is an administration that is willing to say to the American people that I am willing to put my money where my mouth is.

So far the only kind of lips that we have been able to read from President Bush has been the lip service he has paid to the best hopes and aspirations for all Americans.

Madam Speaker, I yield back the balance of my time.

THE MALCOLM BALDRIGE NATIONAL QUALITY AWARD

The SPEAKER pro tempore (Mrs. KENNELLY). Under a previous order of the House, the gentleman from Pennsylvania [Mr. RITTER], is recognized for 60 minutes.

Mr. RITTER. Madam Speaker, last Thursday President George Bush announced this year's winners of the Malcolm Baldrige National Quality Award at the Department of Commerce.

They are Xerox Corp., and Milliken & Co.

Xerox turned around by turning to quality and Milliken is at the top of the hotly competitive global textile market.

I offer my warmest congratulations to David Kearns, chairman and CEO of Xerox, and to Robert Milliken, chairman and CEO of Milliken, and Tom Malone, president of Milliken. I offer my warmest congratulations to Milliken's "associates" and members of team Xerox!

In President Bush's words:

In 1989, there can be no higher standard of quality management than those provided by the winners of the Malcolm Baldrige National Quality Award—Milliken & Co., and the Xerox Corp.

Beyond the recognition of these two progressive companies, the President put his administration firmly behind the quality revolution.

He said:

The improvement of quality in products and service is a national priority as never before. In recent years, American have felt the sting of fierce new competition on a global scale. And we have learned to see foreign competition—not as an excuse to close doors and raise protective barriers—but as an incentive to renew our commitment to excellence.

□ 2000

And working with the President, we have a committed leader for quality, Secretary of Commerce Robert Mosbacher, and a staff in Commerce dedicated to the acceleration and expansion of the quality revolution throughout America.

Quality: As those who engage in it know well, the term quality with a capital Q refers to a whole new management and work philosophy, based ultimately on common sense and a belief in the value of individual workers fulfilling their potential as members of a larger team—a veritable worker revolution.

Quality puts less emphasis on directly cutting costs to increase profits and instead focuses on improving the whole process by which a product is manufactured or a service is delivered.

Perfecting the process perfects the product—a stunning conclusion, albeit simple.

The prime goal is to empower people to be active players, not cogs in a machine.

Workers become their own best managers. That's revolutionary.

Constant improvement is built into the process which delivers products or services that more and more meet customers' needs and expectations.

As American companies turn to the quality revolution, they experience competitive success at home and abroad.

The Malcolm Baldrige National Quality Award is the single most important quality program involving the Federal Government.

Privately funded and jointly administered by the Federal Government and the private sector, it's a true public/private collaboration.

The first set of winners was announced last year, and the consequences have been significant.

For example, it is great to see the latest Business Week run a cover story on Motorola, a Baldrige Award winner from last year; to open Time magazine and read a major story on quality and the Baldrige Award.

Motorola's suppliers have been told that they must apply for the Baldrige Award or lose Motorola's business. That is about 2,500 companies.

IBM is doing the same thing. That is many thousand companies more.

Thus the Baldrige Award helps spread the quality revolution throughout our country.

That Motorola and IBM are requiring their suppliers to apply for the Baldrige Award is a tribute to the quality of the application and the process itself.

And for that I want to commend the Commerce Department and Dr. Curt Reimann, the Associate Director for Quality Programs of the National Institute of Standards and Technology.

Dr. Reimann has done an excellent job helping industry develop rigorous award criteria and in making the process of applying a real learning experience for the companies involved.

That's why Motorola wants its suppliers to apply for the Baldrige Award—for what it teaches them about where they are and where they need to be in achieving quality.

Currently Dr. Reimann and his three-person staff are dealing with about one thousand requests per week for Baldrige Award applications.

He receives some great assistance from volunteers, but, Madam Speaker, we need to get Dr. Reimann some more full-time help.

There are not many programs in the Federal Government where so few people are doing so much good for so many at such a low cost.

That is quality in action.

The private sector representatives who have created the award also deserve a lot of credit.

That's quality in action.

Before long, I hope that the Baldrige Award will rival the Nobel Prize in capturing the imagination of the American people.

Given the times in which we live and the challenge of global competition, I feel strongly that the Baldrige Award is the more important of the two.

We in Congress must do all in our power to focus national attention on it. It can be a strong, motivating force in establishing a culture of quality in the United States.

The Japanese have shown us what a culture of quality can do.

We've seen Japan redefine work, manufacturing and service and rise to economic superpower status.

Yet not enough Americans understand that the main driving force behind this success is Japan's almost 40-year commitment to quality principles invented here and refined there.

The Japanese have honored an American, W. Edwards Deming, one of the pioneers of the quality revolution, by naming their top quality award the Deming Prize.

I understand that they take the competition for the Deming Prize as seriously as we take the competition for the Super Bowl.

Madam Speaker, that enthusiasm, that team spirit is at the heart of the quality revolution.

This year, for the first time ever, an American company, Florida Power and Light, has won the Deming Prize in Japan.

In congratulating this year's Baldrige Award winners, it's appropriate that we also commend Florida Power and Light and its CEO, John J. Hudiburg.

Mr. Hudiburg just happens to be a director and trustee of the Foundation for the Malcolm Baldrige National Quality Award and a bona fide true believer in the quality revolution.

Quality and competitiveness in America: Quality embodies the need for America to focus on the work process—on manufacturing and production as the prime producers of national wealth—and on the growing service sector which is in such need of a revolution in quality.

We must build a world-class industry that is at the leading edge of technology, manufacturing and services which can compete with anyone, anywhere.

As a Congress, our instinctive response to global competition is to put more money into R&D, encouraging innovation and invention, to deal with trade issues or budget issues or tax issues.

But innovation and invention, important as they are, by themselves are simply not enough.

Our recent problems in competitiveness have never been associated with the level or quality of our basic science and technology research. We consistently win the bulk of the Nobel Prizes.

Instead, we have had trouble turning our science and our technological innovations, which should give us a leg up on the competition, into competitive products.

Our competitors in Japan and, to some extent, in Europe and now in a number of emerging industrial powers in Asia have been able to integrate their R&D into an accelerated product cycle that brings to market new technology and new machines and products across the whole spectrum of high-value-added manufactures.

And when we have brought products to the market ahead of the competition, we have later often lost part or all of those markets as our competitors used quality principles—particularly continuous improvement—patiently, well capitalized, and over many years—to catch up, overtake and pass us.

All too often we strive for the big breakthrough, the leap that will bring a completely new product to the market.

But our competitors understand that the best new products more often come from the process of continuous improvement of existing products which is essential to total quality management.

As Nippon Electronic Corp.'s research director Michiyuki Uenohara said in a recent Business Week story,

"For the Japanese, innovation is 'the result of tiny improvements in a thousand places.' "

□ 2010

That really is the story of Japan's success in TV, VCR's, FAX machines, Autos and the list goes on. The President described continuous improvement well last Thursday when he said at the Commerce Department "Perfection is not reaching the attainable. Rather it is a never-ending quest for the unattainable."

Indeed, quality is a never-ending quest that pays dividends all along the way.

Madam Speaker, to secure America's position in this competitive world, we in Congress must do at least as much to promote quality as we do promote R&D, tax incentives, regulatory reform, and deficit reduction and trade limitations.

But how can Congress help? Congress can help put more tools out there to help companies who want to turn to quality.

First, Congress can provide enthusiastic support for the Malcolm Baldrige Award.

I recommend that we hold congressional hearings on the winners and on the meaning of the Baldrige Award application process as well as the award itself, to workers, companies, and our country. We can give greater logistical support to those who coordinate the Baldrige Award, over at the Department of Commerce. Congress can focus more on National Quality Month, which just ended.

This month, sanctioned by the U.S. Congress and the President of the United States, provides a period of national focus to individuals, organizations, and community activities on behalf of the quality revolution in America.

Members of Congress have recently asked for a GAO study.

At my request and with the backing of about 30 of my colleagues, the GAO is undertaking an empirical study assessing the impact of formal quality programs on the productivity and profitability of American companies, a kind of bottomline approach to give members the kind of hard information we need to supplement what has been today mostly an anecdotal information.

Members of Congress can authorize a National Quality Institute.

This potentially private-sector funded institution would help coordinate those players in the private sector who are deeply involved in quality to define priorities and procedures for spreading the revolution. We can coordinate that effort of a National Quality Institute in the way we coordinate nationally the Malcolm Baldrige Award.

Members of Congress can foster regional quality movements.

We can help form communities of excellence in our own districts. These are regional efforts involving key business and labor leaders that could help us all. I know from personal experience with "Quality Valley, USA" in my own congressional district the Lehigh Valley of Pennsylvania. How rewarding these can be.

In conclusion we have a wonderful tool to promote quality in America in the Malcolm Baldrige National Quality Award.

It recognizes those companies who are leading America into the quality revolution.

Recognition is the mother's milk of progress in quality.

Last year's winners were: Motorola, Globe Metallurgical, and Westinghouse Commercial Nuclear Fuel Division.

To this honored list now are added: Xerox and Milliken and Co. The standard is so high that while six companies can receive the Malcolm Baldrige Quality Award, only three companies received it last year and two this year.

President Bush put it well at the Baldrige Award ceremony last week when he said "Quality products and service are no accident. It is the result of a certain can-do, no excuses attitude—an aggressive impatience with the status quo—even in the best of times. It is this attitude, more than anything else, that is responsible for the creation of wealth and jobs we have seen in the last 7 years."

The President is right on target.

The Baldrige Award winners have shown the way to all America.

All of us can be very proud of them and we can do our best to get U.S. companies to emulate them.

At this point, Madam Speaker, I'd like to introduce for the RECORD the very special remarks of the President of the United States in announcing the 1989 Malcolm Baldrige Award winners.

REMARKS OF PRESIDENT GEORGE BUSH

((Acknowledgements to come.))

In just a few moments, it will be my pleasure to present awards named after a great public servant and a very close and dear friend—the late Malcolm Baldrige.

So let us begin then with a few words about Mac. He had a zest for life, a love of family and a love of country that was uncommon. He was an outstanding Secretary of Commerce for six and a half years. And he was also an outstanding friend: Mac's word of honor was as good as a twenty-dollar gold piece.

But he never quite fit any mold. This was the President of a successful company who spent a lot of his time with volunteer firemen. This was a son of the East who rode horses and loved his place in New Mexico. He felt at home with cowboys, because he roped with them all his life.

You would never have known it from his friendly, easy-going manner, but Mac was also a perfectionist, in word and deed. As a leader in business, Mac strived for quality in products; as Commerce Secretary, for quality in public policies. Even the language of his memos was lean and exact. ((In fact, Mac had a special computer software program for Commerce Department documents; one that automatically weeded out jargon words like "impacted," "viable" and "infrastructure". It was a sort of Gramm-Rudman cut of the English language.))

Yet, like all perfectionists, Mac Baldrige knew that perfection is not reaching the attainable. Rather, it is a never-ending quest for the unattainable. His life was such a quest, a life whose legacy leaves us with a profound insight: A truly successful man or woman is someone who has served others.

Companies, like people, are successful only to the extent to which they provide service. This is true for all business, from the humblest mom-and-pop operation to the largest corporation.

American managers have reconsidered every time-honored belief, every traditional practice, every customary procedure. They have embraced what works, and rejected the rest. They have studied examples of innovation from home and abroad, and adopted only the best. And we now know the result of this historic reassessment: When it comes to meeting the competition, America is back in business.

We are here today to honor two companies that are leading this resurgence in American business leadership. Most companies catch hell from the competition. But these two companies are in the lead because no competitor gave them a tougher time than they gave themselves.

Of course, in business, success is its own reward. Yet all American firms benefit by having a standard of excellence to match and perhaps, one day, to surpass. For in 1989, there can be no higher standard of quality management than those provided by the winners of the Malcolm Baldrige National Quality Award—Milliken & Company and the Xerox Corporation.

Both of these manufacturing firms were well-established leaders in their markets. Yet both were being steadily squeezed out by intense foreign and domestic competition. In the midst of this crisis, the men and women of these companies found within themselves the will to make a painstaking reassessment and the drive to win back their share of the market.

Both companies started down this path of reassessment with a simple premise: in business, there is only one definition of quality—the customer's definition. And then they proceeded from this one premise to restructure their production and marketing plans. Sounds simple. But I know, as a former businessman myself, how difficult it is to restructure a firm, top-to-bottom.

Today's winners know what is possible when a firm restructures itself from the bottom up. They know that a company can no longer afford to regard employees as automatons in a production line. They know that a company must rely on the intelligence, judgment and good character of the people it employs.

There are as many successful forms of management as there are successful companies. But for these two companies, success came when they developed their human, as well as their technological, potential.

Milliken, for example, is a 124-year-old textile manufacturer in South Carolina. But it's management style is sheer 21st Century. Milliken scrapped the old management hier-

archy in favor of what they call a "flat management structure." (Good thing they're not a tire company.) Milliken even gave a new title to its employees, calling them "associates." This is no hollow accolade from public relations. Every Milliken employee truly is an associate. In fact, any Milliken worker has the power to halt the production line if he or she detects a problem in quality or safety.

Our other winner takes a similar approach with its Team Xerox philosophy. Xerox employees are given the authority they need to make day-to-day decisions. They are, the company says, expected to take the initiative in finding and fixing problems. And they do. While every manager works, every worker is managing.

One of the best things about this award is that it allows successful companies to share what they have learned to set an example. (Perhaps these two companies should merge. Can you imagine it? Your wardrobe wouldn't just be coordinated; it would be collated.)

Many firms will learn a great deal from their example. Others will need to follow their own path. But to those who say that we have lost our edge, that the days are past when "Made in America" meant "the best"—I say: Tell that to the people of the Milliken plant in Spartansburg. Tell that to the Xerox teams in Monroe County, New York.

Quality products and service is no accident. It is the result of a certain can-do, no-excuse attitude—an aggressive impatience with the status quo—even in the best of time. It is this attitude, more than anything else, that is responsible for the creation of wealth and jobs we have seen in the last seven years.

In these years, our total national wealth has grown by almost a third. We have created more than twenty million new jobs. And we are still enjoying the rewards of what has proven to be the longest peacetime economic expansion in American history.

Given the right policies—and a reduced capital gains tax would certainly be one—this expansion will continue. And given the right tools, the American people can reach even greater heights. The potential of this nation is as boundless as the imagination and drive of the American people. All we have to do for our citizens is what these two companies have done for their employees—give them the freedom to do what they do best. Freedom to imagine. Freedom to create. Freedom to excel.

Our winners had such freedom, and they made the most of it. I give my heartiest congratulations to them. Thank you, God bless you and God bless America.

Mr. HOUGHTON Mr. Speaker, the Baldrige Award stands for quality—the quality that raises people and attitudes to new heights—even above themselves.

Mac Baldrige stood for quality. He was quality. May we all follow in whatever we do where he has led the way.

Mr. BOEHLERT. I want to join my colleagues in congratulating the winners of this year's Malcolm Baldrige National Quality Award and in drawing attention to the importance of quality control. I greatly appreciate my colleague, DON RITTER, arranging this special order.

The ancient Greeks told the story of Demosthenes, scouring the countryside, lantern in hand, seeking out the honest man. In recent years, Americans searching for domestic companies putting out the honest product have often felt themselves on a similarly lonely and fruitless quest.

Quality assurance came to be a trait associated with our foreign competitors—competitors, who, ironically, were applying the rules of the pathbreaking American quality experts Edwards Deming and Joseph Juran.

Slowly, this is changing, and the Malcolm Baldrige Quality Award is one sign of that happy transformation. American firms are reawakening to the need for quality control. They have rediscovered an old axiom: quality sells.

The impact of the award, now in only its second year, has already surpassed what we envisioned when we introduced the bill creating it.

Companies are putting an impressive amount of time and effort into quality audits, and are enforcing quality principles on their suppliers.

Progress may be slow—several categories for the award are still not eliciting successful proposals—but progress is being made.

This year's winners, Milliken & Co., a textile firm, and the Xerox Corp. deserve our admiration and our applause—and our purchases.

Now, if the award works as it should, more companies will be weaving Milliken's practices into their own production and copying Xerox's successes. I look forward to having more winners next year. Thank you.

Mr. WALGREN. Mr. Speaker, I join my colleagues in congratulating the winners of the second Malcolm Baldrige National Quality Award—Milliken & Co. and Xerox Corp.'s Business Products and Systems—two manufacturing companies that are living proof that pursuit of the highest quality does pay off.

As you know, the award was established by the Malcolm Baldrige National Quality Improvement Act of 1987 (Public Law 100-107), which was named after the late Commerce Secretary Malcolm Baldrige, and originated in the House Subcommittee on Science, Research, and Technology. I introduced the bill which became Public Law 100-107 and chaired hearings on promoting quality improvement in each of the last three Congresses.

Our idea was to establish an award which would help instill pride in quality manufacturing and services in the same manner that the Deming Prize has done in Japan. The Deming Prize rewards Japanese companies which do the best job of instilling quality throughout their organizations. This is the highest honor that a Japanese company can receive. The man and woman on the street in Japan knows who won the Deming Prize just as the average American knows who won the Superbowl. They have new respect for the winners, who may use the award in their advertising.

By the way, I am very pleased to report that this year's Deming Prize Committee made a special award to Florida Power & Light Co., the first American company ever to win the coveted prize. This is especially pleasing to me because Chairman John Hudiburg of Florida Power & Light was instrumental both in the establishment of the Malcolm Baldrige National Quality Award and in the fundraising that has permitted the award to gain prominence in 2 short years.

Why do we find this award to be so important? Because it recognizes that quality in every aspect of the commercial enterprise is the key to international competitiveness and national business success. The pursuit of continuous improvement is the only way U.S. companies can compete in international markets. I hope that this year's winners will consider adopting the example set by last year's awardees and urge their suppliers to compete for the award. Winning the prize was only part of the process.

Mr. Speaker, I am pleased that the Congress has taken the time to highlight this important back-to-quality movement and to honor the companies which are its leaders. We must do all we can to help spread the word so that "Made in the U.S.A." will become a standard of quality and excellence.

Again, I extend congratulations to the 1989 recipients of the Malcolm Baldrige National Quality Award—Milliken & Co. and Xerox Corp.'s Business Products and Systems.

Mrs. MORELLA. Mr. Speaker, Isaac Newton once said: "If I have seen farther it is by standing on the shoulders of giants."

The winners of this year's Malcolm Baldrige National Quality Award have truly "seen farther." Using their offices and their personnel as "giants," they have made tremendous strides forward toward meeting the challenge of providing high-quality, world-class goods and services that will help America keep its share of the world market as we move toward the 21st century.

As the Presidential proclamation states, improving quality takes time and resources. The two awardees who are being honored with this award, Roger Milliken of the Milliken & Co., and David T. Kearns of Xerox Corp. have given their time, effort, and dedication to the goal of excellence. The honor does not come easily, for I understand that they have survived a competition that involves about 400 hours of analyses and on-site inspections by teams of private sector examiners and judges. This sort of scrutiny should bring out many examples that will help other individuals, businesses, or industries to make improvement. I hope that these details of success will be shared with other companies.

May I also add my congratulations and thanks to Dr. Curt Reimann, who is associate director for quality programs of the National Institute of Standards and Technology. I understand that Dr. Reimann has been working with only a three-person staff, despite the thousand requests per week just for the Baldrige Award applications, not to mention being responsible for administering the program. This, in itself, should perhaps be deserving of a special Malcolm Baldrige miniaward.

I am proud to join in congratulating the recipients of this prestigious award and to all who are working behind the scenes to spread the word about American productivity and quality.

Mrs. JOHNSON of Connecticut. Connecticut's own Malcolm Baldrige was one of the finest people I have ever known. The former Secretary of Commerce was famous for his non-nonsense approach to work and his tragic

death 2 years ago brought a premature end to a life dedicated to quality.

I am proud that Mac Baldrige's extraordinary commitment to quality and efficiency is memorialized in the Baldrige Quality Awards, given to businesses that demonstrate a singular pursuit of excellence. I had the honor of being a guest recently as President Bush presented the 1990 awards.

Mac was a very unique and dedicated individual. He was a graduate of Yale University in New Haven, as well as an avid rodeo fan and participant. He was named the Professional Rodeo Man of the Year in 1980, and was installed in the National Cowboy Hall of Fame in 1984. Mac will be remembered by many different people for his many diverse accomplishments, but he will no doubt be remembered most for his exceptional work as Secretary of Commerce.

Mac played a major role in developing and implementing administration trade policy. He was a maverick in resolving difficulties over technological transfers with China and India, and staged the first Cabinet level talks with the Soviets in 7 years, paving the way for American firms to enter the Soviet market.

He was the motivating force behind the administration's effort to pass the Export Trading Company Act of 1982, and President Reagan named him the chairman of the "Trade Strike Force," who's job it was to search out and develop methods to eliminate unfair trading practices.

While at the U.S. Department of Commerce, Mac Baldrige was able to reduce the Commerce budget by 30 percent and administrative personnel by 25 percent. A remarkable commitment to efficiency and quality is evident throughout his professional and personal life. After serving in combat as captain of the 27th Infantry in the Pacific during World War II, Mac began his career in manufacturing. Starting as a foundry hand, he progressed steadily and in 1960, only 13 years later, he became president of the company. He was later named chairman and chief executive officer of Scovill Inc. of Waterbury, CT. He joined the company in 1962, and is credited with transforming it from a troubled brass mill to a highly diversified manufacturer of consumer, housing, and industrial products.

Mac Baldrige's managerial excellence was evident throughout his years as a leader in the private sector and enabled him to improve the economy, efficiency, and effectiveness of government. His service as Secretary of Commerce was one of the longest in history, and raised the Department to a new height of influence and importance. Mac was one of the most colorful and beloved men ever to serve in the Cabinet of the United States of America. His life should serve as an inspiration to us all to strive to fulfill our greatest potential.

GENERAL LEAVE

Mr. RITTER. Madam Speaker, I ask unanimous consent that all Members may have five legislative days within which to revise and extend their remarks and include therein extraneous material on the subject of my special order today.

The SPEAKER. Is there objection to the request of the gentleman from Pennsylvania?

There was no objection.

LEAVE OF ABSENCE

By unanimous consent, leave of absence was granted to:

Mr. TALLON (at the request of Mr. GEPHARDT), for today, on account of personal business.

SPECIAL ORDERS GRANTED

By unanimous consent, permission to address the House, following the legislative program and any special orders heretofore entered, was granted to:

(The following Members (at the request of Mr. Goss) to revise and extend their remarks and include extraneous material:)

Mr. SCHULZE, for 5 minutes, today.
Mr. BOEHLERT, for 5 minutes, today.
Mr. DORNAN of California, for 5 minutes, today.
Mr. MCEWEN, for 5 minutes, today.

(The following Members (at the request of Mr. CONDIT) to revise and extend their remarks and include extraneous material:)

Mr. TORRICELLI, for 5 minutes, today.
Mr. WISE, for 5 minutes, today.
Mr. STARK, for 5 minutes, today.
Mr. ANNUNZIO, for 5 minutes, today.
Mr. GEPHARDT, for 5 minutes, today.
Mr. WOLPE, for 60 minutes, on November 16.

EXTENSION OF REMARKS

By unanimous consent, permission to revise and extend remarks was granted to:

Mr. WILLIAMS to revise and extend remarks following Mr. MARLENEE on Montana birthday.

(The following Members (at the request of Mr. Goss) and to include extraneous matter:)

Mr. SAXTON in two instances.
Mrs. MORELLA.
Mr. GREEN.
Mrs. ROS-LEHTINEN.
Mr. GEKAS.
Mr. LAGOMARSINO in three instances.
Mr. GALLO.
Mr. GOODLING.
Mr. ROWLAND of Connecticut in two instances.
Mr. COX.
Mr. CLINGER.
Mr. RINALDO.
Mr. BEREUTER.
Mr. IRELAND.
Mr. HOUGHTON.
Mr. SCHAEFER.
Mr. PORTER.
Mr. LOWERY of California.
Mr. LEWIS of Florida.

(The following Members (at the request of Mr. CONDIT) and to include extraneous matter:)

Mr. SKELTON.
Mr. GAYDOS in two instances.
Mr. MAZZOLI.
Mr. HAMILTON.
Mr. COLEMAN of Texas.
Mr. UDALL.
Mr. RANGEL.
Mr. MCMILLEN of Maryland.
Mr. MATSUI.
Mr. TORRES.
Mr. MORRISON of Connecticut.
Mr. LANTOS.
Mr. LAFALCE.
Mr. ACKERMAN.
Mr. TRAFICANT in two instances.
Mr. DIXON.
Mr. DOWNEY.
Mr. LEHMAN of Florida.
Mr. EDWARDS of California.
Mr. MURTHA.
Mr. MANTON.
Mr. LIPINSKI.
Mr. ENGEL in two instances.

SENATE BILL REFERRED

A bill of the Senate of the following title was taken from the Speaker's table and, under the rule, referred as follows:

S. 84. An act to amend title 28, United States Code, to provide Federal debt collection procedures; to the Committee on the Judiciary.

ENROLLED JOINT RESOLUTION SIGNED

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee had examined and found truly enrolled a joint resolution of the House of the following title, which was thereupon signed by the Speaker:

H.J. Res. 280. Joint resolution increasing the statutory limit on the public debt.

SENATE ENROLLED JOINT RESOLUTION SIGNED

The SPEAKER announced his signature to an enrolled joint resolution of the Senate of the following title:

S.J. Res. 215. Joint resolution acknowledging the sacrifices that military families have made on behalf of the Nation and designating November 20, 1989, as "National Military Families Recognition Day."

JOINT RESOLUTION PRESENTED TO THE PRESIDENT

Mr. ANNUNZIO, from the Committee on House Administration, reported that that committee did on this day present to the President, for his approval, a joint resolution of the House of the following title:

H.J. Res. 280. Joint resolution increasing the statutory limit on the public debt.

EXPENDITURE REPORTS CONCERNING OFFICIAL FOREIGN TRAVEL

ADJOURNMENT

Mr. RITTER. Madam Speaker, I move that the House do now adjourn.

The motion was agreed to, accordingly (at 8 o'clock and 16 minutes p.m.) the House adjourned until tomorrow, Thursday, November 9, 1989, at 10 a.m.

Reports and amended reports of various House committees concerning the foreign currencies and U.S. dollars utilized by them during the second and third quarters of 1989 in connection with foreign travel pursuant to Public Law 95-384 are as follows:

AMENDED REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON ARMED SERVICES, U.S. HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN APR. 1 AND JUNE 30, 1989

Name of Member or employee	Date		Country	Per diem [1]		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]
Visit to Colombia, Peru, Bolivia, and Brazil, Mar. 27 to Apr. 3, 1989:											
Hon. H. Martin Lancaster	3/27	3/29	Colombia		50.00						50.00
	3/29	3/30	Peru		378.25						378.25
	3/30	4/1	Bolivia		77.00						77.00
	4/1	4/3	Brazil		92.73				61.96		154.69
Commercial transportation							3,932.00				3,932.00
Visit to Portugal, Greece, and Cyprus, Mar. 24 to Apr. 1, 1989:											
Delegation expenses	3/27		Greece						981.39		981.39
Visit to United Kingdom, France, and Netherlands, Apr. 4–8, 1989:											
Delegation expenses	4/4	4/5	United Kingdom						150.27		150.27
Visit to France and United Kingdom, Apr. 20–24, 1989:											
Delegation expenses	4/20	4/23	France						3,320.00		3,320.00
	4/23	4/24	United Kingdom						3,661.42		3,661.42
Visit to Turkey and Spain, May 26–30, 1989	5/28	5/30	Spain						3,433.00		3,433.00
Visit to France, June 7–13, 1989:											
Delegation expenses	6/7	6/13	France						17,037.30		17,037.30
Visit to France, June 8–13, 1989:											
Delegation expenses	6/18	6/13	France						13,300.64		13,300.64
Committee totals					597.98		3,932.00		41,945.98		46,475.96

[1] Per diem constitutes lodging and meals.
[2] If foreign currency is used, enter U.S. dollar equivalent; if U.S. currency is used, enter amount expended.

LES ASPIN, Chairman, Oct. 31, 1989.

AMENDED REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON ARMED SERVICES, U.S. HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JULY 1 AND SEPT. 30, 1989

Name of Member or employee	Date		Country	Per diem [1]		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]
Visit to West Berlin and Soviet Union, Aug. 6–18, 1989:											
Hon. Bob Stump	8/6	8/7	West Berlin		190.00						190.00
	8/7	8/15	Soviet Union		1,280.00						1,280.00
Military transportation							536.08				536.08
Commercial transportation							3,319.81				3,319.81
Hon. John Kasich	8/6	8/7	West Berlin		150.09						150.09
	8/7	8/18	Soviet Union		1,739.00						1,739.00
Military transportation							1,026.33				1,026.33
Total					1,889.09		1,026.33				2,915.42

[1] Per diem constitutes lodging and meals.
[2] If foreign currency is used, enter U.S. dollar equivalent; if U.S. currency is used, enter amount expended.

LES ASPIN, Chairman, Nov. 2, 1989.

REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON ARMED SERVICES, U.S. HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JULY 1 AND SEPT. 30, 1989

Name of Member or employee	Date		Country	Per diem [1]		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]
Visit to Soviet Union, July 2–9, 1989:											
Hon. John M. Spratt, Jr	7/2	7/9	Soviet Union		900.00						900.00
Commercial transportation							1,505.00				1,505.00
Visit to Guatamala, El Salvador, and Nicaragua, July 28–30, 1989:											
Hon. Jon Kyl	7/28	7/29	Guatamala		149.00						149.00
	7/29	7/29	El Salvador								
	7/29	7/30	Nicaragua		95.00						95.00
Military transportation							1,127.18				1,127.18
Visit to Pacific, August 2–20, 1989:											
Hon. Robert K. Dornan	8/7	8/8	Kiribati		116.00						116.00
	8/8	8/9	Fiji		231.25						231.00
	8/8	8/9	Western Samoa		150.00						150.00
	8/10	8/11	New Caledonia		187.00						187.00
	8/11	8/12	Vanuatu		190.00						190.00

REPORT OF EXPENDITURES FOR OFFICIAL FOREIGN TRAVEL, COMMITTEE ON ARMED SERVICES, U.S. HOUSE OF REPRESENTATIVES, EXPENDED BETWEEN JULY 1 AND SEPT. 30, 1989—Continued

Name of Member or employee	Date		Country	Per diem [1]		Transportation		Other purposes		Total	
	Arrival	Departure		Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]	Foreign currency	U.S. dollar equivalent or U.S. currency [2]
	8/12	8/15	Papau New Guinea		594.00						595.00
	8/15	8/16	Solomon Islands		124.00						124.00
	8/16	8/17	Philippines		144.00						144.00
	8/17	8/19	Indonesia		316.00						316.00
	8/19	8/20	Singapore		140.00						140.00
Military transportation							3,651.42				3,651.42
Commercial transportation							2,865.64				2,865.64
Visit to West Berlin and Soviet Union, Aug. 6–18, 1989:											
Hon. Les Aspin	8/6	8/7	West Berlin		190.00						190.00

ANTHONY C. BEILENSON, Chairman, Oct. 30, 1989.

EXECUTIVE COMMUNICATIONS, ETC.

Under clause 2 of rule XXIV, executive communications were taken from the Speaker's table and referred as follows:

1995. A letter from the Secretary, Department of Energy, transmitting the Department's annual report on program to assist homeless individuals, as a member of the Interagency Council on the Homeless, pursuant to Public Law 100-77, section 203(c)(1) (101 Stat. 487); Public Law 100-628, section 205 (102 Stat. 3228); to the Committee on Banking, Finance and Urban Affairs.

1996. A letter from the President, Oversight Board; Executive Director, Resolution Trust Corporation, transmitting the first report, submitted jointly, on the activities of the Board and the Corporation covering the period August 9, 1989, to September 30, 1989, pursuant to Public Law 101-73; to the Committee on Banking, Finance and Urban Affairs.

1997. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. Act 8-107, Construction Codes Amendment Act of 1989," and report, pursuant to D.C. Code section 1-233(c)(1); to the Committee on the District of Columbia.

1998. A letter from the Chairman, Council of the District of Columbia, transmitting a copy of D.C. Act 8-108, "District of Columbia Public School Firearm Prohibition Act of 1989," and report, pursuant to D.C. Code section 1-233(c)(1); to the Committee on the District of Columbia.

1999. A letter from the Chairman, President's Cancer Panel, transmitting a copy of the Panel's 1988 annual report to the President, pursuant to 42 U.S.C. 285a-4(b); to the Committee on Energy and Commerce.

2000. A letter from the Chairman, Federal Election Commission, transmitting a report on the implementation of the Inspector General Act Amendments of 1988, pursuant to Public Law 100-504, section 111 (102 Stat. 2599); to the Committee on Government Operations.

2001. A letter from the Chairman, Securities and Exchange Commission, transmitting the Commission's report of its compliance with the provisions of the IG Act; Office of Inspector General officially established, pursuant to Public Law 100-504, section 111 (102 Stat. 2529); to the Committee on Government Operations.

2002. A letter from the Chairman, Federal Election Commission transmitting a report concerning the Presidential Election Campaign Fund, pursuant to 26 U.S.C. 9009(a)(5)(A); to the Committee on House Administration.

2003. A letter from the Deputy Associate Director for Collection and Disbursements, Department of the Interior, transmitting notification of proposed refunds of excess royalty payments in OCS areas, pursuant to 43 U.S.C. 1339(b); to the Committee on Interior and Insular Affairs.

REPORTS OF COMMITTEES ON PUBLIC BILLS AND RESOLUTIONS

Under clause 2 of rule XIII, reports of committees were delivered to the Clerk for printing and reference to the proper calendar, as follows:

Mr. ROSTENKOWSKI: Committee on Ways and Means. H.R. 3033. A bill to control the export, to countries pursuing or expanding the ability to produce or deliver chemical or biological weapons, of items that would assist such countries in acquring such ability, to impose sanctions against companies which have aided in the proliferation of chemical or biological weapons, to provide for sanctions against countries which use or prepare to use chemical or biological weapons in violation of international law, and for other purposes; with an amendment (Rept. 101-334, Pt. 2). Ordered to be printed.

Mr. BONIOR: Committee on Rules. House Resolution 285. Resolution waiving all points of order against the conference report on H.R. 2461 and against the consideration of such conference report (Rept. 101-335). Referred to the House Calendar.

REPORTED BILLS SEQUENTIALLY REFERRED

Under clause 5 of rule X, bills and reports were delivered to the Clerk for printing, and bills referred as follows:

Mr. UDALL. Committee on International and Insular Affairs. H.R. 2567. A bill to authorize additional appropriations for the construction of the Buffalo Bill Dam and Reservoir, Shoshone Project, Pick-Sloan Missouri Basin Program, Wyoming; with an amendment; referred to the Committee on Merchant Marine and Fisheries for a period ending not later than November 14, 1989, for consideration of such provisions of the bill and amendment as fall within the jurisdiction of that committee pursuant to clause 1(n), rule X (Rept. 101-336, Pt. 1). Ordered to be printed.

PUBLIC BILLS AND RESOLUTIONS

Under clause 5 of rule X and clause 4 of rule XXII, public bills and resolutions were introduced and severally referred as follows:

By Mr. DIXON:

H.R. 3610. A bill making appropriations for the government of the District of Columbia and other activities chargeable in whole or in part against the revenues of said District for the fiscal year ending September 30, 1990, and for other purposes; to the Committee on Appropriations.

By Mr. FASCELL (for himself, Mr. BROOMFIELD, Mr. SMITH of Florida, Mr. FEIGHAN, Mr. GILMAN, Mr. ACKERMAN, Mr. JOHNSTON of Florida, Mr. MCCLOSKEY, Mrs. MEYERS of Kansas, Mr. GOSS, Mr. HAMILTON, Mr. YATRON, Mr. SOLARZ, Mr. WOLPE, Mr. GEJDENSON, Mr. DYMALLY, Mr. LANTOS, Mr. BERMAN, Mr. LEVINE of California, Mr. CLARKE, Mr. FUSTER, Mr. OWENS of Utah, Mr. ENGEL, Mr. FALEOMAVAEGA, Mr. BOSCO, Mr. PAYNE of New Jersey, Mr. LAGOMARSINO, Mr. LEACH of Iowa, Mr. ROTH, Mr. HYDE, Mr. SMITH of New Jersey, Mr. DEWINE, Mr. BURTON of Indiana, Mr. MILLER of Washington, Mr. DONALD E. "BUZ" LUKENS, Mr. GALLEGLY, Ms. ROS-LEHTINEN):

H.R. 3611. A bill to combat international narcotics production and trafficking; to the Committee on Foreign Affairs.

By Mr. ACKERMAN:

H.R. 3612. A bill to amend certain provisions of title 5, United States Code, relating to allowances for employees of the United States Government serving abroad, and for other purposes; to the Committee on Post Office and Civil Service.

By Mr. BOSCO (for himself, Mr. FAZIO, and Mr. HERGER):

H.R. 3613. A bill to establish an Upper Sacramento River Fishery Resources Restoration Program; jointly, to the Committees on Merchant Marine and Fisheries and Interior and Insular Affairs.

By Mr. HAWKINS (for himself, Mr. FORD of Michigan, Mr. MILLER of California, Mr. KILDEE, Mr. MARTINEZ, Mr. OWENS of New York, Mr. HAYES of Illinois, Mr. PERKINS, Mr. SAWYER, Mr. PAYNE of New Jersey, Mrs. LOWEY of New York, Mr. POSHARD, Mrs. UNSOELD, Mr. RAHALL, and Mr. FUSTER):

H.R. 3614. A bill to amend the Drug-Free Schools and Communities Act of 1986 to revise certain requirements relating to the provision of drug abuse education and prevention programs in elementary and secondary schools, and for other purposes; to the Committee on Education and Labor.

By Mr. LIPINSKI (for himself, Mrs. COLLINS, Mr. HAYES of Illinois, Mr. HYDE, Mr. POSHARD, Mr. SAVAGE, Mr. SANGMEISTER, and Mr. YATES):

H.R. 3615. A bill to amend the Solid Waste Disposal Act to require treatment of medical waste; to the Committee on Energy and Commerce.

By Mr. LOWERY of California (for himself, Mr. DYMALLY, Mr. BERMAN, Mr. DE LA GARZA, Mr. PACKARD, Mr. LEHMAN of Florida, Mr. BUSTAMANTE, Mr. HUNTER, Mr. COLEMAN of Texas, and Mr. HAWKINS):

H.R. 3616. A bill to amend the Public Health Service Act to establish a program of formula grants for compensating certain trauma care centers for unreimbursed costs incurred with respect to undocumented aliens; to the Committee on Energy and Commerce.

By Mr. NIELSON of Utah (for himself, Mr. HANSEN, and Mr. OWENS of Utah):

H.R. 3617. A bill to transfer jurisdiction of certain public lands in the State of Utah to the Forest Service, and for other purposes; jointly, to the Committees on Interior and Insular Affairs and Agriculture.

By Mr. OBERSTAR:

H.R. 3618. A bill to authorize the lease of lands on the Mille Lacs Indian Reservation for a term not to exceed 99 years; to the Committee on Interior and Insular Affairs.

By Mr. OWENS of New York:

H.R. 3619. A bill to amend the Drug-Free Schools and Communities Act of 1986 to revise certain requirements relating to grants to States and local educational agencies under such Act; to the Committee on Education and Labor.

By Mr. RHODES (for himself, Mr. UDALL, and Mr. STUMP):

H.R. 3620. A bill to clarify the Food Security Act of 1985; to the Committee on Agriculture.

By Mr. RINALDO (for himself, Mr. MICHEL, Mr. ROYBAL, Mr. LENT, Mr. MADIGAN, Mr. ARCHER, Mr. JAMES, Mr. HASTERT, Mr. DICKINSON, Mr. COURTER, Mr. PETRI, Mr. PACKARD, Mr. SAXTON, Mr. RITTER, Mr. GALLO, Mr. ANDERSON, Mr. CROCKETT, Mr. MCEWEN, Mr. HILER, Mr. WOLF, Mr. TAUKE, Mr. STAGGERS, Ms. OAKAR, Mr. BOEHLERT, Mr. HUGHES, Mr. JONTZ, Mrs. COLLINS, and Mr. FORD of Tennessee):

H.R. 3621. A bill to amend the Internal Revenue Code of 1986 to encourage the coverage of older Americans by private long-term care insurance; jointly, to the Committees on Ways and Means and Energy and Commerce.

By Mr. SAXTON:

H.R. 3622. A bill to require that the parents or legal guardians of a minor consent to the issuance of a passport to that minor; to the Committee on Foreign Affairs.

By Mr. SAXTON (for himself, Mr. GEKAS, Mr. SENSENBRENNER, Mrs. MARTIN of Illinois, Mr. PENNY, Mr. ARMEY, Mr. RICHARDSON, Mr. FUSTER, and Mr. BUSTAMANTE):

H.R. 3623. A bill to amend title 18, United States Code, to provide penalties for international parental abduction of children, and for other purposes; to the Committee on the Judiciary.

By Mr. STARK (for himself, Mrs. BOXER, Mr. ROYBAL, and Ms. PELOSI):

H.R. 3624. A bill to provide for the establishment of earthquake construction standards and to amend the Internal Revenue Code of 1986 to deny certain tax benefits with respect to structures which do not meet those standards; jointly, to the Committees on Interior and Insular Affairs; Ways and Means; Banking, Finance and Urban Affairs; and Public Works and Transportation.

By Mr. UDALL (for himself, Mr. GONZALEZ, Mrs. BOGGS, Mr. GILMAN, Mr. FISH, Mr. PAXON, and Mr. PICKLE):

H.R. 3562: Mr. BATES.

H.R. 3587: Mr. FUSTER, Mr. POSHARD, and Mr. WILSON.

H.R. 3607: Mr. SHAW and Mrs. KENNELLY.

H.J. Res. 122: Mr. DIXON, Mr. COSTELLO, Mr. GONZALEZ, Mr. FRENZEL, Mr. OBERSTAR, and Mr. BAKER.

H.J.Res. 409: Mr. COOPER.

H.J. Res. 421: Mr. TALLON, Mr. GEREN, Mr. MILLER of Washington, Mr. MURTHA, Mr. NATCHER, Mr. HAYES of Illinois, Mr. HILER, Mr. WOLF, Mr. STUMP, and Mr. SKEEN.

H. Con. Res. 23: Mr. PAYNE of New Jersey.

H. Con. Res. 124: Mr. TOWNS, Mr. DELLUMS, and Mr. GONZALEZ.

H. Con. Res. 220: Mr. ACKERMAN, Mr. LIPINSKI, Mrs. MORELLA, Mr. RAHALL, Mr. SANGMEISTER, and Mr. WYDEN.

H. Res. 247: Mr. SCHAEFER, Mr. BURTON of Indiana, Mr. DELAY, and Mr. BUNNING.

H. Res. 269: Mr. BROOMFIELD, Mr. LAGOMARSINO, and Mr. CRANE.

EXTENSIONS OF REMARKS

EXPORT 89

HON. ANDY IRELAND

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. IRELAND. Mr. Speaker, the first ever trade fair held exclusively for small business was recently held in Frankfurt, West Germany October 25 through October 28, 1989. This conference and trade fair was jointly sponsored by the U.S. Department of Commerce, MESSE Frankfurt, and the Small Business Private Sectors in the United States and the European Community. It appears the conference was a great success both on the business and policy levels.

I would first like to publicly thank Representative ROMANO MAZZOLI of Kentucky for attending Export 89 in my place. Due to a last minute family illness I had to cancel my travel plans and on a virtual moment's notice RON MAZZOLI rescheduled his entire weekend and flew to Frankfurt. A long time friend and champion of small business, RON MAZZOLI, was warmly received in Frankfurt. His appearance and personal meetings with all our exhibitors were an inspiration to all the small businesses both American and European who participated. Later, he conducted several ground breaking meetings in Brussels with our Ambassador to the European Community and later with members of the European Commission and the European Parliament. We all owe Representative MAZZOLI a great debt of sincere thanks.

I would also like to publicly thank several individuals who played major roles in the development of Export 89. Miss Helen Burroughs, a tried and true public servant at the Department of Commerce, did a remarkable job in pulling the event together. Mr. Thomas S. Watson, Jr., chairman of the Industry Sector Advisory Committee on Small and Minority Business and all the members of this committee performed admirably both in the arrangement process for Export 89 and in the conference held there. Our Ambassador to the European Community, the Honorable Thomas Niles, was extremely helpful to all parties concerned as was his Economic Assistant, Mr. Paul Bagettas, without whose herculean efforts our congressional delegation may not have been able to attend the Frankfurt event.

On the European side I would be remiss if I did not thank a few individuals who were also instrumental in both the planning and production stages. First, the members of the European group for Small Business and Craft—the president, Mr. William Oliver, a businessman who devoted great time and resources to this event and very ably coordinated the activities for the closing ceremonies. The vice president of Eurogroup, a member of the European Parliamenrt, Dr. Ingo Friedrich who spent many hours in the last year coordinating the American and European small business communities as well as serving as liaison with other European Parliament members. Unfortunately, Dr. Friedrich became ill during Export 89 and I wish him a very speedy recovery. The able Administrator of Eurogroup, Mr. Hans-Hermann R. Heyland, displayed an extraordinary ability to coordinate varying activities and at the same time was able to monitor even the smallest developments during the conference. Mr. Heyland also was most cordial in hosting a dinner in Brussels for the American delegation. Also of extraordinary assistance to the Frankfurt event was Mr. Hans-Wilhelm Dunner, the executive director of BDS, a major West German small business organization. Mr. Dunner made several trips to the United States over the recent months and at Export 89 in Frankfurt had assembled his entire staff to work with any small business man or woman who needed assistance. All of the aforementioned individuals, both American and European are owed a major debt of gratitude by millions of small businesses on both sides of the Atlantic who will benefit enormously in the coming years by the work these people have just done.

Mr. Speaker, plans are under way to coordinate a similar event here in the United States in 1990 followed by a 1991 European event which even the Eastern block nations have now expressed an interest in. I intend in the future to work with our Government and the private sector to insure the success of such events and to further solidify the entrepreneurial bond between the United States and our friends and allies in Europe. Finally, Mr. Speaker, I am pleased to be able to share with all my colleagues the final Export 89 Conference results. I believe all members will find this document very intriguing to say the least.

EXPORT 89 CONFERENCE RESULTS

PROPOSALS FOR INCREASING THE TRADE FLOW BETWEEN THE US AND THE EC

Believing that there is a major potential for the further development of small business trade between the US and the EC, the EXPORT 89 Conference decided upon the following proposals:

1. Create a US-EC Small Business Trade Council. The Conference creates an ad-hoc Working Group composed of interested members of the US and EC EXPORT 89 Steering Committees and other small business representatives to work out its mechanism. This council will have a presence on both sides of the Atlantic. Its tasks will cover:

Assisting small business members to identify potential trade and investment partners;

Providing market information;

Organising future EXPORT Conferences;

Organising training programmes and seminars;

Creating a permanent US and EC data base on information on export and export cooperation which grants easy access for small businesses;

Advocating the institution of worthwhile programmes for small exporters in the private and public financing sectors;

Promoting by the US and the EC Administrations a training and exchange programme for small business persons between the EC and the US to develop business opportunities and to become acquainted with the philosophies and business practices in both markets.

2. The US and the EC small business communities support the creation of a free trade environment between the EC and the US. Priority attention should be given to the following actions:

Mutual acceptance of professional, educational and technical qualifications in the US and the EC;

Simplification and harmonisation of export and import licensing procedures;

US and EC environmental, safety and technical standards should be mutually acceptable where applicable and efforts be made to harmonise those standards that are considered incompatible;

US and EC entities should refrain from using or constructing standards that are designed and or implemented to serve as barriers. The standards include those on

Language, nomenclature and symbols;

Dimensions;

Performance and

Testing and certification procedures.

Create standard setting procedures that are transparent and allow timely and effective input from affected SMEs.

Work to elimínate problems with product liability on both sides through harmonising legislation.

Establish an Agency of Arbitration to settle tariff and nontariff trade action disputes under rapid procedures with straightforward, binding resolutions.

Simplification of access to transport, money and capital markets and facilities in order to ease trading conditions.

3. The small business participants in the EXPORT 89 Conference encourage both the EC and the US Government to pursue a policy of open markets in the GATT and in the ongoing Uruguay Round. Specifically, GATT negotiations in the Uruguay Round should incorporate in their intellectual property rights and dispute settlement procedures measures that will include special protection for small and medium-sized businesses.

4. On the issue of protection of intellectual property rights, the Conference makes the following recommendations to the US and the EC governments:

Create equal, clear and simple standards and controls of intellectual property rights in the EC and the US at bearable cost for small businesses. This should cover:

Unified and simplified registration procedures,

Mutual registration of intellectual property rights with national customs authorities,

Create a working group of US/EC experts to study the most efficient administrative procedures for resolving intellectual property disputes between US and EC companies.

THE EDUCATION SUMMIT

HON. LEE H. HAMILTON

OF INDIANA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. HAMILTON. Mr. Speaker, I would like to insert my Washington report for Wednesday, November 8, 1989, into the CONGRESSIONAL RECORD.

THE EDUCATION SUMMIT

The recent education summit at the University of Virginia marks an historic change in how America approaches education. The President and the nation's governors recognized that more of the same towards education is not enough, and they endorsed national education goals for the first time in the history of this country. Attention has focused on education since the publication of "A Nation At Risk" by the Department of Education in 1983. This report deplored the rising tide of mediocrity in the schools and called for tougher high school graduation requirements, more core academic courses, higher teacher salaries, and other measures. Nevertheless, students still perform at levels below that of the 1960s, and often leave school without adequate job skills or basic knowledge. American students rank in the lowest tier among industrialized nations in math and science. This threatens the nation's security and its future.

Once America's system of education was the envy of the world. This nation understood that its children and their education were not simply part of the future, they were the future. America ignores its schools at its own peril. No amount of money spent on weapons will buy security without people capable of using them effectively. Democracy itself cannot be sustained without citizens who understand future choices.

Competitive pressures of a global economy have made the quality of state and local education a national concern for the first time. President Bush and the governors agreed to improve our nation's performance in the following areas: the readiness of all children to start school; the performance of students on international tests; the reduction of the dropout rate; the functional literacy of adult Americans; the training necessary for a competitive work force; the supply of qualified teachers and technology; and the establishment of safe, disciplined, and drug-free schools.

Previously, the federal government had seen its primary goal as ensuring equal access and opportunity to education. The United States government alone among industrialized nations had no national policy to ensure the quality of education its students received. Now the federal government also will focus on the education system itself and the standards that system should meet. During the summit, the President and several governors discussed a series of proposals intended to restructure and improve American education:

The Federal Pre-school Role: The question of the extent of federal funding for reform has been laid aside, at least for now. Funding education is primarily a state and local issue, with Washington accounting for less than ten percent of spending on public education. A consensus is emerging that the federal government should focus on improving health and nutrition programs for preschoolers, such as through Head Start. By the time many children arrive in kindergarten it is already too late to do much more than damage control.

More Flexible Federal Rules: There was also general agreement that federal regulations should be loosened. For example, current federal regulations prohibit computers purchased for disadvantaged students to be used for evening adult education. Now, results will be emphasized more than regulations. The goal is to reduce federal controls, and increase the opportunity for states and local school districts to develop their own guidelines.

Parental Choice: The President and the governors considered a proposal to allow parents to decide which school their children attend. Increased competition could force schools to provide a better education lest they lose students. Critics, however, argue that parents would take their tax dollars out of minority-dominated schools. The result could be a two-tier school system: one for children whose parents can afford to send them to other school districts and another for students whose families cannot afford the opportunity.

New Routes To Teaching: Also discussed was a suggestion to increase the ability of college graduates without education degrees to enter teaching. A number of states have eased training and certification requirements for teachers. The result has been an inflex of new blood in the classroom—relieving teacher shortages and attracting new talent. Yet some are concerned that unqualified teachers could enter the school system.

Decentralized School Management: Another proposal would decentralize the management of schools to provide parents, principals, and teachers with more control over the school system. Those closest to, and with the most interest in, a school system could be given more control over day-to-day decisions, such as decisions on the budget, staffing, and curriculum.

Accountability: A final suggestion would institute more accountability for teachers and students. Teachers and administrators should answer for poor performance. Evaluations could be based on academic results, not on the extent to which legislative or school-board requirements are met. In addition, pupils would have to pass minimum competency tests before being promoted or permitted to graduate. Some experts are concerned, though, that such provisions would encourage teachers and students to concentrate solely on the information needed to pass yearly exams rather than learning in general.

Many of these suggested reforms are not expensive. Raising the expectations of students costs nothing at all; neither does encouraging parents, administrators, and teachers to take a greater interest in the education system. States and communities, however, should be prepared to address funding and resource questions.

In sum, the education summit said that schools need specific goals, schools and teachers need more freedom in how to pursue these goals, and more scrutiny should be given to whether the goals are being met. It is one thing to call a summit on education and to state goals. It is quite another to follow through with ideas, support, and funds. That is the task that lies ahead.

A TRIBUTE TO CARMEN VACALEBRE

HON. JOHN G. ROWLAND

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. ROWLAND of Connecticut. Mr. Speaker, I would like to take this moment to honor an outstanding citizen from my home State of Connecticut. Recently, Mr. Carmen Vacalebre of Southbury, CT, received the "Restaurant of the Year" award from the Atlanta-based Arby's Inc. at their recent 1989 annual convention.

For over 20 years, Mr. Vacalebre's performance record in the Connecticut restaurant business has been exemplary. In addition to the award-winning Waterbury Arby's, he is the owner of seven other Arby's and employs over 200 people from the Waterbury community and outlying areas. He skills as an administrator and manager of this franchise reflect his continuing commitment to the Arby's operation. Carmen's continual success can be attributed to his strong support for and promotion of the principles which foster excellence.

I am pleased to join Carmen's friends and colleagues in applauding a lifetime of achievement, and I commend Arby's Inc. for bestowing this honor on this great American.

NATIONAL ALZHEIMER'S AWARENESS MONTH

HON. ROBERT J. LAGOMARSINO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. LAGOMARSINO. Mr. Speaker, several years ago the CBS television network presented a made for TV movie entitled "Do You Remember Love?" which starred Joanne Woodward and Richard Kiley. Any of my colleagues who had the opportunity to view this show know how devastating the effects of Alzheimer's can be on not only the victims but also on the victim's family and friends as this was so accurately and touchingly portrayed in this show. Similarly, in a real life scenario, we have only to look to Rita Hayworth to be reminded of how cruel this disease can be. Princess Yasmin Kahn, who is the daughter of Rita Hayworth, has worked tirelessly in behalf of her mother's memory in trying to find a cure for Alzheimer's. Rita Hayworth was misdiagnosed as a hopeless and hapless alcoholic when she was in her mid-forties. It was not until years later that she was finally vindicated and it was discovered that she was a victim of this cruel disease. In her case it was doubly cruel since the onset of Alzheimer's usually does not begin until later in life after the age of 65.

It is truly one of the most heartbreaking of diseases. When one considers that as this disease progresses, it robs an individual of his/her entire life by slowly taking away short and long term memory. What is left is the shell of a human being, who in the most advanced stages, is left totally dependent upon

others for even the simplest of daily functions. The totally unrelentless manner in which this disease claims its victims is unfathomable. It is a nightmare to those who have watched their loved ones suffer the ravages of this disease. It is imperative that we continue to focus public attention on Alzheimer's and to find a cure. Therefore, I am pleased to have been a cosponsor of this resolution designating the month of November as National Alzheimer's Disease Month. It is important to remember that Alzheimer's does not discriminate and claims both males and females and knows no ethnic or racial barriers in choosing its victims. We must find a cure because as the Nation's elderly population continues to grow so will the number of victims to this disease. The monetary and emotional cost this disease exacts upon the families of the victims as well as to society as a whole is staggering. It is imperative that the work which has begun continues to receive the support which is needed to insure that a breakthrough is made so that this type of suffering will no longer have to be endured.

H&M RANKS AMONG NATION'S BEST

HON. JOHN S. TANNER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. TANNER. Mr. Speaker, I rise today to recognize H&M Construction Co. now located in Jackson, TN. H&M just moved its headquarters from Milan, TN where it has operated for the past 30 years to a new facility in Jackson.

The growth and success of this company is an example of what an entrepreneur can achieve in our free enterprise system if that entrepreneur is dedicated to quality, hardwork, and imagination. Three brothers David, Richard, and Lee Fite have taken the lessons they learned from their father Charles R. Fite and built upon his success in making H&M Construction a distinguished construction company.

From austere beginnings, the company has grown to be ranked by Engineering News Record as the 237th of 400 top construction firms in the country. It counts blue chip industrial leaders among its clients.

As it has grown, H&M has never forgotten its roots. It has remained in west Tennessee because the Fite family is committed to the area they proudly call home. They want their success as a company to be matched by contributions to making our area a better place to live.

I want to offer my congratulations to the Fite brothers for the success they have worked so hard to achieve and to extend my gratitude to them for their loyal dedication to Tennessee.

I would like to take this opportunity to share with my colleagues an article which recently appeared in the Jackson Sun newspaper which further details the success of H&M Construction Co.

H&M RANKS AMONG NATION'S TOP CONSTRUCTION COMPANY MOVES TO JACKSON TO ATTRACT MORE TALENT

(By Mary Grunwald)

Fifteen or 20 years ago, when Richard Fite started working for his dad, H&M Construction Co. was about a $20 million operation.

"We'd sit around in Daddy's office, and Daddy would say, 'We've got the people here to be a $100 million company.' And I just thought he was crazy," says Fite, executive vice president of the company.

Daddy was right on the money.

Today, H&M indeed generates annual revenue of $100 million. It's ranked 237th among the nation's top 400 construction companies by Engineering News Record; it's licensed to do business in 26 states.

Last month the company moved from Milan to new, 24,000-square-foot headquarters on Security Drive, off U.S. 45 Bypass just inside Jackson's northern limit.

"To attract the talent that we needed, we needed to be in a larger city," said David Fite, Richard's brother, who is president of the company.

A third Fite brother, Lee, earlier this year joined the estimating department of the company, founded 30 years ago by J. Frank Warmath of Humboldt—"H"—and Charles R. "Chicken" Fite of Milan—"M."

H&M broke into the big time when Charles Fite's sketch on a napkin won the favor of ITT executives preparing to locate a plant in Milan.

"We started out probably statewise and we grew from there to the surrounding states," says David Fite. "Our network got bigger, our information network. Customers began to take us places. The concentration (in West Tennessee) is because it's our home base."

A willingness to gamble made the company what it is today, David Fite said.

"Construction people are like the old mavericks of the oil industry," he said. "There's a lot of independence and a lot of risk-taking. You can't live conservatively and succeed in the construction business. Expertise is in knowing what your risks are and limiting them.

"We've taken some risks here we wouldn't have taken elsewhere, because this is our home."

For example, cooperating with the Jackson Area Chamber of Commerce, H&M built a speculation building at the new industrial park on U.S. 70 to help lure Bobrick Washroom Equipment to Madison County—a gambit that paid off last month when Bobrick announced it's bringing a distribution and customer service center there.

"There are some scary moments through it," David Fite said. "We wouldn't have made some speculative investments anywhere but here. And the reason we did it here is because we thought (the region) would succeed in getting industrial prospects in those buildings."

The company was construction manager for school systems projects in Tennessee totaling more than $100 million. Yet "industry has always been our bread and butter," Richard Fite said.

Recent major H&M projects have included a parts distribution center for General Motors in Fort Worth, Texas; a sophisticated electronics plant for Boeing Military Electronics in Corinth, Texas; and additions to the Federal Express sorting building in Memphis.

Still, local business is critical to the company, the Fite brothers say. "It'd be real nice if all of our work was within a 100-mile radius," said Richard Fite.

Employees are quick to praise H&M. "I don't think there's any better construction company in the world," said projects superintendent Paul Finley, an employee of 30 years.

So are contractors, Mike Gately, of Mid-States Electric, loves working for H&M. "They know what they're doing," he says.

The Fites like to give employees their heads. "There really are a lot of strong personalities," says Richard Fite. "We let people use their abilities. There's no bureaucratic red tape. There are no reserved parking spaces.

"Our dad would lose money before he would have a layoff." Richard said. "He just thought that much of his people. In the long run, it paid off. The people knew what he was doing, and they didn't mind putting in extra effort. It's a philosophy David and I have tried to keep."

The company employs 75 people; Owens Engineering, separate corporation that designs most of H&M's projects, employs 20.

As for the future, H&M is striving for controlled growth, David Fite says. "For us to compete with larger and larger firms, we have to have more capability and more expertise in our employees.

"We were competing against some little guys 25 years ago, and we were a little guy. We grew up, and we're competing now with some of the largest and most sophisticated construction companies in the country.

"To do that, we have to match their capabilities or exceed them."

TRIBUTE TO EDWARD T. ZANDARSKI

HON. JAMES A. TRAFICANT, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. TRAFICANT. Mr. Speaker, I rise today to pay tribute to Edward T. Zandarski, Sr., who has been elected Man of the Year for the State of Ohio by the Polish Legion of American Veterans. A banquet will be held for Mr. Zandarski on November 12, honoring him for his many accomplishments and contributions to his community and country.

Edward Zandarski was raised in Orwell and Warren, OH. He is the husband of Rose Zandarski and father to three sons. He received a degree from Commercial Trades Institute in 1948, and worked as a company trained certified factory agent for seven different appliance companies throughout his career.

Mr. Zandarski's military career went from 1943 to 1948. During this time, he was trained in engineering at Fort Belvoir, VA, and served in the European theatre of operation. His incredible courage was evidenced in his participation in the Normandy invasion. His abilities as a soldier and his bravery helped him attain five battle stars during World War II.

Today Edward Zandarski is an active member of the Polish Legion for American Veterans. He has been a member of Post 164 in Warren, OH, since 1963. He has served in various positions there and has been commander since 1979.

In addition to his work in the P.L.A.V., Mr. Zandarski is a Veterans' Administration volun-

teer service deputy at Erie Veteran Hospital. He also volunteers for Trumbull County Children Services.

Mr. Speaker, I would like to take this opportunity to congratulate Edward T. Zandarski, Sr., for his impeccable record of service. He is a compassionate, dedicated, and giving man who is deserving of great praise. We are deeply indebted to him for the work he has done in our State for veterans and children. He is a perfect example of selfless living, and I am honored to represent him.

AID REVIEW OF UNFPA PROGRAM FOR COMPLIANCE WITH U.S. LAW AND POLICY

HON. BILL GREEN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. GREEN. Mr. Speaker, in 1985, when then-U.S. Agency for International Development Administrator M. Peter McPherson announced the decision to begin withholding part of the U.S. contribution to United Nations Fund for Population Activities [UNFPA], he made it clear that AID's own internal review of the UNFPA Program had "demonstrated satisfactorily that UNFPA neither funds abortions nor supports coercive family planning practices through its programs."

The following report summary, prepared by AID in 1985, is still relevant to policy questions facing the Congress in 1989, and I hope that my colleagues will take careful note of the facts regarding UNFPA, as outlined by AID:

EXECUTIVE SUMMARY—A.I.D. REVIEW OF UNFPA PROGRAM FOR COMPLIANCE WITH U.S. LAW AND POLICY, MARCH 1985

In August, 1984, the United States accepted the assurances of the United Nations Fund for Population Activities (UNFPA) that its programs did not support abortion activities or coercive family planning programs and, in view of this finding, completed its 1984 contribution to the Fund. At the same time, the United States advised UNFPA that is 1985 contribution would be preceded by a review of UNFPA assistance to ensure that the use of U.S. funds in 1985 would be fully in compliance with U.S. law and policy.

The findings of the A.I.D. review are as follows:

(1) UNFPA policy documents have been revised to clearly exclude support for abortion and to reaffirm the requirement that program receiving assistance respect the basic right of couples and individuals "to decide freely and responsibly the number and spacing of their children and to have the information, education, and means to do so". UNFPA's Executive Director Salas has formally stated in a letter to Ambassador Kirkpatrick that "the Fund does not support abortion as a method of family planning nor does it sanction—now has it ever sanctioned—coercion in the implementation of family planning programs".

(2) UNFPA country assistance is limited to support for specific activities; general support, used at the discretion of the host country, is not provided. Consequently, there is a clear accounting trial for UNFPA assistance that facilitates a compliance review.

(3) UNFPA has issued clear program guidance that excludes support for abortion or coercive activity. Where countries provide public abortion services, UNFPA officials have informally advised these governments that its assistance cannot be used for this purpose. UNFPA believes that, in many instances, countries have requested its family planning assistance to provide an alternative to abortion.

(4) There is no evidence that UNFPA is intentionally or actually promoting or supporting abortion in any country, either in its 1984 program or in its proposed 1985 commitments.

(5) In the case of China,

UNFPA excludes salary payments to local personnel in China. Chinese program workers providing abortion services are not funded by UNFPA.

UNFPA-supported training programs exclude abortion training. Management training exposes Chinese officials to the management approaches used in voluntary programs in other Asian countries.

Research training provides fellowships, consultancies and equipment basic to the study of pre-conceptive methods. Research on post-conceptive methods is not supported by UNFPA.

Population education and communication assistance provides consultancies and materials used to persuade Chinese couples of the need for a one-child norm and its contribution to a better family life. Materials stress the value of female children to counter traditional biases.

This review concludes that UNFPA does not support abortion or coercion through the programs that our 1985 contribution would help fund. Its program is substantially in compliance with U.S. law and policy on population assistance.

Despite those facts, the United States has completely withheld its UNFPA contribution since 1986.

The global overpopulation problem has not gone away. During the industrial revolution, the world had approximately 500 million people. Today there are over 5 billion people, with 93 million more added every year. Without strong leadership supporting voluntary international family planning programs, experts predict that in just 35 years the world's population is likely to double in size to 10 billion.

Many environmental, economic, and health problems facing our world can be directly related to rapid population growth. Global warming, stagnating economies in developing countries, teen pregnancy, and high maternal death rates all relate to overpopulation.

Despite the urgency of those problems, in recent years the United States has weakened its commitment to voluntary family planning programs. In fiscal 1985, population assistance represented 14.3 percent of our Nation's development assistance. By fiscal year 1989, that amount had fallen to 11 percent.

Voluntary family planning services save lives. Experts estimate that the lives of 5.6 million children and 200,000 women could be saved each year if all the women who wanted to limit their families had access to family planning. The World Health Organization estimates that most of those 200,000 women who die each year are the victims of unsafe abortions in developing countries. Family planning provides a healthy and safe alternative to abortion.

As the largest internationally funded source of aid to voluntary family planning programs, the UNFPA provides assistance to over 140 developing nations where economic development efforts are often overwhelmed by rapid population growth, 90 of those countries have populations expected to double within the next 30 years.

Congress must restore our Nation to its strong leadership position in international family planning. One important step we can take toward that goal is to resume our U.S. contribution to UNFPA. Such a move is in the best interests of women, families, and sound public health policy all around the globe.

HONORING M. SGT. RUDY MACINA

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. ENGEL. Mr. Speaker, on Friday, November 10, the U.S. Marine Corps is honoring a truly great American, Rudy Macina, at the 6th Communication Battalion's annual ball being held in my congressional district.

The people of the Bronx know Rudy Macina as a man who dedicates countless hours to community service. He is responsible for initiating the Bronx Columbus Day parade, which has become an annual institution in the borough, and he continues to be the driving force behind the success of the parade. A life-long Bronx resident, he has given generously of his time to his Marine Corps Reserve unit and many other civic organizations, including the Morris Park Community Association, the Parkchester Kiwanis Club, and the Knights of Columbus, to name a few.

Rudy Macina's history of dedicated service, however, goes back much further than his current activities. During World War II, he saw action during the entire Solomon Island campaign and was awarded the Distinguished Flying Cross. His heroic actions continued through the Battle of Bougainville in February 1944. His war effort earned him the honor of appearing in a book entitled, "Heroes, U.S. Marine Corps, 1861 through 1955."

Rudy Macina has also been called the Johnny Appleseed of the flag because of the many events he has organized to honor our war veterans and the American flag they have fought under. Just as the original Johnny Appleseed planted trees everywhere he went, Rudy Macina makes sure that no flag pole remains empty.

I personally wish to thank Rudy Macina for all he has done for our country and our communities, and I also commend the 6th Communication Battalion for choosing this special Bronxite as its guest of honor.

HONORING SISTER MARY ROSE AND THE STAFF OF ROSE HOUSE

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. ACKERMAN. Mr. Speaker, I rise today to pay tribute to the staff of a wonderful place which provides an invaluable service to some very needy residence of Queens. I would also like to pay a special tribute to a woman who has made an extraordinary contribution to that place. That woman is Sister Mary Rose McGeady and the house that bears her name, Rose House, is a home for the mentally ill homeless. Today, November 8, the staff of Rose House will celebrate a staff recognition day, which will particularly recognize the contributions made by Sister Mary Rose.

Sister Mary Rose has devoted her life to serving others, particularly the mentally ill. For the past four decades, she has served in a number of positions, ranging from a volunteer in Family and Children Services to regional director and director for Mental Health Services in Catholic Charities. In 1981 she left Catholic Charities to become Provincial Superior for her order, the Daughters of Charity. In this capacity she was responsible for a large area, encompasing the Boroughs of Queens and Brooklyn. In 1987 she returned to Catholic Charities where she remains today as associate director.

Rose House owes a special debt to Sister Mary Rose. For it was Sister Mary Rose who pioneered the idea of revitalizing an unused building on the grounds of Creedmoor State Hospital to develop it into a home for the mentally ill homeless. The facility was inaugurated in 1984 as a cooperative venture by the city, State, and Catholic Charities to address the needs of the mentally ill homeless. Rose House officially opened its doors in 1985 and soon had a group of 100 men living within its walls.

When the program was established, it was intended to serve as a prototype for a new model service for community services, which soon came to be known as Residential Care Centers for Adults [RCCA's]. What was novel about this program, was that it would have a target population, meaning individuals had to meet certain criteria before admittance, and the program would provide counseling not treatment.

Prior to admittance, residents must meet two criteria: they must be homeless and they must have been diagnosed as mentally ill, but should have some potential for improvement. After admittance residents are assigned a case manager who along with the resident and a nurse will develop a plan for self-improvement based on an assessment of the resident's strengths and weaknesses. Once these persons start a plan, the staff will provide encouragement and support by rewarding them for accomplishing certain tasks. Staff will also manage the residents' meals and lunches, and will remind them to take their medication. No actual treatment is conducted on the premises, but the facility will contract out to various local clinics for residents to use the services at these clinics.

In the 4 years Rose House has been in existence, it has undergone many changes. When it opened it had an all male population of 100 but there are now 168 coed residents of the home. The residents have been divided up into 6 dorms of 28 people. Each dorm has a supervisor and a case manager assigned during the day, an activity manager and resident assistant during the evening and a resident assistant at night. In addition to these staff members, one tour supervisor in the evening and one at night are responsible for supervising the whole house. Of these staff members, activity managers and case managers have bachelors degrees and unit and tour supervisors have masters degrees.

Despite the fact that the staff of the home provides excellent counseling, the reality is that there are certain skills the residents have to learn by themselves. A recent development the staff calls the Psycho-Social Club was designed to encourage these men and women to learn these important social skills in a relaxed environment. These persons have group discussions and play social games that are all designed to present them with a challenge but which are at the same time therapeutically oriented.

Relaxation is regarded as an intrinsic part of therapy since it assists residents in building their self-esteem. For this purpose the men and women have a game room, a weight room, a woodwork shop and computers placed at their disposal. Once a year the staff will take residents on a group outing, such as a Broadway show with dinner. I look forward each year to sponsoring a holiday party where the staff and residents of Rose House join together with the community to usher in the holiday season.

Mr. Speaker, in a time when the numbers of homeless are steadily increasing and the mentally ill are forced to roam the streets, it is a pleasure to witness people like the staff of Rose House and a woman like Sister Mary Rose take these needy people under their wing and care for them. I ask my colleagues to join me in congratulating the staff of Rose House on their dedicated service to their community and to wish them continued success in the future.

CHANGES IN THE SOVIET UNION AND EASTERN EUROPE

HON. WILLIAM O. LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. LIPINSKI. Mr. Speaker, we all remember the days when progress in Eastern Europe was measured with a very small scale. When we watched events with a critical eye for any subtle signals that would indicate the grip of repression was finally loosening. In years past those brave and lonely voices in Eastern Europe calling for reform were like scattered trees in search of a forest. Well, today Mr. Speaker, we do not have to look quite so closely to appreciate the changes that are occurring. These are fertile times for the progress of freedom in both the Soviet Union and Eastern Europe. As the world leader, in the call for an end to the oppression, we must now accept our new responsibility as purveyor of the growing freedom. Cheerleading from the sidelines is not enough. To resign ourselves to such a position would belittle our past efforts and ignore the past and continuing sacrifices of millions of freedom yearning individuals east of the Iron Curtain. What is required of this body and this administration is a change from demanding freedom to supporting freedom.

Mr. Speaker, one group that needs our support is the citizens of the Baltic States. I have recently met with Mr. Paul Zumbakis of Chicago, who has urged me to do all I can toward demanding Baltic independence. The commitment of Americans such as Mr. Zumbakis is what has truly sustained this countries position as the number one advocate for freedom throughout the world. In a letter to me Mr. Zumbakis rightly points out that what the Soviet Union did some 40 years ago was not only immoral but also illegal. He also has a very legitimate fear that the current administration has backed away from this country's commitment to Baltic Independence. And although many may meet, but few surpass my commitment to the eventual independence of the Baltic States, I feel that immediate independence is not the best course.

Our own history provides the best examples of why independence is necessary and patience required. Thoughout the 1700's the thirteen Colonies that would become the United States of America developed their own economies. Most of the citizens during these times were farmers and the scattered towns and villages became self-sustaining units. Throughout the more than 100 years the colonists lived in America they learned how to best use the land and natural resources North America provided. They also began to develop the export crops and products that would best sell in the wealthy countries of Europe. Because we were settled by brave individuals primarily from Europe our trade routes naturally favored these nations. By the time the Revolution occurred we were an economy that had built a strong foundation and one that could support and fuel our new economy. Unfortunately, the current economies of the Baltic States are not yet strong enough to support independence. This of course is not the fault of the Baltic States but the result of inefficient policies forced upon them by their invaders. However, the Baltic States' comparative advantage lies in trade with the East, not the West, and are therefore far from being economically strong and independent. No, Mr. Speaker, if we are sincere in seeing the Baltics achieve true independence we must first support their efforts at strengthening their own economies. For this to be accomplished Moscow must give up central control of the regional economy and allow the Baltic States to make their own investment and production decisions.

If the Baltics were given their independence today, the result would be an economically floundering nation that would probably have severe infighting due to the large number of minority groups. The possible failure of any of these three nations to govern themselves

could wrongly be seen as proof that the Soviet Union was right in denying independence. Again Mr. Speaker, the historical evidence for my caution comes from our own history. Shortly after the Civil War was over, some Members of Congress, who in truth did not want the newly freed slaves to succeed, tried to put these former slaves in all types of positions of responsibility. Of course after generations of oppression and servitude, these individuals were not prepared to take their rightful positions amongst community leaders. What Presidents Lincoln and Johnson tried to do was acclimate the new citizens into the mainstream slowly so they could learn to utilize the rights they had been denied for so long.

I believe that this provides a good example about how we can best direct the current Baltic situation to its right and just conclusion. Independence as a matter of political reality is much different than independence as a matter of economic and social viability. President Gorbachev has taken some encouraging steps in the right direction. He is beginning to allow the Baltic States to make their own economic decisions. For the first time national flags, languages, and customs are permitted. These tastes of freedoms should and will further fuel the appetite for more freedom, but progress must be slow and deliberate. If Estonia, Latvia, and Lithuania are to be permitted to build their own fortresses of freedom then the Soviet Union must not only issue the building permit but must also give back the tools they illegally took some 40 years ago.

Mr. Speaker, I take heart in the fact that my district and city of Chicago is full of citizens such as Mr. Zumbakis who work vigilently to insure that the Baltic States achieve independence. I support their effort. But that independence must not only be a political proclamation, but an economic reality. Some may say that the current administration is silent on demanding independence because they wish to support President Gorbachev, and the loss of the Baltics from the Soviet Union may result in his fall from power. But the truth is that, through no fault of their own, the Baltics are not yet ready to be truly independent. Our responsibility is to prepare them to assume their position among the brotherhood of free and independent states. If this helps Gorbachev stay in power and continue his program of reform then fine. But this is only a fortunate residual effect. Our true goal must be the eventual independence of the Baltic States.

EQUAL EDUCATION OPPORTUNITY FOR ALL STUDENTS

HON. ROBERT T. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. MATSUI. Mr. Speaker, the issue of discrimination against Asian-American students by colleges and universities across the country is a disturbing one. Some of our colleagues have introduced a resolution expressing the sense of Congress with regard to this concern. My colleagues raise an issue that deserves our attention. But this resolution is not the appropriate response to the problem. The following statement by the Asian American Task Force on University Admissions, who have been working in this area for a long time and clearly have a better understanding of the sensitivities involved provides a clear view of the issue.

STATEMENT OF THE ASIAN AMERICAN TASK FORCE IN RESPONSE TO CONGRESSMAN DANA ROHRABACHER'S CALL FOR PUBLIC HEARINGS ON ASIAN AMERICAN ADMISSION ISSUES

On October 12, Congressman Dana Rohrabacher (R-Calif.) called a press conference in Washington, D.C. to urge Asian American students anywhere in the United States to come forward and to participate in public hearings, organized by the Republican Research Committee, if they think they have been discriminated aganist by any university in the admission process. He also called upon Asian American organizations "to actively poll and solicit their membership in order to help us make the public and the authorities aware of any cases of college admission discrimination."

From his public statements and published articles, including his lecture and discussion at the Hertiage Foundation on September 19, 1989, Congressman Rohrabacher has made three charges:

1. Several universities and colleges, including UC Berkeley, UCLA, Harvard, Stanford and Brown, have discriminated against Asian American applicants by two specific means:

(a) Setting an upper limit quota for Asian Americans;

(b) Using affirmative action programs or series of race-specific tracks for admission of underrepresented minorities, Afro-Americans, Hispanics and American Indians.

2. U.S. Department of Education's Office of Civil Rights has dragged its feet in its compliance review at UCLA and Harvard.

3. Several Asian American and non-Asian civil rights organizations and civil rights advocates in Congress have turned a deaf ear to his repeated calls for public hearings and vigorous enforcement of civil rights laws.

Five years ago, concerned Asian American community leaders established the Asian American Task Force on University Admissions for the sole purpose of fighting against any form of racial discrimination against qualified Asian Americans in the university admission process. The Asian American Task Force feels compelled to respond to Congressman Rohrabacher's call and charges and to clarify for the community and public-at-large what issues are at stake and what appropriate course of action Asian American parents and students should undertake.

While we appreciate the willingness of any federal legislator to fight for fair admission policies and procedures anywhere in the nation, the Asian American Task Force unequivocally opposes Congressman Rohrabacher's misrepresentation, if not exploitation, of Asian American concerns and his hostility towards affirmative action programs as mandated by the law of the land. At the September 19 Heritage Foundation forum, when questioned why he was "just pushing the Asian American cause," Congressman Rohrabacher replied that "we want to help Asian Americans but we are using this (House Concurrent Resolution 147) as a vehicle to show that America has made a mistake on affirmative action." The Asian American Task Force cannot and will not be party to any legislative proposal that seeks to undermine and destroy equal educational opportunities for racially disadvantaged groups in America.

For the past five years, with considerable support from the Asian American community, the Asian American Task Force has worked diligently to oppose unfair admission policies and to recommend changes that will treat Asian American applicants equally, especially those who are low-income and non-native speakers of the English language. Given the diversity in admission policies and procedures from one university to another, the Asian American Task Force has been very careful to examine admission practices on a specific university campus as they affect Asian American applicants and others.

Every university or college has its own elaborate set of admission policies, standards, preferences (by no means based solely on race), and procedures. All universities and colleges, however, are required to comply with the civil rights law and the U.S. Supreme Court decision in the Bakka case which sets forth guidelines for developing legitimate student affirmative action programs. To detect wrongdoings by any one university is no simple matter. To undertake a sweeping investigation on many universities simultaneously, the kind proposed by Congressman Rochrabacher, is both impossible and irresponsible. Political grandstanding can never be a substitute for obtaining justice for unsuspecting victims and for fashioning admission policies and procedures to provide lasting protection of Asian American applicants.

The Asian American Task Force initially spent an entire year investigating and documenting unfair admission practices before it issued its report in June, 1985. It then encouraged and monitored three other major reports: 1987 California Auditor General's A review of First-Year Admissions of Asians and Caucasians at UC Berkeley, 1989 Report of the Special Committee on Asian American Admissions of the Berkeley Division of the Academic Senate, 1989 Report of the Chancellor's Advisory Committee on Asian American Affairs. In addition, the Asian American Task Force held numerous meetings and university officials and provided expert testimony to state legislative oversight committees.

The painstaking commitment to and process of investigation and dialogue by the Asian American Task Force contributed substantially to the May, 1989 Report Freshman Admissions at Berkeley: A Policy for the 1990's and Beyond by the UC Berkeley Academic Senate Committee on Admissions and Enrollment, chaired by Professor Jerome Karabel. The Asian American Task Force embraces the ten well-articulated principles cited in the Karabel Report and applauds its recommendations for more fair, open and accountable policies and procedures. In specific, the Asian American Task Force notes UC Berkeley's commitment to treat economically-disadvantaged Asian American applicants fairly and its reaffirmation to maintain its student affirmative action program for underrepresented minority students.

Based on published statements, the Asian American Task Force has reasons to conclude that Congressman Rohrabacher has misused the complaints of the Asian American community with respect to the university admission controversy and that his proposed course of action or remedy is inconsistent with the law of the land with respect to affirmative action programs for underrepresented minority students.

As a racial minority group, Asian Americans are painfully aware of the lasting, harmful effects discrimination has upon its victims and of what must be done to correct historical and current injustices. Like other racial minorities, Asian Americans were victims of discrimination by the leading universities and colleges before the civil rights movement of the 1960's. Very few racial minorities, including Asian Americans, could get their feet into the door of these prestigious colleges. Also, like other racial minorities, Asian Americans have benefitted greatly from civil rights laws, not the least of which are the affirmative action programs designed to dismantle unfair barriers and rectify past injustices in university admission processes. Even though Asian Americans are no longer protected by student affirmative action programs, in the 1970's, Asian Americans benefitted from them to gain access to these colleges.

Accordingly, the Asian American Task Force opposes any admission policy that favors whites and disfavors Asian American applicants so as to maintain a floor through which non-minority students will not fall. The Asian American Task Force strongly supports affirmative action programs for underrepresented minorities as our reaffirmation to the national necessity to undo past racial injustices. We will not tolerate any attempt to use the legitimate struggle of Asian Americans against unfair admission practices as a pretext to dismantle affirmative action programs sanctioned by the U.S. Supreme Court.

The U.S. Department of Justice and the U.S. Department of Education's Office for Civil Rights have the primary responsibility to enforce Title VI of the Civil Rights Act of 1964, to ensure that no institution of higher learning is permitted to practice racial discrimination, and to secure compliance by universities and colleges with the Bakke decision. However, the Asian American Task Force opposes Congressman Rohrabacher's attempts to re-interpret civil rights laws and U.S. Supreme Court decisions. We object to the manipulation of two major law enforcement agencies and of the underlying concerns of the Asian American community to satisfy what is largely a partisan political agenda to eliminate affirmative action programs across the board. Civil rights advocates and organizations have wisely turned a deaf ear to his attempt to use Asian Americans to subvert the law of the land.

Unless Congressman Rohrabacher fully discloses the true intent of his proposed public hearings, the Asian American community has no legitimate reason to participate and all civil rights organizations should oppose openly his largely political partisan agenda to destroy affirmative action programs. The Asian American Task Force calls on the U.S. Congress and President George Bush to disassociate themselves publicly with the position of Congressman Rohrabacher.

Note:

The Asian American Task Force on University Admissions was founded in November, 1984. The work of the Task Force has been supported entirely by organizations in the Asian American community.

Task Force Co-Chairs:

Judge Ken Kawaichi, Alameda County Superior Court.

Judge Lillian K. Sing, S.F. Municipal Court.

Task Force Members:

Richard Cerbatos, Former Commissioner, S.F. Board of Education.

Henry Der, Executive Director, Chinese for Affirmative Action.

Karen Kai, Past President, Asian American Bar Association of S.F.

Bong-Hwan Kim, Former Executive Director, Korean Community Center of the East Bay.

Ron Wakabayashi, Past National Director, Japanese American Citizens League.

Allan Seid, M.D. and President, Asian Pacific Advocates of U.S.A.

Technical Advisors:

Prof. Amado Cabezas, UC Berkeley.

Prof. Chuong Hoang Chung, S.F.S.U.

Prof. Elaine Kim, UC Berkeley.

Dale Minami, Esq.

Prof. Paul Takaqi, UC Berkeley.

Prof. Ron Takaki, UC Berkeley.

Harold Yea, President, Asian, Inc., S.F.

HELP EXPEDITE THE RETURN OF KIDNAPED AMERICAN CHILDREN

HON. JIM SAXTON

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. SAXTON. Mr. Speaker, I rise to introduce two pieces of bipartisan legislation designed to stem the epidemic increase in international parental kidnaping.

Each year, a glaring vacuum in Federal law and the loopholes in our passport regulations allow international parental abduction of more than 400 children to persist. The victims are children in every State of this country.

International parental kidnaping is a crime and it should be recognized as such. My bill will add this type of unlawful act to the U.S. criminal code, making it a Federal felony, and prosecuting it in a Federal court.

On the international level, making this offense a Federal felony would greatly strengthen the hand of the State Department when negotiating for the return of these children. A Federal recognition of this crime will enable the United States to extradite parental child abductors in many cases where criminal extradition treaties exist.

Currently, the State Department will issue a passport to a minor upon application of one of the minor's parents. Thus, a parent who has shared custody of a child can leave the country with that child at will. The State Department issues passports to minors based upon the presumption that an application by one parent has the automatic consent of the other parent.

My passport bill demands that the Secretary of State not issue a passport to a minor whose custody is shared by both parents, regardless of their marital status, unless both parents give the State Department their approvals. In cases where the minor's sole custody is entrusted to one parent or guardian, a passport can only be issued if that parent or legal custodian can present proof that is satisfactory to the Secretary of State to support the custodial passport.

This legislation is critical if we are to rectify the growing problem of international child abduction. This legislation, once passed, will help us in our stand for international cooperation to solve the problem.

I urge my colleagues to join my efforts, as a matter of both principle and compassion, to make this despicable act the Federal crime it so deserves to be.

RADICALS ALREADY TESTING FLAG STATUTE: PATRIOTIC AMERICANS DEMAND A CONSTITUTIONAL AMENDMENT

HON. GERALD B.H. SOLOMON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. SOLOMON. Mr. Speaker, I feel compelled to submit for today's RECORD two items.

The first is a brief report from the Albany Times-Union, the largest daily in my district, on a flag-burning incident in Seattle. The second is a cover letter from Troy Flag Day Celebration, Inc.

Since early last summer, we have been told that no constitutional amendment was needed to protect the American flag from desecration, and that such an amendment would be both frivolous and a threat to our first-amendment freedoms. But many of us, including every significant veterans' organization, disagreed. We insisted that only a constitutional amendment would protect the American flag left defenseless by last summer's Supreme Court ruling. We insisted that a mere Federal statute would be found as unconstitutional as the Texas law reviewed by the Supreme Court.

Mr. Speaker, it is tempting to say "I told you so." The statute went into effect at 12:01 a.m. Saturday. A few hours later, a hateful rabble presuming to represent our Vietnam veterans burned an American flag in Seattle. Last Monday, four people were arrested for flag burning on the steps of the Supreme Court. They included Gregory Johnson of last summer's Supreme Court case, who obviously was itching to test the statute.

I would advise Mr. Johnson and his America-hating Marxist buddies not to show up in Troy, NY, known as the "Home of Uncle Sam" and site of the largest Flag Day celebration in the country. While Mr. Johnson and the Seattle rabble were hatching their plans, the Troy Flag Day Celebration, Inc., was circulating petitions. I will not inflate the budget deficit by having all 4,862 names on the petition printed in the RECORD, but I will submit the organization's cover letter.

I would hope, Mr. Speaker, that you will acknowledge the letter as a reminder of your promise to allow a vote on House Joint Resolution 350, the constitutional amendment on flag desecration. It took only a few hours to show us all how inadequate the statute will be in protecting our flag.

VETERANS BURN FLAG TO BUCK LAW

SEATTLE.—Vietnam War veterans burned an American flag lowered from a post office and torched 1,000 smaller flags early Saturday, saying a new anti-desecretion law is an attempt to ram patriotism down their throats.

The federal law took effect at 12:01 a.m. Saturday.

The protesters were jeered by a small group of neo-Nazi "skinheads." There were some punches and bottles thrown. No arrests were made, and there were no injuries reported.

The Washington chapter of Vietnam Veterans Against the War led a demonstration of about 200 people in front of a post office in Seattle's Capitol Hill described by Randy Rowland, a group board member, as a "festival of resistance."

Alternately chanting "Burn, baby, burn" and singing the national anthem, the crowd of protesters cheered as members of organization torched a pile of small American flags.

One demonstrator scrambled to the post office roof shortly after midnight and lowered a flag from the building's 20-foot pole. Another doused the flag with a substance—calling it napalm—ignited the banner and raised the burning emblem up the pole.

One-thousand tiny paper flags were given to protesters, who threw them into two fires burning in baking pans.

Speakers barked out 1960s-style phrases, accusing the United States of world imperialism and accusing Congress of legislating patriotism and infringing on the First Amendment right of free expression.

Burning a flag is punishable by a $1,000 fine and up to a year in jail.

TROY FLAG DAY CELEBRATION, INC.,
Troy, NY, October 17, 1989.

U.S. Senator DANIEL MOYNIHAN,
U.S. Senator ALFONSO D'AMATO,
U.S. Congressman GERALD SOLOMON,
U.S. Congressman MICHAEL MCNULTY.

The Troy Flag Day Parade, largest in the country, has been held for 22 years to promote respect for our Flag. When the Supreme Court decided that flag burning was permissible, our committee, along with the vast millions of other Americans, was outraged.

We have obtained 4,862 signatures on a petition, submitted herewith, urging passage of a constitutional amendment to protect our Flag from physical desecration. An amendment is the only sure way to safeguard our Flag.

We urge that you support legislation for an amendment.

Thank you.

Sincerely,

JOSEPH KILLEEN,
General Chairman.

GIVE ORTEGA ENOUGH ROPE

HON. DOUG BEREUTER

OF NEBRASKA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. BEREUTER. Mr. Speaker, the political philosopher Niccolo Machievelli wrote the textbook on power politics for dictators. According to Machievelli, when a dictator faces internal opposition, he should create an external threat to divert the people's attention from the sorry state of domestic affairs. By crying wolf, the dictator can arrest or eliminate opponents under the guise of national security. This is a common ploy, used by totalitarian dictators throughout the ages.

The Daniel Ortega is a modern day master practitioner of Machiavellian techniques. Only 2 weeks ago a poll revealed that Ortega and the Sandinista party were falling far behind the UNO party ticket headed by Mrs. Violeta Chamorro. The Sandinistas subtle efforts to undermine the Mrs. Chamorro and the political opposition apparently have not succeeded as they expected. It has become clear that anything approaching an open and fair election would result in the Sandinistas being turned out of office.

Mr. Ortega, faced with an increasingly effective political opposition, suddenly discovered that the peace process was threatened by the Contra forces. The Contras, composed of a relatively small force of several thousand poorly armed or unarmed fighters, was presented as a threat to the 80,000 heavily armed Nicaraguan army. According to Ortega, the threat was such that Nicaragua had to repudiate the peace process, that they had to conduct massive military operations against the Contras, and that the February elections have been jeopardized.

Mr. Speaker, the behavior of Daniel Ortega has been outrageous. It is clear that he sees the writing on the wall, and that he is trying to retain power at all costs. The problem for Ortega is that he has relied on the excuse of an external threat once too often. Most of the Nicaraguan people are clearly disgusted and disenchanted with the Sandinista regime, and it seems that Ortega is having problems rallying the Nicaraguan people to his cause.

As a recent editorial in the Lincoln Star noted, "He has isolated himself as a military dictator afraid of peace for fear it will threaten his leadership." Daniel Ortega is finding out what Machievelli discovered centuries ago—in time the people will abandon the dictator and demand peace.

Mr. Speaker, this Member would include in the record and commend to his colleagues a November 3, 1989 editorial in the Lincoln Star entitled "Give Ortega Enough Rope." As this insightful editorial notes, "Ortega's time is running out. He holds the key to his own future, and he has just repudiated peace."

GIVE ORTEGA ENOUGH ROPE

Nicaraguan President Daniel Ortega has hung one too many raps on the U.S. role in supporting the Contras when he blames it for the possibility he may cancel elections scheduled in February.

Undoubtedly, there have been Contra violations of the cease-fire agreement; hostilities are too high for this not to have occurred. But it is U.S. policy to cut off humanitarian aid to rebel groups that have broken the cease-fire. And Ortega himself promotes no greater understanding by refusing to talk directly with the Contras.

He chose Costa Rica's celebration of 100 years of democracy as his forum to announce he would not renew the 19-month-old truce with the Contras. A chorus of Latin disapproval greeted his ill-timed announcement.

He has isolated himself as a military dictator afraid of peace for fear it will threaten his leadership.

Happily, President Bush will not play his game. We will not resume military assistance to the Contras. Along with the other Latin leaders, we must insist that elections be held, we must insist on remaining true to the peace process enunciated by Costa Rican President Oscar Arias.

Let Ortega hang himself.

In 1985, when Congress finally succeeded in cutting off military aid to the Contra rebel forces, Ortega's response was to march off to Moscow, embarrassing the politicians who had supported ending Contra aid at great political cost.

Last year, Ortega cracked down heavily on dissenters in Nicaragua after Congress again defeated a military aid bill and just after Ortega had signed the cease-fire agreement.

Ortega's time is running out. He holds the key to his own future, and he has just repudiated peace.

ABORTION: A CLOSER LOOK AT PUBLIC OPINION

HON. JOHN J. LaFALCE

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. LAFALCE. Mr. Speaker, I would like to share with my colleagues an insightful article by Everett Carll Ladd, the executive director of the Roper Center for Public Opinion Research, which appeared in the Buffalo News on October 29, 1989.

Mr. Ladd's discerning article underscores several often overlooked facts regarding the perception of public opinion following the Supreme Court's July 3 decision, Webster versus Reproductive Health Services. Contrary to much explanation and analysis following this Supreme Court decision, Mr. Ladd argues that there is no substantial evidence of a major shift in the general public's thinking on abortion. I commend the following article to my colleagues as a refreshing and realistic view of post-Webster public opinion on abortion.

The article follows:

ABORTION: A CLOSER LOOK AT PUBLIC OPINION

(By Everett Carll Ladd)

Politics trades heavily in perceptions. One of the controlling perceptions in current American politics has it that a sea change has occurred in the public's thinking on abortion in the aftermath of the Supreme Court's July 3 ruling in the case of Webster vs. Reproductive Health Services.

Pro-choice activists—who generally had been satisfied with the expansive abortion rights policy set down by the Court in Roe vs. Wade (1973)—clearly were angered by the Webster ruling and shocked by its signal that the Supreme Court no longer has a majority committed to Roe. Re-energized, they may well be a more potent lobbying force today than they were prior to July 3.

But among the general public, no sea change has occurred in opinion on abortion. In fact, the public's mix of views on the issue is exactly what it has been for years.

Many commentators have badly misinterpreted public opinion on abortion, it seems, because they have assumed that most people who have thought about the issue and who have strong feelings on it must ultimately come down either "for" or "against." Millions are wholly supportive of the right to abortion, of course, or strongly opposed to abortion in most if not all circumstances—but the vast preponderance of Americans just aren't in either camp.

Part of the judgment reached by many Americans in the "great middle" is that , on abortion as on so many other questions, the idea of letting individuals, choose deserves great respect. When, for example, pollsters ask whether, "if a woman wants to have an

abortion, and her doctor agrees to it," she should be permitted to have it, large majorities consistently say yes. The other part of the judgment, however, is that abortions have been performed too often and too casually since the Roe decision, and hence that some greater restraint is needed.

The impact of these two sets of views is shown clearly by a number of studies including polls taken in March of this year by the Los Angeles Times, and by KRC-Communications Research, and in September by CBS News and the New York Times. These studies show that a large majority rejects a constitutional amendment that would categorically prohibit abortion. A woman so choosing should be able to get a legal abortion when the pregnancy results from rape or from incest, and when there is a significant chance the child will be genetically deformed. Almost consensually, Americans would permit abortions to save the mother's life.

But large majorities would make abortion illegal in cases where the claim for an abortion is that having the child at the time would force the woman to interrupt her career, that the father is unwilling to help raise the child, or that the pregnancy would cause excessive emotional stress. Almost consensually, Americans oppose abortion as a means of birth control.

Polls have regularly shown a clear majority opposed to having abortion legal in all circumstances, and about half the public willing to have its legality limited to very restrictive circumstances. For example, the CBS News-New York Times poll of Sept. 17 to 20 found 43 percent saying abortion should be "legal as it is now," 40 percent wanting it legal "only in such cases as rape, incest or to save the life of the mother," and 13 percent saying they would not permit it at all.

On whether public opinion has shifted since the Webster ruling, the large collections of "before" and "after" polling on various dimensions of the issue make clear there has been no movement. For example, on the basic question just cited—whether abortion should be legal in all cases, only in some, or not at all—Gallup found the "legal always" proportion just 2 percentage points higher right after Webster than it had been in April and six points higher than in September of last year.

The Times-CBS surveys similarly found change modest and statistically insignificant—and, such as it is, in the opposite direction. The proportion that would keep abortion legal as now was eight points lower in September than it was in April and five points less than in January.

One reason, perhaps, why many observers believe Webster has helped to shift public opinion is that they concluded—from imperfect survey data—that a majority of Americans disagreed with the court's ruling. A Yankelovich Clancy Shulman poll of July 6 showed, for example, that 61 percent rejected the court's judgment "that states can pass laws restricting women's ability to have abortions," while only 32 percent endorsed the decision.

The fact that other surveys done at the same time came up with sharply different results should, however, have invited caution. The Los Angeles Times Poll, and that by the Associated Press and Media General, found just after the Webster decision was handed down that pluralities approved it.

In fact, most Americans neither approved not disapproved of Webster—because they didn't know what it held. In their September survey, CBS News and the New York Times asked the question the right way: "In July, the Supreme Court decided Webster vs. Reproductive Health Services, a major test case about abortion. Do you approve or disapprove of the Supreme Court's decision in this case, or haven't you heard about enough about it to have an opinion?" Three-fourths of the public said they still—2½ months after the ruling—hadn't heard enough to have a view.

The public does have opinions on various specific forms of state regulation of abortion. Large majorities endorse laws that would require counseling about alternatives to abortion, and that would mandate parental notification and parental consent before a woman under 18 can have an abortion. Clear majorities also favor requiring viability testing in pregnancies of 20 weeks or more, before abortion is permitted. On the other hand, majorities oppose state action barring any public employee from performing, assisting or advising in abortion.

Some Americans would reverse the 16-year-old Roe vs. Wade ruling altogether, while others would let it stand entirely unmodified. But majority opinion has long been otherwise—and remains so today. It stipulates that abortion should not be categorically banned, but also that it should not be established as an absolute right.

DAVID T. KEARNS, RECIPIENT OF MALCOLM BALDRIGE AWARD

HON. JOHN G. ROWLAND

OF CONNECTICUT

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. ROWLAND of Connecticut. Mr. Speaker, last week Xerox Corp. chairman and chief executive officer, David T. Kearns, was presented with the Malcolm Baldrige Award by President Bush. I would like to take this opportunity to salute him and all of the fine people at Xerox who have brought this honor upon themselves, their company, and the State of Connecticut.

The Xerox Corp. Leadership Through Quality Program united the Xerox employees in a drive to improve the quality of their products and services, thereby increasing customer satisfaction. The magnitude of their success prompted President Bush to bestow this award on them. Mr. Speaker, I am sure my colleagues will agree that this drive for internal improvement is what constitutes the American way, and is the foundation of all that makes America great.

The late Malcolm Baldrige, a native of my home town of Waterbury, CT set the standards by which corporate excellence is measured. The Xerox Corp., under David T. Kearn's stewardship, has taken those standards and set an example for corporate America: People, united and working together to improve their business, can push America no where but forward.

Mr. Speaker, I invite you and all of my colleagues to join me in applauding David T. Kearns and the entire Xerox Corp. for their achievements and congratulating them on receiving the Malcolm Baldrige Award. I am honored to salute this proud Connecticut company on this occasion.

NORIEGA AND ORTEGA ARE TWO OF A KIND

HON. ROBERT J. LAGOMARSINO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. LAGOMARSINO. Mr. Speaker, this past weekend, I traveled to Panama and Nicaragua with a congressional delegation from the House Intelligence Committee to learn firsthand about the serious threats posed to United States national security by the two military dictators: Manuel Antonio Noriega of Panama and Daniel Ortega of Nicaragua.

While Panamanian strongman Noriega allowed elections last May—where I participated as an official observer—he nullified the results as soon as he realized that the majority of Panamanians had rejected his hand-picked candidate. The United States is still exerting pressure on Noriega in an effort to get him out of power and to have democratic government established once again in Panama.

In Nicaragua, we face a similar threat. Daniel Ortega is apparently beginning to see that the majority of Nicaraguans reject his Presidency and are inclined to support the opposition candidate Violeta Chamorro. Mrs. Chamorro represents the best hope in 10 years for democracy in Nicaragua. Her assessment of the political situation in her country is one of the most insightful and eloquent analyses of the Sandinista betrayal of the revolution against Somoza that I have read. It appears in today's Washington Post, and I urge my colleagues to read it carefully and suport Mrs. Chamorro's plea for continued vigilance by all of us to help ensure that free and fair elections are allowed for the Nicaraguan people.

[From the Washington Post, Nov. 8, 1989]

KEEP WATCH ON OUR ELECTIONS

(By Violeta Chamorro)

From Manila to Mexico, from Budapest to Berlin to Beijing, a great gale of democracy is blowing. But not on the Nicaraguans. What a cruel blast we've received from fate!

In 1979 we were all part of "the beautiful revolution": a great coalition that was to rid us of tyranny forever, of corrupt officials, of bullying soldiers and police, of grinding poverty, of foreign tutelage, of one-party, one-family rule. Then we were the vanguard of the democratic revolution. Now we bring up the rear.

For one brief moment in July of 1979 our people rose in joy to greet our brave *muschachos* returning victorious to Managua: Davids who had vanquished Goliath. How could we imagine that soon we would behold them behind armored personnel carriers and helicopter gunships. Soon enough the heroes of the revolution were slaughtering one another. Soon enough the workers who struck against autocracy could no longer strike or organize; the political parties that had united against the dictator could not assemble; the newspaper that had spread the word of freedom could not publish; the church that had preached liberation from the pulpit was bound and gagged.

How sad that Nicaraguans, instead of enjoying the blessings of equality and prosperity for which they risked their lives, now flee their homeland in the hundreds of

thousands. How sad that the government of which I once formed a part has become as corrupt as its predecessor, as cruel, as hated.

But we've had our fill of hatred and of opinionated warriors who promise paradise and deliver inferno. Ten years of living dangerously has brought civil war, an exodus of a fifth of our countrymen, an annual inflation of 30,000 percent, 40 percent unemployment and, for the first time in our history, mass hunger. Our industry and agriculture are paralyzed. We have gone from being the bread basket of Central America to being its basket case: an international beggar with the largest per-capita foreign debt in Latin America. Even a government-commissioned survey has found consumption to have fallen by 70 percent since the revolution. Of course the Sandinista media shout that all this is due to Mr. Reagan and now to Mr. Bush. But we Nicaraguans know full well that the shortages and the repression came before the war and the embargo.

Tired of war and warriors, of dogmas and slogans, we'd like to put our feet on the ground, our house in order. We want to be boring for a while—more like our neighbor to the south, Costa Rica—a country at peace with its neighbors where no family or party is above the law, with an army reduced to a minimum (and without any "State Security" forces at all), with no political party controlling the media, the military and the police, and with all parties allowed to compete freely at the ballot box. We do not look back: what has been positive in the revolution, we'd keep and extend. For example we would give peasants who farm nationalized lands clear title to them, and would distribute all remaining state farms to those peasants who have no land. We would like to find common ground.

We in the opposition have been able to find common ground among ourselves. Today I am proud to say that the opposition coalition includes every group that united against Somoza in 1979, except the Sandinistas, who many feel betrayed our revolution. The National Opposition Union (UNO) spans 14 parties of every political stripe: Communist, Socialist, Social Democratic, Populist, Liberal, Social Christian, Christian Democratic, Liberation and Conservative. We are supported by all the independent labor unions, business organizations, and professional groups. Anyone who knows Nicaragua will tell you that forging unity among our diverse groups and tendencies is no small achievement, especialy because our organizations have been restricted and repressed. But we have united around a common program for national reconciliation, economic reconstruction and social justice through democratic institutions.

Our common effort found fertile ground. Last month despite intimidation by Sandinista troops and myraid obstruction by government bureaucrats, a record 92 percent of eligible Nicaraguan voters formed long lines to register. As has been reported in The New York Times, the Sandinista military even went so far as to stage sham battle in an unsuccessful attempt to stop voters from registering. To frighten the people, President Daniel Ortega has called us "traitors" and "mercenaries" and "CIA agents," and has declared that a vote for us is "a vote for the enemy of the people." Pronouncing the Sandinistas "sure winners," he has emphasized that people would "not be so foolish as to vote for a loser"—darkly intimating that after a Sandinista victory opposition voters will be treated as traitors. Our jails are filled already with "enemies of the people."

But the people remain steadfast. Despite the goverment's monopoly of television (we are allowed only 15 minutes per week on a feeble channel that cannot reach many areas), despite indiscriminate Sandinista use of state transport, telephones, offices, meeting places, telegraph and copiers, despite the fact that 50 percent of our desperately needed and profoundly appreciated donations are appropriated by the Sandinista-dominated electoral commission, the people are giving us their support. Just last week an independent survey showed us winning by a margin of nearly 2 to 1. Even though the Sandinistas have unleashed their mobs to disrupt our meetings, these meetings grow larger and larger. Recently even the Sandinista mayor of Managua acknowledged that his party is losing.

Accordingly the Sandinistas have resorted to a new, more desperate and dangerous diversion. Again turning their backs on their solemn commitment to their people and to the Central American presidents, they have broken the cease-fire with the rebels. Their helicopter gunships and automatic artillery have opened fire. Their 90,000-man army sweeps through our villages on the preposterous pretext that tiny groups of poorly equipped contras constitute a "threat to national security." Lacking arguments to defend their misgovernment, the Sandinistas wish to spread fear, to chill the people into submission. This strategy must raise grave doubts about the supposed Sandinista commitment to free elections.

In view of these alarming developments I have come to this country to ask for help. With the solidarity of all those who support our cause, I believe we may secure a relatively free vote; without it we may be doomed to elections in the style of the Sandinistas ally Gen. Noriega.

Keep watch. Send observers from Congress, from state and federal government, from political parties, from labor unions, from professional and human rights organizations. Send them now. They will be witnesses for democracy. Send journalists and cameras; let your news and polling organizations conduct independent voter surveys. Help give Nicaraguans the chance to feel again the breezes of democracy.

TRIBUTE TO THE HONORABLE ROBERT L. HARDEE

HON. JOHN S. TANNER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. TANNER. Mr. Speaker, public service is a demanding, rewarding career as all of the Members of this body know. It becomes even more so at the local level where most elected public officials pursue their careers while serving in a part-time capacity in city hall or the county courthouse. I mention that as I rise today to recognize the Honorable Robert L. Hardee, who was recently recognized as having the longest continous service of any county official in Tennessee.

Mr. Hardee serves today as a member of the Madison County Commission. He was first elected to that body in 1942 when it was known as the Madison County Quarterly Court. He has served on every major committee on the commission and was a charter member of the Jackson-Madison County Airport Authority. In addition to serving his county, he was elected major of Denmark, TN, in 1948 and served in that capacity until that community surrendered its charter in 1983.

Concurrent with his community and county service, Mr. Hardee served his county in World War II, pursued a successful career as a merchant and farmer, married and raised a family, and was active in numerous civic and charity organizations.

Mr. Hardee is deserving of recognition for his devotion to his family and his community. His unselfish service is an example of the best in Government service. All Madison Countians, Tennesseans, and Americans can salute Mr. Hardee and others like him who are so vital to the success of our democratic system.

TRIBUTE TO DARREL BACON

HON. JAMES A. TRAFICANT, JR.

OF OHIO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. TRAFICANT. Mr. Speaker, I rise today to pay tribute to Darrel Bacon who is celebrating his 50th anniversary as an advisor for the Springfield Booster Boys 4–H Club. Mr. Bacon has not only served the 4–H organization with dedication but also our community.

Darrel Bacon has served 4–H in many capacities. He has been an advisor for 50 years. During that time he has worked with between 750 to 1,000 children. He has served on the 4–H Advisory Committee, the State 4–H Advisory Committee, and the County Extension Advisory Committee.

Besides Mr. Bacon's work in 4–H he has also served our community in other capacities. He was a director on the Canfield Fair Board giving leadership to the Junior Fair part of the program. He served 29 years as secretary-treasurer and advisor for the countywide Market Live-Stock Club. He has also served as a Springfield Township trustee and as a member of the Farm Bureau and the P.T.A.

Mr. Speaker, I would like to take this opportunity to thank Darrel Bacon for his outstanding service to our community and State. Mr. Bacon is a compassionate and understanding individual who takes the time to help others. It is my honor to represent this exceptional individual.

HONORING DISTRICT MANAGER HERBERT SAMUELS

HON. ELIOT L. ENGEL

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. ENGEL. Mr. Speaker, I rise today to recognize Herbert Samuels and the many years of dedicated service he has given to his community in the Bronx. This week, Community Board No. 4 in the Bronx is honoring Herbert Samuels at a reception marking his tenth anniversary as district manager. It is a fitting tribute for a man who has given so much to his neighbors.

Herbert Samuels is a charter member of the Bronx Community Board system, having served the public since his appointment to Planning Board 5 in 1963. He served on that body for 16 years as a member, officer, and chairman. In the decade as district manager of Board No. 4, Herb has demonstrated a deep commitment to his fellow Bronx residents by continually working to improve the delivery of services to his community district.

I have had the pleasure of knowing and working with Herb Samuels for many years, and it gives me great pleasure to offer him congratulations on his many years of service. I know I speak for everyone associated with Community Board No. 4, as well as the rest of the Bronx, when I convey my thanks to Herb and wish him many more years of service and achievement.

THE PLIGHT OF THE KOTLYARS

HON. GARY L. ACKERMAN

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. ACKERMAN. Mr. Speaker, I rise to express a feeling of frustration in the plight of the Kotlyar family, Soviet Jews whose repeated appeals to emigrate from the Soviet Union have been denied. Although President Gorbachev has cleared the way for many exit visas to be granted, there are still countless families who have been denied the right to practice their religion freely and be reunited with loved ones.

Mark Kotlyar is an engineer in Kiev who initially applied for an exit visa in 1977. The family was again denied in 1989, ostensibly due to Soviet claims that Mark had access to state secrets over 13 years ago. Upon graduation from the Moscow Physical and Technical Institute in 1972, Mr. Kotlyar began working at the Scientific Research Institute in Moscow as an apprentice. While there, he did some insignificant research in applied mathematics. In 1975, the obligatory work term expired and he quit the job. He is currently employed with IDEX, an arts and science association. Although access to state secrets is frequently used by the Soviet authorities as an excuse to deny exit visas, it is unlikely that Mr. Kotlyar worked with sensitive information as a recent university graduate.

Mark has a brother, Sergey, living in Los Angeles. The family believes that the separation between Sergey and the rest of the Kotlyar family led to the death of their beloved father, and the poor health of their beloved mother, as well as bringing unnecessary grief to the family.

The Kotlyar family has a modest dream—the desire to raise their children as Jews, free from any religious persecution and the dream to be reunited as a family once again. The aspiration for religious freedom is at the very foundation of the American dream; the family acts as its cornerstone. Therefore, I firmly believe that Americans have the moral imperative to champion this basic human right. Americans must speak out forcefully in support of religious freedom; an international call to conscience must be made.

So, I make this appeal for the Kotlyar family as part of the Call to Conscience, a weekly appeal to the Soviet Government by members of Congress through floor statements and correspondence on behalf of refuseniks. The Soviets must understand that the United States has adopted the cause of the refuseniks and their quest for religious freedom.

Only time will tell if Mikhail Gorbachev's glasnost will mean permanent freedom of emigration for Soviet Jews. We must not be blinded by this one word: glasnost. I will believe that Gorbachev is truly opening up Soviet society when all people who want to practice their religion freely can do so and all those who want to practice it elsewhere are given that opportunity. For Soviet Jews, glasnost may represent little more than a facade under which oppression and abuse can continue. The world sees a relaxation of tight control for most Soviet citizens and there has been relaxation of emigration restrictions in the last few months. But how long will this last? While these events have been encouraging, other trends have been rather troubling. Among these is the growth of a chauvanist, anti-Semitic mass organization called Pamyat that openly preaches hatred of the Jews. The spread of Pamyat and the official flavor that it seems to enjoy call into question our assumptions about the direction of change in the Soviet Union today. In Pamyat we see cautionary warnings about the long-term prospects for successful reform and human rights in the Soviet Union. In addition, look at the rebellions in Latvia, Estonia, Lithuania and Armenia. Look at the long terms prospects of civil unrest over a failed economy. We cannot be blind to the facts. We must take advantage of whatever glasnost does exist to secure freedom now for the Soviet Jews, or we may never have that chance again.

I appeal to the Soviet leadership to allow the Kotlyar family to emigrate. Moreover, I pray for the day when the Soviet Union will respect the basic human rights of all people, including the right of religious freedom. I pray for that day when Mark, Oxanca, Sergey and his mother may go to synagogue and have Shabbat dinner together. When being Jewish is not a crime. When a man could wear a kippot in Red Square and not fear for his life. When the Kotlyar children become the first of generations in their family to learn Hebrew and be Bar and Bat-Mitzvah. That is the day I pray for and I will neither rest nor tire until that day comes.

LEGISLATION TO AMEND THE SOLID WASTE DISPOSAL ACT

HON. WILLIAM O. LIPINSKI

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. LIPINSKI. Mr. Speaker, as you know, the improper practices of medical waste disposal pose a dire threat to the safety of our oceans, our lakes, our atmosphere and our communities. From washups of infected hypodermic needles on the New York coastline, to medical waste incinerators in Stickney, IL, the haphazard and ill regulated practices of medical waste disposal are a problem which Congress and the States can no longer choose to ignore.

Congress should be commended for its swift passage of the Medical Waste Tracking Act in November 1988. This amendment to the Solid Waste Disposal Act has established an important first step toward reducing the dangers of medical waste. Yet, the Tracking Act is only a temporary program whose results are to be evaluated by the Environmental Protection Agency at the program's completion. I do not believe this is enough.

I am introducing legislation to amend the Solid Waste Disposal Act to establish safety measures for the onsite treatment of medical waste once the tracking program has come to an end. The Medical Waste Control Amendments of 1989 require the EFP to establish regulations for the safe disinfection of medical waste or to classify medical waste as hazardous. These regulations would ensure that any waste which leaves a site has been rendered noninfectious. The regulations are accompanied by stiff criminal and civil penalties for those who do not comply.

My bill is designed to utilize the information gathered under the Tracking Act, and the amendments would not go into effect until the temporary program has come to an end. This will ensure that provisions are in place at the program's completion but that the amendments will not interfere with the program while it is in progress.

This bill is only a first step, but, I believe that it is an important step toward convincing medical waste generators to establish safe, effective treatment and disposal practices. I ask my colleagues to join me in support of this important legislation.

ESTABLISHING FORMULAS FOR DISTRIBUTING FEDERAL ASSISTANCE

HON. RONALD D. COLEMAN

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. COLEMAN of Texas. Mr. Speaker, I rise today to introduce a sense of Congress resolution that will restore fairness to the formulas used by Federal agencies to distribute Federal assistance for a number of programs. My resolution would ensure that executive agencies use the most recent figures available in computing existing formulas, so that recipients would actually receive those amounts to which they are entitled instead of amounts based on outdated figures.

In establishing formulas for distributing Federal assistance, Congress' purpose is to allocate those funds to areas of the country that most need them. One of the most frequently used variables in such formulas, for instance, is population figures. This assures that local communities and States receive their fair share of funds available depending on their relative population to other recipients of Federal funds. Yet the population in many of the communities shifts, as it does in communities nationwide. Over the course of 10 years, it is logical to assume that significant changes

occur in population concentration, yet executive agencies continue to use only decennial census information. By using the most recent statistics available from the Bureau of the Census, executive agencies will ensure that these funds are distributed using accurate information.

Mr. Speaker, the Bureau of the Census is charged with carrying out the Nation's decennial census of the country's population and its characteritics. Between each decennial census, however, the Census Bureau is also involved with preparing current surveys that provide information on many of the subjects covered in the censuses at monthly, quarterly, annual, and other intervals. In the interest of equity and adherence to congressional intent, executive agencies should use the most recent census data available in determining the amount of benefits that each entity receives under Federal assistance programs.

It is estimated that as many as 85 Government programs currently are directed to use census figures to distribute Federal assistance for functions including highway construction, medical care, support for low-income families, rent subsidies for poor families, and community care for the disabled and the elderly.

Mr. Speaker, the continued use of these outdated figures deprive communities of millions of dollars. I urge my colleagues to support this resolution.

TO DRINK FROM THE CUP OF LIFE BUT NOT DRAIN IT

HON. JOSEPH M. GAYDOS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. GAYDOS. Mr. Speaker, I would like to bring to the attention of my colleagues the passing of a man whose life exemplified the finest in the American tradition of helping others, as you help yourself to advance in life. Mr. Arch Lhormer a prominent realtor and Clairton, PA civic leader died on October 6, 1989 after a long bout with leukemia. He was 83 years old and passed away on his birthday. The citizens of Clairton have lost a good friend.

Like many of my constituents, Arch was born into humble surroundings, as the son of immigrant parents who settled in the Pittsburgh area. When his family moved to Clairton in the 1920's, he had to go to work at an early age, driving a feed truck for his father's grain business. Shortly thereafter he became a real estate broker and established a buildings supply store of his own. He got his start by tearing down old buildings in exchange for the right to sell the salvageable building materials. The resultant lumber company soon became an institution of sorts in the Monongahela Valley community.

During the Depression he and his neighbors helped each other out by resorting to the barter system. He would exchange building materials for the food which many of them grew. After the Second World War he extended credit to many returning veterans allowing them the opportunity to build their own home which they might not otherwise have.

It was the practice at the time for parents, if they could, to make a gift of land to their young men and tell them to go and build themselves a home. This was the so-called sweat equity system. The labor and much of the know-how came from the young prospective home owner and his friends working on weekends and in the evenings. The lumber and nails often came from Arch, frequently on a pay as you can basis. In addition, it was his practice to personally guarantee bank loans for land and materials. He made such guarantees in over 1,000 instances in his lifetime. He was rarely disappointed by the people to whom he extended credit.

His many civic activities included prominent involvement in the preservation and growth of the Clairton Public Library. Having been denied the benefit of a formal education, he fervently believed that the people of our area could better themselves if only the proper public facilities were maintained. In 1960 he proposed a plan to the city counsel and school board for the purchase of a suitable building and in 1961 spearheaded a drive for the addition of a children's center. In 1962, he was elected as president of the board of trustees of the library, a position which he held until his death. Through his efforts, the library's standards were raised to meet State requirements for funding, a status it retains to this day. In 1986 due to dire economic conditions in the valley the city and school board were forced to curtain support. Arch, among others, did not want the library to close so he approached many people for contributions. He also designated that on the occasion of his 81st birthday, his family and friends should make donations to the library instead of personal gifts. These two fundraisers alone netted over $10,000. With his assistance three additional grants of $25,000 each were received from 1986 through 1989. These efforts as well as yearly honorary gifts from Arch truly earned him the nickname of Mr. Clairton Library.

Arch also assisted many black churches throughout our area and in Ohio. He felt obligated to become involved in this endeavor to help ease racial problems. He worked closely with the Allegheny Union Baptist Association consisting of approximately 150 churches of black denomination. He used his expertise to help with the purchase of properties for worthy causes, arranged bank financing and assisted in securing government loans with private matching funds. For example, in one instance, he became involved in the first black senior citizen old age home located in western Pennsylvania. He contacted many prominent professional and sports figures to encourage their personal assistance to accomplish this goal. He helped to secure funds to complete construction and furnishings for the 60 unit project.

In the late 1960's he served as building chairman for Montifiore Hospital in Pittsburgh. Here his fundraising efforts resulted in an extended period of renovation and expansion of this world class facility.

Even some of his personal achievements in real estate had some positive civic consequences. He was instrumental in bringing back to useful life several downtown Pittsburgh landmarks, including the Allegheny Building, the Brooks Brothers Building, the former Frank and Seder Building, the Park Building and the Lawyer's Building. He and a group of other investors were responsible for saving the beautiful and historic William Penn Hotel, built in 1916, from the wrecking ball. Pittsburgh today retains much of its charm from an earlier golden era amid modern skyscrapers, thanks in part to the efforts of Arch Lhormer.

Mr. Speaker, Arch had a favorite saying which I believe typifies his life. That was. "To drink from the cup of life but not drain it." This saying summed up his belief that we should help others out, as we climb the ladder of success. He truly accomplished that goal.

ABOVE AND BEYOND THE CALL OF DUTY: OFFICER PAUL WILSON, OFFICER ROBERT RICO, OFFICER GREGORY RASORE, SGT. RON RODGERS, SGT. MICHAEL JACKSON, DETECTIVE JOHN DESMOND

HON. C. CHRISTOPHER COX

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. COX. Mr. Speaker, on Thursday, November 9, the people of Newport Beach CA, will honor six outstanding police officers for their determined efforts to preserve the peace and protect the citizens of our community. It is my privilege today to commend these officers in the U.S. House of Representatives for their outstanding efforts in the field of investigation and for acts of courage and quick thinking that have the saved lives of those in grave jeopardy.

Sgt. Michael Jackson, a 16-year veteran of the Newport Beach Police Department, a section supervisor with the detective division and SWAT commander, was responsible for apprehending the suspects involved in a brutal criminal attack upon the daughter of John Wayne and a friend in late 1988. Sergeant Jackson worked tirelessly through a complex web of clues, and his determination paid off. The case is scheduled to go to trial in March.

Detective John Desmond, a law enforcement officer for the past 14 years, has been with the city of Newport Beach since 1978 and attained master officer status. This year, he led a team of officers in a major murder investigation, coordinating efforts with the Federal Government and the Orange County district attorney and spending countless hours above and beyond the call of duty to bring a suspect to justice. Again, this was a difficult case, and again Newport Beach's finest excelled.

Sgt. Ron Rodgers is a veteran of the U.S. Army and received the Purple Heart in Vietnam. In law enforcement for nearly 20 years, Sergeant Rodgers joined the Newport Beach Police Department in 1973, moving up through the ranks to his current position as head defense tactics instructor. Officer Gregory Rasore has been with the Newport Beach Police Department since 1986, and was with the Department of Justice for 2 years before that.

Sergeant Rodgers and Officer Rasore saved the life of a motorist whose vehicle was rammed by a fleeing suspect. The victim's car was on fire—the smoke was so thick that the driver could not be seen—but they worked quickly and without concern for their own well being to quell the flames and pull the driver to safety.

Officer Paul Wilson is a 10-year veteran of the Newport Beach Police Department. He served in the U.S. Armly as a military police officer for 3 years. He is currently assigned as an accident investigator in the Traffic Division. Officer Robert Rico has been in law enforcement since 1987. He graduated at the top of his class at the Long Beach Police Reserve Academy, and was fifth in his class at the Orange County Sheriff's Academy.

Officers Rico and Wilson came to the aid of a man dying on the beach. Finding no pulse, the officers administered cardiopulmonary resuscitation and kept the victim's heart and lungs functioning. When paramedics arrived, the victim was rushed to the hospital and saved, only because of the immediate attention provided by the officers.

Mr. Speaker, on behalf of the citizens of Newport Beach, whom it is my privilege to represent, and on behalf of the U.S. Congress, it is my honor to recognize and thank Officer Paul Wilson, Officer Robert Rico, Officer Gregory Rasore, Sgt. Ron Rodgers, Sgt. Michael Jackson, and Detective John Desmond. Their tireless dedication and exceptional bravery serve our community and our Nation well.

THANK YOU, LORI STILLMAN

HON. ROBERT J. LAGOMARSINO

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. LAGOMARSINO. Mr. Speaker, I rise to publicly express my thanks to Lori Von Minden Stillman for her long and dedicated service to the House of Representatives, the House Interior Committee, the people of the 19th Congressional District, and to me, during her 8 years of service on the Hill, and to wish her well and Godspeed in the future.

Lori came to work for me in 1981, following her graduation from the University of Nebraska. While on my staff, she handled issues involving the Interior Committee, on which I serve, and in 1985, she became minority consultant for the Interior Subcommittee on National Parks and Recreation, which later became the Subcommittee on National Parks and Public Lands.

While on the committee staff, Lori worked on a number of important bills, including the Great Basin National Park, the Samoa National Park and the Everglades National Park addition, which the House approved yesterday. She was also involved in many wild rivers bills, including the Tuolumne and Kings in California, and my own Sespe Wilderness and Wild River Act, which also passed the House earlier this year.

Earlier this year, Lori's husband, Pat, received his first command as Captain of the Coast Guard Cutter *Forward,* now stationed in Portsmouth, VA. Pat and Lori were also blessed with the arrival of Tyler Nelson Stillman, born on June 24, and Tyler, Lori and Pat have now settled in their new home in Chesapeake, VA.

Mr. Speaker, I want to take this occasion, on the day following passage of the Everglades bill, to publicly thank Lori for her work on this and on many issues of importance to the Nation and to the State of California and the 19th Congressional District, and my wife Norma and I wish her, Pat, and Tyler, our good friends, Godspeed and good fortune in their new endeavors.

TRIBUTE TO MRS. MARY ELIZABETH FISHER GATES

HON. JOHN S. TANNER

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. TANNER. Mr. Speaker, I rise today to pay special tribute to a lady in my congressional district who will be 100 years old on November 20, Mrs. Mary Elizabeth Fisher Gates of Jackson, TN.

Mrs. Gates is the daughter of the late Jackie and Mary Fisher and is one of six children. She has a sister who is also living. Mrs. Gates attends church and Sunday school every week and lives in her own home with the care of her daughter.

This remarkable woman is the mother of two children. She has been extremely active in her church, the Macedonia Missionary Baptist Church, where she has been a member since 1923.

I would like to pay special recognition to the 100 years in the life of Mrs. Mary Elizabeth Fisher Gates. She is truly an exceptional lady.

FOREIGN TOURISM

HON. DANIEL K. AKAKA

OF HAWAII

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. AKAKA. Mr. Speaker, It is my pleasure to share some very perceptive testimony on foreign tourism recently presented by Ms. Noel Irwin-Hentschel, the president of American Tours International. Ms. Irwin-Hentschel, who is based in Hawaii, is the Nation's leader in bringing visitors from other nations to the United States. She is well aware of the positive impact tourism has on our economy, and conveys what our country will need to improve to better promote America to international travelers:

SUMMARY OF NOEL IRWIN-HENTSCHEL TESTIMONY TO BE PRESENTED BEFORE THE SENATE SUBCOMMITTEE ON FOREIGN COMMERCE AND TOURISM, SEPTEMBER 27, 1989

Tourism is America's fastest growing industry. Receipts from travel-related business have reached $537 billion, almost 12 percent of the gross national product. In addition, tourism is responsible for creating 6.6 million jobs and is one of the top three employers in 39 states.

AmericanTours International's growth and success in marketing America to international visitors is an example of the potential this market has as a means of reducing the United States international trade deficit. In just 12 years, ATI has grown from a three-person office to the country's largest Visit USA travel corporation. Each year, ATI's foreign clients bring over one billion dollars into the American economy.

ATI's success in developing the United States international visitor market can be attributed to four keys elements:

1. Pride in America.—ATI employees take their role as goodwill ambassadors very seriously.

2. Knowing and understanding our foreign clients.—All our escorts are multilingual and are as highly trained in the customs of our foreign guests as they are in the history, geography, and flora and fauna of America.

3. Creativity in our travel products.—We create travel experiences to match our foreign clients' expectations of their American experience.

4. Successful promotion.—ATI spends over one million dollars annually to market America as a travel destination for foreign markets.

With increasing international competition from other destinations, especially European countries gearing up for the arrival of the European Economic Community in 1992, the United States needs to improve its strategies for attracting foreign visitors now.

I contacted my clients—some of Europe's largest tour wholesalers in five of America's top 10 travel markets—and asked them what our country is doing well and what we can do better to promote America. They made the following observations:

Not enough assistance provided by USTTA in promoting America.

USTTA offices should be in locations that are easily accessible to the public. For example, the Milan USTTA office is in the American Consulate building where tight security makes access difficult.

Staff members at the USTTA offices in Europe are viewed as more honorary than administrative, and they do not have travel industry experience.

There needs to be better coordination and communication among the U.S. Foreign Commercial Service, and USTTA, and regional delegations coming to Europe to promote their destinations.

International wholesalers describe the lengthy and rigorous processing through immigration and customs as America's "Ellis Island" mentality. In Hawaii, for example, Japanese vistors are asked to repeatedly count their money aloud for customs agents. This experience is very humiliating and aggravating. Without sacrificing security, we should be giving foreign visitors a warmer welcome.

America is a superior travel product. A product whose potential as an international destination has barely been tapped. But we need to support that product through a coordinated effort on the part of the federal government, the state governments, and the private sector. Countries all over the world are competing fiercely for the international travel market and currently, the United States spends far less than Ireland, Malaysia, and the Netherlands to attract foreign visitors. We even spend less than Tunisia!

As founder and chief executive officer of ATI, I support congressional legislation that will give the USTTA the funding needed to promote America effectively, and I support goals and endorse legislation which recog-

nize the role of international tourism in eliminating America's export deficit.

By successfully promoting America, we not only help to eliminate America's export deficit, but we add to America's strength by creating closer friendships and global understanding.

ATI will do whatever we can do to help.

ANNUAL SALUTE TO ALL AMERICAN VETERANS

HON. BOB CLEMENT

OF TENNESSEE

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. CLEMENT. Mr. Speaker, this afternoon, I had the honor of joining Secretary of Labor Elizabeth Dole, Veterans Affairs Secretary Ed Derwinski, and representatives of the organizations that serve our Nation's veterans in the eighth annual salute to all American veterans, which was held at the Department of Labor.

Among the guests of honor at today's ceremonies was country music star Lee Greenwood, who reminded the audience of our Nation's homeless and the commitment that is necessary to assist them. Amid our Nation's great bounty, there are hundreds of thousands, if not millions, of homeless individuals. A sizable proportion of the homeless are veterans. Lee moved the audience with the eloquence of his remarks and the emotion of his new song, "Homeless American."

Lee is a great friend to our veterans. Lee has devoted thousands of hours of his time to serving our Nation's Active Duty Forces and our veterans. I am proud to have him as a friend and I thank him for his continued service to our Nation.

Mr. Speaker, I would like to share with my colleagues the words of Lee Greenwood's newest song, "Homeless American."

HOMELESS AMERICAN

(By Lee Greenwood)

The news reads "Wall Street rallies," our future sure looks bright
Yet huddled familes shiver as day turns into night.
Our Lady get refurbished, her promise made anew,
Yet night time sounds forewarn the fate of what's in store for you.
And the newsman says "And so it goes" and signs off for the day,
As the city streets start closing in upon their evening prey.
Homeless American, you've fallen through the crack.
Homeless American, what's left is on your back.
All the dreams that you've composed,
Lie shattered and foreclosed.
. . . And so it goes . . .
A fire and a memory are there to keep you warm,
A cardboard box and blankets are shelter from the storm.
We don't shoot our wounded, we've made that very clear.
But still you keep on wondering every time you hear,
"Give me your tired, give me your weary," echoing through the breeze,
If the torch still burns, why can't they see the forest through the trees.
Homeless American, we'll help you when you're down.
Homeless American, there's enough to go around.
It's the least we can extend to our fellow countrymen.
. . . And so it goes . . .
To our veterans out on the street, our debt is overdue.
You fought for freedom, surely we can find a place for you.
Homeless American, we'll help you when you're down.
Homeless American, there's enough to go around.
It's the least we can extend to our fellow countrymen.
. . . And so it goes . . .
[Repeat to fade.]

INTRODUCTION OF THE TRAUMA CARE CENTER ALIEN COMPENSATION ACT OF 1989

HON. BILL LOWERY

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. LOWERY of California. Mr. Speaker, a siren screams—you awake in the middle of the night and a combination of emotions rush through your partially functioning mind: fear, terror of the unknown, memories of pain. But as rationality surfaces there is knowledge that the injured are headed to a hospital and being given care en route. In emergency rooms and trauma centers, physicians and nurses begin lifesaving care immediately and ask questions later. After all, we are a nation which cares for its injured and dying. You can go back to sleep.

Unfortunately, sometimes when the questions are asked later at the hospital or trauma center, the answers bring the knowledge that the care just rendered won't be paid for. California hospitals now lose more than $2 billion a year for uncompensated care from all sources. California's trauma centers lose about $80 to $100 million annually. In the past few years, Florida and Los Angeles have each closed 10 trauma centers. Hermann Hospital in Houston stopped accepting seriously injured accident victims from ambulances on October 1; San Diego, New York, Detroit, and St. Louis may all face cutbacks in the near future.

Mr. Speaker, trauma care centers provide the surgical services to patients in the critical first hour after a care accident, gunshot, stabbing, or other life-threatening injury. A ready trauma center includes a highly developed transportation and communication system, sophisticated medical equipment, and an expert surgical team capable of doing whatever is necessary to save a human life. Trauma is the leading cause of death for all people under age 37; it will cause 142,000 deaths this year and cost our Nation $100 billion in care, property damage, insurance and lost wages.

As we move forward to encourage States and communities to establish trauma systems, we cannot ignore the fact that many centers have closed, and many more now struggle to stay open. Particularly hard hit are those trauma centers along our Nation's southern border. Because of their location they must treat large numbers of illegal alien/undocumented patients.

Over the past few months, I have contacted more than 40 trauma centers throughout California, New Mexico, Arizona, Texas, and Florida. From most of them I have heard the same story: despite the Immigration Reform and Control Act of 1986 and increased border patrols, aliens continue to stream into the United States. When those aliens are wounded, they receive care at American trauma centers—no questions asked.

Here's the problem. In most cases, a trauma center will learn of the immigration status of a patient only after it tries to collect for the thousands of dollars of care it has provided. Frequently, an undocumented alien will lie about his address because he fears deportation. If a hospital cannot establish residence for the patient, it has no hope of qualifying him for Medicaid or IRCA assistance. Ultimately, all along the border, hospitals must write off millions of dollars in bad debt.

Mr. Speaker, I rise today, along with nine of my colleagues from the border States, to introduce legislation designed to provide some assistance to trauma centers which must treat illegal aliens. The bills these cases generate now threaten the availability of care for all patients.

The Trauma Care Center Alien Compensation Act of 1989 provides $20 million in each of the fiscal years 1990 through 1993 to trauma centers which can show they have incurred at least 15 percent of their unreimbursed trauma expenses from treating illegal aliens. While this formula may be subject to change, I believe it addresses the most dramatic needs of the various trauma centers and will help many to stay in business.

One of the obstacles I have encountered in preparing this bill lies in the nature of the data I have attempted to collect. Because no reimbursement is available, most hospitals do not keep accurate records of their unreimbursed trauma costs due to undocumented patients. Further, local sensitivities about aliens and the threat of legal action have discouraged some trauma centers from even attempting to develop estimates. A 1987 General Accounting Report for the House Appropriation's Committee came to the same conclusion.

Through conversations with State and local officials and hospital administrators, however, I have learned that some hospitals have instituted screening and billing practices in recent years which enable them to produce reasonably accurate estimates of their losses in this area. Overall losses in trauma care have forced these centers to examine and explain their costs with unprecedented detail.

To a certain extent, the success of this bill will depend on the ability of the trauma centers to demonstrate need. I believe the Federal Government should give the benefit of the doubt to hospitals that can show they have attempted to collect on their bills, but more hospitals will also have to follow the example set by trauma units in Los Angeles, San Diego, Houston, and Phoenix in computing their debts.

Obviously, $20 million will not fully cover all the States and all the trauma centers who

need help. With the budget deficit in mind, however, I believe this bill is an appropriate response to a Federal problem. Not a panacea, it may be what is necessary to avert medical gridlock along the border.

The Federal Government cannot wait any longer. Bad debt forces trauma centers to raise their charges for insured patients, discourages doctors from serving the poor, and limits a community's ability to save lives. If we do not act now, the deterioration of our Nation's trauma systems will continue at a tragic, almost unthinkable cost.

Mr. Speaker, I look forward to working with you and my colleagues on this bill.

THE INTRODUCTION OF H.R. 3627

HON. WES WATKINS

OF OKLAHOMA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. WATKINS. Mr. Speaker, today I am introducing a bill that would amend the newly enacted Financial Institutions Reform, Recovery, and Enforcement Act [FIRREA]. In anticipation of billions of dollars' worth of real estate assets from failed thrifts being dumped on already saturated markets in the Southwest, I am proposing that Congress authorize private entities to form real estate investment trusts [REIT's]. These trusts would offer public subscriptions to fund the purchase of up to $10 billion of notes, mortgages, and real estate involved in multifamily projects. To ensure an active market in the REIT stock, I am proposing that the dividend income from such investments be exempt from Federal income tax for a finite period of time.

Favorable aspects of this measure include:

First. Giving direction to the newly formed Resolution Trust Corporation [RTC] and its Oversight Board in the creation and implementation of a strategic plan. Included among these guidelines is:

The requirement to establish working relationships with economic development organizations in economically distressed areas of the country;

The establishment of categories of assets held by the RTC, and prioritization of the sale of these assets, so as to contribute to the development of local economies; and

The development of strategic assets in such a manner that the number of local jobs are increased, so that the demand for other real properties will also be increased.

Second. Authorizing the RTC to go beyond providing loans at favorable interest rates to include taking equity positions in the development of strategic assets.

Third. Establishing procedures that will insure that the RTC does mitigate the financial devastation of local economies, which would result if billions of dollars, worth of real estate is dumped on already saturated markets. That the RTC does, in fact, comply to the requirements set forth in FIRREA, and: minimizes the impact of such transactions—the sale of real estate—on local real estate and financial markets and takes action to avoid adverse economic impact for those real estate markets that are distressed.

Fourth. Supplementing FIRREA's reporting and disclosure requirements to include an audit of RTC activities to insure that the disposition of its assets is not contributing to the deterioration of local economies and are, to the greatest extent possible, contributing to the rebuilding and expansion of local economies.

Fifth. Maximizing the cash infusion to the S&L industry and the U.S. Treasury through negotiated cash purchases of the subject properties, as opposed to costly RTC management, warehousing, and liquidation.

Sixth. Maintaining revenue neutrality. In many cases, the projects were financed by tax-exempt bonds issued under the old FSLIC program. Those that are in FDIC/RTC possession produce no taxable income; those in default, but not foreclosed, are to a great extent in the hands of bankrupt or defunct organizations or individuals, which are paying no taxes on the income therefrom.

Through a payments-in-lieu-of-taxes program, the RTC would make payments to local and State governments for the loss of revenue to those governments because of RTC's possession of said properties, thereby insuring that important governmental functions dependent on such ad valorem taxes, such as a State's school system, are not without adequate funding.

Seventh. Under the bill's tax provisions, American investors buying REIT stock would retain 90 percent of the net income from ownership of the various multifamily projects and/or purchased notes and mortgages securing the same.

Eighth. Most importantly, the U.S. taxpayers would be relieved of as much as 10 billion dollars' worth of the S&L bailout burden.

I urge my colleagues to take a serious look at this legislation. It could certainly help to relieve the burden that the S&L bailout bill has imposed on the American taxpayer and lessen the havoc that will result from dumping massive amounts of real estate upon the economies of our Southwestern States.

SUMMARY OF H.R. 3627, THE RESOLUTION TRUST CORPORATION ASSETS DISPOSAL ACT OF 1989

I. STRATEGIES FOR DISPOSING OF ASSETS IN DISTRESSED AREAS

(A) Working Relationships with Economic Development Organizations—The RTC shall identify regional, State, and local economic development organizations which exist or operate within any distressed area; and attempt to establish ongoing working relationships with such organizations in connection with the maintenance and disposition of real property and other assets within the distressed area.

(B) Establishment of Categories of Certain Assets Held by the RTC—any asset held by the RTC, which is described in any of the following clauses, shall be disposed of in the manner required below in subparagraph (C):

(1) Financial Assets—Any asset consisting of a loan, security, or other financial asset, which is secured by real property or any other asset located in any distressed area; and can be readily liquidated.

(2) Strategic Assets—Any asset consisting of real property or an enterprise (such as an industrial plant, major commercial building, or major business), which is located in any distressed area; and the operation of which is or will be (following the completion of any improvements or the infusion of any additional financing which may be necessary for such operation) or major importance to the local economy and local employment.

(3) Nonstrategic Wasting Assets—Any asset consisting of real property (such as a residence, shopping center, or other facility), which is located in any distressed area and is not described in number (2) above, which is not subject to the requirements of subparagraph (C) below, and the condition of which will decline if not maintained or occupied.

(4) Nonstrategic Nonwasting Assets—Any asset consisting of real property (such as undeveloped real estate), which is located in any distressed area and is not described in any of the above categories.

(C) Disposition of Assets Described in Subparagraph (B) Above: The disposition by the RTC of assets described above shall be subject to the following conditions:

(1) Sale of Assets—In the case of financial or strategic assets, such assets shall be offered for sale before nonstrategic wasting and nonwasting assets. Bidders which are located in the distressed area where any such asset, or the real property or other asset securing any such asset, is located shall be given a preference in the purchase of the asset.

The Corporation shall, with respect to strategic assets and in accordance with procedures which the Corporation shall establish, offer such assets in blocks which are small enough to allow local financial institutions to be bidders for such assets.

The Corporation shall consult with organizations located in the distressed area before offering such assets for sale and shall coordinate efforts to obtain financing for any such sale from financial institutions located in such area.

(2) Leasing and Maintenance of Assets—In the case of non-strategic wasting assets, the Corporation shall not sell, or shall place a lower priority on the sale of, any such asset until the local economy where the asset is located has improved and a substantial portion of the strategic assets have been sold.

The Corporation shall lease such assets or contract with organizations located in the distressed area to maintain such assets until the condition described above is met.

(3) Holding of Assets—In the case of nonstrategic non-wasting assets, the Corporation shall hold the assets located in any distressed area until the financial, strategic, and nonstrategic wasting assets are sold, unless the Corporation determines, after consultation with State or local economic development organizations, that the development of such assets would create a strategic asset which, when sold, would improve the local economy.

(D) Financing for and Sales of Strategic Assets.

(1) Cooperation with other Agencies and Organizations—In connection with obtaining financing for the development of any strategic asset and the marketing and sale of such an asset, the Corporation shall consult with and seek the cooperation of other Federal agencies and instrumentalities, State and local agencies, and organizations located in the distressed area where such an asset is located.

(2) Authorization for Corporation Financing—The RTC may provide financing for all or part of the purchase price in connection with the sale of any strategic asset, including the retention of any equity position in

such as asset or the purchaser of such an asset.

(E) Disposition of Institutions Located in Distressed Areas—The RTC shall make branches and other assets of failed S&Ls available in blocks small enough to allow local financial institutions to the bidders for such branches & other assets.

(F) Audit Procedures for Dispostion of Assets—In establishing audit procedures for reviewing the disposition of assets held by the Corporation, the Corporation shall include a review of the disposition of assets located within any geographical area to ensure that such dispositions are: (a) not contributing to the deterioration of the local economy of such an area; and (b) are, to the greater extent possible, contributing to the rebuilding and expansion of the local economy.

II. EXEMPTION FROM TAXATION FOR DIVIDENDS RECEIVED FROM QUALIFIED REAL ESTATE INVESTMENT TRUSTS [REIT'S]

(A) Exclusion for Individuals—Gross income does not include amounts received by an individual as dividends from a qualified real estate investment trust.

(1) Qualified Real Estate Investment Trust—The term means a real estate investment trust that is: (1) created after March 30, 1989, (2) has as its sole purpose the acquisition of multifamily housing projects from the RTC or the FSLIC Resolution Fund and the ownership, management, and sale of such projects or the notes and mortgages securing the indebtedness on such projects, and (3) files with its return for the taxable year an election to be a qualified REIT or has made such election for a previous taxable year, and such election has not been terminated under the provisions stated below.

(2) Termination of Qualification—An election under the latter Subsection (B)(3) shall terminate if the real estate investment trust is not a qualified REIT for the taxable year with respect to which the election is made, or for any succeeding taxable year.

(3) Applicability of Termination—A termination, as stated above, shall be effective for the taxable year for which the real estate investment trust is not a qualified REIT, and for all succeeding taxable years. Following the termination, the real estate investment trust may not make another election under Subsection (B)(3) for any taxable year.

(4) Applicability—Subsection (A) shall apply only to dividends received before January 1, 2000.

(B) Deduction for Corporations—Subsection (c) of section 857 of such Code (relating to restrictions applicable to dividends received from real estate investment trusts) is amended by adding at the end of the following: "The preceding sentence shall not apply in the case of a dividend received before January 1, 2000, from a qualified REIT within the meaning of the above section concerning dividends from a qualified REIT.

(C) Effective Date—The amendments made by the above section shall apply to dividends received after the date of the enactment of this Act, in taxable years ending after such a date.

III. CLARIFICATION OF LAW PROVIDING THAT ASSETS HELD BY THE RTC ARE SUBJECT TO REAL ESTATE TAXES

In the Corporation's corporate capacity or as a conservator or receiver, the Corporation shall pay ad valorem taxes on the real estate held by the Corporation at the same amount as would have been paid if the property were held in private hands.

IN RECOGNITION OF A VOLUNTEER'S EFFORTS IN TEACHING KIDS ABOUT DRUGS

HON. HANK BROWN

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. BROWN of Colorado. Mr. Speaker, as Americans continue to hear shocking statistics about drug use in our Nation it is important that we recognize the committed, caring people who are giving of themselves to help win the war on drugs.

Janell Reid of Crowley, CO, is one of those individuals. For the past 3 years Janell has volunteered her time, collected her own materials and driven 70 miles roundtrip at her own expense to talk to kids about drugs. Her personal effort in the Just Say No Program has touched the lives of children in elementary and junior high schools in Crowley County, CO.

Janell's personal commitment to help educate our children about the dangers of drug use is a shining example of the dedication that will help stamp out drug use by our children.

The war on drugs requires the kind of coordinated strategy that reaches out to the users and potential users, convincing them not to take drugs. The war on drugs must be fought on every street corner, in every classroom in every community. To win the war, we must reduce the demand for drugs in this country.

Although Americans consistently identify drug use as one of the top problems confronting the Nation, many do not recognize the degree to which their own children, their own schools, and their own communities are at risk. People tend to think the problem of drug abuse could never touch their lives, a problem that someone else will address.

But, the outlook is now a little brighter. Our children are turning away from drugs. Recent surveys show that despite widespread availability of illegal drugs, many people who have never used drugs, young people for the most part, have been successfully convinced not to try drugs in the first place.

Our children need to find good role models to steer them away from drugs. The efforts of volunteers like Janell Reid are meeting our Nation's call for more education and attending to the needs of our children. I commend Janell for her outstanding commitment to our Nation's children.

CONGRATULATIONS MR. RALPH E. VITIELLO

HON. ROBERT T. MATSUI

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. MATSUI. Mr. Speaker, I rise today to congratulate a dear friend of mine, Mr. Ralph E. Vitiello, on the 25th anniversary of his architectural firm, Vitiello & Associates, Inc. Having graduated and received a bachelor of science degree in architectural engineering from California State Polytechnical College, San Luis Obispo, Ralph has, since then, obtained professional architectural licenses in eight States and founded his own architectural firm in Sacramento, CA.

Ralph has been responsible for the design and restoration of some of the most well-known structures in Sacramento and Old Sacramento, including the Hayward Building, the Morris Building, the Booth Building, the Travelers Hotel, and the Franchise Tax Board.

Ralph has also contributed his time and efforts to many community organizations including, the Sacramento Community Service Planning Council, the 20-30 Club of Sacramento, the Capitol City Executive Association, and the Sacramento Metropolitan Chamber of Commerce, to name a few. He has also actively participated in many professional associations such as the American Institute of Architects, the National Trust for Historic Preservation, the Society for Marketing of Professional Services, and the Society of American Military Engineers.

Ralph's work has been honored through the receipt of various awards. In 1968, he was the recipient of the Distinguished Service Award, given by the Sacramento Chamber of Commerce. In 1986, he was selected as Sacramento's Small Businessman of the Year; and in 1989, he received the Sacramento Chamber of Commerce's architectural award for the "best apartments."

I would like to take this opportunity to commend you, Ralph, on all of your accomplishments. Your work has truly had a positive impact on the Sacramento community. I am sure your wife, Sue, and your children are very proud of what you have achieved. Congratulations to you, and all of the members of your staff, on a job well done.

SACRED HEART CHURCH—100TH ANNIVERSARY

HON. JOHN P. MURTHA

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. MURTHA. Mr. Speaker, America in 1889 was experiencing an economic boom, fueled by coal and steel production in areas such as western Pennsylvania. Many things have changed in the area which fueled the American Industrial Revolution over the past 100 years, but there are some institutions which have persevered and grown. I would like to recognize one of these, the Sacred Heart Church of Jeannette, PA, which will be celebrating its 100th anniversary on November 17.

The first mass of the Sacred Heart Church was celebrated for the approximately 100 families of the parish in a small building in the town of Jeannette on November 17, 1889. From this beginning, the Sacred Heart Church expanded quickly, establishing a school in a permanent building in 1890, and moving into the present church structure in 1924.

The Sacred Heart Church of Jeannette today serves 1,700 families in its parish. I would like to congratulate the parishioners on the occasion of the 100th anniversary of their church, and wish the Sacret Heart Church well in the next 100 years. The next century is likely to bring about as many changes as the last century has produced, but I am confident that an institution like the Sacred Heart Church will be celebrating its 200th anniversary in the year 2089.

THE DEATH OF RONALD ANDRADE

HON. BARNEY FRANK

OF MASSACHUSETTS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. FRANK. Mr. Speaker, I was very saddened to learn last week of the death of Ronald Andrade, who served as police chief in the city of Fall River. Chief Andrade became acting chief in January 1985, after a long career on the Fall River Police Force, and was made permanent chief in 1986. He served his city with courage, integrity and distinction. The job of law enforcement officials has become increasingly difficult in our society, because as we know, whatever problems exist anywhere become issues for law enforcement officials. Whenever our society fails to do well winds up increasing the difficulty of their work. Chief Andrade worked hard and well at this difficult job and earned the respect and praise of virtually all of the people in his city. I enjoyed the opportunity to work with Chief Andrade on a number of occasions, and to receive his advice from time to time on issues affecting law enforcement.

Chief Andrade was one of those dedicated individuals who reminds us all what a commitment to public service can mean in terms of benefits provided to other people. I join with the people of Fall River in extending my sincere condolences to his family.

IN HONOR OF ARCHBISHOP IAKOVOS

HON. THOMAS J. MANTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. MANTON. Mr. Speaker, I rise today to pay tribute to Archbishop Iakovos, the primate of the Greek Orthodox Church of North and South America. The archbishop will be honored this weekend by the United Hellenic American Congress for his lifelong dedication to bringing greater vitality and unity to the Eastern Orthodox Church.

Mr. Speaker, Archbishop Iakovos is the leader of 2 million Greek Orthodox in North and South America. But equally important, Archbiship Iakovos is an international leader in the field of human and civil rights. During his 30-year tenure, Archbishop Iakovos has worked tirelessly to end ignorance and discrimination throughout the world.

During the 1960's, Archbishop Iakovos marched with Dr. Martin Luther King, Jr. in Selma, AL, to fight social and racial injustice. He was an outspoken supporter of the Civil Rights Act. Archbishop Iakovos also has worked to promote understanding among the churches of the world. The archbishop was the first Greek Orthodox bishop in 350 years to visit with the Pope and the first Greek Orthodox archbishop to preach in St. Patrick's Cathedral. He also has initiated historic dialogs between the Orthodox Church, the Jewish faith and leaders of the Anglican, Lutheran, Baptist, and black churches in order to foster better mutual understanding.

Mr. Speaker, I have been fortunate to meet with his eminence the archbishop on several occasions. I have always been deeply impressed with his warmth and energy. Today, I ask my colleagues in the House to join me in paying tribute to this extraordinary man. Archbishop Iakovos' commitment to peace and understanding should be an example for us all.

DEBT LIMIT VOTE

HON. TOM LEWIS

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. LEWIS of Florida. Mr. Speaker, yesterday, as is my custom, I voted against increasing the Nation's debt limit.

As many of my colleagues are aware, I have always felt strongly that the Government should act responsibly enough so that we do not have to continually raise the debt ceiling. This can be done by simply living within our means and not relying on the credit card mentality which has become all too prevalent.

In addition, I find it appalling that the U.S. Senate continues to place "sweeteners" onto otherwise bad bills. This bill is a perfect example. The repeal of the section 89 provisions was placed onto the debt limit increase in an attempt to make it more palatable. This is no way to do business.

Since the onerous section 89 stipulations were placed in effect, I have worked for their repeal. I cosponsored legislation to repeal them, and voted for repeal during the recent budget reconciliation. Therefore I was aghast when it was placed on the debt limit increase. I cannot, in good conscience, vote for legislation that, by definition, enables the United States to become further mired in debt. Because of this stand, the Senate's inexcusable action forced me to vote against repeal of section 89, although that is not my position.

Mr. Speaker, if we are to honestly face up to the budget problems, we must put an end to our credit card mentality. No more using trust funds to lessen the deficit, no more budget gimmickry, and no more sweeteners.

MEMORIALIZING MR. EDWARD WARNER

HON. ESTABAN EDWARD TORRES

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. TORRES. Mr. Speaker, I rise today to ask that my colleagues join me in memorializing Mr. Edward Warner, a teacher, mentor, and friend to many a constituent who have traversed the halls of El Monte Union High School in El Monte, CA.

Ed Warner was the social science department head and U.S. Government teacher. His commitment to young people was easily seen in the fact that his was always the first class to be filled. His wry wit and sardonic sense of humor always made his classes true to life.

Ed Warner was a graduate of Inglewood High School. He continued his education at El Camino Junior College and then transferred to Los Angeles State where he earned his bachelor's degree in 1961 and his general secondary credential in 1962.

He was a very active participant on campus. He was the timer for the track meets, former mentor teacher, audiovisual coordinator, longtime member of the faculty advisory committee, and former basketball coach. Ed Warner was always available to create an instant audience at some school activity, if he thought there would not be a good attendance. His classes seemed to always have the best attendance record. Students did not miss assignments nor tests because he motivated them to be present.

There is no doubt in my mind that Ed Warner will be missed by his students, his friends, his colleagues, and his family. He was a master teacher who set high standards for his students and were reflective of his own life.

COMMENDATION OF LORI STILLMAN, SUBCOMMITTEE STAFFER

HON. BRUCE F. VENTO

OF MINNESOTA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. VENTO. Mr. Speaker, I want to commend Lori Stillman, a minority staffer for the Subcommittee on National Parks and Public Lands, for her efforts during the past 5 years that I've chaired the subcommittee. Ms. Stillman, who recently left the subcommittee will be missed. She worked diligently on park issues. The House action on H.R. 1727, a bill that significantly modifies the boundaries of the Everglades National Park, reflected the type of good quality staff work that Ms. Stillman exemplified throughout her service for the Interior and Insular Affairs Committee. Ms. Stillman, visiting the Everglades, came to thoroughly understand the issues involved with this key park. Of course, Ms. Stillman worked on many other National Park bills over her years of service, including establishing the National Park of American Samoa and Natchez National Historical Park, on park recreation fees, and on boundaries for Acadia National Park, John Muir National Historic Site, and Stones River National Battlefield. She also worked on the Abandoned Shipwreck Act, the Commemorative Works Act, and numerous trails. Surely Lori Stillman justifiably deserves our thanks and gratitude for a job very well done.

Having worked closely with her, I appreciate her talents and her abilities. Lori Stillman always sought ways to ensure that the minori-

ty's perspective was considered. She also worked to find solutions acceptable to all involved. I know that the subcommittee misses her positive contribution and attitude, her special spirit and dedication, and wishes her the very best in her new endeavors.

IN RECOGNITION OF SERBIAN CULTURAL HERO

HON. GEORGE W. GEKAS

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. GEKAS. Mr. Speaker, I rise today to draw the attention of my colleagues to the birthdate of one of the greatest Serbian cultural heroes of all time, Vuk Stefanovic Karadzic.

On November 6, 1787, Vuk was born in the Serbian village of Trsic near the border near Bosnia and Serbia. Throughout his life he wrote dictionaries, histories and collections of proverbs and folktales. Much of his writing was history that had been passed on from generation to generation—orally. Thus, he saved the treasures of the Serbian people for all time.

I would like to share with my colleagues the words Michael D. Nicklanovich in Serb World USA:

During his lifetime he completed some of the most stupendous works of painstaking scholarship ever undertaken by anyone anywhere at any time—with neither health nor wealth, only the will of a superman. Genius he was with a passion. Others had his ideas, but it was he who performed the enormous work to realize them and spread them. He not only made foreigners aware of the treasure of Serbian culture, forgotten by the world as Serbia lay under the Ottomans, but he also made his own people aware of their own worth and proud before the world. He is called the father of Serbian people, but he was more, the father of modern Serbian culture and the father of Serbian scholarship. As Tesla became the Serb of science in this century, so Vuk was the Serb of humanities perhaps for all time.

Mr. Speaker, Vuk Karadzic was a man of the world.

CONGRESSIONAL GOLD MEDAL FOR LAURANCE SPELMAN ROCKEFELLER

HON. MORRIS K. UDALL

OF ARIZONA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. UDALL. Mr. Speaker, today I am introducing legislation that will award a Congressional Gold Medal to Laurance Spelman Rockefeller, in recognition of his contributions and lifelong dedication to the conservation and wise use of America's natural resources and the preservation of its historic resources.

Laurance Rockefeller's contributions to natural resource conservation and historic preservation have played a major role in fostering a new era of environmental concern in the United States. He was appointed chairman of the Outdoor Recreation Resources Review Commission by President Dwight D. Eisenhower. The work of this Commission led to the establishment of the Bureau of Outdoor Recreation, the land and water conservation fund, the Wilderness Act, the National System of Scenic Rivers, and other landmark conservation programs.

President Lyndon B. Johnson appointed Mr. Rockefeller chairman of the 1965 White House Conference on Natural Beauty. The recommendations of this conference brought the concept of natural beauty to urban areas, led to the Highway Beautification Act, and increased State and local awareness of environmental issues. He also collaborated with Lady Bird Johnson in her quest to beautify America and our Nation's Capital.

Laurance Rockefeller also served under Presidents Nixon and Ford in various capacities, including the Public Land Law Review Commission, and the National Park Foundation. His environmental accomplishments in the State of New York are truly bountiful.

Laurance Rockefeller's contributions go beyond the environment. He has been one of the foremost leaders in the fight against cancer through more than 40 years of dedicated work and benefactions to the Sloan-Kettering Memorial Cancer Center. On the national level he has been a leader in promoting preventive health care.

It is with great pride that I introduce this legislation to honor this great man.

TRIBUTE TO THE MAIN POST CHAPEL AT FORT GEORGE G. MEADE, MD

HON. C. THOMAS McMILLEN

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. McMILLEN of Maryland. Mr. Speaker, I rise today to pay tribute to the main post chapel at Fort George G. Meade, MD. On Sunday, November 12, 1989, the post chapel will celebrate 55 years of dedicated service to the soldiers, sailors, air personnel, and their families of Fort Meade in a morning anniversary service.

I would like to share with you the history of the post chapel, as there are only eight buildings of its kind in the United States. Designed by an unknown architect, the chapel reflects the design of 18th century tidewater churches. In the early 1940's, stained glass windows and an altar mural were given as a gift by active duty regiments stationed at Fort Meade, and by veterans of the 79th Division. The gift was given in memory of those soldiers who trained at Camp Meade, as it was formerly known, and lost their lives in the First World War. Each window carries individual regimental crests and dedications that reflect Biblical scenes from the life of Jesus Christ.

The significance of the chapel, however, does not rest solely on its unique design and architecture. Rather, it lies in the interdenominational community of people who have belonged to this heralded chapel for more than half a century. Through two world wars, the Korean conflict, and Vietnam war, a congregation of all ages has turned to this sanctuary for companionship, solace, and spiritual guidance.

It is with great pleasure that I commend the main post chapel at Fort Meade for its valuable years of service to an expanding, increasingly diversified military community. I hope that my colleagues will join me in congratulating the chapel on its 55th anniversary and in extending best wishes for the future.

DIFFICULTIES FACED BY AMERICAN INVESTORS OVERSEAS

HON. DAN SCHAEFER

OF COLORADO

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. SCHAEFER. Mr. Speaker, we are all well aware of the growing level of foreign investments in the United States, and the number of American firms controlled by overseas interests. While our markets remain relatively open to foreign investors, I am disturbed by the difficulties Americans face when investing overseas.

Foreign nationals have invested nearly $400 billion in the United States, and for the most part these investments have been welcome. The United States has invested well over $300 billion in other countries, but increasingly such investments are unwelcome. In this age of a global economy, where the industrialized countries have become so reliant on one another, this a very disturbing development. As our economy is open for investments to the world, we should have the same opportunities abroad.

In particular, Japan has accepted American investments, but refuses to allow these investors the same rights enjoyed by Japanese investors. That is why I am cosponsoring House Concurrent Resolution 216, which urges a reduction in the numerous barriers to Americans trading with or investing in Japanese companies. One factor in determining the openness of the Japanese economy is by looking at the number of Americans serving on Japanese corporate board of directors. I call on Congress, the administration, and Japan to pursue a policy of bringing down these various barriers.

DR. HENRY BETTS: 25 YEARS OF DEDICATED SERVICE

HON. JOHN EDWARD PORTER

OF ILLINOIS

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. PORTER. Mr. Speaker, I rise today to draw my colleagues' attention to the achievements of Dr. Henry Betts. Many Americans who do not even know Dr. Betts should join in applauding this man as he is recognized on November 14 for 25 years of dedicated leadership of the Rehabilitation Institute of Chicago.

As chief executive officer and medical director of the institute, Dr. Betts is a nationally recognized leader in rehabilitative medicine. He is a pioneer in physiatry—a field which

was little known at the time he decided to make it the focus of his life's work. I have been to the institute and I have seen the work of he and his coworkers. The contribution they make to bettering the lives of disabled persons is truly amazing.

Moreover, Dr. Betts has been a tireless champion for the rights of the disabled, for efforts to prevent disability, and for expanded research. I know Dr. Betts the physiatrist and administrator, but I also know Dr. Betts the advocate for the public good. He was a strong proponent of the nationwide 21 drinking age which is now law. As a result of this statute, fewer young people travel across State lines to drink, and fewer are killed and disabled in drunk driving accidents.

Dr. Betts is a man who recognized early on that injury prevention initiatives work—that the events which lead to death and disability can often be avoided, and that a dollar spent on prevention can save the many more dollars needed to redress the consequences of injury. I applaud Dr. Betts for his advocacy of mandatory child restraint seats and seatbelt laws, and for his work for equal rights for the disabled.

My work on the subcommittee which funds the Departments of Labor, Health and Human Services, and Education has been strengthened immeasurably by the benefit of Dr. Betts' counsel. His expertise has improved my understanding of many important Federal programs, and he has propelled me to become an advocate for the injury prevention programs of the Public Health Service, and for the research and training programs of the National Institute of Disability and Rehabilitation Research. He is recognized in the Congress as a man who can be turned to for information and answers, and his insights command the greatest respect.

Finally, Mr. Speaker, I want to praise Dr. Betts the individual, a man of compassion and zeal who has committed his life to improving the lot of humankind. He possesses the inner strength that is the mark of greatness, and I am proud to join in saluting him. Thank you, Henry, for all that you have done and all that you will do.

BART—A VITAL TRANSIT LINK IN THE BAY AREA

HON. DON EDWARDS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. EDWARDS of California. Mr. Speaker, 3 weeks ago, the San Francisco Bay area suffered its worst earthquake since 1906. During the quake, a portion of the San Francisco-Oakland Bay Bridge collapsed, cutting the major transportation link between San Francisco and the east bay communities.

As a result of this disaster, the people of the bay area had to turn to the public transit systems of that region to meet their transportation needs. I am pleased to point out that public transit, by all accounts, has done an exceptional job in keeping the bay area from facing the gridlock which so many had predicted.

A major reason for this success has been the ability of the Bay Area Rapid Transit System [BART] to step up its service to meet the needs of the additional ridership. Immediately after the earthquake, BART added more cars to increase passenger capacity and extended its operating hours to provide service round-the-clock, 7 days a week. BART trains also transported food between San Francisco and the east bay to help feed the needy through the efforts of the Red Cross and other organizations.

On October 25, the Los Angeles Times commended BART's performance in the aftermath of the earthquake. I would like to insert their editorial in the RECORD. I also would like to offer my thanks to those individuals who kept the bay area moving during this crisis. Their dedication to public service and professionalism was demonstrated eloquently in a time of great need.

[From the Los Angeles Times, Oct. 25, 1989]

BART'S SHINING PERFORMANCE

Amid, all the transportation troubles that San Franciso Bay Area commuters are enduring in the aftermath of last week's earthquake, there is one bright spot—the performance of the Bay Area Rapid Transit District's subway system.

When East Bay residents awoke Monday morning and faced the prospects of trying to get to work with a major bridge and three freeways out of commission police and traffic engineers feared the worst. It was bad, with traffic clogging the remaining bridges, and rain and rough seas soaking passengers aboard crowded trans-bay ferries. But things kept moving, and major reason they did was that literally thousands of people who do not normally rely on BART gave the subway system a try and found it worked. BART officials were prepared and had pressed extra trains and cars into service. They wound up carrying 53,000 more passengers than on a normal day.

There were a few minor glitches. There was standing room only on most trains, a common annoyance on other urban rail systems but a rarity on BART. Neophyte riders had trouble figuring out the BART ticketing system, and parking was scarce at suburban stations. Clearly, if BART hopes to keep its many new customers, the system will have to be made a bit more "user-friendly."

But overall, BART has come through the Quake of '89 with flying colors. Even when the massive trembler hit San Francisco and Oakland at the height of a Tuesday afternoon rush hour, most subway riders were not a aware that there had been an earthquake. Damage to the subway was minor and it was back in partial operation by the very next morning.

BART's performance proves that subways do work, and work quite well, even in carhappy earthquake-prone California. That should bode well for Los Angeles, once its own Metro Rail system goes into operation sometime in the 1990s.

CATASTROPHIC CARE

HON. AMO HOUGHTON

OF NEW YORK

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. HOUGHTON. Mr. Speaker, today the House had another opportunity to vote on catastrophic care. This is the program Congress approved overwhelmingly just last year. It has come under heavy criticism and the majority of House Members voted again for repeal. I did not. I think repeal is a mistake. This vote will not be the end of the story.

The Buffalo News editorial of November 3 tells what could easily happen, assuming that catastrophic care is repealed. The end result is a large, large increase in Medigap rates. Also, there will be increased risk for middle-income seniors. I include a copy of that editorial. You might enjoy reading it. It says a lot.

[From the Buffalo News, Nov. 3, 1989]

THE PRICE FOR A REPEAL OF CATASTROPHIC INSURANCE

As Congress licks its wounds and tries to decide whether to repeal the 1988 catastrophic health insurance program entirely, as the House wants, or only mostly, as the Senate prefers, the word from private insurers is that higher premiums for Medigap policies are ahead.

Private firms sell these policies to millions of the retired. They cover all or part of the difference between the total cost of an illness and what the federal government will pay through Medicare.

There are many of these policies, too. One estimate is that 25 million of the 33 million Medicare recipients, or about 75 percent, carry some form of this added insurance. In a majority of cases, individuals pay the premiums themselves.

Many senior citizens who objected to the federal catastrophic health insurance program adopted in 1988 complained that it supplied coverage they didn't want or need because they already had such protection under these private Medigap plans.

But the premiums on these policies, as members of the insurance industry acknowledge, were kept down this year on the assumption that the government would be providing expanded protection through the new nationwide program.

Now that repeal or drastic reduction of these benefits is all but certain, industry estimates are for increases in Medigap premiums of from 10 percent to 43 percent.

"If the federal government covers less and we have to cover more," said one Blue Cross/Blue Shield official, "it would make sense to have a premium increase."

PROTECTION IS LOST

Thus, repeal of the program by Congress may not save people with private programs as much money as they had hoped.

One of the worst consequences of this national legislative fiasco is that millions of middle-income retired Americans will lose all or some of the protections provided by the law, protections against being wiped out financially by severe illness. The law to be repealed or stripped down would have paid many of the bills for hospital care, physicians and prescription drugs above a certain manageable amount each year.

Repeal won't hurt the wealthy, who can afford expensive private insurance. Nor will

repeal hurt the very poor, since they will be covered by Medicaid.

But it will hurt many in the middle class. Congress estimates that perhaps 20 million retired Americans with incomes below $15,000 a year would have received the insurance benefits while not paying the controversial surtax charged to more affluent seniors. Much or all of that new protection, depending on the final decision of Congress, will soon be lost.

Those among the 20 million who are not on welfare but have some income will be the big losers. Repeal will cancel their insurance protection against being wiped out financially by serious illness. Yet because of limited resources their access to the private Medigap policies will be limited—especially if premiums rise sharply.

PROGRAM WAS OVERLOADED

The catastrophic insurance fiasco exemplifies how Congress can occasionally mishandle a modest, progressive proposal. In this instance, it came from President Reagan in 1987.

In its original form, the Reagan proposal offered many fewer benefits but also did not have the special surtax, added later on, that provoked the savage fight over repeal. Congress had to add the surtax because it had decorated the original Reagan initiative with many new features that have proved less defensible to the public and substantially more expensive.

Of the Senate and House revisions, the Senate's is preferable. It strips the law of many benefits, including coverage for doctors and prescription drugs. But it is not total repeal.

It repeals the special surtax for the more affluent but retains the insurance reimbursements for hospital costs.

Repeal is a mistake almost certain to boost the costs of private health insurance for seniors. But the Senate bill, unlike that of the House, would cushion the blow.

CONGRESSMAN KILDEE CONGRATULATES MAYOR TOMLINSON

HON. DALE E. KILDEE

OF MICHIGAN

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. KILDEE. Mr. Speaker, I rise today to urge my colleagues in the U.S. House of Representatives to join me in paying tribute to a retiring public servant, Mayor J. Larry Tomlinson.

Mayor Tomlinson is retiring Friday, November 10, 1989, from his long and distinguished career as city councilman and mayor of Grand Blanc, MI. Larry has ably served the people of Grand Blanc for 15 years, the last 5 as mayor. He has shown exemplary leadership and he has worked together with the other members of the Grand Blanc City Council to move the city forward. The city of Grand Blanc undertook many important projects during Larry's tenure. Those projects include: the extension of Dort Highway; the Saginaw Street streetscapes and turnback; and the realignment of Perry Road and Bush Street. The completion of these projects are a result of the leadership provided by Mayor Tomlinson and the city council.

During his tenure with the city of Grand Blanc, Larry served on the following committees: Public safety, personnel and finance, department of public works, site plan review, and legal and legislative. He also served as police commissioner until 1980. Larry has also been deeply involved with the Tall Pine Council of the Boy Scouts of America for 25 years and is currently serving as vice president of programs.

There is no doubt that Larry will be missed by those of us privileged to work beside him in public office. He brought with him an enthusiasm for serving people and was strongly committed to making Grand Blanc a better place in which to live and work. While Larry is retiring from this phase of his career, I strongly believe he will continue to speak out on those issues affecting the people of Grand Blanc and will provide leadership whenever necessary. Mr. Speaker, it is both a privilege and an honor for me to stand before my colleagues in the U.S. House of Representatives today to pay tribute to Mayor J. Larry Tomlinson of Grand Blanc, MI. Under Mayor Tomlinson's stewardship, the city of Grand Blanc has experienced unprecedented growth and has emerged as a residential jewel of Genesee County. He is leaving an indelible imprint on our community and I wish him well in his future endeavors.

BISCAYNE PARK MAYOR ED BURKE: LEGEND IN HIS OWN TIME

HON. WILLIAM LEHMAN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. LEHMAN of Florida Mr. Speaker, my wife, Joan, and I have lived in the wonderful northeast Dade County community of Biscayne Park for over 7 years. Our community has many assets—beautiful lawns and parkways, climate, friendly neighbors, excellent services—but unfortunately, we are losing our greatest asset; our mayor Ed Burke, who has decided to retire.

Two years ago, the last time Ed tried to retire, hundreds of residents wrote, called or stopped by at the village offices to urge him to stay on. At that time, we convinced him to run for another 2-year term, and he relented. But sadly for the residents of our community, this year his decision is final.

Not that he doesn't deserve a rest. Ed Burke has served Biscayne Park since 1961 as a commissioner and as mayor. The past 29 years have brought many changes to south Florida, but Ed's hard work, foresight and good judgment helped Biscayne Park prosper despite the turmoil. In many respects, our village mirrors the personal values that Ed has brought to the job.

Mr. Speaker, I join with all of our neighbors in wishing Ed Burke and his wife, Mary, our fondest best wishes for health and happiness in the coming years. Thank you, Ed, for everything you have done for our community.

JIM BALUKEVICH INDUCTED INTO THE NEW JERSEY BOXING HALL OF FAME

HON. TOM LANTOS

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. LANTOS. Mr. Speaker, Jim Balukevich will be inducted into the New Jersey Boxing Hall of Fame at special ceremonies to be held November 10 in Garfield, NJ. I congratulate Jim on this honor, and I know many of my colleagues join me in extending best wishes to him on this occasion.

Mr. Speaker, this honor is well deserved. Mr. Balukevich is a longtime member of the Washington, DC Boxing Commission and the founder of the D.C. Boxing Hall of Fame. It is most appropriate that 3 years ago, he was inducted into the Washington, DC Boxing Hall of Fame.

Jim has been honored on many occasions for his commitment to the sport of boxing. Charlie Ross in the Massachusetts Post-Gazette appropriately called Jim Balukevich the National Boxing Goodwill Ambassador, and noted that Jim "has, incontestably, earned such honorable recognition."

Jim Balukevich's commitment to boxing is long standing and well known. In his youth, he was a Golden Gloves participant. In 1938, while he was serving in the U.S. Army in Hawaii, he joined the Schofield Barracks boxing team and won a bronze medal. More recently Jim won the Senior Olympic Middleweight Boxing Championship of America.

As a goodwill ambassador for boxing, Jim participates in a number of organizations. He is an active leader of the Veteran Boxers Association [VBA], and is their unofficial "Man in Washington," where he uses his contacts with congressional leaders to publicize and further VBA support for veteran boxers. Jim is also an active member of the American Association for the Improvement of Boxing and the west coast's Cauliflower Alley Club. He is in demand as a "presenter" and speaker at boxing, wrestling, and other sports events.

Jim not only encourages boxing, he also remembers some of the great boxers and great matches of our era. He recalls the heavyweight champion Gene Tunney, who defeated Jack Dempsey for the title. Jim called Joe Louis the best boxing champ I ever met, and observed that "I doubt there will ever be gentlemen like Joe in boxing again."

Mr. Speaker, I am delighted to call the attention of my colleagues to this latest honor, deservedly being bestowed on Jim Balukevich, and I urge my colleagues to join me in recognizing him for it.

JAMES O. GREEN

HON. WILLIAM F. GOODLING

OF PENNSYLVANIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. GOODLING. Mr. Speaker, local success stories in this competitive world are some-

times hard to come by, but I'd like to mention one very successful enterprise in my congressional district.

In 1913, Clarence Green decided to leave his place of employment and establish Green's Dairy. At that time, he employed less than 12 people. This operation became a family love affair and in 1948, James O. Green, became the sales manager for the company. By the end of the 1960's, James O. Green was the president of Green's Dairy which was not only a growing milk business but also a thriving ice cream business. As president, James O. Green saw the business grow dramatically until today there are 350 employees—and the milk, ice cream, and specialty ice cream business has also become a producer of delicious yogurt.

As the company grew, James O. Green's children, James B. and Abby Green Little, became very active in the business which remained strictly a family business until 1986 when Crowley Foods purchased Green's Dairy. However, James O. Green has the satisfaction of watching his children continue to operate the business with James B. as the president and Abby Green Little as the marketing manager.

This has truly been a family success story and I am proud to salute James O. Green as he retires from a very active involvement in Green's Dairy.

MRS. WELDON, WILL SHRIVER HONORED

HON. IKE SKELTON

OF MISSOURI

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. SKELTON. Mr. Speaker, today I rise to make the Members of the House aware of the unique accomplishments of two Missourians—Mrs. William H. Weldon of Jefferson City and her horse Will Shriver. Recently, they were both inducted into the St. Louis National Charity Horse Hall of Fame, and Will was the first horse ever to receive this prestigious honor.

Mr. Speaker, this tribute was a fitting culmination to the storied career of Will Shriver, the leading sire of American Saddlebreds and the greatest gaited horse ever to enter the ring. It was also a tribute to the patience and sound judgment of Mrs. Weldon who saw championship potential in Will Shriver when others had their doubts.

Will Shriver's career has been a story of courage and perseverance because success did not come quickly or easily to this horse. In both 1974 and 1975, he qualified to compete in the grand championship class at the Kentucky State Fair—the "Super Bowl" of horse show competitions. In both years, however, illness and injury robbed him of the chance to contend for the title. To a lesser horse, these would have been career-ending setbacks. But not to Will Shriver. Under the guidance of Mrs. Weldon, he fought back from his injuries and claimed the grand champion title in 1976 at the age of 10. He was the first Missouri horse to claim top honors in 35 years. Mrs. Weldon retired Will after his triumph and started him on a second career that led to his being named the No. 1 sire in the country in 1985, and in each succeeding year.

Mr. Speaker, I know all of my colleagues will join me in congratulating Mrs. William H. Weldon and her horse Will Shriver on receiving his much deserved recognition.

THE PETER J. O'NEILL MEMORIAL LIBRARY

HON. MATTHEW J. RINALDO

OF NEW JERSEY

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. RINALDO. Mr. Speaker, East Durham, NY, recently witnessed the dedication of an important memorial library. Dedication ceremonies were conducted as the community opened the Peter J. O'Neill, Sr. Memorial Library in memory of Peter J. O'Neill.

Long a resident of Freehold, NY, Mr. O'Neill was an active and admired member of the community. He had served as past president of the Greenville Irish American Club, a member of the Knights of Columbus, and a member of our Lady of Knock Council 6439.

This library is a fitting tribute to his memory. It will be housed at the Irish Cultural and Sports Center, where renovations are now underway. The goal is to create a warm, pleasant atmosphere where people may come and browse through materials on Irish and Irish-American subjects. The reference center will include not only books, but newspapers, magazines, children's books and videotapes.

I know I join the family and many friends of Peter O'Neill in congratulating the Irish Sports and Cultural Center on the establishment of this memorial library. It will be a significant part of the community, and I look forward to its contributions in the preservation of Irish culture.

TRIBUTE TO EDUCATION COMMISSIONER BETTY CASTOR

HON. ILEANA ROS-LEHTINEN

OF FLORIDA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mrs. ROS-LEHTINEN. Mr. Speaker, I am pleased to announce that Florida Education Commissioner Betty Castor will be given an award by the Mental Health Association, Florida division, for her continued support and work on mental health, alcohol, and drug abuse programs. The first woman ever elected to the Florida Cabinet, Education Commissioner Betty Castor is widely recognized as the State's leading advocate for education.

She has earned that recognition. Ever since she received a degree in education, Commissioner Castor has worked tirelessly as a teacher, civic leader, county commissioner, State Senator and top-level administrator to promote excellence in Florida's educational system.

Her first teaching assignment was in Uganda, East Africa. Then she taught at Holmes Elementary School in Dade County and went on to get a master's degree in education from the University of Miami. She later was elected to the Hillsborough County board of commissioners and worked as director of governmental relations for the University of South Florida. During three terms as a State Senator, she distinguished herself as an expert on the education budget, receiving numerous awards for her innovation and leadership.

In her first year in office, she has reorganized the department of education, trying to make it more responsive to the needs of districts, teachers, communities and most of all, the students. She emphasizes successful programs, business partnerships, professionalism in teaching and preparing students for today's competitive world marketplace.

Mr. Speaker, I wish to congratulate Commissioner Castor for her award and hope that she continues to promote good programs in Florida.

A SALUTE TO ZONTA INTERNATIONAL

HON. CONSTANCE A. MORELLA

OF MARYLAND

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mrs. MORELLA. Mr. Speaker, I am pleased to rise today to congratulate the leadership and members of Zonta International on the occasion of its 70th birthday.

Zonta International is the worldwide service organization of executives in business and the professions working to improve the legal, political, and professional status of women. In addition to local service projects in their own communities, Zonta members support a variety of international service projects.

The first Zonta club was established in Buffalo, NY, In 1919. Today, there are 35,000 members in 1,000 clubs in 50 countries. I am pleased to recognize this exemplary organization today as it celebrates its 70th birthday, and I know we can count on Zonta to make many more contributions to both our local and world communities for years to come.

USAIR AND MARINA DEL REY JUNIOR HIGH ADOPT-A-SCHOOL

HON. JULIAN C. DIXON

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

Wednesday, November 8, 1989

Mr. DIXON. Mr. Speaker, it is with great pleasure that I salute USAir and Marina del Rey Junior High School for their involvement in the Adopt-A-School Program. The students from Marina del Rey Junior High, which is in the 28th District of California, have prospered greatly from this vital relationship for the past 3 years.

Over 10 years ago, the Adopt-A-School Program was established between the Los Angeles Unified School District and several corporations in our area. Since that time, the program has expanded to include several hundred Adopt-A-School ventures between local businesses and schools throughout Los Angeles. The many ways in which a company can

share its resources through the Adopt-A-School Program include one-on-one counseling; group tutoring; career counseling; sharing hobbies and interests; and providing incentives for good attendance, citizenship, and scholarship.

Marina del Rey Junior High School was first adopted by Pacific Southwest Airlines [PSA] which had an Adopt-A-School Program with many schools in the cities which it served. Two years ago, USAir continued this program in the footsteps of PSA with Marina del Rey Junior High as its first participant. With the tireless work of Michael A. Beatty, Adopt-A-School coordinator from USAir, and Freeman Hodge, Adopt-A-School student activities coordinator from Marina del Rey Junior High School, this program has become a great success and an important part of the lives of the students at Marina del Rey Junior High.

The Adopt-A-School Program has given Marina del Rey Junior High students positive motivation and encouragement to improve their educational performance. Through their partnership with USAir, the students at Marina have taken part in activities ranging from citizenship ice cream feeds and career fairs, to trips to Washington, DC for winners of the Adopt-A-School essay contest. USAir has shown its commitment to corporate social responsibility by inspiring students and providing them with opportunities that may not have been available to them otherwise.

USAir and Marina del Rey Junior High School have shown their commitment to improving the quality of education and our children's lives. The youth of today are facing many life-threatening choices, and it is reassuring to see that community members are joining forces to help them make the right decisions.

Again, I would like to commend USAir and Marina del Rey Junior High School for their dedication and commitment to the Adopt-A-School Program.

SENATE COMMITTEE MEETINGS

Title IV of Senate Resolution 4, agreed to by the Senate on February 4, 1977, calls for establishment of a system for a computerized schedule of all meetings and hearings of Senate committees, subcommittees, joint committees, and committees of conference. This title requires all such committees to notify the Office of the Senate Daily Digest—designated by the Rules Committee—of the time, place, and purpose of the meetings, when scheduled, and any cancellations or changes in the meetings as they occur.

As an additional procedure along with the computerization of this information, the Office of the Senate Daily Digest will prepare this information for printing in the Extensions of Remarks section of the CONGRESSIONAL RECORD on Monday and Wednesday of each week.

Any changes in committee scheduling will be indicated by placement of an asterisk to the left of the name of the unit conducting such meetings.

Meetings scheduled for Thursday, November 9, 1989, may be found in the Daily Digest of today's RECORD.

MEETINGS SCHEDULED

NOVEMBER 13

9:30 a.m.
Labor and Human Resources
To hold hearings on S. 1425, to make nutrition labeling information mandatory and to provide for clear standards governing the claims that can be made about foods.
SD-430

2:00 p.m.
Energy and Natural Resources
To resume hearings on the Department of Energy's efforts to improve the operations and management of its atomic energy defense activities and its efforts to restore public credibility in the Department's ability to operate its facilities in a safe and environmentally sound manner, and on S. 972, S. 1304, and S. 1802, related measures with respect to the environment, safety, and health aspects of operation of the Department of Energy's nuclear facilities.
SD-366

NOVEMBER 14

9:30 a.m.
Energy and Natural Resources
To hold oversight hearings on potential alternative energy sources for transportation, focusing on compressed natural gas, reformulated gasoline, ethanol, and electricity (electric vehicles).
SD-366

Environment and Public Works
Superfund, Ocean and Water Protection Subcommittee
Business meeting, to mark up S. 657, to authorize a national program to reduce the threat to human health posed by exposure to contaminants in the air indoors.
SD-406

Judiciary
Antitrust, Monopolies and Business Rights Subcommitte
To hold hearings to examine whether cable television is supplementing network coverage of sports programming
SD-226

Small Business
To hold hearings on the nomination of Kyo R. Jhin, of Maryland, to be Chief Counsel for Advocacy, Small Business Administration.
SR-428A

Select on Indian Affairs
To hold oversight hearings on Indian Veterans' program.
SR-485

10:00 a.m.
Labor and Human Resources
To hold hearings to review the status of American math, science, and engineering education in the United States.
SD-430

NOVEMBER 15

9:30 a.m.
Veterans' Affairs
To hold hearings on health care for rural veterans.
SR-418

10:00 a.m.
Agriculture, Nutrition, and Forestry
To hold hearings on pending nominations.
SR-332

Environment and Public Works
Toxic Substances, Environmental Oversight, Research and Development Subcommittee
To hold hearings to review the Environmental Protection Agency's enforcement program.
SD-406

Special on Aging
To hold hearings to examine the affects of drug abuse on the elderly in urban and rural settings.
SD-628

2:00 p.m.
Environment and Public Works
Water Resources, Transportation, and Infrastructure Subcommittee
To hold hearings on S. 1804, to reduce the amount of Federal highway funds allocated to any State that does not provide for the revocation or suspension of the driver's license of any individual convicted of a drug offense.
SD-406

NOVEMBER 16

9:00 a.m.
Commerce, Science, and Transportation
Communications Subcommittee
To hold oversight hearings on the implementation of the Cable Telecommunications Act (P.L. 98-549).
SR-253

9:30 a.m.
Energy and Natural Resources
To resume hearings on a committee amendment to S. 406, Competitive Wholesale Electric Generation Act.
SD-366

Special on Aging
To hold hearings to examine how individuals, hospitals, States, and governments from various countries attempt to purchase prescription drugs in the United States at a fair and reasonable cost, and to determine how successful their efforts have been.
SD-628

NOVEMBER 17

9:00 a.m.
Commerce, Science, and Transportation
Communications Subcommittee
To continue oversight hearings on the implementation of the Cable Telecommunications Act (P.L. 98-549).
SR-253

10:00 a.m.
Environment and Public Works
Toxic Substances, Environmental Oversight, Research and Development Subcommittee
To hold oversight hearings on the regulation of lawn chemicals.
SD-406

NOVEMBER 21

10:00 a.m.
Judiciary
Constitution Subcommittee
To hold hearings on S. 1236, to provide for a waiting period before the sale, delivery, or transfer of a handgun.
SD-226

DECEMBER 5

9:30 a.m.
Energy and Natural Resources
To hold oversight hearings on the Department of Energy's implementation of the civilian nuclear waste program.
SD-366

SENATE—*Thursday, November 9, 1989*

(Legislative day of Monday, November 6, 1989)

The Senate met at 10:30 a.m., on the expiration of the recess, and was called to order by the Honorable CHARLES S. ROBB, a Senator from the State of Virginia.

PRAYER

The Chaplain, the Reverend Richard C. Halverson, D.D., offered the following prayer:

Let us pray:

I will say of the Lord, He is my refuge and my fortress: my God; in him will I trust.—Psalm 91:2.

Almighty God, eternal refuge, on behalf of the Senators, their families, and all support staffs on the Hill, thank You for the Capitol Police, their faithful, tireless labor for the security of people and place. Participants in the Capitol Police awards ceremony yesterday revealed unusual dedication. Almost daily, demonstrators demanding arrest, dangerous persons with weapons, and many other incidents threaten the Senators. Often at risk of life, these committed men and women respond courageously, quietly, efficiently. Meanwhile, business as usual goes on in offices and Chamber, oblivious to the events, minor and major, which require instant action. Heroism is a common occurrence, though to those not involved, police work seems routine. They save lives and property unknown to us, yet their attitude is they are simply doing their duty.

Thank You, God, for these extraordinary servants who hourly walk the fine line of hospitality and security, diplomacy and protection. Help us never to take them and their service for granted. Bless them and their loved ones. Protect and preserve them in their daily round. In the name of the Servant of servants, Jesus. Amen.

APPOINTMENT OF ACTING PRESIDENT PRO TEMPORE

The PRESIDING OFFICER. The clerk will please read a communication to the Senate from the President pro tempore [Mr. BYRD].

The legislative clerk read the following letter:

U.S. SENATE,
PRESIDENT PRO TEMPORE,
Washington, DC, November 9, 1989.

To the Senate:

Under the provisions of rule I, section 3, of the Standing Rules of the Senate, I hereby appoint the Honorable CHARLES S. ROBB, a Senator from the State of Virginia, to perform the duties of the Chair.

ROBERT C. BYRD,
President pro tempore.

Mr. ROBB thereupon assumed the chair as Acting President pro tempore.

RECOGNITION OF THE MAJORITY LEADER

The ACTING PRESIDENT pro tempore. Under the standing order, the majority leader is recognized.

THE JOURNAL

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Journal of the proceedings be approved to date.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

SCHEDULE

Mr. MITCHELL. Mr. President, following the time reserved for the two leaders this morning, there will be a period for morning business until 11 o'clock with Senators permitted to speak therein for up to 5 minutes each.

At 11 a.m., the Senate will resume consideration of H.R. 3014, the legislative appropriations conference report, under the provisions of a unanimous-consent agreement of last evening. This agreement provides that the only amendment in order is one to be offered by Senator WILSON to the House amendment to Senate amendment No. 6, the subject of which is mass mail. The Wilson amendment will be considered under a 1-hour time limitation with the vote occurring when the time is used or yielded back.

Mr. President, Senators should therefore be alerted that a rollcall vote could occur around noon today.

Once we have disposed of the legislative conference report, the pending business will be the Poland-Hungary assistance bill. I hope we can make some progress on that matter today before completing our business.

Tomorrow is the day on which the Veterans Day holiday is formally celebrated, and the Senate will not be in session tomorrow.

RESERVATION OF LEADER TIME

Mr. MITCHELL. Mr. President, I reserve the remainder of my leader time. I yield to the distinguished Republican leader.

The ACTING PRESIDENT pro tempore. The time for the majority leader is reserved.

Mr. MITCHELL. Mr. President, I suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The absence of a quorum having been suggested, the clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

MORNING BUSINESS

The ACTING PRESIDENT pro tempore. Under the previous order there will now be a period for morning business not to extend beyond 11 a.m., with Senators permitted to speak therein for not to exceed 5 minutes each.

The PRESIDING OFFICER. The Senator from Nevada is recognized.

Mr. REID. I thank the Chair.

(The remarks of Mr. REID pertaining to the introduction of S. 1861 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

UNION OF AMERICAN HEBREW CONGREGATIONS PASSES ARMENIAN GENOCIDE RESOLUTION

Mr. DOLE. Mr. President, the Union of American Hebrew Congregations—a major reform Jewish organization—met recently in New Orleans for its annual convention.

Among other actions taken by the convention was passage of a joint resolution commemorating the victims of the Armenian genocide, and urging passage of Senate Joint Resolution 212—the Armenian genocide resolution I introduced.

Last week, in remarks on the floor, I indicated my disappointment that some Jewish Americans had chosen to oppose and work against my joint resolution.

For that reason, I especially want to take note of the convention's action; to commend it for its decision; and to express appreciation for its support of Senate Joint Resolution 212. I also want to note the fact that the distinguished Senator from Michigan [Mr. LEVIN] was there and spoke to the

group, and I think, in large part turned them around from what I thought might be the response of the convention. I appreciate the support of Senate Joint Resolution 212.

I ask to have printed in the RECORD the text of an article from the Fresno Bee newspaper, which provides some interesting insights into the convention's consideration of its own resolution; and which also includes the text of the resolution passed by the convention.

There being no objection, the article was ordered to be printed in the RECORD, as follows:

[From the Fresno Bee, Nov. 7, 1989]

FRESNANS WIN GENOCIDE RESOLUTION

(By John G. Taylor)

NEW ORLEANS.—A drive for national recognition of the Armenian genocide surged forward Monday when a resolution pushed relentlessly by Fresno's Temple Beth Israel was unanimously approved by the Union of American Hebrew Congregations.

After 20 minutes of debate, delegates stopped a political seesaw that as late as Sunday night seemed destined to doom the resolution because of the Fresno temple's insistence on using the word "genocide" instead of "tragedy" or "massacre."

In adopting the resolution, the group, which represents as many as 1.5 million Reform Jews in the United States and Canada, approved:

A commendation to the U.S. Holocaust Memorial Museum for "its announced decision to include reference to the Armenian and other genocides to the extent that they help illuminate or relate to the story of the Holocaust."

An instruction to the Reform movement's Religious Action Center in Washington, a lobbying group, "to encourage passage of S.J. Res. 212, a joint resolution now before the U.S. Senate designating April 24, 1990, as "National Day of Remembrance of the 75th Anniversary of the Armenian Genocide of 1915-1923."

An exhortation to Jewish congregations to become educated "as to the facts and the lessons of these tragic chapters of modern history."

Additional background information was approved that noted the "shameful chapter" of Ottoman Turkish history, in which 1.5 million Armenians were exterminated.

Also drawn was a distinction between the Ottomans and modern-day Turkey: "Our respect for modern Turkey's traditions of pluralism should not deter us from learning the lessons of past mistakes."

The resolution that was first put to the floor had erased all mentions of genocide, replacing them with "tragedies" and "massacre." Robin Fox, Fresno Temple Beth Israel sisterhood president, rose to amend that resolution and reintroduce language that the resolutions committee had refused to allow.

Several speakers strongly opposed use of the term "genocide," the notion of endorsing a Senate resolution and even the watered-down version of the proposal.

A delegate from Detroit cited terrorism from Armenian groups, the insistence by some Armenians on "vengeance," and "the giving up of identity of our own people."

Another delegate from Massachusetts who said he was speaking on behalf of his rabbi, who was born in Turkey, claimed that the "facts of the genocide are not well-known."

But the dominating arguments by far came from supporters of the genocide resolution.

Fresno Rabbi Kenneth I. Segel, who spent countless hours lobbying on the convention floor and by telephone, spoke from impassioned speeches by Elie Wiesel and the congregation's own leader, Rabbi Alexander Schindler.

Schindler's Armenian Martyrs' Day speech of 1987 and eloquent and unexpected remarks made by U.S. Sen. Carl Levin, D-Mich., here Sunday night were widely believed to have signaled a change in the resolution's outlook.

Rising to support the genocide resolution were delegates from New Jersey, Virginia and Rabbi Alfred Gottschalk, a Holocaust survivor and president of Hebrew Union College in Cincinnati.

Gottschalk said: "This resolution shows solidarity with those who suffered before our own people . . . and that these crimes cannot be engaged in again."

Segel, his voice breaking with emotion, said that because of "truculent resistance" and denials by the Turks, Armenians have been denied the access to punishment and recognition of tragedy that the Jewish people have been accorded.

"It happened. It is real. It must not be denied," Segel said.

Although some of the 3,500 delegates attending the five-day convention had left when the genocide resolution was heard shortly after noon Monday, many of its vocal backers remained.

Hugs, handshakes and congratulations were pressed on Segel, his wife, Sandra, and Fox. Congregation President Marc Wilson and his wife, Sandy, who had been active in trying to round up delegates, were forced to leave early Monday.

A weary but beaming Segel said afterward: "I'm not a power broker. Fresno is not San Francisco or L.A. We brought something to the convention because it was right and moral, and it prevailed. Morality prevailed. . . . I'm proud to be a Reform Jew and a rabbi.

"The real winners are the Armenians, the self-respect and the Armenian community. The real losers are tyrants and despots who shed blood, who suppress human rights and dignity," said Segel, who may try to bring forward similar resolutions at rabbinate conferences.

"I hope as a result that other groups will follow and that in some way, a crescendo will rise in expressing moral outrage (and in support) on the Senate resolution. And that, maybe, the Turkish government will finally express culpability."

ARMENIAN GENOCIDE RESOLUTION

This is the exact text of the Armenian genocide resolution passed unanimously by the Union of American Hebrew Congregations.

TITLE: 1915 GENOCIDE OF OVER 1 MILLION ARMENIANS

The massacre of over 1.5 million Armenians beginning in 1915 by the Ottoman Turks and the subsequent exile of an additional 500,000 Armenians is one of the most shameful chapters of modern history.

Elie Wiesel, a past U.S. Holocaust Memorial Council chairman said, "Before the planning of the final solution, Hitler said, 'Who remembers the Armenians.' He was right. No one remembered them, as no one remembered the Jews. Rejected by everyone, they felt expelled from history."

The U.S. Holocaust Memorial Museum Executive Council has unanimously agreed to include reference to the Armenian and other genocides to help illuminate or relate to the story of the holocaust.

We recognize that the Turkey of today is vastly different from the Ottoman Empire of 1915. Our respect for modern Turkey's traditions of pluralism should not deter us from learning the lessons of past mistakes.

The genocide is one of those instances of mass destruction which has both preceded and followed the holocaust to which the U.A.H.C. has drawn notice over the years, that their lessons might not be forgotten (among them Biafra and Cambodia).

Therefore, the Union of American Hebrew Congregations resolves to:

1. Commend the executive committee of the U.S. Holocaust Memorial Museum for its announced decision to include reference to the Armenian and other genocides to the extent that they help illuminate or relate to the story of the holocaust.

2. Instruct the reform movement's Religious Action Center in Washington to encourage passage of S.J. Resolution 212, a joint resolution now before the U.S. Senate designating April 24, 1990 as "National Day of Remembrance of the 75th Anniversary of the Armenian Genocide of 1915-1923."

3. Educate our congregants as to the facts and the lessons of these tragic chapters of modern history.

Mr. DOLE. Mr. President, I reserve the remainder of my time.

The ACTING PRESIDENT pro tempore. Without objection, the remainder of the Republican leader's time is reserved.

TRANS-ANTARCTICA EXPEDITION—DAY 107

Mr. DURENBERGER. Mr. President, I rise once again to give my colleagues an update on the 4,000-mile Trans-Antarctica expedition.

Today is day 107 for the six-man team. They have dogsledded nearly 1,275 miles since they began in August and nearly 200 miles in the last 7 days. The daily average is about 20 miles per day. Their average should improve as they reach the continental plateau. Thus, although they are about three weeks behind their schedule the team is still optimistic that they can complete the 4,000-mile trek by March 1990.

The team is past their newly established base camp at Patriot Hills on the back side of the Ellsworth Mountains. This range contains the highest mountains on the continent, including the 4,900-foot Mount Vinson. To reach the new camp their path took them through a mountain pass with many dangerous crevasses. In fact on Sunday, November 4, the team ran into a crevasse that was over 200 meters deep—that, when combined with the bad weather, forced them to stop for the day.

Besides crevasses, the team has another problem. The only female of the

42 dogs the team brought with them is in heat! That dog, Thule is very strong and smart, serving as lead dog for the trek. Thus, as the team leader Will Steger put it, "the dogs have a new incentive to pull with vigor." Mr. President, I believe that is an understatement. It must be chaos. Imagine all those male dogs, most of them part wolf, chasing the only female. In fact, it became so disruptive that Thule had to be moved to the back of the last sled.

Last Friday was the team's 100th day on the ice. They had hoped to celebrate with vodka that the Soviet team member Victor Boyarsky had brought along. But the vodka was one of the sacrifices the team made when it sent nearly half of its equipment back to the Chilean head camp to lighten the load and speed travel. So, they celebrated with herb tea instead.

Mr. President, after 100 days together the team has developed a routine that has them traveling from 8 to 12 hours a day as weather, daylight, and terrain permit. During the day they stop only a half-hour lunch break. They divide the chores into three parts: Feeding the dogs, cooking the meals, and setting up camp. At about 6 p.m. each day the team stops for the day and makes camp, eats, contacts the rest of the world, reads, writes in their diaries, and prepares for the next day.

Mr. President, the six adventurers are pursuing a difficult dream, one that I share, and I hope that my colleagues will begin to appreciate some of the wonders that the good Lord has created in all of us, as exemplified by these adventurers from six of the nations of the world.

The ACTING PRESIDENT pro tempore. The Senator from North Dakota is recognized.

Mr. CONRAD. I thank the Chair.

(The remarks of Mr. CONRAD pertaining to the introduction of S. 1862 are located in today's RECORD under "Statements on Introduced Bills and Joint Resolutions.")

Mr. CONRAD. I appreciate the indulgence of the Chair and I yield the floor.

The ACTING PRESIDENT pro tempore. The Chair recognizes the Senator from North Carolina [Mr. SANFORD].

MASSIVE DEBT AND BUSINESS

Mr. SANFORD. Mr. President, when I think of our $3 trillion debt, and our annual interest to service that debt of a quarter of a trillion dollars, compounding like an avalanche, I think of three groups:

First, the Social Security beneficiaries of the year 2000 and beyond, who are going to find that the nest has been robbed of the eggs, and the chicken along with it. We have borrowed their funds in past years to spend on military and other government, and now we are borrowing it all each year just to pay the interest.

Second, I do not envy the eager, hard-working generation—age 25 to 40—who are going to be in control of a nation bankrupt and declining in wealth and influence. Before any one of them can reach the age of 50 our national debt could equal our gross national product, and then surpass it. How will they handle that debt? What will they think of our betrayal of them in piling up for them massive secret debt?

Third, I shudder for business, built by hard work and faith. This week I held a Budget Committee hearing in Charlotte, NC. Here is what they said:

An executive of a large electric utility company:

> The budget deficit exerts upward pressure on interest rates. [These] higher interest rates contribute to a higher cost of building the generating, transmission and distribution systems required to meet the demand for electricity. Over time, the deficit's effect on capital costs means higher rates for customers. [Also] higher interest rates add to the cost of electricity which then adds to the costs of industrial and other business customers, reducing their competitiveness.

An executive of a major national insurance company:

> Simply put, if inflation and interest rates are running too high, a sense of hopelessness can develop which leads our citizens to conclude there is nothing worthwhile that they can do to help themselves save for retirement.

The CEO of a major food company:

> The problem for most businesses in dealing with the deficit is the huge hidden loss. We are always playing defense. Everyone you deal with borrows money and is affected by high interest rates and limitations on growth that come from deficit.

A young woman, CEO of textile related investments, with a number of companies:

> Despite all the major strides the textile industry has made to invest to become more competitive, including the investment in over $2 billion in new equipment in 1988, this industry and others that are import sensitive are bearing the brunt of our budget deficit. Until we address the budget deficit problem, we cannot solve our trade deficit troubles.

The head of an Afro-American business organization, and a successful Chrysler dealer:

> The budget deficit has been costly to black Americans. President Reagan decided to allow the U.S. budget to run into the red and borrow money to make ends meet. . . . Black Americans lost the chance that gave us the opportunity to break out of the cycle of poverty.

An executive of a major regional bank:

> Chronic deficits are of grave concerns to bankers. Those deficits have impaired our ability to compete in world markets, undermined the credit worthiness of our customers and blurred our vision for the future. The 1980s are likely to go down in history as the decade of "debt mania." We bankers are beginning to wonder if we've become unwitting "pushers" to a nation of "debt junkies."

So business ought to be concerned. And we ought to be concerned for business. Jobs and future careers and stable homes are at stake when American business is threatened.

How bad is it? The budget sent to Congress had built into it a deficit of $270 billion, and a coverup of all but $100 billion, once again visiting vast fraud and deceit on the American public. How bad is it? Of every dollar we collect in nondedicated taxes this year, 40 cents will go just to pay interest on the national debt.

How bad is it? As one executive at this hearing commented, it is an implicit mortgage of $45,000 owed by every family in America.

It is time that we had an honest budget. It is time to strip away the deceit and fraud. That is the first step.

The ACTING PRESIDENT pro tempore. The Chair recognizes the Senator from Minnesota [Mr. BOSCHWITZ].

EXTENSION OF MORNING BUSINESS

Mr. BOSCHWITZ. Mr. President, I ask unanimous consent that morning business be extended for an additional 15 minutes.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

CAPITAL GAINS

Mr. BOSCHWITZ. Mr. President, I rise to speak about capital gains and the need for lowering the capital gains rates that is before the Senate but probably will not be passed, as I read the tea leaves, in this particular session of the Senate, though I am most hopeful that it will occur later on.

Much is made, Mr. President, of the fact that capital gains are supposed to inure largely to the rich. I would like to address that for just a moment. It may indeed be that many capital gains or most capital gains do inure to those people whose incomes exceed $100,000, and I would like to also examine them.

But one must consider first that capital gains inure principally from assets that are held by American citizens. The principal assets of Americans are their homes and the capital gains from homes have been largely excluded from taxation. If you sell your home and you make a capital gain and you invest in a new home that has a value that exceeds the value of the old home, there is no capital gains reported at that moment. If you are over 55 and you have a capital gain on your home, the first $125,000 of that gain is exempted from taxation. So the principal asset of most Americans is exempted from capital gains taxation for all practical purposes.

Second, the second largest asset that most Americans have is the value of their pensions and the pension funds that are put together, either through their own savings or the contributions of an employer or a combination of the two. That is a huge part of the pool of capital in this country. I have read it is in the 25- to 30-percent range of the total capital in the country. That, too, is exempted from capital gains taxation.

So when you take the principal assets of most Americans, exempt them from taxation, what do you have left? You have left the gains that inured to Americans from savings or investments that they have made. And indeed that may inure, as I say, to people whose income is higher. Capital gains, almost by definition, are entrepreneurial, risk taking. They are the results of taking risks. Many Americans choose not to do that. Capital gains are also the results of investing savings, savings that are the result of after-tax income. You have to accumulate those savings after taxes. And so that when you tax a capital gain, you are really taxing the same income for a second time.

Then one would have to ask, who are these people who are wealthy? Does it include a farmer who works his land for 30 or 40 years and purchased it at a low rate and has 300 or 400 acres and sells it then for the present price, most of which is an inflated price that has occurred over the 30 or 40 years? In that year, indeed, that farmer has a pretty good income and is among the rich. He would like to be among the rich every year, but it is in that year that he is counted among the rich.

The person who has built a business and perhaps owns the real estate associated with the business, and it is a small business—it could be a shoe store, hardware store, lumber yard—works at it and finally gets the ability to pay for it, also gets the inventory in pretty good shape and over the years paid down his obligation, sells the business in that year, indeed, he is among the rich or she is among the rich, but not necessarily in other years. But yet they are counted in this calculation.

So, Mr. President, the people who come in and talk to me about capital gains are not principally those who we would consider the captains of industry, those who are managers of large funds, those who can get proper advice on how to minimize their taxes. But most of the people who talk to me about capital gains are these entrepreneurs, normally single proprietors who have put a lifetime of work into their particular business or their land and are now going to translate that into capital gain.

I think that the fairest approach to capital gains is to allow the inflation part not to be taxed and any gain in excess of inflation to be taxed at regular rates or to reduce the amount of the capital gains that will be taxed by a longer holding period. That is a proposal that has been made by the distinguished Senator from Oregon [Mr. PACKWOOD] and that is a proposal that I support.

I think that capital gains for many reasons do deserve an incentive type of tax treatment, and some of those reasons I have delineated this morning.

I thank the Chair, and I yield the floor.

Mr. President, I suggest the absence of a quorum.

The PRESIDING OFFICER (Mr. KERREY). The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

SENATOR COHEN COSPONSOR OF SENATE JOINT RESOLUTION 159, EARTH DAY

Mr. CHAFEE. Mr. President, I would like to take a brief moment to set the record straight regarding Senator COHEN's cosponsorship of Senate Joint Resolution 159, a joint resolution designating April 22, 1990, as Earth Day. On October 26, 1989, the senior Senator from Maine was added as a cosponsor to this resolution. The record should show that Senator COHEN should have been listed as a cosponsor prior to passage of Senate Joint Resolution 159; however, inadvertently, his name was not included on the list of cosponsors at that time.

STOCK PRICE VOLATILITY

Mr. LEAHY. Mr. President, the sudden and unexpected drop of 190 points in the Dow Jones Industrial Average mostly during the last 75 minutes of trading on Friday, October 13, 1989, has raised concerns among small and large investors alike. Are our stock and related futures and option markets a safe place for individuals to place their savings? Are the regulators of these markets coordinating their functions effectively? Have reforms put into place following the market crash of "Black Monday," October 19, 1987, worked properly?

On October 17, 1989, during hearings before the Committee on Agriculture, Nutrition, and Forestry on S. 1729, the Futures Trading Practices Act of 1989, I asked the Chairman of the Commodity Futures Trading Commission, Dr. Wendy Gramm, for an analysis of these matters in light of the "Friday the 13th" experience. In doing so, I told her that I wanted to receive at least a preliminary response to my inquiry before bringing S. 1729—which was reported from the committee last week—to the Senate floor. If the CFTC found that immediate reforms were necessary, I wanted to be able to enact them quickly.

Two days ago, I received a letter from Chairman Gramm setting forth her preliminary findings.

Because of the great interest in this issue both among the public and among my colleagues, I ask unanimous consent that my October 17, 1989, letter to Chairman Gramm requesting her analysis, and her November 7, 1989, response, be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

COMMITTEE ON AGRICULTURE,
NUTRITION, AND FORESTRY,
Washington, DC, October 17, 1989.

Hon. WENDY L. GRAMM,
Chairman, Commodity Futures Trading Commission, Washington, DC.

DEAR CHAIRMAN GRAMM: The severe volatility in stock and related futures markets during the past few days, including the 190-point loss in the Dow Jones Industrial Average on Friday, October 13, 1989, underscores the central theme of S. 1729, the Futures Trading Practices Act of 1989 which Senators Lugar, Kerrey, and I introduced two weeks ago. Confidence is essential for these volatile financial markets to function. Without trust in the basic integrity of traders, exchanges, and regulatory systems, participants will stay away and the legitimacy of prices will be questioned. The entire economy suffers as a result.

We cannot finish this reauthorization cycle for the CFTC without examining issues raised by these recent events. For this reason, I ask that the Commodity Futures Trading Commission initiate an examination of them with an eye toward answering three principal questions:

1. How effectively did regulators of the stock and futures markets, both at the exchange and federal agency levels, cooperate and communicate in managing the market events of Friday and Monday, October 13 and 16, 1989?

2. Did reforms instituted after the 1987 crash—"circuit breakers," inter-market surveillance, and enhanced coordination among clearing houses—perform properly during this period? Did circuit breakers in particular have the effect of lessening volatility or increasing it?

3. Did the market effectively maintain its financial integrity in the face of the volatility of those two days? Were margin levels, clearing, and settlement systems sufficient to handle the strain?

The Committee will discuss with you a timetable for completion of this analysis. However, I will want to hear at least a preliminary report before Congress finishes action on the legislation before us. If the CFTC finds that reforms are needed, I want to be able to implement them quickly.

Thank you for your continuing assistance to the Committee on these matters of utmost importance.

Sincerely,

PATRICK LEAHY,
Chairman.

COMMODITY FUTURES
TRADING COMMISSION,
Washington, DC, November 7, 1989.

Hon. PATRICK LEAHY,
Chairman, Committee on Agriculture, Nutrition, and Forestry, U.S. Senate, Washington, DC.

DEAR SENATOR LEAHY: In your letter of October 17, 1989, you raised several questions regarding the 190-point drop in the stock market on October 13, 1989, and the regulatory response of the Commission, other regulators and the affected exchanges. Before responding to your specific questions, a few general observations may be helpful.

On Friday October 13, 1989, the stock market experienced one of the largest single-day declines in history as the Dow Jones Industrial Average (the "Dow") fell 190 points (−6.9%). Most of that decline occurred in the final hour-and-a-half of trading, during which the Dow fell about 175 points. For the first time the initial levels of the coordinated circuit breaker rules on the stock index futures and option exchanges were triggered. Although the NYSE implemented its "sidecar" rule, which delays the automated routing of program trade orders to individual stock specialists for five mintues, no official trading halt occurred on that exchange. The interaction of the exchange rules that were employed on October 13 is described more fully below, and the sequence of their implementation is illustrated in the attached schedule.

The events surrounding October 13, 1989, were of much smaller magnitude that the events of mid-October 1987. The Price drop essentially was a one-day occurence, although it was followed by considerable intraday volatility on Monday, October 16, and Tuesday, October 24. The stock market recovered about 120 points in the Dow (+4.7%) during the week following October 13, a record one-week advance. Trading volume was considerably smaller, and it appears to be of a significantly different character than in mid-October 1987. The strains on the clearing and settlement systems emanating from the price volatility were less substantial than in 1987. Furthermore, as in 1987, no futures commission merchant failed due to capital impairments stemming from stock index futures price volatility, and no futures customer lost money due to a firm's failure. The futures exchanges' clearing systems responded well to the extraordinary fall in stock prices.

We have initiated a study of stock index futures trading and the relationship between the futures markets and trading on New York Stock Exchange (NYSE) on October 13, 1989. We are coordinating our study with the staffs of the Securities and Exchange Commission (SEC) and the relevant futures exchanges to ensure that the most complete information is available. We will make our findings available to you and your Committee as soon as that study is completed. Our interim response to your questions follows:

1. How effectively did regulators of the stock and futures markets, both at the exchange and the federal agency levels, cooperate and communicate in managing the market events of Friday and Monday, October 13 and 16, 1989?

We believe there was prompt, thorough and effective communication and cooperation regarding these market events, both among regulators and among the securities, futures and options exchanges. All pertinent parties were aware of the rapidly falling stock market before the first futures price limit levels were hit and were in frequent communication throughout the remainder of that Friday afternoon, over the weekend, and throughout the following Monday. Using the directories of home and office telephone numbers of key executives, the CFTC communicated frequently with other federal regulators and self-regulators. Contingency plans previously put into place appeared to operate smoothly, and intensive planning on October 13 and throughout the weekend significantly increased the preparedness of the financial system on October 16.

Our Market Surveillance staff began monitoring the markets more intensively than usual when they heard announcements from the NYSE over the inter-exchange telephone hotline (Information Network for Futures, Options and Equities, "INFOE", more commonly referred to as the "Hoot and Hollar" system) at about 2:40 p.m. EDT that trading was being halted by NYSE specialists in UAL and other airline stocks due to order imbalances. The staff immediately noted on their real-time price screens the rapidly falling values of major stock indexes and stock index futures. When the CME's 12-point price limit was hit, the staff notified the Commissioners and the audit staff in the Division of Trading and Markets of the stock market's rapid fall. The Director of Market Surveillance also contacted his regional staff to make sure they were monitoring the markets and talked to the surveillance director at the Chicago Mercantile Exchange. CFTC staff also went to the trading floors in Chicago and New York to monitor trading directly.

As prices fell, price limits were hit on the various futures exchanges and trading halts were instituted for stock index options on the Chicago Board Option Exchange and the American Stock Exchange. As these events occurred, they were announced by the exchanges over the INFOE system, which was being monitored by the CFTC and SEC. The INFOE system worked effectively to keep all exchanges informed instantaneously of the triggering of the various "circuit breaker" rules and of any other exchange actions.

On October 13 and throughout the period in question, the CFTC was in regular communication with the SEC, the Board of Governors of the Federal Reserve System (Federal Reserve), and futures exchange and clearing organization officials. These communications included telephone discussions between Chairman Breeden of the SEC and me and other appropriate counterparts at other regulatory agencies. I also called, or received calls from, the chief executives of the four exchanges on which stock index futures contracts are actively traded—the Chicago Mercantile Exchange (CME), Chicago Board of Trade (CBT), Kansas City Board of Trade (KCBT), and the New York Futures Exchange (NYFE). These discussions concerned ongoing market developments, such as the operation of circuit breakers and the status of intraday margin collections, as well as planning for the opening of trading on October 16. For example, in my discussions with William Brodsky, CME President, he advised me that the CME had made an intra-day margin call at 2:00 p.m. CDT; that all CME clearing members satisfied this call without apparent problems; that circuit breakers were then in effect; that the exchange had been in communication with the NYSE; that the CME would be considering margin increases; and that the CME had requested the Federal Reserve Bank of Chicago to keep the Fedwire open past its usual closing hour.

At the same time, CFTC staff were in communication with their counterparts at the SEC and the Federal Reserve and with relevant exchange staffs. CFTC financial audit staff initiated major market move procedures, which included making requests of the Chicago Board of Trade Clearing Corporation (BOTCC) and the CME Clearing House for projections of clearing firm exposure based upon projected stock index price movements. The audit staff also contacted the financial surveillance staffs of the futures exchanges, the National Futures Association and the Chicago Board Options Exchange (CBOE) and coordinated financial surveillance efforts.

After the market closed I met with senior staff to review the afternoon's events. Through these meetings and telephone conversations, I was fully advised of the special monitoring activities that were being conducted by CFTC in conjunction with each exchange and the SEC. No significant financial or settlement problems were apparent at that time, but careful evaluation of the financial status of exchange clearing members still was being conducted. Since the information needed to evaluate the situation was not fully available, I scheduled a Commission meeting for Sunday afternoon at 2:00 p.m. to get a better appraisal before the world's financial markets reopened that night and Monday morning.

At our Sunday afternoon meeting the Commission was briefed by its staff regarding the market activity on Friday. The Surveillance staff described the price movements in stocks, bonds and foreign currency markets and the implementation of price limits on futures exchanges. Friday's activity was compared and contrasted with October 1987. The Trading and Markets staff provided information on margin payments at the affected clearing organizations, the impact of the price movements on the capital requirements for futures commission merchants, and plans to facilitate smooth operation of the payments system on October 16. Representatives of the SEC and the Federal Reserve Board attended the meeting.

Also over the weekend Trading and Markets staff were in communication with the SEC, the Options Clearing Corporation and the BOTCC with respect to the contemplated transfer of accounts from a firm dually registered as a futures commission merchant and a broker-dealer. That firm appeared unable to maintain adequate net capital as a result of its securities option positions on the CBOE.

In addition the staff reviewed with exchange and clearing organization officials plans to assure smooth operation of payment and settlement systems on October 16 and other financial surveillance topics. The staff reviewed the ability of clearing member firms to make margin settlements due on Monday morning before the markets opened, the availability of New York and Chicago bankers to make the necessary credit determinations associated with such margin settlements and Fedwire availability.

On Sunday evening the Commissioners and staff monitored the reaction in international markets to the large price movements that had occurred in U.S. markets on Friday afternoon. While Asian, and later European, stock markets fell in response to the U.S. decline, the major foreign markets did not

extend the losses that were registered in New York and Chicago. CFTC staff also monitored trading in U.S. Treasury Bond futures during the CBT's Sunday evening session.

At approximately 7:50 a.m. on Monday, October 16, I was in telephone communication with the president of the CME concerning the CME's morning margin settlement. Immediately following that call, I telephoned SEC Chairman Breeden, Department of the Treasury Undersecretary Robert Glauber, and Council of Economic Advisors Chairman Boskin. Subsequently, I spoke with the CBT concerning its morning margin settlement. An open telephone line to monitor the markets was established that morning between Chairman Breeden at the SEC, President William Brodsky at the CME, President Richard Grasso at the NYSE and me.

By the open of the U.S. markets on Monday morning, the Commission was aware of the current financial status of the futures exchange clearing organizations and their member firms. All payments had been made satisfactorily on futures exchanges. The staff continued to monitor trading closely that day and to share information with the other agencies. A staff member from the Federal Reserve was present in our Surveillance Director's office to monitor the exchange hotline and real-time prices over our electronic market news systems and to relay that information back to the Federal Reserve. After some initial weakness during the first half-hour of trading, the stock index futures and the stock market moved upward without triggering any circuit breakers. The Dow closed up 88 points.

2. Did reforms initiated after the 1987 crash—"circuit breakers," inter-market surveillance, and enhanced coordination among clearing houses—perform properly during this period? Did circuit breakers in particular have the effect of lessening volatility or increasing it?

The coordination and planning efforts of the CFTC, other federal regulators, and self-regulatory organizations were significantly enhanced by the experience of the October 1987 market crash and procedural enhancements put in place in the wake of that event. Consequently we were prepared to act quickly and appropriately when stock prices suddenly fell sharply on October 13.

Intermarket financial surveillance was vigorous and thorough. The CFTC and the SEC exchanged information concerning troubled firms within their respective jurisdictions; the futures and securities self-regulatory organizations also exchanged information concerning developments in their markets. Federal regulatory and self-regulatory coordination efforts were aided by a variety of system enhancements put in place after October 1987. For example, INFOE, the new hotline communication network among exchanges and regulators, was used effectively on October 13 and October 16 by the futures and securities exchanges to communicate the implementation of circuit breaker procedures and to share market information, such as individual stock closings and reopenings. The pay and collect margin information-sharing system, in which all futures exchanges and the Options Clearing Corporation participate, was operational. Data generated by this system were made available to Federal Reserve Board staff on October 16.

Margin settlements reflected a number of procedural and planning enhancements. Intraday margin settlement procedures at both the BOTCC and the CME now provide for routine pay-outs to, and collections from, clearing firms on an intraday basis, thereby reducing burdens on clearing and settlement systems at the daily morning settlement. For example, by the end of the day on October 13, the CME had collected approximately $600 million and paid out approximately $460 million of a total of nearly $850 million in variation payments. Total variation payments and collects due to October 13 trading each equalled $848,315,710, as gains and losses on futures contracts are equal. As a result, more than half of the total settlement variation for the day was in the CME's clearing members' bank accounts prior to the close of the banking system on Friday.

In addition, due in part to experience gained in the October 1987 market break, early attention was paid to extending Fedwire hours on the evening of October 13 and the morning of October 16 to facilitate Chicago futures exchange margin settlements. The Federal Reserve Bank of Chicago kept the Fedwire open more than an hour-and-a-half beyond its normal closing hour on October 13, and it opened a half-hour early on October 16. Efforts also were made to assure that New York bankers would be available sufficiently early on the morning of October 16 to support Chicago futures settlements at 6:40 a.m. CDT, and some banks met over the weekend to make the credit determinations necessary to facilitate the margin settlements on Monday morning.

Coordination between clearing organizations and their settlement banks also was improved. The CME sent margin settlement instructions to its settlement banks earlier than normal on Saturday, October 14. CME Clearing House and settlement bank staff were in their offices on Saturday to review the relevant settlement figures. CME staff reminded the banks that the Fedwire would open early on Monday and emphasized the importance of timely margin settlement that day. By 6:33 a.m. CDT on Monday morning, all four active CME settlement banks had irrevocably committed to honor the CME's settlement instructions for all members.

On October 13, 1989, circuit breakers were implanted on futures and option exchange on an intermarket basis in accordance with the rules each exchange had adopted in response to the recommendation of the President's Working Group on Financial Markets in May 1988. Those recommendations included a unified circuit breaker mechanism to operate in a coordinated fashion across markets, with pre-established trading limitations that only would go into effect on those rare occasions of extraordinary price volatility and market stress. The basic coordinated circuit breaker rules adopted by all exchanges are designed to become effective when the Dow falls 250 and 400 points or when other stock indices fall by comparable amounts. The circuit breaker mechanisms include price limits and trading halts of specified durations followed by coordinated reopening procedures across markets.

Several futures and options exchanges also adopted additional circuit breaker (or "shock absorber") provisions that would become effective before the Dow fell 250 points or the equivalent 30 S&P index points. For example, the CME's rules include an opening price limit of five S&P index futures points for the first ten minutes of trading in that futures contract. Thereafter, another interim downward price limit of 12 index points would be in effect for a maximum of 30 minutes.

On October 13, 1989, the CME's 12 and 30 point price limits were triggered, as were price limits on all other stock index futures markets. The CME's stock index future fell to its 12 point limit at about 3:07 p.m. EDT, which remained in effect until 3:30 EDT, after which the 30 point limit went into effect. While these price limits inhibit trading by setting temporary price floors that may be higher than the true market level, they do not require a trading halt. Futures markets only would halt trading under their circuit breaker rules if the Dow fell by 250 points and the NYSE ordered a trading halt under its rules. The Dow never fell far enough to cause such a halt on October 13. However, trading in index options was halted on a discretionary basis by the Chicago Board Options Exchange and the American Stock Exchange. A list of the various exchange circuit breaker actions and their implementation times is attached.

In response to your question as to the effect of circuit breakers on volatility, we plan to analyze intraday price volatility and trading volume in the stock index futures contracts and their underlying stock indexes to assess the role of the various circuit breaker rules. Under the current rules the stock index futures and option markets may effectively close while the NYSE and other stock exchanges remain open. When such an occurrence takes place, sell orders that can no longer be transacted on the CME, for example, could be transferred to other markets that remain open. This, critics argue, may exacerbate trading problems at these other exchanges at a time when they are already overburdened, thereby increasing volatility.

To assess the validity of this concern our staff will conduct an analysis of price volatility and trading volume in stocks at the NYSE and index futures at CBT for those periods during which trading was and was not subject to price limits on the CME. The analysis will focus on determining whether price volatility and trading volume on the exchanges which remained open increased during these periods. The second approach will be to look at changes in any trends in volatility and volume which may have taken place as the periods of trading limitations were entered and exited.

Since October 13, 1989, was the first real test of these various circuit breakers, we believe it is still to early to judge their efficacy. Such a judgment requires a more careful review of the markets' interactions and consultation among the affected exchanges and regulators. Our initial reaction, however, is that the various rules and procedures implemented since October 1987 worked as designed, and their net effect appears to have been beneficial to both market performance and regulatory oversight. We were particularly pleased with the extent of interexchange and interagency coordination and the operation of the futures clearing systems.

3. Did the market effectively maintain its financial integrity in the face of the volatility of those two days? Were margin levels, clearing, and settlement systems sufficient to handle the strain?

Our review to date indicates that the futures markets effectively maintained their financial integrity in the face of the October 13-16 market volatility. Clearing and settlement systems functioned effectively to match trades and to settle margin payments on an intra-day basis as well as at daily morning settlements. The futures exchanges reported no defaults or delays in

the payment or margin by their clearing members. No futures commission merchant (FCM) failed. Two firms were closely watched, however, because of financial losses on securities options. One such firm is dually registered as an FCM and a securities broker-dealer; the second is a securities broker-dealer affiliate of an FCM. A more detailed review follows.

The Interim Report of the President's Working Group on Financial Markets discussed that "[t]he existing structure of maintenance margins appears to be adequate for prudential purposes even if one were to assume that protection against 95 or 99 percent of all price declines was required." Appendix B, p.5. The $4000 maintenance margin requirement in effect for the CME' S&P 500 futures contract during the October 13 trading day had been exceeded by a one-day price movement only once during the preceding year, representing protection against 99.5 percent of price declines over that period.

Because margin on futures contracts is collected on a daily and intra-day basis, margin levels generally are established by reference to historical and projected price volatility and secure open contracts against at least one day's losses. At the beginning of trading on October 13, the CME Clearing House held margin deposits of over three billion dollars securing all open contracts, an amount that would have covered losses of CME member firms generated by even an extreme market plunge. The October 13 trading activity actually resulted in losses and gains (which net to zero in the futures markets) of $848,315,710, an amount collected promptly and in full, as discussed below, by 6:40 a.m. CDT on October 16.

To provide a further cushion against extraordinary market volatility in light of the market events of October 13, all four exchanges on which stock index futures contracts are actively traded increased margin requirements for those contracts. The CME adopted increased margin requirements for the S&P 500 futures contract on a phased-in basis, following consultation with the Federal Reserve Bank of Chicago. As a result, effective at the close of business on October 13, the initial margin requirement for the S&P 500 futures contract was increased from $9,000 (about 5% of contract value) to $12,000 (about 7% of contract value) and the maintenance margin requirement was increased from $4,000 to $5,000. Effective at the close of business on October 16, the maintenance margin requirement was increased from $5,000 to $6,000. The CBT, NYFE and KCBT also raised both initial and maintenance margin requirements for their respective stock index contracts.

Trade clearance and margin settlements. The data available to date indicate that clearance and settlement systems performed effectively during the October 13-16 period. The CME reports that trade matching was accomplished for all trades executed on October 13, including error trades, prior to the opening of trading on October 16. This result was facilitiated by the CME's use of a special session on Saturday morning to address trades resulting from Friday's activity that had not been matched and cleared due to errors or other reasons. Prompt trade matching enables exchanges to complete trade clearing and to assess financial exposure more quickly, which is particularly important in volatile, high volume markets.

Daily and intra-day margin settlements appear to have been completed without delay or disruption. Prior to the opening of trading on Monday, October 16, the CME had effected all variation margin settlements representing profits and losses from Friday, October 13 trading activity, a total of $848,315,710. This included margin collected in two intra-day margin calls, a routine intra-day call at 2:00 p.m. CDT ($122,316,000) and a second intra-day call at 3:00 p.m. CDT ($476,277,000), as well as the regular daily morning settlement at 6:40 a.m. CDT on October 16 ($249,722,710). As noted above, pursuant to procedures put in place in response to the October 1987 market break, the CME (like the BOTC) now routinely pays out to its clearing members, as well as collects from its clearing members, variation margin on an intra-day basis. Intra-day payment and collection of margin serve to reduce the burdens imposed upon the settlement system by concentrated payment flows at daily morning settlements. In accordance with these procedures, the CME paid to its clearing members variation margin in intra-day settlements on October 13 of $105,610,000 and $354,360,000.

The CME effective settlement of a total of $522,452,203 in variation margin payments representing profits and losses on trading activity on October 16. This total includes approximately $424,606,000 collected in an intra-day settlement on October 16 and $97,846,203 collected at the 6:40 a.m. CDT daily settlement on October 17.

The BOTCC also reported that margin settlements on October 13 and 16 proceeded smoothly. BOTCC collected $75,665,000 by means of a routine intra-day margin call at 2:00 p.m. CDT on October 13 and $1,609,000 at daily settlement at 6:40 a.m. CDT on October 16. With respect to trading on October 16, the BOTCC collected $61,495,000 in an intra-day margin call and $14,375,000 at the 6:40 a.m. CDT daily settlement on October 17. As noted above, the BOTCC pays as well as collects variation margin on an intra-day basis. Pursuant to this procedure, the BOTCC paid $59,575,000 to its clearing members intra-day on October 13 and $47,120,000 intra-day on October 16.

I believe that the Commission and our staff acted quickly and deligently in response to the sudden drop in stock prices on October 13. Coordination among exchanges and government agencies also was prompt and thorough. As noted, we continue to evaluate a number of issues, both independently and through the Working Group. If you have any additional questions prior to the completion of our study, please let me know.

Sincerely,

WENDY L. GRAMM,
Chairman.

CHRONOLOGY OF CIRCUIT BREAKERS ON OCT. 13, 1989

Time e.d.t.	Exchange	Event	Relative price change [1] (percent)
3:06:19	NYFE	7-point limit hit on NYSE Composite Index Futures.	−3.5
3:06:55	CME	12-point limit hit on S&P 500 Stock Index Futures.	−3.3
3:09	NYSE	"Side-car" procedure implemented.	
3:14	NYSE	"Side-car" removed	
3:15:24	CBT	50-point limit hit on AMEX MMI Stock Index Futures.	−9.2
3:16	CBOE	Trading halt in S&P 100 and S&P 500 index options.	
3:17	AMEX	Trading halt in MMI index options.	
3:30	CME	Announces 12-point limit is off and is superseded by 30-point limit.	

CHRONOLOGY OF CIRCUIT BREAKERS ON OCT. 13, 1989—Continued

Time e.d.t.	Exchange	Event	Relative price change [1] (percent)
3:37:19	NYFE	NYSE Composite Index Futures hit 18-point limit.	−9.0
3:45	CME	S&P 500 Futures hit 30-point limit. Trades off limit.	−8.4
3:49:31	KCBT	Value Line Index Futures hit 30-point limit.	−9.8
3:52	CME	S&P 500 Futures lock at limit

TERRY ANDERSON

Mr. MOYNIHAN. Mr. President, on this, the 1,699th day that Terry Anderson has been held in captivity in Beirut, I ask my colleagues to continue to keep him in their thoughts.

Each day, Terry Anderson's struggle continues. Each day, we must renew our commitment and our resolve to see him released.

CRISIS IN EMERGENCY MEDICAL CARE

Mr. CRANSTON. Mr. President, over the last few months there have been increasing reports of trauma centers closing and emergency departments turning away patients. Surveys by the American College of Emergency Physicians and the National Association of Public Hospitals have found that emergency departments throughout the country are routinely experiencing overcrowding. Many emergency departments in urban areas are crippled by medical gridlock.

I want to share with my colleagues a recent article in the November 13 U.S. New World Report. Entitled "Help! This is an Emergency! this article describes graphically the crisis facing emergency medical services in the United States. I ask unanimous consent that the article be printed in the RECORD at the conclusion of my remarks.

The PRESIDING OFFICER. Without objection, it is so ordered.

(See exhibit 1.)

Mr. CRANSTON. Mr. President, we have seen miracles of survival during the Sioux City plane disaster and the recent California earthquake because comprehensive trauma care systems were in place. At the same time, people may be dying needlessly because emergency medical care is unavailable. According to the article, as many as 25 percent of the residents in Los Angeles may not be able to get timely emergency care; 10 out of 23 trauma centers in Los Angeles have closed and the remaining 13 are filled to capacity on weekend evenings.

The cause of this crisis is primarily financial. The rising number of patients who cannot pay is resulting in

large financial losses for trauma centers forcing many to close.

Mr. President, legislation is pending in the Senate Labor and Human Resources Committee which would begin to address this serious health care issue. I introduced S. 15, the Emergency Medical Services and Trauma Care Improvement Act on the first day of the Congress. It would provide much needed assistance to communities and States to set up trauma systems. Equally important, it would provide for needed financial relief to trauma centers that are most severely financially stressed.

In terms of financial assistance to trauma centers, S. 15 is a modest bill and certainly would not solve the systemic problems associated with uncompensated care, which our nation's hospitals are facing. Those issues must be addressed comprehensively and nationwide. However, in the meantime we must help ensure that trauma centers are able to continue to provide lifesaving care to all who are in need. That is what S. 15 is intended to do.

I urge all my colleagues to support S. 15 and urge the Senate Labor and Human Resources Committee to act on the bill as expeditiously as possible.

EXHIBIT 1

[From U.S. News & World Report, Nov. 13, 1989]

HELP! THIS IS AN EMERGENCY!

(By Steven Findlay)

After the rumbling ceased and the dust settled, rescue squads and paramedics took center stage last month in Oakland at the grisly site on Interstate 880 where thousands of tons of concrete crushed dozens of cars at rush hour. They first pried 6-year-old Julio Berumen, after amputating part of one of his legs, from the wreckage. Three days later, they pulled out 57-year-old Buck Helm. Both owe their lives to the persistence and skills of paramedic teams and to the emergency care they received at Oakland's Highland and Children's hospitals.

Such decisive emergency response—and a bit of luck—was also evident in the hours after United Airlines Flight 232 slammed into a cornfield outside Sioux City, Iowa, last July. On impact, the plane tumbled over, broke apart and erupted into flames. Bodies were strewn for half a mile. Fortunately, the crash site was just 10 miles from three hospitals, one with a trauma center. Within 3 hours, rescue workers had found all 184 surviving passengers and had delivered them to hospitals for treatment. "At least 15 had only minutes to live when they hit our doors, and 30 others probably wouldn't have made it another half hour," says Dr. David Greco, who coordinated response to the crash at Sioux City's Marian Health Center.

COMING APART

These kinds of dramatic successes and heroics, however, have obscured growing problems in emergency care. That care is now itself in need of rescue: Ambulance service in many places has become slow and inefficient; beset by financial losses, between 50 and 100 trauma centers nationwide have closed, and emergency rooms, inundated with victims of drug-related violence and the poor desperate for some medical care, are understaffed and overflowing. A recent survey by the American College of Emergency Physicians found that the problem is not confined to the big cities. The report showed that emergency rooms in 41 states, including those in hundreds of smaller cities and towns, were so overcrowded that the health of patients was threatened. "The system is coming apart at the seams," says Dr. Henry Cleveland, president of the American Trauma Society. "It's that simple."

The benefits of prompt response to medical emergencies have been known since the early 1800s, when Napoleon's physician had medics follow advancing troops to treat the wounded as soon as they fell. But it was not until after World War I that the whine of an ambulance became a regular part of the landscape. In ensuing years, as medical advances enabled doctors to save more lives, hundreds of hospitals opened emergency rooms and trauma units to treat accident victims who have life-threatening injuries. Trauma units have surgeons and specially trained staff on hand or on call 24 hours a day, and the emphasis is on rapid-fire diagnosis of a patient's needs and immediate treatment. Emergency rooms and trauma units were also widely seen as smart financial moves because they assured a steady flow of patients.

But social trends and economic realities have conspired to overwhelm the system, and that steady flow of patients has turned into a torrent in some places. The 37 million Americans who have no health insurance or inadequate coverage use emergency rooms as their main source of health care, and by law cannot be turned away. In true emergencies, the care they get is warranted. But "the emergency room has supplanted the family doctor for these people," says Virginia Price-Hastings, chief of paramedic and trauma hospital programs for Los Angeles County. The poor and uninsured are not the only ones affected. In fact, the difficulties encountered by middle-class and wealthy people in emergency medical situations have focused new attention on the issue.

BUDGET PROBLEMS

Not surprisingly, money is a big part of the problem. Federal and state efforts to cut costs in the giant medicare and medicaid programs have reduced reimbursements for emergency care so drastically that even if all patients were insured, many emergency rooms would still be squeezed. Both government programs reimburse hospitals for 60 to 70 cents for every dollar of emergency care delivered. That translates into a $5,000 loss on the average trauma-patient's bill of $13,000. Innercity hospitals lose between $2 million and $3 million a year on their trauma-care and emergency-room operations. Budget pressures have also prevented hosptials from expanding the number of beds in intensive-care wards, where severely injured patients are eventually transferred. When intensive-care beds get filled, the backup in the emergency room often means patients languish in noisy halls for days at a time. Getting qualified doctors and nurses to staff trauma centers and emergency rooms under these conditions is not easy.

As a result, many hospitals are getting out of the trauma-care business. The laws of most states permit hospitals to downgrade trauma units to regular emergency rooms, which need not have a surgeon present. In Los Angeles, for example, 10 of 23 hospitals with trauma centers have downgraded in the last three years; so have dozens of hospitals in New York, Chicago, Detroit, Miami and many smaller cities. Emergency-care experts concede that in a few larger cities the rush by hospitals in the 1970s to establish trauma centers led to an excess and that a shakeout was inevitable. Los Angeles officials want only four of those 10 former trauma centers reopened, for example. In the meantime, they say about 25 percent of the city's population is at risk of not being able to get timely emergency care. On most weekend nights, all of L.A.'s remaining 13 trauma centers and as many as half of its 93 emergency rooms are filled. Ambulances have to roam the city trying to find a hospital room for their passengers.

ELDERLY PATIENTS

In smaller cities and rural areas, the uninsured poor and the old, many of whom have chronic illnesses and either cannot afford or cannot find room in a nursing home, are regular visitors to emergency rooms. Saginaw, Mich., is a good example. A blue-collar city of 85,000, Saginaw has three hospitals with emergency rooms. In the past year, all three have had to divert patients to each other primarily because their intensive-care beds were filled with elderly people with chronic ailments. "No one has died yet while riding around in an ambulance," says Dr. J. Brian Hancock, Saginaw's director of emergency medical services. "But it's going to happen."

In rural areas, geographic barriers and the lack of modern equipment are often major obstacles to speedy emergency care. In some places, ambulances have not been updated in a decade. And emergency helicopters that can service remote areas are in short supply. Two thirds of the country geographically lies 50 miles or more from a trauma center or suitable emergency room, and 40 percent of the U.S. population, most in rural areas, has no access to emergency 911 telephone systems. Yet many rural states, including Arkansas, Kansas, Minnesota, South Dakota and Wyoming, neither designate trauma centers nor have any system for coordinating emergency response, in the event, for example, of a major accident in a remote area.

The capable terms of medical personnel that are depicted on television shows such as "St. Elsewhere," "Rescue 911" and "M*A*S*H" are also a far cry from the reality in many communities. Emergency-care experts say only a minority of paramedics in many small towns are trained in advanced life support, which includes instruction in the use of the most sophisticated, modern lifesaving equipment. Response time may also be lax. The standard is to answer 90 percent of calls within 10 minutes. But recent studies indicate that many ambulance services average 15 to 30 minutes per call, and that they meet the 10-minute target in only about half the cases. Patients share some of the blame. About one third of ambulance calls nationwide are for nonemergencies—everything from menstrual cramps to minor cuts and scratches.

What sort of rescue the emergency-care system needs is not altogether clear. Short of major expansion of public and private health insurance—not likely in a time of tight budgets—hospitals can expect growing losses from uncompensated care. Future cutbacks in medicaid and medicare may be in store, too. "It certainly may get worse before it gets better," says Dr. Cleveland of the trauma society. But lawmakers are starting to pay attention, and there is broad agreement that emergency care has been on the back burner too long. In California, Governor George Deukmejian has signed

off on a plan to divert $220 million from a new surtax on cigarettes to help counties pay for uncompensated hospital emergency care.

Some states are also considering raising taxes on alcohol, which is involved in about 30 percent of all accidents, and using the money to defray emergency and trauma-care costs. At the same time, Congress is studying two bills aimed at improving the nation's fragmented trauma system. Both would require states to develop comprehensive trauma networks and to designate centers that meet certain minimum standards. Only about 400 of the nation's 1,050 trauma centers currently meet criteria set by the American College of Surgeons. As earthquakes, plane crashes and hurricanes make abundantly clear, nothing concentrates the mind and attention of public officials like a catastrophe. Now, with the emergency medical system itself in disarray, something may be done about it.

CONCLUSION OF MORNING BUSINESS

Mr. REID. Mr. President, I ask unanimous consent that morning business be closed.

The PRESIDING OFFICER. Without objection, morning business is closed.

LEGISLATIVE BRANCH APPROPRIATIONS, 1990—CONFERENCE REPORT

The PRESIDING OFFICER. The Senate will now resume consideration of the amendments in disagreement to H.R. 3014 which the clerk will report.

The legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3014) making appropriations for the legislative branch for the fiscal year ending September 30, 1990, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by a majority of the conferees.

The Senate resumed consideration of the conference report.

The PRESIDING OFFICER. Under the previous order, the Senate concurs in all of the House amendments en bloc, with the exception of House amendment to Senate amendment No. 6.

The House amendments to the Senate amendments in disagreement agreed to en bloc are as follows:

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 1 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter proposed by said amendment, insert the following:

SENATE

MILEAGE AND EXPENSE ALLOWANCES

MILEAGE OF THE VICE PRESIDENT AND SENATORS

For mileage of the Vice President and Senators of the United States, $60,000.

EXPENSE ALLOWANCES

For expense allowances of the Vice President, $10,000; the President Pro Tempore of the Senate, $10,000; Majority Leader of the Senate, $10,000; Minority Leader of the Senate, $10,000; Majority Whip of the Senate, $5,000; Minority Whip of the Senate, $5,000; and Chairmen of the Majority and Minority Conference Committees, $3,000 for each Chairman; in all, $56,000.

REPRESENTATION ALLOWANCES FOR THE MAJORITY AND MINORITY LEADERS

For representation allowances of the Majority and Minority Leaders of the Senate, $15,000 for each such Leader; in all, $30,000.

SALARIES, OFFICERS AND EMPLOYEES

For compensation of officers, employees, and others are authorized by law, including agency contributions, $55,019,000 which shall be paid from this appropriation without regard to the below limitations, as follows:

OFFICE OF THE VICE PRESIDENT

For the Office of the Vice President, $1,216,000.

OFFICE OF THE PRESIDENT PRO TEMPORE

For the Office of the President Pro Tempore, $296,000.

OFFICES OF THE MAJORITY AND MINORITY LEADERS

For Offices of the Majority and Minority Leaders, $1,474,000.

OFFICES OF THE MAJORITY AND MINORITY WHIPS

For Offices of the Majority and Minority Whips, $458,000.

CONFERENCE COMMITTEES

For the Conference of the Majority and the Conference of the Minority, at rates of compensation to be fixed by the Chairman of each such committee, $661,500 for each such committee; in all, $1,323,000.

OFFICES OF THE SECRETARIES OF THE CONFERENCE OF THE MAJORITY AND THE CONFERENCE OF THE MINORITY

For Offices of the Secretaries of the Conference of the Majority and the Conference of the Minority, $290,000.

OFFICE OF THE CHAPLAIN

For Office of the Chaplain, $147,000.

OFFICE OF THE SECRETARY

For Office of the Secretary, $8,852,000.

OFFICE OF THE SERGEANT AT ARMS AND DOORKEEPER

For Office of the Sergeant at Arms and Doorkeeper, $28,000,000.

OFFICES OF THE SECRETARIES FOR THE MAJORITY AND MINORITY

For Offices of the Secretary for the Majority and the Secretary for the Minority, $983,000.

AGENCY CONTRIBUTIONS

For agency contributions for employee benefits, as authorized by law, $11,980,000.

OFFICE OF THE LEGISLATIVE COUNSEL OF THE SENATE

For salaries and expenses of the Office of the Legislative Counsel of the Senate, $2,079,000: Provided, That $100,000 of the amount appropriated to the Office of the Legislative Council of the Senate for fiscal year 1989 shall remain available until September 30, 1990.

OFFICE OF SENATE LEGAL COUNSEL

For salaries and expenses of the Office of Senate Legal Counsel, $676,000.

EXPENSE ALLOWANCES OF THE SECRETARY OF THE SENATE, SERGEANT AT ARMS AND DOORKEEPER OF THE SENATE, AND SECRETARIES FOR THE MAJORITY AND MINORITY OF THE SENATE

For expense allowances of the Secretary of the Senate, $3,000; Sergeant at Arms and Doorkeeper of the Senate, $3,000; Secretary for the Majority of the Senate, $3,000; Secretary for the Minority of the Senate, $3,000; in all, $12,000, which shall remain available until September 30, 1991: Provided, That at the end of the paragraph preceding the heading "Contingent Expenses of the Senate" in subtitle A of the Congressional Operations Appropriations Act, 1989, strike the period and insert the following: ", which shall remain available until September 30, 1991."

CONTINGENT EXPENSES OF THE SENATE

SENATE POLICY COMMITTEES

For salaries and expenses of the Majority Policy Committee and the Minority Policy Committee, $1,101,500 for each such committee; in all, $2,203,000.

INQUIRIES AND INVESTIGATIONS

For expenses of inquiries and investigations ordered by the Senate, or conducted pursuant to section 134(a) of Public Law 601, Seventy-ninth Congress, as amended, section 112 of Public Law 96-304 and Senate Resolution 281, agreed to March 11, 1980, $69,442,000.

EXPENSES OF UNITED STATES SENATE CAUCUS ON INTERNATIONAL NARCOTICS CONTROL

For expenses of the United States Senate Caucus on International Narcotics Control, $325,000.

SECRETARY OF THE SENATE

For expenses of the Office of the Secretary of the Senate, $727,200.

SERGEANT AT ARMS AND DOORKEEPER OF THE SENATE

For expenses of the Office of the Sergeant at Arms and Doorkeeper of the Senate, $74,389,000 of which $6,000,000 shall remain available until expended.

MISCELLANEOUS ITEMS

For miscellaneous items, $7,506,000: Provided, That effective in the case of fiscal years beginning after September 30, 1989, section 120 of Public Law 97-51 is amended by striking out "$40,000" and inserting in lieu thereof "$50,000".

SENATORS' OFFICIAL PERSONNEL AND OFFICE EXPENSE ACCOUNT

For Senators' Official Personnel and Office Expense Account, $161,124,000.

STATIONERY (REVOLVING FUND)

For stationery for the President of the Senate, $4,500, for officers of the Senate and the Conference of the Majority and Conference of the Minority of the Senate, $8,500; in all, $13,000.

ADMINISTRATIVE PROVISIONS

SECTION 1. The Chairman of the Majority or Minority Conference Committee of the Senate may, during the fiscal year ending September 30, 1990, at his election, transfer not more than $50,000 from the appropriation account for salaries for the Conference of the Majority and the Conference of the Minority of the Senate, to the account, within the contingent fund of the Senate, from which expenses are payable under section 120 of Public Law 97-51 (2 U.S.C. 61g-6). Any transfer of funds under authority of the preceding sentence shall be made at such time or times as such chairman shall

specify in writing to the Senate Disbursing Office. Any funds so transferred by the chairman of the Majority or Minority Conference Committee shall be available for expenditure by such committee in like manner and for the same purposes as are other moneys which are available for expenditure by such committee from the account, within the contingent fund of the Senate, from which expenses are payable under section 120 of Public Law 97-51 (2 U.S.C. 61g-6).

SEC. 2. Funds appropriated to the Conference of the Majority and funds appropriated to the Conference of the Minority for the fiscal year ending September 30, 1990, may be utilized in such amounts as the Chairman of each Conference deems appropriate for the specialized training of professional staff, subject to such limitations, insofar as they are applicable, as are imposed by the Committee on Rules and Administration with respect to such training when provided to professional staff of standing committees of the Senate.

SEC. 3. Subsection (d) of section 2 of Public Law 100-123 (2 U.S.C. 58a-1), is amended by inserting immediately after "by the Sergeant at Arms)," the following: "and all other moneys received by the Sergeant at Arms as charges or commissions for telephone services,".

SEC. 4. (a) The Sergeant at Arms and Doorkeeper of the Senate is authorized to establish an Office of Senate Health Promotion.

(b)(1) In carrying out this section, the Sergeant at Arms and Doorkeeper of the Senate is authorized to establish, or provide for the establishment of, exercise classes and other health services and activities on a continuing and regular basis. In providing for such classes, services, and activities, the Sergeant at Arms and Doorkeeper of the Senate is authorized to impose and collect fees, assessments, and other charges to defray the costs involved in promoting the health of Members, officers, and employees of the Senate. For purposes of this section, the term "employees of the Senate" shall have such meaning as the Sergeant at Arms, by regulation, may prescribe.

(2) All fees, assessments, and charges imposed and collected by the Sergeant at Arms pursuant to paragraph (1) shall be deposited in the revolving fund established pursuant to subsection (c) and shall be available for purposes of this section.

(c) There is established in the Treasury of the United States a revolving fund within the contingent fund of the Senate to be known as the Senate Health Promotion Revolving Fund (hereinafter referred to in this section as the "fund"). The fund shall consist of all amounts collected or received by the Sergeant at Arms and Doorkeeper of the Senate as fees, assessments, and other charges for activities and services to carry out the provisions of this section. All moneys in the fund shall be available without fiscal year limitation for disbursement by the Secretary of the Senate for promoting the health of Members, officers, and employees of the Senate.

(d) Disbursements from the revolving fund shall be made upon vouchers signed by the Sergeant at Arms and Doorkeeper of the Senate.

(e) The provisions of section 4 of the Act of July 31, 1946 (40 U.S.C. 193d) shall not be applicable to any class, service, or other activity carried out pursuant to the provisions of this section.

(f) The provisions of this section shall be carried out in accordance with regulations which shall be promulgated by the Sergeant at Arms and Doorkeeper of the Senate and subject to approval at the beginning of each Congress by the Committee on Rules and Administration of the Senate.

SEC. 5. (a) Paragraph (3) of section 506(a) of the Supplemental Appropriations Act, 1973 (2 U.S.C. 58(a)) is amended to read as follows:

"(3)(A) postage on, and fees and charges in connection with, mail matter sent through the mail under the franking privilege in excess of amounts provided from the appropriation of official mail costs, upon certification by the Senate Sergeant at Arms and subject to such regulations as may be promulgated by the Committee on Rules and Administration, (B) postage on, and fees and charges in connection with official mail matter sent through the mail other than the franking privilege upon certification by the Senate Sergeant at Arms and subject to such regulations as may be promulgated by the Committee on Rules and Administration, and (C) reimbursement to each Senator for costs incurred in the preparation of required official reports, and the acquisition of mailing lists to be used for official purposes, and in the mailing, delivery, or transmitting of matters relating to official business;".

(b) Receipts paid to the Sergeant at Arms from sales of postage on, and fees and charges in connection with mail matter sent through the mail by Senators, Senate committees, or other Senate offices (including joint committees and commissions funded from the contingent fund of the Senate), other than under the franking privilege, as cash or check payments directly from such Senators, committees, or offices, or as reimbursement from the Financial Clerk of the Senate pursuant to certification by the Sergeant at Arms of charges to be made to such funds available to such Senators, committees, or offices for such postage, fees and charges shall be used by the Sergeant at Arms for payment to the United States Postal Service for such postage, fees, and charges.

SEC. 6. On and after the date this Act becomes law, the Secretary of the Senate, subject to the approval of the Committee on Appropriations of the Senate, is authorized to provide up to $1,000,000 for capitalization purposes to the revolving fund established by the last paragraph under the heading "Contingent Expenses of the Senate" appearing under the heading "SENATE" in chapter XI of the Third Supplemental Appropriation Act, 1957 (2 U.S.C. 46a-1), by transferring to such revolving fund any funds available from any Senate appropriation account, with respect to which he has disbursement authority, for the fiscal year in which the transfer is made (or for any preceding fiscal year) or which have been made available until expended; and any moneys so transferred shall be available for use in like manner and to the same extent as the moneys in such revolving fund which were not transferred thereto pursuant to this section.

SEC. 7. The Secretary of the Senate may enter into an agreement with the Secretary of Education to provide closed captioning of the Senate floor proceedings, subject to the approval of the Senate Committee on Rules and Administration. The Senate authorizes the Secretary of Education to have access to the audio and video broadcast of the Senate floor proceedings for the purpose of captioning. Such funds as may be necessary to carry out the purposes of this section are authorized to be paid from the appropriation account for "Miscellaneous Items" within the contingent fund of the Senate.

SEC. 8. (1) The Secretary of the Senate and the Sergeant at Arms and Doorkeeper of the Senate are authorized to acquire goods, services, or space from government agencies and units by agreement under the provisions of the Economy Act, 31 U.S.C. 1535, and to make advance payments in conjunction therewith, if required by the providing agency or establishment.

(2) No advance payment may be made under paragraph (1) unless specifically provided for in the agreement. No agreement providing for advance payment may be entered into unless it contains a provision requiring the refund of any unobligated balance of the advance.

(3) No agreement may be entered into under paragraph (1) without the approval of the Senate Committee on Rules and Administration and the Senate Committee on Appropriations.

SEC. 9. The provisions of Senate Resolution 89, of the One Hundredth Congress, agreed to January 28, 1987, are hereby enacted into law, effective on the date such Senate Resolution 89 was agreed to.

SEC. 10. The second provision, under the headings "SENATE" and "Office of the Chaplain", of the Legislative Branch Appropriation Act, 1970 (Public Law 91-145) is amended by striking out "a secretary" and inserting in lieu thereof "such employees as he deems appropriate, except that the amount which may be paid for any fiscal year as gross compensation for personnel in such Office for any fiscal year shall not exceed $147,000".

SEC. 11. (a) For purposes of subchapters I and II of chapter 37 of title 31, United States Code (relating to claims of or against the United States Government), the United States Senate shall be considered to be a legislative agency (as defined in section 3701(a)(4) of such title), and the Secretary of the Senate shall be deemed to be the head of such legislative agency.

(b) Regulations prescribed by the Secretary of the Senate pursuant to section 3716 of title 31, United States Code, shall not become effective until they are approved by the Senate Committee on Rules and Administration.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 8 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter stricken by said amendment, insert the following:

SPECIAL SERVICES OFFICE

For salaries and expenses of the Special Services Office, $237,000, to be disbursed by the Secretary of the Senate: Provided, That none of these funds shall be obligated until the Sergeant at Arms and Doorkeeper of the Senate and the Clerk of the House jointly report to the Appropriations Committees of both Houses their recommendation for the establishment, funding, staffing, support, and administration of a Congressional Special Services Office, or December 1, 1989, whichever first occurs.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 34 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter proposed by said amendment, insert the following:

SEC. 315. Effective in the case of this Act and any subsequent Act making appropriations for the Legislative Branch, for pur-

poses of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177), as amended, or any other Act which requires a uniform percentage reduction in accounts in this Act and any subsequent Act making appropriations for the Legislative Branch, the accounts under the general heading "Senate", and the accounts under the general heading "House of Representatives", shall each be considered to be one appropriation account and one "program, project, and activity".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 36 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter proposed by said amendment, insert the following:

SEC. 317. At the end of Section 3216 of title 39, United States Code, add the following new subsection:

(e)(1) Not later than two weeks after the last day of each quarter of the fiscal year, or as soon as practicable thereafter, the Postmaster General shall send to the Clerk of the House, the House Commission on Congressional Mailing Standards, the Secretary of the Senate, and the Senate Committee on Rules and Administration a report which shall contain a tabulation of the estimated number of pieces and costs of franked mail, as defined in section 3201 of this Title, in each mail classification sent through the mail for that quarter and for the preceding quarters in the fiscal year, together with separate tabulations of the number of pieces and costs of such mail sent by the House and by the Senate.

Two weeks after the close of the second quarter of the fiscal year, or as soon as practicable thereafter, the Postmaster General shall send to the Clerk of the House, the House Commission on Congressional Mailing Standards, the Committee on House Administration, the Secretary of the Senate, and the Senate Committee on Rules and Administration, a statement of the costs of postage on, and fees and charges in connection with, mail matter sent through the mails as described in subsection (1) of this section for the preceding two quarters together with an estimate of such costs for the balance of the fiscal year. As soon as practicable after receipt of this statement, the House Commission on Congressional Mailing Standards, the Committee on House Administration, and the Senate Committee on Rules and Administration shall consider promulgating such regulations for their respective Houses as may be necessary to ensure that total postage costs, as described in subsection (1) of this section, will not exceed the amounts available for the fiscal year.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 37 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the first section number named in said amendment, insert: "318".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 38 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter proposed by said amendment, insert the following:

SEC. 319. (a) (1) The Architect of the Capitol shall be appointed by the President by and with the advice and consent of the Senate for a term of 10 years.

(2) There is established a commission to recommend individuals to the President for appointment to the Office of Architect of the Capitol. The Commission shall be composed of—

(A) the Speaker of the House of Representatives,

(B) the President pro tempore of the Senate,

(C) the majority and minority leaders of the House of Representatives and the Senate, and

(D) the chairmen and the ranking minority member of the Committee on House Administration of the House of Representatives and the Committee on Rules and Administration of the Senate.

The commission shall recommend at least three individuals for appointment to such office.

(3) An individual appointed Architect of the Capitol under paragraph (1) shall be eligible for reappointment to such office.

(b) Subsection (a) shall be effective in the case of apointments made to fill vacancies in the Office of Architect of the Capitol which occur on or after the date of the enactment of this Act. If no such vacancy occurs within the six-year period which begins on the date of the enactment of this Act, no individual may, after the expiration of such period, hold such office unless the individual is appointed in accordance with subsection (a).

Resolved, That the house recede from its disagreement to the amendment of the Senate numbered 39 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the first section number named by said amendment, insert "320".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 40 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number named by said amendment, insert "321".

SENATE AMENDMENT IN DISAGREEMENT NO. 6

The PRESIDING OFFICER. The clerk will report the remaining amendment in disagreement.

The legislative clerk read as follows:

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 6 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the sum stricken and inserted by said amendment, insert the following: "$100,229,000, of which $23,978,000 is available only for Senate official mail costs, to be disbursed by the Secretary of the Senate, $44,530,000 is available only for House official mail costs, to be disbursed by the Clerk of the House, and $31,721,000 which may only be expended in fiscal year 1990: *Provided,* That, of the amounts appropriated heretofore or in this Act, the following sums that would have otherwise been expended in fiscal year 1990, according to estimates made by the Congressional Budget Office under section 308(a)(2) of the Congressional Budget and Impoundment Control Act of 1974, as amended (P.L. 93-344), shall not be obligated or expended during fiscal year 1990: $998,000 of the amounts provided heretofore or in this Act to the accounts under the heading "Senate", the amount for each to be determined by the Secretary of the Senate, with the concurrence of the Senate Committee on Appropriations; $580,000 of the amounts provided in this Act for reprogramming under the headings "Capitol Police Board", "Capitol Police", "Salaries"; $195,000 of the amounts provided in this Act under the headings "Office of Technology Assessment", "Salaries and Expenses"; $900,000 of the amounts provided heretofore or in this Act under the headings "Biomedical Ethics Board and Biomedical Ethics Advisory Committee", "Salaries and Expenses"; $184,000 of the amounts provided in this Act under the headings "Architect of the Capitol", "Capitol Buildings and Grounds", "Capitol Buildings", with the concurrence of the House and Senate Committees on Appropriations; $282,000 of the amounts provided heretofore or in this Act under the headings "Architect of the Capitol", "Capitol Buildings and Grounds", "Capitol Grounds", with the concurrence of the House and Senate Committees on Appropriations; $6,934,000 of the amounts provided heretofore or in this Act under the headings "Architect of the Capitol", "Capitol Buildings and Grounds", "Senate Office Buildings", with the concurrence of the Senate Committee on Appropriations; $225,000 of the amounts provided in this Act under the headings "Library of Congress", "Congressional Research Service", Salaries and Expenses"; $2,302,000 of the amounts provided heretofore or in this Act under the headings "Government Printing Office", "Congressional Printing and Binding", as approved by the Joint Committee on Printing, with the concurrence of the House and Senate Committees on Appropriations; $111,000 of the amounts provided in this Act under the headings "Library of Congress", "Salaries and Expenses"; and $3,578,000 of the amounts provided heretofore or in this Act under the headings "Government Printing Office", "Office of the Superintendent of Documents", "Salaries and Expenses", the balance".

Mr. REID. It is my understanding that the conference report is before the Senate.

The PRESIDING OFFICER. Pending is the House amendment to the Senate amendment in disagreement No. 6.

Mr. REID. Senator WILSON, I am told, will not be here until 11:30. Recognizing that, I suggest the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. REID. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER. Without objection, it is so ordered.

Mr. REID. Parliamentary inquiry. What is the matter before the Senate at this time?

The PRESIDING OFFICER. The House amendment to Senate amendment No. 6, reported in disagreement, relative to the legislative branch appropriations bill.

Mr. REID. I yield to the Senator from California.

AMENDMENT NO. 1091 TO HOUSE AMENDMENT TO SENATE AMENDMENT IN DISAGREEMENT NO. 6

(Purpose: To eliminate unsolicited mass mailings and transfer savings to treatment of drug-dependent pregnant and post partum women and their children)

Mr. WILSON. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report the amendment.

The legislative clerk read as follows:

The Senator from California [Mr. WILSON] proposes an amendment numbered 1091 to the House amendment to Senate amendment No. 6.

Mr. WILSON. Mr. President, I ask unanimous consent that reading of the amendment be dispensed with.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment is as follows:

In amendment number 6, in the text proposed by the House to be inserted, strike out all up to and including "*Provided*, That, of the amounts" and isert in lieu thereof the following:

"$100,229,000 of which $8,978,000 is available only for Senate official mail costs, to be disbursed by the Secretary of the Senate, $14,530,000 is available only for House official mail costs, to be disbursed by the Clerk of the House, $31,721,000, which may only be expended in fiscal year 1990, and $45,000,000 is available for Model Projects Program for Pregnant and Post Partum Women and their Infants to be spent pursuant to 42 U.S.C. 290aa-13 to remain available until expended;

"*Provided*, That subsection (c) of section 3216 of Title 39, United States Code, is repealed;

"*Provided further*, That notwithstanding any other provision of this Act, there is hereby prohibited the use of the franking privilege for unsolicited mass mailings, as described in section 3210(a)(6)(E) of title 39, United States Code;

"*Provided further*, That only monies appropriated by law for official mail costs of the Senate and the House of Representatives may be used to defray such costs;

"*Provided further*, That the Committee on Rules and Administration may establish a minimum allocation of funds for mail costs of Senators representing states with fewer than three million residents and may allocate funds for the mail costs incurred by Senators prior to the date of enactment of this Act prior to making an allocation of funds to each Senator for authorized mail costs; and

"*Provided further*, That of the amounts".

Mr. WILSON. Mr. President, this is an amendment that relates to Senate amendment No. 6. I make that point on behalf of the managers. What I am seeking to do here will in no way affect amendment 35 or 36, which contain the reforms of which they are justly proud and about which they are concerned. However, I will simply state that as far as the reforms go, the ultimate reform, in my judgment, is to divert all the money that is presently being allocated, the hundreds of millions of dollars over the past decade alone that have gone into congressional newsletters, to what is a crying need and one that we have not yet met, though we have increased by tenfold the congressional funding for it.

Mr. President, I am going to take some time to talk about the terrible problem that is beginning to afflict this Nation, and we have seen only the tip of the iceberg. That is the problem of substance abuse by pregnant women resulting in the birth of innocently addicted newborns.

To shortcut this a great deal. I solicited an estimate from State agencies in California as to what the costs would be for the average innocently addicted newborn child addicted by its mother's use of crack cocaine during her pregnancy. It was conservatively estimated that the health care, the special compensatory education of that child would average $130,000 per year throughout childhood and perhaps going on into young adulthood for these children, because what happens is that they are not born healthy children. They are born with diminished capacities, to understate the severity of the irreversible damage they suffer by quite a bit.

They may suffer mental retardation. They may suffer physical deformity. They will almost certainly suffer the kind of neurological damage that makes learning difficult, if not impossible. They will suffer susceptibility to stroke. They will, in short, start life without a decent break and go through life without the kind of break that they would have had had they been born whole, which is to say without sustaining the child abuse through the umbilical cord that their mother's substance abuse inflicts upon them.

We currently have been spending about $4.5 million a year, a pittance, Mr. President, to deal with a problem that now afflicts 15 percent of all newborns in many parts of the country.

It is not purely the problem of the inner city. I went out into the central valley of California, to Fresno, to the medical center there. Fifteen percent of newborns suffer substance abuse. They are born 10 weeks premature at dangerously low birth weights, with cranial circumference smaller than it should be. These are children who are going to be a burden to themselves and, frankly, a burden to taxpayers, but, far worse, they should not be required to suffer as in fact they do, beginning with the suffering of withdrawal that makes the nurseries that hold these children piteous things to behold. You can hold one of these children in the palm of your hand they are so small at birth. I saw one after 2 months that had risen to a weight of 4 pounds.

Mr. President, this is a problem in the State of Florida. Governor Martinez testified before a Senate committee that next year he anticipates there will be 10,000 of these children born in the State of Florida. It is a problem in the city of Milwaukee, where Senator KOHL held a hearing. One of the witnesses was the director of public health.

In the strongest possible terms he advised us that we could expect the return of the orphanage as an American institution because we would be unable to find adequate foster parents to deal with these children that no one would want.

Mr. President, what we ought to be doing is preventing this tragedy and the way to do is it by mandatory rehabilitation, or for those strong enough to seek to get clean by themselves we should have massive outreach, education, and treatment facilities. Mr. President, we do not. We do not.

Let us not delude ourselves. There are isolated instances of success stories; the Mandela House in Oakland; the Phoenix Houses throughout the country know what it means to take someone, even someone unwilling, who comes in voluntarily, committed by an agency, and get them clean in a way that they are a good risk to be able to return to society, and to withstand temptation.

But what we are facing is the necessity to deal with this problem and $4.5 million "ain't" going to cut it. It is a pathetically, ridiculously low amount.

It is true that in the interval since this amendment first was on the floor this year we have substantially increased that. We put into the Office of Substance Abuse Prevention $50 million. Mr. President, that is a better than tenfold increase over what we are presently spending. But it is not nearly enough.

Those of us who come to this floor find that we are often confronted with very difficult choices, and close calls. Mr. President, what I am offering this morning is no close call. It should be easy.

First, for those who are concerned with whether they will be able to respond to mail other than the mass mailings called "congressional newsletters" which are the subject of this amendment, let me assure them that they will have ample funds to do so. Some colleagues have approached me in recent days expressing concern that my amendment would ban unsolicited mass mail and also not provide adequate funds for them to answer their constituents' letters. Well, that simply is not the case. It was not my intent, and it will not occur.

There is perhaps less than adequate information available about mail costs but to be on the safe side, I am modifying my amendment to assure that no Senator or House Member will be cut off from responding to his or her constituents.

First, this amendment will leave a significantly greater amount of money in the mail cost accounts. The amendment will strictly prohibit the franking of unsolicited mass mailings, but an adequate cushion will be left in the mail account for fiscal year 1990.

Second, the Rules Committee will be explicitly granted authority to cover mail costs incurred before the date of enactment prior to making allocations to each Senator. So no one will be embarrassed.

Mr. FORD. Mr. President, will the Senator yield at this point for a question, since he referred to the Rules Committee?

Mr. WILSON. On the Senator's time, but not on my time.

Mr. FORD. I do not have any time.

Mr. WILSON. I am sorry. I have very little. I will be happy to yield time later if there is time.

Mr. FORD. I understand. I thank the Senator for his courtesy.

Mr. WILSON. The Senator is welcome.

This will ensure as well that the committee will be provided the authority to provide a minimum allocation of mail funds to Senators who represent small States.

So there is no one who will be unable to respond to the mail. But what we are talking about are the unsolicited mass mailings, the congressional newsletters which are not asked for by constituents.

I ask you to ask yourselves honestly. How often have you been begged for a newsletter, whether your constituents depend upon that as the sole source of information about what you or anyone else in Government is doing for them?

We are elected to set and to keep priorities. Congressional newsletters, even if they were not, as they are so often, are thinly disguised campaign election pieces. Even if they were not, they simply cannot be considered the priority that we must confront if this Nation is not to see the entire iceberg surface in the most ominous tragic way.

We have not dealt adequately with the problem of substance abuse by pregnant women. We cannot do so unless we spend adequately to provide the kind of education, outreach and treatment that will allow them to get clean voluntarily, or involuntarily, and $50 million is not nearly enough.

Indeed, the increase of $45 million that this would provide will not adequately deal with the problem. But to the extent that we can prevent, we are avoiding all manner of costs, both human and tax, and I solemnly urge my colleagues to do so.

Priorities in this case are very easy to determine. This is not a close case.

How much time remains?

The PRESIDING OFFICER. The Senator has 19 minutes left.

Mr. WILSON. Ninteen minutes?

The PRESIDING OFFICER. That is correct; 1 hour equally divided.

Mr. REID. Will the Senator from California yield? The time had not started running. I know the Senator was under the assumption——

Mr. WILSON. The Senator is definitely under a different impression.

Mr. STEVENS. Will the Senator yield to me? The Senator from California called me and asked if we could start this amendment late. I indicated I had no problem about that. I understood the time would be running. We would have a half hour left.

This Senator has a conference to go to. I had no problem since we started at 25 of, to make it a half hour as we indicated. But I hope we can get this done. I have to go back to the conference.

Mr. WILSON. Mr. President, I will conclude my remarks. I was under the impression that the time had been shortened but I was still within my time.

Let me simply conclude by saying this: It is a privilege to serve in this body. I think everybody on this floor is someone whom I would call a friend. I wish we could spend more time personally than the circumstances permit. This used to be called a "club." It really is not any longer. That is not anyone's fault. It is simply a fact of life.

What I will say is that I think we all should be concerned with the reputation of the Senate. We did not come here to be popular either with one another or with our constituents. We came here, I assume, because of certain basic convictions. It is my basic conviction that the far more urgent priority is to deal with the problem of substance abuse by pregnant women than to send out unwanted congressional newsletters. That is what this attacks.

Let me say Congress has had some bad publicity in recent times. Some would say recent times goes back about two centuries. Will Rogers was not the first to enjoy a joke at our expense. We have provided all kinds such material and in the recent past as well.

What I think our constituents expect of us is to do what we are elected by them to do, to set and to keep priorities, and not to say that the most urgent of our priorities have to do with our own personal perquisites. They did not elect us to put perks above principle. The did not elect us to put perks above their real priorities. They did not elect us to put junk mail ahead of providing the kind of outreach treatment that will solve or go a long way toward solving this tragedy that is exploding in epidemic proportions, of substance abuse by pregnant women.

I can think of no more innocent victim in our society than the innocently addicted newborn who through no possible fault of his own faces a life which, to put it midly, will be one of distinctly diminished capacities and enormous costs both in terms of his own suffering and in terms of the obligation which taxpayers will have to shoulder in order to deal with those diminished capacities.

For those reasons, I hope, Mr. President, that my colleagues will see fit to grant passage to this amendment and send it to the House by the same margin that they gave earlier to a virtually identical amendment.

This contains one additional thing, and that is, it applies the antideficiency judgment or statute to congressional mail costs with the post office. There is no reason why all other agencies have to pay their bills, but we can run a tab with the post office. That is the present law; it should not be. I thank the Chair and yield the floor.

Mr. REID addressed the Chair.

Mr. REID. I am not going to take a lot of time to address all the points raised by the Senator, but there are some points that need to be talked about. First, I appreciate his acknowledgment that what we have in the bill is reform, and I have talked about that at some length last week, because there is real reform in the congressional mailing procedures in this bill. It is the best we are going to get, and we have talked about that before. It is important that we recognize that Members of the Senate recognize that there are real reforms in this bill.

Finally, on this subject of the crack babies. Let the Senate understand that the total funding for the addicted babies program for the last fiscal year was $4.5 million. The money, Mr. President, already in the pipeline for this year, is an almost 2,000-percent increase, a 2,000-percent increase. Yet, the Senator proposes yet another increase for this program—this, before we have any reliable assessment of the effectiveness of a program or the impact of such huge increases of funding. I repeat, a 2,000-percent increase.

I think we have to recognize that these programs have not been evaluated by the department or by the Committee on Labor and Human Resources. They have not indicated their support or rejection of this amendment. The Senator has not consulted with the Labor-HHS, Education Committee about the merits of the increase he is proposing. Importantly, Mr. President, the bipartisan drug agreement included the understanding that there would be no further amendments of shifting funds from one appropriation or bill to another to increase antidrug funding, and that the leadership on both sides would joint in tabling such amendments, if a tabling motion were offered, which it will be, I hope.

Mr. President, I know that the Senator from—I do not see him on the floor—Alaska has other things to do, but let me just say that the Senator indicates that there would be adequate money to mail. We have taken from this bill just about everything, as indicated last week when we spoke, .85 mailings—that is, mailing for newsletters, all that would be allowed under this bill, and if somebody sent something first class, it would be even less than that.

This bill has a tremendous amount taken out. There is just a bare minimum in this bill. I suggest, Mr. President, the amendment purports to ban so-called unsolicited mass mailings, but what does this really mean? Does it prohibit, for example, informational mailings on issues we know to have an important impact on our constituents?

In the State of Nevada, as an example, there was started there a group of people, which has now swept the country, who oppose the catastrophic bill passed approximately 1 year ago. I have received thousands of letters from my State on catastrophic care. The letters I received from those people indicated they want to be kept abreast of what was going on regarding castastrophic care. I have written to those people on more than one occasion. I have done that because that is what I need to do to do a good job at representing them in Washington.

We have other issues like catastrophic. There is abortion, gun control, savings and loan, section 89, capital gains, acid rain, global warming, aid to the Contras, arms control, congressional pay raise, honoraria, the fairness doctrine, pesticides on food, flag burning, various Supreme Court decisions, animal rights, Presidental nominees and, of course, franking, which we are talking about now.

So unsolicited mailings, what does that really mean? Under this proposal by the Senator from California, I would not be able to maintain contact with my constituents who were so concerned and are so concerned even today about catastrophic care, for example.

The unintended effect would be the spawning of a new consultant bureaucracy for the purpose of creating people who have solicited mass mailings. There are definitional questions in this amendment that would keep a battery of lawyers and staff occupied for years to come. At what point does mail become solicited? There are the enforcement questions.

Who will make the determination of whether a mailing is solicited or not, the Postal Service, Rules Committee, Postal Committee in the House or in the courts? We will create more jobs for lawyers, which we are very good at doing.

Under the most narrow interpretation, this could prohibit mass mailings to our constituents on the issues I have mentioned, on drug enforcement, education rehabilitation, aid, the trade deficit, discrimination against products that are American in nature in overseas markets. I could go on, but the point is obvious, Mr. President. Properly limited, newsletters and other mailings dealing with public issues are legitimate. Recognizing that we have so little money in this bill any more anyway, the amendment of the Senator would cut off this channel of communication. This is an unwise and really excessive move.

The amendment, of course, assumes that mass media provides adequate alternatives. People could learn about the issues by reading their newspapers or listening to radio and television coverage. This is obviously not so in many more sparsely populated areas, areas that are all over the State of Nevada and other parts of this country.

Worse yet, this argument betrays what I believe to be a strongly elitist conception of political participation. It says in effect, unless you have the time, interest, the information, energy, the self-confidence, the language skills, and other necessary resources to write to your Senator or Representative, you can forget about having any direct communication with the people elected to represent you in Washington, even when they know that what is about to happen will have a major impact on their life and economic well-being.

If you are not informed and aggressive enough to find out about it and pursue your interests on your own, tough. Mr. President, I reiterate, this is a good bill. It is the best we can get from the House. We have provided a 2,000-percent increase in the funding for this crack baby program that the Senator from California talks about.

I add one additional thing: The Wilson amendment contains a major change in current law which Senators should be fully aware of before they vote, because it could well expose them and their staffs to criminal penalties and fines of up to $5,000 and jail terms for 2 years, because it repeals subsection (d) of section 3216 of the franking statute. It would make Congress subject to this Anti-Deficiency Act with respect to this appropriation, which, as I have indicated before, could certainly obligate you and your staff to exposure to a law that I do not know how it could be enforced. It would preclude, on pain of criminal penalties funding, any overrun of the mail costs.

But one point should be very clear. Congress has never failed to pay its mail bill to the Postal Service. I do not think we want to put ourselves in the position of placing our staffs in a position of going to jail for sending out letters that may or may not be unsolicited.

Mr. WILSON. Mr. President, will the Senator yield for a question?

Mr. FORD. On his time.

Mr. REID. The Senator has plenty of time remaining. I am happy to yield to the Senator from California for purposes of a question.

Mr. WILSON. Fine. If I do have time, I will be happy to yield to the Senator from Kentucky.

Do I understand that the Senator is saying he does not want to put Members of Congress in the same position as Members of Congress put all the other agencies of Government, that Congress alone should be immune from the antideficiency statute and we alone should be able to run a tab?

Mr. REID. I respond to the Senator that all other agencies are subject to this. There have been hearings held. I am saying this may be a good provision in the future in the law. It should not be decided here with out time limit on a conference report.

I would say this in response to the Senator: the Senator has contributed greatly to what I feel is a good bill. I have to say that. I think that his persistence and enthusiasm for change has meant a great deal to my subcommittee. I think some of these points the Senator raises in this amendment, and I have to say his amendment has been kind of a moving target, and this new provision may well be something we should put in the law. I would be happy to confer with the ranking member. It may be a good idea, but this is not the place to do it.

The PRESIDING OFFICER (Mr. SHELBY). The Senator from Oklahoma.

Mr. NICKLES. Mr. President, to follow up on what my friend and colleague, Senator REID, said, we will be introducing legislation shortly that is a little different from the one paragraph that deals with the antideficiency law. What it will state is once the appropriate amount has been used, then the only responses that could be used would be in direct response to mail. You could not mail unsolicited mass mailings after the appropriated amount had expired. I think that is a good commonsense approach.

That way even if Congress did use up the appropriated amounts, then the only mailing they go forward with would be response mail. So we could still answer our mail to the constituents, which is part of our job. I think that is an important thing to do.

I also will echo Senator REID's comment in complimenting the Senator from California for his conviction and courage on this issue, and also for the fact that he actually practices what he is preaching. The Senator from California has not made unsolicited mass mailings. Correct me if I am wrong. I think the Senator had almost zero cost when the average cost per Senator was significantly more for the last couple of years. I did not check all the years, but I believe that to be correct. So I compliment him because his colleague and many others from large States could easily spend millions of dollars in mass mailings. I believe the Senator from California, Senator WILSON, has not done so. So I make that comment.

Concerning the pending Wilson amendment, the first thing I will just touch on, looking at the amendment—

and it has changed and been modified on a couple occasions—it would appropriate a little less than $9 million for Senate mail cost. Last year the Senate spent about $28 million. So you can see that we are talking about an amount significantly less than what we had last year and in previous years.

For the House, he would appropriate $14.5 million. Last year the House spent an estimated $57 million. So that is a very significant reduction. The amendment does that, basically.

If you look further down the amendment, he would totally prohibit the use of franking for unsolicited mass mailings. There would be no newsletters or no more mass mailings. That to me is ambiguous. I am not sure that would be an answer to the mail problem.

If you had 2,000 constituents who had written a letter that said "I want you to repeal catastrophic," and they had written you a year ago or maybe 6 months ago, could you write a response to them? I would think that would be legitimate. I would consider that a response.

We looked at the statute. I am not sure it is all that clear. It could be clarified by the Rules Committee, and, incidentally, I think it will be clarified by the Rules Committee following passage of the rule if they do it following this piece of legislation. But that could probably be taken care of. But I would be concerned if we went so far as to say unsolicited mass mailings would prohibit you from responding to your constituent, as Senator REID had mentioned earlier.

The amendment does a couple other things. One, it says we will transfer these savings, estimated to be $45 million, into a model project for pregnant and postpartum women and infants, so-called crack babies. Last year $4.5 million was spent in that program. This year, fiscal year 1990, there will be $85 million. It is probably the biggest expansion or increase in the program I am aware of to go from a little less than $5 million to $85 millon in 1 year. That is a dramatic increase, to say the least.

I will concur with the Senator from California the need is there. There are some real problems with a lot of children born to a drug-dependent mother. There is a problem there.

Concerning one section of the Senator's amendment—and this is a section that causes this Senator a lot of concern because I support it—and that is that subsection (c) of section 3216 of title 39 is repealed. That is the section that allows Congress to continue mailing in spite of the fact that we exceeded our appropriated amount. The last 2 years we actually exceeded the appropriated amount by $31 million. So we have to come back and ask for a supplemental or as in this year in the fiscal year 1990 bill, we actually have $31 million to pay last year's costs. Congress really has not been very astute in budgeting, managing, and trying to figure out how to compute mail cost.

I will say it is obvious at least to the Senate, and I congratulate the Rules Committee for their initiative in the Senate. They have a plan or proposed rule which will allocate the cost and I believe they have every intention of enforcing that allocation to see that Senators do not spend more than the proposed allocation.

I also said when we had the bill originally on the floor that I thought there was little chance that Congress would stay within the apropriated amount. I would still say that that is my guess. Maybe not so much for the Senate. I would doubt that the House will stay with their figure. I hope that they do. I hope that both the House and Senate do. It will require significant restraint as compared to prior years.

Mr. REID. Mr. President, will the Senator yield for a question?

Mr. NICKLES. I am happy to yield.

Mr. REID. The one thing we have in the bill that will certainly make things easier to track is the fact we have separate accounts. There will be no longer commingling to make our job easier to keep track of the money; is that not true?

Mr. NICKLES. The Senator is correct. We had the situation where the Senate did make reforms. I remember Senator MATHIAS, Senator STEVENS, and Senator FORD, and others, were involved in this. We did enact disclosure in the Senate and we made some savings. Unfortunately, the House spent most of the savings because they did not have disclosure or real reform or caps.

I am optimistic, or somewhat optimistic, that at least in the Senate with the Rules' proposals that are coming about, there can be some significant changes. I want to point out there are two or three different provisions in this bill.

One final point, I do not see the Legislative Branch Subcommittee appropriating money that is going to HHS. The Labor-HHS appropriations bill, if I remember, is about $155 billion. I may be off by a few billion dollars but it is $155 billion, and it provided funds for crack babies.

Mr. WILSON. Will the Senator yield?

Mr. NICKLES. I will in half a moment.

We also had money, I believe, in the drug package that was part of the Treasury-Postal Service bill. Those two bills were the appropriate vehicles. I do not really see that the legislative branch is the appropriate vehicle to deal with that problem.

The section that deals with antideficiency that says we should not mail more than we appropriate, I agree with. I inserted that, not exactly in the same language that the Senator has in his amendment, but we had language with the same result in the bill that passed the Senate. As I stated in my earlier objections, I did not sign the conference report for two reasons. One reason was that we did not come back with this language or something close to it in the conference report. I think it is necessary. I think without it we may not really have mail reform or at least significant enough mail reform.

Without that section of the Senator's amendment, what difference would it make if we appropriate $60 million or $100 million? Congress could continue to mail much more. And the Post Office would have to honor that unless we repeal that section of the statute. So at least as far as that one section of the Senator's amendment, I would be very supportive.

I am happy to yield.

Mr. WILSON. Mr. President, the question I would ask my friend has to do with the comment he made about the Labor-HHS appropriations bill. It is unhappily not as he thought. He mentioned $155 billion for the purposes that we are seeking to address in this amendment.

I am pained to tell him that the Labor-HHS conference report recommended $57.8 million, but of that only $4.75 million for this desperate problem of pregnant addicts.

If I were to ask where is S. 1711 now, well, I am afraid the answer is, the chances are very poor for its passage. That was the second of our omnibus drug efforts this year, and that was one that contained a Wilson-Kennedy-Hatch amendment for an additional $50 million for the Office of Substance Abuse Prevention for this purpose.

But, frankly, the only sure money that is in sight is the Labor-HHS appropriations conference report, and that is $4.75 million.

Mr. NICKLES. Just to respond to the Senator, we have requested this from staff and we were told that they had, between the two bills, $85 million. Labor-HHS had, I do not know if is $40 million or $50 million, and then in the Transportation bill—I think I said the Treasury bill previously—but in the Transportation bill in which we have the drug provision, we had a drug bill that was almost $9 billion. I think that also had some funding.

So the total amount would have been about $85 million.

Mr. WILSON. I think my friend is confusing the fact that there had been money that was recommended, but not for pregnant addicts—for high-risk use, for community use, for community prevention. But the only money that we are absolutely assured seeing

to go toward this problem of pregnant addicts is $4.75 billion contained in the Labor-HHS appropriations.

Mr. STEVENS addressed the Chair.

The PRESIDING OFFICER. Who yields time?

Mr. REID. Mr. President, I yield whatever time the Senator consumes.

Mr. STEVENS. Mr. President, the Senator from California called me and told me he had a problem in getting here at the 11 o'clock time appointed and if we would just agree to shorten the time to a half an hour, he would appreciate it. We are over that time. I do not intend to speak very long, and then I intend to make a motion to table his amendment.

We have been on this bill before. This is an amendment to an amendment in disagreement raising subjects which were not raised before. There are three provisions to this amendment that were not here before. This is no time to bring up new matters dealing with legislative problems.

I thought we had an understanding, not only a gentleman's understanding, but an understanding of Senators—and we had an absolute commitment from the leadership that we would not have amendments transferring moneys from one portion of the budget to another. This one does that.

In order to satisfy the request of the Senator from California, we supported—this Senator and every Senator on the floor supported—increasing allocations for drug moneys to deal with the problem the Senator wants to deal with. The legislative problems that are in this amendment have no business coming before the Senate through the vehicle of an amendment to an amendment in disagreement. They deal with the rules of the Senate. We will have a resolution to follow immediately to establish new rules. If the Senator from California wants to discuss the rules, we will be glad to discuss the rules of the Senate.

This amendment deals with applying the Antideficiency Act to the Congress as a whole. The problems of implementing that act are horrendous, we are dealing with the fact that the act apply controls on the executive branch, people spending money that deal generally with programs and projects of horrendous amounts of money. We are talking about the problem of how do you apply the Antideficiency Act to an individual Member of Congress. Now, that is a Rules Committee problem and we must wrestle with it. This bill deals with that problem.

But the main reason I take the floor is we cannot as a Senate abandon the rules of the Senate and procedures of the Senate in an amendment to an amendment is disagreement now raising the same subject again which the Senator from California raised previously, which we have honored. We have increased the money for this program. The question ought not to be before us now.

I call on the Senate once again to defend the Budget Act itself, and that principle is this: This amendment would take, once again, the same $45 million that the Senator from California wanted to transfer from the legislative appropriations bill before and put it in a drug program. We accommodated that when the drug bill was before the Senate. Now to have as a vehicle, once again, this bill, the legislative bill, and once again raise the question, and the primary question, as I understand it, is the model project program for pregnant and postpartum women and infants. We have dealt with that. We have dealt with it now three times.

I say, enough is enough. That bill will be coming back and when it comes back the Senator from California can raise it then. There will be plenty of amendments to the amendments in disagreement on the drug bill, I can guarantee that. But it should not be on this bill. It is time for this bill to get to the President.

We have already talked about the Antideficiency Act. This bill should have been passed by September 30. We should have had this in place in the beginning of the fiscal year. One of the reasons we have not has been the previous amendment of the Senator from California. I see no reason to send this back to the House and not get it passed at all in this fiscal year.

I believe, speaking for the Rules Committee—and I think I speak for my good friend from Kentucky, the chairman of the Rules Committee—we will be pleased to take up the question in committee of what to do with the Antideficiency Act as it should apply to the Congress. It is so complex, we could never cover it with this one simple amendment that the Senator from California has brought to us today.

I move to table the amendment.

Mr. WILSON. Mr. President, I ask for the yeas and nays.

The PRESIDING OFFICER. Do the Senators yield back their time?

The motion to table cannot be made while time remains.

Mr. WILSON. Mr. President, I will take a brief time and then allow the Senator to renew his motion.

Mr. STEVENS. Mr. President, the time has expired under the Senator's agreement that we reached that we would have been through by 12 o'clock.

Mr. WILSON. Mr. President, I ask unanimous consent for about 2 minutes.

The PRESIDING OFFICER. Is there objection? Hearing none, the Senator from California is recognized for 2 minutes.

Mr. WILSON. Mr. President, the antideficiency statute should apply to the Congress as it relates to its mailing costs and certainly its junk mailing costs. We have not dealt adequately with the subject of pregnant addicts. Do not let anybody delude you that we have.

The only certain money is $4.5 million. It is a pittance. The Senate voted on September 7 of this year—not that long ago—8 to 7 in favor of this amendment. The House, soon thereafter, voted 245 to 137 to instruct their conferees to agree to this Senate amendment. No wonder the public grows cynical when they see us putting our procedures, our perks, our priorities ahead of their needs. Now, that is what is at stake.

For everyone who voted for this before, this is virtually the identical amendment, only with the antideficiency provisions applying to junk mail, which everyone on this floor has seen before. As, indeed, the Senator from Oklahoma indicated, we passed it. But it was also knocked out of the conference report.

Do not think we are kidding the American people. You may kid yourselves, but you will not fool them. They know when we are putting perks ahead of principle and ahead of their real priority. The vote was 8 to 7 and 245 to 137.

Mr. President, I will allow the Senator from Alaska to renew his motion to table and I will ask for the yeas and nays.

The PRESIDING OFFICER. Is there a sufficient second? There is a sufficient second.

The yeas and nays were ordered.

Mr. KOHL. Mr. President, let me try to put this issue in context. When the Senate initially considered the legislative appropriation bill, I supported the Wilson amendment to take money from congressional mail and transfer it to programs designed to deal with the crack baby crisis.

But since we adopted that amendment, things have changed. When we initially acted on it, we were really responding to the fact that the administration had proposed an inadequate level of funding for the war on drugs. There was no money in their proposal to aid these babies or their mothers. I concluded that I was willing to restrict the frank in order to help these people and that is why I voted for the Wilson amendment.

Since then, however, we have come up with a plan that does fund the drug war and does direct resources to crack babies. The drug bill we passed last month provides more money for treatment of pregnant women—even though, interestingly enough, the President's proposal did not. When the Senate approved some amendments which I offered, we directed

some of the increased funds to this population. We can now begin to respond to their very real needs. We do not have to make a choice between crack babies and the frank.

And Mr. President, I do not want to make that choice. I believe in the frank, in the ability of Members of Congress to communicate with their constituents. During the debate on the Wilson amendment, I listened to Senator STEVENS and Senator BRADLEY describe the kind of mailings they did. And I concluded that they were doing their constituents a real service with the mail they sent. I do not want to see them denied the right to provide that service in the future. I have not sent out any newsletters on a statewide basis, but I suspect that I ought to—I ought to tell my constituents what I have been doing at least once a year. I also think that the kind of followup mail that I have done—letters to people, often more than 500 at a time, who have contacted me on an issue—makes perfect sense. I want to keep sending them, and I think my constituents want to keep getting them.

Are there abuses of the frank. Yes, no question about it. A new weeks ago, the Senator from New Hampshire took the floor and admitted that he had abused the frank. I suspect that there are other Members who may not have made the confession but have committed the same abuses. And I encourage people who are concerned about the way people use the frank to look at the mailing costs of each Senator rather than the vote on this issue. We ought to respond to the abuse of the frank either on a case-by-case basis or by revising the franking rules—not by eliminating our ability to communicate with constituents.

In short, Mr. President, I do not believe that the arguments by the Senator from California reflect the reality we now face. He does not need to put crack babies against the frank. The only reason to continue to do that is to try to score some political points, not to get aid to these kids on their mothers. I suggest we save the politics for later and get on with the task of helping these people now. And the best way to do that is to reject this amendment.

Mr. KASTEN. Mr. President, today I had the pleasure of meeting with Dr. I. King Jordan, president of Gallaudet University, and about 35 deaf students from Wisconsin. What emerged from our meeting was a clear sense of the desire for the deaf community to participate in our legislative process.

I was, therefore, delighted when, a couple of hours ago, the Senate approved the conference report on legislative branch appropriations—a piece of legislation that provides funding for the first-ever closed-captioning service for Senate proceedings.

In passing this bill, we're extending our hand to all the politically active and aware citizens who are hearing impaired. I hope and believe that it is but another step on the long road toward full participation and communication by this valuable group of Americans.

The PRESIDING OFFICER. The question is on agreeing to the motion of the Senator from Alaska [Mr. STEVENS] to table the amendment of the Senator from California [Mr. WILSON]. The yeas and nays have been ordered, and the clerk will call the roll.

The assistant legislative clerk called the roll.

Mr. CRANSTON. I announce that the Senator from Montana [Mr. BAUCUS] and the Senator from Hawaii [Mr. MATSUNAGA] are necessarily absent.

Mr. SIMPSON. I announce that the Senator from Missouri [Mr. BOND], the Senator from New Hampshire [Mr. HUMPHREY], and the Senator from Wyoming [Mr. WALLOP] are necessarily absent.

I further announce that, if present and voting, the Senator from Wyoming [Mr. WALLOP] would vote "nay."

The PRESIDING OFFICER. Are there any other Senators in the Chamber who desire to vote?

The result was announced—yeas 66, nays 29, as follows:

[Rollcall Vote No. 293 Leg.]

YEAS—66

Adams	Durenberger	Mikulski
Bentsen	Ford	Mitchell
Biden	Fowler	Moynihan
Bingaman	Glenn	Murkowski
Boschwitz	Gore	Nunn
Bradley	Gorton	Packwood
Breaux	Graham	Pell
Bryan	Harkin	Pryor
Bumpers	Hatfield	Reid
Burns	Hollings	Riegle
Byrd	Inouye	Rockefeller
Chafee	Jeffords	Roth
Coats	Johnston	Rudman
Cochran	Kassebaum	Sanford
Conrad	Kennedy	Sarbanes
Cranston	Kerry	Sasser
D'Amato	Kohl	Shelby
Daschle	Leahy	Simon
DeConcini	Lieberman	Simpson
Dixon	Lott	Stevens
Dodd	Lugar	Symms
Domenici	McClure	Wirth

NAYS—29

Armstrong	Hatch	McConnell
Boren	Heflin	Metzenbaum
Burdick	Heinz	Nickles
Cohen	Helms	Pressler
Danforth	Kasten	Robb
Dole	Kerrey	Specter
Exon	Lautenberg	Thurmond
Garn	Levin	Warner
Gramm	Mack	Wilson
Grassley	McCain	

NOT VOTING—5

Baucus	Humphrey	Wallop
Bond	Matsunaga	

So the motion to lay on the table the amendment (No. 1091) was agreed to.

Mr. REID. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. NICKLES. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. REID. I move that the Senate concur in the amendment of the House to the amendment of the Senate numbered 6.

The PRESIDING OFFICER The question is on agreeing to the motion.

The motion was agreed to.

Mr. REID. Mr. President, I move to reconsider the vote by which the motion was agreed to.

Mr. NICKLES. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

Mr. REID. Mr. President, this completes action on the conference report. That being the case, I note the absence of a quorum.

The PRESIDING OFFICER. The clerk will call the roll.

The assistant legislative clerk proceeded to call the roll.

Mr. MOYNIHAN. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The ACTING PRESIDENT pro tempore. Without objection, it is so ordered.

FROM PROTEST BACK TO POLITICS

Mr. MOYNIHAN. Mr. President, this was a notable morning for the United States and for our side of the Capitol. For this morning there was a meeting with the majority leader for the newly elected Democratic Members of the House of Representatives and, of course, the newly elected Governor of Virginia and mayor of New York City.

The distinguished Presiding Officer was present for that occasion, as well he should be, as a former Governor of the Commonwealth of Virginia. This Senator was also on hand to greet our mayor-elect, Mr. David Dinkins.

In the New York Times this morning there was a remarkably fine editorial on the election which was reported yesterday on the right-hand column of the front page. There, it said "The first black mayor elected." On the left-hand column it said: "First black Governor elected." And then a banner headline across related to those events.

Today's editorial is entitled "From Protest to Politics." This is the title of a well-known article written by the late Bayard Rustin in Commentary magazine in 1965, in which he said that with the great rising of black Americans—African-Americans, as they now have chosen to call themselves, and people do have a right to choose their own designations—the time had come to move beyond protests. With the enactment of the Civil

Rights Act and the Voting Rights Act of 1965, the time had come to move to the formal politics of coalition building and seeking out majorities that has characterized ethnic politics in America throughout its history.

It took some time for that movement to succeed and yet clearly, in the most dramatic ways, it has done so in the United States. Certainly, there are other instances, such as in Seattle or New Haven, where there were clearly what we would call white majorities or majorities of other groups, where this happened.

And yet, Mr. President, I rise to make a simple point that in the case of David Dinkins in New York City, it is not so much a transition from protest to politics as a transition from protest back to politics.

I was reminded of this by a remarkable column in yesterday's Newsday by Jimmy Breslin in which he describes a conversation he had Tuesday evening with J. Raymond Jones, sometimes chairman of the New York County Democratic Committee, head of the Carver Democratic Club, and now retired to his ancestral home in St. Thomas in the Virgin Islands.

J. Raymond "The Fox" Jones, as he is known, was the founder of the Carver Democratic Club. He arrived in the United States as a citizen of Denmark. He became a chauffeur to Charles Francis Murphy, then head of Tammany Hall at a time when Tammany Hall had a hall. Half a century went by, and he himself had achieved the exact post that Charles Francis Murphy—Mr. Murphy, as he was known—had occupied. Alas, the hall is gone.

I recall that, in 1965, Mr. Jones took me to his then modest office suite at the New York County Democratic Party on Madison Avenue. I looked into a little supply room and there was a large gilt framed oil painting leaning against the wall, and I asked what that was. He tipped it back. He said it was Mr. Murphy. I said, "Why is it not hanging?" He said, "I will not have Mr. Murphy looking upon us in our reduced circustances."

Ray Jones represented the principle of accommodation and coalition building and ethnic succession in New York politics. It was moving along very well until the upheavals of the 1960's, which began elsewhere but were felt in our own city. And it has taken us some time to get to them.

I note with some pleasure that I was a candidate for citywide office in 1965, chosen in effect by Mr. Jones, as was David Dinkins chosen that year to run for the assembly.

So Mr. Dinkins and I have known each other a long time and equally admire that enormously thoughtful, sensitive political leader. I talked with him not 4 weeks ago from the island of St. Croix when I inquired of him through the Governor of the Virgin Islands. The Governor found him and patched together a telephone hookup so I could speak to him there in the Virgin Islands, where his home overlooking the Drake Passage, had its roof blown off in Hurricane Hugo.

But Ray Jones is all right, is well, and has seen a life fulfilled in so many ways. A whole generation of African-American political leaders came out of his organization, out of his training, out of his nurturing, his care, and his dedication.

In that regard, Mr. President, I would like to ask that the column by Mr. Breslin and the editorial from the New York Times be printed in the RECORD at this point.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

[From the New York Times, Nov. 9, 1989]

FROM PROTEST TO POLITICS

A generation ago, what happened in Tuesday's elections would have been inconceivable. As recently as a year ago, even a Las Vegas bookmaker probably wouldn't have given odds on the results. Even now those results look much closer than had been expected. No matter. They certify a remarkable shift in American politics.

New York City, where blacks are less than a quarter of the electorate, elected a black man as mayor. Virginia, the Old Dominion, with a black population of only 15 percent, appears to have elected a black man as governor. Seattle, where blacks are only 10 percent of the electorate, chose a black mayor by a 16-point margin. And in Houston, where blacks are just a third of the population, a Councilman who seemed sure of reelection two weeks ago was voted out after newspapers reported his use of an outrageous racial slur.

These results don't herald the millennium in race relations. Intolerance still abounds on all sides. In New York, the August slaying by whites of Yusuf Hawkins, an innocent black, is still vivid in public memory. Last weekend, black teen-age girls were arrested for terrorizing nervous white women with pins on Manhattan's Upper West Side.

Yet as New York's Mayor-Elect, David Dinkins, said in his victory speech, "November 7, 1989, is a date that will live in history." It marked "another milestone on freedom's road" and "a victory not just for African-Americans but for . . . all Americans."

How were this victory and the others won? To begin with, by long public service in the trenches. Mr. Dinkins, L. Douglas Wilder in Virginia and Norman Rice in Seattle are professional politicians. All were familiar with the system and familiar to the voters.

More to the racial point, however, each ran as a politician who is black, not as a black politician. Their appeals were across ethnic lines. They built coalitions and made the trade-offs that requires. For Mr. Dinkins and Mr. Wilder, that meant declining the help of the Rev. Jesse Jackson, who inspires blacks but inflames many whites.

But the crucial factor was what Mr. Jackson called "the maturing of white America." Until now, blacks typically have won office where blacks are a voting majority or where, as in Chicago, there was division among whites. On Tuesday, many whites chose to ignore race in assessing who would represent their interests best.

Though the results were narrow, the message is clear. In a generation, black Americans have been able to move, as Bayard Rustin hoped, from protest to politics. In the same generation, many white Americans have moved from hostility to acceptance. That's not perfection, but it is progress—worth celebrating and fighting to preserve.

THE MAN WHO MADE DAVID DINKINS

(By Jimmy Breslin)

I called him at a moment when history moved New York, but as always with the man, manners came first.

"How are you?" asked J. Raymond Jones, who will be 90 in a few days, who started it all, who put organized politics into Harlem, who started David Dinkins.

"Pretty good, and you?" I said.

"Oh, I'm quite all right." He was in St. Thomas, where he has been living.

"And what have you heard?" he asked.

"It looks very good," I said.

"That's wonderful."

"In fact, Dinkins is going to win by a lot. Did you ever think you'd see the day?" I said.

"Oh, certainly, I always had faith that this would happen. You see, the city is much more sophisticated than some people believe."

For a half-century, J. Raymond Jones ran politics in Harlem from the Carver Democratic Club, one flight above 145th and Amsterdam. From an office across the hall from a ballroom, J. Raymond Jones, leader of Harlem, county leader of Manhattan, boss of all he could boss, sent out politicians such as Adam Clayton Powell, Charles Rangel and Percy Sutton. What he ran was supposed to be worthless because he was black. But he believed he always could see a few years ahead of what was going on in front of him in a room.

"It appears that one third of the people who voted for Dinkins are white," I told him.

"That shows that he learned well. I always said that the chances for all of our people were much better if there was no racial tug-of-war. I have never believed that whites have any trouble voting for a black, once they get to know a black and the black doesn't always talk on race. You can't expect to win if you talk like that. Dinkins couldn't have been in the Carver Club all those years and not learned that. He learned we had to make it on the issue of being good Democrats and not the fact that we were black. Maybe Jesse Jackson will learn that now, if it's not too late."

"Did you ever consider running somebody for mayor?"

"Certainly. When I first thought about it, I felt a woman would be the best candidate. My idea was to run the first woman candidate for mayor. I saw Connie Motley in my clubhouse and I thought she could do it. She could attract both blacks and women who weren't black."

Ray Jones' woman candidate, Constance Baker Motley, now is a federal court judge.

Also in the Carver Democratic Club was a young lawyer named David Dinkins.

"Danny Burroughs came in with him the first time," J. Raymond Jones was saying. Burroughs was a state assemblyman out of Harlem and he owned a liquor store. Dinkins worked there while he went to law school. "He had married Danny's daughter by then, I think. I liked Dinkins for two reasons. First, his demeanor. Second, his speech."

J. Raymond Jones meant that Dinkins ran errands and that he kept his mouth shut.

"I had an idea I had a good man in Dinkins when I sent him to the State Assembly," he was saying yesterday. "I told him, 'How do you think you would do for the Assembly? You'll have to convince those down below from us.'" Jones meant the white neighborhoods on the Upper West Side. "'You have to represent them as well.' Dinkins said to me, 'I can't get along in the world with a one-race club. I need them all. I mean to climb."

"He went to the Assembly for one term. Then I went to Albany and was in charge of reapportionment. I had a good feeling about him because I had to inform Dinkins that because of the changes in districts, he would not have a second term in the Assembly. Now, while I was doing the reapportionment, I took the city councilman job, for myself, I though Dinkins would resent that, because that left nothing for him. But when I informed him of this, I remember he stood there and said, 'all right. I'll just have to wait.'"

Waiting seems to be Dinkins' strength. He waited to get in the Marines, waited for J. Raymond Jones, waited 10 years as the city clerk in charge of marriage licenses. He ran for Manhattan borough president in 1977 and lost. He waited until 1981 and ran again and lost again. He waited four more years. Then he won. He waited to announce for mayor. And now last night, at the end of a day in this city when blacks walked on excited feet, when they smiled as if they could see a future, Dinkins of the Carver Democratic Club waited in a hotel suite on Seventh Avenue to hear that he was elected mayor of New York.

And J. Raymond Jones, who started it all, sat in St. Thomas. When the roof of his house blew off during the hurricane, Ray Jones moved in as the guest of the judge of the territorial court of St. Thomas. Jones, who made about 200 judges in his career, likes the custom of black robes because they are easy to grab. Jones, who is in a wheelchair, lives on the second floor. The stairs are too steep for him. The house, however, is directly behind the territorial courthouse and whenever J. Raymond wants to come downstairs, he sends for the courthouse marshals, who carry him down and then take him back up when he's ready.

"I haven't been able to find out much about what's going on," J. Raymond Jones was saying. "The planes are few and far between landing here so I haven't seen the papers in a number of days. The storm knocked out the cable television station so I see nothing, actually. Not that it would matter. I'm too old for politics."

"You didn't want to come up here and see the thing for yourself?"

"I didn't think I could do Dinkins any good. Giuliani would talk about clubhouses and that sort of thing."

"If I don't call you, how were you going to find out if Dinkins won?" I asked him.

"Oh, Charley Rangel or David will be calling me any time now."

THE U.N. RESOLUTION ON ZIONISM

Mr. MOYNIHAN. Finally, Mr. President, I would note that tomorrow is the anniversary, if that is the term, of the adoption by the United Nations of the infamous Resolution 3379 of 1975 that declares Zionism to be a form of racism. No single event has done comparable injury to the United Nations and the prospects for peace in the Middle East.

Several years ago, on October 23, 1986, the Australian Parliament took the initiative of adopting a resolution calling on the United Nations to repeal that resolution. I then sponsored Joint Resolution 205, which contained the exact words of the Australian resolution. It was adopted by the U.S. Senate precisely 1 year after the Australian resolution and was then adopted by the House of Representatives. On this date 2 years ago, it was signed by President Reagan on the occasion of a visit here by the President of Israel, Chaim Herzog, who was Israel's permanent representative to the United Nations at the time this event occurred.

This is an anniversary not only of the Zionism resolution, but also of the tragic events in Germany which began the systematic assaults on the Jewish community on November 9-10, 1938, known as Kristallnacht because the windows of shops and other buildings owned by Jews were smashed all across the country by Nazis that terrible night.

Mr. President, in the Department of State Authorization Act, which the conferees agreed to just 2 days ago, we again addressed the Zionism resolution. We expressed the view that until the General Assembly has repealed that resolution, the United States can have only very limited involvement with that body, and the General Assembly itself can have none, so far as we are concerned, in the Middle East peace process.

I hope, on this occasion, that people around the world might begin to ask, was voting for the Zionism resolution the right thing to do? It was the wrong thing to do, but many nations voted for it nonetheless.

The resolution equating Zionism with racism has its origins in a two-part article which appeared in Pravda on February 18-19, 1971. This marked the commencement of a worldwide campaign. Indeed, within a week, translations of the article in a half dozen languages were available in pamphlet form.

The article was titled "Anti-Sovietism—Profession of Zionists." The 34-year-old author was Vladimir Viktorovich Bolshakov, Deputy Secretary of Pravda's editorial board in charge of the newspaper's international department. Bolshakov asserted, incredibly, that "Zionist agents" in the Soviet Union during World War II had assisted the Nazis. Zionists as accomplices of the Nazis—what lie could be more obscene?

This is the background of the Zionism resolution. It was a weapon waiting to be used, and its moment came in 1975 when another plan was thwarted. The primary plan had been to expel Israel from the United Nations altogether. Throughout 1975, as permanent representative of the United States at the United Nations, I had labored long and hard to resist this. In the end, we were able to prevent it from happening. But the irony was that the Zionism resolution, the second-best, fall-back alternative, was far more devastating to Israel than expulsion from the General Assembly would have been. For the Zionism resolution denied legitimacy to the state of Israel.

Mr. President, the Soviet Union did not give up on plan A, expelling Israel from the United Nations. In fact, the Soviet Union repeatedly cast irresponsible ballots in support of the continued efforts to expel Israel. This year, however, the Soviet Union, with its new, more cooperative approach to the United Nations, refused to go along. On October 17 of this year it abstained on the motion. One may hope that the Soviet Union will one day take the far more appropriate step of joining the 95 nations which actually voted "no" on the motion to expel Israel. Nonetheless, this is progress and should be recognized as such.

Now is, therefore, the time for the Soviet Union to take the next, very important step of repudiating the "Zionism is racism" resolution. The resolution is its handiwork. So long as it stands the protestations of the Soviet Union to have mended its ways will have a hollow ring.

I wish some of the Soviet client states would take note of their recent vote. I wish some of our democratic friends might also say, is it not time that our parliaments adopted the Australian resolution calling on the General Assembly to repeal the infamous and obscene Zionism Act?

Mr. President, I do not observe any other Senator seeking recognition, and, accordingly, suggest the absence of a quorum.

The ACTING PRESIDENT pro tempore. The clerk will call the roll.

The legislative clerk proceeded to call the roll.

Mr. MITCHELL. Mr. President, I ask unanimous consent that the order for the quorum call be rescinded.

The PRESIDING OFFICER (Mr. DIXON). Without objection, it is so ordered.

DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATIONS, FISCAL YEAR 1990—CONFERENCE REPORT

Mr. MITCHELL. Mr. President, I ask unanimous consent that the Senate proceed to the consideration of the conference report accompanying

H.R. 3015, the transportation appropriations bill.

The PRESIDING OFFICER. The report will be stated.

The assistant legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 3015) making appropriations for the Department of Transportation and related agencies for the fiscal year ending September 30, 1990, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by all of the conferees.

The PRESIDING OFFICER. Without objection, the Senate will proceed to the consideration of the conference report.

(The conference report is printed in the House proceedings of the RECORD of October 26, 1989.)

Mr. DOLE addressed the Chair.

The PRESIDING OFFICER. The distinguished Republican leader.

Mr. DOLE. I think I have a few minutes left in leader time.

I would like to proceed not on the conference report but on another matter.

The PRESIDING OFFICER. Without objection, it is so ordered.

EAST GERMANY'S CRITICAL MOMENT

MR. DOLE. Mr. President, according to news reports, the East German Government has just announced the opening of its borders to all of its citizens—to include the right to free passage of the Berlin Wall.

It appears that the Berlin Wall and all it represents are crumbling, even as the Communist state which built it crumbles, too.

With breathless speed, the people of East Germany have sought to take their own destiny into their own hands.

By the hundreds of thousands, they have taken to the streets, asking only two things: freedom and opportunity.

By the tens of thousands, they have fled their homeland, seeking only two things: freedom and opportunity.

Decades of Communist rule lie in shambles. The government resigns one day, the Communist politburo the next.

And now we have today's dramatic announcement.

The ragtag bag of Communists left trying to regain control are fighting a fight they can't win: A fight against their own people.

They are running a race they can't win: A race against history.

The people of East Germany, and the rapid march of contemporary history, has left them with only one reasonable choice: To go down the path that Poland and Hungary are already taking—the path of transition to a whole new system of government, in which the people are the masters of the state and not its servants.

But are they reasonable men? And will they stay on that path? The jury is still out. Borders can be closed, as well as opened. Talk of free elections can turn out to be nothing more than talk. There is a new politburo, with some dead wood removed; but 7 of the 11 members are holdovers from the old politburo. And there are undoubtedly still powerful forces which will see all the recent developments as abhorrent, and will continue to try to push a Communist government to crack down.

This is an extraordinary moment in the history of central Europe—what happens tomorrow remains as uncertain as what happens next month or next year.

Poland and Hungary, as rapidly as they have moved, did so only after years of evolution in their political, economic, and social systems.

East Germany is faced with making the same kinds of changes, literally overnight.

If there is a misstep in East Germany now, the results could be cataclysmic.

Hopefully, the East Germans' mentors in the Kremlin—who seem to understand how strongly flow the tides of freedom—hopefully, they will counsel common sense on their East German colleagues. Gorbachev, after all, has as much at stake in East Germany as do its Communist leaders.

We should also be clear, but prudent, in our own actions.

There is no equivocation in our goals. We want freedom for East Germany and its people. We want today's announcement to turn out to be the real thing—we want the Berlin Wall torn down, and all other barriers to the free flow of people removed.

And we hope that East Germany's Communist clique will read the handwriting on the wall and cooperate in the transition to a new form of government, as some of their recent comments suggest.

But we should not do anything at this point which might needlessly add fuel to the fire. The issues of the long-term future of East and West Germany, and of central Europe, are critical issues; issues which will be affected by what happens these next days and weeks; issues that we must think about now. But they are not issues for heated rhetoric right now.

Clearly, German history is at a critical crossroads. Profound changes may lie ahead. But let us, for the moment, address first things, first.

The first thing is seeing the East German people achieve their immediate aspirations—will newly open borders remain open—even if the tide of departing Germans turns into a flood? Will there be a real commitment to free elections and a whole new kind of government? That is where our focus should be. That is both the drama, and the task, of the moment.

Mr. MITCHELL addressed the Chair.

The PRESIDING OFFICER. The distinguished majority leader.

THE BERLIN WALL

Mr. MITCHELL. Mr. President, I commend the distinguished Republican leader for his remarks, and would like now to address the same subject.

Early on a Sunday morning in June of 1955 I arrived in West Berlin. I was a young officer in the U.S. Army Intelligence Service, and it was a time of deep impression for me. Just a few days before, I had flown in an airplane for the first time, traveling from the United States to Frankfurt, West Germany. Just the night before, I had made a trip in an overnight sleeper on a train, traveling from Frankfurt to West Berlin. But by far the greatest impression made upon me then was coming face to face for the first time with the difference between democracy and totalitarianism, between freedom and communism.

Shortly after arriving in West Berlin, I went to a large refugee center, which was operated there by the United States Army to receive the thousands of refugees fleeing communism in East Germany, Poland, and Czechoslovakia. During my time there, that number reached over 3,000 persons a week. Those brave East Germans, Czechs, Poles, all were demonstrating that the appeal of democracy was and is universal.

In response to that human tide, the East German Government, with the help of their Soviet allies, built the infamous wall. I believed then, and believe now, that the wall is the most tangible symbol of the failure of communism that exists, for it demonstrated for the world to see, in the most stark and even barbaric way, that the only way the East German Government could keep their people within their country was to prevent them from leaving their country.

For nearly 30 years, the Berlin Wall has stood as a symbol of the failure of communism. Many saw that failure occurring over time, and now it is evident to even the Communists themselves and to the East German leaders.

The decision—not an act of democracy, not an act to please or placate the West, but a desperate act of survival by the East German Government—to permit their people to leave, represents the symbolic destruction of the Berlin Wall. It has, in an ironic way, served a useful purpose, because it has reminded, on a daily basis, every person in this world of the vast differ-

ence between democracy and communism.

A system and a society which forces its people to remain cannot ultimately succeed. Now that the Berlin Wall has been symbolically destroyed, all that remains is for it to be physically destroyed. I strongly urge the East German Government, and President Gorbachev of the Soviet Union directly, to take the final step and tear that wall down. It is gone in substance. It should be gone in form.

The East German people are now demonstrating anew, as their parents, and in some cases grandparents, did a quarter of a century ago, that the human longing for freedom is universal and cannot be extinguished, and no wall can support a government that does not respond to the needs of its people.

Mr. President, this is a historic event. It can be made even more so if the East German Government now acts to tear the wall down. I urge them to do so. I urge President Gorbachev to encourage them to do so. Only then, only then, will we know that their proposals of today have substance and meaning.

Mr. President, I yield the floor.

Mr. LAUTENBERG addressed the Chair.

The PRESIDING OFFICER. The distinguished Senator from New Jersey.

DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATIONS, FISCAL YEAR 1990—CONFERENCE REPORT

The Senate continued with the consideration of the conference report.

Mr. LAUTENBERG. Mr. President, I bring before the Senate the conference report on H.R. 3015, the Department of Transportation and related agencies appropriation bill for fiscal year 1990.

Now, before discussing the funding provided, Mr. President, I am pleased to report to my colleagues that with the adoption of this report, we will soon clear the smoke-filled skies for virtually every domestic airline flight. No one flying in any flight that is under 6 hours in duration will have to breathe anybody else's cigarette smoke; 96 days after enactment, travelers and flight attendants can all breathe a little bit easier. The Senate sent us to conference with a clear position. The Senate voted for a ban on smoking on all domestic flights. We took that mandate to the conference and reached an agreement that covers 99.8 percent of all the flights that take place within our country.

Mr. President, allowing smoking in the confined space of an airline cabin just does not make sense. It is dangerous and unhealthy. Interestingly, 84 percent of the people who flew in flights that were of 2 hours' duration or less agreed that we should have a total ban on smoking in airplanes.

Funny enough, even the majority of smokers agreed with that conclusion.

Some of them, in fact, have said to me, "Senator, maybe I can finally break the habit that I am accustomed to, do not really like, would love to change, and if you force me to do without smoking for 4 or 5 hours, I can probably do without it forever."

With this legislation, nonsmokers, including children and infants, will be free from secondhand smoke. Working flight attendants will avoid a hazard that has jeopardized their health and their jobs.

By approving this provision, the Congress can make it possible for people to fly smoke-free to virtually any destination in this country.

The approval of this ban is a milestone in efforts to protect those who do not want to put their health at risk by inhaling others' smoke. I am pleased to present this provision to the Senate, and I look forward to the day, now on the horizon, when the smoke clears, and we can all breathe a little easier.

Mr. President, let me now address the funding provided.

The conference agreement contains a total of $15.039 billion in new budget authority and $15.238 billion dollars in obligation limitations. Excluding the $3.183 billion in new emergency drug funding included in title IV, the conference report for the Transportation bill provides $12.028 billion in new obligational authority, which is an increase of $1.111 billion, +10 percent, above fiscal year 1989 enacted levels.

Titles I through III of the conference report are within the subcommittee's 302(b) allocation and are consistent with the Budget summit agreement.

Mr. President, I ask unanimous consent to print in the RECORD a table summarizing the funding agreements reached in conference, including the drug funding offsets.

There being no objection, the table was ordered to be printed in the RECORD, as follows:

H.R. 3015 - DEPARTMENT OF TRANSPORTATION AND RELATED AGENCIES APPROPRIATION BILL, 1990

	FY 1989 Enacted	FY 1990 Estimates	House	Senate	Title I-III Conference Agreement	Title IV Drug Funding Offsets	Revised Conference
TITLE I - DEPARTMENT OF TRANSPORTATION							
Office of the Secretary							
Salaries and expenses	---	56,481,000	---	56,470,000	---	---	---

Mr. LAUTENBERG. Mr. President, the major increases over fiscal year 1989 are for the Federal Aviation Administration and the Coast Guard. The agreement provides a total program of $7.144 billion for FAA. This represents an increase of $852 million or plus 14 percent, over the current level. The agreement funds the continued rebuilding of the controller, aviation security, safety inspector, and maintenance technician work forces. It also includes the funding necessary to move the NAS Plan forward.

For the Coast Guard, the conference agreement provides a total program of $3.229 billion. For the Coast Guard's major operating accounts, this represents an increase of $130 million, or 6 percent, over the enacted level for this fiscal year. Of this amount, $300 million will be derived from the Department of Defense in support of the Coast Guard's defense-related missions. On that point, I wish to say a special word of thanks to my friends, Chairman INOUYE of the Defense Subcommittee and Senator STEVENS, the ranking member.

Other major highlights of the conference agreement include: First, $12.21 billion for the Federal Highway program's obligation ceiling; second, $232.2 million for the National Highway Traffic Safety Administration; third, $3.048 billion for the Urban Mass Transportation Administration; fourth, $716 million for the Federal Railroad Administration, including $613 million for Amtrak; and fifth, $1 million for the Commission on Aviation Security and Terrorism on which I am privileged to serve.

Mr. President, we had 144 amendments in conference. The conferees have agreed to a resolution of all of these amendments. The result is a package that I believe preserves a balanced transportation program for the Nation, despite our severe funding constraints.

Mr. President, I believe this accurately and fairly summarizes the overall contents of our agreement.

Before I yield, however, I thank my friend and ranking member, Senator D'AMATO, from New York, for his help in getting this bill through the committee, the floor, and the conference with the House. Given the funding and other problems we faced, it was very hard to develop a balanced transportation program; for our country without his assistance and cooperation, it would have been impossible.

I also pay tribute to my House counterparts, Chairman BILL LEHMAN and his ranking member, LARRY COUGHLIN from the neighboring State of Pennsylvania. They and their colleagues worked hard to produce a good, solid transportation program and were always courteous and cooperative in working out a reasonable accommodation between the two Houses.

Mr. President, you know that in a bill like transportation, there are lots of requests from Senators and from Congresspersons throughout the entire bill. Everyone in the country—there is not a State, there is not a community that does not have funding needs for either infrastructure, bridges, roads, railroad service, or aviation service.

We have had a very tough time in accommodating those remote communities that need air service, and we have the Government provide an incentive for carriers to continue to service those communities, because the revenue generated just is not enough.

So there is a lot in this, and I am hopeful that we are not going to have any problems in getting this legislation done and getting the appropriations bill passed and over to the President.

We will be holding out a couple of amendments that we will enunciate soon.

I also want to acknowledge with thanks those who serve with me on the Transportation Subcommittee who have been very helpful in getting this complicated bill acceptable to everybody and passed and that includes of course our distinguished chairman of the Appropriations Committee, Senator BYRD, Senator HARKIN, Senator SASSER, Senator MIKULSKI who serve with me on the Democratic side and as I mentioned Senators D'AMATO, KASTEN, DOMENICI, and GRASSLEY as well as the ranking member of the Senate Appropriations Committee, Senator HATFIELD. They have all been a constant source of sensible counsel and good steadfast support.

Mr. President, I believe that Senator D'AMATO has some remarks he would like to offer at this time, and I yield the floor for the remarks.

The PRESIDING OFFICER (Mr. BURDICK). The Senator from New York.

Mr. D'AMATO. Mr. President, let me first congratulate my distinguished colleague and the chairman of the subcommittee, Senator LAUTENBERG, for the hard work and effort that he went through in forging this conference report. Let me also commend him for his leadership in giving all Americans, especially those who work in the transportation area, the ability to travel in a healthy smoke-free environment.

Were it not for Senator LAUTENBERG's undaunted persistence in this area, in light of the many who counseled wait for another time, wait for another vehicle, this landmark legislation would not have been accomplished.

And I say to Senator LAUTENBERG, no efforts are singular but certainly there are people who are the prime movers. There is no dispute that you have been the prime mover in this effort, in an effort that goes a long way toward ensuring the health of American travelers, particularly transportation workers such as flight attendants.

Mr. President, the House approved this conference report on October 31, and I hope we can pass it, if not today, certainly very soon. This bill contains critical funding for the Federal Aviation Administration, including 120 new safety and security positions and for the U.S. Coast Guard.

If we are going to continue our vigilance in drug interdiction, if we are going to do our job as it relates to monitoring pollution and controlling it, it is vital that we pass this bill and provide the support needed for the Coast Guard and other transportation agencies that is contained herein.

For the Federal Highway Administration, Urban Mass Transportation Administration, and other related agencies, the necessary funding to carry out these important jobs and obligations is provided by this legislation.

I am glad that we have been able to provide $30.7 million for the Essential Air Service Program that is so important to the small rural communities who otherwise would be without service. Fortunately, service to some of the communities in New York, such as Watertown, which was placed in jeopardy during the conference, is continued by the conference report.

This report contains $1 million to fund the work of the President's Commission on Aviation Security and Terrorism. As a member of this Commission, along with Senator LAUTENBERG, I am eager to get started on the serious work ahead.

Many issues have been raised with respect to the bombing of Pan Am 103 nearly a year ago, and it is important that the Commission analyze and examine the nature of these issues, review the events that took place, and consider what could have been prevented, and what can be done to guard against terrorist attacks in the future.

Mr. President, I respectfully urge the Senate to approve this conference report as quickly as possible.

Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from New Jersey.

Mr. LAUTENBERG. Mr. President, the Senator from Colorado has asked for the floor, and I will therefore yield the floor.

Mr. WIRTH. Mr. President, I wanted to make a few comments as we consider the passage of the conference report on the Transportation appropriations bill for fiscal year 1990. This has been a particularly difficult year in terms of the budget, and I compliment my good friend, the Senator from New Jersey, Chairman LAUTENBERG, in navigating this legislation through the tight channels of this process.

When we pass this bill next week and send it to the President for his approval, we will be enacting a promising trend found in this legislation—an increased emphasis on the need to expand our aviation infrastructure to accommodate the rapid growth of our airline industry. Chairman LAUTENBERG and the other members of the Transportation Appropriations Subcommittee have done good work in balancing important national priorities, such as support for the war on drugs, while at the same time, preserving initiatives that will enhance the safety and convenience of the air-traveling public.

In 1978 Congress deregulated the airline industry. During that year, nearly 276 million passengers flew through our Nation's airports. Within 9 years, this number expanded to more than 450 million fliers per year nationwide, and will clear the 600 million mark by 1997. Yet, while the demand for an adequate and efficient aviation infrastructure has increased, I believe that the Federal Government has been slow to respond to this growing need.

Another consequence of deregulation has been the creation of the well-known hub and spoke system of air transportation, with which we in the Congress—as frequent flyers—are very familiar. This practice of feeding passengers from around the country into central switchboard airports has increased the efficiency of the industry and helped to keep ticket prices affordable.

Unfortunately, the hub and spoke business strategy has accentuated the problems of our inadequate infrastructure. By concentrating a significant portion of the increased passenger traffic to relatively few large airports in the country, delays and inconveniences have become the rule rather than the exception.

According to the Federal Aviation Administration [FAA], there are 21 airports where, at each one, passengers are experiencing more than 20,000 hours of delays annually. At five of these congested facilities, people will wait more than 50,000 hours to land or take off. By the turn of the century, if we do not take steps to expand our Nation's aviation capacity, passengers using the three busiest airports will have delays exceeding 100,000 hours annually—Atlanta, Chicago, and unfortunately, Denver.

This problem is only going to get worse. By the year 2000, the number of passengers flying through these major hubs are expected to rise to 85 percent. For example, Denver's Stapleton Airport, originally constructed to handle 18 million passengers per year, currently plays host to more than 34 million passengers. Recent FAA projects, indicate that by the year 2000, Denver's traffic will top 66 million, making it the fastest growing airport in the country.

Mr. President, Senator LAUTENBERG and the members of the conference, have retained Senate language making nearly $250 million available in fiscal 1990 for projects which enhance the ability of our Nation's airports to handle the growing number of people choosing to fly. This money is sorely needed by States and municipalities to make important contributions to the capacity of our national aviation infrastructure.

As some of you may know, in my own State of Colorado, we are working hard to accomplish just such a task. Last May, the citizens of Denver voted overwhlemingly to start construction of a new international airport to serve the Rocky Mountain region. At the end of September, the project's environmental impact statement received its seal of approval and received a significant grant from the FAA, permitting construction to begin.

The facility will be the first major airport built in 15 years, since the opening of Dallas-Fort Worth in 1974, and will expand the Nation's air capacity by 11 percent. Reductions in delays will be experienced around the country with Denver's increased ability to handle air traffic at times of poor weather and heavy demand. With the fine work by the members of the Appropriations Committee, this airport will open on time in 1993.

Mr. President, again, I wish to thank Senator LAUTENBERG and Senator D'AMATO as the chairman and ranking member of the Subcommittee on Transportation Appropriations. In addition, I know we are all appreciative of the usual hard work and courtesy of the chairman of the Appropriations Committee, Senator BYRD, and the ranking member, Senator HATFIELD.

Thank you, Mr. President. I yield the floor.

Mr. President, again, I thank the distinguished Senator from New Jersey, not only for his courtesy now, but for his remarkable help to Denver and to Colorado and to the Rocky Mountain West.

It is always easier, Mr. President, to say no. All of us are in a business where veto power is a lot easier to generate than power to go ahead and do something. In no case is that clearer than with all of the issues surrounding the new Denver airport. It would have been much easier for everybody who has been involved in this to say no.

Rather, we have had a remarkable example of, I think, very enlightened leadership from the distinguished Senator from New Jersey and his committee in helping us to say yes to the most important transportation program in the history of the Rocky Mountain West. This all started with the resolve in the Denver metropolitan area to build a new airport, and we had a lot of controversy surrounding it.

First, in suburban Adams County, there was a good deal of resistance to the airport. We got that worked out, and we finally had an election, and that election won with a very significant margin, so we solved that problem. The veto power was there. We got it sorted out. We solved that problem.

It then moved to Denver. We went through a similar kind of situation. There were a lot of opponents in Denver for a new airport, a lot of proponents as well. Again, we had an election. Again, that election was managed by members of my staff. That election was successful. Those staff members worked for me and are currently working for me, and I am proud of the job that they did. We solved that problem as well, Mr. President.

Then we got into a kind of final homestretch with putting together the financial package necessary to make the new airport happen. That financial package was very creatively and aggressively honchoed by the distinguished Senator from New Jersey and by the distinguished Senator from New York and the other members of the Appropriations Committee.

There were a lot of people out there who did not think this airport deserved the emphasis it is getting. There was a lot of parochial concern trying to steal the money away from Denver and put it someplace else; a lot of concern about the specious arguments about the Denver airport—it should not be built, was not ready, and so on. Potential veto power was all over the place. But once again, the two distinguished managers of the committee were right there helping us with their enormous persuasiveness and their commitment.

I want just publicly, on behalf of the citizens of Denver, the citizens of Colorado, and the citizens of the whole Rocky Mountain region, to thank them, backed by Senator BYRD's quiet and firm hand. In particular, I want to pay our respects and our thanks to Senator D'AMATO and Senator LAUTENBERG. They were there day after day after day after day. When the going got rough, they were running interference for us. We could not have this project without them.

Why am I emphasizing this? This is the most important economic development program in the history of the Rocky Mountain West. It is the most important public works and transportation program. It is absolutely crucial to the well-being of the Nation's air traffic system, and it is going to be an extraordinary contribution to the country going well into the 21st century. It would not have happened without these Senators and their help.

Again, on behalf of my constituents and literally hundreds and hundreds

of thousands of people in our country and in our region, we want to thank them. I urge my colleagues to join with me in not only passing this bill but in enjoying the new Denver airport when it is there. We can guarantee you there will be no weather delays. We will have an airport that will ease your trips to Aspen and Vail and other points, as well as to the other communities of the Rocky Mountain West and to the beautiful summers and winters in Colorado.

Mr. LAUTENBERG. Mr. President, I thank the Senator from Colorado for his kind remarks. I am sure the record will appropriately reflect that he just advertised Colorado as the vacationland of the world. But when we look at the aviation system, of course, we respect and admire the beauty of the Rocky Mountains and all of the magic that it holds for many.

But the whole aviation system is dependent upon our ability to have airplanes being able to take off from wherever and cross the destinations that they are scheduled to go. That means that as efficiently as possible we have to manage the aviation system. And, therefore, a major new facility like the Denver airport is an integral part of the advancement of a more capable aviation system in this country.

I was very vigorous in my support of that, just as I am in the prospect of a new airport in south Jersey that has been discussed many times, the enlargement of other airports, like Philadelphia and the New York regional airports in the area that Senator D'AMATO and I serve.

So, on behalf of the best interests of the country in both economic, recreational, and business travel considerations, that is the way to go. We want our aviation system to be the best that there is. By enlarging and starting this new airport to be able to absorb the traffic and not have us waiting in sunny Miami while Denver is snowed in because you cannot get the traffic in or out, I think we make an important step forward.

I thank the Senator from Colorado for his diligent work in presenting the case and coming to us with a mandate, with an understanding from the people of Colorado that they are willing to support this, that they are willing to get out there and raise money and they are willing to commit their communities to seeing that this job gets done. Having acquired a massive piece of property so that there can be a proper airport, I think, is testimony to the attitude and the fortitude of the people of Colorado, who say we need this for the enhancement of the general well-being of our State and our region because it is a major community stop in flights to Wyoming, Idaho, and Utah, and places like that.

So we are pleased to have had this chance to add a dimension to our Nation's aviation system. Once again, I thank the Senator from Colorado for his persistence in getting that message across.

EXTENSION OF INTERSTATE HIGHWAY IN UPPER EAST TENNESSEE

Mr. SASSER. Mr. President, the conferees included in the fiscal year 1990 Transportation appropriations conference report language directing the Federal Highway Administration to cooperate with State and local officials on efforts to extend the interstate highway route between the Tri-Cities in upper east Tennessee and Asheville, NC. This project has several aspects. Is it the understanding of the chairman that when the conferees made reference to cooperation on the entire project, they intended to include work on a proposed ramp connecting the extended interstate with the State of Franklin Road in Johnson City, TN?

Mr. LAUTENBERG. That is correct.

LABOR DEPARTMENT ANTIDRUG ABUSE ASSISTANCE PROGRAMS

Mr. SIMON. Would the manager of the bill permit me to clarify an issue with Senator HARKIN concerning a Labor Department component of antidrug abuse legislation since he chairs the Appropriations Subcommittee that funds the Labor Department?

Mr. LAUTENBERG. Yes.

Mr. SIMON. I am concerned that the Department of Labor has narrowly defined in a manner inconsistent with our purposes in enacting this authority, the word "employer" for the purpose of awarding drug abuse program funding under the Employee Assistance Program of the Anti-Drug Abuse Act of 1988. The purpose of this funding is to develop employee drug abuse assistance programs in the workplace. For this reason, Congress intended that grants to employers be interpreted to include any program that would benefit employers by providing such assistance to their employees. This appropriation act should be so interpreted. For example, many employers are part of joint labor-management funds through which employees are provided with health and welfare benefits. This is particularly true in the construction industry where multiemployer funds are required by law. I believe that Congress had intended and now intends that this type of program be eligible for this funding.

Mr. HARKIN. I agree with the Senator that the Labor Department should broadly interpret eligibility criteria under the EAP and that programs which benefit employers by providing such benefits to their employees are eligible for EAP funds. I hope the Department will give due consideration to the particular needs of employers in the construction industry, and award demonstration grants to deal with this critical issue.

PRIORITY REPLACEMENT OF KELLER MEMORIAL BRIDGE

Mr. SHELBY. Mr. President, with respect to the Department of Transportation and related agencies appropriations bill, the Senate and House Appropriations Committee reports identified several bridges to be given priority consideration by the Secretary of Transportation for participation in the bridge discretionary fund. During Senate consideration of the bill, the distinguished manager, Senator LAUTENBERG, indicated that the Keller Memorial Bridge in Decatur, AL, also warranted priority treatment. I notice that in the Transportation appropriations conference report now before the Senate, there is no listing of bridges directed to be given priority consideration.

It is my understanding that the State of Alabama has requested approximately $14 million in discretionary funds to replace the Keller Memorial Bridge which spans the Tennessee River in the vicinity of Decatur, AL. There is a serious need for replacement of the Keller Memorial Bridge. The bridge, which was originally constructed and opened to traffic in 1926, now receives an average of 31,948 vehicles per day, with the predicted average traffic for 2005 at 40,100 vehicles per day according to the Alabama Highway Department. As the lone drawbridge on the Tennessee River, Alabama Highway Department officials fear that the bridge is structurally unable to continue handling the heavy traffic loads.

The Keller Memorial Bridge is an important link between Morgan County and rapidly expanding north Alabama. However, the antiquated structure that has served for 62 years as that vital connection between the north and south banks of the Tennessee River is now a detriment to the entire area. For these reasons, I believe that the 63-year-old Keller Memorial Bridge warrants priority attention.

The distinguished senior Senator from Alabama [Mr. HEFLIN] and I ask the distinguished manager of the Department of Transportation and related agencies appropriations conference report if it is the intent of the conferees that the Keller Memorial Bridge receive the same priority treatment as if it were listed in the committee report.

Mr. HEFLIN. Mr. President, I wish to join my colleague from Alabama in requesting that the Keller Memorial Bridge replacement be given priority consideration by the Secretary of Transportation for participation in the bridge discretionary fund.

I would like to also thank the Senator from New Jersey and the Senator

from New York for their assistance on this matter. I know that solely because of time constraints, the Appropriations Committee was not able to consider this matter when the bill was before the committee; and I certainly appreciate their efforts at this time.

Mr. LAUTENBERG. My good friends from Alabama are correct. The Senate Appropriations Committee has directed the Secretary of Transportation to give priority designation, consistent with existing criteria, to give several bridges which serve as major links for both intrastate and interstate commerce and which directly impact the economic development of an area. The State of Alabama's application for the Keller Memorial Bridge replacement is equally deserving of priority consideration. The Secretary of Transportation should give priority designation to the Keller Memorial Bridge discretionary fund application as submitted by the Alabama Highway Department.

Mr. D'AMATO. I agree with Senator LAUTENBERG's identification of the Keller Memorial Bridge replacement in Decatur, AL, as a priority project.

Mr. SHELBY. I thank my good friends from New Jersey and New York for their assistance in addressing this important situation.

IMPROVING THE RELIABILITY OF AIRWORTHINESS

Mr. HARKIN. Mr. President, no matter how sophisticated our manufacturing techniques become, or how advanced the engineering, quality and reliability of machines are, they can be no better than the materials that they are made of. And, in aircraft, aircraft engines and other components, where there are great strains during the thousands of hours of operation and many landings and takeoffs, materials do deteriorate.

We need better systems to check aircraft components—systems that can check the quality of materials with accuracy and at a price at which they can be used.

The sum of $3 million for this important activity was included in the Senate measure and in the conference report. I expect that this funding and future funding will bring together experts from around the world including experts from various universities and industry. We need a focused technological response to this problem with various sectors working in a cooperative research venture.

Needless to say, a technical review process should be initiated to include the FAA, the aviation industry, universities with significant expertise and perhaps, the National Research Council. The review process would determine the best structure and technical program to address the possible solutions to the problems of aging aircraft. The review process should be implemented in an expedited fashion and be completed as soon as possible.

I am very thankful for the strong support for additional funding in this area that has been provided by Senator LAUTENBERG, a consistent champion for increasing air safety.

Mr. LAUTENBERG. Mr. President, methods to improve the reliability of airworthiness is an important goal. I appreciate Senator HARKIN's work in this area and his expertise as the former chairman of the House Transportation Aviation and Materials Subcommittee. This is an area which should be a high priority. I look forward to seeing the FAA move forward in the area of nondestructive evaluation of aging aircraft.

UNIVERSITY TRANSPORTATIOIN SYSTEMS

Mr. BURDICK. Mr. President, I am pleased that H.R. 3015, the fiscal year 1990 Transportation appropriations bill, contains a provision making a technical correction in the amount of funding available for the University Transportation Centers Program.

The Surface Transportation and Uniform Relocation Assistance Act of 1987 (Public Law 100-17) established the program and provided $5 million in funding annually from the mass transit account of the highway trust fund. It was intended that the same amount would come from the highway account. However, the Reagan administration determined that the legislative language did not permit release of the funds from the highway account.

The DOT appropriations bill accomplishes—at least for fiscal year 1990—what Congress intended in the 1987 Highway Act. Participating universities have had the opportunity to establish their programs with the funding from the mass transit account. With the complementary funding available from the highway account of the highway trust fund, University transportation centers will now be able to fully fund their research activities, as the Congress originally intended.

Dr. Thomas D. Larson, the Federal Highway Administrator, is a strong supporter of the University Transportation Centers Program, calling it "a valuable resource for the transportation community." In addition to his 8 years of service as Pennsylvania's transportation secretary, Dr. Larson has spent nearly 20 years on the faculty of the Pennsylvania State University. He has had the opportunity firsthand to observe the benefits of university transportation research, as have many of our Nation's transportation leaders.

The Department of Transportation has set out the purpose of the program, saying that:

[it] is to become a national resource and focal point for the support and conduct of research and training concerning the transportation of passengers and property. The Program aims to attract the Nation's best talent to the study of transportation and to develop new strategies and concepts to effectively address existing and future transportation issues and problems.

As the Committee on Environment and Public Works begins to develop legislation to reauthorize the Federal-aid Highway Program, we will address the issue of adequate and permanent funding from the highway trust fund for the University Transportation Centers Program.

University Transportation Centers at schools in over 30 States in all of the 10 Federal regions will benefit with enactment of H.R. 3015. I am pleased to say that one of those schools is North Dakota State University, the lead university in region VIII. Other schools in that consortium include Colorado State University, the University of Colorado at Denver, the University of Minnesota, the University of Wyoming, and Utah Stte University.

It is my firm belief that all of us who care about and depend on a strong transportation infrastructure will also benefit and that the economic returns will be far greater than the modest investment being made by the Federal Government in the program. I very much appreciate the efforts of the Transportation Appropriations Subcommittee in making this additional funding available for the current fiscal year.

Mr. President, I ask unanimous consent that a list of the universities associated with the University Transportation Centers Program be printed in the RECORD.

There being no objection, the list was ordered to be printed in the RECORD, as follows:

UNIVERSITIES ASSOCIATED WITH THE UNIVERSITY TRANSPORTATION CENTERS PROGRAM

July 27, 1989

REGION I

Lead University: Massachusetts Institute of Technology.

Consortium Schools: Harvard University (MA), University of Connecticut, University of Maine, University of Massachusetts at Amherst, University of New Hampshire, University of Rhode Island, University of Vermont.

REGION II

Lead University: The City University of New York.

Consortium Schools: Cornell University (NY), New Jersey Institute of Technology, New York University, Polytechnic University (NY), Princeton University (NJ), Rensselaer Polytechnic University (NY), Rutgers State University of New Jersey, State University of New York, Albany, Stevens Institute of Technology (NJ), University of Puerto Rico,[1] University of Virgin Islands.[1]

REGION III

Lead University: Pennsylvania State University.

[1] Historically black colleges and universities or minority institutions.

Consortium Schools: Morgan State,[1] University of Pennsylvania, University of Virginia, Virginia Polytechnic Inst & State Univ., West Virginia University.

REGION IV

Lead University: University of North Carolina, Chapel Hill.

Consortium Schools: Duke University (NC), North Carolina A&T State University,[1] North Carolina Central University, North Carolina State University, Raleigh, University of Florida, Gainesville, University of Kentucky, Lexington, University of North Carolina, Charlotte, University of North Florida, Jacksonville, University of Tennessee, Knoxville, Vanderbilt University (TN).

REGION V

Lead University: University of Michigan, Ann Arbor.

Consortium Schools: Central State University[1] (OH), Michigan State University, Michigan Technological University, Northwestern University (IL), Wayne State University (MI).

REGION VI

Lead University: Texas A&M University.

Consortium Schools: Texas Southern University,[1] University of Texas at Austin.

REGION VII.

Lead University: Iowa State University.

Consortium Schools: University of Iowa.

REGION VIII

Lead University: North Dakota State University.

Consortium Schools: Colorado State University, University of Colorado at Denver, University of Minnesota, University of Wyoming, Utah State University.

REGION IX

Lead University: University of California, Berkeley.

Consortium Schools: California State University, Long Beach, University of California, Davis, University of California, Irvine, University of California, Los Angeles.

REGION X

Lead University: University of Washington.

Consortium Schools: Oregon State University, Portland State University (OR), University of Alaska at Fairbanks, University of Idaho, University of Portland (OR), Washington State University.

Mr. LAUTENBERG. Mr. President, at this point, I ask that the Chair lay before the Senate the conference report on H.R. 3015, the Department of Transportation and related agencies appropriations bill for fiscal 1990, and ask for its immediate consideration.

The PRESIDING OFFICER. That report is pending.

Is there further debate on the report? If there is no further debate, the question is on agreeing to the conference.

The conference report was agreed to.

Mr. LAUTENBERG. Mr. President, I move to reconsider the vote by which the conference report was agreed to.

Mr. D'AMATO. I move to lay that motion on the table.

The motion to lay on the table was agreed to.

AMENDMENTS OF THE HOUSE TO THE AMENDMENTS OF THE SENATE IN DISAGREEMENT

Mr. LAUTENBERG. Mr. President, we are now about to consider the amendments that are in technical disagreement. There are a number of amendments about which there is no dispute at all. They have been considered and agreed to by the House. These resulted from the House-Senate conference on the transportation bill.

However, there is one amendment that we would ask unanimous consent on, amendment 136, which is the last in the list of amendments. That amendment is something on which the President pro tempore of the Senate, the chairman of the Appropriations Committee, has devoted his considerable energies and skills to developing, and that is the so-called drug amendment. I ask unanimous consent that amendment No. 136 be held out for consideration and that it be acted upon at the request of the Republican leader no later than the close of business on Tuesday, November 14—we are just now talking about this single amendment—and that the rest of the amendments would then be discussed.

I once again proffer that unanimous-consent request that amendment 136 of the amendments in technical disagreement be held out from consideration, to be acted upon no later than the close of business on November 14.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. COATS. Mr. President, reserving right to object, I wonder if I may ask the Senator from New Jersey, does he intend to go forward with the other amendments in disagreement immediately?

Mr. LAUTENBERG. Immediately. Because, I say to the Senator from Indiana, that is the one we have complete understanding on. So we will remove that from the debate and discussion now and we will proceed with the others.

Mr. COATS. I withdraw my objection.

Mr. HATFIELD. Mr. President, reserving the right to object, I would like to make a parliamentary inquiry before I express my objection, if I should do so.

As I understand it from the chairman of the committee, the Senator from New Jersey, the purpose of withholding or exempting this one amendment is to provide a vehicle upon which a proposal may be offered by the Senator from Indiana. And my question is, is it necessary to have an unanimous-consent agreement for the Senator from Indiana to offer his proposal on this conference report?

Mr. LAUTENBERG. If I might respond to the distinguished ranking member of the Appropriations Committee, no, that is not the purpose.

The purpose is to accommodate the concerns of the Republican leader and the chairman of the Committee on Appropriations, to have the discussion on the drug amendment that they choose to have, and thereby leaving open other amendments. I would like to expand the unanimous-consent agreement, but we will attempt to do that after we have dealt with this single amendment.

Mr. HATFIELD. Mr. President, I state my parliamentary inquiry, for that purpose, now, not directed to the Senator from Indiana, but for leadership, the Republican leader and the Senator from West Virginia.

Is it necessary, in order for them to offer that amendment to this report, that we have to have this exemption from the adoption of all of these amendments in disagreement? Is that the only way they can offer their proposal?

Mr. LAUTENBERG. Mr. President, I withdraw that unanimous-consent request. We will proceed with the amendments in disagreement starting with amendment No. 1.

The PRESIDING OFFICER. The request is withdrawn.

Mr. LAUTENBERG. We have amendment No. 1 which is in technical disagreement. I ask the Senate to concur in that amendment. That amendment is now on the floor for any discussion that any of the Members of the Senate have.

Mr. D'AMATO. Mr. President, reserving the right to object, I do not know and I ask parliamentary inquiry if I can object at this point in time. I am in a position where I must object until and unless we can get an agreement, a unanimous-consent agreement, which had been propounded by my distinguished colleague from New Jersey, as it relates to amendment No. 136; that is the drug amendment which the distinguished majority leader and minority leader have agreed would be acted upon no later than the close of business Tuesday.

Failing to have that agreement, I am constrained to place an objection to moving forth, even on those other areas which we find in technical disagreement.

So I would object at this point in time.

The PRESIDING OFFICER. Objection is heard.

Mr. D'AMATO. Objection is heard. The objection does not stand?

Mr. LAUTENBERG. It is not a unanimous-consent request.

Mr. President, I understand the Senator from Indiana has an amendment that he would like to offer. I would point out to the Senator from Indiana, we heard from our good friend from New York, Senator D'AMATO, about the things that were contained in this transportation report, things that are essential. They include the Coast Guard and the drug fighting effort

they make; it includes FAA being made safer by having more controllers, more maintenance inspectors or airplanes; by having the national aviation system made safer by advancing new technology, and to have the national airspace program developed.

We have many other programs in this bill. For example, we fund highway construction programs nationwide. We read about bridges in disrepair. We have funds to improve the safety of railroad-highway crossings, in the State of Indiana, for instance.

There are highway funds that have been requested for the State of Indiana and that have been approved. There is $500,000 for an interstate highway congestion study between highways 80 and 94. There is the Indiana Industrial Corridor Safety Demonstration Project for $2.4 million; it is amendment No. 53. We have the railroad-highway crossing, railroad relocation project at Lafayette, IN, $3.5 million. That is amendment No. 35. We have, for the Federal Railway Administration, $7 million for local rail assistance. We have aviation; we have improvement grants on the priority list recommended in the Senate report for Baer Field airport; for Gary, IN, regional airport; we have a $1 million instrument landing project for Elkhart, IN.

This is $180 million included in this conference report for the State of Indiana. If the Senator from Indiana chooses to have those projects delayed, in the event we have a problem with this, getting this bill through, that is a choice he has to make. He has every right, of course, to offer any amendments that he chooses.

At this point, Mr. President, I——

Mr. COATS. Will the Senator from New Jersey yield?

Mr. LAUTENBERG. I will be done in just one second.

Mr. President, we have an understanding here that permits this unanimous-consent request to be offered again.

UNANIMOUS-CONSENT AGREEMENT

Mr. LAUTENBERG. Mr. President, I ask unanimous consent, when the Senate considers the conference report on H.R. 3015, the matter in front of us, that the amendments of the House to the Senate amendment numbered 136, not be acted upon until the minority leader, Republican leader, has exercised his right, to be no later than the close of business on Tuesday, November 14, granted by this agreement, to offer a drug amendment to the House amendment, and that the amendment of the House to the amendment of the Senate numbered 1 not be acted upon until the Republican leader or his designee has exercised his right, today granted by this agreement, to offer an amendment to the House amendment, dealing with a legislative line item veto, and that no points of order be waived by this agreement.

The PRESIDING OFFICER. Is there objection to the request?

Hearing none, it is so ordered.

Mr. LAUTENBERG. Mr. President, I yield the floor.

The PRESIDING OFFICER. The Senator from Indiana.

Mr. COATS. Mr. President, let me make a parliamentary inquiry. Is amendment in disagreement No. 1 the pending business?

Mr. LAUTENBERG. Mr. President, if I might ask the indulgence of the Senator from Indiana, with the understanding that amendment No. 1 is available subject to further amendment, would there be an objection if I asked unanimous consent that the remainder of the amendments in disagreement—Senate amendments Nos. 5, 8, 9, 13, 27, 32, 38, 42, 66, 72, 74, 90, 101, 105, 110, 113, 115, 116, 118, 119, 120, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, and 134—excluding, of course, 136, which was already dealt with, be agreed to en bloc.

Mr. COATS. I have no objection to that, Mr. President.

The PRESIDING OFFICER. Is there objection to the request? Hearing none, it is so ordered.

The amendments of the House to the amendments of the Senate in disagreement, numbered 5, 8, 9, 13, 27, 32, 38, 42, 66, 72, 79, 90, 101, 105, 110, 113, 115, 116, 118, 119, 120, 124, 125, 126, 127, 128, 129, 130, 131, 132, 133, and 134, considered and agreed to en bloc, are as follows:

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 5 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the sum named in said amendment, insert "$1,000,000".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 8 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter inserted by said admendment, insert: ", or to close or decommission any unit of the United States Coast Guard unless such closure or decommissioning was provided for in the Budget of the United States, and its supporting documentation, and was agreed to by the Congress in this Act, as provided for in its legislative history, including Committee reports".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 9 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the sum inserted in said amendment, insert "$445,500,000, of which $7,500,000 shall be derived by transfer from "Operating expenses".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 13 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the sum named in said amendment, insert "$71,100,000".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 27 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter inserted by said amendment, insert ": *Provided further*, That of the funds available under this head, $1,000,000 to remain available until expended, is appropriated and shall be available for grants under the Federal Grant and Cooperative Agreement Act of 1977 to the National Aviation Institute, Pleasantville, New Jersey, to fund research and development in the area of facilitating research by cataloguing and prioritizing aviation related research efforts and providing a central clearinghouse for aviation research

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 32 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter inserted by said amendment, insert:

UNIVERSITY TRANSPORTATION CENTERS

(HIGHWAY TRUST FUND)

For necessary expenses for university transportation centers, as authorized by section 21(i)(2) of the Urban Mass Transportation Act of 1964, as amended, $5,000,000 to be derived from the Highway Trust Fund (other than the Mass Transit Account).

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 38 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter stricken and inserted by said amendment, insert "$42,500,000, together with an amount not to exceed the amount of 1989 obligations recovered".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 42 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter inserted by said amendment, insert "Notwithstanding subsection (d) of Sec. 402 of the Surface Transportation Assistance Act of 1982 (Public Law 97-424, 96 Stat. 2155, 2156) for states which have received only development grants under such section 402 and which have participated in the Commercial Motor Carrier Safety Inspection and Weighing Demonstration Program, the Secretary shall only approve a plan under such section 402 for fiscal year 1990 which provides that the aggregate expenditure of funds of the State and political subdivisions thereof, exclusive of Federal funds, for commercial motor vehicle safety programs will be maintained at a level which does not fall below the average level of such expenditure for the last two full fiscal years preceding the date the plan is approved.".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 66 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter inserted by said amendment, insert:

ROAD EXTENSION DEMONSTRATION

For the purpose of carrying out a demonstration of economic growth and development benefits of four-lane bypasses of cities, there is hereby appropriated $11,000,000, to remain available until expended, for the acquisition of rights-of-way and other costs incurred in the upgrading and construction of a portion of a four-lane facility bypassing the cities of Pella, Iowa, and Oskaloosa, Iowa, on Highway 163: *Provided*, That all funds appropriated under this head shall be exempted from any limitation on obliga-

tions for Federal-aid highways and highway safety construction programs.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 72 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the U.S. route number named in said amendment, insert "77".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 79 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the sum named in said amendment, insert "$500,000".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 90 to the aforesaid bill, and concur therein with an amendment as follows: Restore the matter stricken by said amendment, amended to read as follows:

AMTRAK CORRIDOR IMPROVEMENT LOANS

The Secretary is authorized to provide $3,500,000 in loans to the Chicago, Missouri and Western Railroad, or its successors, to replace existing jointed rail with continuous welded rail between Joliet, Illinois and Granite City, Illinois: *Provided,* That any loan authorized under this section shall be structured with a maximum 20-year payment at an annual interest rate of 4 per centum: *Provided further,* That the Federal Government shall hold a first and prior purchase money security interest with respect to any materials to be acquired with federal funds: *Provided further,* That any such loan shall be matched on a dollar for dollar basis by the State of Illinois.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 101 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the sum inserted by said amendment, insert "$17,373,000".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 105 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the sum inserted by said amendment, insert "$44,450,000".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 110 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter stricken and inserted by said amendment, insert "Every 30 days".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 113 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter stricken and inserted by said amendment, insert:

(a) ESSENTIAL AIR SERVICE COMPENSATION.—Notwithstanding any other provision of law, the Secretary of Transportation shall make payment of compensation under subsection 419 of the Federal Aviation Act of 1958, as amended, only to the extent and in the manner provided in appropriations Acts, at times and in a manner determined by the Secretary to be appropriate, and claims for such compensation shall not arise except in accordance with this provision.

(b) USE OF DEADLY FORCE.—The Secretary shall report to the Committees on Appropriations and the Committees on the Judiciary of the Senate and House of Representatives, to the Senate International Narcotics Control Caucus, and to the Select Committee on Narcotics Abuse and Control of the House of Representatives on:

(1) All current provisions of law and regulation permitting the use of deadly force during the time of peace by United States Coast Guard personnel in the performance of their official duties—

(A) within the territorial land, sea, and air of the United States, its territories and possessions; and

(B) outside the territorial land, sea, and air of the United States, its territories and possessions.

(2) Changes, if any that may be necessary to existing law, regulations, treaty, or executive agreements to permit United States Coast Guard personnel to employ deadly force under the following circumstances—

(A) to bring down a suspected drug smuggling aircraft which has refused or ignored instructions to land at a specified airfield for customs inspection after penetrating the territorial airspace of the United States;

(B) to halt a suspected drug smuggling vessel on the sea which has been ordered to heave to for inspection by a United States vessel or aircraft and has ignored or refused to obey the order;

(C) and to halt a suspected drug smuggler who has crossed the land border of the United States illegally and who has refused to obey or ignored an order to stop for customs inspection.

(3) The required report shall be submitted not later than ninety days after the enactment into law of this Act. The required report may be submitted in both classified and unclassified versions.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 115 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter stricken and inserted by said amendment, insert:

(a) VILLAGE OF ALSIP, ILLINOIS.—Section 149(a)(3)(D) of the Surface Transportation and Uniform Relocation Assistance Act of 1987 is amended—

(1) by striking out the heading "CALUMET PARK" and inserting in lieu thereof "VILLAGE OF ALSIP"; and

(2) by striking out all that follows after "reconstruction" and inserting in lieu thereof "of 127th Street between Illinois Route 83 and Kostner Avenue in Alsip, Illinois.".

(b) WYOMING STATE HIGHWAY REST AREA.—Notwithstanding section 16 of the Federal Airport Act of 1946 or any other provision of law, the United States hereby releases the right of reversion of the United States on 7.8 acres of land at the South Big Horn County Airport in Wyoming proposed to be transferred to the Wyoming State Highway Department provided such land is used for a highway rest area.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 116 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter stricken and inserted by said amendment, insert:

(a) VESSEL TRAFFIC SAFETY FAIRWAY.—None of the funds in this Act shall be available to plan, finalize or implement regulations that would establish a vessel traffic safety fairway less than five miles wide between the Santa Barbara Traffic Separation Scheme and the San Francisco Traffic Separation Scheme.

(b) HONOLULU INTERNATIONAL AIRPORT.—Notwithstanding section 23 of the Airport and Airway Expansion Act of 1970 (as in effect on November 29, 1976), or any other provision of law, including obligations arising under grant agreements issued pursuant to the Airport and Airway Improvement Act of 1982, as amended, or implementing regulations, the Administrator of the Federal Aviation Administration is authorized, subject to the provisions of section 4 of the Act of October 1, 1949 (63 Stat. 700; 50 U.S.C. App. 1622c), and the provisions of paragraph (2) of this subsection, to grant releases from any of the terms, conditions, reservations, and restrictions contained in the deed of conveyance, dated November 29, 1976, under which the United States conveyed certain property to the State of Hawaii for airport purposes.

Any release granted by the Administrator pursuant to this subsection shall be subject to the following conditions:

(A) The property for which a release is granted under this subsection shall not exceed 4,550.2 acres of submerged lands known as Keehi Lagoon as described in the quitclaim deed, dated November 29, 1976.

(B) The property for which a release is granted shall not include submerged lands within an area 1,000 feet perpendicular to either side of the centerline of Runway 26L, extending 2,000 feet from the end of Runway 26L at the Honolulu International Airport.

(C) The use of property to which such release applies shall not impede or interface with the safety of flight operations or otherwise derogate approach and clear zone protection at the Honolulu International Airport.

(D) Any subsequent release or authorization for use of the property for other than airport purposes shall contain the right to overfly the property and the right to make noise.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 118 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter stricken and inserted by said amendment, insert:

(a) INTERMODAL URBAN DEMONSTRATION PROJECT.—Funds appropriated in this Act for "Intermodal Urban Demonstration Project" shall remain available until expended.

(b) UMTA COMMUTER RAIL SERVICE.—Section 337 of Public Law 100-457 is amended to read as follows:

"Notwithstanding any other provision of law, when a commuter rail service has been suspended for safety reasons, and when a statewide or regional agency or instrumentality commits to restoring such service by the end of 1989, and when the improvements needed to restore such service are funded without Urban Mass Transportation Administration funding, the directional route miles of such service shall be included for the purpose of calculating the fiscal year 1990 section 9 apportionment, as well as the apportionment for subsequent years. If such service is not restored by the end of 1989, the money received as a result of the inclusion of the directional route miles shall be returned to the disbursing agency, the Urban Mass Transportation Administration.".

(c) STATEWIDE OPERATING ASSISTANCE—SECTION 9(2)(A).—In any case in which a statewide agency or instrumentality is responsible under State laws for the financing, construction and operation, directly by lease, contract or otherwise, of public transportation services, and when such statewide agency or instrumentality is the designated recipient of UMTA funds, and when the statewide agency or instrumentality provides service among two or more urbanized areas, the statewide agency or instrumentality shall be allowed to apply for operating assistance up to the combined total permissible amount of all urbanized areas in which

it providers service, regardless of whether the amount for any particular urbanized area is exceeded. In doing so, UMTA shall not reduce the amount of operating assistance allowed for any other state, or local transit agency or instrumentality within the urbanized areas affected. This provision shall take effect with the fiscal year 1990 section 9 apportionment.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 119 to the aforesaid bill, and concur therein with an amendment as follows: Restore the matter stricken by said amendment, amended to read as follows: "PERMANENT PROHIBITION AGAINST SMOKING ON SCHEDULED AIRLINE FLIGHTS.—"

Resolved, That the House receded from its disagreement to the amendment of the Senate numbered 120 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter inserted by said amendment, insert:

by deleting in subparagraph (A) of section 404(d)(1) of the Federal Aviation Act of 1958 (49 U.S.C. App. 1374(d)(1)(A)) all after the words "any scheduled airline flight" and inserting in lieu thereof the following: "segment in air transportation or intrastate air transportation, which is—

(i) between any two points within Puerto Rico, the United States Virgin Islands, the District of Columbia or any State of the United States (other than Alaska and Hawaii), or between any point in any one of the aforesaid jurisdications (other than Alaska and Hawaii) and any point in any other point of such jurisdictions;

(ii) within the State of Alaska or within the State of Hawaii; or

(iii) scheduled for 6 hours or less in duration, and between any point described in clause (i) and any point in Alaska or Hawaii, or between any point in Alaska and any point in Hawaii.",

to take effect upon the commencement of the 96th day following the date of this Act, and

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 124 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number "339", insert "338".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 125 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number "340", insert "339".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 126 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number "341", insert "340".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 127 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number "342", insert "341".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 128 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number "343", insert "342".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 129 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number "344", insert "343".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 130 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number "345", insert "344".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 131 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number "346", insert "345".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 132 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number "347", insert "346".

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 133 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter inserted by said amendments, insert.

SEC. 347. Not more than $14,000,000 of the funds appropriated by this Act may be obligated or expended for the procurement of advisory or assistance services by the Department of Transportation.

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 134 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the section number "349", insert "348".

HOUSE AMENDMENT TO SENATE AMENDMENT NO. 1 IN DISAGREEMENT

The PRESIDING OFFICER. The clerk will read the amendment of the House to the amendment of the Senate numbered 1 in disagreement.

The assistant legislative clerk read as follows:

Resolved, That the House recede from its disagreement to the amendment of the Senate numbered 1 to the aforesaid bill, and concur therein with an amendment as follows: In lieu of the matter stricken and inserted by said amendment, insert:

IMMEDIATE OFFICE OF THE SECRETARY

AMENDMENT NO. 1092 TO HOUSE AMENDMENT TO SENATE AMENDMENT NO. 1 IN DISAGREEMENT

(Purpose: To grant the power to the President to reduce budget authority)

Mr. COATS. Mr. President, I send an amendment to the desk and ask for its immediate consideration.

The PRESIDING OFFICER. The clerk will report.

The assistant legislative clerk read as follows:

The Senator from Indiana [Mr. COATS], for himself, Mr. DOLE, Mr. MCCAIN, Mr. ARMSTRONG, Mr. HUMPHREY, Mr. NICKLES, Mr. MACK, Mr. HELMS, Mr. BURNS, Mr. ROTH, Mr. KASTEN, Mr. DANFORTH, Mr. MURKOWSKI, Mr. WILSON, Mr. THURMOND, Mr. GORTON, and Mr. SYMMS, proposes an amendment numbered 1092 to Senate amendment No. 1.

Mr. COATS. Mr. President, I ask unanimous consent that the reading of the amendment be dispensed with.

Mr. BYRD. Mr. President, I object.

The PRESIDING OFFICER. Objection is heard. The clerk will continue reading the amendment.

The assistant legislative clerk continued with the reading of the amendment as follows:

At the appropriate place, insert the following:

SEC. . LEGISLATIVE LINE ITEM VETO ACT OF 1989.

(a) SHORT TITLE.—This section may be cited as the "Legislative Line Item Veto Act of 1989".

(b) ENHANCEMENT OF SPENDING CONTROL BY THE PRESIDENT.—The Impoundment Control Act of 1974 is amended by adding at the end thereof the following new title:

"TITLE XI—LEGISLATIVE LINE ITEM VETO RESCISSION AUTHORITY

"PART A—LEGISLATIVE LINE ITEM VETO RESCISSION AUTHORITY

"GRANT OF AUTHORITY AND CONDITIONS

"SEC. 1101. (a) IN GENERAL.—Notwithstanding the provisions of part B of title X and subject to the provisions of part B of this title, the President may rescind all or part of any budget authority, if the President—

"(1) determines that—

"(A) such rescission would help balance the Federal budget, reduce the Federal budget deficit, or reduce the public debt;

"(B) such rescission will not impair any essential Government functions; and

"(C) such rescission will not harm the national interest; and

"(2)(A) notifies the Congress of such rescission by a special message not later than 20 calendar days (not including Saturdays, Sundays, or holidays) after the date of enactment of a regular or supplemental appropriations Act or a joint resolution making continuing appropriations providing such budget authority; or

"(B) notifies the Congress of such rescission by special message accompanying the submission of the President's budget to Congress and such rescissions have not been proposed previously for that fiscal year.

The President shall submit a separate rescission message for each appropriations bill under paragraph (2)(A).

"(b) RESCISSION EFFECTIVE UNLESS DISAPPROVED.—(1)(A) Any amount of budget authority rescinded under this title as set forth in a special message by the President shall be deemed canceled unless during the period described in subparagraph (B), a rescission disapproval bill making available all of the amount rescinded is enacted into law.

"(B) The period referred to in subparagraph (A) is—

"(i) a Congressional review period of 20 calendar days of session under part B, during which Congress must complete action on the rescission disapproval bill and present such bill to the President for approval or disapproval;

"(ii) after the period provided in clause (i), an additional days (not including Sundays) during which the President may exercise his authority to sign or veto the rescission disapproval bill; and

"(iii) if the President vetoes the rescission disapproval bill during the period provided in clause (ii), an additional 5 calendar days of session after the date of the veto.

"(2) If a special message is transmitted by the President under this session during any Congress and the last session of such Congress adjourns sine die before the expiration of the period described in paragraph (1)(B), the rescission shall not take effect. The message shall be deemed to have been retransmitted on the first day of the succeeding Congress and the review period referred to in paragraph (1)(B) (with respect to such message) shall run beginning after such first day.

"DEFINITIONS

"SEC. 1102. For purposes of this title the term 'rescission disapproval bill' means a bill or joint resolution which only disapproves a rescission of budget authority, in whole, rescinded in a special message transmitted by the President under section 1101.

"PART B—CONGRESSIONAL CONSIDERATION OF LEGISLATIVE LINE ITEM VETO RESCISSIONS

"PRESIDENTIAL SPECIAL MESSAGE

"SEC. 1111. Whenever the President rescinds any budget authority as provided in section 1101, the President shall transmit to both Houses of Congress a special message specifying—

"(1) the amount of budget authority rescinded;

"(2) any account, department, or establishment of the Government to which such budget authority is available for obligation, and the specific project or governmental functions involved;

"(3) the reasons and justifications for the determination to rescind budget authority pursuant to section 1101(a)(1);

"(4) to the maximum extent practicable, the estimated fiscal, economic, and budgetary effect of the rescission; and

"(5) all facts, circumstances, and considerations relating to or bearing upon the rescission and the decision to effect the rescission, and to the maximum extent practicable, the estimated effect of the rescission upon the objects, purposes, and programs for which the budget authority is provided.

"TRANSMISSION OF MESSAGES; PUBLICATION

"SEC. 1112. (a) DELIVERY TO HOUSE AND SENATE.—Each special message transmitted under sections 1101 and 1111 shall be transmitted to the House of Representatives and the Senate on the same day, and shall be delivered to the Clerk of the House of Representatives if the House is not in session, and to the Secretary of the Senate if the Senate is not in session. Each special message so transmitted shall be referred to the appropriate committees of the House of Representatives and the Senate. Each such message shall be printed as a document of each House.

"(b) PRINTING IN FEDERAL REGISTER.—Any special message transmitted under sections 1101 and 1111 shall be printed in the first issue of the Federal Register published after such transmittal.

"PROCEDURE IN SENATE

"SEC. 1113. (a) REFERRAL.—(1) Any rescission disapproval bill introduced with respect to a special message shall be referred to the appropriate committees of the House of Representatives or the Senate, as the case may be.

"(2) Any rescission disapproval bill received in the Senate from the House shall be considered in the Senate pursuant to the provisions of this section.
